

Town despot Lorne Greene threatens Guy Madison, and Valerie French in "The Hard Man" playing Friday and Saturday at the Hico Theatre.

Sunday & Monday—

Mythical wild women of the South American jungle, strange creatures isolated in a hidden empire, furnish the bizarre excitement in "Love Slaves of the Amazon," movie super-shocker which plays Sunday and Monday at the Hico Theatre.

For blistering entertainment, let it be said that here's a picture

JUNGLE LOVE is discovered by Don Taylor and Gianna Segale starring in "Love Slaves of the Amazon," playing Sunday and Monday at Hico Theatre.

that explores both dramatic and geographic territories which less forthright moviemakers have hesitated to tread. Great stretches of outdoor action were actually photographed in the pestilential Amazon river region known as "Green Hell," and the hair-raising story does not equivocate when it comes to solving the problem of how mysterious wild women thrive and flourish without masculine interference.

Don Taylor is starred as an adventurous archaeologist who penetrates the jungle to investigate sources of the "female hideaway" superstitions. Weird rumors, however, turn out to be less fanciful than were the reports and the explorer suddenly finds himself a

prisoner trapped by the savage feminine man-killers. Another archaeologist reportedly missing for several years, is shown to be enslaved as a "love" captive suffering slow death while a similar doom awaits Taylor.

Fantastic "initiation" rites and sacrificial orgies are among the picture's surprises and Taylor's eventual escape with the tribe's lone civilized woman is a breathtaking movie experience. Gianna Segale stars as Taylor's companion and the two find romance after their rescue by a search party.

Eduardo Ciannelli's starring portrayal of the derelict dreamer is another highlight of "Love Slaves of the Amazons." The daring picture is in color.

Strange rite initiates male captive into romantic secrets of mysterious female cult discovered by explorer Don Taylor, who resists savage advances of tribal queen Anna Marie Nabuco in Universal-International "Love Slaves of the Amazon," playing Sunday and Monday at the Hico Theatre.

Friday & Saturday—

Guy Madison, the rangy outdoor action star, is seen as a man too tough even for the Texas Rangers in "The Hard Man", the Technicolor production playing Friday and Saturday at the Hico Theatre. "The Hard Man" features Valerie French and Lorne Greene.

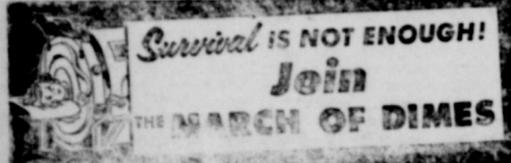

As the lawman who turned the Southwest into a shooting gallery in his one-man war to clean up "the most dangerous territory on earth," Madison plays a complex personality whose father was on the wrong side of the law. Madison himself is believed by his Ranger-fellows to be a killer hiding behind a badge because he always brings back his quarry slung over a saddle, dead. Forced to quit the Rangers, he is invited to

become deputy sheriff in El Solito, a lawless town dominated by Greene.

Madison rides into El Solito and big trouble. Miss French, as Greene's wife, makes a play for him and thus sets him up as a man marked for killing by the jealousy-crazed Greene. Forced to best all Greene's local talent, Madison in time finds himself stalked by an unknown gunslinger, imported by Greene to take care of him. Inevitably, Madison and Greene meet in a showdown.

As the lawman who is troubled by his record of casualties, Madison is said to turn in a solid performance. Miss French reportedly makes an alluring heroine who is attracted by a man, any man, and Greene, as the heavy, is all menace.

HOMER ALLOWS . . . Funeral Oration written in memory of my brother about one hour before his funeral December 31, 1957. The eulogy was read by my pastor:

Dr. Leonard DeWitt Stephen was born June 8, 1890 at Alexander, Texas. He was gathered in His everlasting arms at 8:10 p.m. Sunday night. Mama and I kissed his noble brow a few hours before; he smiled so sweet and was so gracious . . . Leonard attended Vanderbilt University and later graduated from the Texas State Dental College in 1913. He lived in Los Angeles, California for a number of years before coming back to his native county about twenty five years ago. He had been a member of the Christian church since his boyhood days. My brother Leonard was among the ones I loved the best—he needed my love more, bless his heart. I have an abiding and simple faith he is gathered around the Great White Throne with our papa and brothers who have gone on. Papa died in 1899, brother Willie and Lee in the eighteen hundred and eighties, Frank our medical doctor brother in 1939, Reacy in August 1943, and Henry thirty days later in the month of September. So my last precious brother has gone on. It will be kind of lonesome to the end of the trail. A voice we loved is still. A place is vacant in our hearts which never can be filled; the balm his love has given; his soul is safe in heaven. His body will moulder in the West End Cemetery with the sainted dead. And so, my dear brother, I hope you hear me—maybe you do. Please tell Papa and our brothers who have been waiting up there for you, I'll take care of Mama.

