FAIRY

By
Mrs. Eunice Daniel

We received about one-half inch of rain last week, which began falling during Friday night and fell slowly throughout most of Saturday. Grain is looking much better and heading fast, but at best can't make much. At this writing, Tuesday, we have good indications of more rain.

We were very sorry to learn today, Tuesday, of the passing of Mrs. Fred Warenkin of San Antonio, who died about a week ago. Mr. and Mrs. Warenkin resided in the Fairy community on the old Shields place until last fall when they moved back to San Antonio where they resided before moving here. Mrs. Warenkin is the former Willie Simons Bonner and was reared in the Fairy community. She was 65 years old. Mrs. Warenkin had been ill of a heart ailment for several years and passed away very suddenly as she sat in a chair at her home. We extend sympathy to those bereaved in her passing.

Mrs. Scott Blakley and daughter, Lora Jane, visited from Friday until Sunday in the home of her sister, Mr. and Mrs. Gerald Liecett and other relatives of Fort Worth.

Mr. and Mrs. Carl Ray Sellers, Carolyn and Jimmie Don were dinner guests Sunday of his parents, Mr. and Mrs. N. S. Sellers of Hamilton. They brought his parents out Sunday afternoon for a visit in their home, and also to visit their daughter and family. Mr. and Mrs. Raymond Jones and children.

Mr. and Mrs. Odus Claxton and Lynn of Bradshaw visited in the home of their daughter and sister, Mr. and Mrs. Leon Springer and family during the week end.

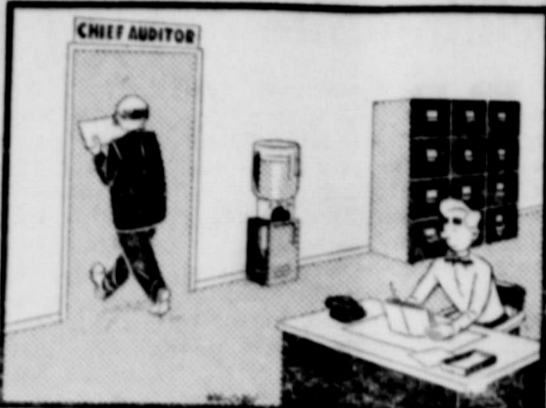

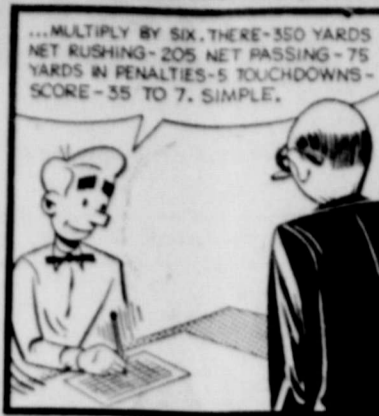

This Friday has been set for our annual Cemetery Working. We hope to see a goodly number present and much good accomplished. While at the cemetery Monday was noticed that several have come and worked their lots and we hope many more are worked before the meeting date, and come and be with us.

Uncle Bob Parks has been very poorly for the past several days. He enjoyed a visit from all of his children last Sunday.

Mr. and Mrs. Milford Miller and Ronald of Fort Worth came in Friday for a visit with their parents, Mr. and Mrs. A. J. Miller and Mrs. M. E. Parks and Audie. While here Milford carried his par-

ents to Winters to attend funeral services for a relative.

The writer attended singing Sunday afternoon at Providence Baptist Church. The regular singing there each fourth Sunday afternoon was discontinued with last Sunday's meeting.

Mr. and Mrs. Marvin Porterfield of Pottsville were Fairy visitors Monday. They came to bring some of their household effects, as they had moved recently to another partly furnished home in the Pottsville community and didn't need them.

Mr. and Mrs. J. T. Jackson are entertaining a new granddaughter in their home, since the arrival of the little miss, born Sunday morning at Hico Hospital to Mr. and Mrs. Dorman Vance of Fort Worth. They have another small daughter, Cindy. Mrs. Vance is the former Louise Jackson of Fairy.

