HICO, TEXAS JANUARY 10, 1964

NUMBER 37

HERE IN HICO

By E. V. M.

Good business year, bank deposits at an all-time high, and conditions in general showing a favorable advance—that's the picture of the year past in our town.

Local business was just about as good as one could expect, considering a dryer-than-usual year brought on crop failures, low cattle prices, and conditions which would ordinarily point to a bad year, but that isn't the picture here.

Building hit an all-time high, improvements were made in water and sewer extensions, and many firms made improvements during the year greatly beneficial to the town and area.

What's ahead for 1964?

The year can be whatever we, as business leaders, desire to make it. We can go backward, or put in a little effort and continue to move forward.

A good starting point to start forward motion would be to evaluate the recently conducted survey of Hico's needs, and make an effort to correct existing discrepancies. Many of the suggestions are not feasible because Hico merchants, like those everywhere, cannot make improvements and additions as funds are available. But there are some things that we can correct.

Another good starting point would be a pledge to join and cooperate with the only service organization in town, Hico Civic Club. Far too many residents have the impression that the club is only for those actively engaged in business along main street, but the impression is the greatest misconception ever. The club—and Hico—needs the help of each and every individual in town and out into the country to really become as strong an organization as is needed here.

The organization has been the driving force behind 90 percent of improvement programs and necessary projects here the last several years, and will probably continue to do whatever it can to improve our town. But it only needs and deserves more support from the very small membership in past years to really get the job done.

Annie Coleman, who put Hico Centre back on its feet after being closed off and on for several years, says that the business has exceeded expectations during the last months just past, and looks to the future in serving the needs of the town, entertainment-wise. Her business must have the proper resources to prosper, and in the case of the theatre, Annie feels the availability of late picture bookings has been the deciding factor in the success of the business. If good bookings are available in the future, then the business will remain open. If the picture series in Dallas stop the better pictures from playing in small towns, then it's another story.

People simply won't attend a theatre that they have seen three times previously in neighboring towns.

From a layman's point of view, it appears to me that the theatre industry has already lost enough and to other entertainment facilities, and it should do an about-face and start catering to its old-and-butler clients, the thousands of small communities over the nation that no longer enjoy the entertainment except on the late show.

Write to the person that requested the NR to let someone else express an opinion occasionally—The News Review has for all these years featured a column for just that purpose, but so far, we haven't had many takers. All that is required is to express an opinion on anything is to take pen in hand, write your letter, and sign your name. We also have an "out" for the latter requirement. We won't publish the name if requested not to do so, but it MUST be attached.

Longtime Public Servant, Thoma Rodgers Retires Dec. 30th From Postal Service

By DELORES WOOTON

Monday, December 30, 1963, marked the end of a most memorable career for Hico's oldest postal clerk, Miss Thoma Rodgers. This was the last day for the postal worker to perform as senior clerk.

Miss Rodgers began duties as a postal clerk in 1923, and has served continually ever since. At the time her father, Mr. J. P. Rodgers Sr. was postmaster, having held the position for eight years. Prior to his tenure as postmaster, Mr. Rodgers was mayor of Hico, then in 1915 when politics turned from Republican to Democratic, Mr. Rodgers and Mr. Gleason, who was postmaster at the time, changed positions because of political standings.

Miss Rodgers was practically raised in the environment of postal service, the office at this time located where Community Public

Service is now. Her first service was to fill the post of Auxiliary Clerk, advancing to regular clerk, then to senior clerk.

During her career Miss Rodgers has served under five postmasters, including her father, Mrs. Adah

Mr. and Mrs. Robert Jackson were hosts at a party Saturday night, Jan. 3, in their home when postal department employees honored Miss Thoma Rodgers, retiring senior clerk at the local post office.

The hostesses served a ham dinner to the guests.

The honoree was presented a beautiful silver tray by the guests, and an evening of fellowship was enjoyed by those attending.

Those present included Mr. and Mrs. Elvis Vinson, Mr. and Mrs. J. P. Rodgers Jr., Mr. and Mrs. Bertice Barnett Jr., Mr. and Mrs. Morse Ross, Mr. and Mrs. Marvin Marshall, Mr. and Mrs. Jackson, Miss Florence Chenault, and the honoree.