We loved you, Leonard, some of these days Mama and I will be up there too. Your baby brother, Homer.

BOYS P. E. MEETING

Last Friday in the auditorium, most of the boys met with coaches Ray Taylor and Royce Hall to determine next spring's P. E. period. One point discussed was buying a pair of weights to help the boys. If everyone chipped in with one dollar, this would be possible.

Then the track season was discussed, and some boys are now running track. The coaches then talked to next year's football stars, explaining the schedule and all games. Everyone then went home, a very happy ending to the meeting.

Hico News Review
Hico, Texas

Dear Sir:

I am glad, now, I got out of the Army. I have never ceased to miss Army life and still regret I am not a 20-year man, but it was just not meant to be. I heard recently that officers are leaving all services at an alarming rate. The reason given was lack of incentive pay, and I don't doubt it. But I know some officers who have another and better reason for leaving. A fellow gives the best years of his life to that kind of thing and then some economizer in Congress goes to work on his pay check. He is too old to get any civilian work except ditch-digging, so he is between a rock and a hard place. No man in his right mind will work for a boss who will cut his wages after years of faithful service. Merely raising the wages of those fellows will help but not much. It is a shame that so little value is put on the kind of service that has absolutely kept the Russians from taking this country over.

People have absolutely gone overboard for the idea that maybe we won't have to fight for our loved ones and our own lives. Maybe not, but the quickest way to invite war is not to be prepared for it. The trouble with this good old country is that while searching for something better we have abandoned the good sense expressed in the Roman proverb, "In time of peace prepare for war." As a result we have given our enemies the impression that we are weak, and that is putting temptation of the worst sort before them. Some people think that people in Timbuktoo, Peiping or Nova Zheniya are just like people in good old Hico—is you treat 'em nice, they'll treat us nice—but I have been far enough away from home to know it is not so.

Those people in the East respect nobody they are not afraid of, and when we are good to them they think it is by reason of fear. My hat is off to Secretary Dulles who noted that not once has Soviet Russia ever kept a promise and therefore it would be foolish to sign any agreement with them unless we could enforce it. Of course, if we are able to enforce an agreement with them and are not too cowardly to do so, we sure enough don't need any more idiotic summit conferences. We just agree to point a gun at Krushchevs head and he agrees to be real quite and still. There would be no need for any conference to thrash that out.

DON LINDLEY.

Methodist Youth Study and Play

Methodist youth are now engaged in a study of Christian Mission work in Japan. The Sunday evening programs for January are under the direction of a committee composed of Kay Jameson, chairman, Roland Sherrard, Mike Lackey and Barbara Randals. Mrs. Morgan Garrett is working with the committee. As a part of its emphasis on missions the youth have pledged fifty dollars to the Methodist Youth Fund which supports mission activities. A supper will be sponsored in February to raise money for this purpose.

Saturday night the Methodist youth and a number of their friends enjoyed a hot dog supper and a period of fun at the Jimmie Ramage farm. Thirty-nine young people and seven adults were present.

After evening worship Sunday the young people who attended went to the home of Mr. and Mrs. George Griffiths for a time of fellowship and refreshments. A pleasant time was enjoyed by a house full of young people and their adult leaders.

Sponsors of the MYF are Mr. and Mrs. Charles Gouglighly. Contributed.

EAT A GOOD BREAKFAST

Some weeks have passed now without my mentioning the importance of eating a good breakfast. I mention it often but then it can hardly be mentioned too often. Did you know that two out of three Americans eat too little breakfast? How about it? Are you one of those two?

A good breakfast can prevent that empty, shaky feeling that often hits around 11 a.m. when breakfast has been inadequate. A good breakfast pattern goes something like this: fruit, cereal, eggs, toast and beverage. It should contain about one-third of the total daily food needs. Vary the basic pattern by the kind of fruit, cereal or bread you use, and by the way you prepare the eggs.

