## Pig Scramble Staged Last Week By Local FFA Chapter

Imagine, if you can, 18 boys turned loose on a football field, each attempting to catch one of six pigs!

That's what happened last Wednesday afternoon at the local stadium when the FFA Chapter staged their first annual "Pig Scramble." And the pigs were no match for the scramblers, as it took less than five minutes for the lucky six boys to round up and pen the hogs.

The 18 boys were placed in position, nine on either goal line, with the pigs in a pen at the 50-yard line. At a given signal, the pen was raised releasing the pigs, and the boys raced "to the kill." Once a boy had his hands on a pig, no other could claim the animal. After catching the pig, the boy had

to successfully place the animal back in the pen which had been moved to the sideline.

Purpose of the scramble was to create interest in the swine division at the annual FFA Livestock Show, which will be held the latter part of March. The boys catching pigs will feed the animals, and exhibit them at the show under the supervision of the chapter.

The pigs were purchased from Flat Top Ranch's herd of purebred Yorkshires. Following the show, the animals will be the property of each individual boy, and he can either sell or keep the pig.

Boys who caught pigs were Tommy Donley, Billy Power, Fieldon Haley, Lloyd Hyles, Ronnie Nachtigall, and Bill Rutledge.

## Grand Jury Report Submitted for February Term

State of Texas  
County of Hamilton  
In the District Court  
To the Honorable H. W. Allen,  
Judge of Said Court:

The Grand Jury duly empaneled for the February Term, 1961, of said court beg leave to submit the following report:

We have been in session for two days and have found eight bills of indictment, all felonies, which we herewith return into court.

We take pride in noting that our District Judge is a Hamilton County man, and wish to express our appreciation to him for the charge which he gave us at the beginning of our deliberations. His clear, concise explanation of our duties and his other instructions were most helpful to us as we went about our duties.

The small number of indictments that were returned speaks well for the law abiding tendencies of the people of this county. We have a very clean county and for this we wish to thank the people of the county.

The District Attorney has been most helpful to us and his preparation of the cases before the meeting of the grand jury was very helpful, for this we express our appreciation.

The sheriff's department, the bailiffs, and George Roach, Texas Ranger, have been most helpful and for this we are grateful.

So far as we know we have finished our work for the term and request that we be dismissed subject to call of the court.

# Hico Cagers Seek Title At Valley Mills Tonight

## Locals Favored to Advance to Bi-District Play-Offs

The torrid Tigers from Hico will go to Valley Mills tonight, Friday, for the final game of the double round-robin district cage slate, and a win will automatically throw the team into bi-district play.

Should the Tigers hurdle the last obstacle, a one-game play-off will be staged to determine the representative in the regional tournament at Brownwood later this month.

Their bi-district opponent will be Crawford, and the game will be played at a time and place to be determined later.

Hico, who hasn't been pressed in winning seven consecutive district games, will wear the favorite's tag into the contest tonight. Valley Mills, rated No. 1 class B team in Central Texas three weeks ago, has since lost three games. The Eagles were stripped of their two leading scorers prior to their game with Hico two weeks ago. The boys were dismissed from the team for disciplinary reasons.

The locals, who sport a 17.3 season record, are led by three team members who consistently hit in the double figures. Neil Ellis, Don Jernigan, and Mark McElroy are leading scorers for the Tigers, and they get able assistance from Mitchell Mayfield, Larry Erick, Harold Hathcock, and Mike Lowe. These seven boys have logged most of the playing time this year. The locals' only defeats have been at the hands of Tolar, Priddy, and Lipan. Tolar defeated Hico in the season opener by one point. Lipan, a perennial class B power, caught the locals on a cold night, and defeated them by 8 points in the Stephenville tournament.

The girls' team, which has been eliminated from district contention, will square off against Valley Mills in the opener at 7 p.m.

**Locals Split With Whitney.**  
Hico's hotshot boys' basketball team took another step nearer their third consecutive district championship last Friday night by jumping on an undermanned Whitney team at the local gym.

