HICO, TEXAS MARCH 1, 1957.

NUMBER 43.

Airman Given 15 Years In Local Station Robbery

Richard G. Gannon, 18, of Waltham, Mass., was given 15 years by the Second District Court jury Monday which found him guilty of robbing a Hico service station.

The case went to the jury at 10 p. m. and a verdict was rendered at 8:45. The jury took an hour off for supper.

The airman, stationed at Shepley Air Force Base, Wichita, was accused of stabbing and robbing Albert Grimes, 67, last November 8.

Grimes testified Gannon and

two other men drove into the station and dickered with him about pawning a tire and a wheel.

After some discussion he agreed to give the trio \$5 for the tire and wheel, the witness said.

Grimes said as he went to the cash register to get the money Gannon attacked him with a knife, stabbing him repeatedly in the back, chest and neck.

District Attorney Truman E. Roberts had asked for the death penalty.

Gannon's attorneys, Herbert B. Gordon of Hamilton and C. O. McMillan of Stephenville, contended their client, who did not take the witness stand, was not really bad but that he had been taken into the armed forces and taught to kill.

The 12-man jury was made up of the following men: Otis Grant, Clifford Conner, Cecil Kautzsch, Arthur Riewe, Paul Christianson, A. B. Clark, Martin Lueck, Avery Clemmer, Alton Gromatsky, Elmer Hurley, Bob Sullivan, and O. F. Gromatsky.

One of the other three involved in the robbery, Jack Abbott, faces trial March 11.

Iredell Baptist Church Will Hold Week-Long Revival March 11-17

Dr. Richard H. Poss, pastor of the First Southern Baptist Church in Costa Mesa, California, will be the evangelist in a one-week revival at the Iredell Baptist Church, March 11 through 17.

He was formerly pastor at Avery, Goddard, Shreveport, and the First Baptist Church in Greenville, Texas, before going to his present pastorate in California. He is the son of Mr. and Mrs. A. R. Poss of Iredell.

The music for the revival will be under the direction of the church music director, John Trueblood.

Services will be held nightly at 7:45. The public is welcome to attend all the services beginning on the evening of March 11 and continuing through March 17.

Rev. Charles Rice is pastor of the Iredell Church.

Local CPS Manager Warns Against Dangers Of Kite Flying

It's the season when small boys with kites in tow are seen in vacant lots throughout the land.

Kite flying is fun but tragedy can result from this sport. Not a year passes without some casualties to young kite flyers.

O. L. Davis, manager of Community Public Service Company's local office, doesn't want any youngster to get hurt while flying his kite. So he makes the following helpful suggestions:

"When you get ready to fly your kite," says the manager, "choose a place away from power lines and television antennae, an open space where you'll have plenty of room to run. Never use the streets or highways. That's Rule Number One and it's important to follow it.

"Rule Number Two is to make sure your kite has no metal in the frame or in the cord. If the cord has tinsel or little strands of wire in it, or if the kite string should get wet, and you should forget and let it come in contact with electric lines, you might be very seriously hurt.

"Rule Number Three is: If you should slip up and let your kite get near electric lines and it becomes caught in them, leave it there. Never, never try to get a kite down from electric lines. Do not try to climb up after it or poke it down. It might cost you your life," Mr. Davis concluded.

Patrons Invited to Visit Local Schools During Special Week

By O. C. COOK

March 4-9 has been designated as Texas Public School Week. Public School Week in Hico, as well as other cities, has been observed for many years with increasing interest on the part of parents and patrons.

In the past, outstanding success of this week has been clearly demonstrated, as has been indicated by the back to school movement

on the part of parents and friends of the school.

We would like to make this year bigger and better. Our program for the week consists of the following:

Monday night, March 4: Regular meeting of the Parent-Teacher Association. The Second grade will have the opening part and Rev. Claude Cagle will be speaker. Refreshments will be served in the lunchroom by the Masons of the Hico and Clairette Lodge.

Wednesday, March 6: The Hico Civic Club will hold its regular meeting in the school lunch room. Members of the Hico and Clairette

Masonic Lodge are also invited to this meeting. A short program will be presented by the first grade under the supervision of Mrs. R. B. Jackson. After the regular lunch at 12:10 p. m., visitors will be given an opportunity to visit classes.

