VOL. 13

BAIRD, CALLAHAN COUNTY, TEXAS, FRIDAY, OCT. 12, 1900.

NO. 45.

CROSS PLAINS.

Oct. 2.—This may be a little late, but I will report that the undersigned had the pleasure of uniting in marriage, at the residence of the bride's parents, near Cross Plains, Mr. W. E. Butler and Miss Hester A. Bond, at 8:30 Wednesday evening, Sept. 26, 1900.

The groom is a nephew of J. A. Summers, our most efficient deputy sheriff and constable of this precinct. The bride is a daughter of one of Cross Plains' successful merchants, Mr. E. F. Bond, of the firm of Bond & Sons. It was a very joyful occasion. There was a large crowd to witness the ceremony which made two persons one.

After the ceremony we all partook of a bountiful supper.

There was quite a lot of presents, and by the way, the Parson was handsomely remembered.

The happy pair started next day to see the folks at home and take in the fall. May their honeymoon never end.

E. C. ARWYN.

DENTISTRY.

Dr. Lang of Baltimore will be at the Hotel Seay, Oct. 11th to remain 3 days. The best and latest methods employed in dentistry. I bring a complete outfit. Teeth extracted with gas or vitalized air. Dr. Lang makes a specialty of crown and bridge work. Main office address 44-2.

HONOR ROLL.

The pupils entitled to honorable mention in the Baird Kindergarten and Primary School, for the month beginning Sept. 16th, ending Oct. 15th 1900, are:

1st Grade.—Claribel Bowles, Beulah Emmons, Orlena Russell, Willie Boydston, Russell Strain.

2nd Grade.—Frank Austin, Roynard Strouse, Everett Driskill, Fred Lane, Francis Rose, Wren Poy.

The "Neat Workers" for the month were:

Fred Lane, Cora Hill Boydston, Beulah Harris, Elmer Mayer, Jessie Powell.

MAUDE SIMMONS, Teacher.

CONVINCE YOURSELF.

For Twenty years we have labored among you and during these many years have always tried to please you and give you full value for your money. We never throw out any bait to catch customers

→BUT GIVE MORE GOODS FOR THE DOLLAR THAN ANY ONE ELSE.←

HERE'S Where We Excel We have but little expense on our business, and so not only can, but do, give you the benefit of it. The Least Money buys the Most Goods. Our stock is complete and our goods were bought at the lowest possible Cash Price, and all that is necessary is for you to call and give us a chance to prove to you that we say what we mean, and mean what we say. If you don't see last Class Goods at lower figures than any where else you need not buy a cent's worth. We don't make this broad assertion for nothing—but will substantiate it in every particular.

Men's Clothing

Our Men's Clothing must go. We are determined to close it out this fall and at prices that must be catching.

COME AND SEE.

Boys' Clothing

We especially call your attention to our little fellows suits they are beauties, call in and let us show them to you.

BIG BARGAINS

Boots, Shoes.

Our boots and shoes can not be excelled by any one. And the prices on same are hard to catch.

Impossible to talk about everything, come in and let us know your pleasure and we assure you it will pay you to trade with us.

Dress Goods.

Oh yes, a big assortment which you can only see in our House, for others can't get them.

H. Schwartz, Mgr.

We need your trade and shall do our best to please you. Come and see us.

CROKER ON TRUSTS.

Richard Croker has his own paramount issue for the present campaign. It is the trusts.

Invariably he puts it first in discussing the campaign. No such telling points have been made against the trusts as he has scored.

In a prepared statement furnished to the Journal by the Cosmopolitan company, of New York, Mr. Croker arraigns the trusts with characteristic vigor. He says:

"This country has become a close corporation, in which the man with his way to make in the world has no part or prospective place. The president and his cabinet is a trust. Hanna is the real president and the money getter, engaged in destroying the privileges and rights of the ballot. Corruption dictates the policy of the present administration. This power of the trusts is a present and growing menace. Twenty-five men can tie up this country with their vast wealth. Mr. Rockefeller has money enough to take all the gold in circulation. Hanna recognizes the value of these trusts for political purposes and is now levying large sums of money with the intent to utterly destroy the sacredness of the ballot. I am told that there are to be twenty-five million dollars, all obtained from trusts, poured into the doubtful states just before election day. We already have a government by the rich. If the people are to tolerate this, we might better have an empire at once!"

"Hanna's only issue is the check book."

