## Tigers Practicing for Season Opener Here Next Friday

Tiger hopefuls for the 1956 football season have been getting in shape this week with two-a-day drills at Hico Stadium. Assistant Coach Jimmy Keeling has had the boys working twice daily, at 7:30 a.m. and 5:00 p.m.

The coach wasted no time in getting this year's Tiger edition off to a good start. Plenty of contact work is being offered, and the coach has promised more of the same between now and next Thursday.

Eight lettermen from last year's team greeted the new assistant coach Monday for the start of drills. Among veterans back for another season are Buddy Teague, stellar end on the Tiger team for the past 3 years; Sherrell Kirk, voted the district's best back in 1955, also a 3-letter winner; and Charles Stipe, guard and tackle seeking his fourth numeral.

Carey McKenzie, back, and Charles Hyles, quarterback, are both two-letter winners. Gary Duncan, Buddy Ables, and Van Hooper won their first numerals last season.

The biggest problem facing the coaching staff is finding replacements in the line, where gradu-

ation took a heavy toll. Andy Lackey, a transfer from Teague who was ineligible for competition last year, is being counted on for service later in the season, but won't get to play until at least the second game due to an operation performed during the summer on his foot. Andy was a letterman on the Teague team as a sophomore. Geoffrey Holladay, who has been ill most of the summer, could possibly be able to play later in the season, and would help the team considerably. He was starting center last year.

The new coach has a good crop of promising newcomers, which will be counted on for considerable duty.

The first game of the 1956 season will be played next Friday night at Tiger Stadium, beginning at 8:00 o'clock. Strawn will furnish the opposition and a good game is in prospect. A good attendance at this season opener will go a long way toward helping the boys have a successful season.

Jack Barnett, who had been hired earlier in the summer as head coach to fill the vacancy created by the resignation of Porter Willis, was inducted into the army Tuesday and sent to Fort Bliss, El Paso, for his basic training. A replacement will be hired shortly to fill this position.

The complete Tiger schedule for 1956 is as follows:

- Sept. 7—Strawn, Here
- Sept. 14—Glen Rose, There
- Sept. 21—Blanket, There

## Funeral Services Held August 19 For Mrs. W. H. Hobgood

Mrs. Tella Letitia Hobgood, native of Iredell, passed away at her home seven miles east of Hico August 18, after twenty years of ill health. She seemed to be doing fairly well at the time she was suddenly taken away, having only been home two weeks from a month long visit with her son at College Station.

Mrs. Hobgood was married to Will H. Hobgood Nov. 11, 1907. They moved to his place north of Iredell where they lived until 1930 when they bought her mother's home place east of Hico and moved there to live until the time of her death. Here she enjoyed the fellowship of the many faithful friends and relatives who came to cheer her during the years of ill health. She had united with the Methodist Church at Camp Branch when she was eleven years old. This faith was ever a strength and guide throughout her life. Those near her knew her to be a devout Christian and a wonderful person ever cheerful and thoughtful of others.

## Under Hay & Roughage Program

# Hamilton and Bosque Co. Ranchers Eligible For Aid

Walter T. McKay, State Director, Farmers Home Administration, has advised Douglas White, Hamilton County FHA Supervisor, and Robert A. Wells, Bosque County FHA Supervisor of the designation of the two counties under the Hay and Roughage Program for Texas.

Applications to participate in the Hay and Roughage program will be received by County Farmers Home Administration commit-

tees immediately at the FHA offices.

The Hay and Roughage Program was worked out between Governor Allan Shivers and the Secretary of Agriculture to provide emergency assistance to farmers and ranchers in the States designated disaster counties. Under the program the county FHA committees will determine each applicant's eligibility and will issue certificates good for \$7.50 per ton on roughage actually purchased. The applicant will then apply the

certificate on the purchase price of roughage from any dealer he chooses. The dealer endorses the certificate and draws a draft on the Emergency Drought Committee's account.

Applications may be filed through December 3, 1956, for a supply of roughage needed to last through December 31, 1956. Roughage under the program includes hay either baled or loose, cotton corncocks, cecelifer-181c oatmeal seed hulls, corncocks, sorghum bundles or ensilage.

