## Ex-Students Will Gather Sept. 29 For Homecoming

Plans are shaping up for the Sixth Annual Homecoming of former students of Hico Schools. Date for the affair this year has been set as Saturday, September 29.

The football game between Hico and Evant will be played that evening.

Plans this year call for just a

## Central Texas Fair And Rodeo At Clifton Commences Sept. 20

Clifton's Riding Club will sponsor its sixth annual rodeo beginning Thursday, September 20, at 8:00 p. m. and continuing through Saturday, September 22.

The rodeo will be one of the attractions of the annual Central Texas Fair which will open with one of the famous turkey dinners served by the Civic Ladies of Clifton at noon followed by the annual parade at 5:00 p. m. Thursday, Sept. 20. The ladies will also serve another turkey dinner Friday, September 21.

Feature event of the fair will be the annual show and sale of the Central Texas Polled Hereford Association. The show will take place Friday, Sept. 21, and the sale of about 60 registered heifers and bulls will start at 1:00 p. m. Saturday, September 22.

## NEW EMPLOYEE AT H. & B. FOOD STORE

W. H. Tinsley of Hico is a new employee at H. & B. Food Store. Mr. Tinsley fills the vacancy of Don Ross, who returned to college this fall.

Mr. and Mrs. Bobby Ratliff of Lubbock visited this week with his parents, Mr. and Mrs. J. B. Ratliff.

## Tigers Slam Strawn 27-0; Play at Glen Rose Tonight

The Hico Tigers kicked the lid off the 1956 football season last Friday night with a convincing 27-0 victory over the Strawn Greyhounds in Tiger Stadium in both teams' initial game of the year.

In victory the locals looked much better than even the optimists had expected. Their line, light as it may be, proved that against a team of equal size, they could hold their own. As expected the experienced backs on the Tiger team performed well. Coaches Ray Taylor and Jimmie Keeling had their charges well prepared for their first test.

Most of the linemen carried out their assignments well for a first game, more especially the inexperienced boys who have never played ball before. Gerald Hodges, Jerry Hamrick and Royce Samford all did well, considering the fact that none of them had ever played as much as a full quarter of any game. Samford is a freshman guard, Hamrick a senior end, and Hodges a guard. Buddy Teague turned in his usual good and consistent game at end on both offense and defense. Little Butch Eubanks played exceptionally well for his size at the center post, and Charles Stipe and Robert Chandler held down the tackle slots very well.

In the backfield, Sherrel Kirk lived up to all expectations, scoring 4 touchdowns and 1 extra point, and gaining consistently on every play. Carey McKenzie showed the running form of which he is capable by reeling off several nice runs and played heads-up defensive halfback, carried out his assignments especially well for a first game. Quarterback Gary Duncan, small but aggressive, handled the ball good from his position, and with a few more games under his belt, could develop into a top-notch ball-handler.

## PLAY AT GLEN ROSE TONIGHT

Tonight, Friday, the Tigers travel over to Glen Rose to meet what is expected to be their stiffest test of the season, when they tangle with the Tigers of that Somervell County town. Glen Rose is reported very strong this year, and

general visitation and business session to be held at the school, time for which will be announced next week. Due to the poor response to the annual barbecue dinner, that phase of the homecoming will not be held this year.

Attempts have been made to obtain a speaker for the affair, and other plans will be forthcoming in the next two weeks.

All graduates and former students of the local schools are urged to keep the date in mind and make plans now to attend this year's homecoming.

## Three Scouts Pass Tests Thursday Night

At a Board of Review, conducted by Grady Hooper, I. J. Teague, Bernell Jernigan and A. H. Lackey last Thursday night at Scout Hall, Scouts Danny Reeves and Don Jernigan passed tests to become Second Class ratings, and Alan Hodges became eligible for the Bronze Award.

A court of honor was held Thursday morning, Sept. 13, at a school assembly.

## HORACE GRIFFITHS RECEIVES SECOND TCU SCHOLARSHIP

Horace Griffiths, son of Mr. and Mrs. Frank Griffiths, has been announced the recipient of one of five scholarships given by The Chicago Corporation of Fort Worth.

This is the second year the special scholarships of \$400 per year have been offered, and the second year one has been held by Mr. Griffiths. Awards are made to those entering in the fields of Business or Science.

Horace is a sophomore Business Education major.

