HERE IN HICO

By E. V. M.

Sabin II is coming! That is, Sabin Oral Polio Vaccine Type II will be administered here on Sunday, May 19. Tri-County Medical Society, meeting Tuesday night, endorsed the program in cooperation with Dallas and Cleburne, and the vaccine will be administered here and at Stephenville and Dublin on that date.

Readers will recall that more than 3100 people in this area took the Type I vaccine last September, and were all set to take the Type II when an untimely "scare" stopped the program. Dr. E. C. Dayton, who presented the plan to Hico Civic Club this week said that, in his estimation, the Type II vaccine was perfectly harmless. Adverse publicity concerning Type III vaccine last fall curtailed the program in many areas, but still at the same time, many more communities have proceeded at a successful pace in administering all three types since the scare. The program will be sponsored by Hico Civic Club, in cooperation with Tri-County Medical Society. More information will be forthcoming at a later date.

Another project that should receive the enthusiastic support of every organization — and individual — in Hico is the proposal of Hamilton County Historical Society to erect a medallion near the site of Old Hico commemorating that pioneer settlement on the Hico River.

The county society, organized several months ago in cooperation with the State Historical Society, is attempting to locate all historical sites in the county so that appropriate markers may be erected near the scene.

Miss Nettie Rodgers, a member of the county committee, met with the Civic Club this week seeking the club's endorsement of the project. Club President Dr. B. C. Dayton appointed a committee composed of Buddy Randsall, M. I. Knudson and E. V. Meador to investigate the program and make recommendations to the club.

Hico Review Club has agreed to sponsor the program, and it is hoped that the Civic Club will do the same. However, such a project based on community pride requires anything else, with every-thing having a part.

Proposed is a monument, or picture of small nature bearing the state society's medallion, and plaque giving the history of the site in brief.

Old Hico was established in the 1850's and moved to its present site around 1880. The county committee has recommended four sites for state recognition, the Hico site included. More information will be given at a later date, but right now we foresee no major problems in erecting such a memorial. Hico is an interesting past, and this should be preserved for future generations. In the meantime, if you have extra fifty cents or dollar, and want to have a part in erecting a memorial to the origination of our town, chances are you can find someone who will relieve you of the cash. Sincerely, it should be a community project, and for each of us to feel that we have had a part in the memorial we should contribute a little of our time and money.

\$4.00 Added to Truck Fund
Total of \$34.00 was received last week for the rural fire truck making the grand total to \$3,497.43. Contributions are still being accepted by committee members, and First National Bank. Contributors this week were: W. Cunningham \$10.00, Bill Parker (second donation) \$2.00, Hico H.D. Club, \$5.00, T. Alexander \$2.00, Ed J. C. Barrow, \$5.00, Ruth Lawrence, \$10.00.

QUALIFIES FOR STATE—Members of Hico FFA Chapter land judging team recently won third place in Area IV contests held at Tarleton State College, and qualified for the

state contests to be held later this month at A & M College. Members of the team are (r to l) Harold Walker, local advisor, Edmund Horton, Drewford Barnett, Lynn Malone and

Mike Thornton. All are members of the freshman class. Barnett was high individual at the area meet, and won a semester scholarship to Tarleton State.

Newshounds Fall, Shoppers Back In Undisputed Keg Lead

Salmon's Shoppers pulled away from News Review Newshounds last week in their battle for top spot in Hico's Mixed Bowling League. The Shoppers pinned an 8-0 loss on Wilson Cleaners, while the Newshounds were dropping a 6-2 verdict to Jameson's Gassers. The win-loss combination gave the Shoppers a 6-point lead over the 'Hounds.

In other action, Judy's Beauties started their climb toward the top by winning 8 points from F-W Ranch; Parks' Orphans won 7-1 from First National Tellers; and Cheek Kingpins defeated Hico Motor Darts 6-2.

Most pins over average awards for the week go to Steve Parks, 88 pins over, and Lorene Randsall, 68 over. The award last week should have gone to Mary Scott instead of June Parks, as was credited.

