HICO, TEXAS NOVEMBER 11, 1960.

NUMBER 28

Democrats Take Texas, U. S.; Lose in Hico and Hamilton Co.

While voters over the nation were trekking to the polls in record numbers Tuesday to cast their ballot for the President of the United States, only 457 local people voted in the most important election of the year.

The number was six more votes than was cast in 1956, but 68 shy of the record 525 cast in the 1952 presidential election.

Like in the past two presidential elections, local voters favored the Republican ticket, winning out over the Democrats 244 to 203, a 41 vote margin.

Biggest surprise locally was the closeness of the Senatorial race, where Lyndon B. Johnson received a slight margin of victory over Republican choice John G. Tower. The vote was 230 for Johnson and 201 for Tower. Earl A. Logan of the Constitutional Party received five votes in the Senate race.

Charles L. Sullivan and Merritt B. Curtis received two votes in the local box under the Constitution Party for President, and the Prohibition Party nominees of Rutherford L. Decker and E. Harold Munn drew a blank.

Only two Constitutional Amendments received approval in the Hico box. Number two on the ballot, the Veterans Land Board permissible interest rate, was victorious by a 142 to 130 vote margin. Number four on the ballot, the maximum interest rate bill, also carried locally, the vote being 143 for and 126 against.

The two amendments which failed to carry in Hico were number one, the hospital district bill, and number three, the pay raise bill. Number one was defeated 146 to 111. Number three went down 173 to 113.

Local voters also approved Gov. Price Daniel with 361 votes, as compared to his Republican opponent's 135.

County Goes for Nixon. Like Hico, the overall county voting went Republican in 1952 and 1956.

The tally for the county showed the Nixon-Lodge ticket carrying with a 1631 count. Kennedy and Johnson received 1126 votes.

In the Senatorial race, county-wide, Johnson was winner with a total of 1490 votes as compared to 1253 for Tower.

No tabulation was available on the constitutional amendments.

UNDERGOES SURGERY. Mr. and Mrs. Bill Howard were in Fort Worth this week to be with her father, Mr. A. C. Floyd of Brownwood, who underwent surgery Tuesday morning. Mr. Floyd is reported recovering nicely.

PEOPLE'S CHOICE—Sen. John F. Kennedy and Henry Cabot Lodge. The Democratic party, back in power after an eight-year Republican administration, will take office in January.

Tigers Will Host Evant in Final Game of Season Tonight

The Hico Tigers will close the 1960 football campaign tonight, Friday, when they take on the Evant Elks at the local stadium in a game which begins at 7:30.

For the Tigers the game will mark the end of a high school career for five team members. Playing their final game will be Mitchell Mayfield, Lee Blue, Fieldon Haley, Neil Ellis and Bobby Boone.

Evant, which has always been a pesky opponent for the Tigers, is rated a slight underdog in the contest tonight, mainly on the basis of comparative scores. The Elks have lost to Meridian 20.0, Valley Mills 40.0, and won from Cranfills Gap 26.6.

In comparison, the Tigers were defeated by Meridian 14.6, Valley Mills 36.8, and won from Cranfills Gap 36.0.

The Tigers have the better season mark, having compiled a 4-5 record. Evant is 3-5-1.

For all purposes the game will be played for third place in the final district standings. At present Valley Mills and Meridian are leading the race with perfect 3-0 records. The two teams battle it out tonight for the championship.

Last year the Tigers took the Elks 6.0 in a game played in sleet, snow and rain, and a similar score could be in the making for this week.

Both teams are reportedly in good physical condition for the contest, and fans are promised a good season finale at 7:30 Friday night.

Funeral Services Held Tuesday Morning for Mrs. Leona Daugherty

Funeral services for Mrs. Leona Daugherty were held at 10:30 a.m. Tuesday, November 8, in the Barrow-Rutledge Funeral Chapel. Rev. Tom Pratt officiated, with burial in Hico Cemetery.

Mrs. Daugherty passed away at her home Sunday evening. She was a retired resident of Eureka, Calif., before moving to Hico three years ago.

Survivors include her husband; one daughter, Mrs. Lois Bogner of Santa Monica, Calif.; and one son, Jack Matthias of Trenton, N. J.