When the firing was over the local roundballers had sacked their seventh consecutive district win, and advanced another notch nearer the crown with a 68-27 win. Only Valley Mills remains on the schedule, the game to be played Friday night at Valley Mills.

The local girls' team went down in defeat for the third time in second-half play, falling before Whitney 41-30. The girls owned their only lead of the game at the end of the first period, with the scoreboard reading 5-4. After that it was a game of catch-up, with Whitney leading 15-12 at the half, 27-18 at the end of the third period and finishing with the 41-30 win. Kay Yocham canned 17 points to lead local scorers. Other counters were made by Kathy Higginbotham, 5, Jane Akin, 4, Martha Padack 3, and Margaret Warren 1.

In the boys game, Whitney kept the score close the first quarter, trailing only four points, 13-9, at that phase of the game. But the locals hit 20 points in the second stanza, while allowing the visitors only five, and at the half the final outcome was evident.

Leading 33-14 going into the third period, the locals dumped in 16 more points to lead at the three-quarter mark 50-20. They increased their margin to the final 68-27 reading in the final period.

Mark McElroy canned 20 points to lead Hico scorers. Neil Ellis, held scoreless in the initial period, scored 18 points in the final three quarters for runner-up honors. Don Jernigan added 12 points, Mitchell Mayfield contributed 8, and Harold Hathcock and Mike Lowe each scored five points to round out the scoring column.

Mr. and Mrs. Aron Naul, Quinton and Larry, and Dean Mattox of Grand Prairie spent the week end with Mr. and Mrs. G. E. Arnold.

## SNOW AND ICE COVER HICO AREA SECOND TIME IN TWO WEEKS

Old Man Winter held the Hico area in an icy grip this week when the area was covered with ice and snow for the second time in a week's period.

Snow began falling in Hico Sunday afternoon, and continued through Monday before it began sticking Monday night making highways hazardous. Tuesday morning residents awoke to see everything cov-

ered with the most picturesque snow scene here in years. Trees, shrubbery, and even the north side of utility poles were heavily loaded with snow.

Classes in the Hico schools were canceled Tues. as roads were considered too dangerous for school buses to travel. The snowfall began melting Tuesday afternoon, and by Wednesday, little trace remained, with the exception of muddy streets.

## Parent-Teacher Meet Rescheduled For Monday Night

The Hico Parent-Teacher Association meeting originally scheduled Monday night, Feb. 6, was postponed this week due to inclement weather.

were very sorry to learn of the passing of Mr. Ozra O. O. Newton, who died about 8:30 p.m. last night of last week. Mr. Newton had only been ill about a week. He spent most of this time in the Hamilton Hospital. He had high blood pressure for several years and suffered a stroke last year. Bro. Newton had served as minister of the Church of Christ at intervals for a number of years, and at other churches over the area. He was a man of many talents. His devout method of teaching the Bible made him a favorite among many. He had performed many marriages and officiated at many funeral services. The last time to meet and talk with him was at the funeral service of Mr. Charlie Giesecke of only a short while before he became ill. He had a record of having nursed some 1000 persons. Bro. Newton was born to the late R. J. and Mrs. Patsy Myers on Sept. 17, 1887. He was married to Miss Gertrude Christian on Nov. 17, 1912. They had four children, two of which preceded him in death. Surviving are his wife; and three daughters, Mrs. Leota Glover of Fort Worth, Mrs. Zona Bullard of San Diego, Calif., Mrs. Mavis of Evant and Mrs. Ozzie Dean