"The young man leaving college or home to go to work, finds every avenue closed to him, unless he becomes the servant of a trust, in a hired capacity, from which there is little hope to rise. I have received more than a thousand letters from young men in all walks of life, asking what they shall do to make a living. I am fond of young men, and would go far to serve the humblest who earnestly means to make something of himself. But I cannot answer these letters with encouragement, because there is no

open door through which the young man of today, without capital, can enter commercial life with any future prospect. This fact was recently brought very near to me. Several young men came to me and said they were ready to go into business—to begin the battle of life on their own account. It was the cruellest thing I ever had to say when I told them frankly that all avenues for independent endeavor were closed, that, strive as they might, success was impossible to them without the consent of the consolidated combinations of capital. I said to them: 'You can't get into business on your own account. The small tradesman is doomed—department stores have destroyed him. You cannot become a coal merchant unless you obtain the permission of the trusts that control that product of the earth.'

"Every American, however slender his own opportunities, wants his boy well educated, but when that son has received the best his father can give him, he finds every industrial avenue shut. This situation is almost wholly found in the new voters. Each four years produces one million young men who cast their first votes for presidential electors. The young man of this hour who votes for the first time, weighs the balance of power."

"Do you realize what is in the immediate future? All the railroads, steam and electric, will soon be united into one great trust."

RICHARD CROKER.

DENTISTRY.

I will practice at Putnam Oct. 15, 16, 17th. Cottonwood Oct. 19, 20, 21, and shall be glad to serve you. Will treat you right.

Subscription Rates.

One Year \$1.00 Six Months .50 Terms Cash in advance.

Baird is to have a statue of the Goddess of Justice on the cupola of its court house. The old farmer had the right idea of this justice business.

One man who repudiated an honest debt, due this paper, amounting to \$19.50 was arrested in a few days thereafter and finally confessed.

Roosevelt says the republicans have fused with providence; and that the democrats have fused with adversity.

The Messenger is in favor of the legislature convening in extra session and relieving the people of the tax on \$10,000 and the balance of the people in the State.

The State informed the above and more, except as to a called session. The taxes for Galveston and all the coast county devastated by the storm.

PRESIDENTS AND POLITICAL PARTIES.

From Washington to McKinley this country has had twenty-four presidents; divided between the Federal, Democratic (formerly Republican), Whig and Republican. Party lines were ignored in electing Washington.

The Democrats were more fortunate. They re-elected Jefferson. Madison, Monroe, Jackson and Cleveland.

It is a common saying that no vice-president was ever elected president; this is an error, John Adams was the first vice-president to succeed his president.

IN THE STEPS OF HAMILTON.

In a recent speech in Chicago Hon. David B. Henderson, speaker of the house of representatives, said that he supported President McKinley and his re-election because Mr. McKinley is strictly following the ideas and policy of Alexander Hamilton.

The following extracts from one of Hamilton's most famous speeches, delivered June 18, 1787, before the Federal convention at Philadelphia, will fully illustrate Speaker Henderson's meaning.

After advocating a constitutional provision fixing the term of office of the president for life, Mr. Hamilton said:

"I believe the British government forms the best model the world ever produced. All communities divide themselves into the few and the many. The first are the rich and wellborn, the others the mass of the people.

"The people are turbulent and changing. They seldom judge or govern rightly. Give, therefore, the first class a distinct and permanent share in the government. This will admit but a permanent body can check the impudence of democracy.

"The voice of the people is said to be the voice of God, but this maxim is only true in a limited sense. A democratic government of the mass of the people can never be good.

"The British executive is above the parties and has no distinct interests from the public welfare. Nothing short of such an executive can be efficient."

WHERE IS GOD?

"Take the wings of the morning and fly to the uttermost parts of the earth, and you will find that God is there. Go to the apex of the highest mountain at the break of day, and watch the sun as it throws its radiant rays down the mountain side.

"The Messenger is in favor of the legislature convening in extra session and relieving the people of the tax on \$10,000 and the balance of the people in the State.

"The State informed the above and more, except as to a called session. The taxes for Galveston and all the coast county devastated by the storm.

"The Democrats were more fortunate. They re-elected Jefferson. Madison, Monroe, Jackson and Cleveland.

"It is a common saying that no vice-president was ever elected president; this is an error, John Adams was the first vice-president to succeed his president.

ADVERTISED LETTERS.

The following is a list of letters remaining in P. O. at Baird, Texas for the week ending Oct. 8, 1900. Parties calling for same please say advertised.

NOTICE TO SUBSCRIBERS.

My books show that on the first day of September, that more than four hundred dollars were due on subscription to THE STAR in the county also.

