Tigers Host Strong Evant Eleven In Homecoming Tilt

The Hico Tigers, smarting from the 13-7 loss to Blanket last Friday night, will attempt to find the winning combination once more, when they tangle with the Evant Elks Saturday night in the annual Homecoming clash at Tiger Stadium.

Evant is reported to be "loaded" this year, and will probably be out to keep their slate clean. They have won their first two starts this season, defeating Cranfills Gap 14-0, and last week winning from a better than expected Copperas Cove eleven. They have the power, speed and experience to make an interesting evening for the locals, especially if the Tigers play as loosely as they did in last week's game at Blanket.

A large crowd of ex-students of Hico schools is expected to be present for the game. Game time is 8:00 p. m. Saturday, at Tiger Stadium.

TIGERS LOSE TO BLANKET ELEVEN
Last week the Tigers traveled out to Blanket confident of chalk-up their second win of the season over the small Tigers from that town.

When the final whistle was blown, Blanket had surprised local fans with a 13-7 win over the Tigers. No alibies are offered by the local team for the loss, but most everyone agreed that had it not been for a couple of fumbles by the Tigers the score could have easily been the opposite from what it was. Hico fumbled the ball five times, losing it on four of those occasions, at strategic points when

they were on the march and could have possibly gone all the way for scores.

A weak pass defense also dealt the locals crippling blows. Both of the home team's touchdowns came on completed passes—one for 9 yards and the other for 24.

The first quarter of the game went scoreless, with Blanket making the most serious scoring threat by marching to Hico's 24. An intercepted pass by Sherril Kirk killed the drive. Hico could never get going in the first period, failing to make a first down.

In the second period neither team was able to penetrate past the 50 yard line, and the first half went scoreless. So impotent was Hico's attack in the first two periods that they never advanced the ball as far as the 50 yard line. They were a completely different team from the one fans had seen operate so well in the first two contests. However, credit will have to be given to the Blanket team for their spirit and hustle.

On the third play in the second half a freak pass completion set up the first touchdown for Blanket on Hico's 21. A Hico defender deflected the ball into the waiting arms of a receiver. Four plays netted the Blanket team a first down on Hico's eleven, and on fourth down from the Tiger 9 yard line Blanket passed the distance for the score. The extra point was also made by the air lane to give Blanket a 7-0 lead.

After the kick-off, Hico stormed back and in three plays had worked to the Blanket 15, where a costly fumble gave Blanket possession

on their own 24. However on the next play, the Tigers recovered a Blanket fumble on the 24, from where Buddy Teague picked up 9 yards to the 16. Kirk made 5 to the eleven, and then Teague blasted over the goal from the 11 for the touchdown. Kirk made the extra point and the ball game was tied, at the end of the third period.

Early in the final stanza Blanket forged ahead with what proved to be the winning touchdown, passing 24 yards for the score on a fourth down situation.

Hico was still very much in the ball game, taking the ensuing kick-off and marching to Blanket's 29 before losing the ball on a fumbled pitch-out. Hico returned the compliment a few plays later by recovering a fumble on their own 49.

From the 49 it looked as if the determined Tigers were still going to pull the game out of the bag with at least a tie, but after moving the ball to the 24, they again fumbled the ball, which proved to be the back-breaker, as time ran out and the locals came home with a very disappointing 13-7 loss.

The Tigers have been put through hard drills this week in preparation for the Saturday night game here with Evant. With a little improvement the locals could make a very interesting night for the visiting Elks. Local fans will be treated to a good, fast ball game, and a large crowd of out of town visitors are expected to be present for the 8:00 p. m. kick-off.

Hay & Roughage Approvals Withheld Until Further Notice

The Bosque-Somervell County Office of Farmers Home Administration has been instructed to withhold further approvals of hay and roughage purchase certificates until further notice according to Robert A. Wells, FHA Supervisor.

In Texas the volume of requests for assistance under this program has far exceeded the estimates of the demand when the Emergency Hay and Roughage Program was originally set up. The program began with an allocation of one million dollars made by the Secretary of Agriculture to the State of Texas.

Funds available to finance roughage programs must be allocated among all disaster designated states where such program is needed. It is now necessary to re-appropriate the actual cash requirements. Applications for assistance under the Hay and Roughage Program will continue to be received, however no approvals will be issued until further notice.