Steve Parks led all bowlers for the week with a big 562 series. He was followed by Jim Bullard, 508; Pete Keller 504, Jimmie Ramage 492, and Buddy Randsall 491.

For the ladies, Monette Dove continued her streak, laying down a 548 series. She was followed by Lorene Randsall with a 437, Judy Keller 437, Sarah Reeves 428, and Bettye Walker and Joan Keller 408.

Top five averages through last week were: Odis Petsick 168, Morse Ross and Von Scott 166, Watt Ross 161, and Buddy Randsall 160.

Monette Dove raised her average to an even 160 to lead the ladies. Joyce Putty is next with a 147, Mary Scott 143, Ruth Salmon, Shirley Ross and Sarah Reeves, 137.

City Tourney Winners. Winners in the Hico City Tourney, staged the past two weekends were: June Roberson, ladies' singles champion, and Monette Dove and Ruth Salmon, doubles champions. Watt Ross copped the men's single championship, and Steve Parks and Odis Petsick repeated.

Thank you for taking off time to show us around. I enjoyed everything, but most of all I liked the printing press. I liked it best, because I thought whoever invented it must have been knowing what he was doing. Another thing is the way it folded and cut the newspapers.—Lucy Stearman.

Monday, April 15 through Friday, April 26, has been proclaimed as annual clean-up time in Hico by Mayor D. E. Bulloch.

Trash placed in containers and set at the curb will be hauled off free of charge by the city, on two separate days during the campaign.

Haul-off days are Thursday, April 25, and Friday, April 26.

The mayor has called upon every citizen to render all the aid and cooperation possible, pledging the support of city officials in maintaining Hico's record for sightliness and healthful conditions.

Mayor Bulloch pointed out that there is always an accumulation of trash about the premises of residences, and that constant effort is required to maintain sanitary conditions and control the mosquito problem here.

City officials are urging everyone to cut weeds in ditches, gather up old tin cans, empty trash barrels, and do anything else that will help the appearance of premises during this special period of cleaning.

Officials are especially stressing the need to gather up all old tin cans, and any type container which might catch and hold stagnant water. Weeds and other vegetation around premises are growing rapidly and should be cleaned away.

The mayor emphasized the necessity of placing all trash in movable containers to speed the clean up program. All containers should be placed as near a curb as possible to be more accessible to the haulers.

Trash barrels, garbage cans, and other metal containers should have holes punched in the bottom to allow excess water to drain.

We have had high wind the past several days, also mostly cloudy weather, and were in hopes it might blow up a much needed rain. It seems all signs have failed. The one-inch rain received week before last did not last long. The ground was so dry it only helped a week or so. It is now thought a grain crop may be a complete failure.

Mr. and Mrs. Frank Hanes and

Mike spent last Friday night in the home of their daughter and sister, Mr. and Mrs. Bobby Drew and Cynthia.

The annual cemetery working was held last Friday. Some 20-odd workers attended and a number of lots were worked. Most of the workers returned home at noon. Those bringing lunch were Mrs. Martha Burnett, Mrs. O. E. Whitson, Mrs. Sallie Ogle and Mrs. Thoma Ogle of Hico, and this scribe. We used our cemetery lunch table atop the tool chest for the first time, as in the past few years we had used the school lunch room, but since there was no school on Friday we used the cemetery box and made it fine. Visitors who remained with us for lunch were Mr. and Mrs. Clyde Pittman of Pettus and Mr. and Mrs. Bert Wright and daughter, Mattie of Mart.

Since there were not enough present for an election no new officers were elected. This will be discussed and probably a later meeting arranged. The following donations were made Friday for care of lots: C. C. Parks \$5; Louis Abel \$5; Charlie Proffitt \$5; Bert Wright \$5; Eunice Daniel \$5; Mr. and Mrs. D. E. Allison, Stephenville \$5; Hardy Parker \$5; Mrs. O. E. Whitson \$5; S. N. Akin \$5; H. S. Pitts \$2; Mitchell Crawford, Hico \$10; Mr. and Mrs. Frank Tyler \$5.

