ROBERT CATHEY

Candidate for

State Representative

DISTRICT 53

(Erath, Hamilton, Coryell Counties)

I Will Appreciate the Vote of Everybody

I EARNESTLY SOLICIT THE VOTES OF EVERYONE IN OUR LARGE DISTRICT—SO LARGE THAT I COULD NOT SEE ALL OF YOU PERSONALLY, BUT EVERY PERSON AND EVERY VOTE IS IMPORTANT TO ME.

(Pd. Pol. Adv. by Robert Cathey)

To the People of Precinct 3

HAMILTON COUNTY

Thanks to the people for your cooperation during my campaign. You have been very nice and considerate.

If elected I will do my best to make you the best Commissioner ever, and my hands and I will be on the job eight hours a day. I will be fair and honest on the job, in the court and every place.

There is a certain amount of money appropriated each year by the Highway Department for Farm to Market roads, and if we ask for it we will get our part. This I will do.

Every mile of pavement we get will take that much expense of maintenance off the Precinct.

When we buy or sell any kind of equipment it will be put up for bids.

If elected I will ask for an audit of equipment and financial conditions.

Road work is not the only part of a Commissioner's job. Records should be kept for the benefit of the taxpayers and the people. In asking for the job of being your Commissioner I know it is a full-time job.

I earnestly and sincerely ask for your help and support in the coming election this Saturday, May 2nd.

To the Voters of Hamilton County

Dear Voters:

First, I want to thank you all for the courtesy shown me in my campaign for County Judge, and assure you that I will deeply appreciate your vote on Saturday, May 2nd.

I have not been able to devote as much time to campaigning as I would like to have, because the duties of the office of County Judge requires that I stay in the office most of the time. I have attempted to see all of you personally after hours and on Saturday and I am sure that I have failed to see a number of you. Therefore, I make this personal appeal for your vote and support for my candidacy for County Judge.

Sincerely,

G. W. (Dick) Hurley, Jr.

Home Demonstration Agent

Attending the District 8 Texas Home Demonstration Association meeting in Marlin May 5 and 6 will be Mrs. George Harris from Blue Ridge, Mrs. Frank Sellers of Littleville, Mrs. Lenard Weaver of Hico and myself.

Hamilton County will be in charge of courtesies at this district meeting.

Workshops in Family Life, Citizenship, Civil Defense, Health and Safety, and 4-H will be attended by members and visitors.

Winter clothing and covers need correct care before storage for the summer.

Proper cleaning, labeling and storage will assure that garments will be in good condition and easy to locate when the first norther comes next fall.

If storage space is limited you

may want to consider taking all woolen items to a professional firm for cleaning and storage. Near-zero temperature will destroy clothes moths in all stages of their development.

You may give your own woolen clothing the cold treatment if you have enough space in your home freezer. First, clean the garments, seal them in heavy paper, and store in the freezer for 24 hours. Then store in a closet, being sure the seal remains unbroken.

All clothing should be cleaned before storing—whatever the fabric. The storage space should be clean, free of all dust and sprayed for protection from household insects.

Woolen blankets or other woolen covers should be cleaned and sprayed with a moth spray, if not

previously moth-proofed. There are many good sprays on the market. Read the labels before buying. You will get many helpful hints from our publication, "Home Care of Woolen Blankets." Woolen Blankets, electric or non-electric represent a large investment for many families. Properly cared for, they will remain light, fluffy, retain their new look and give years of good service.

Do you have a child starting to school next year? Now is a good time to prepare them for this new experience. There are several things the six year olds should be helped with before this giant step in their life is taken. Encourage your child to memorize his name, address, and telephone number. It is also important that they know their father's name and where they work.

If your child will be walking to school, make several trips with him before school starts, pointing out the safest route, how to cross streets, etc.

A child should be taught to tie their own shoes. With 30 students in the room and on the play ground, teachers haven't time to tie shoe strings!