Mr. Wells reported that the Bosque County FHA office has issued purchase certificates which authorize assistance on the purchase of 8,650 tons of hay by farmers and ranchers in the county. Assistance in the amount of \$7.50 per ton on the purchase price is allowed on hay and roughage actually purchased. According to Mr. Wells there is very little hay available for purchase locally and many farmers and ranchers are being required to ship hay from distant points.

Applicants for assistance under the Emergency Grain Program will be received in the County FHA office in Meridian through October 1, 1956. Mr. Wells stated that no applications for this assistance can be accepted after that date.

Mr. Galyean has had a total of 26 years of experience in the public schools of Texas, having served as elementary school teacher, elementary school principal, high school principal, school superintendent, deputy state superintendent, and Director of School Census and Statistics in the State Department of Education. He has been serving in his present capacity as Director of Research and Records at TSTA for the past six years.

Mr. Galyean has a B.S. degree from North Texas State College, a Master of Education degree from SMU, and holds a professional teacher's certificate and administrator's certificate. He is a member of local, state, and national professional organizations, a Mason, and a member of Phi Delta Kappa, professional fraternity for men in education.

This wide background of training and experience eminently qualifies Mr. Galyean to speak on any subject related to the field of education.

The program will be opened by the Sixth Graders with a Columbus Day play, with their teacher, Mrs. Joe B. Taylor, directing.

For effect the costumes will be a mixture of the fifteenth and twentieth centuries. The program will be enhanced by the use of a color wheel for lighting emphasis.

The cast will include the following pupils: Columbus, Don Jernigan; Signora Columbus, Judy Ogle; Signora Murphy, Barbara Bradley; Geographer, Jerry Williams; Diego, Ross Price; Queen Isabella, Jane Akin; King Ferdinand, Larry Erick; Page, Bill Rutledge; Wise man, Ronnie Driver; Merchant, Mike Lowe; Indians, Harold Hathcock; Anita Mayfield and Kenneth Hester; First Lord, Winston Churchill; Second Lord, Jerry Cain; Third Lord, Danny Reeves; Fourth Lord, Billy Archie; First Lady, Barbara Randala; Second Lady, Dixie Lacey; Third Lady, Barbara Patterson; Fourth Lady, Sylvia Sherrard; Announcer, Kathy Haley; Program, Linda Williams and Margaret Prater; Pianist, Loyette House; Curtain, Christine Ballard; Stage Hands, Martha Paddock, Janell Ogle, LaVerne Glover, Marilyn Hester.

Refreshments will be served in the school cafeteria after the meeting.

New officers will be elected at this time and other matters pertaining to the future of the association will be discussed.

There will not be a dinner this year, as has been the case in previous years, due to the lack of response to the last two that have been held.

A football game between Hico and Evant, is scheduled for 8:00 p. m. Saturday at Tiger Stadium, and Exes are assured of seeing a good ball game. Evant is undefeated this year, while Hico has lost one and won one game.

Fairy Tigers Win First Game 45-19 Over Priddy Pirates

The Fairy High School Tigers won the first game of the 1956 season by a score of 45-19 when they met the Priddy Pirates on the Pirates' home field last Thursday night.

Coach Billy McClure's nineteen-man squad, dressed in new uniforms, captured the hearts of two bus-loads of boosters who went to see the team break the streak of losses that hovered over Fairy all last season. The whole game was an exciting series of passes, long runs, and effective blocking, both in the line and down field.

Robert Barnett, a junior playing at a halfback position, made five touchdowns and completed one pass.

Quarterback Larry Gardner, a senior, ran 45 yards for a touchdown on an intercepted pass, completed five passes, and three times carried the ball over for the extra point.

Robert Rachuig, a senior playing at halfback position, made the other touchdown.

All the players were in fine spirits and presented a striking example of teamwork. Starting line-up included Joe Knapp at center, Dennis McAdams, right end, Don Halle, left end, Robert Barnett, right half, Larry Gardner, quarterback, and James Streater, left half.

Coach McClure effectively shifted from starters to substitutes for special plays and used most of his squad at some time during the game.

Besides the starters the squad includes Rachuig, Lynn King, Billy Clark Streater, Harlon Wood, Ray Massengale, Don Barnett, Jerry Paul Jones, Allen Trigg, Bill Halle, Ray Stone, Duane McAdams, Erman Jackson, Frank Fields, and Billy Wayne Harris, manager.

In commenting on the game, Mr. McClure said "The entire squad displayed a fine example of spirit and consistent teamwork even when they were shifted into different positions. The blocking and tackling was very effective, considering the first game of the year, and the backfield carried out their assignments admirably."