Orphans Close Gap on Leader in Bowling League Action

With only two weeks remaining in first-half play of Hico Mixed Bowling League, News Review Newshounds maintained a slim 4-point margin over Parks' Orphans going into the stretch.

The Orphans downed the printers 6-2 last Friday night to close the gap. Only three teams have a chance at the first half crown. Other than the 'Hounds and Orphans, First National Tellers stand a mathematical chance of tying for the top spot.

In other action last week, Cheek Kingpins scored their second consecutive shut-out, an 8-0 verdict over the Bowl Weevils. Salmon's blasted the Tellers 6-2, Judy's downed F-W Ranch 6-2, and Hico Motor Darts took the Woodpeckers 6-2.

Scoring for the men was below average with Buddy Randals leading the pack with a 519 series. Jimmie Ramage had 501, Ray Keller 481, Von Scott 480 and Eddie Putty 478 to top the list.

Shirley Ross blasted out a 504 series to lead the women, followed by Pat Ross 450, Mary Scott 438, Judy Keller 434 and Joyce Putty 433.

High averages through 16 weeks of play include: Morse Ross 166;

Watt Ross 164; Buck Meador 162; Von Scott 162; and Odis Petsick 161.

School Census Underway, February 1st Is Deadline

Hamilton County schools are taking census this month in the annual scholastic enumeration. Purpose of the census is to enumerate all children of school age residing in various districts.

Results of the census will determine the number of per capita payments each school will receive from the state for 1964-65. School leaders are striving to make sure that all children falling in the prescribed age bracket will not be overlooked.

Supt. O. C. Cook, census officer here, said "census blanks were

sent this past week, and if anyone was overlooked and have not received a blank they are asked to call or contact the census officer. Those who will be left off Sept. 1, 1964 must be left off the blank, but married teenagers are still eligible and should be counted if they live in the Hico district and will not have reached their 18th birthday before that date."

Any parent who may have questions concerning the census are urged to contact the census officer at once. February 1 is the deadline for student enumeration.

FAIRY

By MRS. EUNICE DANIEL

our return home Saturday from Blackwell Hospital where we had been since Thursday. I learned the sad news of the death of R. W. (Dick) Jones of Hamilton who suffered a stroke at home Thursday night while his wife was watching television. He died in Hamilton hospital about 3:30 Saturday morning. Funeral services were pending the arrival of their child, a son who was over-looked.

Mr. Jones was reared in the community, being a son of late Mr. and Mrs. Will Jones of Fairy. His wife, the former Hope Blackwell, was also near Fairy, and their many friends and acquaintances in this surrounding communities are saddened in his passing. He is survived by his wife, one son; two daughters, Wyley and Merriman of Stephenville; and one sister, Mrs. Pauline Burden of Greenwood; and a number of nephews. Mr. and Mrs. Jones had operated a White Auto in Hamilton for a number of years. Mr. Jones was about 56 years of age. Our deepest sympathy is extended to his bereaved

ed companion and son and other relatives who mourn his passing. The grain crop seems to be at a standstill since the weather has been quite cool so much of the time. Seems farmers can't depend on any grazing from the crops this year if it don't take a start to grow soon.

The Walnut Springs boys and girls basketball teams played our boys and girls Friday night. Our teams won, but we didn't get the scores.

Mrs. Herman Derden and daughters of Ceburne and her sister, Mrs. Essie May Hendrix of Midland returned home Saturday afternoon following a visit with their parents, Mr. and Mrs. Olga Duncan.

Mr. and Mrs. E. M. Hoover were in Fort Worth Friday to visit his cousin and husband, Mr. and Mrs. John Finkin. After their arrival they learned that Mr. Finkin had suffered a stroke and had been carried to All-Saints Hospital where his wife has been a patient for the past several weeks. She was able to be taken to his room by wheel chair. Mrs. Finkin is the former Miss Maggie Gann of Fairy. Our best wishes to them.