Hornsby of Lubbock; four brothers and one sister, I. I. I. Newton, N.N.N. Newton of McGirk, K.K.K. Newton and J.J.J. Newton of Plainview, and Mrs. Veta Kemp of Lubbock; also ten grandchildren and eight great-grandchildren and a host of nieces and nephews. Bro. Newton was baptized 45 years ago. He had been a minister of the Church of Christ for 45 years, and had spent his entire life in Hamilton County, with the exception of a few years spent at Royce City. At the time of his death he was serving as minister at Evant Church of Christ, where funeral services were held at 2 p.m. Monday, is still falling. However it has been less hazardous on highways since temperatures have remained just near the freezing point and the snow hasn't frozen hard. Mrs. Charles Price of Austin visited from Friday until Sunday with her father, P. L. Cox. She carried him to Hamilton Saturday morning to have a tooth extracted. Mr. and Mrs. Carl Ray Sellers were ill of severe colds during the week end. Both are much better. Sorry to report three more cases of mumps in the Lanham community. These are Joyce Fay and Ruth Jones, and a Smith boy, son of the Ira Smiths. We hope all a speedy recovery. Mr. and Mrs. Bobby Drew of Dallas are proud parents of a baby girl, born Wednesday, Feb. 1 in a Dallas Hospital. She has been christened Cynthia Ann and weighed 8 pounds and one ounce. Maternal grandparents are Mr. and Mrs. Frank Hanes. Paternal grandparents are Mr. and Mrs. Robert Drew of Dallas. Mrs. Pedro Jones of Lanham is maternal great-grandmother. Mr. and Mrs. Willie Turner enjoyed a visit from their children over the week end. Present were Mr. and Mrs. Billy Turner and Curtis and Mr. and Mrs. Ray Botkins and Tammy of Killeen, and Mr. and Mrs. Jackie Turner of Arlington. Mr. and Mrs. Max Lamb of Flat visited a while Sunday afternoon with her parents, Mr. and Mrs. Scott Blakley. were Mr. and Mrs. J. T. Jackson, Mr. and Mrs. H. O. Richardson, Mrs. M. E. Parks, Mr. and Mrs. Marvin Porterfield and Billy Marvin, Mr. L. J. Wood, and Mrs. Eunice Daniel.

Those from Hico attending that we saw were Bro. Willingham, Mrs. Mary Keller and Helen, and Mrs. T. L. Betts.

Mr. and Mrs. E. L. Parks and daughters of Fort Worth, Mr. and Mrs. Delbert Pack of Stephenville, and Mr. and Mrs. J. T. Leonard and Melodie of Fairy visited in the home of Mrs. M. E. Parks and Audie.

This finds us in the grip of severe winter weather again. We received over two inches of rain during Saturday night and Sunday. Snow began falling Sunday afternoon and at this writing, 10 p.m. Monday, is still falling. However it has been less hazardous on highways since temperatures have remained just near the freezing point and the snow hasn't frozen hard.

Mrs. Charles Price of Austin visited from Friday until Sunday with her father, P. L. Cox. She carried him to Hamilton Saturday morning to have a tooth extracted.

Mr. and Mrs. Carl Ray Sellers were ill of severe colds during the week end. Both are much better.

Sorry to report three more cases of mumps in the Lanham community. These are Joyce Fay and Ruth Jones, and a Smith boy, son of the Ira Smiths. We hope all a speedy recovery.

Some schools were closed Monday due to the weather. However classes were held here both Monday and Tuesday. Today, Tuesday we have white surroundings with 29 degree temperature. However the sun is shining and we hope we won't have that snow through today as predictions indicated.

We wonder how many stop to consider the burdens of mail carriers during this winter weather, of prying open icy mail boxes. We who have mail boxes at our front gates could help a lot by breaking the ice and seeing that the door will open before their arrival.

D. E. Allison of Dublin visited Sunday with his parents, Mr. and Mrs. Ed Allison and also in the home of Mr. and Mrs. Walter Abel, Mr. and Mrs. Carl Ray Sellers and the writer.

Mr. and Mrs. James Abel and Clark of Priddy spent the week end with his parents and uncle, Mr. and Mrs. Walter Abel and Bill.

Attending the party were Randy Gardner, James Gleason, Randy, Ricki and Raymond Hall, Della Willeford, Mike Hanes and Jimmie Don Sellers. Refreshments of cold drinks and cookies and candy hearts were served to the guests.