Some of these subscriptions have been running back from five to eight years, which makes it a hardship on me. The blank paper sent every subscriber has never cost me less than 35 cents per year, and owing to the advance in price of paper some money also. It now costs me in actual cash 77 cents per annum for every subscriber.

"The Messenger is in favor of the legislature convening in extra session and relieving the people of the tax on \$10,000 and the balance of the people in the State.

"The State informed the above and more, except as to a called session. The taxes for Galveston and all the coast county devastated by the storm.

SCARLET FEVER.

Scarlet fever has spread over town to such an extent that the trustees have closed the public schools, and all the Sunday Schools, except one, have been closed. Now if the people will keep the children of the streets and use the hillside in the morning with all the verdure around about, observe its symmetry and its beauty.

"The Democrats were more fortunate. They re-elected Jefferson. Madison, Monroe, Jackson and Cleveland.

TWO DEATHS.

Water, aged 20 years, youngest child of Mr. and Mrs. Lee Estes, died of scarlet fever Tuesday evening, and was buried in Baird cemetery Wednesday morning.

COTTON RECEIPTS.

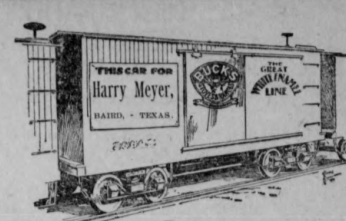

Baird has received 123 bales of cotton up to Wednesday night. The cotton has averaged about 9 1/2 cts, and as most of the bales weigh over 500 lbs., the price has averaged 80 per bale.

RECEIVED TO HARDIN & SANDIDGE GROCERS.

Baird, X Texas.

Baird and Callahan County's

DRY GOODS, CLOTHING, SHOES, ETC., AND WE CARRY MORE DRY GOODS, AND WE HAVE MORE CUSTOMERS, THAN ALL THE BALANCE OF CALLAHAN CO.

We Sell More Dry Goods, Clothing, Shoes, Etc., and We Carry More Dry Goods, and We Have more Customers, than all the balance of Callahan Co.

The reason for all this is: We carry the Largest Stock, this pleases the Trade. We Sell Goods Cheaper than any one else—this holds the Trade. Everytime we sell a Dollar's Worth We give you One Hundred Cents Worth of Goods, and have done so for the past 15 years, and you can't show a man with 3 in a family, in Callahan County, but what is my customer this year, and I defy it to be done.

BUT YET I WANT TO SELL MORE GOODS AND TO DO THIS I HAVE LOWERED THE PRICE OF EVERYTHING IN MY HOUSE.

In my Dress Goods, Department you will find over 3,000,000 yards of the best brands of Calico ranging from 24c to 50c per yard.

In Wool Dress Goods our shelves are full and nearly breaking with the finest market produces, such as Broadcloths, Coverts, Dress Flannels, Silks and Satins, and anything you may name that pertains to this department.

Millinery Goods.

In this department we will guarantee satisfaction, as Mrs. Miller has it in charge, and you all know her too well for me to say anything else in regard to this magnificent line.

In Domestic, we have bales upon bales on hand to sell you for only 3 1/2c per yard.

Clothing.

My Clothing Department is the grandest ever seen in Baird. I have a suit of clothes for every man and boy in Callahan Co., all I ask is to come and look at my Goods—if you want good goods—if you want shoddy goods go somewhere else.

No Trouble to Show Goods.

UNDERWARE

I have the best 50c Men's Underware ever seen in Baird, I also have all wool goods for 51 that others ask you \$1.50 for. Ladies' Vests worth 50c. for only 25c. Other articles in proportion.

As For The Shoe Department

We have a tremendous stock, the neatest, the nicest, the finest the market affords, Vici Kid Silk Vesting Top, or anything you may want in the shoe line. We have a Ladies' Shoe for \$2.50 that none can equal in West Texas, call for the "Sophia" brand, style durability and comfort all combined. All kinds and colors in the Children's Department. In the Men's department we have anything you may call for, our \$1.50 shoes is finer, neater and nicer than any in the West. Every pair guaranteed to be sold leather—no paper or pastboard, or your money refunded. Can you beat that?

My Boot Department is also Crowded, Come Look Through our Stock.

In Conclusion, I want your trade, I will give you more for each dollar than any other house. So come to headquarters, No trouble to Show Goods.

T. E. POWELL.

LOCAL NEWS

A. W. Booth, of Cottonwood, was in town Tuesday.

See our new line of Kellam & Moore Crystal Lenses. Powell & Powell, 45.

Phillip Yost and Henry Preston, of Tecumseh, were in town, Wednesday.