We also received the following donations on the gate fund: Bert Wright \$2; Cone Patterson \$2; Mrs. Sallie Ogle \$1; Mrs. Thoma Ogle \$1; Mrs. O. E. Whitson \$1; Mrs. Martha Burnett \$1; Mrs. D. E. Allison \$7; Mildred Miller \$1; Eunice Daniel \$1; Mr. and Mrs. Frank Tyler \$1; C. C. Parks \$1; R. W. Hutton \$1. We still have

an extra dollar to run down as we did not have our cemetery ledger with us on the first trip down there and had no way of writing down the donors, but believe we now have all figured out except for \$1, and if you have failed to get credit, will you please let us know. Thanks so much to all for your help in any way, to the ladies of Hico who brought lunch and to the workers.

We secured the services of J. C. Canada and Jerry Richardson Saturday and worked most of the day cleaning up the grounds after the working and worked off 28 lots. We only like six or eight lots now having all clean.

Visitors at the cemetery Saturday were Adrain Burden of Dallas and a nephew and two nieces who were enroute to Cranfills Gaps for the wedding of Adrain's niece, Miss Joan Sorenson whose mother is the former Evelyn Burden of Fairy. Other visitors at the cemetery were Mrs. Lucille Battershell of Hico.

Mr. and Mrs. Roy Davis of Hamilton were at the cemetery cleaning up the lots of relatives. Also we learned that Mr. and Mrs. Fritz Campbell of California visited at the cemetery Friday afternoon, and members of the Whitaker family were there during the weekend.

Mr. and Mrs. Frank Tyler were also visitors Friday afternoon.

Mr. and Mrs. Weldon Parks of Fort Worth visited during the weekend with their parents, Mr. and Mrs. T. R. Parks and Mr. and Mrs. Robert Streater.

Mr. and Mrs. Hollis Pearcy had all of their children home for the Easter holidays except one son and family of Carlsbad, New Mex. who were entertaining a new baby at their home. Sorry we were unable to get the Pearcys by phone and give the names of those visiting.

Mr. and Mrs. O. J. Clark spent the Easter weekend in Amarillo visiting their daughter and family, Mr. and Mrs. Dean Barnett and Royce.

CURRENT WASHINGTON

by Rez Cleveland

CAPITALISM vs SOCIALISM

The real struggle in the world today is between capitalism and socialism. The entire free world, and especially the United States, has allowed the Communists to put them on the defensive. We have lost the initiative. Even in areas such as Cuba, where we seemed to take the strong position and dictate the terms, we have allowed our advantage to be dissipated through our fears of arousing the ire of the Communists. We are afraid to say what we are fighting for and afraid to really fight for the things that we say we want.

Capitalism has been made a dirty word. We cannot win the struggle for survival and freedom until the Congress, the administration, and especially the people, have the courage to stand up and shout our belief in capitalism—and do something about it. The choice must be between capitalism and socialism. Only under capitalism can man be really free. Under socialism he can be only a slave.

The time has come for us to stop apologizing for a system which has given mankind its greatest opportunity and freedom in the history of the world. We know, and it is time to say it out loud, that profits are good, not evil. They are the root of all true prosperity and opportunity for the individual. We see the failure to say what we are fighting for in the stalling tactics of the present session of Congress. Practically all of the New Frontier sponsored legislation moves us farther along the road to socialism. Congress is stalling on the effort to save our free enterprise system—capitalism. The only way to save it is to face the issue squarely and openly. We have got to be willing to admit that socialistic legislation is socialistic and completely contrary to the ideals that made us strong and prosperous.