Mrs. E. M. Hoover and mother, Mrs. Annie Newman of near Duffau visited Tuesday of last week in Moody with their aunt and sister, Mrs. Laura Nelson and other relatives.

We are glad to report Mr. and Mrs. Byrd Slater able to be at home again and up and about.

A pink and blue shower honoring Mrs. Leon New of Fort Worth was held at the home of her grandmother, Mrs. Clark of the West Lanham community with Mrs. Beatrice Oglesby and Mrs. Robert Streater as hostesses.

We are sorry to report that Mrs. Emma Ogle has been ill again. We hope she will soon be feeling much better.

Mr. and Mrs. Vernon Jackson and family of Grand Prairie spent the week end with his parents, Mr. and Mrs. J. T. Jackson.

T. L. Betts carried a load of lambs to the Fort Worth market Monday night.

We failed to state in last week's news that Leon New had received his discharge from the service about a month ago. He and his wife are now residing in Fort Worth where he is employed.

Seems there has been little interest shown thus far in the vaccination of dogs in this community. We hope our readers will think the matter over and sign up at the Goynes Store so we can get this done soon.

Mr. and Mrs. Sherman Gardner and little twin son and daughter of Fort Worth spent the week end with her parents, Mr. and Mrs. Marvin Noland.

Mr. and Mrs. Floyd Noland of Hamilton spent Saturday night in the home of his brother, Mr. and Mrs. Marvin Noland. On Sunday they went to Seiden for a visit with another brother, J. F.

Noland and family. The Floyd Noland formerly resided at Fairy, but had resided on the Perry place in the Blue Ridge community for the past several years, until last fall when they moved to Hamilton.

Mr. and Mrs. Bert Wright of Mart and their son, Curry and wife of Austin, Minn. were Fairy visitors Tuesday. Their children and families had spent the week end with them, with the exception of one son, Speck and wife of Carlsbad, N. M. Mrs. Wright stated that her daughter, Mattie and husband of Waco, recently lost their home and contents by fire, and Mattie's son-in-law was one of the airmen killed in a plane crash near Bryan when six men lost their lives.

Mrs. Wright also stated that one of her daughters-in-law had passed away last year. She was the wife of Mush Wright. The Wright Kiddos all wore nice names and it has been so long since they resided here, we can remember nicknames only.

Thanks to Mr. and Mrs. Hardy Parker of Hico for a donation of \$2.00 for the Fairy Cemetery Association.

IN THE NAME OF THE LAW

CONTRIBUTED IN THE PUBLIC INTEREST BY TEXAS POLICE ASSOCIATION

By O. B. ELLIS General Mgr., Texas Prison System

The two most serious problems facing the Texas Prison System are provisions for adequate housing for an ever-increasing prison population and those created by the criminally insane and the mentally irresponsible.

The prison population in Texas has increased more rapidly than that in most states due to the fact that the general population is increasing because of favorable economic conditions. Another factor is that there is a definite rural-to-urban shift. During the past eight years the population of the state has increased 20 per cent, while the population of the Texas Prison System has increased 75 per cent. Since 1947, the inmate population in Texas has grown from 5,998 to 8,900.

In the years before 1947, the Prison System of Texas was recognized as one of the worst in the country; but now, due to better facilities, more efficient operation, and a better administrative setup, it is recognized as being among the first five or six of all states.

The facilities of the Texas Prison System are badly overcrowded. Stacking men too close together breeds trouble. There is every indication that the inmate population will continue to increase and at approximately the same rate. We have every reason to believe that by 1961—only five years from now—the prison population will be 12,000. Housing units cannot be built overnight. Every good executive plans for the future of his business. We would be derelict in our duty if we did not anticipate our problems of the future and try to devise ways to meet them.

It is the belief of the Prison Board members and the prison staff that provisions must be made for an immediate and long-range housing program. In this planning we have tried to make full utilization of existing structures and have kept in mind operating manpower and economies of operation. Land-man ratio has also been taken into account.

The space contemplated in the long-range program provides housing for 3,459 additional men. If the prison population continues to increase at the same rate as during the past three years—and every indication is that it will—it would be only five years and two months before the new facilities would be used to full capacity.