Let us fit your eyes with Kellam & Moore's specks. Powell & Powell, 45.

It is said the contractors had to send to Dallas to get carpenters to work on the Court House as all the carpenters of Baird are busy with other jobs.

We are headquarters for school books, tablets, box paper, etc. Powell & Powell, 45.

NOTICE—For 3 days Dr. Tang, dentist, of Baltimore, will be with us. Now is the time to get your teeth fixed proper. Hotel Seay, Oct. 11th, 12th and 13th. 44-2

We have a nice assortment of the Kellam & Moore Celebrated Blacksmiths. Powell & Powell, 45.

FULTON'S BARBER SHOP.

For An Easy Shave and Stylish Hair Cut, SHAMPOONING, HAIR DRESSING, etc. New open place, 2nd door north of a 36-Farley's Store. Courteous treatment and satisfaction guaranteed.

Laundry Basket—Leaves Wednesday. All Work Guaranteed.

Fulton has a laundry basket at his barber shop. See change in his ad.

The T. & P. Company is putting in some new machinery in the shops at Baird.

Ell and Willis, sons of H. Windham, entered Baird College last Monday. They are boarding at Mr. S. S. Hargy.

Tom Windham, Next Ferguson and W. B. H. Ellis, of Tecumseh, were in town the latter part of last week and shipped some calves to market.

Tom Norrell came up Monday with two bales of cotton, which he sold at good prices. Tom says he hit it square in the face on the cotton business this year.

Tom Fraser has been transferred from Big Springs to Baird by the T. & P. Co. We are glad Tom has thus been favored as he can be at home with his parents and old friends at Baird.

Tom Stoyton's team ran away on Market Street, Wednesday, with the large foal. The team ran over Jack Jones' horse, and further up the street struck Mrs. J. F. Jackson's buggy, in front of Dr. Day's office and wrecked it pretty badly. The team was stopped there without any further damage.

J. M. Harlow, of Cross Plains, has the best and largest span of Texas raised mules that we have ever seen in this county. Mr. Harlow says he was recently offered three hundred dollars for them, but refused the offer because the mules are not for sale. These mules were raised in Callahan County.

There was a light frost at Baird yesterday morning, the first we have had this year. No damage.

For nice visiting cards go THE STAR office.

BAIRD COLLEGE.

The College is progressing and its influence is widening and deepening. Those directly engaged in it will feel elated at the results so far. No College of its age can boast of more excellent results, better progress and more zeal among students. Not only commendable advancement in all the departments and a general improvement in the department of the pupils and the building of solid character, are seen every day in the school room, but a vast improvement in the social elevation of the entire school. The number increases every week. Among the recent additions of out of town pupils we will mention, Misses Katherine and Bonnie Cox, Peosa City, Misses May Norton and Missouri Strubhan, Cottonwood, Miss Beulah Cutbush, Belle Plaine, Miss Nettie Smart, Admiral, Miss Ella and Edith Alford, Vigo, Mr. Guy Sigler, Patsum, Messrs. John Eli and Willis Windham, Tecumseh, John Boatright and Owen Levelette, County, Messrs. J. H. Tate and John Garrett, Stephens County, J. E. McMurry, Colmena City, Weaver Taylor, Eagle Cove, J. B. Johnson, Moran, Mr. Earnest Graves, Misses Fanie and Mamie Graves, County. In addition to those, we have some class of young ladies and gentlemen from Baird. Nearly one hundred listed in all, as fine a body of students as you can find in any college in our part of the State.

We are proud of our students. We have no pupils who are doing very little. They have never been controlled at home, and the Faculty have very little support from their parents in their attempt to make women and men of them. Where we have the parental support of the parents, every pupil shows aptitude and untiring. The more of the College is superior, that a tough has a hard time to exercise his depravity. The Faculty and students wish to express their high appreciation of the excellent lecture of O. S. Boyser Esq. on Character, and hereby return their grateful acknowledgment for the kindness of that gentleman. The College is an honor to Baird. It has already done a work for the town in her boys and girls, that fully compensates for the small amount invested in the building. It is possible for it to do much greater work. It rests with the business men, the professional men and the good citizens. J. C.

Frank Hinds comes in pretty regularly these days with cotton from his farm in the timber.