### CARD OF THANKS

We wish to use this method of expressing our sincere and heartfelt thanks to all of our many friends who have called, sent flowers and food, or through other means shown your sympathy for us when our husband, father and brother passed away. We who are so lonely would not call him back to one minute of illness, suffering and patient waiting to join his loved ones in Heaven. But there is an emptiness in our hearts that seems to grow, not lessen, with the hours. That is why your many expressions of love and sympathy for us have meant so much in these days. May God bless of you.

# Travelers Warned of Highway Dangers During Labor Day Week End

The Labor Day holiday period is here again. In looking back on this same period in Texas last year we find that it was a tragic one. In 28 rural traffic accidents 39 persons lost their lives. Four persons were killed in 4 urban accidents. It is apparent that the rural highways took by far the greatest toll of the total 32 accidents. Excessive speed was definitely a major factor. In 9 of the 32 accidents intoxication was definitely a factor.

Before each holiday period all the news media publicize the necessity of safe and careful driving. However, during each holiday period we have many persons killed or injured in Texas. The Texas Highway Patrol makes every effort during these periods to supervise rural traffic on our highways. The Highway Patrol, of course, cannot be everywhere traffic laws are violated or careless acts committed.

The Highway Patrol will again be working around the clock carrying out a vigorous traffic supervision program during this Labor Day holiday. All leaves and days off will be cancelled, longer hours will be worked, other Department of Public Safety personnel will assist, and all persons observed committing any hazardous violation of the traffic laws will be arrested. The Highway Patrol will do everything within its power to see that the motorists are alive after the Labor Day holidays.

If these few rules of driving are followed this holiday period will be a happy occasion for everyone. Obey all the traffic laws. Drive at a speed you know is safe.

Do not drink and drive. Take a coffee break when on long trips. Be alert at all times while driving.

The reduction of traffic accidents is the responsibility of every driver. The Texas Highway Patrol solicits your complete cooperation. Please do your part.

# PATIENCE . . .

By MORGAN GARRETT

One of the well-remembered stories Jesus told his followers is the parable of the seed and the soils. In this story Jesus pointed out that the same kind of seed falling on different kinds of soil produces different results. Some is lost. Some makes a good start and then dies when the heat is on. Some starts well and gets choked out by weeds. However, there is that kind of soil which receives the seed and produces a hundredfold. As a part of his explanation of this parable Jesus

said these words: "And as for that in the good soil, they are those who, hearing the word, hold it fast in an honest and good heart, and bring forth fruit with patience."

One of the key words in this explanation is the word "patience." Patience is necessary to produce fruits of the spirit. Patience is necessary to those who wish to live fruitfully in their relationship with others. Patience is necessary for fruitfulness in our material dealings. Patience is not a matter of sitting with folded hands, waiting for our ship to come in. It is false to believe that all things come to him who waits. They do not. So the patient person is not a loafer. He works. But he works with patience. The patient person works, but he does it with the understanding that the good fruits of life cannot grow in our lives in a few minutes or a few days. He is willing to spend the necessary time that is required for the production of good fruits. He is like a farmer who wants to produce a cotton crop. He works. He plows; then he plants; then he plows again. If necessary he gets after the weeds and grass with a hoe. But he knows there will not be any cotton ready to harvest until the fall.

Patience is necessary to build good friendships. You can't become friends with someone in one casual meeting. To develop a helpful and lasting friendship takes effort and time. If you want to have friends, work patiently at being a friend. In due time you will find yourself surrounded by good friends.

Patience is necessary to provide a condition of material security and well-being. Too many young couples today want to have a home, a car, all the appliances, a fat bank account, and security for the future by the time they are thirty years old. This does not fit in with God's plan for the most of his children. These things must be accumulated through a number of years. Only the patient person can appreciate what he has and steadily work for more in the future.

Remember what Jesus said about the fruitful life and patience. . . as for that in the good soil, they are those who, hearing the word, hold it fast in an honest and good heart, and bring forth fruit with patience."

Mr. and Mrs. Billy Thomason and daughter, Billie Sue, of Brady, spent a few days last week with her mother, Mrs. Mollie Harvey, and with her brother, Tulio Carpenter and family.

# CARD OF THANKS

To the many friends in the Hico community and elsewhere, we want to thank you for the nice things you did, the fine food, and floral offerings made at the time of the loss of our wife and mother. The Will Hobgood Family.