Mr. and Mrs. Ray Turner of Killeen spent the weekend with their parents, Mr. and Mrs. Willie Turner and Bernice and Mr. and Mrs. Carl Ray Sellers, Jimmie and Janice, and to be here for the annual Farris reunion held Sunday at the Willie Turner home. Other Turner children home were Mr. and Mrs. Jackie Turner and Susan of Arlington, Mr. and Mrs. Billy Turner, Kurt and Rhonda and Mr. and Mrs. Ray Botkin Tammy and Patsy, all of Killeen. Also present were Mr. and Mrs. E. B. Glass and Ann Farris of Flat, Mr. and Mrs. Oscar Farris, Mr. and Mrs. Woodrow Farris and Tom, Mr. and Mrs. Lee Everett and Bryan Mr. and Mrs. Thomas Farris and Stan, Debbie and Becky all from Killeen, Mrs. Lois Ross and James from Turnersville, Mr.

and Mrs. Thomas Ross, Wayne, Becky and Cindy from Fort Worth and Mr. and Mrs. Aubrey Farris from Dallas.

Mr. and Mrs. Weldon Parks and Becky of Fort Worth spent the weekend with their parents, the T. R. Parks of Fairy and Robert Streeters of Lanham.

Mrs. Bessie Jordan and Mr. and Mrs. Bobby Jordan and Barbara, and David Webb of Cleburne were visitors in the T. R. Parks home Sunday.

While at the Gorman Hospital last week we talked with a nurse, Mrs. Pauline Baze, who said she was the former Pauline Carter and attended the Fairy school some 60 years ago. We ourselves started to school here about that time. She spoke of a lot of Fairy folks we also knew. The Cole, Leeth, Dr. Young families, and many others. She stated they lived in a tenant house of Dr. Youngs that stood near the Baptist Church, which sits at the foot of the East Fairy Mountains at that time. She stated Prof. Ben Randals was one of her teachers, as was this scribe also.

L. and Mrs. Lynn King and Kathi of Del Rio visited with Mr. and Mrs. Carl King during the Christmas holidays. They all spent Christmas in Ballinger with relatives.

Mr. and Mrs. E. M. Hoover were in Hamilton Monday morning to attend the funeral of R. W. Dick Jones. While there they talked with Mrs. Johnnie Anderson of Stephenville who told them that her brother, Ernest Brummett of Alhambra, Calif. was gravely ill. He underwent surgery recently. We were sorry to hear this and hope he will soon be much better. There were others from here who attended the Jones funeral, we feel sure, but did not get their names.

Mr. and Mrs. Billy Daniel and Breck and his sister, Mrs. Cal Lowery and Philip of Fort Worth visited Thursday afternoon with their father, Boone Daniel, who is in the Blackwell Hospital at Gorman.

Mr. and Mrs. Carl Williams, Mr. and Mrs. Cal Lowry, Lou Ann, Cal Jr. and Philip, all of Fort Worth were in Gorman Sunday afternoon to visit their father, Boone Daniel

Mr. and Mrs. Mack Taylor spent last weekend in Austin with their daughter and husband, Mr. and Mrs. Harrell Gilbreath and two sons. On Sunday they drove over to Johnson City and out to the ranch home of President Lyndon B. Johnson, a beautiful place. The Pedernales River is in front of the house. FRESHMAN FRANTICS

This week has been a little slow for the Fish because next week is mid-term time, but we have a little news to fill you in on.

Cathy Cox says she is about ready to give up. It seems as though something always happens

when she and Billy try to get married.

Lois Hanshaw, what was so funny in Biology class last Friday? Could it have been another of Jim Lackey's poems?

Ronnie Henderson is singing "You Better Treat My Baby Good" to Dwain Gray. Wonder why?

James Mayfield's new song is "Cathy's Clown."

Danny Jenkins song is "I'm just a lonely teenager."

Ronnie Hafner sounds good singing "You Don't Own Me" to two eighth grade girls.

Nelly Wolfe likes having Jim Lackey sing "There I've Said It Again."