PEIT JURY.
 Tom Mitchell, S. H. Bell, W. B. Farmer, W. T. Garney, Frank Harp, Hugh Ross, A. A. Callahan, R. P. Hale, T. N. Norderly, T. H. Hampton, J. E. Pace, C. D. Harwell, Martin Barnhill, J. C. Harve, Tom Winham, Cliff Hill, W. P. Derrington, J. H. Rhone, Richard Cordewit, W. D. Anderson, W. J. Cullbert, H. T. Garney, Geo. Anthony, H. W. Brown, D. M. Hamilton, John Hloom, Jesse White, G. M. Cadden, Ed Dadds, Wm Kennard, J. T. Baum, J. H. Williamson, Geo Russell, C. V. Martin, J. J. Gilliland, G. A. Barclay.

Cliff Westerman, J. M. Harlow and others from Cross Plains, were with cotton Monday.

New Telephone Line.

Dr. McWright, of the Northwestern Long Distance Telephone Co., spent several days in town this week. The wire was strung into Baird last Friday evening, and Saturday the line was in working order east from Powell & Powell's drug store, where the office is located. The company is building West to Abilene, and poles are up west through town.

FLOOD FUNDS.

In publishing the donations to the Galveston flood sufferers, by the people of Callahan County, the amount of \$14.75, from Cross Plains, was unintentionally left out.

Tuesday, Silas D. Taylor, of Eagle Cove, handed W. J. McGovern \$5 for the storm sufferers. This is liberal indeed, and if every one in Callahan county would show a like spirit by contributing what they can without material injury to themselves, it would make glad the hearts of those unfortunate people who have suffered in some instances a total loss of property and led destitute in the world.

SUNDAY Schools Close.

THE STAR is authorized to announce that the Baptist, Methodist, Cumberland Presbyterian, and Episcopal Sunday Schools will be discontinued for the present on account of several fever cases prevailing in the town.

Rev. C. W. Levin, pastor of the M. E. Church South requests THE STAR to say that all services at the Methodist Church will be discontinued until further notice.

Dr. S. T. Fraser requests THE STAR to announce that Sunday School at the Presbyterian church will be held next Sunday as usual.

PANTS PANTS PANTS.

I am closing them out at cost for cash. I have a few children's suits from 4 to 13 years old. All the above are bargains, come and see. 44-3.

J. H. TRIMBLE.

WOOD PAMINE.

There is practically a wood famine in Baird, and has been for two weeks or more. It is almost impossible to get farmers who have ten cent cotton to gather, to even take a man handling wood to town now. What people in town are going to do for wood to cook with until the cotton crop is gathered is more than any one can guess we will all have to buy oil or gasoline cook stoves and use coal for heating purposes.

NOTICE.

We are authorized by the manufacturer of Remick's Ecema Cure to refund the money, when it fails to cure any case of Ecema or Piles, no matter of how long standing. 50c. Powell & Powell, 45-44.

DRY GOODS.

Ladies' shoes lined vests 18c, worth 25c. Children's union suits 33c, worth 50c. Men's undershirts, worth \$1.50. Boy's suits 75c. Dress goods shoes, etc. as cheap as you want them at H. F. Foy's. 44-47.

5000 REWARD.

The Stock Raisers' Association of Coleman and adjacent counties hereby offers a reward of \$500 for information that will lead to the arrest and conviction of any person or persons who are guilty of stealing or moving away belonging to any member or members of this association. To be paid when satisfactory proof is made to the executive committee of this association. R. F. Overhill, Pres. J. B. Reynolds, Secy. 44-47

Go to R. Phillips when you want back's spectacles. Best on earth. 39

NOTICE TEACHERS.

To County Superintendents and County Judges, as extension Superintendent of Public Schools.

Dear Sirs—Your attention is called to the fact that the regular monthly examination in all counties of the State, for those desiring "teacher's certificates," will be held on Friday and Saturday, October 17 and 18, and that in addition to the questions used for the 1st, 2nd and 3rd grade studies, examination will be given for permanent primary and permanent certificates. Questions for the third grade studies, and for permanent also permanent primary studies will be given on Friday, and those for the 2nd and 1st grades will be given on Saturday.

Please call attention through your local press or otherwise, to the date and order of these examinations. Questions for those desiring to take an examination may be promptly informed, yours truly.

J. S. FURNELL, State Sup't. Pub. Instruction.

ON EVERY BOTTLE

Of Shiloh's Consumption Cure is that all persons desiring to take a bottle faithfully, then if you can say you are not benefited, return the bottle to your Druggist and he will refund the price paid. Price 25 cts., 50 cts. and \$1.00. H. Phillips. May 3

AS THE WORLD MOVES

Mark Twain is home again. He has made his home abroad but has been at times reported as slowly arising to death and at other times as hopping suddenly with ducks, stars and emperors. In 1897 and 1898 Mr. Twain was in Vienna at the Exposition American had been held. On one of these occasions he addressed his audience in the German language. The great humorist is now 65, but has not...

