REV. GRAVES DARBY

## Revival Slated For April 8 thru 15 at First Baptist Church

The First Baptist Church will have their Spring Revival April 8 through April 15. Rev. Mr. Graves Darby, Evangelist, is to do the preaching.

Rev. Mr. Darby is an outstanding evangelist, and has preached in revivals in every part of our state, and in each place has been received with much interest. Rev. Mr. Darby is blind, that is, he can tell the difference between daylight and night, but is unable to see to read or to recognize people by their facial features. God has used this man with his handicap in a great way. The First Baptist Church feels fortunate indeed to have him for this revival.

Rev. Mr. Darby has been in great demand. A church desiring his services must speak for him months or years ahead. For many years he has been in revival meetings for the entire days of the year. The people of this area are invited to hear this man of God proclaim the Gospel Truth.

Music for the revival will be under the direction of Rev. Moody Smith. He is the music director of the First Baptist Church. Under his direction the choir will give special selections during the revival.

If you enjoy good singing and good preaching, you will want to attend the services. The morning services will begin at 10:00 a. m. and the evening services at 7:30 p. m.

## Motorists Urged to Purchase License Tags Before 31st Deadline

Motorists in the Hico area are being urged this week to purchase their 1956 car license plates before the March 31 deadline.

Due to the illness of Judge Barrow, who annually handles the sale locally, Billy G. Wood, County Tax Assessor-Collector, will be in Hico Friday and Saturday afternoon, and motorists may purchase tags from him.

So if you haven't registered your car, truck, or pickup to date, try to do so either Friday or Saturday, as the tax officer stated that he probably wouldn't be back before the deadline.

## Mr. & Mrs. Bulloch Assume Management of Hico Theatre

Announcement is being made this week of a change in ownership of the Hico Theatre.

Mr. and Mrs. D. E. Bulloch assumed management of the local picture show Tuesday, and continuous operation is planned for the institution.

Mr. Bulloch was in Dallas Monday and Tuesday of this week making arrangements for the booking of pictures for the coming months. Some excellent features have been booked and patrons are asked to check the local paper each week for movies which they might wish to see.

Mr. Bulloch will be assisted in the operation by Ray Keller, projectionist, and Betty Booth will be in charge of concessions.

Mr. and Mrs. Creeman have not announced their future plans.

## Oscar Lowrance of Hamilton Announces Candidacy for Sheriff

TO THE VOTERS AND EVERYONE IN THE COUNTY:

I wish to announce my candidacy for Sheriff of Hamilton County. I have lived in the county 42 years. I am now 47 years of age. I was raised between Olin and Fairy, and have been in the service station business for eleven years in Hamilton. I have a wife and three boys at home.

If I have one enemy in the county I don't know it. All I know the law enforcing business is to be fair and honest, and if I am elected, that is what I intend to do.

I'll see each one of you before that date.

Thanks,  
OSCAR LOWRANCE.

## WITH OUR SUBSCRIBERS

The NR staff apparently has had Spring fever or fishing fever as we have been neglectful in reporting the renewal and new subscriptions. A month just goes too fast and the days aren't long enough any more.

The case of being too busy seems to apply to our friends, Jewel and Elizabeth Ramage of Hooks, the farm the which the Ramages recently purchased has the Red River running through it and still Jewel wrote a postscript along with his renewal check "Still haven't had time to go fishing."

Mrs. Myrtle Duncan sent in her renewal along with her usual chatty little note. Mrs. Duncan spent three months this winter in California and in Las Vegas, but said she was happy to be back at Iredell.

Mr. and Mrs. B. F. Strong (Hazel and Snooky) of Pendleton, Oregon are again on our subscription list, compliments of Mrs. B. N. Strong.

Our young friend, Mr. John Leach, stopped by the office to renew his paper and visit recently.

Mr. J. W. Autrey has the distinction of having subscribed to the NR longer than any of our present subscribers. Mr. Autrey last week renewed his paper for the seventy-second time. We think that speaks highly for the local weekly and just hope we merit the loyal subscribers as did our predecessors.