If you plan breakfast around a cereal, be sure to include milk, meat or eggs, too, in order to get the most from the incomplete protein of the cereal. Animal foods contain complete protein. Keep the menu simple and easy to prepare. Allow time for all family members to eat leisurely and enjoy the meal. An attractive centerpiece and colorful mats or dishes will spark appetites and add interest to this important meal.

If you are interested in losing weight or in not gaining, eating a good breakfast is a big help. You start off well fed and you don't get that hungry feeling then during the day and hence are not tempted to nibble on this and that which adds so many calories—more probably than you would have gotten in the good breakfast that you failed to eat.

ing a houseful of company for a week end you might like to try this one. It is oh so good.

CHICKEN SPAGHETTI

- 1 five lb. hen, cooked
- 2 twelve oz. pkgs. spaghetti
- Grated rind, half lemon
- Juice of lemon
- 3 or 4 cloves garlic
- 2 medium sized onions, chopped
- 1 no. 2 1/2 can tomatoes

Cook spaghetti separately in a large quantity of salted water until partially done. Combine spaghetti, chicken, sauce and 2 small cans of sliced mushrooms, stems and pieces. Season with salt. Heat until cheese is melted. Makes 20 to 25 servings.

FAIRY

By MRS. EUNICE DANIEL

We are in the grip of winter weather at this writing Tuesday, and with the ground being wet from another rain during the week makes all a little more unpleasant.

Mr. Hardcastle and Charles Daniel of Abilene spent Sunday here. Minister Hardcastle filled an appointment at the Church of Christ Sunday morning, and Mr. Daniel officiated Sunday night. Both are attending Abilene Christian College. They, with Harold Lackey, were luncheon and dinner guests of Mr. and Mrs. E. M. Hoover.

Bill Lackey of San Antonio spent the week end here and at Hico with his son, Harold. They attended church here Sunday and visited with friends.

Mr. and Mrs. Morton Jameson and family of Fort Worth spent the week end with her parents, Mr. and Mrs. L. V. Houser and attended church here.

A good crowd was in attendance at the basketball game last Friday night. No usual charge was made, just voluntary donations at the entrance for the benefit of the March of Dimes drive. A little more than \$35 was received after the deduction of expenses. Games were played by both the boys and girls teams of Fairy and Oglesby.

The writer attended singing Sunday at Warrens Creek near Lamkin. After singing hours we visited at the Willford home with our friends, Mrs. McCarty, Mrs. Alford, Mrs. Smith, Mrs. Gansky

and Mrs. Hoover. All were well as usual with the exception of Mrs. Hoover who was ill with the flu.

Friends called our attention to a portion of last week's news regarding Dr. Lawrence Porterfield of Kansas City, Kansas, which should have read Mr. Lawrence Porterfield. Those who have never seen the tedious setting of news print can hardly understand how easy it would be to have set in a letter D where the M should have been.

And while making corrections we wish to correct one made during the last illness of the late Mrs. John Abel. We gave the information as we received it, which we felt was correct at that time, but later learned that a combined Thanksgiving and birthday dinner was held at the home of Mrs. Stella Wilson, longtime friend and neighbor of the Abels. It was Mrs. Wilson, her sister, Mrs. Ercy Parks, Mrs. Ella Shepherd and I believe Mrs. J. L. Rowe who fixed the tray of food for Mr. and Mrs. Abel. Cecil Parks and his parents, Mr. and Mrs. Ercy Parks brought the food by the Abel home and found Mrs. Abel so ill. Cecil and his mother accompanied them to the hospital, while Ercy notified relatives of her illness. We had formerly stated that it was Mrs. Abel's brother and wife, Mr. and Mrs. Ted Arrant who brought the food and accompanied them. Well, we hope this correction straightens things out even though sev-

eral weeks have lapsed. We were so rushed during the holiday season we hardly had time to think and our news letters having to be sent in several days ahead of time in order to catch the early papers, it was just impossible to keep up on all abreast. We realize not many really realize the effort the correspondents have to put forth in order to get these letters out. We ourselves sure don't carry on our part of the job for the fun we derive from it, but we have in mind those who formerly lived at our home town who enjoy hearing from home again and one of these is Mrs. Minnie McCarty of the Willford home at Hamilton, who was the former Mrs. Minnie Penny of Fairy. We have known her since January of 1903. She formerly operated the Fairy telephone switchboard, and as a widow did farm work for our dad, and has stayed in our home during illness. We think back, sometimes of those good old days when Penny, as we called her, and maybe my sister, now Mrs. Mervie Enger of Brady, would pick cotton until dark, working for a certain amount and weight by striking a match to see by, and we picked it in those days.