SAYINGS and DOINGS

From Society to Factory.

Once queen of one of the finest houses in the Indiana gas belt, Mrs. George Mason is now working as a factory hand in the Anchor Plating Works at Marion to support herself and her two little daughters. Her husband has abandoned her. She has been compelled to send her children to her mother at Moscow, Oa. Still she hopes that she will get trace of her husband when she sees the lawyer, Madison, and the little daughter, Mrs. Mason, who is manufacturing cigarettes. He was one of the big promoters of the gas belt, inducing capitalists to invest hundreds of thousands of dollars. He made a fortune in this way. He was head of a street railway company in Toronto, Canada. Citizens of Marion wanted him to call his oldest daughter.

Dr. Birge.

Dr. Edward Asahel Birge, who will fill the office of Dr. Charles Kendall Adams as president of the University of Wisconsin while Dr. Adams is recovering from his illness, has been elected to the faculty for twenty-five years. He began his labor in 1872 as instructor in natural history and one year later he was made professor of zoology. In 1881 he was elected dean of the college of letters and science. Dr. Birge is not only a scientist of eminent reputation, but is also an expert and a capable naturalist in his line. After his graduation in 1872 from Williams College he spent two years in Harvard and received from that university his degree of doctor of philosophy. Later he went to the University of Chicago, to the University of Leipzig. In 1887 he was made honorary doctor of science by the University of Virginia, Va. He is forty-nine years old.

MRS. GEO. J. MASON.

Marion for the town. His wife lived in luxury in Marion. She is the poor party. Once the center of society, she is now deserted.

M. Rostand is reported to be at work upon a new play for Bernhardt, the actress for whom he is preparing the early Christmas play. M. Rostand gives them an opportunity of demonstrating the value of the instruction they receive in the University of Paris. His wife is also reported to be at work upon a new play for Bernhardt, the actress for whom he is preparing the early Christmas play. M. Rostand gives them an opportunity of demonstrating the value of the instruction they receive in the University of Paris. Rostand gives them an opportunity of demonstrating the value of the instruction they receive in the University of Paris.

San Francisco's G-orth.

San Francisco does not seem to be discouraged by its loss of relative rank among the cities of the world. The census of 1910 showed it to be the eighth city, with a population of 238,297, while that of 1890 showed it to be the seventh, with a population of 242,162. Its population has been largely made up of Chinese and Japanese. The census of 1910 showed it to be the eighth city, with a population of 238,297, while that of 1890 showed it to be the seventh, with a population of 242,162. Carried Mail Many Years.

For several years past Mrs. Harriet L. Upton, of Fairport, Louisiana, has been carrying the mails for her constituents along the pike, and when homeward bound Mrs. Upton's mail cart on every night was jammed full of packages and the driver looked like a female comstock of Santa Claus. She had her city swart, and supplied with an abundance of fresh air frequently as possible.

How a Herb is Made.

Dr. F. E. Emery, of the North Carolina Agricultural college, tells how a herb of olden days was built. The work is based on record kept in the past.

When this record began in 1893, the experiment was conducted on a registered Jersey cow, which was registered and one grade. The cow was changed to the Agricultural and was striped and the unregistered cow had been making about three months.

How much milk pressure was an injury which resulted in permanent lameness. This reference is also made by the author of the record of making the record. It is simple and easy. The wonder is any farmer still keeps a record of his cows for her by the year without knowing whether it pays, when by simply keeping a record he would be sure, and when several cows are kept it would point out the profitable cow.

FARM AND GARDEN.

MATTERS OF INTEREST TO AGRICULTURISTS.

Some Up-to-date Hints About Cultivation of the Soil and Yields Thereof—Fertilizers, Viticulture and Poultry.

Points for Winter and Spring Plowing.

Late in August or early in September select a cool, moist, partially-shaded place where to sow the seed, and dig it deeply, and make it as fine as possible. Sow the seed thinly in drills, one-half inch deep and to the eight inches apart, cover lightly, but firm the soil after covering the seed. If the soil is dry it should be well watered after the seed is covered, and then place a light covering of hay or straw over the bed until the young plants are well started; this mulching is not necessary if the season is moist at the time of sowing, being used only to keep the soil from baking and comparatively cool and moist during a period of hot, dry weather. When the young plants are well started, the soil should be turned shallowly, and the plants should be removed and worked up the soil into a fine, loose condition between the rows.