## Koonsman Test At Bottom; Casing Set On Roberson Location

Drilling on the Alvin Koonsman oil-gas test well 5 miles north of Hico was discontinued Wednesday afternoon after reaching a depth of 2,656 feet. After the well was logged the best pay sand was found to be at approximately 2,300 feet and the well was cemented off back to that depth Wednesday night.

After the cement sets 72 hours, further tests will be run and the well will be treated to determine possibility of making a producer.

Meanwhile, casing was set the middle of the week on the next test site, located approximately one-half mile northeast of the present location, on the Roberson place.

Drilling is expected to be started on the new site late this week, or the first part of next week.

## It Happened Here or Near

By E. E. DAWSON

A speaker in Houston said one day last week, that this is a good time to go fishing and cool off—or words to that effect. He was speaking in a half-humorous way of the heated controversy that is going on over the whole United States about desegregation in the public schools, and in other areas of life.

The words of the speaker were timely and ought to be heeded, whether you go fishing, or have a serious executive session with your own soul. Fanatical things are being said on both sides of the issue, and the heat has been rising rapidly in the last few weeks. It is doing great harm to the welfare of the world, and especially to our own beloved country. Do you know there is grave talk of a civil war between the opponents and proponents of segregation; in a single issue of a great daily newspaper last week were columns stating that very possibility.

We have had one civil war and the scars are still to be seen and felt among us. For heaven's sake, let's avoid another, for civil strife now would not only be the undoing of America, but it would turn the whole world over in an almost complete degree to the Communists, whom all of us believe are the greatest menace the world ever faced. Nothing would please the Reds so much as for America to be paralyzed by some catastrophe, such as civil strife.

You say it is impossible that such a thing as civil war could come in this enlightened era, this age of Christian development. I want to believe the same way, and I do not think we will come to a thing so foolish and fool-heartedly as that. But a lot of folks close to the highest sources of information in the whole land, are the ones who are saying that civil war is a possibility if the people

allow themselves to get overheated by this unfortunate issue. It is a possibility too terrifying to contemplate.

So let's go fishing, or somewhere, and cool off and get down to the main issues of life. Let's remember that the fellow who differs from us has a right to his opinions, and he may lack self-control in speaking of them. That means that we must tread softly and not hit back with as good as he sends. I once heard a neighborhood gossip talking of a spat she had had with a neighbor, and she said the neighbor had said certain bad words. The gossip put on a righteous look and said, "I can tell you I sent back as good as she gave." Then they started pulling hair.

It is time for the preachers to speak moderately. The papers have quoted a notable cleric as saying inflaming things on two occasions lately. He has slid down in my esteem several degrees, not because he has convictions, but because he adds his voice to the disturbing clamor and makes bad matters worse. I would commend the words of Jude, the half-brother of Jesus: "Yet Michael the archangel, when contending with the devil he disputed about the body of Moses, durst not bring against him a railing accusation, but said, The Lord rebuke thee." Jude was a man whose Christianity was of the highest type and he believed that folks ought to be mild when they get into controversies, even with the very worst.

I have convictions, but I do not feel called on to go around shouting them from the house tops. Nor do I feel that I am untrue to sound doctrine and orthodox faith because I do not say irritating things about all who differ from me. I am sure that Jesus would not go about raising Old Ned because somebody failed to agree with him on a political or social matter.

## COUNTY AGENT REPORTS

By E. R. LAWRENCE

Herman Schrank, Aleman, is getting into a new business this year that seems to be a profitable one. Herman has dug six tanks on his place that he has stocked with minnows. He also has three other tanks on his place that he will get water from in case of an emergency. With the minnow dealers are having a hard time supplying their customers. Herman is going to try to do something about this short supply of minnows. Minnows bring as high as \$15.00 a thousand and it is no trick at all to grow a thousand minnows.