Coach Boyd Lowry was with the boys on the bench, adding his support throughout the game.

The Fairy Pep Squad, with twenty-nine girls and little Miss Linda McClure as mascot, gave a fine demonstration of precision drill between halves. They are sponsored by Mrs. W. B. Hill as squad mother and directed by Mr. Frank Bonner, seventh and eighth grade home room teacher.

REPORTER

FAIRY

By MRS. EUNICE DANIEL

A norther blew in early today (Tuesday) accompanied by heavy clouds, lightning and the roar of thunder, which sounded good and gives us a little hope that maybe that much needed rain will come our way sometime.

We were very sorry to learn of the passing of Mrs. Wallace Petty of Hico, and extend sympathy to her bereaved husband and other relatives. Mr. Petty formerly owned a farm ranch property here and Mrs. Petty often accompanied her husband out to their farm before her health failed.

We were also very sorry to learn of the death of Miss Annie Mann of near Moody, who passed away recently in a rest home. Miss Mann was a relative of Mrs. R. W. McAdams of Fairy and an acquaintance of the writer since early childhood. She was an only child and lived alone at the Mann home—about six miles southwest of Moody after the death of her parents, until her health failed several years ago and she was placed in a rest home. She left her entire estate to the Church of Christ of Moody. Members of the church had charge of burial and funeral arrangements. She was about 80 years old.

The farm to market road leading east from Fairy to the Bosque County line is nearing completion. Topping is now under way, a portion of which has been completed. We know all who live enroute along this road are going to enjoy traveling it.

Mrs. Gladys Cor underwent mi-

nor surgery at the Hico Hospital Wednesday of last week and is thought to be improving satisfactorily.

Harold Lackey, son of Mr. and Mrs. Bill Lackey, was hospitalized a day or so the first of the week with a throat ailment due to a severe cold.

The writer attended singing Sunday afternoon at the Assembly of God Church in Hamilton and visited after singing hours with Mrs. Minnie McCarty. Sorry to report her suffering again with an attack of rash. We hope she will soon be recovered from this terrifying malady.

Little Miss Dixie Lackey of Hico attended church here Sunday at the Methodist Church. She was visiting Glenda Jackson Sunday.

Mrs. Charles Price of Austin visited from Friday until Sunday with her parents, Mr. and Mrs. P. L. Cox.

Mr. and Mrs. Jamie Sills and little daughter of White Sands, N. Mex., who had been visiting here with his parents, Mr. and Mrs. Herman Sills and Jo Ann for the past few weeks, returned home last Wednesday.

Mr. and Mrs. Carl Ray Sellers, Carolyn and Jimmie Don visited Sunday afternoon in the home of his parents, and sister, Mr. and Mrs. N. S. Sellers of Hamilton and Mr. and Mrs. Norman Thompson and family of Littleville.

Mr. and Mrs. D. E. Allison of Dublin were visiting here Sunday with his parents, Mr. and Mrs. Ed Allison, her sister, Mr. and

Mrs. Carl Ray Sellers and family, and also in the home of Mrs. Allison's aunt, Mr. and Mrs. T. L. Betts.

Mr. and Mrs. Milford Miller and Ronald of Fort Worth spent the week end with their parents, Mr. and Mrs. A. J. Miller and Mrs. M. E. Parks and Audie.

We recently made mention in one of our news letters of losing a handkerchief in Hico that we treasured greatly. A few weeks later we received a phone call from Miss Ruby Rodgers of Hico who sends her laundry out, stating a handkerchief fitting the description I had given had come in with her laundry. We dropped by later and sure enough it was the handkerchief which we were afraid we would never see again. Just who had found the handkerchief will probably never be known, but our thanks and deep appreciation to Miss Ruby in bringing about its recovery.

At this writing it seems good rains are being received west of us. We hope so at least.

Some earthen stock tanks are dry and others running low, however we feel fortunate here in that most farmers have deep wells and are able to take care of the water problem.

Many are hauling water over the county.

Miss Bobby Prater of Fort Worth, daughter of Mr. and Mrs. Lee Prater of near Olin, attended church here Sunday. She is home for a vacation and hopes to make a tour of parts of the state with her land-lady before returning to her job. The Praters formerly lived east of Fairy, and still attend the Methodist Church here.