My dad believed in doing his farm work right. We had to stop that cotton to one stalk in a place and he planted good seed, the jig-boll types, and he usually raised as good a crop as any farmer in the county. A few weeks back, while visiting Penny, which we still call her, as most everyone does, she said she had not received a paper in two or three weeks. So we checked up and found her subscription had lapsed, so renewed it for another year and gave her instructions to keep it going her way the remainder of her life, or ours, as the case might be. Not only does she enjoy the paper, but her roommate, Mrs. A. Alford, who is a very sweet old lady and former Hico and Fairy resident enjoys it too and in fact, we think the paper makes the entire home before it is discarded. Penny, who suffered a broken hip and paralytic stroke some eight or more years ago, has been bed-ridden since.

Mr. and Mrs. Ben Cunningham and Mr. and Mrs. W. E. Cunningham and Mrs. Gladys Cox visited last Wednesday with Mrs. Cunningham's brother, Mr. Mont Young at the Dublin rest home. Thanks to the Blacklock children and families for a donation of \$5.00 for the Fairy Cemetery fund, given by Mrs. Ernest McCoy. The weather has been so

BOSQUE COUNTY AGENT REPORTS

By WAYMON D. DAVIS
County Agent

Texas soils vary widely from section to section with regard to fertility. That is, soils in the northern sections of the state will not have the same fertilization requirements as the southern sections and the western, eastern, and central sections may also have different deficiencies.

It is this variation in fertilization requirements that has prompted the Texas Agricultural Extension Service to release a series of nine leaflets giving the fertilizer recommendations for each section of the state.

Bosque County is located in the "Grand Prairie" section of the state and the leaflet concerning this county is entitled "Fertilization Recommendations for the Grand Prairie" section. The number of this leaflet is L-225. Included in this leaflet is a chart that gives the recommendations for each individual crop for this county. The crops discussed include forage, grain, pasture grasses and

bad and the ground so wet we haven't got to work any there during the past week but hope to have some more suitable weather soon.

E. M. Hoover was called to the bedside of his mother, Mrs. A. R. Hoover at the Willford home Sunday. He reported her doing fairly well, but suffering of bronchial condition in connection with an attack of the flu.

We have on hand a supply of all occasion cards and such and will appreciate supplying your needs. The funds derived from the sale of these go to the Fairy Cemetery fund.

Don't forget to turn in your news items at the old post office door at the Goynes store. Mr. Goynes has given us the key which we thank him so much for his thoughtfulness and cooperation in behalf of the community news.

Mr. and Mrs. J. T. Leonard and baby and her mother and brother, Mrs. M. E. Parks and Audie spent Sunday in Fort Worth visiting in the homes of Mr. and Mrs. Milford Miller and Ronald and Mr. and Mrs. E. L. Parks and children.

Thanks, Ras, for your nice letter. We read that item first of all and enjoyed it very much and have heard a lot of others say the same. We too think a lot of the Falls Creek folks of years ago. We believe the last singing we attended was at the Luther Janssen home, and dear old lady Grimes, she was just as young as any of us and got so much out of life. Thanks again and let us hear again soon.

the nation. It is also very popular with the 4-H Clubs and FFA Chapter members from the entire state.

Bosque County 4-H Club members who will participate in the show are: Charlotte and Ellonor Miles, daughters of Mr. and Mrs. Charley Miles of Mosheim; Garry Miles, son of Mr. and Mrs. Otis Miles of Mosheim; and Carol Wenzel, daughter of Mr. and Mrs. Willie Wenzel of Clifton.

By John C. White, Commissioner

CAUTION AND THE COTTONSEED CRISIS

Coming hard on the heels of the worst cotton harvesting conditions in 50 years is a serious aftermath which threatens to affect most Texas cotton farmers, inflation on the short crop of good quality cotton planting seed.

Dependable cottonseed is short this year, and as a result, the farmer stands in danger of being exploited by unscrupulous speculators who would not only jack up prices on cottonseed, but on near-worthless cottonseed at that.