Marvin Somerfeld, Aleman, is also in this same business and has been for some time. Marvin has eight tanks he uses to grow his minnows in. He feeds them cottonseed cake, alfalfa hay and sometimes he uses a commercial dog food. The dog feed is used mostly when Marvin traps his minnows for sale. He takes a half gallon fruit jar with a cone lid on it, puts some dog food in the jar then lowers it along the side of the tank and in a few minutes it will be full of minnows. He says he puts out four or five of these traps at a time and that when the minnows start feeding, it takes some fast work emptying the traps. He has sold minnows for as much as \$15.00 per thousand. Marvin and Herman are fortunate in that they have places on their farms where their tanks fill from underground seepage from springs. This gives them an almost constant level of water in their tanks and they don't have to worry about them going dry in the summer.

Anyone know a good way to poison coons or at least how to keep them out of a young corn field? If you do, I'd appreciate

...WITH A LOW PRICE TAG TO BOOT!

It's your kind of car... this handsome, rugged *Texan* by Dodge! At the very first glance, you'll know this is true. And when you take the wheel and "give the gun" to its mighty, aircraft-type, Super Rod Ram V-8 engine, your enthusiasm will burst all bounds. For the *Texan* boasts a power-plant just like the sturdy Dodge that made automotive history on the celebrated Bonneville Salt Flats in Utah.

Surely you've read or heard recently how a '56 Dodge stock car shattered 306 AAA records for endurance and speed in that sensational 14-day, non-stop run. In this officially witnessed performance, Dodge covered the first 10,000 miles at an average speed of 105.43 miles per hour... then went on to cover more than 31,000 miles of round-the-clock driving at a record-breaking clip. This is the greatest distance at the fastest pace any car has ever travelled.

Now this handsome, flair-fashioned, specially trimmed *Texan* offers you the same rugged endurance and the same eager power as the Dodge that established these records. What's more, your biggest surprise is still to come!

Most likely, you'd expect to pay a pretty price for a great car like this. *Not so!* The *Texan* is priced right down with the so-called "low-priced three." Yet it's big and powerful and luxurious... actually rivaling cars costing as much as a thousand dollars more!

Never will you find a better "buy" nor make a better deal than your nearby Dodge dealer will give you today. Come in today and see the *Texan* close-up. Then judge for yourself.

REPORTERS—Julia Hodges, Betty Drake, Jerre Dunklin, Judy Holladay, Linda McLendon, Margaret Parks and Maxidine Luckie

Due to the fact that nothing particularly exciting occurred at Ole Hico High this week, we regret to say that the Mirror doesn't fill the entire space that it usually does.

Next week, though, we will be back with a Mirror bubbling over with happenings of the week and it will be sparkling with fun and new ideas.

**SPOTLIGHT**

Due to unavoidable circumstances the Spotlight didn't appear last week. I heard a number of sighs of relief from some of the kids when they couldn't find it.

Friday night I caught James D. and Bonnie J., Sherrel K., Linda M., Wayne D., Margaret P., Jerry N., and Gayle H. at Stephenville enjoying a show at the drive-in. I decided that was enough of the bright lights for awhile and headed for the country. I found Raymond L. and Sherry H. enjoying a game of dominoes at the home of Mr. and Mrs. George Kilgo.

Early Saturday night I spotted several couples around Hico. Some

of them were Raymond L. Sherry H., James D., Bonnie J., Charles T., Kay J., LaVon P., Judy M., James L., Jerre D., Buddy T., Reggie E., Jerry M., Gale H., Bryce B., and Mariletha C. Enjoying a show at Stephenville were Sherrel K., Linda M., Sonny T., and Margaret P. I saw several couples at the mid-night show. They were Don T., Jean A., Gerald H., Louise B., Butch E., Janice T., Kenneth D., Peggy A., Andy L. and Kendall H.

Sunday afternoon most of the kids went to Stephenville to see the show I saw a whole car load of girls headed that way. That was some show wasn't it girls? I also saw Margaret P. and Sonny T. at the show.

Sunday night around town were James D., Bonnie J., Ronnie K., Louise B., Joe C., Valetta H., Sherrel K., Linda M.

Everyday after school I see a lot of cars heading down the hill. One afternoon as I investigated I almost got run over in the rush to see who got to play ping-pong first. All the kids really have a good time down there. Thanks a

lot for the use of the tables and building Bro. Garrett.

Mnday night there were lots of couples at the Clyde Chesser show. Those who I caught in my Spotlight were Charles S., Myrna M., Sherrel K., Linda M., Reggie E., Buddy Teague, Jo Ann N., Alton R., Valetta H., Joe C.