The additional facilities are not just desirable; they are imperatively needed.

Texas is very conservative in comparison with what other states are spending, both as a total figure and on a per-man basis. One of the states bordering Texas, with approximately one-third the prison population of Texas, has spent in the last four years \$7,000,000 for a new prison. Another state bordering Texas with a prison population 10 per cent of ours, is spending \$6,500,000 for a new prison.

Prison authorities are of the opinion that approximately 75 per cent of the inmate population should be housed in single cells. At present only about 25 per cent of the prison population in Texas can be housed in this manner. Long-range planning provides for housing approximately 45 per cent in individual cells.

Both the Prison Board and the Board for State Hospitals and Special Schools have serious problems in dealing with the criminal insane who present real hazards to both systems, and neither has facilities for dealing with them. The mentally irresponsible create a majority of the problems which arise. Facilities and an adequate staff are lacking for proper care and treatment.

The courts are sending to the Prison System many men who are insane, have been in insane hospitals in the past, or who are seriously maladjusted from a mental standpoint. Prison is not the place for them, but the courts are in a dilemma, since there is no place available for their adequate custody or treatment.

At present, the Texas Legislative Council is making a study of the problem of caring for the criminally insane. There is need in Texas for a separate hospital for these people in order to reduce the problems of both the Prison System and the hospitals.

Since 1948, two governors and six sessions of the Legislature have accepted the recommendations of the Prison Board by appropriating monies to develop the Prison System. The press and civic and church organizations have also assisted in the rehabilitation program of the Prison System. The Texas Prison System now

rates with the best prisons in many respects, but it is sadly inadequate in housing facilities.

Highlights and Sidelights . . .

By VERN SANFORD Texas Press Association

Harmony may yet come to the Democratic party in Texas.

But it will come only if Gov. Allan Shivers, Sen. Lyndon Johnson, and Speaker Sam Rayburn get together—as they did when they named Lt. Gov. Ben Ramsey national committeeman.

A backer of Senator Johnson as Texas' favorite-son candidate for President suggests that the Senator seek only the favorite-son role and not attempt also to be chairman of the delegation.

Both Shivers and Johnson have been recommended as chairman—each by a different faction—Shivers by the conservatives, Johnson by the liberals.

Mrs. H. H. Weinert of Seguin is the "dove of peace" in the present controversy. She is Texas' Democratic National Committeewoman.

She predicts that the state convention will end up with two delegations to the national convention unless Shivers, Rayburn and Johnson get together soon.

Meanwhile a full-fledged campaign is under way by Johnson boosters, for his nomination as Texas' favorite son candidate for President. Prominent Texans aligned with the movement include Speaker Rayburn, former Vice President John Nance Garner, former Gov. Miriam A. Ferguson, and former Congressman Lloyd Bentsen Jr.

Shivers, who likes Johnson in the favorite son role, but not as head of the delegation, predicts that his conservative group will win out in the May 3 precinct, May 8 county, and May 22 state conventions. Liberals say that, should this happen, they will send a contesting delegation to Chicago in August.

Newcomers Due in Legislature. New faces can be expected when the 55th Legislature convenes next January.

Some 66 races—53 in the House and 11 in the Senate—already are underway over the state. More filings are expected before the May 7 deadline.

Some political observers predict an unusually large turnover in both houses.

Of the 16 senators whose terms are expiring, two will not be candidates. They are Warren McDonald of Tyler and Gus J. Strauss of Hallettsville. Another vacancy was created by the death of Sen. Wayne Wagonseller of Bowie.

Of those running, only five do not have opponents. They are Sens.

the money that was in it. Under the law the finder of either lost or mislaid property should make a "reasonable effort" to find the real owner.

When articles are left on a train or bus, in a public hotel room, or even when dropped on a shop floor, under circumstances indicating that the true owner will later return to claim them, such items are not considered lost. The proper custodian to hold them for the owners return would be the proprietor or other person in charge.

Remaining unclaimed, the property sometimes goes to this custodian, sometimes to the finder. The distinction here appears to be whether the place it is found is private or semi-private, or a place used by the general public.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

circulated in 30 cities. These would be in addition to the interposition referendum proposed by Governor Shivers. "We're going for interposition too," said Ross Carlton, head of the pro-segregation organization, "but we think more direct action is needed."