Mr. and Mrs. R. M. Springer of Miles spent last Friday night in the home of their son, Mr. and Mrs. Leon Springer and family.

Nona Brunson did a few hours work at the cemetery last week making repairs to several graves and we were glad to get this work done before the present bad weather set in, otherwise it would be some time before it could be done.

Our sincere thanks to the Burden Brothers of Dallas for a deposit of \$30 for the cemetery association. They are sons of the late Henry Burden, and Mrs. Mamie Appleby. They have been very faithful to help from time to time and we surely appreciate their thoughtfulness.

AT GRAND PRAIRIE—

## Jackson Family Assumes Full Citizenship Role

(Ed Note: The following story is reprinted in the interest of people in this area who are well acquainted with the Jacksons. Mr. Jackson is the son of Mr. and Mrs. J. T. Jackson of Fairy, and a grandson of Mrs. Mary Keller of Hico. Pictures and story are courtesy of the Grand Prairie Texan.)

Though they can't be classified as "oldtimers" in Grand Prairie, the Vernon Jackson, 202 Myers, live on an old-time street and have pitched into civic and church affairs in such enthusiastic fashion that they have rolled up a list of service that pioneers would find hard to match.

To say the Jacksons (husband Vernon, wife Ruthe, and daughters Jorja and Xanna) are busy Prairians is to put it very mildly. Though Ruthe Jackson was born in Fort Worth, she calls Grand Prairie her hometown. Her parents, Mr. and Mrs. J. L. Thompson, were blessed with three other daughters: Mrs. Dale Boyd of Arlington, Mrs. Bill Pruitt of Greenville, and Mrs. Milton Potter of Grand Prairie. Mrs. Florence Thompson has made her home in Grand Prairie since the death of her husband.

Vernon was one of four children born to Mr. and Mrs. J. T. Jackson of Fairy, who are farmers-ranchers. Vernon's three sisters all live in Grand Prairie with their respective families, Mrs. Dorman Vance, Mrs. Ernest Seymour, and Mrs. Louis Abel.

Previously, Jackson worked in a supervisory capacity at North American Aviation and at Temco, and as instructor for the Dallas Board of Education defense program.

He now owns the Jackson Novelty Vending Service. His charming wife is his secretary. He is a school board member and life member of the P-TA, and also a member of the Lion's Club. Jackson is co-owner of Talking Bible, Inc., and is assistant director of Civil Defense.

He collects coins as a hobby, likes fishing, hunting, swimming, tennis and basketball.

Mrs. Jackson previously was co-owner of All-Sign Company and secretary at Temco and North American. Last year she received a life membership with the P-TA. She is presently the State Board

member of P-TA Cultural Arts, treasurer of Friends of the Library, secretary of Jefferson Junior High P-TA, parliamentary member of City Council P-TA, corresponding secretary of the Grand Prairie Civil Defense commission, member of the Women's Division of the Chamber of Commerce, Fine Arts Association, immediate past-president of the City Council P-TA.

Mrs. Jackson is thrilled to have had a P-TA article published in the Texas Parent-Teachers Magazine (January). Her hobbies are coin collecting, writing poetry, silk screening, and art stenciling. Versatile daughter Jorja is fourteen and a half years old and is an eighth grader at Jefferson Junior High.

She is enrolled at the Power's Modeling School in Dallas, studying voice with Earl Tom Keel, and is a piano student of Mrs. Lois Flynn. She plays flute, piccolo, and violin in the school band and orchestra. Jorja's hobbies are coin collecting, swimming, and bowling, for which she has two trophies.

Another daughter, Xanna, is nineteen and a sophomore at Abilene Christian College. She is majoring in Elementary Education. She is a member of the Choral Aires, a nominee for school beauty, and only recently was named Freshman Favorite. Xanna graduated from Grand Prairie High School in 1960, where she was a cheerleader, and also was selected Girl of the Year by the Grand Prairie Federation of Women's Clubs.