# CARD OF THANKS

We wish to express our appreciation to the members of the Hico Volunteer Fire Department for their efforts in extinguishing the grass fire at our place last Friday. We would also like to voice our deep gratitude to our neighbors and friends who assisted. We deeply appreciate your assistance. Mr. and Mrs. Steve Parks.

white tapers. The aisles were marked with candelabra tied with clusters of bronze chrysanthemums and garlands of ivy.

Wedding music was presented by Miss Betty Bob Dove, organist, and Mrs. R. E. Autry, soloist.

Miss Scherry Seago was maid of honor and Mrs. Max Simpson, bridesmaid. The attendants wore waltz-length dresses of iridescent muted russet taffeta, with matching half-hats. They carried cascade bouquets of mixed chrysanthemums in autumn tones.

Given in marriage by her father, the bride wore a dress of Italian silk that was designed with an elongated bodice and bouffant skirt which extended into a chapel train. Re-embroidered Alencon lace outlined the décolletage of the bodice. Her veil of illusion fell from a coronet of pearls and iridescent sequins. She carried an heirloom lace handkerchief and a prayer book centered with white phalaenopsis orchids and stephanotis.

The bride's parents were hosts for a reception in Fellowship Hall following the ceremony. The bride's table held a three-tiered cake topped with a heart-shaped arch tied with wedding bells. The table was covered with white satin and net and centered with candelabra entwined with garlands of roses held by ceramic cherubs.

In the houseparty were Misses Carlene Evans, Betty Burnette, Betty McGhee, Arlan Riddeshubler, Carol Ann Bright and Paula McBride.

Dr. Kelley and his bride will reside in the new married couple's apartments at Baylor University when they return from their wedding trip.

The bride is a graduate of Waco High School and is attending Baylor University. Dr. Kelley is a graduate of Baylor University Dental School and is currently completing work toward his Ph.D. at Baylor.

## 'Esplanade of Light' Planned for Fair

Visitors to the 1956 State Fair of Texas, Oct. 6-21, will be dazzled as they enter the fairgrounds by the brilliant "Esplanade of Light" which will transform the concourse just inside the main gates into a spectacular vista of dramatic illumination and scenic water effects. The lighting will be the most striking since the Texas Centennial Exposition in 1936. This artist's impression of how the Esplanade will look at night shows how it will utilize enough electricity to light a small city and a total of 1,772 fountains of water shooting high into the air. The manmade scenic wonder is co-sponsored by the State Fair and Dallas Power and Light Company.

**A Labor Day address - to yourself**

Take a pencil and paper and write down your total income for the last year. Now add up all your savings—all the cash you could scrape together if you had to—and write that sum next to it.

Are you satisfied with what you've kept for yourself? Do you think you have enough to show for your labors? If not, here's an excellent way to do something about it.

Go to your company pay office tomorrow morning and sign up for the convenient Payroll Savings Plan. Just tell the people there how much you want to save each pay period—it can be as little as a couple of dollars a week. Then they'll put that money aside for you before you get your check—before you're tempted to spend it.

As soon as enough money accumulates, they purchase a U. S. Savings Bond and pass it

on to you. And if you hang on to those Bonds, they'll not only represent money saved, they'll earn extra money for you.

When held to maturity (9 years and 8 months) each Series E Bond pays an average of 3% per year, compounded semiannually. And with the automatic extension privilege it will go on paying that fine interest for 10 more years. That means a return of up to \$1.80 for every dollar you invest.

More than eight million working people just like yourself are using the Payroll Savings Plan to provide for their futures. It will work for you, too. Sign up now.

Want your interest paid as current income? Invest in 3% Series H.

U. S. Series H are new current income Bonds in denominations of \$500 to \$10,000. Re-

deemable at par after 6 months and on one month's written notice. Mature in 9 years, 8 months. Pay 3% per annum, if held to maturity, interest paid semiannually by Treasury check. Available through banks. Annual limit: \$20,000.

TEXAS UNDERGROUND WATER GROWS SHORT

An underground desert is in the making in Texas which may eventually swallow such cities and towns as Amarillo, Dalhart, Plainview, Lubbock and Muleshoe. These population centers are located atop a vast formation of moisture-laden sands from which water is being pumped at a faster rate than nature can replenish it. The situation was created by nature and aggravated by man.

These sands of the Ogallala formation depend partly upon rainfall and the water and snow sheds of the Colorado and New Mexico mountains to replenish the underground flow. For several years, snow in these sister states have been insufficient to feed the formation at a rate greater than water usage.