Water Group Formed. Six major Texas farm groups have joined forces to form the Texas Agricultural Water Committee: Texas Sheep and Goat Raisers Association, Texas and Southwestern Cattle Raisers Association, Texas Farm Bureau, Association of Texas Soil Conservation Districts, Texas State Grange, and Texas Farmers Union.

Farm groups generally opposed the water program presented during the last legislature and were credited with contributing to its defeat. One purpose of the new organization is to work for the passage of water legislation.

Historic Tour Planned. Texas, Oklahoma and Kansas historical societies have joined hands to sponsor a six-day tour that will relive the frontier days.

Start of the tour will be at the Alamo in San Antonio. Texas stops include Austin, Waco, Hillsboro, Cleburne, Cresson, Weatherford and Fort Worth.

The May 1-6 program will include dinners and dances and Red River bridge ceremonies, with historical groups along the way actively participating.

Additional Referendums Asked. Texas Citizens Councils want a July primary referendum on school integration and mixed marriages. Petitions asking the Democratic Executive Committee to place these questions on the ballot are being

FINDERS KEEPERS?

"Finders keepers, losers weepers." Is the old rhyme true or false? Lawyers say it is not always strictly accurate under the law. It is sometimes rather difficult to define the rights of a finder in court.

There are some rather fine distinctions and exceptions to the "finders keepers" maxim that have plagued the courts—and finders—for generations. In the first place, the finder is not entitled to keep the property unless the original owner is not known and cannot be located. Neither may he keep it unless the object is truly "lost" and not merely "mislaid."

In general, property is legally "lost" when parted with involuntarily—through accident, neglect, forgetfulness or any other unintentional circumstance. Property is not lost in the legal sense when voluntarily left by the owner, intending to pick it up later—even though he fails to do so. Such property is "mislaid."

Thus, if one loses a watch on the street by having the clasp break, not knowing where or when it was dropped, it is legally "lost." The same is true of a fountain pen falling through a hole in one's pocket unobserved. In such cases, the finder owns what he has found against all but the true owner.

On the other hand, a package left on the seat of a bus is "mislaid" rather than lost. In one southern state, a pocketbook left in a barbershop by a customer was held to have been "left," not "lost." The barber was arrested and convicted of larceny when he spent

"EASY DOES IT"
BY HELEN HALE

TO MAKE a quick fruit drink for snacks for entertaining in the evenings combine equal amounts of grape and grapefruit juice. Add gingerale to equal the amount of juice and serve well chilled.
Give an intriguing touch to your apple-date and celery salad by mixing lightly with cottage cheese.

RECIPE OF THE WEEK
Macaroon Chocolate Pudding
(Serves 4-5)
1/2 cup heavy cream, whipped
1/4 teaspoon almond flavoring
1 package instant chocolate pudding
Milk
1/4 cup coarse macaroon crumbs
Fold almond flavoring into 1/4 cup of the whipped cream. Prepare pudding with milk according to package directions. Remove 1 teaspoon of macaroon crumbs for garnish. Add scant 1/2 cup crumbs and flavored whipped cream to pudding. Fold in. Chill until set, then serve with plain whipped cream topped with crumbs.

Nuts and raisins may also be added to the mixture.
Do something special with English muffins for breakfast: blend together 1/4 cup each of soft butter and brown sugar, then add 1/4 cup chopped nuts, 2 tablespoons raisins and a generous dash of cinnamon. Spread on split English muffins and broil until lightly browned.
If someone takes breakfast in a hurry, place fried egg and bacon between toast slices and let them eat as a sandwich while they drink their juice. It's fast.
You can glaze your ham with brown sugar for a crusty topping. Place some pecan halves on the brown sugar just before serving to make it pretty and tasty, too.

CLAIRETTE

By Mrs. Lucile Mayfield

Six-tenths of an inch of rain fell slowly Saturday, which was badly needed.