The first step should be to return to fiscal responsibility. This means cutting Federal spending and balancing the budget. The Constitution of the United States specifically limits the Federal government to those functions necessary to preserve to us our God-given and unalienable rights—this and no more. Congress must say NO to new welfare programs and increased government spending. The budget can be cut. Many suggestions have been offered in response to the President's request for concrete ideas as opposed to non-constructive criticism. Cuts ranging up to \$13 billion or \$14 billion have been proposed. Reduction of the total budget in these amounts would be the first step on the way back to a sound and healthy economy, protection of the value of our dollar, renewed confidence in our system, and would supply a spur to individual and private initiative and investment. These are the weapons with which to win the war for capitalism and freedom.

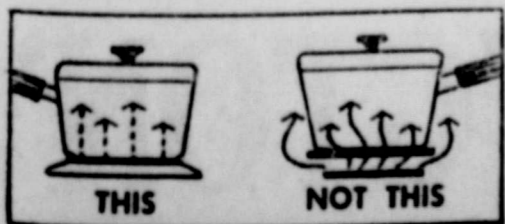

Socialism depends on and presupposes material achievements which socialism itself can never create. Socialism is state ownership and/or control of the means of production. Socialism takes and redistributes wealth, but it is utterly barren when it comes to producing wealth. The state that controls production is going to control the distribution of what is produced; and the state that distributes the product must, eventually, control its production. Insofar as the policies of the New Deal, the Fair Deal, the New Republicanism (liberal), and the New Frontier socialize or plan production and distribution, to that extent they, too, exemplify socialism.

Make Meringue the Better Way

Make a better meringue by following these tips:

Let egg whites warm up to room temperature before beating. Use an electric beater if possible. Beat meringue two minutes with sugar at high speed.

Add sugar—two tablespoons per egg white—when whites have been beaten to the "foamy" stage. This helps prevent overbeating and makes meringue creamy and smooth, with less leaking.

Add one teaspoon of water per egg white to improve the volume and tenderness of the meringue. Using one-eighth teaspoon of cream of tartar per egg white the meringue stand up better.

Spread meringue on hot filling rather than cold to avoid leakage.

How to Fertilize Shade Trees

When you fertilize your lawn this spring, don't forget your shade trees. They need special attention.

The U.S. Department of Agriculture plant specialists recommend at least three-fourths to one pound of commercial fertilizer like 18-20-0 for each inch of trunk diameter, in mid-summer.

The fertilizer can be put into holes in the ground around the branches of the tree. Use a crowbar to punch holes about 2 feet apart over the entire area beneath the branches. Vary these holes from 8 inches deep in heavy soil to 20 inches in light or sandy soil.

Although you should try to cover all of the area above the root network, don't punch holes too near the trunk. If you do, you might injure some of the large roots.

A good rule of thumb by which to judge this danger zone is to limit fertilizer for a distance twice the diameter of the trunk. For example, if the trunk of the tree is 4 inches across, don't apply any fertilizer within 12 inches of the trunk.

When all of the holes are punched, pour in the fertilizer, dividing it equally among the holes. If the ground is dry, you may want to run water into the holes. This will spread some of the fertilizer into the soil and more quickly put it into use.

Be looking forward to our Laundry Workshop on April 24, 9-30 until 11. Isabelle Herndon with Community Public Service will be helping with it and I'm sure it will be well worth your time.

MISS SHEILA PARTAIN BECOMES BRIDE OF JAMES FULLER IN DALLAS CEREMONY

Miss Sheila Flo Partain, daughter of Mr. and Mrs. J. D. Partain of Hico, became the bride of James Wesley Fuller of Dallas, son of Mr. and Mrs. Carl Fuller of El Paso, in a candlelight ceremony Saturday evening, April 13 at the Beverly Hills Baptist Church in Dallas.

Rev. Howard Conaster, pastor of the church, performed the ceremony at 8 p.m.

The chancel rail was banked with a hedge of greenery. The pulpit was flanked by candelabra holding white cathedral tapers and centered by a large basket of white mums.

Mr. R. L. Reavis, organist, presented a medley of nuptial selections preceding the ceremony and accompanied Miss Judy Griffiths as she sang "The Lords Prayer" and "Because."