Friday, March 8: The band will give a concert in the auditorium at 1:50 p. m. School will dismiss at 2:30 p. m.

Parents are invited to visit the school any time during the week, however, Wednesday and Friday have been set aside as special visiting days.

Public school offers a splendid opportunity for citizens to visit their schools. If the citizens become more acquainted with their schools and their problems, they are more likely to enlist themselves in efforts to improve the schools. The education of our young citizens remains the most challenging of all our responsibilities.

We trust that each individual will find some time to visit school during this week.

A tentative goal of 1,000 visitors during this special week has been set.

It Happened Here or Near

By E. E. DAWSON

And you think you have troubles, maybe you have. But after living these years I discover that my worst troubles have not been anything like those of some other folks. And the thing that humbles me is that some of the most tortured souls have been so cheerful and so grateful to live. Ever and anon one may run across these heroic souls that make you ashamed that you may have ever whimpered, and it starts a bit of revolution in your inner being that issues in a resolution to face things bravely.

The reason for the above statement is the Associated Press story that appeared one day last week about a woman who is now eighty-two years old, and celebrated her birthday earlier this month. At the age of two years she lost her sight to a brain fever. The brave woman says that she never felt sorry for herself because of her blindness and gave as the reason for her cheerfulness that she was glad to be alive to worry about things of vision.

This woman was born Allie Dawson in Waco, no relation of this writer, so far as is known. She got fair education and was much interested in music and in time became an expert musician and was most of her active life a music teacher, much of that time teaching at Weatherford. How did she learn new music? Someone would read the parts to her, maybe two or three times, each part by itself. She would follow the notes and then be able to blend four parts in perfect fashion. And in keeping with the tradition of women she married and had three sons, with one of whom she now lives at Corpus Christi. Her husband's name was Wilkinson. After one of the sons was old enough to study typewriting, Mr. Wilkinson had him teach her

the keys of the typewriter, and in a short time she could type faster than the son who had taught her. Since then she has been a typist as well as a musician. Not only music and teaching have appealed to her, but literature. She is quite well acquainted with the affairs of the world.

And there you have a brief story of a noble soul who refused to succumb to handicap and has lived a useful and happy life and made a distinct contribution to the world. Here's to you, O brave Soul!

"Pretty soon I am due to go to Corpus Christi to tie up a granddaughter to the man whom she has chosen, and while there on that mission, I am going to try to visit Mrs. Wilkinson and shake her hand, for just reading of her has given me a lift of spirits.

If you will read the stories of great personalities you will find that so many of them had such difficult hurdles to leap over in order to become what they did become and do what they have done.

I heard over the radio the other day that Helen Keller was in Dallas. One of the greatest thrills of my life was seeing and hearing that woman speak.

At a very early age she became blind and deaf. There she was in her Alabama home cut off from all the world. A teacher with a great heart, from New England, heard of her and went to the home of the little girl and began to try to communicate with her, and finally established communication with her. And do you know what Helen asked first when she was able to communicate with her teacher? She asked, "Tell me about God." But she had never heard of God, except in those very tender years before she lost sight and hearing. But the sense of God in her soul was there all the time, even as He is in the heart and conscience of every being in this world.

Two Local F. F. A. Members Win In Houston Calf Scramble

A swarm of FFA boys and their sponsor, Mr. Walker, left Hico Sunday morning bound for the Houston Fat Stock Show. Mr. Starnes, a long-time supporter of the chapter, gave the boys a big send-off with money for a steak dinner while in Houston.

Within three hours of their arrival in Houston, two boys had already won a total of \$250.00 in the world's largest calf scramble. These boys we must congratulate are Royce Samford, a freshman student, and Gail Christian, a sophomore student in our high school. Each boy received a \$125 purchase certificate with which he can buy a calf of his choice, to be entered in the 1958 Houston show. The boys must send monthly reports to their sponsors on the calf's progress.

To be eligible to compete in the scramble, applications must be sent to the Area Supervisor for his checking. The boys must have had previous experience in the fattening of calves and be capable of developing a fine animal for the show.

There are twenty boys and ten calves in the scramble, but this year there was an extra man participating. He was Roy Rogers, "King of the Cowboys." Gail had the support of Roy who lined up

Hico Cagers Defeated In Bi-District

The Hico boys' basketball team lost a decision to a good Valley Mills team Tuesday night in the bi-district play-offs, played at Clifton. The final score was 66-47.