From where I sit... by Joe Marsh

Changed Her Whole "Point of View"

Some local high school teachers spent the summer taking courses at the State University. They learned a lot, but one of them—Miss Williams—got homesick.

"To save expenses," she reports, "we chose a hotel that was clean but grim. When I found my window looked out on a coal yard—my heart just sank!"

But, when Miss Williams noticed a pot of geraniums on the window sill—and a note saying "Look at these instead. (signed) Last Occupant"—she decided to stick it out. She kept those flowers

watered and tended to make things that much easier on the next occupant.

From where I sit, it's often hard to adapt to new surroundings—just as new customs often seem strange to us at first. For instance, if you're always had tea with your meals you might find it odd that I prefer a glass of beer. It's OK to prefer what's familiar to you... but also keep an open mind on what's not.

Monday of last week the Junior class elected its representatives for the "Tiger's Lair," the yearbook of Hico High School. The new staff members are: Louise Baker, assistant editor; Reggie Ellis, assistant business manager; Linda McLendon, assistant snapshot edi-

tor; and Geoffrey Holladay, assistant art editor.

Senior staffers are Carey McKenzie, editor; Buddy Teague, business manager; Judy Holladay, snapshot editor; and Bonnie Johnson, art editor.

The annual staff started off with a bang the latter part of last week by soliciting some pages of the sixteen desired pages of ads. In buying ads the merchants have been very cooperative this year, as always.

With Mr. Cook's help and encouragement, we, the annual staff of '56 and '57 shall earnestly strive to make this year's annual the best Hico High School has ever had. With our new "Tiger's Lair" workers, that should be a cinch.

SPOTLIGHT

I think something is wrong with my spotlight because all last week I couldn't find anyone. What's the matter with everyone? Are you hiding from me or home studying?

As Friday night came I flashed my spotlight around. I only saw a few kids riding around town. As I looked in the movie I saw a whole row of sophomores and junior boys. Where were your girls, boys? I soon found out that the rest of the kids had gone to Blanket to the football game so I went too. We really enjoyed the game, even if we did get beat.

Saturday night in the beam of my spotlight I caught sight of LaVon P., Judy M., Buddy T., Reggie E., Butch E., Carolyn P., Carey Mc., Janice T., Andy L., Kendall H., Sherril K., Linda Mc., Sonnie J., James D., Myrna M., Carel F., Charles T., Kay J. I also caught sight of a good many boys without dates. What's wrong with you

Important Social Security Changes Pointed Out

Important changes in Social Security brought about by the 1956 Amendments to the Social Security Act become effective within the next five months, according to Al Bracken, manager of the Waco Social Security Office.

Beginning with November 1956, women between the ages of 62 and 65 may begin to draw their Social Security benefits upon filing application with the Social Security Administration office nearest them. Further information can be obtained from that office.

Other changes involve payments to disabled dependent children over the age of 18, and payments to individuals between the ages of 50 and 65 who are totally disabled. Further details on these other changes will be released at a later date.

Effective date for payments to disabled children is January, 1957, for other disabled individuals, July 1957.

Parents Again Warned Of Responsibility of Child Safety

"I'd like to give every parent and every automobile driver a chance to sit behind the steering wheel of a school bus for just one day. Believe me, they'd learn plenty about child pedestrian safety."

That observation was made today by E. C. McFadden of Dallas, President of the Texas Safety Association. He was discussing the child safety program which is being conducted in Texas this month by the Safety Association, the Department of Public Safety in cooperation with the National Safety Council.

McFadden is pretty sure that driving a school bus would convince the adults of one thing—that the responsibility for the safety of children in traffic rests largely on the shoulders of grown ups.

"Sure we have problem kids on the bus," he said. "But it's my opinion that the problem of most problem children is their parents."

He believes that the youngsters who get out of control on the school bus, or who disregard safety rules when getting on or off the bus, haven't been taught at home to respect others or to respect law and order.

So much for the adults who are an indirect cause of many child pedestrian accidents. He also had plenty to say about the adults who are a direct factor—the automobile drivers.

"Some of them are in such a hurry to get where they're going that they can't spare the time to stop while the school bus is loading or unloading," he said. "There are others who stop, but who don't make sure that all the children are safely across the street before they start up again. Drivers like these risk the lives of children

just to save a few seconds time." For these drivers and for those who don't slow down near schools and playgrounds or who don't keep a constant eye out for children in traffic, McFadden had this reminder:

"It's one of the responsibilities of an automobile driver to look out for kids in traffic. If you're not ready to accept this responsibility, you're not ready to drive a car."

