### Elvis Presley Stars in Sunday-Monday Theatre Attraction

Elvis Presley, one of the most phenomenal personalities in the history of show business, plays his most dramatic role to date in "Jailhouse Rock," the feature playing Sunday and Monday at the Hico Theatre.

The new drama casts the slinging star as a rebellious youth who is sent to the penitentiary when he accidentally kills a man in a bar-room fight. His musical talent is fostered in the prison and when he is released he climbs his way to fame and fortune, first in night clubs and on records, then in television and finally in Hollywood.

Presley sings six new songs in the feature, including the "title" song. They run a wide range from rock 'n' roll to romantic songs and a spiritual lament.

Playing the feminine lead in the movie is Judy Tyler, who scored on Broadway. Also in important roles are Mickey Shaughnessy, the

### Outer Space Film Is Tues., Wed., & Thurs. Feature at Hico

A new and altogether horrific menace to humanity emerges from outer space to become a gigantic movie villain in "The Monolith Monsters" playing Tuesday, Wednesday and Thursday, Dec. 31, Jan. 1 and 2 at Hico Theatre. Stars of the picture are Grant Williams and Lola Albright, highly competent young players who win audience cheers in the shadow of just about the most terrifying disaster threat ever screened.

Story locale is the desert community of San Angelo. It is here that Williams, in the role of a geologist, and Miss Albright, portraying a schoolteacher, are among the first to discover signs of the impending calamity. Persons who touch a curious new meteoric substance are turned to stone and buildings wrecked when the rock-like element bursts spewing deadly fragments.

One scientist however, in treating a semi-petrified child, finds that a saline solution, or just plain salt water, will de-contaminate the death-dealing rocks. But plans to avert a calamity seem to be futile as a desert cloudburst suddenly activates the great "parent meteor."

Panic scenes in the town of San Angelo are exciting enough as fear spreads through the community.

How geologist Williams and his disaster team eventually blast a dam and create a sea of salt water

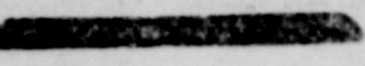

comedy "find," Dean Jones, fast-rising actor-singer, and Jennifer Holden glamorous former Chicago model making her movie debut.

One of the facts that makes the movie a "must see" for Presley followers is the fact that it is the first picture to show him in scenes with a crew cut. This arises out of the fact that he is given a prison shear-job in the story.

Horrendous projectiles of deadly, growing rock spew disaster in "The Monolith Monsters," starring Grant Williams and Lola Albright. The film plays Tuesday, Wednesday, Thursday, Dec. 31, Jan. 1 and 2 at Hico Theatre.

to block the meteoric juggernaut is a major item of movie thrill-making.

Wedding Vows Solemnized For Miss Duzan-Mr. White

A beautiful Christmas setting was provided in the main auditorium of the First Baptist Church of Plainview for the wedding last Friday evening at 7:30 o'clock of Miss Patricia and Ronald Ellis White. Miss Duzan is the daughter of Mr. and Mrs. V. D. Duzan of Plainview, former Hico residents, and White is the son of Mrs. O. B. of Floydada. Mr. Harlan Harris officiated for the public ring ceremony, as the bride stood before the altar where sparkling white Christmas candles in tall white candles in arched candelabra, flanked by stanchions holding vases of white poinsettias, formed an impressive background. Single tapers in votive cups lined the chancel rail, and a brocade kneeling bench centered the altar was covered with white brocade. Mrs. J. W. King Jr., was organist, playing selections preceding the ceremony "At Dawning," by Cadman, "O Promise Me," by DeKoven, "One Alone," by Romberg and "Gods." The traditional wedding marches were used.

A 20TH CENTURY GOAL— INSECT ERADICATION

Have you ever wondered "what... are the most significant advances... made in agriculture during the cen... tury?"

If you were to make a list... chances are that you might leave... out the most outstanding scienti... fic accomplishment. And that is... our growing ability to completely... wipe out major crop and livestock... pests in a given area.

The 20th Century marks the first... time since the locusts plagued the... Egyptians that man has dared to... think it practical to eradicate maj... or pests.

One such program now getting... underway is against the screw... worm in the Southeast. This insect... causes \$10 million to \$20 million... worth of damage to livestock in... this area every year. When the... campaign goes into full operation... some 50 million screwworm flies... sterilized by atomic radiation, will... be released each week. Continued... distribution of steril male flies... will gradually eliminate the nat... ural screwworm population, scient... ists predict. A time goal for this... project is a minimum of two years.

The imported fire ant, which... damages a number of crops and is... also harmful to animals, birds, and... man, is the subject of another... eradication effort. The gypsy moth... a destroyer of trees, is also on the... list.

Recent successes against the... Mediterranean fruit fly and the... Khapra Beetle are cited as ex... amples that complete eradication... of some pests is possible.

The fruit fly, discovered in Flori... da in April 1956, was the subject... of an 800,000-acre spray program... covering 28 counties. The pest now... is in the mop-up-stage. The last... fly found in the area was on Nov... ember 26 of this year.

The \$10 million spent on med-fly... eradication was well spent, consid... ering it protected a \$400 million... annual fruit industry in Florida.

The Khapra Beetle, possibly the... worst pest of stored grain products... has been responsible for the most... spectacular and successful fumiga... tion program ever conducted. About... 140 million cubic feet of ware...

houses, elevators, barns, and even... residences, have been "wrapped" in... plastic tarpaulins and fumigated to... eliminate beetles, many of which... were hidden in small inaccessible... cracks.

Eradication work is just one... phase of the progress made in pest... control. Other measures include... quarantines to protect against dam... aging pests from abroad; a disease... and insect reporting system; and... state quarantine and regulator... measures to contain and control... some pests, when eradication pro... grams are not considered feasible.

with them for the Christmas holidays.

### A POEM

Wouldn't this old world be better if folks we meet would say "I know something good about you," and then treat us just that way.

Wouldn't it be fine and dandy, if each handclasp warm and true, carried it this assurance, "I know something good about you."

Wouldn't life be lots more happy, if the good that's in us all, were the only things about us, that folks bothered to recall?

Wouldn't it be nice to practice if we praise the good we see? For there's such a lot of goodness, in the worst of you and me.

Wouldn't it be nice to practice that fine way of thinking too. You know something good about me. I know something good about you.