Mrs. B. J. Pruett received a message early Saturday that her mother, Mrs. R. W. McCollum, age 74, of Brownfield, had passed away after a brief illness, at Whitney where she had been visiting a son for the past 3 weeks. Funeral services were held Monday at 2 p.m. at Brownfield. Mr. and Mrs. Pruett and Deborah attended the services.

Mrs. Zena Havens spent Thursday in Stephenville with her sister, Mrs. May McChristal and visited Mrs. Eddie Sherrard at the Stephenville hospital.

Mr. and Mrs. John Edwards of Dublin visited Mrs. Reba Carter recently.

The Busy Bee Club met Thursday afternoon with Mrs. Bunnie Alexander. The next meeting will be with Mrs. Betty Christian.

Mr. W. T. Stamford, Mrs. Artie Thompson, Mrs. Ara Denman and Mrs. Etta Whiteside attended the funeral service for Mrs. T. F. Butler, 86, at Greens Creek Saturday.

Mr. John Willis received news of a new great-granddaughter, born to a grandson in California April 17. Mrs. Willis has been in California for several weeks. She is taking care of the mother and baby.

Albert Cook of Fort Worth visited his mother, Mrs. Mollie Cook last week.

Rev. and Mrs. Carl McKenzie of Carlton spent Tuesday with Mr. and Mrs. Clint Richbourg.

Mr. and Mrs. F. D. Hicks of Stephenville visited Sunday afternoon at the Henry Mayfield home.

By John C. White, Commissioner

It's happened again. The farmer, hopefully eyeing the prospects of an even break in national economy, has been left holding the bag—a bag lined with empty promises.

The presidential veto of the farm bill adds another hole to the farmer's bare and threadworn pocketbook. And the chances of patching it are mighty slim.

Our farmers are left with only the promises made in an attempt to justify this unjust action. The administration proposes as a substitute, that the Congress pass a soil-bank program which, they claim, if passed right away "could" give the farmers up to half a billion dollars in aid this crop year.

The soil bank has been the administration's mainstay, their obsession, and their cure-all for the farmers' ills. This, of course, is not entirely true. It has definite benefits, but is certainly no miracle medicine to cure the low-price plague of our farmers. No single program could be expected to dispel the recent years of mounting farm depression.

The now-dead farm bill was one which was written by the farmers and themselves. The Senate and House

Agricultural Committees worked tirelessly with rural people all over the nation laying groundwork for the legislation. The bill was not 100 per cent perfect, but it would have at least given the farmers something to hold on to and would have stopped the price declines which are shoving farm economy steadily downward.

In the words of Congressional leaders, there is "no hope" of passing another general farm bill this session. Administration claims of immediate price boosts on some commodities will be bogged down by laws now in effect, and the old farm enemy—the sliding parity scale—will likely stay with us.

Texas farmers are tired of promises. They haven't forgotten those made by the President at Waco during the last presidential campaign. The supporters promised them were no more real than the economic boosts our farmers are now being promised.

Our agricultural population loses most through this tragic act. But in the long run, they won't suffer alone. Sound farm economy is essential to national well-being, and is eventually sure to affect us all.

acres of brush off his place on the river north of Hamilton with a chain. Art Oats, his neighbor, during the last two years has also cleared about 800 acres. In chaining timber, two big and powerful tractors pull a battleship anchor chain between them and over the timbered area. The chain knocks all the trees and most of the brush over and out of the ground. After an area has been run over this way, the chain operators reverse their operations which piles the brush in rather neat piles scattered over the area. Both Thompson and Oats like this method of clearing land and think it is better than bulldozing it and also cheaper to do.

One of the handiest things I've seen in some time is a motor-bike Martin Seider and Weldon Hohertz made a few weeks ago. They had an old bicycle laying around the place as well as an old washing machine engine. They took the two and a welding torch, a few bolts and a little time and turned them into a usable motor bike. They use it running around the farm and save many steps.

or flap ventilators on a large poultry house can run into quite a bit of work. Sometimes when a rain shower blows up it is necessary that the windows be closed as quickly as possible to prevent rain from blowing into the laying house. Eric Seider has the best system for doing this that I have ever seen on any house. It was his own idea and it is cheap and easy to install and can be made to work on any house I believe. Under the eaves of the roof, he stretched a wire, and from this another wire runs through a pulley to the window and all windows are wired in

ATTEND FHA MEETING

Thursday afternoon, April 19, Mrs. Rosellen Davis, Joan Boone, and Jerre Dunklin left from here to attend the Future Homemakers of America State Convention at Fort Worth.