Mr. and Mrs. Jackson and their two daughters belong to the Burbank Gardens Church of Christ. Jackson teaches a senior adult class and Jorja is assistant teacher of the four year old class. Mrs. Jackson is studying Hebrew history and the Old Testament course at Fort Worth Christian College.

Over a period of years the Jacksons have redecorated their home, where they also conduct their business, with the office in a separate house. The rooms are spacious and comfortable, three bedrooms and two baths. An attractive divider separates the living room and kitchen. The large living room has wall-to-wall carpeting, rounded divan, spindle piano, and a huge mahogany dining table at the far end of the room.

AT HOME WITH THE JACKSONS—In their spacious living room, Mr. and Mrs. Vernon Jackson and daughter

Jorja browse through the latest Texas Parent-Teacher Magazine, which contains an article written by Mrs. Jackson.

### SENIOR PLAY

The Senior Class has announced the cast for their annual play. This year's play is entitled "Rimrock Riot." Those in the play are as follows:

Spaceman, an inventive, eccentric senior at Blue Rimrock high, played by Neil Ellis; Arlin Abbott, the fun-loving, but slightly bumbling class prankster, played by Monty Ogle; Harry Cooper, Arlin's buddy and class "heart-throb" played by Bobby Boone; Janis Brown, Harry's pretty, spunky steady—well, at least once in a while—played by Kay Yocham; Judy Mills, Janis' breezy and surprisingly ingenious pal, played by Linda Patterson; Jackie, a muscular athletic-minded student, played by Mitchell Mayfield; Bar-

bara, Jackie's studious friend, played by Dianne Howerton; Lulu, an older, more mature (?) student, sophistication's gift to Blue Rimrock, played by Lou Laminack; Mrs. Matchett, the ruggedly individualistic principal and football coach, that's right, football coach, played by Sheila Partain; Mr. Agnew, a mild mannered conscientious graduate of Hackensack Teachers College, and first man teacher at Rimrock High in ten years, played by Fieldon Haley; and Miss Chisle, a grim, prim, English teacher who talks like a textbook and looks just about as glamorous, played by Joy Little.

The entire action of the play takes place in the Senior English classroom of Blue Rimrock High School, off—far off—the beaten

### GET YOUR VITAMIN C—EAT CITRUS FRUIT DAILY

An apple a day may keep the doctor away, but it takes an orange a day—or its equivalent—to provide the vitamin C recommended for maintaining good nutrition.

A food consumption survey carried out by the U.S. Department of Agriculture showed that among more than 6,000 U.S. families whose food purchases were studied over a week's time, one in four was not receiving recommended quantities of vitamin C.

Citrus fruits are rich enough in vitamin C to yield a day's supply in one average serving such as a whole orange or a half grapefruit. Potatoes, tomatoes, peppers, Brussel sprouts and cabbage, as well as greens such as spinach, mustard and turnip tops also contain vitamin C. However, more than one average serving of these other foods is needed to provide enough of the vitamin daily.

Mr. and Mrs. E. L. Parks and daughters of Fort Worth visited this past week end in the home of her parents, Mr. and Mrs. E. R. Seago.

Vitamin C is not stored in the body. That's why you need to include it in your diet on a regular day-to-day basis.

### IMPULSE BUYING COSTLY

Do you plan meals ahead and have a shopping list when you go to the grocery store, or do you buy whatever attracts at the moment? Impulse buying can be costly.

Here is why—buying—because the food looks good, is attractively displayed, or suits your appetite at the moment often rules out such considerations as price, nutritive value, amount needed, family preference, and leftovers or other foods that you already have on hand.

Without a plan it is hard to resist tempting displays, but you can guard against costly impulse buying by planning ahead—at least several days to make best use of foods on hand and to stay within budget bounds. The shopping list is easy to plan after menus are made and making a shopping list will save time and money at the grocery store, as well as having more nutritious meals for the family.

