THE HICO NEWS REVIEW

FRIDAY, AUGUST

Sunday & Monday-

In keeping with the trend toward taking cameras overseas for on-the-spot realism and scenic beauty, Twentieth Century-Fox has "scored another "first" with "Boy on a Dolphin" which plays Saturday midnight, Sunday and Monday at Hico Theatre.

The romantic adventure, starring Alan Ladd, Clifton Webb and Sophia Loren, revolves around a voluptuous Greek island girl who dives for sponges and stumbles upon the famous lost statue of a boy astride a dolphin in an ancient sunken ship.

There is an exciting feud and romance between Ladd, an American archeologist, and Loren, a tempestuous peasant spitfire who wants to sell the statue to Webb. Aqua-diving sequences and underwater photography are handled with sensitivity and imagination. The story has solid pace, lots of comedy supplied by Webb, and many breathtaking beautiful glimpses of classic architect triumps settled in modern-day Greece.

Conflict arises when Webb of the statue. Ladd is determined to funny movie nowadays, but "Pub- and Dolls." turn it over to its rightful owners, lic Pigeon No. 1" is about as funthe Greek people. HOMERALLOWS . . .

There is nothing in this old world more valuable than truth. Most people have a divine urge to solve the riddles of life. Right living and time enthrones a person with God. We can't judge dotage and age by birthdays. People do not necessarily grow old by merey living a number of years. The long years wrinkles the skin, hearing and eyesight may be somewhat affected, but to give no interest and enthusiasm to the sacred wholesome things of life wrinkles the soul Doubt, fear and despair are the things that bow the head. Whether we are nine or ninety-nine. If we have faith and try to understand the wonders of God, if we serve faithfully our God and our fellow man and have gratitude to those who love us we are on our way to happiness. Newspapers in this country are mighty factor in carrying on civilization, the cultural and higher things of life. Among the excellent newspapers in this area are the Stephenville Empire-Tribune and Daily Empire, Comanche Chief, Hood County News Tablet, Hico News Review, etc. I do not know of a gift that would bring more pleasure to the participants than a years paid up subscription to one of these excellent newspapers. Dear reader, please bear in mind no editor has prompted me to make this suggestion. Having written hundreds of columns that have appeared in various newspapers throughout the country, I have found newspaper folks mean well. The salt of the earth and a kind blessing to any community.

CIVIL DEFENSE 'KEYPOINT' for Los Angeles is typical of some 200 such communication centers throughout the nation maintained by local civil defense. In less populous areas, "keypoints" are often police or fire stations, where someone is always on duy. They depend on the Federal Civil Defense Administration's 14.116. warning net (inset) to link them to Air Force air defense division control centers. Keypoints notify, in turn some 3,500 "sub-keypoints" which set off sirens and call out civil defense personnel.