That's about all for this week. I will try to have more news next week.

"NEGOTIABLE INSTRUMENTS"

The average person does not often use the term "negotiable instruments" in his everyday conversation, and the words may not mean much to him. Actually, it is just a mouth-filling term used in law to describe certain important pieces of paper that we normally call by simpler names.

Even though we seldom use the words, we deal with negotiable instruments all the time. Every check we write to pay the gas bill is a negotiable instrument, and so is your paycheck or pension check. The note you sign to buy a new car, the money order you purchase at the bank or post office, or the traveler's checks you take with you on a trip instead of cash, all are negotiable instruments.

It was all started by merchants who had to send large sums of gold or currency between cities or nations. They worked out a way to exchange money, or the value of money, by written messages, much of the time through a third party like a broker or bank. But when you deal in pieces of negotiable paper instead of hard money, there have to be certain standards and safeguards or the paper could lose its value.

Consequently, there developed a whole system of laws within nations and between nations, upon which all our business rests. Through the courts, if necessary, the owners of negotiable instruments may enforce the terms written on the paper.

In the United States things used to be confusing some times because of different state laws, but by 1924 all 48 states had adopted a Uniform Negotiable Instrument Law which sets up the same rules nationwide.

Since so-called negotiable instruments are so important; since they often are used like money, or are sold to other persons or companies, and since there are special laws defining the ins-and-outs of negotiable instruments which we wouldn't ordinarily have any reason to know about, there are one or two simple rules we should follow.

We should make certain we read what's on the paper, that we know what the words mean, and what the penalties and dangers may be, before signing our name.

Remember: You are the only person in the world with that signature, and the courts, as a rule, must take your signed promises at their face value.

Washington

"As It Looks From Here"

OMAR BURLESON Congressman 17th District

Dr. Sterling Price, pastor of the University Baptist Church of Abilene, is conducting a meeting at the Second Baptist Church here in Washington during this week. Dr. Jay Ray Garrett is the local pastor.

It was a pleasure for me to arrange for Dr. Price to deliver the opening prayer in the House of Representatives at noon, March 19.

Not meaning to blow my own horn, but I think people are always interested when a little of the taxpayer's money is saved.

By an amendment which I offered to a money bill on the Floor a few days ago, the sum of \$125,000 was cut from the bill. The way money is spent in Washington, this not very much, but it isn't exactly "hay" either.

The new Air Force Base in Abilene will become a vital link of our Strategic Air Command.

The Strategic Air Command is that arm of the Air Force which must retaliate against an enemy attack by delivering bombs to enemy territory.

The deterrent effect of a ready strategic bomber force is the best insurance we have against attack. But if nuclear retaliatory units are not ready, the lives of millions of Americans might be forfeited. The fate of our nation could be decided in a day.

Unfortunately the Strategic Air Command is woefully short of certain highly skilled mechanics and technicians. The shortage of skilled aircraft maintenance men is serious.

In the first place, it takes a man with a pretty high I. Q. to be accepted for training in certain of these technical branches. It costs well over \$20,000 per man to even train them.

By the end of the four-year enlistment period, the Government will have spent approximately \$22,500 in training a mechanic. The training requires about two and one-half years, and at the end of his enlistment period, he will have given 18 months' service. Only 20 per cent re-enlist.

It costs in the neighborhood of \$616,000 to qualify one B-52 pilot to handle the 600 to 700-mile an hour jet bombers, and most of them are well past 30 years of age.

While we talk of the lack of funds to build more modern aircraft the "Achilles' heel" is the shortage of this highly trained personnel. Bombers waiting on the ground are of no use. Bombers of the Strategic Air Command have got to be over the docks, manufacturing and military centers of the enemy with bomb-bays full, if they are to do us any good.

In a short time we will be seeing a lot of these boys in the area in and around Abilene. It might help us to realize that many of them are the most expertly trained men in the world, and that they carry the fate of our nation in their ability to properly perform their duties.