# CHATTER

By HELEN OGLE

It snow, let it snow—but in Hico, I had my wish and think it's nice, but a lot of in the area have asked me to wish for a nice sunny day. (As if my wish had any to do with a repeat snow.)

Dawson was in the office Monday and asked if I planned to forecast the weather, or plain chattering. Guess I'd try to stick to chatter or my will be in the dog house.

Speaking of chatter, it can be scarce in weather like this and yet you could report to phone while you are sitting by the fire. If you've heard, or thought of anything amusing or not libelous or obscene—telling the local scene or pease call me, I'll even accept by mail, shout it, whisper it, or put it up in a paper ball and let it receive a bit of information this week that I'd like to pass to you. June Howard would purchase two highbred to add to her acreage.

Wayne Rutledge is in the for a pretty good size pig. Sounds like competition in the brewing in that neighborhood.

Another interesting story of how the table jumped up, the snowball had a rock in it, and the guy just slugged him, but Bill Howard sure had the big head this week.

Appointments are in order now for a conference with Sarah Reeves at the hospital. At least for a certain party in town, who was confronted with the new closed door. Try the window James.

Mrs. A. B. Roberson said there was no need to send her a renewal reminder, as the expiration date of her paper was also her birthdate, and was always easy to remember.

Those girls must be up to something, as Judy Keller, Doris Flowers, Elta Higginbotham, and Ruth Salmon sure did get quiet when I sat down for a cup of coffee.

Mrs. J. F. Thomas of Iredell said she supposed that she was enjoying the snow, but it gets awfully cold inside the house, when the butane freezes.

Should you get to travel this week end, remember—You may outrun, outmaneuver, out distance, outbluff, and outbrag the other drivers, but more important, will you outlive them?

# SOME BIGGER... BUT NONE BETTER!

There may be bigger dots on the map than Hico, but there are no better ones. And high on the list of things which make our community one of the best are fine stores and friendly merchants.

Good stores offering quality merchandise, along with "old fashioned" service provided by friendly people who have your best interests in mind, provide a strong foundation for any community. When a town has this economic cornerstone, it can't help but be good, and its citizens have every right to be proud.

There must be more to that pride than the spirit, however, and as citizens we must work at keeping that foundation strong. We should support our merchants by trading right here at home

Hico merchants are your friends and neighbors who have everything you need for every-day good living. Their stores are convenient, prices are reasonable, and the friendly atmosphere makes shopping a pleasure. The chief interest of these businessmen is service to the citizens of this entire area. They deserve your support.

Remember . . . it's smart to do business at home where your dollars do more and go farther.

NEW FARM OUTLOOK IN WASHINGTON

An immediate attack on the vital short range operating credit problem for farmers, along with a more favorable prospect for cotton producers, are the two major developments of the new Kennedy-Johnson administration anticipated for the near future by Texas Agriculture Commissioner John C. White.

Returning from a visit to Washington which included conferences with Secretary of Agriculture Orville L. Freeman and re-negotiation of Federal-State cooperative agreements, Commissioner White found the attitude of the new agricultural team in Washington both realistic and enthusiastic.

"It was my impression," said White, "that Secretary Freeman and his assistants are demonstrating a profound sense of obligation to agriculture. They are sincere in their determination to help the family-size farmer to maintain a reasonable standard of living and to stand on his own feet."

"As a group I found them to be highly intelligent and quite young. Their average age is probably 40 or 41 years. They are coldly realistic about our farm problems—that is, they are fully aware there is no panacea which can be instituted to provide any quick or easy solutions. At the same time, they are enthusiastic in their approach

to the job." White said he was impressed by John Baker, the new farm credit administrator, and his grasp of both the short range and long range credit problem of American farmers. The commissioner pointed out that the provision of immediate operating credit is vital to farmers in some parts of Texas where unfortunate weather conditions last year created situations approaching hardship.