## 402 Bosque County Farmers And Ranchers Sign For Assistance

According to Robert A. Wells, FHA County Supervisor, the County Farmers Home Administration has certified 402 farmers and ranchers of Bosque County as eligible for assistance under the Emergency Grain Program and Hay and Roughage Program.

Under the terms of the Emergency Grain Program eligible farmers and ranchers will receive assistance in the amount of \$1.00 per hundred at this time on the purchase price of Government surplus grains which are corn, oats, maize, and barley. Assistance will be allowed on breeding stock of cattle, sheep and goats. Mr. Wells reported that a supply of these feeds will be approved to last the farmers and ranchers until October 31, and applications must be received in the FHA office in Meridian by October 2, which is the deadline.

Under the terms of the Hay and Roughage Program eligible farmers and ranchers will be assisted in the amount of \$7.50 per ton on baled and loose hay and bundles, Cottonseed hulls, peanut hulls, and ensilage. The local FHA office has been notified that no mixed feeds are eligible for assistance under this program. Dehydrated alfalfa pellets are eligible for assistance. Under the terms of this program eligible farmers and ranchers will be certified for a supply of hay and roughage to last until December 31. Applications for assistance will be received until December 3, 1956, which is the deadline.

Mr. Wells has requested that eligible farmers and ranchers place their applications for assistance under these two programs at the earliest possible date so the County FHA Committee can act upon them at an early date.

# Three Airmen Held For Station Robbery; Knifing

## Bond Set At \$25,000 On Each Of Two Charges

Three young Sheppard Air Force Base Airmen, charged with robbery and assault, and intent to murder a Hico service station attendant, are being held in Hamilton County jail in lieu of \$50,000 bond each.

Justice of the Peace L. L. Hudson, before whom they were charged Monday morning by Hamilton County Attorney Truman E. Roberts, fixed \$25,000 bond on each charge against each of the three when they waived examining trial.

The three youths, two 18 and the other 17 years old, are accused of the Saturday night robbery and assault of Albert Grimes, 67, night attendant at Armstrong's Service Station in Hico, about 10 p. m.

Grimes was stabbed in the back and chest, two of the knife wounds piercing a lung and his throat was slashed.

Named in the charges were Richard C. Gannon, 17, of Waltham, Mass.; Will Trubiano, 18, of Detroit, and Jack C. Abbott Jr., 18, of Grundy, Va.

Sheriff Woody Young said bloody clothing of one of the youths was thrown out of the car in which they were riding between Hico and Iredell. It contained the name and credentials of one of

the fugitives. Also found was the scabbard in which the knife wielded against Grimes was carried.

Grimes was stabbed after the three airmen had left a tire and wheel with him on deposit for \$5.00. When he attempted to make change for a \$10 bill the youngest of the three stabbed him several times and took the \$10 and riffling the cash register of \$54.00. They jerked the telephone from the wall and fled, leaving Grimes for dead.

Grimes was able to stagger out of the station onto the driveway from where he summoned aid from Ogle Bros. service station across the street.

Grimes was given emergency treatment at Hico Hospital, and then conveyed to Providence Hospital in Waco, where he remains.

He was reported early Thursday morning to be doing nicely at the hospital.

Law officers credited Grimes for a big part in the quick apprehension of the youths, by his description of the car which they were driving.

The three teen-agers were arrested at 8:56 a. m. Sunday about one and a half miles west of McLennan Crossing near Waco—less than 5 miles from where they abandoned the stolen car about midnight Saturday.

All three youths were together on foot.

They were arrested by Highway Patrol Sgt. John A. McVean and Patrolman E. G. Siems of Waco, to climax an eight-hour search of fields and roads near Speegville by a posse of about 22 Central Texas law officers, including Hamilton County Sheriff Woody Young, County Attorney Truman E. Roberts, and Highway Patrolman Bill Cooksey.

The posse assembled about three miles northwest of Speegville on Highway 6 about 11:30 p. m. Saturday after the driver of the stolen car attempted to turn off Highway 6 onto a gravel road during a chase with Patrolmen. The chase started when the youths crashed a road block near Valley Mills.

After abandoning the car, the youths took refuge in a nearby barn, then fled to an adjoining cotton field when highway patrolmen started checking buildings in the area.

Three bloodhounds from the State School for Boys at Gatesville arrived at the scene about 1 a. m.

They flushed two of the boys about 1:30 a. m. The youths darted into heavy underbrush and dogs then lost their trail.