Alan Royal sings I'm a Traveling Man.

Denna Meador sings She's a Fool.

Suzanne Patterson sings Ask Me to go Steady.

Linda Cronk's new song is Breaking Up is Hard to Do.

NEW YEAR RESOLUTIONS

In Hico High School, many students will start the year off right by making resolutions for the new year. They are as follows:

Alma Borgan resolves not to lose her temper; Dorothy Gray resolves to treat her fellow senior classmates better; Lynn Malone resolves to give everyone a piece of Sweet Tart candy; Jim Grimes to make more turkeys; Jake Flowers to stay away from girls; Pat Bruner to make Charis nappy; Linda Jaggars to see Billy more; Drewford to make his first hit record in 1964;

Rickey Howell resolves not to be so tough; Lee Shepherd to forget the past; Leona Hanshaw to be a good wife; Danny Jenkins to make A's all year; Elizabeth Bruner not to get mad at a certain boy; Mike Gravitt to dye his hair red; Butch Knudson to treat his fellow junior classmates better; Leslie Royal not to pick fights with his little brother, Alan; Frankie Phillips to be a good kid; Dwain Fall to stop making eyes at the girls; Lynn Redden to be more kind to certain people;

James Crews resolves not to drive as fast; Sharon Howard to finish what she started last year; John Crow to stop at stop signs; Kay Jackson to take another ride in Jerry Casey's car; Edwin Black to stay with girls more; Carol Cronk to get married; Linda Bruner to stay on good terms with Iredell; Barbara Casey to hold on to a certain red Chevy; Bill Rutledge to win more basketball honors; Scott Patterson to be uncle again; Mary Alice Weadon to break the Monroe Doctrine; Kathy Powers to take an ocean voyage; Linda Naul to write more letters in class; and Reba Oxley to be more kind to her geometry friends.

JUNIOR NEWS

It just doesn't seem possible that 1964 could be here already. The juniors have gotten on the ball and made a New Year's Resolution.

The resolution is to start raising money so we can give those poor, deserving seniors a banquet. At the rate we are going, seniors, don't expect too much.

Ronnie Partain, are you turning green or is that the color of the Christmas gift you gave L.D.?

A warm welcome would like to be extended to Cheryl Bailey. We are glad to have another member in our class.

Sandena and Larry like the Sunday matinee so well that they sit through it twice. Now isn't that sweet.

Unlike most class treasurers, Scott Patterson tries to talk people out of depositing money to the junior class. It's really quite a sight to see the poor boy stuffing all that money in his pockets.

James Randaia helped the boy's basketball team set a new record Saturday night. With his Wilt Chamberlin shots he made the score rise above 50. That just goes to show what an extraordinary class the juniors are.

Alan Solisbury can really give his guitar fits. His favorite place to practice these days seems to be at the laundromat. He gets two jobs done at once; his practicing and his mother's wash.

Mary Ann and Alma were horrified at the New Year's Eve midnight show that they made a resolution never to see a scary show again. This resolution seems impossible since Boris Karloff is their movie idol.

Sharon Howard was given a new name last weekend. It seems that only the Spanish students know what it is.

Jim Grimes is lucky to be alive. It seems that a little kid from Evant tried to beat him up because he didn't yell for the right team.

Everyone wishes Ronnie Partain a speedy recovery. Hope you will be back in school real soon.

SPOTLIGHT

After a wonderful Christmas the Spotlight was at it again. Those spotted were Judy Jameson and Edwin Shannon; Pat Bruner and Charles Oxley; Linda Bruner and Pete Hanshaw; Dorothy Gray and Butch Knudson; Kay Tooley and Mike Gravitt; Joni Coan and Bill Rutledge; Frances Leppard and Stuart Myers; Bonnie Leppard and Wayne Warren; Linda Jaggars and Billy Booth; Dwain Gray and Carolyn Wootton.