The meeting opened Friday morning and adjourned Saturday noon. Its theme "Faith for the Future" was carried out by illustrations, speeches, and experiences. The meeting was very impressive and inspired almost everyone to return home and build their life on a higher plane.

Jerre and Joan reported on having a very enjoyable time and wish to say "Thank You" to the Hico FHA Chapter for a wonderful experience.

CHANCE OF A LIFETIME

This is most certainly the chance of a lifetime (if you need a quilt). The Juniors and Seniors are sponsoring a quilt which will be given away. All the Juniors and Seniors and their sponsors names are on it. Money raised is to help the Junior class present the Junior-Senior banquet.

The quilt is on display at Salmon's Dept. Store. Don't miss the opportunity of getting a big quilt.

WORMS' EYE VIEW

Welcome, Ann Pittman! Ann is a high school student from Stephenville who registered here this week as a senior. She is a cute miniature brunette who has a friendly smile for everyone.

A very studious girl, Ann's favorite subject is Homemaking. Her

favorite sports are baseball and basketball and her hobby is making friends and writing letters.

Ann likes swimming, horseback riding, bicycles, boys, all sorts of people, and 1950 baby blue Cadillacs.

We bid a hearty welcome to Ann Pittman and here's hoping she will enjoy going to school here!

SPOTLIGHT

Well as usual it took most all the week for the kids to get wound up and ready to start going places.

It wasn't until Friday night that I finally found some couples going around. The couples in the show Friday night were Darlene H. Travis G., Linda M. and Sherrel K.

Saturday night some of the track boys were pretty tired but that didn't keep them home. Some of the couples gallivanting around were Bonnie J., James D., Margaret P., Sonny T., Buddy T., Reggie E., Jerry M., Mary H., Linda M., Sherrel K., Jimmie J., Rosa B., Kendall H., and Andy L.

Sunday afternoon couples riding around were Bonnie J., James D., Linda M., Sherrel K., Jimmie J., and Rosa B.

At school Monday all the Juniors looked real happy. Their rings came in. Some of the girls seem to be nicer to the Junior boys. Keep working, girls, you may get the rings yet.

Tuesday morning I met what looked like a new boy at school. Of course as he passed me I caught a better look. I recognized it to be Jerry Needham with black velvet hair. Did you have it done at the Beauty Salon Jerry?

Week-end guests in the home of Mr. and Mrs. D. F. McCarty were Mr. and Mrs. Frank Hobbs and daughter, Laura Jane, also Mr. and Mrs. D. F. McCarty Jr. and two daughters, Suzanne and Cindy, all of Abilene.

Mr. and Mrs. Sonny Casey of Fort Worth spent the week end here with her parents, Mr. and Mrs. Druid Jones and Virginia, and with her sister and family, Mr. and Mrs. Alvin Casey, Barbara and Jerry.

T-Sgt. and Mrs. William J. Denny and son Richard of Clinton, Mo., is visiting in the home of her sister, Mr. and Mrs. W. R. Hampton. They are also visiting with her mother, Mrs. A. C. Stamford at Stephenville.

CARD OF THANKS

We wish to use this means to thank everyone who was so kind to us during the illness and death of our mother and sister. We will be eternally grateful for all the lovely flowers, food, cards, kind words, and every act of kindness. Your kind expressions of sympathy meant so much to us.

Washington

"As It Looks From Here"

OMAR BURLESON
Congressman
17th District

In my column last week, it was pointed out how your Federal tax dollar was spent.

If the \$31 billion Highway Program is passed, it will add to the future expenditure of funds over which the Congress has no control. Heretofore these expenditures have been made on a year-to-year basis. With the passage of the Highway Bill, it commits us to future years, although the money is anticipated from taxes added to gasoline and other items to raise the funds. The money, however, goes into a general fund and is not specifically earmarked for this purpose.

