Bank Deposits Up From Last Statement

Deposits of First National Bank this week show nearly \$100,000 gain in the statement issued in response to a call from the Comptroller of Currency, as of June 6.

Deposits listed at the local institution show \$1,621,941.20, as compared to \$1,522,699.15 on March 14, the last call from the comptroller.

> Fairy Teacher Enrolled In Civil Defense Course At North Texas State

Billy McClure, football coach at Fairy High School, is enrolled in a special course in civil defense various officers of the court and disaster relief at North Texas men most helpful to us and State College this summer.

> Members of the class have worked with state and federal civil defense officials to develop an understanding of the teacher's role in personal and family survival during disaster.

The work has included trips to Federal Civil Defense headquarters in Denton, the Dallas Filter Center, and the Duncanville Radar Site. Emergency work during natural disasters such as this year's Texas tornadoes and floods has! also been stressed.

McClure is a graduate student working toward the master of science degree.

THE HICO NEWS REVIEW

Playing This Week At The Hico Theatre

When ace sportswriter Gregory Peck marries top fashion designer Lauren Bacall, the combination of fashion and fisticuffs leads to hilarious activity in "Designing Woman," playing Saturday midnight, Sunday and Monday at the Hico Theatre.

Sunday & Monday-

Advance reports have it audiences will be hard put to count up all the laughs in "Designing Woman," starring Gregory Peck, Lauren Bacall and Dolores Gray which plays Saturday midnight, Sunday and Monday at Hico Theatre.

The story tells of a leading New York sports writer, Mike Hagen (Peck) who covers a golf tournament in Hollywood, falls in love with Marilla (Bacall), marries her after a whirwind two-day courtship and on the plane back East discovers that his wife is one of New York's top fashion designers.

Two conflicts give this impetuous marriage a rocky start. One stems from the vivid contrast between the respective worlds of husband and wife. When Mike holds a poker-playing session for his cauliflower-ear'd cronies at the apartment at the same time that Marilla entertains her Broadwaywise friends at a play-reading, the results approach bedlam.

When he takes Marilla to a prize fight, she's the best-dressed fan there but the one with the weakest stomach. When in turn Marilla

Frontier Days Are Depicted In Week-End Movie at Local Theatre The Texas of 1866, seething un-

der the ruthless pillaging of a Provisional Government, is the background for the story of a strange triangle in Paramount's brilliantly cast outdoor drama "Three Violent People,, playing Friday and Saturday at the Hico Theatre. A tale of the rancher-carpetbagger wars, the large-scale pictures stars Charlton Heston, Anne Baxter and Gilbert Roland. Heston, Anne Baxter and Tom Tryon are the explosive trio of the title, and around them is woven a triple-barreled story of love and hate.

Heston portrays a hotheaded cattle baron who returns to his ranch after a long absence, bringing with him the girl he has impulsively married and whom he knows nothing about. He discovers that the local Provisional Government, using savage tax laws, has almost stripped him of cattle and is bent on getting the rest; that his onearmed brother, a bitter and unpredicable rebel, may be in league with the carpetbaggers; and that his wife, as wild as both brothers, has hidden a not-too-respectable past from him.

The colorful Gilbert Roland is seen as Heston's flamboyant but, wise top hand, whose loyalty is alienated by Heston's violent reaction to his troubles. Location filming was done in the Superstition Mountain area of Arizona.

takes him to one of her fashion shows, he terms it a "pagan ritual."

The second conflict arises in Mike's attempt to prevent Marilla from learning about his former showgirl friend, Lori Shannon (Dolores Gray). The situations in which the principals of this triangle Baxter portray a steel-willed meet and attempt to throw each other off the scent, with nobody in "Three Violent People," playfooling anybody, lead to uproarious Friday and Saturday at Hico dialogue and action.

the little flame that freezes secret of today's most amazing refrigerator

Thirty years ago came the first "electric ice boxes" ... costly, complicated, noisy, and gluttons for current. Two Swedish chemists decided there must be a better way and discovered The Little Flame That Freezes. A tiny gas flame made all other refrigerators old-fashioned! No noise! Nothing to wear out! They had discovered the refrigerator that was 30 years ahead of its time! It still is!

Iredell Baptist Church CHARLES RICE, Pastor JOHN TRUEBLOOD, Music Di.