Saturday night there was quite a lot of activities going on. Some went to the ball game at Evant, while others went to the show. Those seen were Dorothy Gray and Butch Knudson; Dwain Gray and Carolyn Wootton; Linda Jaggars and Billy Booth; Pat Bruner and Charles Oxley; Judy Jameson and Edwin Shannon; Barbara Casey and Bud Strong; Linda Bruner and Pete Hanshaw; Elizabeth Bruner and Danny Reeves; Bonnie Leppard and Wayne Warren; Patsy Wootton and Larry Erick.

HICO HIGH SCHOOL GIRL "1 IN TEN THOUSAND"

Elene Gannaway has done it again! She has distinguished herself by making 100 percent on a ten-word spelling test that business administrators and secretarial supervisors declare not one person in ten thousand can do perfectly. The word list was given to all

Hico High English students last week. Elene was the only one to make 100, but several other students made 80's and 90's.

The word list used for the test is as follows: sacrilegious, supercede, privilege, exhilarate, indispenable, rarefy, liquefy, ecstasy, hypocrisy and irrelevant.

SOPHOMORE SCHEMES

All the Sophomores hurried (?) back to classes after a long holiday vacation, and now even though everyone is studying for mid-term exams a few sophs can still be found looking for new tricks.

Lynn Redden got a late Christmas present in the form of an unexpected visit from a six-foot boy. How's that for a surprise package?

If you run out of something to do ask Lee Shepherd to tell you about her fourteen resolutions for the new year. There's one that might surprise you, especially since it pertains to her secret flame.

Four sophomore boys are certainly having a great time showing off their new letter jackets. The class certainly is proud of Dwain Fall, Leslie Royal, Lynn Malone and Edmund Horton.

Tony K, are you taking lessons on "How to Laugh" from Frances Leppard? Now in history the class bears that crazy giggle in stereo.

Claudia Hafer chose to spend her holidays digging up Indian graves but all she found was a pet spider. What's his name, Claudia?

Song dedications to this week: Dianne Jaggars: Breaking Up is Hard to Do.

Glenda Ogie: Somewhere.

Frances Leppard: Forget Him.

Claudia Hafer: Impossible Can Happen.

Pat Bruner: Love and Marriage.

Mike Thornton: Long Tall Texan.

Lynn Malone: Out of Limits.

SENIOR BOY NONORED

Several weeks ago Bill Rutledge was named to the second all-tournament team at Whitney.

Last Saturday night this popular senior was again honored for his basketball abilities. This time Bill made the first all-tournament team at Evant.

We, the student body of Hico High, are very proud of Bill, and hope he will continue his excellent play.

BAND NEWS

A few weeks ago the band ordered new jackets. About fifteen band members bought jackets. The band is proud to be receiving the jackets sometime within the next few days. The band has ordered new music which includes classic, popular, etc.

We are sorry to lose a good member. Barry Adams left for Arizona, and we wish him the best of luck there. Also, we enjoyed having a former member play with us last Friday, and wish that Ruth Ann Martin would come back again.

Mr. Morton wishes to express his appreciation to the teachers and students for the nice Christmas gift he received.

EIGHTH GRADE

Everyone is back at school again looking as if they have gained a few pounds.

If you ask Mike Reeves what

have enough food on hand to feed your family for 10 days?

On a nation-wide basis the civil defense board is pin-pointing food resources, which may seem like a relatively simple task, but is in fact a colossal one. They are locating the food processing, storage and distribution facilities. The information includes the size of the facilities, foods they process, store or distribute and areas they serve. When identified they are recording on punch cards and placed at headquarters relocation sites, and with the USDA, State and Local County Defense Boards.

ENTERS BUSINESS SCHOOL

Miss Martha Paddock, daughter of Mr. and Mrs. Charlie Paddock, and a graduate of Hico High School last May, entered Ruether Metropolitan Business School in Fort Worth Monday of this week.

Miss Paddock has been employed in Fort Worth since leaving school last year.

FORMER RESIDENT BURIED HERE DECEMBER 31

Burial services were conducted at Hico Cemetery Dec. 21 for S. Luther Turner, former resident. Mr. Turner passed away Dec. 19 in a Waco hospital.

Mr. Turner was 82. He was born near Hico in 1881, the son of the late S. L. and Alice P. Turner. He lived in and around Hico until 1902.