Escorted to the altar and given in marriage by her father, the bride was attired in a street-length white satin dress with fitted bodice, high round neckline, long sleeves and a bell-shaped skirt. Her shoulder-length veil was caught to a pearl tiara. She carried her sister's white Bible, crested with white orchids and white satin streamers.

Her only jewelry was a string of pearls belonging to her aunt. She served tradition and wore something old, something new, something borrowed, and something blue.

Mrs. Ray Battershell of Arlington attended her sister as matron of honor. Bridesmaids were Mrs. Marion Koonsman of Hico and Mrs. Camille Clancy of Irving.

The attendants wore aqua blue frocks styled with sweetheart necklines and short sleeves, with matching net and satin headpieces. They carried bouquets of white gladioli.

For her daughter's wedding, Mrs. Partain chose a dress of aqua accented by beige accessories. Mrs. Fuller, the bridegroom's mother, wore a navy dress complimented by white accessories. Both wore bouquets of white orchids.

Reception Follows Ceremony Immediately following the ceremony a reception was held in Fellowship Hall.

The bride's table was covered with white net over aqua taffeta and centered with candles and white spider mums with greenery. Members of the house party were Mrs. Jimmie Cummins and Miss Louise Fuller, who presided at the serving table, and Mrs. R. M. Gus residing at the bride's book. Other members included the bride and groom's parents, Mr. and Mrs. Partain and Mr. and Mrs. Fuller.

When the couple left for a short wedding trip, Mrs. Fuller wore a moss-green two-piece suit accented with beige accessories. She wore a white orchid corsage from the bride's bouquet.

The bride is a graduate of Hico High School and attended Arlington State College. She is presently employed by the Etna Insurance Co. The bridegroom is a graduate of Jefferson High School and attended Stephen F. Austin College.

WASHINGTON—

As It Looks From Here

By OWEN MURKIN, N.C.
The District, Texas

Washington, D.C.—What's right for America? It seems nowadays this is a question seldom asked and seldom answered.

Most of what we hear is what's wrong with America, and even in this instance there are about as few definite answers as in the first.

It is usually more difficult to deal with the positive than the negative simply because there is nothing particularly sensational about it. Probably it is not considered sensational because we, as Americans, take for granted the good things about us. A good evening 8th of July speech, which used to be heard at picnics, would probably do us all a lot of good.

If we asked what we are against most of us could compile a pretty lengthy list.

If asked what we are for, perhaps our answer would be "we are for the opposite of all things we are against." To be an "opponent" without offering alternatives, does

not take a lot of effort or a lot of thought. To be for something usually takes some energy and some thinking.

Of course, there are a lot of us against many Governmental provisions now in effect and against some new proposals and the enlargement of certain Governmental activities. Issues by issue, we can be for or against. What is being talked about here is a generalization which touches few specifics, but rather a kind of condemnation of everything.

Many letters are received from good people who apparently feel that all we have to do is "wake up." By this, they mean that Americans should be awakened to "what is wrong" and somehow America will be safe from all the wrongs. As a result, there are seemingly a lot of people rushing about, sounding the alarm, but headed in all directions.

Some sound the alarm clear and loud about vague dangers, but without a goal or an end in sight. A positive approach does not prevent the sounding of the alarm, but it can give direction which is usually lacking in the wholly negative approach.

An editorial comment recently suggested that the type of approach being taken by some groups and individuals in this negative way was like the TV commercial which tells us that our lives are in danger because of "tired blood," and then offers no remedy for it.

If we ask the TV announcer how to cure tired blood, and he said, "Go convince others of the danger," would we be very much impressed?

We would be naive, yes, even not recognize that there are things stupid and uninformed if we did wrong in our America today. Of course there are. But to burn down the barn to get rid of the rat is hardly the best remedy.