The Tri-County League of Vocational Nurses met Thursday evening, March 1 in Stephenville in the Girl Scout Cabin, with 21 members and 9 guests present.

Very little business was transacted, since this was the conclusion of the first quarter and the meeting was to be a strictly social affair. However, there were some compulsory matters which were brought before the house including the recognition of seven new members. They are Julia E. Salberg, Lillian Pierson, Etta Lou Dahl, Dorothy B. Walsenben, Juanita Faye Wallace, and Dorothy Faye Sinderud, all of Clifton, and Rotha Booth of Hico.

The program, directed by the Stephenville Hospital staff, furnished a full hour of entertainment for those present. Mrs. La Frell, her three daughters, Edra, Anne and Lee and Mrs. Mackey rendered a beautiful arrangement of music, consisting of violin and piano solos, tap dancing and singing.

Easter flowers were used to decorate the building and the refreshment table, laid with a white linen cloth was centered with an arrangement of jonquils and greenery. Slices of home-made pie and hot coffee, with tiny Easter eggs as plate favors, were served.

Unusual enthusiasm has been prevalent among members of this league lately because of its expansion. With each meeting in the last several months it has been increased with new members from the hospitals in the surrounding areas. This has been an inspiration to all members and especially to those charter members who have worked so diligently for its expansion.

We have a high southeast wind this morning, Tuesday, which has been quiet chilling compared to the beautiful spring-like weather we had on Monday. Most everyone seemed to be taking advantage of the weather and were gardening or cleaning yards.

Uncle Bob Parks, who has been ill for the past several weeks, remains about the same.

Mr. and Mrs. Marvin Porterfield of Pottsville were Fairy visitors Monday.

Mrs. Claude Jones and little daughter, Caudette of Alice were supper guests of her sister-in-law, Mr. and Mrs. Frank Hanes last Friday. On Sunday all visited in the home of Mr. and Mrs. Pedro Jones of Lanham, parents of Mrs. Hanes. Mrs. Jones and little daughter spent the week end visiting with her parents, Mr. and Mrs. C. M. Broyles and Mr. and Mrs. Pedro Jones.

The writer attended singing at Warrens Creek Baptist Church Sunday afternoon. On our return to Hamilton we visited a while with Mrs. Minnie McCarty at the rest home. Glad to report her doing nicely.

Another birthdate for this month is that of Miss Lynda Driver, who is 14 today, March 20. The information was given to us by her grandmother, Mrs. Lucille Snyder of Hico.

The writer and daughter, Mrs. Carl Ray Sellers and daughter, Carolyn were in Dublin last Saturday where we visited in the home of our daughter and sister, Mr. and Mrs. D. E. Allison. We accompanied Mrs. Allison to Stephenville on a business tour while there.

Mrs. Walter Abel was in Hico Monday for a physical check-up. She had suffered a severe attack of indigestion. We hope she will soon be feeling much better.

Clyde Chesser and his Texas Village Boys rendered a program at Hico Monday night. On their return home they came by Fairy and stopped at the home of Prof. and Mrs. Frank Hanes and enjoyed refreshments of cake and coffee.

Mr. and Mrs. Alga Duncan spent the week end in Wichita Falls with their son, Archie, who volunteered for the Air Force about three months ago. We had missed seeing Archie around but had not learned of his enlistment. Here's wishing him the best of success while in service to his country.

Mrs. L. R. Miller and Mrs. J. W. Abel honored the Fairy Boys basketball team and their coach and wife, Mr. and Mrs. Boyd Lowry, with a dinner Friday evening in the home of Mrs. Abel. Also present for the occasion were Thomas Abel and Rusty Harris.

Mrs. Gerald Lovett of Fort Worth spent the week end in the homes of her parents and sister, Mr. and Mrs. J. L. McCoy and Mr. and Mrs. Scott Blakley and Lera Jane.