Officers continued to patrol the area until the boys were apprehended early Sunday.

ACCUSED—Richard C. Gannon, 17, center, has admitted to Hamilton County officers, the knifing of Albert Grimes, 67, local service station attendant, in the Saturday night robbery. He is flanked, on either side, in the picture by Will Trubiano, 18, of Detroit, Michigan, and Jack C. Abbott Jr., 18, of Grundy, Virginia.—Hamilton Herald-News Staff Photo. ## Buddy Teague Named To Junior Membership In Hereford Association

Kansas City, Mo.—(Sp.)—Buddy Teague, Hico FFA member, has been named to junior membership in the American Hereford Association, the world's largest purebred registry organization.

778 junior Hereford breeders were placed on the Association's official roster during the last six months. The Association maintains active accounts for more than 80,000 breeders of registered Herefords over the nation. An average of more than five new lifetime memberships in the Association were issued each working day last year.

The Hereford Association during the last fiscal year recorded 522,639 purebred calves. The year's total recordings were the third highest on record, and more than twice the combined registrations of other major beef breeds.

## ATTEND STATE CONVENTION

Odis Petsick and D. E. Bulloch were in Fort Worth Tuesday, where they were delegates from Hamilton County to the Democratic State Convention, held at Will Rogers Coliseum.

## P-TA Committee Chairmen Named At First Meeting

Mrs. B. J. Pruett, president, described the aims of the Parent-Teacher Association at the first meeting of the local group Monday night at the high school auditorium. The organization, she said, is a force for good all over the world, and should come second to its members only to their churches.

The P-TA brings home and school close together.

Supt. O. C. Cook stated that he had never seen better interest in the schools in the beginning of the year than this year. In spite of severe drought, the enrollment, which now totals 179 in the grades and 108 in high school, is only five less than that at the opening of school last year. He listed many repairs and renovations in the school plant this year, and stated that chemistry had been added to the high school curriculum with Mrs. W. P. Brummett as instructor.

The special milk program, which the Hico schools were first in this section to start, will again be followed this year. With an allowance of two or more half-pints per pupil per day, the local school used 10,000 half-pints a month last year, with the State paying 4 cents and the local school paying 1 cent per bottle.

Supt. Cook encouraged use of the lunchroom by all pupils and also stressed the importance of regular school attendance by all pupils.

The faculty members were introduced to the group by Supt. Cook, who pointed out that Hico teachers have unusually high qualifications. All grade school teachers have majored in elementary school education. Six hold masters degrees, three have bachelors degrees, and one will complete a masters degree next summer.

The P-TA voted to hold September, April, and May meetings at 8 p. m. while all other meetings will begin at 7:30 p. m.

## Bosque Watershed Plan Is Approved By State Board

The State Board of Water Engineers, by unanimous consent, granted property owners on the Upper Bosque River Watershed permission to organize a water district at a hearing in Austin Monday. Every phase of the proposed planning was discussed by the board, and several from Stephenville, Hico and Walnut Springs were questioned about the proposed district. Messrs. R. M. Dixon, president, H. A. Beckwith and Otha Dent comprise the board.

A delegation of 16 citizens from Erath, Hamilton and Bosque Counties appeared before the board in support of the district. Fred McCleskey, president of the district, led the delegation. Messrs. Clarence Crowe and Wm. H.

Hamilton, who are handling the legal and engineering part of the program, also attended the meeting. Mr. Crowe was in charge of the local part of the hearing.

President McCleskey was questioned at length by board members. C. C. Winters of the lower Bosque was another witness who gave additional testimony. Others from here who were cross examined were Dr. Vance Terrell, A. F. Anderson and Earl Morrison of Walnut Springs. All urged that the water board give quick approval of the application.

When technical information was needed H. N. (Red) Smith of the State Soil Conservation Department took the stand and cleared up many confusing questions. It was largely on the testimony of

Mr. Smith that the water board took its quick and definite action. The hearing ended at 1 o'clock after two and one-half hours of questioning.

Marion Porter of the Stephenville Soil Conservation office and Roland Madeley, area conservationist, both are highly elated over the success of the hearing. The delegation of citizens and land owners likewise are pleased at the success of the undertaking.

President McCleskey believes that other steps in the progress of the program can and will be taken soon.

T. A. Randalls and J. B. Woodard of Hico were among the interested persons who attended the hearing.—Stephenville Empire Tribune.