Hico had won the right to represent the district in the play-offs by defeating Kopperl for the district championship.

In the game Tuesday night, Valley Mills jumped into a lead and were never headed. After the first five minutes, 6 points was the closest Hico could ever come to catching up.

Sherrel Kirk scored 16 points to lead Hico scorers.

WANDA ROBERSON NAMED TO HONOR ROLL AT HOWARD PAYNE COLLEGE

Wanda Roberson, daughter of Mr. and Mrs. Bud Roberson, has been named to the honor roll at Howard Payne College for the fall semester, according to information received from the college news bureau.

Mr. and Mrs. Glen Ross and two children of Seminole spent the week end with their parents, Mr. and Mrs. Conda Salmon and Mr. and Mrs. Watt Ross.

beside him on the starting line. Being thrilled, excited and nervous, Gail let Roy out run him to the end of the arena. Although Roy was in boots and the other boys in tennis shoes, he gave them a good race. Of course he didn't try to catch a calf. Most of the boys learned that you can be fast without having a horse like Trigger.

The boys have to catch, halter, and pull the calves over a line marked off by the officials. Some boys have to have rest periods before completing their task and there is always ten disappointed boys when the scramble is over, but not one from Hico this year. Congratulations boys for a job well done and loads of luck at the 1958 stock show.

Other FFA boys and Mr. Walker are spending a week in Houston with other entries. Roland Shepard has an Angus heifer, which placed second in Fort Worth. John Ryan has a Hereford heifer that he bought with the purchase certificate from last year's calf scramble. Geoffrey Holladay has two Holstein heifers which did exceptionally well last year at the show. Mike Lackey has a Hereford heifer entered also.

The results of the entries will be carried in next week's paper. FFA CHAPTER REPORTER.

Mr. Blackburn became a Christian and joined the Baptist Church at the age of 17, and was devoted to his church. He was widely known and prominently identified with every movement that was for the best interest of his community throughout his long years of residence there. Tri-County Medical Society Urge Salk Polio Vaccinations

At the meeting of the Tri-County Medical Society February 19 at Stephenville, the resolution was adopted unanimously urging all individuals below the age of 40 to protect themselves against the possibility of poliomyelitis through the use of the Salk Vaccine.

It is felt that this vaccine is a safe and effective treatment and that no individual should be denied the opportunity to protect himself and his children from the ravages of this disease. All citizens of the community are urged to see their family doctor before the beginning of the next polio season and be vaccinated and take advantage of this protection.

To be sure that everyone has this opportunity, the public is advised that there is adequate vaccine available for the entire community. In addition, so that no one because of financial reasons should be denied the protection, vaccine is available at every doctor's office that has been supplied by the State Health Department for those who cannot afford this vaccine.

Plans will be made in the near future for children in the county schools who cannot afford to pay for the vaccine to come as a group to their local doctor's to have this vaccine administered.

The doctors present who unanimously approved this resolution were Dr. Joe Pate, Dr. Carl Jor-

dan, Dr. T. F. Bryan and Dr. C. T. Cole of Dublin; Dr. W. F. Hafer, Dr. H. V. Hedges and Dr. Bob Herrin of Hico; Dr. P. E. Smith of De Leon; Dr. J. C. Terrell, Dr. Vance Terrell, Dr. Bruce S. Terrill, Dr. Robert E. Weaver, Dr. John H. Glynn, and Dr. Nathan Cedars of Stephenville.

The meeting was held in the Wren Room of the Tarleton State College. Dinner was served to the doctors and their wives.

At the conclusion of the dinner the meeting was opened by Dr. Bruce Terrill, president of the society. Dr. Joe Pate introduced the guest speakers of the evening who were Dr. Blanche Terrell, pediatrician of Fort Worth, and Dr. May Owens, pathologists of Fort Worth.

Dr. Blanche Terrell discussed rheumatic fever in children. She pointed out the difficulty in evaluating this disease in the early stages and the necessity of early treatment to prevent the development of heart disease in later life. She discussed in detail the effect of many of the newer drugs both in treatment of the disease and in prevention of future heart disease.

A discussion period followed in which many further points of interest to the doctors were brought out.

The resolution before mentioned was adopted at the conclusion of the meeting.