"I found them willing to listen to our problems," said White "and a spirit of eagerness to do something about them. I, for one, could feel quite a change in the Washington agricultural climate."

Secretary Freeman, the Texas Commissioner reported, is showing determination "to use every ounce of his strength to use the abundant acre of American agricultural production to help America and the free world. The basis of his outlook is a recognition of the need for farmers to receive a fair return from their investment and their labor, on the same level as any other type of industry or business."

COUNTY AGENT REPORTS

By E. R. LAWRENCE

J. E. Alexander, just west of Hamilton on the Pottsville farm road, is making some changes in his colony laying houses. He has been experiencing a little trouble with cannibalism and "peck-outs." This trouble some times can be caused by not having enough feeder space for birds. In one of his houses, the automatic feeders run through the center of the pens

allowing layers to feed from both sides of the feeders. In this house he has not had undue trouble.

So in the remaining houses he is changing the feeding system so that the automatic feeders will run through the middle of the pens. This will double his present feeding space. He is also adding belts to these houses. Belts run between rows of cages and eggs roll out on the belts. The belts are operated by electric motors that carry the eggs to one end of the laying house where they are picked up and carried to the egg room, washed and cased. This new system will save also on labor as in the old house feeding was done by hand with a cart. Also eggs were picked up by hand.

The weather put me to bed for three days last week so I'm about ready to say "calf rope" and have a few more sunshine days like Monday.

Yeah, I've had the mumps, had them when I was in grade school. But it seems lots of men around town haven't and are now experiencing one of the joys of life—having what we generally consider children's disease. But with adults, mumps is certainly not child's play. It is Wooty?

Experimental work indicates that lambing can be increased from an average of 87.43 per cent to 94.94 per cent by flushing ewes before breeding. The work shows that feeding three-fourth pound cake per head per ewe starting 21 days before the start of breeding and continuing for 14 days into the breeding season makes the

difference. This difference means that for the cost of flushing could be offset by weaning approximately six additional lambs per 100 ewes.

The Texas Farm and Ranch Safety Council has announced that nominations are now being accepted for three "Rural Heroism Awards." Any heroic act involving personal danger or sacrifice to aid or assist others in time of crisis is eligible for entry, provided the act was performed during 1960. Nominations should be mailed immediately to Heroism Award, Texas Safety Association, 830 Littlefield Building, Austin.

# IT HAPPENED . . .

HERE OR NEAR

By F. E. DAWSON

How do you begin a story? The usual method is to say "Once upon a time—" All right. Once upon a time I was editor for a number of years of religious papers that circulated over a large part of the state. During those years it was my duty and privilege to visit an area as large as Montana. One making visits such as I did saw a lot of religious activities and the movements of individual pastors.

On one of those numerous trips I was at the city of Aspermont in company with a missionary of an associational area that covered several counties of that part of the state. The missionary was John McCorkle. We went to see a pastor who had the largest church in the association. He had a vast opportunity to really to do a great service. When we entered his home he began to talk, taking most of the time. What did he talk about? Mostly about himself. He informed us of his abilities and his convictions and gave us a considerable amount of advice. He used a lot of words, a good percentage of them many-syllable words, evidently trying to parade his vast learning. McCorkle and I left that pastor's study with feelings of gloom.

That pastor's parishioners were ranchers and business folks of the pioneer small town. He had said definitely that he did not grieve about among his church members; that he spent his time in his study. McCorkle reluctantly expressed his gloomy opinion of the future of that pastor. "He'll fail," he said. "He has a great opportunity in this field. But he does not speak the language of his people and in turn they do not comprehend his language—those long, many-syllable words of the classroom and of books, wholly unintelligible to average folks. I sorrow as I think of the future of the dear church."

I had opportunity for many years to observe that man. McCorkle's forecast was correct. In a short time he moved on to another field, and soon to another, and finally found no new opening

and turned aside to another field of work. It was such a sad climax to a life that started fairly, with many opportunities, and for which he had sufficient preparation.