Mrs Jerry Mathews treated the young people and Intermediate classes to an outdoor supper at her home last Saturday evening. The boys of the group went swimming before supper. Following the meal the group enjoyed games. Royal Ambassadors are at Latham Springs this week for the annual summer camp. Ten boys and their leader, Charles Rice, are enjoying the week of Bible study. Mission emphasis and recreation, The Associational Youth Raily is Saturday, July 6th at Laguna Park.

BLACK STUMP VALLEY By MRS. W. J. MAGEE

Rev. J. D. McNeal is holding meeting at Plainview Church. We were glad to have all the visitors at our singing last Sunday afternoon. We invite them all back and other vistors also. Mr. and Mrs. Alvin Flowers re-

turned home last Friday from a trip to Illinois.

Mrs. Vera Roberson visited with Mrs. Magee a while one afternoor last week.

Rev. J. D. McNeal and family and Roy Lee Magee and family visited in the Magee home Thursday.

Mr. and Mrs. H. H. Ramage visited in the home of Mr. and Mrs. Jimmie Ramage last Thursday. Rev. and Mrs. Rance Forson at tended the meeting Monday night at Plainview.

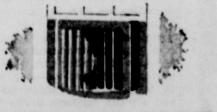

Several from Hico attended the meeting at Plainview Wednesday night.

Rev. Dean Bradley of Shiloh is attending the meeting also.

Simple to Install.. Economical to Operate

The new Dearbornaire can be installed in a jiffy in any standard-sized window. Close-Atting side panels seal out dust, rain or insects. Finished in smart Dearborn coppertone ... costs only a few cents a day to operate.

you want with the new Dearbornaire evaporative cooler. Just turn the 4-switch control dial .. turn it up or down .. to any of the four speeds your comfort desires up to 2,200 cubic feet of cooled air per minute! You get cooled air everywhere, too ... don't have to sit right in front of the cooler to be comfortable. New, improved louvers distribute clean, cooled, pollenfree air to all parts of the room .. instead of sending a hard blast of air straight ahead.

And, the new Dearbornaire motor "floats" on rubber ... practically eliminating vibration and mechanical noises.

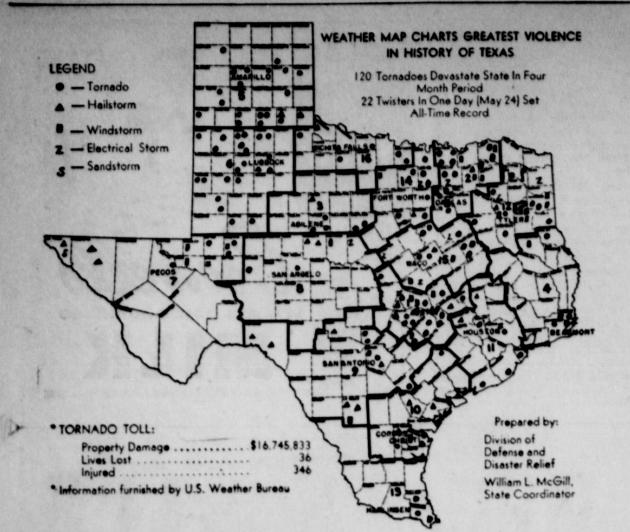

Take the simmer out of summer ... put a Dearbornaire to work for you and dial the temperature you want.

- Heavily constructed of 20-gauge cold rolled steel for long lasting service.
- Rust and corrosion proofed.
- Galvanized heavy gauge, expanded metal on outer pad to greatly increase area for air flow and step up cooling ability.
- Finest white aspen wood filter pads.

Longhorn Cavern Deemed **Million Years in Making**

Texas Longhorn Cavern, spec-tacular scenic masterpiece of Na-ture, was at least a million years in the making, geologists estimate.

The huge cavern is awesome evidence of the changes wrought through the ages by variations in climate, earth movements, the rise and fall of the seas and the slow solution of limestone by water.

Longhorn Cavern, located near Burnet in the Highland Lakes region northwest of Austin, is one of the state's favorite attractions for tourists and sightseers. Guided tours are conducted daily through

the explored portions of the cave, which is one of the world's largest. Richard W. Rush, assistant pro-fessor of geology at the University of Texas, has traced the sequence of events which led to the development of the cavern from the time when Texas lay beneath a huge sea, approximately a half-billion years ago.