Tab Hunter Featured In 'Girl He Left Behind'

The sizzling young romantic team of Tab Hunter and Natalie Wood is back on the local scene in "The Girl He Left Behind," playing Friday and Saturday at the Hico Theatre.

Uncle Sam's peacetime Army and its trainees who learn soldiering under the new treat-em-polite method are the subject of the comedy-drama based on the novel by Marjorie Hargrove, who wrote the World War II best-seller, "See Here, Private Hargrove."

The film deals with a particular unit at Fort Ord, the Army's big training base in California. Many officers and soldiers from the training units on the post appeared in scenes with the actors, during the two weeks filming on location at the barracks area, grenade pits, coastline firing range and parade grounds.

As a unique sidelight in the filming of the picture, Marjorie Hargrove went to Fort Ord as a trainee to get material for the book. He participated in the first weeks of trainings with the new soldiers without revealing his identity to other men in his company. He did this with the full knowledge and cooperation of the Army.

Ekberg-Mature Team In Thrilling 'Zarak'

Sensuous delight and sensational adventure are breathlessly combined in "Zarak," starring Victor Mature, Michael Wilding and voluptuous Anita Ekberg at the Hico Theatre Saturday midnight, Sunday and Monday. The new film is set in India's North West Frontier, a land of pillage, plunder and passion. The Cinemascope and color by Technicolor of "Zarak," as well as the sweeping excitement which comes from a thousand thrills and spectacles help make

the film just about as big as any motion picture can get. As the legendary brigand-king of the Khyber Pass, Zarak Khan, Mature brings to vivid life the lusty outlaw and lover. His love affair with Miss Ekberg, newest of the screen's torrid sirens, is a sizzling thing only matched by the bewitching beauty's sensational dance. In sharp contrast to his savage and wily foe, Wilding gives a splendid interpretation of the British officer faced with the almost insuperable task of bringing peace to the turbulent frontier.

Watch for these coming attractions: "JULIE"; "THE GIRL CAN'T HELP IT"; "BABY DOLL"; "ANASTASIA"; "WESTWARD HO THE WAGONS." All Coming this month to the Hico Theatre.

June Allyson Stars In 'You Can't Run Away From It' at Hico Theatre

Columbia Picture's "You Can't Run Away From It," starring June Allyson and Jack Lemmon will play Tuesday, Wednesday, and Thursday at Hico Theatre. The movie is in Technicolor and Cinemascope.

One of the funniest movies in maybe twenty years, according to Hollywood, "You Can't Run Away From It" is the story of the socialite and the reporter who sang, danced and romanced during a cross-country chase with a joy that is completely infectious.

Told hilariously, romantically and with a wink in its eye, "You Can't Run Away From It" presents Miss Allyson in a zestfully light-hearted type of characterization and Lemmon as a foot-loose reporter who stumbles on the major story of his minor-league career. Charles Bickford co-stars in the zany comedy with music in which Miss Allyson plays a socialite whose romance with an international playboy is viewed by her Texas oil king father with jaundiced eye. The father kidnaps her but she escapes and, in disguise, starts a bus trip from California to Houston, to rejoin her polo - playing, fortune - hunter. Aboard the bus is ebullient Jack Lemmon, who won an Academy Award as the bouncy Ensign Pul-

We have received more than two inches of rainfall since last Friday. Prospects for farming and ranching are the best we have had in several years. We have a brisk northerly blow.

"Hello Daddy"

Long Distance Gets You Home Quickly

Miles are made meaningless when you keep in touch by long distance telephone. And the cost is surprisingly small. And if you call after 6 p.m. or all day Sunday, you'll find that low rates are even lower.

The revival at the Baptist Church closed Sunday night. Evangelist Paul McCray of Fort Worth delivered wonderful messages each night.

Mrs. Lois Pierce and Mrs. Lila Coffman attended the graveside services in the Morgan Mill Cemetery last Friday for A. J. Quinn Jr. of Amarillo.

Mrs. Carl McKenzie, Mrs. Lila Coffman, Mrs. Robert Bowden, Mrs. Fred Geyer, Mrs. Jessie Finley and Mrs. Milton Whitehead attended the funeral Tuesday afternoon in the Comanche funeral chapel for Charley Munsinger, who passed away in his home at Hasse on Monday. Mrs. Munsinger is the former Miss Gladys Upham of Carlton and a niece of Rev. Carl McKenzie.