The sand strata is thick in some places, thin in others. In some sections of the Texas Panhandle, the saturated thickness of sand is 50 and 60 per cent less than a short six years ago.

The boom in irrigation on the high plains sparked the increase in water consumption. Municipal supplies for only about 15 per cent of water withdrawals. Records show that of all water pumped since 1938, over 60 per cent of it was used since 1950, due mainly to an expansion in irrigated acreages.

Irrigation cannot be called the 'culprit' in this case, however.

Rather, it is merely the victim of a natural situation—drouth. Weather conditions have failed to keep our water supply in balance during a period of great demand by the farmers.

The lowering water tables are a matter of concern in other sections of the state, also. Natural springs in Central and South Texas are at their lowest ebb or have ceased flowing altogether for the first time in the history of white settlements.

Comal Springs in the San Marcos-New Braunfels area ordinarily flows about 317 cubic feet of water per second. Early this summer, the spring went dry for the first time.

Barton Springs in Austin, a natural water source that fluctuates rapidly with rains, was producing only 12 cubic feet per second in late August. Its usual flow varies between a maximum of 180 cubic feet to a minimum of 5 1/2 cubic feet according to seasonal changes.

Primarily, Texas' greatest need is rain—in the state and on the watershed of the Continental Divide. Secondly, the state needs comprehensive soil and water conservation measures which will keep the water in the vicinity in which it falls.

Surface tanks, small check dams and storage dams in the small streams and rivers, coupled with soil conservation work in the fields will help save our precious water, and aid in replenishing the underground supply.

### It Happened Here or Near

By E. E. DAWSON

Life is in a large degree a matter of memories. There seem to be at least three sorts: The happy memories, those of indifferent quality, and the bad memories. The sort of memories you have make a great difference in your life's enjoyment or vexation, or perhaps unending sorrow.

Ours was the duty to be in a funeral one day last week in which the greatest number of floral offerings were on display that we ever saw. The whole front of the church, back of the pulpit and choir, was covered and in front of the pulpit and choir, and down each side of the church walls almost half way to the main door. A good mother was being honored by her children and other kindred and a great host of men and women and children who had deep

appreciation of the great and good woman. The writer remarked about the memories that all the kindred of the blessed mother would have of the event, a memory abloom with tokens of admirers. There are folks who are quite critical of funeral flowers, but why not such tokens and the blessed memories that continue through a life time as a result?

A good memory encourages one to be noble and helpful, and to get real joy out of living. Good deeds done to fellow mortals, or of honest work well done, or tender sympathies expressed, or approval of another's service are some of the things that create good memories.

But bad memories—they are like so many rheumatic pains shooting through one's soul, that banish sleep and bring nightmares. The bad memory may be created by one's own acts, or by the actions of others. We cite some examples.

There was the son who could never forget the time his father gave him a flogging unjustly. More than half a century after the welts from the cudgel had gone, the hurt in his heart lingered and nothing ever erased it. And there was the father in another case who punished his son of early teens in an unmerciful way because the father went off his rockers in a moment of irritation. The father wrestled with that haunting memory many a year and would have given his right hand that administered the flogging if by so doing he could have expunged the going memory that burned with the fury of a flame. And there was the man who made statements in putting across a deal that were not true, and many a night's sleep was hindered as he made a thousand excuses for his untruthful declarations. He put over the deal that day, but he paid for the profits of it with many hour's searing flame within his soul. And there was the preacher who was tided by the conduct of one of his parishioners and gave way to his feelings of disgust and resentment and then paid through many a dark night that found him so restless he did not sleep.

There was Madge who looked on a married man and thought how romantic it would be to have him make love to her and in a measure recompense her for the neglect of tenderness on the part of her husband. So Madge showed special attention to the man and eventually he observed her fondness for him and an affectionate relationship developed between them, which of course finally came out into the open greatly to her consternation and embarrassment and brought a breach between her and her husband. Many a night she tumbled in sleeplessness and made new excuses to her conscience, but the memory would not go down; she had to live with it so long after the thrill of romance was dead.

Madge and Sue and Jack and Bill ought to bear in mind always that memories are mostly made of one's own actions and thoughts and attitudes. The high price of bad memories should warn every soul to exercise great care in creating his memories lest he pile up a great debt that is never paid but is always demanding payment.