Pallbearers were J. O. Rusk, Arnold Harris, Pat Harris, Thelbert Roberts, Johnnie Howerton and Cecil Hancock.

IT'S A BOY

Mr. and Mrs. Texie Allison of De Leon are the proud parents of a son, born at 8 a.m. Wednesday morning, Nov. 9, in a Fort Worth hospital. Grandparents are Mr. and Mrs. E. C. Allison of Waco, formerly of Fairly, and Mr. and Mrs. Garland Streator of the Latham community.

Jerry Gage of Waco was a visitor Saturday afternoon with his mother, Mrs. Florence Blackburn.

Flag Ceremony Held By Den 2 Cub Scouts At Thursday Meeting

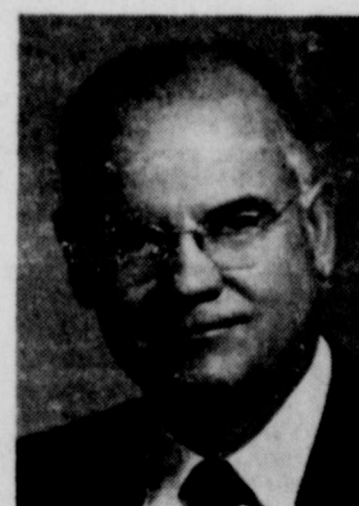

Den 2, Cub Scouts, met last Thursday at the Den House for their regular meeting.

A new 3x5 United States flag was presented to the group by Mr. Wayne Rutledge. James Cryer presented the flag and led the Cub Scouts in a ceremony.

Material for a cover for the flag was given by Mrs. I. J. Teague. All Cubs worked on their woodwork projects.

Refreshments were served by Mrs. Coolege Wade, to Wayne Baker, Russell Cryer, Neill Wade, Pat Norrod, Ronald Fellers, Frank Bonner, Duane Willingham, Charles Goughly, and Den Mothers, Mrs. James Cryer, Mrs. Ben Ganske and Mrs. H. R. Baker.

Miss Carol Akin, student at Howard Payne College in Brownwood, spent the week end in the home of her parents Mr. and Mrs. N. N. Akin and Jane.

IREDELL PLAYS BI-DISTRICT GAME NOV. 17 AT ALBANY

The Iredell Dragons and Leanders Pirates will play their Bi-District football game next Thursday, November 17, at Albany. Game time will be 7:30 p.m., and advance tickets are now on sale in Iredell.

Ladies' Night Set December 1 By Civic Club Members

Members of Hico Civic Club's entertainment committee have set Thursday night, December 1, as date for the annual ladies' night.

The dinner will be held at Bluebonnet Country Club, and a chicken dinner will be served. A game night is also planned following the dinner, which will start at 7 p.m.

Guests of the Civic Club at its regular meeting Wednesday noon of this week were Mr. Bob Knudson and Mr. Woolsey, both of Waco. Mr. Woolsey is district representative for the Heart O' Texas Council, Boy Scouts of America, and Mr. Knudson is a volunteer worker in the organization.

Mr. Knudson outlined the Scout program in the district, and cited its many advantages in urging cooperation of the club in maintaining the local Scout program.

Kittens Defeat Meridian in Season Grid Finale

Hico's Junior High Kittens closed the most successful football season in history Tuesday night of this week when they defeated Meridian 13.0 at the local stadium.

Alan Solsbery led the attack Tuesday night, scoring both touchdowns and kicking the extra point after the first counter.

For the season the Kittens won over Glen Rose, Cranfills Gap, Evant, Stephenville, Meridian, (twice), and lost to Valley Mills to close out with a 6-1 record. The lone loss also cost the locals the district championship, as the Eaglets were undefeated in conference play.

Local City Employee Receives Certificate in Water Management

Austin, Nov. 9.—An official State Health Department citation was awarded this week to Monroe Latham, Hico city water plant employee, for proficiency in water plant management.

The impressively designed certificates of competency, signed by the state commissioner of health and authorities of the Texas Water and Sewage Works Association, credit recipients with having demonstrated "skill and knowledge" of water treatment plant management and an understanding of the public health importance of the work.

Under the State Health Department's operator certification program, operators are carefully examined on their technical ability and on their knowledge of their work's influence on community health. Each must pass a stiff written test to qualify for certification.