Mr. and Mrs. Otho Stuckey and daughters, Caren and Martha, and her mother, Mrs. Bettie Fisher, Mrs. Robert Bowden, Mrs. Charley Proffitt, Mr. and Mrs. Vernon Baker, Mrs. J. W. Jordan Jr., Mrs. Ernie Burnett, Gene Sharp and Wayne Harbour attended the funeral in Dublin Friday afternoon for Jack Smith, father of Mrs. Roger Threatt of Carlton, a teacher in the local schools.

Mr. and Mrs. Otho Stuckey and brother, Wynand Allison of Baytown attended the Roy Rogers Rodeo last Friday night in Houston and were recognized by relatives here as they appeared on TV near the speakers stand.

Mr. and Mrs. Johnnie McCoy and children, Rodney and Ronda of Dallas spent Saturday night and Sunday in the home of his parents, Mr. and Mrs. J. L. McCoy.

Our sincere thanks to Mrs. Maude Whitson of Hico for a donation of \$2.00 for the Fairy Cemetery fund. Mrs. Whitson, who is a former Fairy resident, is another of our regular contributors.

If these good rains continue there is going to be need of a lot of work and expense at the cemetery during the year.

We are sorry to report Mrs. Brittle Little suffering a rash infection at this time. We hope she will soon be alright again.

Mr. and Mrs. Ed Allison visited Sunday in the home of their son, Mr. and Mrs. D. E. Allison of Dublin.

Mr. and Mrs. Pedro Jones of Lanham visited a while Monday night in the home of their daughter, Prof. and Mrs. Frank Hanes and Mike. 2 Are you neglecting to take an active part in school programs?		
3 Have you failed to meet your children's teachers?

Activities Of First Baptist Church

The time for the Sweetheart Banquet has been changed from March 1 to March 8, because of conflict with an activity at the school.

The Rev. J. M. Bradford of the First Baptist Church of Dublin will be the guest speaker for the occasion.

The contest for selection of a king and queen will continue until March 5. Each of the Intermediates and Young People receive a vote for every Sunday service they attend and two votes for Wednesday evening services. Interest is building up in this contest as some are real interested in

seeing their favorites elected. There are a few things that are different at the church. We have a new parking lot to care for the much needed parking space for the large number that have been attending the Sunday morning services.

The nursery has been enlarged and equipped with a speaker so that nursery workers can hear the music and the sermons. Then too they have a record player to use in the department.

The Young Adult Department of the Sunday school has folding door instead of curtains to divide their class rooms.

The program of activities for the week are as follows: Sunday School, 10:00 a.m.

Morning Worship, 11:00 a.m. Training Union, 7:00 p.m. Evening Worship, 8:00 p.m. Wednesday Prayer Service, 7:30

The Youth Choir will have their organizational rehearsal at 6:30 p.m. Sunday evening under the direction of Mrs. Dwight Lusk. They will have the music on the second and fourth Sunday evening of each month, but rehearsals will be on the first and third Sunday evenings at 6:30 p.m.

The Rev. Dwight E. Lusk's sermon subjects for the Sunday services are "The Adequate Saviour" for the morning service, and "Lighted Lamps," for the evening service.

The thought for the week is "Unto those who would be great there are first small tasks to be done. He that does the little things well can soon do larger ones and one day he shall do that which is truly great."

HICO GIRLS P. E. CLASS

Now that basketball season is over, some people are probably wondering just what those high school girls are doing with their P. E. time. Well, they certainly aren't taking things easy, that's for sure.

They are now busily preparing themselves for the district volleyball and baseball meet.

The girls will win first place in volleyball, that is, if Bonnie can learn to spike the ball, and if Reggie can ever get it over the net. It seems like all of the girls keep hitting the ball in the net instead of over it. Come on, girls, let's get on the ball. (Not the volleyball, either).

As soon as the weather clears off and the sun comes out, these energetic young girls will start

practicing softball. All we can say to that is—"Good luck Mr. Chandler. Here's hoping you're still with us when this season is over."

WHAT WILL IT BE?

In English the Seniors (and two Juniors) are taking some vocational tests to determine what their vocation might be. Some students have finished part of theirs and the results seem to prove satisfactorily to them. The vocations range from outdoor to clerical work.

A survey taken among the students shows that they really enjoy taking tests of this category. Why don't you give them more often, Mrs. Angell?