When the young plants are well started, the soil should be turned shallowly, and the plants should be removed and worked up the soil into a fine, loose condition between the rows. This means that the young plants will be ready for transplanting to the beds in which they are to grow. If these beds are located on the south side of a wall or tight fence they will live through the winter without the necessity of mulching, but should have the protection of a mulch on straw or leaves spread two or three inches thick over the bed. This not only prevents the soil from freezing so solidly, but also keeps the soil from being blown away by the wind. If the plants are located on the north side of a wall or tight fence they will live through the winter without the necessity of mulching, but should have the protection of a mulch on straw or leaves spread two or three inches thick over the bed. This not only prevents the soil from freezing so solidly, but also keeps the soil from being blown away by the wind.

long enough to publish their record of yield and milk. They are now yielding about 4,000 pounds of milk during that year, 1911.

In 1911, 2,200 for a grade and 4,000 for a pure but unregistered Jersey were the highest yields and neither of these cows was in the list above. The highest yield was made by a cow which was in the list above in 1911. Late in this year a heifer began to yield milk which has developed into the deepest milk of the herd.

In 1913 there were eight cows yielding milk, and only two cows were in the list above which had yielded more than that in list in previous years. One of the list and she barely in it. Of the other seven one yielded nearly two and a half above 4,000 pounds, one 5,212 pounds and another No. 5, the record highest yielding cow, 6, 6, 6, 6, 6, 6, 6.

In this year's record nine cows out of eleven yielded above 3,200 pounds and one of these other two was a heifer which was in milk only two months, but yielded 1,146 pounds of milk during that time. Five records were made to 4,000 pounds, one 4,506, one 5,186 and one as high as 6,173. The ten cows yielded average 246.7 pounds.

In 1913 the average Spot and cow No. 8 was the only one of fourteen on record to approximate 4,000 pounds of milk. The third highest was cow No. 6, with 3,922 pounds of milk. These three at \$15 per cent butter fat yielded 228.8, 219.6 and 203.4 pounds of butterfat. In these three animals at their highest point, the yields were 237, 233.6 and 218.1 pounds, while the Jersey, Dura, Michigan record cow yielded 224 pounds of milk, with credit with 233 or 234 pounds of butter.

It would appear from this that this herd could place an easy standard at 4,000 pounds of milk and 200 pounds of butter per cow in every year. If the herd is allowed the proper length of lactation in every year then each cow to reach the standard should have a minimum yield of milk and one pound of butter daily for this time, 300 days. The yield for this time, 300 days, is 2,500 pounds of milk and one pound of butter daily. If the herd is allowed the proper length of lactation in every year then each cow to reach the standard should have a minimum yield of milk and one pound of butter daily for this time, 300 days.

It would appear from this that this herd could place an easy standard at 4,000 pounds of milk and 200 pounds of butter per cow in every year. If the herd is allowed the proper length of lactation in every year then each cow to reach the standard should have a minimum yield of milk and one pound of butter daily for this time, 300 days. The yield for this time, 300 days, is 2,500 pounds of milk and one pound of butter daily. If the herd is allowed the proper length of lactation in every year then each cow to reach the standard should have a minimum yield of milk and one pound of butter daily for this time, 300 days.

Go to R. Phillips for your clocks, watches, etc. 42-4f

No more want subscriptions taken for THE STAR. CASH or no go.

A full line of Haves crystallized line spectacles. R. Phillips. 39-4f

CITATION BY PUBLICATION.

761.

THE STATE OF TEXAS,
COUNTY OF CALLAHAN,)
Whereas, The State of Texas through its County Attorney, did on the 10th day of Sept. A. D. 1900, file in the District Court of Callahan County in the State of Texas, its petition in suit No. 751 on the Civil Docket of said Court, being said petition, and said State of Texas, against Unknown Parties as defendants and as nature of the petition being and the stated in the said petition being and in order to recover of the defendants as the owners of the lands returned de quaerunt for the taxes due thereon for the years 1895 to 1899; and whereas, the name of said owners are unknown and upon the affidavit of W. Woods having been made, setting forth that the owners are unknown to the State of Texas as the Attorney for the State of Texas, and after inquiry not ascertained.