We all have our right to oppose the issues at whatever level of government they may be found. We have this right in our lodge, our club, our church—to exercise the American Way. In exercising it, we also have a sort of self-imposed responsibility which is peculiar to the burden of freedom. In logic, it would seem that if we look only for the sensational daily recitation of the world's evils, our intellectual diet will become unbalanced. With our intellectual diet unbalanced, we may not avoid becoming a nation of neurotics, cynics and utterly

By BOB RHUDY

I think one of the most impor- tant items facing our modern world today is the fact that our fresh water supply is deminishing. Not only is our population on a steady increase, but our modern industry is demanding more wa- ter.

Water is not only a necessity for our life but also furnishes lots of recreation. Maybe the reason we are seeing ourselves in this crisis today is because we have used our water unwisely or have been wasteful with it as we have many other resources. Have you ever thought of the many things that we had a few years back that we do not have now? Most of this is due to the fact that we were wasteful or not conservation-mind- ed while using these resources.

With our chemicals or pest control we are again faced with the problem of waste not only to the water but also the life it con- tains. How many of you farmers have poisoned a crop without first checking to see if you might cause a fish kill or even a wildlife kill? And I know many of you ranch- ers have sprayed cattle one day and have gone by one of your best fishing ponds the next day and found fish dead around the shore. I have heard older folks make this statement: "back when I was a boy this creek was full of fish but now there are no fish in it." In lots of cases the reason for this is because some fellow has either sprayed his crop or cattle and these toxic chemicals have gotten into this stream and killed out the fish.

I realize we have to have these chemicals but let's use our heads in the use of them. Take into con- sideration all things that may be affected, such as water, fish, wild- life, and even humans and domes- tic animals.

It is the job of every citizen of this state to help conserve its na- tural resources. Because unless you are concerned our hands are tied.

I am glad you let us come to
visit your news place. Thanks for
answering all that we asked. I
liked the linotype. The printing
press was most interesting of them
all. We all enjoyed it.—John Go-

Thank you for showing us
around. Thank you for answering
our questions. I enjoyed every-
thing but I liked these better. I
liked the printing press and the
job machine and the linotype. Ev-
erything was interesting. I liked
the frame with the letters in.
The ink looked kind of fancy and
messy. I don't think anybody

could see that ink as thick as it

Thank you for showing us

I loved everything. I liked the

type machine best of all. I'm glad

you let us come. I am sorry if we

you taught us a lot of things. You
know a lot of things about news-

you for the newspaper you gave us.
You are nice.—Randy Joe

Thank you for showing us

But I liked the linotype and the

ner.

Thank you for letting us see

you make the newspaper. Well, I
better close now.—Delbert Jow-
ner.

Thank you for taking off your

didn't like. But the things I
liked best was the linotype ma-
chine and printing press.—Susan
Knudson.

We enjoyed the things you
showed us and I like the machines
you showed me. I like your helpers
so much. I had a good time watch-

ing you printing the newspaper.

And one more thing I enjoyed

Thank you for letting us see

Thanks for taking time to show

I liked the linotype machine.

Wheat Referendum Set May 21 By County ASC Committee

The Secretary of Agriculture
has announced that the referen-
dum on the 1964 wheat crop will
be held on May 21.

Polling places will be announ-
ced within the near future. Polls
will be open from 7 a.m. to 7 p.m.

On April 4, County and Com-
munity Committees met with the
Wheat Referendum Committee
and discussed all provisions of the
forthcoming referendum. This
committee was of the opinion every
effort possible will be made to
get the facts to all wheat produc-
ers. It was stressed that all wheat
producers vote in this referendum.
Producers will be voting on a one-
year program.

Before the referendum, every
wheat producer will be sent a
notice of the 1964 wheat allotment
and all provisions and issues in-
volved in the referendum.

The 1964 wheat allotments have
been reduced approximately 10 per
cent by law.

Feed Grain Program Sign-up
Four hundred thirteen producers
signed intentions to participate in
this voluntary program. Advanced
partial payments have been made
in the amount of \$28,981.00.

In 1962, 417 producers signed in-
tentions and were paid \$149,615.00
for reducing feed grain acreage.