**Responsibility of Rural Areas Emphasized by Civil Defense Week**

National Civil Defense Week, which opened Sunday, Sept. 9, is of special significance in the small towns and rural areas of the nation. It marks the first time that the entire country—urban and rural areas alike—has been called upon for a nationwide observance of the individual responsibility of every resident in making certain that America can withstand any enemy attack.

In the early days of the "atomic age" civil defense was regarded as a problem chiefly for the highly industrialized cities and strategic military installations. With the development of the hydrogen bomb this concept underwent drastic revision. Now, military and defense planners declare that there are no non-target or "safe" areas and that the question of America's survival under all-out nuclear attack depends largely on the rural areas.

In general the rural civil de-

fense problem has a five-point approach:

1. The protection of the rural people themselves and their essential facilities.
2. Continued production of food.
3. Delivery of that food to points where, under the emergency circumstances, it is needed.
4. The reception and care of evacuees.
5. Aid in the rescue and rehabilitation effort in bombed out target cities.

Each element of this approach may seem, and at one time of another may, in reality, be the one most properly stressed.

But, if America should be threatened by attack, more than a third of the nation's population, evacuated from cities, would become dependent upon rural help and resources.

These estimated 70 million persons fleeing potential target areas, would bring with them only enough food for a short time. They would be without shelter. Care of these people would be a rural civil defense job.

Much of America's recovery and strength to fight back would hinge on these evacuated millions. They would be a large part of the vital manpower and "know how" to rebuild, repair and reestablish the industrial machinery it would take to fight and win a war.

Farm and rural civil defense experts agree that rural residents must be ready to help the evacuees. Leading agricultural organizations are cooperating with civil defense in solving the problem of immediate planning and organization in all rural areas. Intensive programs are now underway to assure that every farmer, rancher and rural or small town resident knows his part in the local job.

Rural civil defense, made up of rural residents, would be responsible for and direct such vital work as reception, registration, feeding and billeting of evacuees. Rural officials would be in charge of these operations. Rural people would form the basic teams to get the work started.

As evacuees were registered, they would be screened for skill and experience they could contribute, then assigned to duties. Ideally, the evacuees would furnish most of the manpower.

Food and shelter, however, must come from rural resources. A well-organized rural civil defense would have an area inventory of all available stored food and shelter space, with the inventory sealed against the estimated evacuee load, so that each area would know in advance how many persons could be billeted, and how long they could be properly fed.

Federal planning provides that no food can be requisitioned or otherwise appropriated for evacuee feeding without due process of law, which includes arrangements for reimbursement. Use and distribution of food would be controlled by rural civil defense officials.

Rural civil defense must be trained in emergency mass feeding methods, including adaptation or improvisation of facilities for large-scale cooking, serving and sanitation. The Federal Civil Defense Administration has been studying this field for a number of years and offers special training courses and training manuals which are available through local civil defense organizations.

During Civil Defense Week, leaders in all communities are urged to survey the state of local readiness to meet the challenge of either man-made or natural dis-

aster and, where necessary, to inaugurate training programs. To those who argue that war never come, the civil defense answer is: "if you never need what you learn in civil defense, you lose nothing; but if you never learn what you need in civil defense, you may lose everything."

## Parents Responsible For Keeping Children Safe In Traffic

"Parents—it's your responsibility to keep your children safe in traffic."

In those words, E. C. McFadden of Dallas, President of the Texas Safety Association, today reminded parents that theirs is the initial responsibility in child pedestrian safety.

McFadden, who spoke in support of the child safety program which the Texas Safety Association, the Department of Public Safety and the National Safety Council are conducting this month, said the parents' job of educating the child in safe traffic practices starts when the youngster takes his first steps.

"Of course, as the child grows older, you can't be with him every time he's exposed to traffic," he said. "But, if you've done your training job well, the youngster will have formed safe practices that will protect him as he goes to and from school and the many other places his active feet carry him."

McFadden stressed the importance of good example in teaching safe traffic practices, pointing out that what the parent does makes a more lasting impression than what he says.

"This," he said, "is equally true of teaching safe driving practices. He urged parents to remember, whenever they drive with their children, that even a very small child can be influenced by the attitudes and behavior of the driver."

He offered the following rules as a guide to parents in the traffic safety education of their children.