The recipients of these certificates are a credit to their profession and to their communities," sponsors of the certification program said.

Points toward certification are earned through actual work experience and by attendance at annual district and state short schools sponsored and conducted by the Texas State Department of Health, the engineering extension service of Texas A & M College, and the Texas Water and Sewage Works Association.

NEW CONSERVATIONIST.—Bomer Harris, formerly of Quanah, is new work unit conservationist for the Hamilton-Coryell SCS District. Mr. Harris replaces George Veteto, who resigned to take a position with the Texas Game and Fish Commission.

Iredell Baptist Layman Elected to Board of General Convention

A. J. Roach, Iredell Baptist layman, was elected to the Executive Board of the Baptist General Convention of Texas during the meeting of the Convention in Lubbock November 2.

The 191-member Board is composed of pastors, laymen, and women from throughout the state. It meets four times a year to conduct the denomination's business between annual sessions.

The Board's primary purpose is to promote all phases of Texas Baptist missions, both at home and abroad, and to teach, enlist and train in Christian service and stewardship in all areas of life.

Members of the Board serve as representatives for more than one and a half million Baptists who are members of the denomination's 3,887 churches in Texas.

Dr. and Mrs. Bob Herrin and daughter of San Antonio visited here during the week end with friends.

ROY DAN SEAL, a Tarleton State College student just out of the Army, displays his shooting trophies that were won as a team coach for Brook Army Medical Center.

Roy Don Seal, Pistol Champ, Shoots for Grades at Tarleton

Ex-Specialist 4 Roy Don Seal, a freshman business administrator major, is one of the unusual guys attending Tarleton State College, who has the air of a champion.

He was one of the Army's top pistol shots. He and the team that he formed, trained and captained, won many of the Army's most coveted shooting cups. Now Don is giving a shot at college, and again he is proving himself a champion. When asked about the Army Don replied, "It's a good racket if you play it or it's a good racket for those who are complacent."

Evidently Don was not complacent for he made his promotions as fast as the time allotment allowed. He was in the corpsman rating, and when asked how he ended up with a pistol team he explained, "When I found out the privileges offered to crack shots, and already having an enthusiasm for shooting, I was ready to give it my best. Looking back I sup-

pose I had nothing but enthusiasm to offer. However, the Army was willing to encourage marksmen. They spent about \$30,000 on my shooting. When I began to win some trophies I was put in charge of training a team."

Seal took his team from Headquarters Company to BMAC team championships and won small bore and big bore rifle matches along with the pistol championship. The victory caused his promotion to coach of the Brook Army Medical Center Pistol Team. From there he gained the highest classification granted a shooter, the "Master" Marksmanship. But he says his most coveted award came from earned through actual work experience and by attendance at annual district and state short schools sponsored and conducted by the Texas State Department of Health, the engineering extension service of Texas A & M College, and the Texas Water and Sewage Works Association.

When asked why he returned to school after the Army, Seal answered, "Money!"

He is the son of Mr. and Mrs. Roy Seal of Hico, and is a graduate of Iredell High School.—From the J.T.A.C.

Carlton Cagers Win Two Games in Past Week of Action

The Carlton boys and girls basketball teams played two games the past week. The Rams played Jonesboro Tuesday, Nov. 1, and Huckabay Thursday, Nov. 3. The Carlton teams were victors in all four contests.

After a five day lay off in preparation for the Halloween Carnival the Carlton girls' offense was out of time Tuesday night. The girls' effort was the lowest of the season with seven for 19 free shots and 15 field goals. The guard play was the bright spot of the game. The girls won over Jonesboro 37-30.

In the girls contest against Huckabay the team played against a fiercely competitive team. The action was fast the entire game and it took an all team effort to win. The offense scored 57 per cent on its free shots which was

the best of the season. The guards went all out to hold Huckabay to a minimum of good shots. The Carlton team won the game 56 to 37.

In the boys contest with Jonesboro the Rams won by a margin of 64-44. This was the highest point output of the season, until the Thursday game when they scored 70 points to Huckabay's 51.

The boys played good ball Tuesday night, passing and hitting well from the field. Dennis Stephens hit on 7 of 13 from the field for the highest percentage. The team did not score well from the free throw line, with a 35 per cent average. The team effort was greatly increased by the return of Duane Spurger who scored 15 points. Spurger and Jimmy Longina carried on excellent maneuvering to move the ball into scoring position.