Survivors are his widow; two sons, Paul Turner of Fort Worth and Leland of Waco; three brothers and two sisters. Mrs. May Scroggin, Mrs. Harold Stamford and Hub Turner, all of California, Tom H. Turner of St. Joseph, Mo., and Carl Turner of Albuquerque; and three great-grandchildren and one grandchild.

Santa brought him, he will show you a water pistol that is always ready to be fired.

Jody Littleton got an identification bracelet for Christmas, but he won't tell who the girl is whose name is engraved on the inside.

Dennis Solisbury has taken up archery. From the things that are being told you need to do something for defense. Can you explain, Paula?

Janis Shepherd and Paula Lane, what is the new hobby you two have taken up? It wouldn't be playing poker, would it?

Ann McClammy, who is the mysterious boy that you just happen to see on your trips to Fort Worth?

Barry Adams moved over the holidays. Everyone misses him.

We would like to welcome Phillip Thomas to Hico.

Cherry Ramage got a lot of nice things for Christmas, but she got something especially nice from Dwain.

Joe Tooley, could it be you that we see with a different girl every night?

Janis Shepherd, is it you telling Mike Reeves that if he hits you, it means that he loves you? Does it work?

Karen Dunn, is it a new spark of interest we see in your eyes at the new boy who sits across from you?

Jerry Aikman, do you have to be driven all the time to do your homework? Cherry is getting rather tired of reminding you.

We would like to welcome Jeanie Bailey to our school, also.

Who's Who in Junior High

The subject this week is a 7th grade girl that has brown eyes, matching hair and a very cute personality. You may quite frequently see her with her good buddy LuLu Fall and though she won't say so, her recent flame is told to be a boy with initials of M.D. of the seventh grade. She loves to pester Mrs. Thompson and is quite noted for it.

You must have guessed by now, but just in case, it is none other than yours truly, Mary Ann Leppard.

larger problems than basic supplies in the immediate post-attack period.

Who will be responsible for the nation's foods in an emergency? The USDA is responsible for the national emergency food management program, but this does not mean that it could, or plans to do the whole job. State and local governments, the food industry and the public share the responsibility.

USDA's food management responsibility runs from the farm gate through the processor-wholesaler level. State and local governments are responsible for planning distribution of food, including stocks made available through USDA, and emergency mass feeding. Industry is responsible for assuring a continuing supply of food in accord with the national plan.

The individual is responsible for maintaining enough food for himself and his family until other supplies become available. The office of Civil Defense urges families to keep a 14-day supply of food on hand at all time. I have two excellent publications in the selection and storage of the office which will help you with emergency foods. They are "Emergency Food and Water" and "Family Food Stockpile for Survival." Call or come by for these helpful publications.

THIS WEEK IN AUSTIN—

Highlights and Sidelights

By VERN SANFORD
Texas Press Association

Austin has settled back to being just the capital of Texas after nearly two hectic weeks news-wise as the vacation White House.

Dozens of top cabinet officers, military leaders and federal agency heads followed German Chancellor Ludwig Erhard and his advisors to the LBJ Ranch for conferences with President Lyndon Johnson.

Encouraging predictions of progress toward world peace emerged from the President's international discussions. The federal budget and economy were spotlighted in the domestic talks.

Before he departed, White House sources gave these insights into the President's thinking:

He does not feel the U.S. can drag its feet until after elections this year before pressing for new peace break throughs.

He regards civil rights and the \$11,000,000 tax cut as legislative "musts." Also, he has expressed support for the medicare program of aid to the aged.

Reducing the budget to save money for essential human needs, including education, is regarded by the President as of concern to all Americans. He hopes cost cutting will serve as a pattern for

future years. Slum clearance and "a home for every American" are seen as goals of his administration. Some newsmen interpreted this as a likely 1964 campaign slogan.

Johnson hopes to steadily improve American preparedness. But he is strong for elimination of military obsolescence, particularly old bases and installations retained in the budget for political reasons.

Congressional leaders will run their own legislative show. But the new President won't hesitate to ask old congressional friends for that he thinks is needed.