The whole point is that, like the interest on the Federal Debt, veterans' benefits, and other similar expenditures amounting to more than one-fourth of the annual budget, the Congress itself, which holds the pursestrings, can do nothing but appropriate the money for which it has obligated its citizens. As in a great many other things, the Congress further loses its control over the fiscal management of the Government.

No one can argue that there is not a need for an improved highway system, but everyone wonders why Government spending cannot be reduced. We will be adding to the reason why it cannot be reduced when we pass the Highway Bill.

Washington is not an industrial City. It is probably one of the cleanest on the eastern seaboard. It has no smoky factories and all its commercial establishments are strictly regulated.

Among its other distinctions is that the largest import into the city is paper. The largest single export is waste paper. I suspect that in addition to waste paper, there is even a greater export of the written word. It is a pretty "wordy" place. There is no way of determining how many words may have been erased, but during the last year the Government used 7,900,000 pencils.

The President, through Attorney General Herbert Brownell, has submitted a so-called Civil Rights program to Congress.

It is recommended that the President name a bipartisan commission to investigate individual grievances.

He asked for the creation of a Civil Rights Division in the Department of Justice to handle both criminal and civil cases.

Attorney General Brownell said that he believes "that consideration of these proposals not only will give us the means intelligently to meet our responsibility for the safeguarding of Constitutional rights in this country, but will reaffirm our determination to secure equal justice under law for all people."

The political story of the week was created when the President vetoed the Farm Bill.

It seems two policemen came upon the victim of a knifing fight in a dark alley.

One officer bent over the prostrate form and the other asked, "Is he hurt badly?"

The first replied, "Two of the wounds are fatal, but the other one ain't so bad."

"If everyone swept in front of his own house, the whole town would be clean."

Navy Seagoing Specialist

Builders-Seabees

Typical of the famous Can-Do spirit of the Seabees during World War II was well represented by the men who had the rating of Builder. At the peak of their strength, the Seabees were only 142 Construction Battalions strong. Yet in the Pacific alone they built 111 major airstrips, 441 boat and ship piers, over 2,500 ammunition magazines, 700 acres of warehouses, hospitals for 70,000 patients, storage tanks for

100,000 gallons of gasoline, and housing for a million and a half men.

And today, Builders are still demonstrating their outstanding ability in jobs throughout the Navy, both in the United States, and at overseas bases such as Bermuda . . . French Morocco . . . Alaska . . . Cuba.

Whether you're a Builder or one of the many other specialty ratings as a Seabee, you can be assured that you will be placed in a job that best utilizes your training and experience.

Civilian occupations that parallel the technical skills of a Builder include: Construction Superintendent, Construction Foreman, Carpenter, Millman, Pipe Layer, Building Foreman, Concreting Foreman, and Band-Head-Saw Operator.

This is only one of over 60 ratings in today's modern Navy.

Navy Seagoing Specialist

Gunner's Mate

It was back in 1866 that the first specialty marks for Navy ratings were added to sailors' uniforms. And one of the first ratings to be established was that of Gunner's Mate.

Gun crews were vital to the operation of a ship, however, before they were ever designated as such. For even the first

CONSTITUTION was armed with 44 guns, and her sister ship, the UNITED STATES, had 44 guns.

The importance of superior gunnery was a winning factor in the War of 1812, just as it was in World War II.

Today's Gunner's Mates can look back on a history that is filled with their heroic deeds . . . legends that are as real as the red hot coal that one of the gun crew of the ARGUS carried in his fingers to touch off the gun fired at the British ship LEOPARD back in 1813 during the British Blockade.

Civilian occupations that parallel the technical skills of a Gunner's Mate include: Firearms Assembler and Inspector, Ammunition Foreman, Gunsmith, Machinist, Locksmith, and Shell Assembler.

This is only one of over 60 ratings in today's modern Navy.

CARD OF THANKS

We wish to thank the doctors and nurses for their care and kindness, the many friends and neighbors for cards, flowers and visits, the blood donors, and those who offered blood during my stay in the hospital. Every act of kindness was appreciated.