UNORDERED MERCHANDISE

Suppose the mailman delivers to you a package containing a necktie—or a book, key-ring tags or a phonograph record—that you didn't order. Either with it, or by mail, is a bill or request to remit the price.

What are your obligations, assuming you don't want the merchandise? Must you return it? Can you use it and not pay for it? Must you keep it, or can you throw it away?

Generally speaking, recipients of unordered merchandise are under no obligation (a) to return it, (b) to acknowledge its receipt, (c) to pay for it unless used, (d) to give it particular care, or (e) to keep it beyond reasonable time.

You are obligated to surrender the merchandise if called for in

person by the shipper or his agent within a reasonable time. But you can demand storage charges before surrendering the item. If you mail it back at your own expense, you very likely will stay on the sender's mailing list and will receive other shipments in the future.

There are no postal regulations governing unordered merchandise, except where fraud is involved.

Congress is trying to draft some legislation that will cover the situation. However, if you know what is in the envelope or package, you can write "Refused" across the face of the piece of mail and land it back unopened to the mailman. No further explanation is required. You don't have to accept any class of mail. Further your refusal probably will result in the sender having to pay return postage.

A ruling by the Federal Trade Commission holds it a violation of the Federal Trade Act for a sender of unordered merchandise to claim that "the receiver is under obligation . . . to pay for or return the merchandise." Hence, if you don't use the merchandise, you are within your rights in refusing to pay for it.

In summary, unless you want to use the item, in which case you should pay for it, you should keep it for awhile and then may throw it away.

If another person's mail is improperly delivered to you, do not open it, as such action might make you liable to severe legal penalties. Such mail should promptly be re-deposited in a postal box with an appropriate notation thereon, such as the proper address or "not 14 South Brown Street," showing the address to which the mail had been delivered.

Home ownership is one of the *big* things in a family's life, and one of the many big dreams that will come true for you — if you invest regularly in United States Series E Savings Bonds.

Say you start buying a Bond a month at \$37.50. 5 years from now you'll have Bonds worth over \$2,300 in cash — in 9 years and 8 months, over \$4,900 — enough to turn your castle-in-the-air into a brand new ranch or split-level home.

Your principal invested in Savings Bonds is absolutely *safe* — not subject to market fluctuation. Your returns are *sure* — an average 3% interest compounded semiannually when held to maturity.

So stop just dreaming about buying a house and start making that dream come true for yourself and the whole family. Do it the safe and sure way by buying U.S. Savings Bonds regularly where you bank or sign up for the Payroll Savings Plan where you work.

"SAND IN THE SHOES" DOES A TURN-ABOUT

By BILL BURNER—ANS Features

THE OLD REMARK "SAND IN THE SHOES" describing a slow-moving lazy hombre takes on a new role, this fall, when fast-moving men and boys will be shod in sandy shoes.

The mystery unfolds this way:

Strangely enough, water-deference is only half the story. Both wear and laboratory tests reveal that this new chemical keeps leather new-looking much longer, gives shoes greater wear-life.

Silicones actually keep leather soft and pliable for its natural life, therefore preventing cracking possibilities in damp, cold weather, and resistance against the curling of toes caused by the elements.

Also, salted ice from winter streets will not leave its usual tell-tale white ring on silicone processed leathers, something it used to take an awful lot of shoe polish to cover up.

It seems that a new family of chemicals, called silicones, originate from the quartz-like material found in ordinary sand, and Dow Corning Corporation, the discovering chemists, have been working for a number of years with major leather tanners on the development of shoe material that would keep feet desert dry, regardless of rain, sleet, snow or any other form of water.

Well, they've done it, and this fall men's and boys' (and some girls') shoe shadders will be talking about "Sylflex, the leather that breathes, but won't let water ride up."

True, there've been shoes, mainly workman and sportsman's gunboats, that've been "dubbed" or "oiled," but at the expense of hot, perspiring feet.

The silicone or Sylflex process, it is reported, wraps itself around each tiny fiber, actually becoming a part of the leather, and in so doing, excludes water, but permits air.

So, sand in the shoes is not so bad this year, particularly if it's been modified into leather-treating silicone chemicals, and there are about 35 national shoe-makers who have at least 35,000 foot fitters set to tell at least 350,000 or more purchasers about it, with shoes to match.