The students find out what they are most interested in after completing the tests.

Carey has now been informed that he should be a great artist. How about it?

JUNIOR HIGH NEWS

Last week our Junior High basketball teams entered the Iredell tournament.

Tuesday, Feb. 19, we played Kopperl. The girls won by the

score of 30-18. The boys won by the score of 28-18. By winning these two games, we got to go back Thursday night to play Meridian. The Meridian girls won by the score of 40-27. That's all right girls.

The Hico boys won by the score of 34-26. By winning this game, the boys went back Friday night to play Iredell. The Iredell boys won by the score of 27-22. That's not bad, is it? The Hico boys did win second place in the tournament.

This week we are having our tournament. We play Iredell Monday night.

BI-DISTRICT PLAY-OFF

The Hico boy's basketball team journeyed to Clifton Tuesday night for the bi-district play-off game with Valley Mills.

The boys have had a good season this year and it is thought that they still have a long way to go.

The boys on the team are Buddy Teague, Sherrel Kirk, Jerry Hamrick, Charles Stipe, Andy Lackey, Roy Lindsey, Gary Duncan, Rosy Vinson, LaVon Pierce, Don Tooley, and Robert Chandler.

TO THE CITIZENS OF HICO After full consideration of the facts, and upon investigation of service and rates charged in many other Texas cities and towns for modern telephone service, the Hico City Council has authorized your Telephone Company to proceed with its new building program at a cost in excess of \$100,000. The new system is expected to be completed within a period of 24 months. During the past few years your Telephone Company has been faced with a continual rise in the cost of both labor and materials. Therefore, continuation of the present magneto type telephone service has been outgrown and is not considered adequate to fulfill the needs of the public. With the constantly rising cost of labor through Federal Legislation, the time is fast approaching when local telephone rates would have to be higher for the present type of service than for modern dial service. Following a very careful review of all the facts, your City Council has authorized us to construct and install the very latest type of dial equipment, capable of expansion in the future, in a new building and to rebuild the outside plant (poles, lines, cables, etc.) with sufficient size to meet the demands of the citizens of Hico and community for good telephone service. A few of the many, modern features will be: 1. Fully selective ringing, whereby only the telephone that is being called will ring on any party line, including rural lines. Code ringing, such as longs and shorts, will not be used as now is used with the old equipment. Others on your party line will never know when your own telephone rings. Ringing is automatic and will ring approximately every seven seconds until the called party answers or the calling party hangs up his receiver. 2. The new system will be equipped and connected with the nation-wide toll dialing network through the Stephenville exchange. Stephenville is a full toll operating center and will handle the long distance service for local Hico patrons. Operators in most towns and cities of the United States and Canada will be able to dial numbers in Hico automatically and directly without contacting your Stephenville operator or any other operator en route. Likewise, on your calls to other cities, your local Stephenville operator will dial the number direct without the assistance of other operators. Technical advances in the new equipment during the past few years are many and varied and will be included in the new system to provide the most modern facilities available. To conform with the nation-wide system of Direct Distance Dialing, a numbering arrangement requiring two letters and five digits will be used. Hico's exchange name will be SYcamore 6 followed by four additional digits. Thus, in dialing local numbers you will dial the first two letters of SYcamore, "S" and "Y", then "6" followed by the remaining four digits of the number you are calling. New long distance lines will be constructed from Hico to Stephenville with provision for increasing the number of circuits when necessary to adequately take care of peak loads. Cost of construction of these lines, however, is not reflected in local exchange rates, as it is included as a part of long distance operations. Arrangements will be made with our rural patrons for rebuilding or altering of the rural lines, whereby they will also be served with modern dial service. Associated with the approval of the new system by your City Council, a new schedule of rates, comparable to those of other cities and designed to meet the economic requirements of all users, has been authorized to give the telephone company a reasonable return on its investment. The new rates, which will go into effect with the first billing after the new system is installed and in operation, are as follows: BUSINESS— 1-Party Business \$ 8.75 2-Party Business 7.50 Business Extension 1.50 RESIDENCE— 1-Party Residence 5.40 2-Party Residence 4.50 4-Party Residence 4.00 Residence Extension 1.00 RURAL— Rural Business 7.00 Rural Residence 4.00 We are proud to serve the City of Hico and its trade territory with constantly improved telephone service, and we want to extend our congratulations to the people of this area for having a City Council that is alert to modern progress by looking forward to the future with assurance of dependable and adequate telephone service.