A free lunch will be served to all pupils on Tuesday, opening day. The public is extended a cordial invitation to attend the opening exercises.

Our faculty members are as follows: Frank Hanes, superintendent, Frank Bonner, who will teach 7th and 8th grades, Mrs. John Rainwater, 5th and 6th grades, Mrs. Lester Timmerman, Mrs. Willo Bradley, primary and music, Mr. Billy McClure, coach, and Boyd Lowery, principal and coach, Martin Schrank, vocational agriculture, Mrs. Arnold Gleason, home economics, and Mrs. Hill, Mrs. Winifred Gardner and Mrs. Maurice Fields will again have charge of the lunch room.

It has been some cooler the past few days, Sunday night and early Monday morning seemed like fall weather.

We were sorry to learn of the passing of Bill McGlothlin of Hico who passed away late Sunday afternoon. The McGlothlin family resided in the Fairy community for a number of years before moving to Hico. Mrs. McGlothlin was reared here. We extend deepest sympathy to the bereaved family and other relatives.

Those from here attending the funeral of Mr. McGlothlin were Mr. and Mrs. W. E. Cunningham, Mr. and Mrs. E. M. Hoover, Mrs. Gladys Cox and the writer.

Mr. and Mrs. S. A. Faglie of Grapevine have purchased the Tullos Randalls place north of Fairy, formerly the Mont Young place. They have two children: Ariane, age 13, and Durrell, age 8. Their son and family, Mr. and Mrs. Bob Faglie and two little daughters, Betty Sue, 4, and Kathryn, 2 are also living at the place in their trailer home. We welcome them to our community.

Relatives and friends of the late Mr. and Mrs. W. D. Elder are invited to attend their annual family reunion next Sunday Sept. 2, in Hico City Park. There will be Sunday School at 11 o'clock and a basket lunch will be served at the noon hour.

Mrs. Chester Wood, Nelda, Ronnie and Charles spent the past week end visiting in the home of her aunt, Mrs. E. E. Stark.

Mr. and Mrs. L. J. Turner and four children of Houston visited last Friday and Saturday in the home of his brother, Mr. and Mrs. Willie Turner and family.

Mrs. Raymond Driver and two daughters, Pat and Nelda and husband of Texas City came in Monday for a few days visit with her mother and brother, Mrs. M. E. Parks and Audie, and her husband's parents, Mr. and Mrs. Frank Driver.

Mr. and Mrs. Henry Todd and family of Lubbock visited during

the week end with his parents, Mr. and Mrs. Jerry Todd. Miss Sue Todd, who had been visiting at Lubbock and Amarillo with her brothers and sister and families for the past several weeks, returned home with them. Other visitors in the home on Sunday were their daughter—and family, Mr. and Mrs. Buster Moore and family of Hico.

Mr. and Mrs. Carl Ray Sellers and family spent Tuesday in Hamilton visiting in parents, Mr. and Mrs. N. S. Sellers.

Mr. and Mrs. Elzie Lee Parks and Carolyn Ruth of Fort Worth visited during the week end with his mother and brother, Mrs. M. E. Parks and Audie.

Kerby and Paul Fulbright of Kerville are visiting at this writing in the home of their grandmother, Mrs. M. E. Parks and Audie.

Mrs. Jerry Todd is visiting this week with her mother, Mrs. Anderson of San Angelo.

Mr. and Mrs. E. M. Hoover spent last week end in Lubbock and Abilene visiting their daughters, Mr. and Mrs. Ralph Spencer and family and Miss Daphne Hoover.

The Methodist revival is in progress with Rev. Morgan Garrett of Hico officiating. Rev. Wesley Jones, pastor of the church, is directing the singing, with Miss Lynda Goyno as pianist. A cordial invitation is extended to the public to attend the remainder of the services.

Some of the farmers have plowed up their surplus cotton acreage. Cotton is opening fast and will be ready for gathering soon.

An auction sale was held one day last week at the Johnnie Williams place between Fairy and Hico for the purpose of selling his Holstein dairy herd. It seems the sale was a success as the herd is gone. The Williams are preparing to move to Freeport. We regret to lose them but wish them success in their new location.

#### DOUBLE JEOPARDY

Most likely you can't picture yourself being brought into court on anything worse than a speeding violation. Nearly everyone feels that way. Even so, it is good to know that in this country you can't be made to stand trial twice for the same offense.