The Mirror

WHO'S WHO

Our subject this week is the principal and teacher of Hico High School. He is tall and has a medium build with brown hair and blue eyes. It will help you to know that he is married and has two darling little boys, whose names are Jimmy and Pat. It will also help you to know he is the coach of the girls P.E. Class and he enjoys very much seeing them win their game. One of his favorite pastimes is making the girls run laps around the building to keep them in shape. Another of his favorite pastimes is making funny jokes in his history class. I'm sure by now everyone knows it is no other than Mr. Barnett.

There are many other things I could say about our principal, but the main thing is for him to get well quick. We say this because we miss seeing his face around HHS. Everyone in HHS wishes him a very speedy recovery.

SOPHOMORE SENSATIONS

Many of the Sophomores will be pleased to know that this is our last column for the school year. Now everyone can talk freely with-

out being afraid of reading it in the paper the following week.

Spring is bustin' out all over in the form of tiny red spots known to almost all the Sophs now as measles. Edmund Horton will tell you about them if you can draw him out from behind his sun glasses.

Speaking of measles — Verna Buzby may be the next to acquire that spotted look. Black Chevrolets seem to attract them.

Glenda Ogle has finally decided that "that was yesterday and yesterday's gone."

Hail to Leslie Doyal, our new history teacher. Since when?

Have you ever heard of history re-occurring? Shakespeare had Romeo and Juliet. Now, centuries later, the sophomores have Linda Duncan and J.H.

Frances Leopard's new motto is "With friends like that, who needs enemies," or "take good care of my baby."

Buck Shepherd has been singing White on White to his daughter. Hold it! Don't get excited! It's not Lee Anne—it's her older sister.

We are privileged to have a famous character in our midst. It's none other than Mighty Mouth Malone.

Tony Koonsman's only comment is "He beat me to the punch."

8th GRADE NEWS

Measles have really taken over the eighth grade. Mr. Bonner hasn't come through yet. Keep pulling.

Paula Lane can't decide if she does or doesn't have the measles. Remember that your hair dresser doesn't know either.

Ann Mc sings: Who do you love, to a certain Dragon. Iredell that is.

Cherry Ramage enjoys going to parties with little red specs all over her. Life of the party, huh!

Congratulations to Mike Reeves for getting valedictorian, and to Cherry Ramage for getting salutatorian.

Hamilton, Erath and Bosque counties, \$2.50 per year; Outside these three counties, \$3.00; Out of State, \$3.50 yearly.

Entered as second-class matter May 10, 1907, at the post office at Hico, Texas, under the Act of Congress of March 3rd, 1897.

To the People of Hamilton County

I have been your Sheriff for some time and have tried to do a good job for you. Our county is in excellent shape as far as crime is concerned, having one of the very lowest crime rates in the state. I credit this to the high type of people that our county is blessed with. I have tried to do my part to help keep it that way.

I appreciate the warm, friendly welcome extended to me through the past years as your Sheriff. I also want to thank my opponent for his friendship and the clean campaign that he conducted.

Consider the things you think best for our County and vote for the man you feel best suited for the job. If you see fit to re-elect me, I will appreciate your confidence and always endeavor to do a good job. Thank you,

Woody Young

SHERIFF, HAMILTON COUNTY

(Paid Pol. Adv. by Woody Young)

We Believe . . . James H. Soules is the best man for County Judge

Friends of James H. Soules believe he is the best qualified candidate in the race for County Judge. And we believe each county needs the best qualified men & women it can get.

James Soules was reared on a ranch near Star, where his father, Jim Soules, still lives. He attended Tarleton State College and North Texas State University.

In 1937 he enlisted in the Army and completed Flying School in 1941 to receive his commission in the Army Air Corps. He is a combat veteran of World War II and the Korean War and retired in 1960 with the rank of Colonel.

His wife is the former Maxine Harris, daughter of the late County Judge and Mrs. Will Harris. They have 2 children and are members of the First Methodist Church of Hamilton.