The stone in which the cavern was eventually carved out was formed from limy muds deposited at the bottom of this sea. Over countless centuries this mud deposit gradually rose out of the sea, only to sink beneath it again, a process which was repeated a number of times.

Finally slow uplift raised Texas above the sea for the last time and the limestone which had hardened from the mud deposits lay exposed million years.

At that time Central Texas was a humid swampland in which gi-gantic dinosaurs and other rep-tilian monsters roamed.

The actual beginnings of Long-

Most of the time in our store we are more than eager to sell. But take our shelves of "first-aid" needs — that's a different story. We'd just as soon—rather in fact—none of our customers ever had to use any of them.

So, whatever you do during Summer Vacation time, play it safe!

Call on us for almost anything else you'll need during the summer, but we hope nobody comes in for those bandages . . . we just don't like to sell them!

DRIVE CAREFULLY AND ENJOY YOUR VACATION. DON'T LET AN ACCI-DENT SPOIL YOUR TRIP!

ope to get the two vacant corners of the east side mowed again some time this week.

Thanks to all who have made the work thus far possible, and we hope others will see fit to send in a contribution from time to time.

Among the lots we worked on Saturday were W. M. Green, Broyles, Byrd, Lacewell, Clair and Dad Brunson, Grimes, Grover Moore, John Smith, Whitaker, Porterfield, Ratcliff, Wilson, Adams, Rob Hutton, Cole, Slater, Guinn, Sidney Smith, Leeth, and probably others. A lot of good could be accomplished in a few hours if we could just get a few who would volunteer to help out. We will be glad to join you for a few hours, ladies, if you can help out. We know our men folks are very busy just now with their farm work. Our women folks are quite busy also since at this time of year there is canning to do, and foods to prepare for freezing and all the many other home duties, and most all like this scribe, have really more than we can get around to at home, but we feel it our duty to devote part of our time to the last resting place of our loved ones, and this we expect to do as long as we have strength to do so.

Don't Cheat Your Pullets Because They'll Cheat You... W. 1st. St.-1/2 block W. of Bank

To make long profits from the laying flock most of us agree that a good quality chick is a must. Many also agree that the best start possible is none too good, but many put the birds on so-called cheaper feeds after four or five weeks.

We said "so-called" because lost production often makes the "cheap" feed cost more in the long run. That's why we've urged you to start and grow birds all the way on the Purina plan that's right for you. We have a complete feed plan, one that takes a little grain and another that uses a lot of home-grown grain.

Our goal is to help you grow your flock out right at the lowest possible cost.

For the man with no grain we suggest old reliable Purina Growena be fed from 4 or 5 weeks to 10 weeks. Growena gives fast growth and helps build a big frame fast. At 10 weeks switch to Purina Pullet Chow, a lower cost feed which will adequately nourish and build birds until they start to lay. Did you know that three-fourths of all a bird eats in consumed between 10 weeks and the time she begins to lay? Ask about the plan that's right for you.

lender. Unless you pay cash, you will use credit to pay for your a land contract. Your installments often include principal, interest, insurance and taxes. Under a land contract the lender holds title to your house until you pay for it. If Hico, Texas July 1, 1957 Hico News Review Hico, Texas Dear Editor: It is to be hoped that the names of the present City Council will be engraven on the corner stone of the colossal edifice the Telephone Co. is erecting in Hico, so that down through the ages future generations may "point with pride" to the foresight of our City Fathers It is to be hoped also that this monument to advanced Telephone science may not revert to a Mausoleum for that august body. Respectfully, WADE H. GREENSLIT. Yuma, Arizona June 25, 1957 The Editor Hico, Texas Dear Sir: My wife and I are surprised and grieved beyond description to learn of the passing of our lifelong friend, Mr. Will Horsley. We did not know of his illness, r his having passed along, until ome friend forwarded the June 21 issue of the Hico Review to me. will be in Hico this fall, calling on you and old friends, but it will with keen disappointment in not finding my good companion, of over 50 years, Will. We shall meet, but we shall miss him: There will be one vacant chair; We shall linger to caress him, While we breathe our evening prayer. I am sure that all old acquain ance join with me in the mo sincere regrets. Thanking you, I am ROBERT I. HILL.