1. Set a good example for your children by your own alertness and caution in traffic.
2. Check with your children's school to be sure that your own safety lessons are consistent with what the children are taught at school.
3. Teach your children to obey all traffic safety rules—to wait for the "GO" signal, to look both ways before crossing the street and to watch for turning traffic before starting across.

## What To Ignore . . .

By MORGAN GARRETT

One day a man, Jairus, came to Jesus and asked Jesus to heal his sick daughter. While Jesus and Jairus were on their way to the house some servants came and said there was no point in Jesus continuing any further because the girl was dead. Then, the Bible says, Jesus reacted in this way: "Ignoring what they said, Jesus said to Jairus, 'Do not fear, only believe.'" Mark 5:36. Then Jesus went on with the man and restored his daughter. Give attention to the fact that Jesus had to ignore the voices of these messengers in order to accomplish a good thing. There are voices every person must ignore to live at his best. You must ignore the voices you hear saying it is not possible to do something worthwhile which you are trying to do. If you dream a dream someone will tell you it is impossible. If you are trying to do something helpful there will be someone to tell you that you cannot possibly accomplish your purpose. You need to believe with Jesus that "all things are possible with God," and learn to ignore the voices that say, "it can't be done."

Another voice that must be ignored is the voice of pessimism. Some people have their best time being gloomy. They would like to make a gloomy person out of you too. Furthermore, the person with the pessimistic outlook will tell you he is only facing the facts. The thing he fails to recognize is that he is only facing part of the facts—the negative ones. If you do not learn to ignore the voice of gloom and pessimism you will waste much of your finest energy and thought in an attitude of despair.

A third voice that every person must learn to ignore is the voice of temptation. The voice of some temptation speaks to every person every day. If you listen to the

voice of temptation it will lead you into wasteful and unhappy living. If you practice ignoring the voice of temptation its volume will grow weaker and weaker. Don't spend so much time fighting temptation. Spend more time ignoring its siren voice. No person is really strong until he develops this practice of ignoring the voice of temptation.

Your life will count more and your happiness will be increased if you will learn to ignore the voice that says, "it can't be done," the voice of pessimism that says "everything is lost," and the voice of temptation which says, "your cheapest self is your real self." God will help you as you try to learn the art of ignoring these voices.

# BEEN TRYING TO SAVE MONEY?

HERE'S HOW WE SAVED \$6,925!

Are you one of those people who have found it impossible to save in spite of your best efforts? You can save—if you will learn the simple system that worked for Mr. and Mrs. Charley L. Whitley of Cuthbert, Georgia.

This couple were employed in a tire factory at a pay of about \$40 a week apiece—yet they were able to save \$6,925 in U. S. Savings Bonds! How did they do it? Just the way you can—on Uncle Sam's wonderful Payroll Savings Plan!

### Why will Payroll Savings work wonders for you?

Even though you've never been able to save a dime before, Payroll Savings will succeed for you because it saves for you before you even draw your pay. Here's all there is to it:

You go to your company's pay office and join the Plan. You say how much you want to save (it can be as little as a couple of dollars a payday). The money is automatically saved from your pay envelope each payday and put toward a Series E Savings Bond. When enough is accumulated, it is invested in a Bond in your name and the Bond is immediately handed over to you.

You haven't missed the money you saved because you haven't seen it. You've been able to spend your check with a free conscience, knowing the saving was already taken care of. And how that saving will pile up! Just for example, if you can save only \$1.85 a week, in 9 years 8 months you'll have \$1,047. If you can save \$25 a month, in 9 years 8 months you'll have \$3,272. And if you have a very good income, one that will let you save \$18.75 a week, you can retire through Pay-

roll Savings—with \$25,798 at the end of 19 years 8 months. All in safe, solid, interest-earning Series E Savings Bonds!

### Isn't it worth a try?

Eight million working people today are finding freedom from money worries by investing in Bonds through the Payroll Savings Plan. How about you? Give it a try by signing up today, where you work. Or, if you're self-employed, join the Bond-A-Month Plan where you bank. You'll shake hands with yourself every day forever after!

How you can reach your savings goal on the systematic Payroll Savings Plan

	If you want approximately		
	\$5,000	\$10,000	\$25,000
Each week for 9 years and 8 months, save...	\$6.80	\$18.75	\$45.00
Each week for 19 years and 8 months, save...	\$3.75	\$7.50	\$18.75

This chart shows only a few typical examples of savings goals and how to reach them through Payroll Savings. You can save any sum you wish, from a couple of dollars a payday up to as much as you want. The important thing is, start your Plan today!