While progressing through several Air Force promotions, James served as an Administrative Staff Officer at every command level, including Headquarters of the U.S.A.F in Washington, D.C. Success in his military career was due largely to his working courteously, efficiently and effectively with all kinds of people—both military and civilian. High-level assignments brought him in constant, almost hourly, contact with seasoned businessmen, anxious mothers and wives, political and government officials, home-sick recruits, questioning taxpayers, and high-spirited junior officers. He worked daily and SUCCESSFULLY with all of them.

His last assignment before retirement was Commander of Carswell Air Force Base at Fort Worth. He is accustomed to huge responsibilities in a world which puts a high premium on brains, ability, knowledge, and sensible handling of men.

James Soules' military experience was not in the old Army of un-schooled soldiers and iron discipline, and he does not match the usual picture of the typical old-time Army officer. James is a quiet and thoughtful man who gets things done without bluster.

This man, our friend, chose to come back here where his roots were and to make a permanent home for his family. His knowledge, experience and ability would be valuable to many large companies; it can also be valuable to us, and we need his ability in our County government.

We urge all Hamilton County voters to measure James Soules carefully against our needs and the requirements of the County Judge's office. We think he will make the finest judge.

(Paid Pol. Adv. by Friends of James Soules).

FAIRY

By MRS. EUNICE DANIEL

We had unsettled weather most of last week with intermittent showers at intervals. We received about 9 inches of rain since our last report.

Grain crops are looking fine and some fields are in full head. Weeds, grass and the thistle are on the upward trend and surely growing with all the added moisture.

Mr. and Mrs. Eddie Wood of Fort Worth visited last week in the home of her parents, Mr. and Mrs. Leslie New. During the week they all visited in Harlingen with their brother, son and family, Mr. and Mrs. Leon Now. They stated everything down in the valley is real pretty. The cotton was six to eight inches high. They were har-

vesting onions, carrots, cabbage and sweet corn, and flowers were very pretty and in full bloom.

Weekend guests in the home of Mr. and Mrs. Claud H. Holley and family were their daughter, Miss Claudine Holley and her friends, Misses Sue Rankin of Villa Park, Ill., Beverly Scott of Fort Worth, Pat Marie Hughes of McGregor, all students at Texas Wesleyan College in Fort Worth.

The writer was a business visitor in Stephenville Saturday morning and while there visited a short while in the home of our daughter, Mr. and Mrs. D. E. Allison.

The senior play, "Our Gal Sal" which was presented Saturday night at the school gym, was well attended and all enjoyed the program.

We were very sorry to learn of the death of our cousin, Odie May of Dublin which we learned of through the Dublin paper. Odie Jewell May died at the Dublin Hospital Monday, April 13, after 11 years residence in Dublin. Funeral services were held Tuesday, April 14, with Bro. Lawrence Smith officiating. Interment was made in Barbee Cemetery. Odie was born near Moody Sept. 7, 1901 to the late S. T. May and Ida Turner

May of Gorman. He was married to Juanita Calbough Aug. 31, 1926. To this marriage three children were born, two daughters and one son. He is survived by his wife of Dublin; Mrs. Joe Bean of Dublin and Mrs. Max Jackson of Eastland; the son, John Edward May of Dublin; also five grandchildren; four sisters and two brothers, namely Mrs. Ola Mae Walker of Gorman, Mrs. Minnie Dixon of Moody, Mrs. Leta May of DeLeon, Mrs. Myrtle Salyers of Henderson and Johnnie and Coen May, both of Fort Worth. Odie was a member of the Church of Christ. Pallbearers were Bruce Colbaugh, Gene Williams, Johnnie Colbaugh, Don Kilgore, Bill Bryson and J. T. Cathcart. Our deepest sympathy is extended to his family and other relatives. So sorry we did not learn of his death in time for relatives here to attend the funeral. Too bad we kinfolks forget our kin at a time like this. We had visited several times with his aged mother and sister, Mrs. Walker while at Gorman during the illness and death of our late husband, and had given Mrs. Walker our telephone number in case of the death of her mother, who is past 93 and has been bedridden for over a year but feel sure she failed to think of us at the death of her brother, as we so many times do when death comes to our home or family.