\$521.64 Netted From Halloween Carnival

The Annual Halloween Carnival was a success in furnishing entertainment for the community and giving each class an opportunity to accumulate class money, especially the Juniors and Seniors for their annual trip. Merchants of Hamilton, Hico, Dublin and Stephenville donated merchandise for prizes.

The 1960 Carnival raised a total of \$521.64, as compared with the 1959 total of \$423.64. This year's Queen race was limited to two weeks and other activities limited to one. The results were that everyone worked harder and raised more money.

The High School Queen contest was won by the Sophomore class, Gay Hicks as Queen and Jerry Chambers as King. The same class won the contest last year as freshmen.

The Grade School Queen and King contest was won by the Seventh Grade. Ariene Lunsford was Queen and Lonnie Stephens was King.

Total income from the different classes and rooms was: Senior, \$155.50; Junior, \$32.42; Sophomore, \$156.06; Freshman, \$42.07; Eighth, \$27.05; Seventh, \$28.47; Fifth and Sixth, \$33.86; Third and Fourth, \$19.29; and First and Second, \$26.92. This money will be used by each class under the direction of their sponsor.

Carlton Elementary Students Enjoy Day At Circus Friday

(A cooperative story told by Mrs. Freddie Sills' Class.)

Mrs. Sills' Third and Fourth Grades, with others in Carlton's Elementary School went to Stephenville last Friday to see the circus animals. Our first big treat was seeing a huge white Polar Bear and two Black Bears in cages. In another cage we saw a very large Lion which seemed very unhappy and grouchy.

We walked around the grounds and were just in time to see an elephant help stretch the circus tent. The monkeys were in cages taking a good sun bath and enjoying the attention of sightseers.

We had a long stay watching 12 elephants, each with two tails. They seemed to be swaying to music. We felt sure that the zebra had been painted with a brush, but we didn't touch him to see if the paint was wet.

On the truck that carried the rhinoceros and the hippopotamus was written these words, "The Blood Sweating Hippopotamus," but when we looked at them they didn't seem to be sweating at all. The camels, giraffe, horses, and dogs were very interesting, which makes our classes more eager than ever to make our visit to the Fort Worth Zoo to see more animals.

FIFTH AND SIXTH GRADES ALSO VISIT CIRCUS

By MARTHA STUCKEY
The Fifth and Sixth Grades in Mrs. Birdie Burnett's room left Carlton School Friday morning, Nov. 4, at about 8:35 to see the circus animals at Stephenville. When we arrived we were divided into different groups of seven to each group with a sponsor.

Then we started the tour of the grounds. We saw many different kinds of animals including the zebra, camel, elephant, and many others.

We enjoyed the trip very much and want to thank Mrs. Scates and Mrs. Lewis for sponsoring us on the tour. We would also like to thank the Carlton Board of Education and Supt. A. J. Barron for allowing us to use a school bus for the trip.

'61 TORSION-SPRING CHEVROLETS

If you don't think scrapping the front axle has made a world of difference, you haven't driven a Chevy in a while. A few minutes behind the wheel and you can feel why drivers are happier and breakable loads are better protected. But the biggest advantage of all, you'll realize, is that the truck itself (sheet metal, tires, chassis components, everything) takes less abuse. With independent front suspension soaking up road shock and vibration, the truck lasts longer, goes extra thousands of miles before trade-in time. Add that to what everybody's always known about Chevy dependability and you find yourself looking at the soundest truck investment you could bet your business on.

and look! NEW REAR-ENGINE CORVAIR 95's

A panel and two pickups that put a thrifty air-cooled engine in the rear, the driver up front and as much as 1,900 pounds of load space in between! That's more capacity than a conventional half-tonner. Yet these Corvaire 95's are nearly two feet shorter from bumper to bumper. Highly maneuverable. WHEN IT'S WARM ONE DAY... COLD THE NEXT

You'll appreciate the automatic comfort of Heat Pump indoor climate control

Texas' topsy-turvy weather meets its master in the All-Electric Heat Pump central air conditioner. It automatically adjusts to outside temperature changes, switching from heating to cooling or back again as needed, even within the same day or same hour. You just set the thermostatic controls once for home-wide perfect comfort year around. There are no seasonal start-ups or shut-downs of heating or cooling equipment... no discomfort from unseasonably warm or cold days. The Heat Pump makes indoor climate control completely automatic. And because it's all-electric, it's cleaner, safer, more healthful. Phone, write or visit our office for additional information.