Just why did he fail? He neglected one of the principal duties, as well as opportunities of ministers. He neglected to move among his people and learn in the homes and by continual contacts with those homes and their inmates the problems and ambitions of those dear ranch people; he did not learn the language of his fellow-Christians, and they did not know his language and developed a resentment against him for his neglect of them.

During those editorial-experience days I saw like things continually. And in these many years since I have seen the same things happen again and again. Why won't the young minister learn such an essential as visitation?

On the other hand I have observed the great successes of other men who used legs and cars and other methods of transportation, and learned in the only way one can learn, by continual contacts with his people. There is a young man in another county now that started serving a church that came almost to disaster during the ministry of his predecessor who did as the Stonewall county failure did. The pastor now in that church has rejuvenated things and an unprecedented era of growth has occurred. He moves among his people and knows them and their language and their needs and succeeds.

## Wildlife Conservation Is Urged By SCS Unit Conservationist

Wildlife conservation is one of the practices that technicians of the Soil Conservation Service encourage farmers and ranchers to carry out on small areas of their land in the Hamilton-Coryell Soil Conservation District, according to Bomer Harris, Work Unit Conservationist at Hamilton.

George Chambless, a cooperater with the district, whose farm is located two and a half miles northeast of Hamilton, has carried this practice out by planting small grain, grain sorghum, millet and other crops for quail and dove food. During the winter months like we have had recently, approximately 10 per cent of the quail die from hunger. Hunters kill only about 10 per cent of the annual quail crop.

Chambless provides protection for quail and other wildlife by planting multi flora rose on fence rows. This is a small rose that grows off well and furnishes some food for birds.

Some landowners interested in the conservation of quail, dove and other wild birds are providing feed such as maize or bundle grain sorghum with heads at wildlife areas during these cold winter days.

## Proper Ranch Management Discussed by SCS Group

By BOMER HARRIS  
Work Unit Conservationist

Last week 19 farmers, ranchers and agriculture leaders of the Hamilton-Coryell Soil Conservation District, met in the REA building at Hamilton to work out the actual cost of operating a 1000-acre ranch in this area.

The group, led by Leslie Hereford, Range Conservationist, included cattle, sheep and goats on the sample ranch. After all expenses were considered at current prices and subtracted from prices received from livestock sold the group found that heavy grazing paid a net return of \$1.30 per acre, while proper range use paid \$2.70 per acre.

Hereford explained that expenses such as feed bills, poor calf, kid and lamb crops as well as smaller animals sold caused a lower return from over-grazed pastures as compared to ranges properly used.

Those in attendance to help with the analysis included Charnie Ralaborn, O. C. King, Jim Gilbreath, Ralph Lawrence, Leslie Hereford, W. M. Glover, T. S. Redford, A. O. Newton, C. A. Lawrence, J. M.

### MRS. DUNCAN IMPROVED

We are glad to report that Mrs. Elwanda Duncan of Fort Worth is recuperating from a case of non-paralytic polio. She was able to spend three days last week here with her parents. She is still under the doctor's care, and returned home Saturday morning. She wishes to thank those that sent her cards, and for those who called. She received many cards and gifts from her friends.

A collection for the March of Dimes was taken up at the ball game at Hico Friday night. After one has had the experience of a member of his family being stricken with polio, and then visits the polio ward at Peter Smith Hospi-

tal in Fort Worth, they are more mindful and eager to contribute to the March of Dimes than ever before.

The Busy Bee Sewing Club met with Mrs. Maida Christian last Thursday afternoon.

Guests in the home of Charlie Dowdy last week end were Mrs. Howard Dowdy and boys from Fort Worth and Mr. and Mrs. Truman Loden and family of Waco.

It started raining in this area around 4 p.m. Saturday and continued through the night and Sunday until about 4 p.m. when snow started to fall. Much of the snow melted by Monday morning. However a partial blanket covered the ground Monday morning and still snowing heavy.

Mrs. Reba Carter served on the jury in Stephenville last week.