The senior play, "Calm Yourself" was presented to a large crowd Thursday night in the school auditorium. The seniors, with their sponsors, Mr. and Mrs. J. W. Jordan Jr., will leave this week on their senior trip to Bandera. Members of the class are Linda Sharp, Virginia Thedford, Ola Faye Reich, Jeanne Bowden, Carron Stuckey, Jack Henry Self, H. E. Mason, Robert Helton, Gary Jordan and Rodney Williams.

visiting in the home of Mr. and Mrs. Ray Turner and baby. Mrs. Sellers is also still visiting with the Turners and helping in the care of the baby and home. They are doing fairly well, although Mrs. Turner still has a slight cough from effects of measles. We stated in last weeks news letter that the baby was born on Wednesday April 15, but it should have read Thursday, April 16 at Hillendale Hospital instead of Hill & Dale as we had been informed.

Mr. and Mrs. Frank Hanes and Mike and Mr. and Mrs. Lester Timmerman spent Sunday at Irving visiting in the home of the Hanes' daughter, Mr. and Mrs. Bobby Drew and Cynthia. Cynthia returned home with them for a few days visit with her grandparents and Mike.

Mr. and Mrs. Laymon Newton and three sons of Rochester and Mr. and Mrs. T. R. Davis of Iredell visited Sunday with their parents, Mr and Mrs. J. H. Davis.

Mr. and Mrs. E. M. Hoover were business visitors in Waco Saturday.

Mr. and Mrs. Billy Turner, Kurtis and Rhonda and Mr. and Mrs. Ray Botkin, Tammy and Patsy, all of Killen were visitors during the weekend with their parents, Mr. and Mrs. Willie Turner and Bernice.

The remainder of the cemetery lots were worked last Friday afternoon, but with all this rain, weeds and grass will grow fast and all are going to keep hoeing and mowing to keep it down.

COUNTY AGENT REPORTS By DeMARQUIS GORDON

We will have a visitor from the Philippines in Hamilton County for the next two weeks, May 4 to May 15.

He is Mr. Rodolfo J. Tubelleja. He has been in the United States since January 4 studying agricultural production and observing experiment stations and extension service methods.

Tubelleja has a BS degree in animal husbandry from the University of the Philippines and has completed 16 units toward a MS degree.

He is now a Provincial Rural Clubs Supervisor with the Bureau of Agricultural Extension. He plans, directs and coordinates programs related to youth and other civil organizations in the provinces.

Previous to 1956 he was a Live-stock Extension officer with the Bureau of Agricultural Extension.

Tubelleja will visit several farms and ranches with me while he is in Hamilton County. He will also be available to meet with groups and organizations if requested.

This method of exchanging information with our friends from abroad not only contributes to their knowledge, but gives us an opportunity to learn from them.

This is not the time to spray pecan trees for the nut casebearer. I will not be able to predict the spraying date until the adult moth starts depositing eggs. The spraying date is usually around the middle of May, but it may vary a week or two one way or another this year.

If you still have time and you are interested in pecans, attend the pecan school and field day April 30 at the Hamilton Electric Coop building. During the afternoon a field day will be held at Johnny Harris' place six miles north of Hamilton on the old Hico road.

Live oak trees that are now completely defoliated should recover and put on new leaves by the middle of June. It would be difficult to evaluate the effect of repeated defoliations year after year, on the infested trees. Horticulturists at A&M has commented that the defoliation is undoubtedly a considerable shock to the trees but probably will not kill them.

EARLY COPY REQUESTED

Club reporters and publicity chairmen are urged to get their reports to the News Review on Monday, or by Tuesday noon at the latest.

So often late copy has to be omitted until the following week. Please help us to meet our deadline by turning in copy as early as possible.