SAVING IS SIMPLER THAN YOU THINK— WITH U.S. SAVINGS BONDS ON THE PAYROLL SAVINGS PLAN

**THE BLACK BLIGHT ON COTTON**

A little considered but increasing alarm among processors of cotton is the costly presence of "tar spots" which result in big losses to the mills.

These black blights, unnoticed in the ginning process, are collected among freshly gathered cotton either through use of asphalt-coated pick sacks or by carrying cotton to market over freshly tarred roads.

When this happens and the cotton is subsequently ginned, all cotton in the bale is "contaminated" with tar spots which show up during cloth processing at the mills.

What's more, when one bale of tar cotton is mixed with 29 other bales in the bleaching room at a mill, all material made from the entire 40-bale lot contains tar. This results in necessary price reductions of 10 to 20 per cent. and in some instances, total rejection.

Now, more than ever, mills are pin-pointing areas from which blighted cotton continues to come. This may result in general penalties by industrial price-cuts to innocent farmers who live in an area full of careless neighbors.

The wise thing would be for everyone to discard the old asphalt-covered pick sack and to keep his

raw cotton as clean as possible as long as it is still in his hands.

**LATE REPORT ON THE MEDFLY**

An alien insect who invaded immigration officials is the cause of growing concern among fruit-growing states.

The Mediterranean Fruit Fly, black and yellow and about one-half to two-thirds the size of a housefly, was first seen about 3 months ago in a grove near Miami, Florida. Since that time the pest has spread into 29 Florida counties and a resultant concentrated campaign is underway to check infestation.

For, if the Medfly should get a foothold in this country, the fruit industry of which Texas is a major part will be doomed to great losses.

The female of the species lays her eggs under the peel of skin of the fruit, and when they hatch little white worms emerge and burrow into the fruit. Their wide appetite includes citrus, peaches, figs, peppers, tomatoes, cucumbers, squash, and cantaloupe to name a few.

Texas and Federal quarantine experts are keeping a close watch on this worst of all fruit pests with a determination to pre-empt any westward movement.

**FAIRY**

By MRS. EUNICE DANIEL

All were very sorry to learn of the misfortune of J. R. Jaggars and Fred Geys of Carlton last Monday week, when they were so seriously injured when the pickup in which they were riding and trailer overturned near Hico. Mr. Jaggars formerly resided near Fairy and has many friends and acquaintances here who are hoping he will soon take a turn for better and be on the road to recovery. Mr. Geys is also well known here and his friends hope he will soon be fully recovered from his injuries, and able to return home.

Early Sunday morning news was quickly circulated of the serious wounding of Albert Grimes of Hico, in a robbery of a service station there, where he was serving night attenda. Mr. Grimes is an uncle of Mrs. Herman Sills of Fairy and was reared in the Falls Creek Community near Fairy, and also attended church here. He has many friends here who are wishing him a safe recovery.

Mrs. T. L. Betts returned home Saturday after an extended visit at Pullman, Wash., where she visited with her son and family, Mr. and Mrs. Lester Betts, Judy and Cheryl.

The following is a list of those attending the Elder reunion held last Sunday week at the City Park in Hico. Sorry we did not receive the list in time for print last week. Those who attended were Mr. & Mrs. Joe Elder, Mr. & Mrs. Clyde Nicho's of Waco, Mr. and Mrs. W. E. Elder, Denton, Mrs. Electra Moss, Grandfalls, Mr. and Mrs. Robert Ott, Elceeta, Mr. and Mrs. J. D. Jones and Virginia, Mr. and Mrs. Willie Green, Mrs. Sally Malone, Mr. and Mrs. Cyrus King, Mr. and Mrs. Alvin Casey, Jerry and Barbara, all of Hico, Mr. and Mrs. Wade Jones and son of Big Lake, Mr. and Mrs. Sonny Casey, Fort Worth, Mr. and Mrs. Dan Boyd, Jimmy and Dana Marie, Denton, Mr. and Mrs. W. N. Bridges, Mrs. Edna Bouldin, Mr. and Mrs. Irvin Cox, Mrs. Mary Nell Hesse and Kathy, all of McGregor, Mr. and Mrs. Oscar Pollard, Hico, Mr. and Mrs. Roy Blakley of Fairy, At eleven o'clock Sunday School

was held with W. N. Bridges directing the song service. Mrs. Edna Bouldin taught the lesson and Mrs. Druid Jones and Joe Elder gave the invocation and devotional. Mrs. Bridges is president. Afternoon guests were Mr. and Mrs. Nathan Akin, Stephenville, Mr. and Mrs. Frank Somers and Mr. and Mrs. Otto Peterson, all of Clifton, Mr. and Mrs. Willie Moss, Anna Lee and boys, Hico, Mrs. Gady's Cox and Mrs. Eunice Daniel, both of Fairy. We wish for the Elder brothers, sisters, and families many more happy reunions.