PRICE DOESN'T MAKE A GOOD FOOD BUY

Food must have relatively high nutritive value or it isn't a "bargain" at any price.

A really good food buy involves many considerations other than price. Daily food needs for all family members, their likes and dislikes, foods in season, time and word needed to prepare; the food are some factors to consider. Storage space for food and equipment for preparation will determine how much and what kind of food you buy.

Careful planning and selection will make your food buys real "bargains." Shopping lists developed from balanced menus will save shopping time and money by giving you real nutritive value for your money.

"Eat Well for Less" is a bulletin available in my office that you might like to have—it gives suggestions for planning, buying and preparing meals.

YOU NEVER OUTGROW THE NEED FOR MILK

Whatever your age, milk is one of the best foods you can get. It is outstandingly important for three nutrients—calcium, vitamin B 2 (riboflavin) and protein. Without a sufficient amount of milk or dairy foods, it is hard to get enough calcium or vitamin B2 in the daily diet.

Throughout life, the body needs protein to build and repair tissues and muscles, glandular organs, skin, hair and nails. Calcium is needed for proper development, growth and maintenance of bones and teeth. Riboflavin or vitamin B2 helps in promoting good eye sight and a feeling of general well-being.

Adults need about 3 cups of milk, or its equivalent, each day. Teen-agers need about 6 cups. Children from 7 to 9 should have about a quart of milk daily.

The easiest way to get your milk each day is to drink it—plain, in a cold frosty glass or dressed up with fresh fruits, syrups or ice cream.

To keep milk fresh and tasty, specialists remind us to keep it cold, and keep it covered in storage.

RECIPE OF THE WEEK

Here is a casserole dish that you will like—and it uses a dairy product that is so important in our diets.

Cottage Cheese Casserole with Peas
2 c. cottage cheese; 1 c. drained canned peas; 1 c. roasted peanuts; 1 c. bread crumbs; 2 eggs, beaten; 1 teaspoon salt; one-half teaspoon soda; 2 tablespoons soft butter or margarine.

Mix ingredients except the peas. Grease a casserole dish generously and sprinkle with bread crumbs. Put in half the mixture, then a layer of the peas. Place in the balance of the mixture. Grease the top with melted fat; cover and bake 45 minutes.

"How do you suppose they did it?"

It's not always easy for a community to build new schools, buy new equipment, or provide for additional teachers - even though they may be urgently needed. Yet in hundreds of cities and towns, better school facilities are impressive proof that it can be done. Needless to say, all school problems are local problems, and differ from community to community. By finding how other communities have met those problems, a solution appropriate to local needs may suggest itself.

COUNTY AGENT REPORTS

By E. R. LAWRENCE

There is to be a range tour Tuesday, March 5 on the O. I. Garner ranch just east of Olin. The group will gather at the office of the Hamilton-Coryell Soil Conservation District and will leave there at 9 a.m.

A tour will be made of the Garner ranch. There will be discussions of grass, range management, range resting, and re-seeding retired cultivated fields.

Those interested in these problems are invited to make the tour. Babe is resting his pastures this year and it is the plan now that the group will go back to the ranch this fall to make observations of what has been accomplished by resting a pasture through one growing season. Babe is also preparing a field for grass seeding next year after the growth of a mulching crop this year. Babe has a place on his ranch where one can see some grass that right now is better than shoe-top high—what might be called a perfect stand and cover of Indian Grass.

I don't believe the tour will take more than a couple of hours and I hope many of you will attend. Tuesday, March 5, leave S.C.S. office at 9:00 a.m.

Alfred Reinert, Pottsville and Inman Gap, is planting a small test plot of Nomad Alfalfa. I kinda got mixed up last week as I said that Monroe Reinert, Alfred Reinert and Lee Schrank were all planting some button clover this year—they are all three planting some of this Nomad Alfalfa. However Alfred Reinert has several acres planted to the clover. The Nomad Alfalfa is supposed to be one that makes runners and comes up something like Johnson grass furnishing good grazing. Too it is supposed to be pretty drought resistant. You might watch this alfalfa on these three places and keep check on what it will do here in the county. We can certainly use all the dry summer grazing we can get and I hope this crop will prove out well for this purpose.