These are, therefore, all interested parties and to make parties defendant by notice in the name of the State of Texas, and County of Callahan directed to all persons owning or in any way interested in the land delinquent to the State and county for taxes, to be published in a newspaper in said county, one time a week for three consecutive weeks, in the manner and style following:

THE STATE OF TEXAS AND COUNTY OF CALLAHAN)
To all persons owning or having or claiming any interest in the following described lands delinquent to the State of Texas and County of Callahan, for taxes to wit: Known as Blocks Numbers Three, Four, Twenty-two, Sixty-four, Twenty-three, Twenty-four, Twenty-five, Twenty-six, Forty-one and Sixty-two, being known and described on the official plat of the town of Belle Plaine, a copy of which is on hand in the County Clerk's office of said Callahan County Texas, which said land is delinquent for taxes for the following amount: \$23.76 for State taxes and \$17.71 for County taxes, and you are hereby notified that you are being brought for the collection of said taxes, and you are commanded to appear and defend such suits in the District Court of the County of Callahan county, and State of Texas, being the next regular term thereof to be held on the 12th Monday after the 1st Monday in August 1900, and to be held on the 19th day of October 1900 and show cause why judgment shall not be rendered against you and foreclosure thereof for said taxes and cost of clerk.

Witness my hand and seal of Callahan County, State of Texas, this 18th day of September 1900.

W. E. BELL, County Clerk of Callahan County, Texas.

SCARLET FEVER THEN AND NOW.
A PREVENTIVE.

Mr. ENTERTAINER.—In your issue of October 22, 1897, published by request of the City Council, I find the following language in the report of the city health officer to the council, to-wit: "I have carefully examined several cases now under treatment in the city with the following result: I have found no case that will warrant me in saying it is scarlet fever, but 'diphtheria' etc."

Commenting editorially on this report you mention another practitioner who agrees with the health officer that the cases were not scarlet fever, and also mentions my name as earnestly insisting that it was. The cases were so typical, so clear cut and well defined that I felt it impossible that I could be mistaken in the matter.

From then until now our town has never been clear of it, but strange to say now that it is epidemic again it is only a "mild form" of scarlet fever, a word or two in regard to this so-called "mild form." The authorities recognize only three grades of scarlet fever, viz: "Scarlatin" "Scarlatina" "Scarlatina maligna," the first may so slight that the child will not go to bed with it and the parents may never know the child was sick. Another child may take it in its most malignant form from one of these mild cases and die forty-eight hours without developing any eruption whatever. So also will serious kidney troubles or ear troubles follow the mild type that result on the one hand, and death on the other in partial or total deafness. I merely mention this so that the parent may not be lulled into a feeling of security by the "mild form" theory. It would be well to remember that scarlatina in any form is a very dangerous disease, and the favorable course it has been running is not due to any particular mild form of fever but to the delightfully mild and equable climate that has favored us both in this epidemic so far, as well as 1897.

It is not my intention Mr. Editor to give in this article my treatment for scarlatina, as this matter can best be attended to by the physician in charge, but to offer the public through the columns of the STAR a preventive that comes so well endorsed, so cheap, and so easily administered, that I would be glad to know that every youth in town was taking it. I will copy the article as it appears in The Monthly Cyclopedia of Practical Medicine for 1900. "Dr. E. W. Walker is searching for a more effective more practical than isolation and other things usually recommended, finds in 'Sajpas Annals' for 1861, the report of 66 children belonging to families in which there was scarlet fever and to whom was administered a daily dose of salicylic acid, 1 to 4 grains according to ages. Only three of the 66 children developed the disease. He concluded that salicylic acid absolutely prevents the development of scarlatina if administered in sufficient doses, and early enough after the exposure. He says when given late, and in small doses, it remedies the disease more fully. Acting on De Rosa's suggestion, salicylic acid has been personally administered to 120 children, past two and a half years to 41 children in homes where there was scarlatina. Only six of the children developed the disease. The ages of the 41 varied from three months to fifteen years. All except one were one year old or older. The dose was one to three grains four times daily, with sachets. No attempt was made at isolation. The remedy was continued from three to five weeks, in four homes containing 12 children the dose was administered for three weeks. Of these a babe of fourteen months developed the disease very mildly on the eighth day.

It need not seem that this cheap and effective remedy at hand it would be useless to close the public schools besides now much better off will be after the month is up scarlatina is scattered broadcast over the entire town and your child is as apt to take it in any church or store in town as in the school building; so why stop the schools now that the results are useless to close the public property, and a month's vacation now will be equal to beginning anew again? I would most respectfully invite the earnest consideration of the board of trustees to the above.

Very truly yours,
S. T. FRANKS, M. D.,
Baird, Texas.

FOR SALE AT A BARGAIN.

Residence of F. McQueen, near College. Five room house, good closets, storm house, barn, fine orchard, 3 lots 50x150. Quick deal desired. Liberal terms. Insured.