First TR. containing 0.55 acres of land; SECOND TR. containing 0.24 acres of land; THIRD TR. containing 0.25 acres of land; FOURTH TR. being Lot 60x150 feet, and all of said tracts being out of the S. A. Clark larger tract, and the 5, 10, and 25 year statute of limitations are especially pleaded.

Issued this the 29th day of August, A. D. 1956.

Given under my hand and seal of said Court, at office in Hamilton, Texas, this the 29th day of August, A. D. 1956.

THE BUSINESS OF NOT RAISING HOGS

Is history repeating itself again? A certain "famous" letter is back in circulation again which would indicate we are completing another agricultural cycle.

Back when Henry Wallace was Secretary of Agriculture, one Ramon Ortiz De La Munoz inquired about the possibility of "not raising hogs." The letter appeared again recently in the Gorman Progress in Eastland County, and, in these days of soil bank when it is profitable not to raise wheat and cotton, it has a very timely note. Here is the letter:

Amigo Mior:

My Amigo, Pedro in Brazoria County received a check for 1,000 from the government this year for not raising hogs. So I am going into the "not raising hog business" next year.

What I want to know is, in your opinion, what is the best kind of farm not to raise hogs on and the best kind of hogs not to raise? I would prefer not to raise razor-backs, but, if that is not a good breed not to raise I will just as gladly not raise any Berkshires, Durocs, or Poland China.

The hardest work in this business is going to be in keeping an inventory on how many hogs I haven't raised.

My Amigo Pedro is very joyful about the future of this business. He has been raising hogs for more than 20 years and the best he ever made was \$400 back in 1918, until this year, when he got a thousand dollars for not raising hogs.

If I can get \$1,000 for not raising 50 hogs, then I will get \$2,000 for not raising 100 hogs, etc. I plan to operate on a small scale at first, holding myself down to about 4,000

hogs, which means I will have \$80,000.

Now, one other thing. These hogs I will not raise will not eat 1,000,000 bushels of corn. I understand that you also pay for not raising corn. So will you pay me anything for not raising corn not to feed to the hogs I am not raising?

I want to get started as soon as possible as this seems to be a good time of the year for not raising hogs.

Yours truly,

Ramon Ortiz de la Munoz. P.S. Can I raise 10 or 12 hogs on the side while I am in the business of not raising hogs? Just enough to get a few sides of bacon to eat?.

It Happened Here or Near

By E. E. DAWSON

Last week there was given here one side of a picture, not at all pretty. This week the other side of the picture is given, and it is not pretty either. But the facts remain in each case.

This is a story of Gramppa. We use that term, with the first "P" short but emphatic. The writer must have been at least ten years old before he discovered to his great surprise that it is not Gramppa, but Grandpa. You see he had been hearing the other term all his life and what one hears as a child has got to be just right in his thinking. Well, now to Gramppa. He is now up toward a hundred and may reach that mark. He lives with kindred in a certain community and holds membership in a church of that community. The church has had lots of friction and dissension, and a whole lot of it has been attributed to Gramppa. There are some things true of Gramppa that, as deserving of notice under the circumstances. Note them below.

Gramppa has always had strong and definite opinions and seems to think only his opinions about a matter can be right. If one holds a different idea it must be due some aberration of mind, or a result of ignorance. When Gramppa preached through a good long term of years, he was quite argumentative and loved to strip the

hide off all opponents and hold it up for public view and gloat over his victory over error. And Gramppa did not think he could be honest if he did not express his opinions from the housetop. In his retirement years he continued to hold to his definite opinions and to the clamorous expression of them. He lived with his kindred and they have quite a reverence for him and never fail to be awayed by his opinions.

Gramppa makes up his opinions from reports that come to his ancient ears. He does not take into account the fact that what one hears may be only fractionally true. You can add a lot of fractions together and still have a sum less than one. A lot of partially factual rumors may not add up to the truth. But Gramppa is always definite. If he hears that Jim Cuddy shot a hawk two hundred yards away and killed it, that means exactly two hundred yards, not a hundred ninety-seven, and if he is subscribing to a base untruth to tell it as less than two hundred yards.

In his interpretations of the Scriptures, Gramppa is just as definite also. He studied rhetoric in a very excellent institution and learned of figures and speech such as metaphors and similes, but such figures are not to be found in the Scriptures, and to say that they are is atheistic. He reads Who

CLAIRETTE BOY COMPLETING BASIC MILITARY TRAINING

James William Huggins, son of Mr. and Mrs. Harry Hoskins of Clairette, is completing his Air Force basic military training at Lackland Air Force Base, the "Gateway to the Air Force."