Isn't it great to be able to walk around most any place in the county and see it too wet, to plow, water standing in the bar-ditches and grain almost a foot high?

We have a better season right now than we have had in several years. Corn planting time is just around the corner and then grain sorghums.

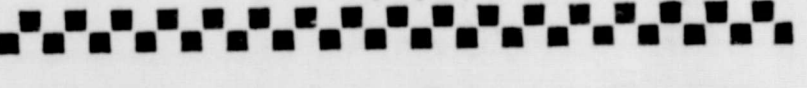

This reminds me too that those who went ahead and dry planted grain sorghums last year did pretty well. So get grain sorghum seed in the ground as soon as possible after corn. We still do not know just what hybrid numbers are best for the county, so do like you did several years ago when the hybrid corns came along--plant several numbers for a year or so and then take the ones that do best for you.

Know It, Tell It . . .

By MORGAN GARRETT

One day Jesus was confronted by a man who was insane. He looked the man in the face and said, "Restoring him to quietness and peace within. The man was very grateful. He wanted to go with Jesus. Jesus, however, said to him, 'Go home to your friends and tell them how much the Lord has done for you, and how he has had mercy on you.' (Mark 5:24)

The man was obedient. He said, "And he went away and began to proclaim how much Jesus had done for him." (Mark 5:26)

In the first place, this man knew what Jesus had done for him. He had been a wild man who made his home in the tombs. He cut himself on the rocks that were scattered around the graveyard. He cried night and day with a sadness and anguish that came from within. When he was restored he could see the magnitude of the change because it happened so quickly.

We often fail to see how much the Lord has done for us because much of what He has done has taken a longer time here. Edwin Tims of Charette was speaking to

a group of Methodist women Sunday afternoon. She was telling her impression of the wonders of this land. She could see the wonders because she grew up in Praxill as the daughter of a Methodist missionary couple. She spoke of the things about our nation that impressed visiting Scandinavians the most. They were such things as this: They marveled that bottles of milk could be left on porches of houses and not be stolen. They marveled that a newborn might leave its parents in an unguarded stand with a coin box attached and that people who take papers actually leave the money to pay for them. They marveled that campaigns to raise money for such things as the March of Dimes could be carried out and the money not be stolen before it got to its intended source. And Mrs. Tims declared that the thing that makes this possible in the United States while it is impossible in Brazil is that the Gospel of Jesus Christ is read in the lives of so many more of the people here than it is there. Because the power of Jesus in our nation has brought this peace gradually over a period of some hundred

reds of years we often fail to see what an outstanding thing He has done for us. In a similar way we often fail to realize the difference Jesus has made in our lives in a personal way because He often makes that difference in a gradual and quiet way. Every person should stop now and turn to become aware of what the Lord has done for him.

In the second place, this man proclaimed what the Lord had done for him. How long has it been since you proclaimed by word of mouth something of what the Lord has done for you? This is one of the great joys of the followers of Jesus, to proclaim how much better life is for us because of what Jesus has done for us and is doing for us.

Jesus said to the man, "Go and tell how much the Lord has done for you."

"And he went and began to proclaim how much Jesus had done for him."

Iredell Student Council Reports

The grade school boys and girls have been engaged in a tournament here. The girls were defeated in their first game by Fairy. The boys have done better though. They won first place in the tournament by defeating Hico by a few points Friday night. The Methodist girls won first place by defeating Morgan in the finals.

The high school girls will play Clifton Tuesday night at Iredell and Glen Rose at Glen Rose Thursday night. Both the A and B teams will play. We would like to invite everybody to come see the games.

STUDENT COUNCIL NEWS

The Student Council is going to try to publish their own paper with the help of the other boys and girls. The staff consists of Harold Oldham, Editor; Nancy Jones, Assistant Editor and typist; Paty Mingus, Nolan Pike and Barbara Umphres, Reporters; Jo Ann Sowell, Artist; and Ketay Cunningham and Loretta Phillips, Printers. Their first edition will appear March 7.

JUNIOR NEWS

The Junior Class is trying to find out all about Iredell. They are going to write the history of Iredell if they can find all the necessary information. These boys and girls are going to work very hard at this and would appreciate it if anyone who knows of any historical events that happened in or around Iredell would get in touch with them.