Lewis Heyroth of the west Lanham community came near being seriously injured during the recent icy weather, when his pickup truck overturned when he drove onto the ice covered bridge at Sycamore Creek near the Wesley Jones home. Sample of the 100,000,000 colorful '56 Easter Seals mailed in Texas this week is discussed by Mrs. Henry J. Martyn, Jr. (left) and Mrs. Temple J. Barcafer, typical volunteers among the hundreds of Texans who annually give their spare time during the Lenten season for preparation of the huge Texas mailing. The 1956 Easter Seal Appeal, which opened March 10, will send the Seals into 1,900,000 Texas homes with an appeal for funds to aid thousands of crippled Texans. Mrs. Martyn and Barcafer are officers of the Women of Rotary Club of Dallas, one of the many organized service groups over the state which help in preparation of the Easter Seals.

crash but by the time they could get out to the highway someone had picked up Mr. Heyroth. We never learned the extent of his injuries but see he is able to be up and about. His pickup was badly damaged.

Mr. and Mrs. A. B. Clark were dinner guests of Mr. and Mrs. J. W. Abel Sunday.

H. O. Porter of Hamilton was in our vicinity Tuesday on a veterinary mission.

An epidemic of virus seems to be sweeping through this community. Mr. Leonard Wood was taken to the Hico Hospital last Sunday week. Mrs. Wood, who was staying with Mr. and Mrs. Hub Wolfe at night during her husband's absence came down with it. A few days later Mr. and Mrs. Wolfe became victims. Mrs. Bill Lackey also fell victim while trying to help Mr. and Mrs. Wolfe. She and her son, Harold were both hospitalized a few days last week and at last report Mr. Lackey had contacted the virus and was a patient in the hospital. Mrs. Hersal Richardson and son Jerry were also victims last week. Seems from reports the attacks are very severe. We sincerely hope all are much better by this time.

**ARE FARM TAX RATES FAIR?**

By John C. White, Commissioner

It's income tax season again, and some farmers may have received some net income above expenses in 1955. If you're one of these, here's a suggestion for some self-education in tax policies which may help you to understand why some people are so willing to make big cash contributions to the election campaigns of some Congressmen and Senators.

You must report your income and pay the tax on it, before April 15. As soon as you have filled out one set of blanks, start over again on the other set.

But this time, instead of figuring your tax as you did on income that you earned by working for it, figure it as if you had received it all in the form of dividends from corporations.

You will discover that the tax law enacted in 1954 gives about a 25 per cent saving to people who don't work for a living.

For example, a farmer and wife with two dependent children and the standard deductions would

have to pay a tax of \$416 on an income of \$4,999. (That's the top income for which tax can be computed by the tax table.)

But another man and wife and 2 children who got their income from corporation dividends instead of by milking cows and mowing hay would have a tax bill of only \$317.

That's a penalty of \$99 which the farmer has to pay for living on the wrong side of the economic tracks and having to work for his income instead of getting it from investments in corporations.

A stockholder without children gets an even higher premium to reward him for not having to work for his living. A playboy bachelor stockholder who clipped \$4,999 last year on the General Motors stock his daddy left him would pay \$164 less in tax to Uncle Sam than a bachelor farmer who dug an equal \$4,999 out of the cotton field.

**GUNS OF DEATH**

By Inspector Paul H. Ashenbust  
Dallas Police Department

The guns of death to which I refer are the useless and unused guns. Quite often they are the unloaded guns. Do you have a useless death weapon in a dresser drawer at home, an almost forgotten gun which has lain there unused and unnoticed for months or years? If so, we pray that this unnoticed potential instrument of death will continue unused and unnoticed; unless, of course, you would notice it enough to rid yourself of it.

I am not one of those who cry, "Do away with guns! Prohibit the possession of a pistol by law!" But this must eventually be done if a better way cannot be found. Common sense tells me that they should be removed from the reach of the drunkard, the idiot, the careless and the children of the home, and years of experience have shown me that they are unsafe when the safety rules are not only not used but unknown. A rattlesnake is not dangerous in a cage. A pistol is dangerous even where constant vigilance is exercised and all safety rules known and practiced. You just have to relax your vigilance a second and a death may result.

Our boys and our girls play cops and robbers now. They emulate sheriffs and bad men, outlaws and Indians. They have their own belts and pistols and practice the fast draw. They are definitely gun conscious. They are interested in guns. They are not afraid of guns.