In spite of the fact that Texas has good, sound laws which require accurate labelling of seed offered for sale and which establish dependable germination standards, conditions are ripe for black marketing and misrepresentation of seed to the farmer.

This is because much of the cottonseed from Southern States this year will be completely worthless for planting purposes. Already seven of the 14 major cotton producing states have had to lower their minimum for certification of cottonseed. From 80 per cent of germination to as low as 50

per cent of germination. See will be offered for sale which normally would be fit only for crushing at the oil mill.

Although Texas suffered the same bad harvesting conditions as did the other states, Texas certification standards have thus far remained unchanged. This means that, with optimum planting conditions this spring, it is possible there will be enough reliable seed to take care of the state's needs.

But good seed is not plentiful, and the speculators who free-lance for profits on such disasters are aware of this and are already set up for business.

Spring planting in most areas is still some weeks away. It is not too early, however, to begin thinking about getting ready to plant, and the farmer's most reliable source of dependable seed is, as always, his certified seed dealer whom he knows and trusts.

The cotton farmer will long remember those who take unfair advantage of present conditions to skyrocket prices beyond reasonable levels. The outcome of this present unusual situation can affect good producer-buyer relations for years to come.

same time total production in the U. S. is not reduced proportionally, this could certainly affect prices received by the farmers of Texas. With the use of modern transportation facilities, it does not take very long for turkeys to move from areas of large supply to areas of low supplies. Total supply in the U. S. has a greater effect upon price than the supply of turkeys at the state level.

Cold storage holdings are large. Large storage stocks of turkeys will dominate the price structure until the middle of 1958. Turkey cold storage holdings on November 30, 1957 were 221,720,000 pounds compared to 194,000,000 pounds on the same date in 1956. This is an increase of 14 per cent and is 45 per cent more than the 1952-55 average holdings for the end of November.

According to latest reports, state and national turkey organizations are increasing their efforts in the promotion of turkey sales on a year-round basis. This special emphasis on year-round sales should help to reduce cold storage holdings and should, at least in part, help to reduce the

COUNTY AGENT REPORTS

By E. R. LAWRENCE

Here is some more outlook information received from John McHaney, Extension Economist, that will be of interest to the turkey growers of the county.

Texas official pullorum testing stations at Tarleton College and A & M show that 274,491 turkeys have been tested as of December 31, 1957, compared to 355,258 as of the same date last year. This is a 29 per cent reduction. In the United States, from July through November 1957, there were 1,886,639 turkeys tested compared to 1,972,136 turkeys during the same period of 1956. This is a 17 per cent reduction.

This reduction in both Texas and the U. S. is favorable from a price standpoint. It is still too early to determine if this reduction trend will continue.

The following factors will help to determine the future trend: First, the number of turkeys kept for breeders out of the total number tested; Second, the length of the hatching season; Third, unforeseen situations such as the per cent of mortality from storms and floods; and fourth, producers attitude towards the price outlook.

Since Texas produces only a small per cent of the total turkey production, it is very important that producers watch future official testing reports that cover both Texas and the entire U. S. If Texas producers continue to reduce their production and at the

effect of these large stocks on the prices that turkey producers might receive in 1958.

After late summer of 1956, turkey prices will reflect next year's output. With a continued strong demand and if production is noticeably lower than in 1957, prices to producers should be higher than in 1957. It is for this reason that turkey producers should watch testing reports and turkey hatching reports over the next few months.

Research on boll weevil control and also pink boll worm control is going to be speeded up because one of the research people of the college has found how to make a food mixture to feed them on. This will allow the breeding and growing of weevils and pinkies the year-round. As it has been in the past, only during the cotton season could research work be done on these insects.

W. E. Puckett, on the river on highway 22, put out a nice farm size orchard recently. The trees were spaced and set according to the recommendations of the College and also given a good pruning. About thirty trees were set out.

By setting out the orchard now, the trees will have time to set a good number of the small feeder roots which are so important in the trees doing well next year. If trees are set later in the winter, they do not have this opportunity. Why not set a few trees now and have some good fruit for home use in a year or two.

Newly set fruit trees are sometimes damaged by rabbits, as well as getting sunburned before they put out a shading top. Putting several wrappings of newspaper or brown wrapping paper around the trunks of the small trees will give them protection from rabbits and also prevent them from sunburning.