New Brochure Published Telling of Texas Attractions

By VERN SANFORD
Texas Press Association

Austin.—Like a debutante daughter in bouffant gown, Texas' many charms have been wrapped in a lavish, full-color booklet and presented for the attraction of free-spending visitors.

First of its kind ever published in Texas, the 32-page brochure was compiled by the State Highway Department and is being distributed free. First printing of 400,000 copies is being sent to travel agencies, clubs, newspapers, anywhere that it may be used to draw tourists to Texas.

It is one of the first big steps in a program to reverse Texas' decline in tourist revenue.

Texas is "Twenty years behind the times" in advertising tourist attractions says Tom H. Taylor, director of the Travel and Information Division of the Highway Department. Next goal is to get the Legislature to appropriate \$300,000 to be used for media advertising over the country, as other states do.

Requests for copies of the brochure should be sent to the Travel and Information Division of the Texas Highway Department in

Austin. Taylor said the Department expects heavy demand and will not be able to furnish the booklet in quantities.

More Water Aid is Goal.

Gov. Price Daniel said he will ask the next Legislature to take action aimed at speeding up local water conservation projects.

Speaking to the Texas Water Conservation Association, the governor said he would urge more money for water projects and a more flexible financing program.

Mavin Nichols of Fort Worth, chairman of the Texas Water Development Board, urged that the present ceiling of \$5,000,000 on any one water loan be raised to \$15,000,000. Under the present water development program, the state sells bonds to raise money to lend the local governments to help pay for water conservation construction. Lending is limited to one-third the total cost and \$5,000,000 on any one project.

Nichols said the Water Development Board was "admittedly disappointed" in the small number of loans (eight for a total of \$14,840,000) completed since the program was passed in 1957. Abundant rainfall has caused many local govern-

ments to lose a sense of urgency about water conservation, said Nichols.

Several speakers warned of the certainty of another drought. "Biggest problem in many cities by 1980 may be getting a good drink of water," said one.

Insurance Rate Hike Rejected.

State Board of Insurance turned down by a unanimous vote a proposed 30 per cent increase in auto insurance rates.

Board will re-study the problem in June, 1961. Until then the present rates will continue.

Board also turned down by a 2 to 1 vote a proposal by Chairman Jenn J. Jackson to allow companies to make their merit rating system optional. It is asking for an attorney general's opinion on whether optional merit rating would be legal.

Board member Robert W. Strain said he felt an across the board raise in auto insurance rates would be unfair to law-abiding, accident free drivers.

Can't Take Car for Taxes.

A local taxing district cannot seize a person's personal car because he has failed to pay property taxes on it, the Attorney General's Department ruled.

However, the tax assessor still has plenty of ways to "get at" the car owner who tries to evade taxes.

An automobile—one only—is part of a person's homestead, said the opinion and cannot be taken for forced sale to satisfy a tax claim. However, it said the tax collector can get a judgment that will allow attachment and sale of a second car, or any other property not included in the homestead exemption.

Shop at Home.

State Highway Commission has reaffirmed its policy of using only U. S. made materials for road and bridge construction in the state highway system.

Beginning January, 1961, all contracts for highway construction will include a provision that all materials furnished will be manufactured in mills located in the United States or its territories and possessions.

This policy was vigorously protested by representatives of industries of other countries at a hearing earlier this fall.

Policy will not apply to products finished in this country using component parts furnished from abroad—such as pigments put into paints, wire made into wire mesh, etc.

Short Snorts.

Eleven assistant attorneys general are working on 365 cases over the state, aimed at stopping the charging of illegally high interest rates by loan companies. Atty. Gen. Will Wilson announced. Wilson said a court decision allowing

MAKE YOUR OWN KITCHEN STORAGE DEVICES

Need extra storage space in your kitchen? If so, you will like the ideas presented in a bulletin by home management specialists.