We have a provision in the U. S. Constitution against "double jeopardy." That's one of the most important safeguards in our system of law which makes it certain that once a court has reached a verdict of "innocent," the acquitted person may not be put on trial again for the same offense.

To avoid the protection, if a person has been acquitted, the prosecution cannot appeal the case to a higher court. The constitution states specifically: "Nor shall any person be subject for the same offense to be twice put in jeopardy of life and limb."

This right holds good, however, only if a full trial is held and a verdict is reached. It is possible to face another trial on the same charge if the first trial ends with a "hung jury," or a "mistrial," or if a new trial is requested.

A classic example comes from the "Wild West" in the late 1850's. A man named Ball was charged with murder, along with two others. Ball was acquitted, but the others were found guilty. This guilty pair appealed to a higher court, and their original indictment was found to be faulty.

Once again the government accused all three men. Ball claimed his right against double jeopardy had been invaded, and the U. S. Supreme Court agreed. He didn't have to stand trial again. The other two did, and paid the penalty for their guilt.

The reason for the "double jeopardy" provision is to protect the individual from being hounded all his life. In old England, where the fear of tyranny first prompted safeguards for personal freedom, one court said: "Were it not for this rule, anyone obnoxious to the government might be run down by repeated attempts to carry on a prosecution against him."

### Highlights and Sidelights . . .

By VERN SANFORD  
Texas Press Association

Weary Texas delegates to the Democratic National Convention have returned home to face still bigger tasks.

Their goals: (1) to win undisputed party control at the Sept. 11 state convention and (2) to swing Texas back to the Democratic column in November.

In both efforts they will have the guidance of two of the party's most influential leaders—U. S. Senator Lyndon Johnson and House Speaker Sam Rayburn.

Hopes are based on the mild civil rights platform plank adopted at the Chicago convention. Both Johnson and Rayburn are credited with significant roles in gaining this "moderate" victory.

Many of the Texas delegates say they will have a hard time selling the Stevenson-Kefauver ticket in this state. There is considerable muttering about the prospects of victory in November. And former President Harry Truman's cracks at Stevenson didn't help a bit.

**DROUGHT AID PROGRAM**  
Federal and state machinery are grinding out a three-phase drought aid program for Texas farmers and ranchers.

Action came as mounting disaster conditions caused federal officials to release "one of the bleakest crop and cattle situation reports in 22 years."

Present plans would provide (1) certificates good for \$150 per hundredweight toward feed grain purchases, (2) certificates for \$750 per ton to buy roughage, and (3) Farmers Home Administration loans to refinance debts on family-size farms.

Initial details were worked out at an Austin conference of U. S. Dept. of Agriculture officials, Gov. Allan Shivers, Agriculture Comm. John White and the Texas Emergency Drought Committee.

USDA is providing \$1 million to finance the roughage program. Gov. Shivers has allocated \$100,000 from his emergency funds for administrative operations.

Texas reaction to the federal offers ranged from "fairly satisfactory" from Governor Shivers to "too little and too late" from some South Texas farmers.

USDA's weekly report on Texas agricultural conditions termed the drought "one of the most severe on record." It reported pasturage conditions "lowest since 1934" and feed crops "very short" over most of the state.

#### RESERVOIRS DROP

Water in Texas' major reservoirs was down 20 per cent during July, from 1955. Average storage was 51 per cent of capacity.

As evidence of "critical conditions" the State Board of Water Engineers' monthly report cited these further statistics: (1) July rainfall was less than half of normal. (2) Observation wells continued a decline to all-time lows in five areas of South Central and West Texas. (3) Dwindling streamflows and decreasing storage resulted in water rationing in many cities in all areas.

#### MORE SAFETY AIDS ASKED

Next year's Legislature may be

asked to double the present 470-man state highway patrol.

Such an increase was urged by Homers Garrison Jr., director of the Department of Public Safety, in a talk before the Texas Safety Association Women's Conference.

Cost of safety precautions is cheap compared to accident costs, said Garrison. Property loss alone has exceeded \$1.5 billion in the past 20 years.

A legislative program being pushed by the Association includes: (1) more patrolmen, (2) county-wide traffic courts, (3) state-financed driver education (4) prohibiting sale of fireworks, (5) chemical tests for drunken drivers and (6) laws to punish juvenile traffic offenders.