What is more natural than for a boy of nine or ten or even fourteen or fifteen to want to handle that old forgotten gun in the trunk or clothes closet or dresser drawer? What is more natural than for him to show it to the neighborhood gang. Death to most of them is something that happens on a TV screen, and it usually happens to the bad men, not the good man and is passed over so lightly and seen so often that it seems almost unimportant.

They do not realize the potentialities of grandpa's old thumb buster or Daddie's automatic, a war souvenir.

But they learn. They learn too late! You read the papers. The tragedy touches you lightly unless you know the boys. But you read about the boy, the eager, lively, good looking American boy who is suddenly terrified and sick when the gun goes off and his neighborhood playmate lies bleeding and gasping and dying.

This is not a TV story. It is not imaginary. They do run fairy tales on the front page of our newspapers, and that is where you often see this story all too often.

Of course there are variations—"Dropped Gun Goes off and Shoots Man," "Accidentally Shoots Self With Unloaded Gun," "Killer Drunk and Does Not Remember

Shooting," "Crazed Killer Kills Four," "Child Kills Mother With Gun Left Under Pillow."

Would you keep a rattlesnake or spread poison around where your children could get it? Do you advise them to play with matches?

Why not rid your home of that gun of death. The least you can do is lock it up out of reach. Don't you agree that we are having too many unnecessary tragedies? I was shocked and frightened when a police detective of many years snapped his unloaded revolver in headquarters, the bullet passing within inches of his captain's head to crash into the wall. I was sickened not too long ago when the only son of a neighbor was killed by a playmate as they examined a pistol found in the home. A lasting impression resulted from an incident many years ago when a young child killed his sleeping mother with the pistol left under his pillow by his daddy, a police officer whom I knew.

Guns are fired in anger which would not have been fired had they not been so accessible. Guns are fired by sick people, old people, despondent people and drunk people which would have not been fired had they not been at hand.

Your kids love to play. Help them to play, to be happy, but keep that gun out of reach. Keep them playing and laughing.

**SOCIAL SECURITY OFFICER WILL VISIT HAMILTON**

Clergymen, Christian Science practitioners, and those members of religious orders who have not taken a vow of poverty, may now, at their own individual election, be covered by social security under the same terms as if self-employed persons, according to Ed Winslow, Field Representative of the Waco District Office of the Social Security Administration.

In general, he will have two years in which to make his election, but once made, it cannot be revoked. To obtain coverage, the individual minister, Christian Science practitioner, or member of a religious order must file a Treasury

Department Form 2031 with the District Director of Internal Revenue indicating his desire to come under the law. Mr. Winslow stated that the clergyman then must report his earnings and pay the social security tax for every year in which he has net earnings of \$400 or more from services performed in the exercise of his ministry, or in the exercise of duties required by his order. The earliest this can be effective is for taxable years ending after 1954. For more information contact Mr. Winslow, who will be in Meridian at the County Treasurer's Office between the hours of 10 a.m. and noon on March 27.

## Bubble Lenten Leavings Away

There are countless menus to help today's homemaker in planning Lenten meals, but the aftermath of cleaning up the sticky residue of cream sauces, cheese and egg dishes is still a problem. And who enjoys the aroma of last night's fish in the house?

Like all house-keeping chores, the clean-up task is lightened by good organization and know-how.

The casserole dish that goes from oven to table is a boon to meal-making, but it can be difficult to clean. Be sure to grease all casseroles well, and be careful not to let them bake too much lest the food burn 'round the edges. Immediately the meal is over, whisk them to the kitchen, remove the left-overs and fill the dish with cool, sudsy water.

Everything that comes in contact with fish should be soaked in cool suds as quickly as possible, and the wise cook keeps an air spray handy to keep the air smelling sweet.

Don't be in a rush to do the dishes. Let the silverware, dishes, pots and pans used for goosy eggs or cheese soak in cool soap or detergent suds. Let them work while you rest for a while. When it's time to clean up, use a stiff vegetable brush laden with suds to scrub away stubborn stuck-on food. Steel wool will do the finishing job on scorched foods or flame soot.

Develop your technique on the clean-up as well as meal planning, and Lenten meals won't ever be a burden to you.