Johnson hopes to draw on the talents of both business and labor to render public service.

He is concerned about unemployment and is calling for new solutions.

Prison Population Reduced

For the first time in 18 years, the number of prisoners in the Texas Department of Corrections shows a decrease.

Department Director Dr. George Beto reports that the December 31 count was 12,159, compared with 12,203 the year before. Since 1945, there has been a steady climb in number of prison inmates.

Beto cited these reasons for lev-

eling off: more adequate parole supervision; opening of a new first-offender unit; a pre-release program of preparing prisoners for freedom; an expanded trusty program; and overall improvement in the prison treatment program.

Prison chief said the reduction not only will save money on prison care, but also in welfare funds spent on families of inmates, not to mention restoring prisoners to productive lives as citizens and taxpayers.

Prison System Income

Farm products and livestock produced more than \$6,500,000 of the prison system's 1962 income, according to the auditor's report just released. Other sources were: manufactured products \$1,764,511; oil and gas leases, \$39,237; miscellaneous \$3,287,167.

Report placed total income from farms and farm industries at \$10,144,773, with expenses of \$14,304,734 for a deficit of \$4,159,961.

Manufacturing operations includes license plates, shoes, textiles, clothing and other products.

School Income Threat

Texas school income will be drastically reduced unless the Federal Power Commission sets an adequate price for gas in the Texas Gulf Coast area and the Hugoton-Anadarko area of the Texas Panhandle, Attorney General Carr contends.

Carr has filed a petition to intervene in price hearings ordered by FPC to determine reasonable rates for sale of natural gas in the areas.

Earlier he filed briefs requesting FPC to set the price of all gas in the Permian Basin area at 21 cents MCF. The FPC staff sought a nine-cent MCF rate for casing-head gas and 13.7 cents MCF for gas well gas.

Attorney general noted in his brief that Texas levies a 7 percent occupation tax based on market value of the gas at the well head to support state government.

He also pointed out that the University of Texas systems owns more than 4,700,000 acres of land in the Permian Basin area. Bonus money and royalty income from this acreage goes to the permanent school fund for Texas education. More than 18,000,000 acres of state land are involved in the Gulf Coast hearing.

Hay Freight Hike Sought

Although the hay shortage has shoved prices up to double the normal, hard-pressed Texas ranchers and dairymen may have another cost; increase in sight.

Railroad Commission already has been asked by the Livestock Carriers Association of Texas to increase truck freight rates on hay and cottonseed hulls.

A hearing on the application has been set by the Commission's rate division for January 20. In some cases this would mean a rate increase of more than 100 percent.

Rain-Making

John Carr, hydrologist for the Texas Water Commission, has been making local talks on what other states have done about legislation on rain-making.

A major in the Air Force Weather Service, Carr has been gathering information on rain-making and hurricane-breaking as it applies to the Texas climate.

Arbor Day Set

Governor Connally has proclaimed January 17 as Arbor Day in Texas. In a special observance, the Texas Forestry Association will plant several pecan seedlings on the Capitol grounds.

The pecan is the State Tree of Texas.

Screwworm Program Cut During Winter Months

Mission, Jan. 7.—Highly successful eradication measures, cold weather, and the need to conserve funds have prompted screwworm eradication officials to cut the production of sterile screwworm flies by 50 percent.

An average of 70 million flies per week will be reared in the weeks ahead; production had been hovering near the 140 million per week mark during the fall. Eradication workers are confident this number will be sufficient to adequately treat those areas of

Texas where native screwworms can survive the cold temperature.

The sterile flies, which are released by airplane over screwworm infested territory, mate with native, fertile female flies, but no offspring are produced. Nearly six billion sterile flies were reared and sexually-sterilized at the huge "fly factory" near Mission last year.

Eradication officials stated that the decrease in fly production, as well as a cut-back in personnel of nearly 175 employees, was made possible by a significant reduction in the number of screwworm infestations in the past month. At the time that the decision to hold back production was made, several weeks had elapsed with no cases being reported in any of the five states in the eradication area. Authorities also said that it is important to conserve funds now to insure that money is available to initiate emergency measures that may become necessary later in the season.