Mr. and Mrs. Buster Moore and Judy of Hico visited Sunday in the home of her parents, Mr. and Mrs. Jerry Todd and Sue.

Mr. and Mrs. Jerry Todd of Lubbock spent the week end with his parents, Mr. and Mrs. Jerry Todd and Sue.

Mr. and Mrs. Bill Hargis and family of Carlbad, N. M. visited a few days recently with her parents, Mr. and Mrs. A. J. Miller, while on their vacation trip. Mrs. Hargis is the former Flora Miller.

Mrs. J. McVickers returned home Thursday from the Stephenville hospital. She recently underwent major surgery there and had returned home, but had to return for further treatment last Sunday week. We hope she will soon be much improved.

Latest donations received for the benefit of the Fairy Cemetery are Mrs. Hallie Jamison, Stephenville, \$15.00; and Mr. and Mrs. Will Green, Hico, \$2.00. We certainly appreciate these donations and thank each for same.

Mr. and Mrs. Jamie Sills and little daughter, Cheryl of White Sands, N. M. are visiting at this writing with his parents, Mr. and Mrs. Herman Sills and Jo Ann. Mrs. Sills is the former Mrs. Madalyn Whitley. Her daughter is 11 months old.

The condition of Uncle Bob Parks is still very poor and unchanged.

Mrs. Brittle Little is expected home today, Tuesday. She has been visiting a few days at the home of her brother, Mr. and Mrs. Dickerson of near Hico, after spending several days in the Hico Hospital.

Mr. and Mrs. Benton Staley of Dallas visited last Thursday in

the home of her sister, Mrs. Emma Ogle.

Some farmers are defolating their cotton preparatory to having it stripped.

The Fagle families, who recently purchased the Randal place north of Fairy, have had an electric pump installed.

Mr. and Mrs. Carl Ray Sellers and Jimmie Don were in Waco last Friday at the Hipps Clinic to have the steel pins removed from Jimmy Don's foot, which had been inserted during his last operation some time back. We were very glad to learn that he will be able to discard the heavy steel brace he has been wearing some six years, as soon as he is fully recovered from the operation. His foot is now in a cast and he uses crutches. Jimmy Don, who is eight years old, was stricken with polio

when he was seventeen months old.

Mrs. Les Howell and granddaughter, Miss Elizabeth Howell of Mountain View visited recently with Mrs. Howell's cousins and their families, Mr. and Mrs. John Abel, Mr. and Mrs. Walter Abel, Billy and Bill Abel of the home.

W. E. Goyne, local chairman, Heart O' Texas Boy Scouts, attended a District Meeting at Meridian Tuesday night. This meeting was called for the purpose of formulating plans to raise funds for the organization.

Johnnie Grimes called Waco Tuesday at noon and talked to Mrs. Albert Grimes, and she stated her husband was better and would be transferred to the veterans hospital in Temple as soon as he is able.

Mr. and Mrs. O. J. Clark spent the week end in Amarillo visiting their daughter and husband, Mr. and Mrs. Dean Barnett.

We have been informed that steps are being taken to try to organize an Odd Fellow Lodge at Hico. We feel sure this would be of benefit to members in this section, who have had no meetings

### It Happened Here or Near

By E. E. DAWSON

Do you know what a "FAN" is? Folks talk of all kinds of fans. There is a sports fan, a fishing fan, a fan for almost every sort of thing imaginable. And there's a Railroad Fan. Let me tell you of one.