"Very soon, thanks to fast ELECTRIC cooking!"

Cooking meals for your family is faster and easier, once you change to an electric range. Surface elements fit snugly against pan bottoms for speedy heat transfer. And, since an electric range is flameless and needs no air flow for combustion, oven heat stays inside for fast, efficient baking and roasting. Cooking is cooler in summer, too — and clean-up after meals is easier — with a flameless electric range. See the new models at your dealer's soon. Winning Literary Essay From Hico High School

Note: The following essay, written by Alma Burgan, was her entry in district Interscholastic essay competition held recently in Meridian. Miss Burgan qualified for the regional meet by winning first place with the essay.

What Constitutes "Training for Citizenship?"
One of the most imposing problems that faces America today is the fact that many people are not citizens. Some people would like to be at such a statement, but it is not true. So many people today do not know what it takes to be good citizens. But whose fault is it? It is within the heart of our very citizens, not on the shoulders of the government as many people might tend to believe.

everytime he hears the national anthem played or who has learned by heart every line of the Gettysburg Address? No, this might be the reaction of some truly good citizen, but it is not part of the foundation. A good citizen is one who has been taught his American history in such a way that he cannot help being loyal to his country. And whose job is it to see that it is done? This job has no certain teacher. It should be shared by all who come in contact with a "beginner."

It might be the grade school teacher. She is the person who molds the minds of her students and shapes those minds into their feelings and thoughts for their country. She can tell, with fervor, the story of the American Revolution—how the colonial army was so strong in their desire for freedom that they were willing to sacrifice many of the things they loved the most; how many, many of their ancestors lost their lives in the battle for freedom, but that they were always replaced by more who fought for one great cause—but who fought in unison; how a great American, General Washington, stepped forward through the mist of uncertainty and led those colonists through the battlefield and up to the top of the Hill of Victory. This grade school teacher has a very heavy responsibility weighing on her shoulders. She, perhaps more than anybody else, must shape the

"mind of the future." She cannot be overlooked.

Sharing the burden with the school teacher is the Sunday School teacher. She, while teaching of the greatest Love ever known, must also realize her task of teaching her share of proper citizenship. She must teach the most important point of all—prayer for our country. In a day and age when perhaps one of the most frightening subjects is that of "country against country," many people cry to the government or Congress or the President to bring peace. How easily this could be accomplished if everyone in the world said one little prayer. "It is better to light just one little candle than to stumble in the dark." is a hard philosophy to beat. How bright the world would be if everyone lit one little candle; how peaceful if everyone said one little prayer! Yes, it must be agreed, the Sunday School teacher has her share of the burden planted squarely on her back. This burden she can never shift.

Besides noting the Sunday School teacher, we must not forget the role of the parents. Their part is one of the constant needs; it must not be overlooked. The parent must be the one to teach little Johnny that our country is one of the greatest countries in the world, and that he is greatly blessed to be born to a free mother and father in a free country. They are responsible for planting in John-

ny's mind the idea that to preserve our freedom is to preserve his children's existence. They must talk with him about the national business and make sure he is truly interested, the roles of all the others who teach their part is wasted.

Not to be overlooked in our list of teachers is the common everyday "Joe," with whom the student-citizen is to come in contact. If the man at the post office does not fly the flag, how can the student realize its importance? If the father scolds the way our country is run, how can the student have due respect? If the neighbors do not recognize George Washington's birthday, how can the student care? It is hard for many of us to do all that we should in the

way of being truly loyal to our country, but if we do not, who is to? Someone has to teach the future citizens of America. Why not make those someone's all of us?

In conclusion, we must add that the loyalty of our citizens constitutes our nation's backbone. In this world, the backbone of America cannot be too strong; it cannot be too straight. The grade school teacher, the Sunday School teacher, the parents, and the everyday working man—all these have their part in making America a more loyal, a more honest, and a more trustworthy nation upon which to rely. To make our citizens realize this more fully, each of us must put forth his best effort. Each of us must do his best.