The bulletin, "Kitchen Storage Devices You Can Make," illustrates ideas in clean-cut sketches so even an inexperienced home carpenter can follow through. Only simple tools are needed, and many of the cupboard accessories can be made from wooden boxes, scrap pieces of lumber, or inexpensive softwood.

Ideas for narrow shelves that fit between the counter top and

upper cupboards are illustrated. Removable step-shelves, and hanging shelves also are shown. Different types of cutlery racks, files for pans, sliding trays, towel racks and drawer dividers also are pictured.

Get a copy of this bulletin from your county home demonstration agent's office and make plans for improving your kitchen storage.

VITAMIN C IS NEEDED DAILY
An apple a day may keep the doctor away, but it takes an orange a day—or its equivalent—to provide the vitamin C recommended for maintaining good nutrition.

A food consumption survey carried out by the U. S. Department of Agriculture showed that among more than 6,000 U.S. families whose food purchases were studied, over a week's time, one in four was not receiving recommended quantities of vitamin C.

Citrus fruits are rich enough in vitamin C to yield a day's supply in one average serving such as a whole orange or a half grapefruit. Potatoes, tomatoes, peppers, Brussels sprouts and cabbage, as well as greens such as spinach, mustard greens and turnip greens also contain vitamin C. However, more than one average serving of these other foods is needed to provide enough of the vitamin daily.

Vitamin C is not stored in the body. That's why you need to include it in your diet on a regular day to day basis.

the attorney general to examine records of suspect companies will be a great help in the effort.

State taxes collected on the sale of cigarettes, liquor and wine for October ran \$1,589,729 higher than the same month a year ago said State Treasurer Jesse James. Total collections were \$8,478,194.

Number of employed persons in Texas hit 3,453,000 during September, highest September total ever recorded, reports the Texas Employment Commission. Employment was down from August, however, mostly due to ending of summer jobs and returning of students to school.

Hopes for a new medical school in the Capitol City were revived by the announcement of a study being undertaken by the Texas Medical Association on whether the state needs a fifth school. Austin lost out to San Antonio in bidding for the fourth medical school authorized by the last session of the Legislature.

A Christmas Gift Twice Given . . .

Is the one you buy in your home town!
It brings pleasure to the recipient, and also to your friend and neighbor, the hometown merchant from whom you buy it.
Maybe it's only a small purchase, but a town's retail community is built up in large part by small purchases, and every one helps.
It's a brighter Christmas for everyone when holiday business has been good in the home town, and your friend, the local merchant, has been planning for a long time to bring you the best he can find in his line. Why not give them a break?

Sometimes, a Christmas Shopping trip can be as simple a bit of arithmetic as \$2.00 spent for travel, \$1.50 saved on "bargains"—and the profit gone to strangers.

This Christmas, why not look first at home, buy first at home, and get the satisfaction of the gift twice given?

TURKEY TROT IN CUERO

The only celebration of its kind in the United States—if not the world—will be staged November 11 in Cuero, down in the heart of the South Texas cattle country.

It is the widely-heralded Cuero Turkey Trot, when at least 10,000 gobblers will be herded through the streets in a re-enactment of the level turkey drives that used to take place in that area years ago.

The celebration amounts to a dramatization of the importance of turkey-raising in the Cuero region, and the people of the area get together to put it in the spotlight in years when the spirit moves them. DeWitt County turkey ranches will produce an estimated 300,000 birds this year.

Back in the early years of the century, these drives through the streets of Cuero were strictly utilitarian. In those days range turkeys were driven regularly on foot from range to market, and it was nothing unusual for flock numbers as high as 20,000 to be herded along country lanes.

It often happened that a grower living miles from town would start moving his flock toward town, often buying up neighbor's turkeys and adding them to his

as he passed along. A turkey drive of this kind required several days. At night the birds would roost in live oak trees along the route, foraging on acorns and grasshoppers as they pursued their leisurely way.

It was in 1912 that the late J. C. Howerton, editor of the Cuero Record, developed the idea of building a community celebration around the turkey drives.

The first Turkey Trot parade was led by Governor O. E. Colquitt and his staff.

The celebration was staged almost every year until 1947, when the passing of the old range type of birds brought about its temporary abandonment. The hybrid, baby beef type of turkey which by then had become standard was not adapted to being driven through the streets under its own power before thousands of on-lookers. Among other handicaps, they lost too much weight.