This Railroad Fan is Master Sergeant G. S. Dawson, a soldier with eighteen years service to his credit. He has had six assignments of duty that took him wholly or partially across the Pacific Ocean. He usually gets home at least once a year, as soldiers get a month vacation each year. In coming home and returning to his assignments he has traversed the country between here and the Pacific Coast many a time. He is a Railroad Fan and each time he makes the trip he undertakes to travel on a railroad he has not been on before. As a result he has been on every line between the Mississippi River and the West Coast in the United States and both the roads of Canada. When he went out to his last assignment he went via the Canadian Pacific Railroad from Winnipeg to Vancouver, and on his recent return he traveled on the Canadian National from Vancouver to Montreal, and then to Boston on the same road to the border of Canada and the United States where he was transferred to the

Vermont Central and the Boston and Maine.

It was meant to give you a definition of Railroad Fan. So here it is: A fellow who will quit eating any time to have a look at a passing train of any sort; who will get up in the middle of the night to glimpse the headlight of a locomotive and listen to its roar. Sergeant Dawson is that sort of fellow. He has spent a sizable sum of money for books about railroads, and if he reads of a book about a railroad he sends and gets it and will sit up all night to read it. If he reads of a picture of a steam locomotive he will send for it and frame it and hang it in a prominent place in his room.

Last Saturday his father and brother took him to the city of Paris, Texas, a bit over two hundred miles from here in order that he might ride a strip of Frisco Railroad line on which he had not ridden: that from Paris to Monet. He had ridden every other line of the Frisco from Birmingham, Ala., to Quanah, Texas, and the mid-west. When he bought his ticket at Paris he had himself routed to St. Louis on the Frisco, then on the Wabash to Lafayette, Ind., thence to Louisville, Ky., on the Monon, and out to Ft. Knox on the Illinois Central. On that roundabout trek he added several hundred miles to his mileage, and all for the sake of seeing how those particular lines operated.

Fans of any sort do a lot of things that fail to make sense to other people, but to them nothing else would be sensible. Do you know how the word "fan" got into use? Folks wanted a short word that meant the same as "fanatic," which in turn is a word that means a sort of craziness with respect to some particular thing. Just as you hear a girl sometime say, "Why I'm crazy about it!" Accuse her of being insane or of being a fanatic and she might scratch your eyes out in resentment, but in a moment of bubbling enthusiasm she will cry out the truth about herself, "Why, I'm crazy about it!"

Sergeant Dawson will be located at Ft. Knox for the next two years, and declares his intention of retiring then, as he will be eligible for retirement on pension. Want to bet he will? My guess is that he will re-enlist for another stretch.

### Largest Enrollment Since 1949 Expected At Tarleton State

Stephenville, Sept. 13.—Tarleton State College is expecting its largest enrollment since 1949 when activities for the fall semester get underway.

College officials anticipate 950 students enrolling before the final registration day, Sept. 27. Total enrollment for the fall semester last year was 778.

A two-day orientation program for all incoming freshman students will begin Monday morning. Freshmen will register Wednesday while returning students will enroll Thursday. The first day of classes will be Friday.

### Church Loyalty Day To Be Observed At Methodist Church

Under the leadership of the official board the members of the First Methodist Church will observe Church Loyalty Sunday, September 16. The goal will be to have every member of the church who lives in Hico or nearby attend the morning worship service on Sunday.

An effort will be made by the members of the board, and the pastor, to make a personal contact with each family of the church to encourage attendance.

### Turkey Marketing Field Day to Be Held At Meridian

Meridian will be the site of one of four Turkey Marketing Field Days to be held throughout the state in September. Turkey producers in this area will have the opportunity to meet with the leading turkey men in the state.

Those attending will handle and grade both live and dressed turkeys, see a demonstration on "Utilizing More Turkey" by F. Z. Beaublossom, Poultry Marketing Specialist, hear President H. H. Weatherby of the Texas Turkey Federation tell how the organization helps the turkey producer, and several other interesting topics and discussions pertaining to the turkey industry.

The program will begin at 8:30 a.m. Tuesday, Sept. 18, at the skating rink building near the traffic circle in Meridian, and will conclude shortly before 4:00 p.m.

Anyone interested in the turkey industry are urged to attend this meeting.

### SOCIAL SECURITY OFFICER WILL VISIT HAMILTON

Under the revised Social Security Law, as much as \$4200 earnings in a year may now be credited toward retirement and family benefits, according to Ed Winslow, Field Representative of the Waco Social Security office.

Write today for your free booklet on how to estimate social security payments, or if you have other questions, a representative from the Waco office will be in Hamilton at the County Courtroom between the hours of 9:00 a.m. and noon on Wednesday, September 19. He will be glad to accept applications for benefits and answer social security questions.