During 1963, producers in 192 Texas counties reported 4,916 screwworm cases; the previous year 49,484 cases were detected in 142 counties. While this indicates a 90 percent decrease, officials feel reporting was so much more effective than during 1962 that an even greater degree of control may have been achieved than the totals indicate.

specialists at Texas A&M. He then sends monthly expense and income records at the end of each month. At the end of the year, the specialists will supply the farmer with detailed analysis of the year's record. This analysis will be provided in time for use in connection with tax reporting. If you are interested in participating in this record system I will be glad to discuss it further with you. It's time again to start working on the income tax returns. We have planned an income tax workshop for January 28 in the District Court room. The meeting will start at 7 p.m. and will last about two

COUNTY AGENT REPORTS

By DeMARQUIS GORDON

Now that the Christmas and New Year holidays are behind us we can settle down to work and try to live up to those New Year resolutions.

One resolution that I hope you made this year is to keep a good set of farm records throughout 1964. Record keeping is a very necessary part of farm management. A farmer who keeps good records usually finds preparation of his income tax return less of a chore.

Bill Freeman, Area Farm Management Specialist, spoke to the Hamilton Young Farmers Tuesday night and emphasized the importance of farm records. He also discussed the mail-in-farm or ranch accounting program that will be available to 300 farmers this year. For the past two years about 50 farmers have been using the accounting system, and the results have been good. The cooperator sends beginning inventory to

and a half hours. I hope you will make plans to attend this meeting because it will be of value to you.

The 1964 Farmers Tax Guides are now in my office. Farmers have found this guide to be very helpful in filling out returns. This booklet answers many income tax questions or problems you may have. Included in matters discussed in this 1964 edition are the new rules for deducting expenses of clearing land and the new investment credit allowed against your taxes when you have purchased certain equipment. Another feature of this edition is the listing of important dates to remember, appearing on the back cover.

The Hamilton County USDA Defense Board met Monday at the ASC office. Members of the board S. E. Cloninger, Bomar Harris, Mrs. Jean Henry, Raymond Beck and myself discussed duties and responsibilities of the board. The film "Town of Our Times" was

shown to the group. Guests who attended the meeting were County Judge G. W. Hurley, Sheriff Woody Young, Les Hamilton, B. G. Wolford, Clyde Raibourn, Bill Bennett, Fred Rainwater, Elvin Mears Luther Wood, Mrs. Bob Richmond, Mrs. Kermit Renken, Alvin Perry and Alfred Marwitz.

Game Warden Reports

By BOB RHODY

Deer season closed December 31 with what I will say was a good season, I think we had a record kill in Bosque County this year. This was due to the increase in number of hunters. From my observation I believe we had at least one-third more hunters this year than last. And from checking hunters and lockers plants with deer I think we had a third more deer killed.

I have placed the deer kill around 1700 in Bosque County, with about 40 percent of these being doe or antlerless deer. I would like to thank each of you landowners for your help in this high percentage on the doe kill.

Due to the shorter season in Hamilton County I believe the kill was about the same as last with about 50 bucks killed. Although there was only 50 deer killed there were several bucks that field dressed over 120 pounds, which is a good indication your deer are doing good on their range and are at a safe population level.

Please remember, all you folks in Bosque County that have doe or antlerless permits, these must be returned to me or Joe Stevens on or before Feb. 1. I know that

many of you have let the hunters have their part of the permit and they did not return it to you, but please come by and tell us about it so we can make a record. You may return your shooting preserve books on or before May 1, 1964, and it is also very important that we get these in by that date.

Duck season closed Jan. 4 but goose season will run through Jan. 14. Quail season is open through January 31 in both Hamilton and Bosque counties, I would like to encourage both landowner and sportsmen to take as many quail as possible since I believe we will lose many in the bad weather to come. By saying this I do not mean for you to break the law in doing so.

We did get through another deer season without an accident. Let's be as careful the remainder of the season and wind up with another accident-free season.