But in 1956 a plan was worked out to compensate growers for the loss in poundage, and a shorter parade route was arranged.

The celebration this year, first in four years, will have at least 10,000 gobblers being herded down Cuero's Main Street, and the 3-day celebration will include many side attractions.

COUNTY AGENT REPORTS

By E. R. LAWRENCE

I believe that the dairymen will be glad to know that another contribution to the fight against mastitis has been made by Dr. Lawrence W. Slanetz and his associates at the University of New Hampshire.

After five years of tests with a dairy herd of 160 cows and supporting field tests, he has developed a vaccine hoped to control staphylococcal mastitis. It is being made available to veterinarians under the name of Staphylococcus Aureus Toxoid (Slanetz Strain No. 7).

Dr. Slanetz found that the toxoid increased the resistance of cattle to staphylococcal mastitis. The spread of the infection was almost completely prevented in the herds studied and there was a marked reduction in the number of acute cases or flare-ups.

Vaccination did not eliminate the infection in the majority of quarters with well-established chronic infections, and Dr. Slanetz has pointed out that additional information is needed to establish the optimum number of injections, injection intervals, and the duration of the immunity. He also hopes it will be possible to improve vaccine potency.

Bill Strickland, on old highway 22, has been using burnt lube oil to mix his 2.4.5.T in for spraying mesquite trees. He tells me that he has been getting satisfactory results, too. This should do the work and too, it makes spraying a little cheaper. Save that old lube oil until next summer and use it as Bill is doing, and start on those mesquite trees.

During cold wet weather like we are now having, stockmen should be on the lookout for limping cattle. Limping is one of the first signs of foot rot, a livestock disease that often develops during fall and winter.

The disease, which causes a raw condition similar to "athletes foot" can spread through a herd. Foot rot is caused by an organism which gets its start when the feet of cattle become softened and damaged in wet, muddy lots and pastures.

IT HAPPENED . . .

HERE OR NEAR

By E. E. DAWSON

Items about the early history of Hico are always of interest to the Hico citizenry, which is perfectly natural. So this week's column no doubt will interest most readers.

I often receive letters from folks all the way from here to the West Coast about Hico or its personalities, which gives an indication of the widespread circulation of this paper. The latest came last week from Loving, New Mexico from Mr. Alsey Alford, son of the man who gave Hico its name and who had a real part in the development of the town and the area. Here is the story Mr. Alford gives of the beginning of the town.

He says that in March of 1857, Alsey Alford of the state of Kentucky left that state with his two oldest sons, Rufus and John. Evidently they sailed down the Mississippi to New Orleans on a river steamer, then took a steamer

for Galveston. On that trip the Elder Alford, the father, became ill of pneumonia and died and was buried in Galveston. The sons headed this way and finally arrived at the settlement on Honey Creek, their arrival being some time later in 1857. The settlement was fast becoming a town, but had no postal facilities, nor even a name.

So John Alford suggested that a post office be sought and a name given the community. That was in 1880 when the Texas Central Railroad was building this way from Waco. Mr. Alford suggested the name "Hico" to the post office department after his native town of Hico, Kentucky. The Postmaster General accepted the name, it being easy to spell and short, two requirements of new names for post offices. And Mr. John Alford was appointed postmaster.

Now it was two miles and a half from the new Hico to the newly built railroad. So on November 18, 1880, the folks of Hico on Honey Creek just picked up bag and baggage, houses and effects and moved across the river to the present site of the town. Thus the town started on a new era of building and activities, with what result you now behold.

The man, Alsey Alford, who wrote me the letter, is the son of that John Alford who gave us the name Hico and who has been succeeded by a long list of postmasters down to the present Robert Jackson. Well, a person never knows what they are starting when they begin something new, but way down the line from them a lot of results will be in evidence. We can all look back to John Alford as one for whom we can be grateful.

Mr. Alford says in his letter that his sister, the former Ursie Alford, now Mrs. J. F. Uhl of Austin, Texas, wrote the post office department some years ago about Hico, Kentucky, and she was advised that the post office at that place had been discontinued some time before that. But though the name Hico has died in Kentucky, it still lives in Texas, and is very much alive, as the high school football team is able to prove to the discomfort of some of the teams it defeats.

Thank you, Mr. Alford of Loving, New Mexico.