His Lackland training is preparing him for entrance into Air Force technical training or for an Air Force duty assignment. The course includes a scientific evaluation of his aptitude and inclination for following a particular career field.

Lackland, situated near San Antonio, is the site of Air Force basic military training for men and women and home of the USAF Officer Military School, of which the U S A F Officer Candidate School, the U S A F Pre-Flight School and Officers Pre-Flight Group are operating units.

"maketh the clouds his chariots" and when he hears the reverberations of thunder during a storm remarks "That is the Lord's chariots rolling across the cloud." That the ancient poets took poetic license just as moderns do seems not to have registered in his mind.

One thing Gramppa evidently never learned: that silence may not have to express his opinion; he can keep them to himself; the world could possibly move majestically along without ever hearing his opinions. Another important thing he neglects to observe: whereas he belongs to a church group that is congregational in government, and is therefore a democracy, he fails to listen to the other opinions of his fellowmembers. This is repeated: Gramppa influences his adoring kindred and they insist on his convictions being carried out and democracy is cast to the winds and what is actually a dictatorship is set up.

Well, Gramppa is moving along elsewhere with his kindred and it seems probable that the church will give a sigh of relief and go back to unity and its boasted democracy. And Gramppa will be in such a new environment that he will not undertake to be so clamorous. Let's hope for the best.

HICO GIRL RECOVERING FROM CRASH INJURIES

Janice Tomlinson, Hico High School student, is recovering from a severe gash on the forehead, received early Sunday evening when the car in which she was riding struck a tree at the Glenn Higginbotham home directly south of the school grounds.

Music Director Is Employed by Iredell Baptist Church

The First Baptist Church in Iredell was recently employed John R. Trueblood as minister of music. John, as he has already come to be known in Iredell, is a junior at Baylor University. Before coming to Iredell he was minister of music at North Waco Baptist Church. He has also served as music director at Midway City, Cal., and the Calvary Baptist Church of Decatur, Illinois.

His home is in Decatur, Ill., but is originally from St. Louis, Mo. He came to Baylor in 1955 and plans to take his B.A. from the Waco school. He has done extensive evangelistic work with the present pastor of the Iredell church, Rev. Charles L. Rice. They traveled together in the summer of 1955 in the states of California, Illinois and Oklahoma. During this past summer they were in an Associational Youth Crusade in Atlanta, Georgia, and a youth revival in California.

When Jesus Comes In . . .

By MORGAN GARRETT

When Jesus comes into a life or into a human situation important changes are made. The changes improve life for the person or persons involved. One of the best illustrations of this is found in the story concerning the time Jesus went into the home of Jairus (see Mark 5:38-41).

When Jesus went into the home of Jairus he cast out something. The home of Jairus was filled with people who were weeping and saying that the daughter of Jairus was dead. Jesus cast them out for they were filling the place with fear and despair. There are things in many lives that fill them with gloom and despair. This is true of many church members even. If you are in such a condition, take Jesus into your life and he will drive these things away.

When Jesus went into the home of Jairus he brought something in. He brought hope and peace to the hearts of the parents of the little girl. By his very manner of tenderness and love Jesus restored their sense of peace. By his manner of assurance and confidence he filled their hearts with hope. Too many think Jesus only takes negative attitude toward things out. He is just as concerned with the positive things, too, bringing things into our lives. When he come into your life or your difficult situation he will bring something in that will add peace and hope to your heart.

When Jesus went into the home of Jairus he transformed something. He transformed the daughter of Jairus from death to life. Jesus had been and still is the great transformer of life. In the Bible a story is told of how he once transformed water into wine. During the eighteenth century in England a hard-drinking, rough-living miner came under the in-

fluence of Jesus through the preaching of a Methodist pastor. He took Jesus into his life. When he went back to work the other miners made fun of him. Months later he was discussing Jesus with his fellow-workers. One of the miners asked him if he believed in the miracles spoken of in the New Testament. "Surely you do not believe Jesus changed water into wine, do you?" he asked. The Christian man replied, "I know one thing for sure, he has changed liquor into furniture for me. Jesus came into my life while I was a wasteful drunkard and transformed me into a sober man who practices well for his family. That's miracle enough for me." Jesus will do wonderful things for you when you take him into your life.