Game Warden Reports

By BOB RHODY

Fishing season is upon us now and some folks are having good luck around the country. I have seen some good strings of black bass and channel cats and also some yellow cats taken out of the Bosque River. The black bass are biting good in Lake Whitney from all reports I have had. April and May are sure good months for catching all species of fish. So if any of you have not been out fishing yet, now is as good a time as you will find to go.

We have already had one drowning on Lake Whitney this year. This person was not wearing a life preserver which might have saved his life. Even if you can

swim don't think you would be able to save yourself under all conditions. The safest thing to do is have a life preserver on at all times.

The snakes are beginning to move so watch your step. We have already had two persons in Bosque County receive rattlesnake bites this spring. The rattlers will be moving around looking for food since they have just come out of hibernation. If you have any place around your house or barn that might harbor rats or mice it might be a good safe idea to clean these places up. Because this would be a most likely place to find a rattler since about 80 percent of a rattler's diet is rats and mice.

I have received some fish application cards for those of you that have not already filled one out. However I doubt if you will receive any fish before this fall if you do fill one out now. For those of you that have already filled one out you should get your fish by the

last of May or first of June. If you don't hear from the fish hatchery by then, don't worry because they may run behind this year due to the great number of applications that have been turned in.

Remember, when either boating or fishing a life preserver can be the difference between life and death.

COUNTY AGENT REPORTS

By DeMARQUIS GORDON

A large number of Hamilton County sheep and goat producers attended the field day at McGregor recently. The experiment station had a good informative program planned, but due to unexpected situations the field day turned out to be something less than ideal. Judging from the attendance of other such field days the experiment station personnel should use a meeting room in the headquarters building. Almost two hours as many people showed up as were expected and as a result the crowd overflowed into other rooms and some had to stand throughout the program. The information given during the morning program and that printed in the research reports which were passed out was well received by the trip to McGregor.

Many of the visitors at the field day were interested in Dr. Maurice Shelton's research on early weaning of lambs. He said that research reports have shown that the milk production of most ewes decline rapidly after the second week and is of minor importance after 8 to 10 weeks. This small amount of milk production can be of little or no importance if the lamb has access to an adequate supply of high quality feed.

As I see it the early weaning system might be best for the rancher whose range is overstocked or has poor range land, but a limited amount of high quality forage such as oat pasture. He could put the lambs on the good pasture and furnish some supplemental feed if necessary. The ewes could either be sold or put out on the poorer range land.

In other instances where the range land is furnishing good quality grazing it would probably be more economical to leave the lambs with the ewes until the usual weaning time.

Other interesting research information was presented. One of the most important subjects was the problem of freeze losses in goats. Dr. Shelton estimates that

100,000 goats die each year in Texas from exposure to rain, wind, and low temperatures.

This year some cotton farmers are interested in the use of phorate (Thimet) and di-syston for early season cotton insect control. In general, phorate and di-syston will

give effective control of thrips, aphids and leaf miners for four to six weeks following planting. In some instances, under optimum conditions, even longer control has been experienced. However, the grower should not anticipate control for longer than 4-6 weeks

from planting date. Both phorate and di-syston are available as a 10 percent granular material to be placed in the furrow with the seed at planting time. These granular materials are recommended at the rate of 5-10 pounds of the 10 percent granular

material per acre, giving a rate of actual toxicant from 0.51 pound per acre. In addition phorate treated seed may be planted. Pre-

treated planting seed can be purchased through seed dealers or the grower can have his own planting seed treated with phorate.

OMAR BURLESON, A Quiet Man

Who Gets Things Done Receives Accolades From Washington

The President of the United States Remembers A Birthday . . .

Quiet • Methodical • Coolheaded

Omar Burleson is far from the flamboyant type, but states his views in quietly methodical fashion that has gained him the respect of colleagues in Congress. His 1963 attendance voting record was 100% and since 1947 his attendance and voting record is 98%.

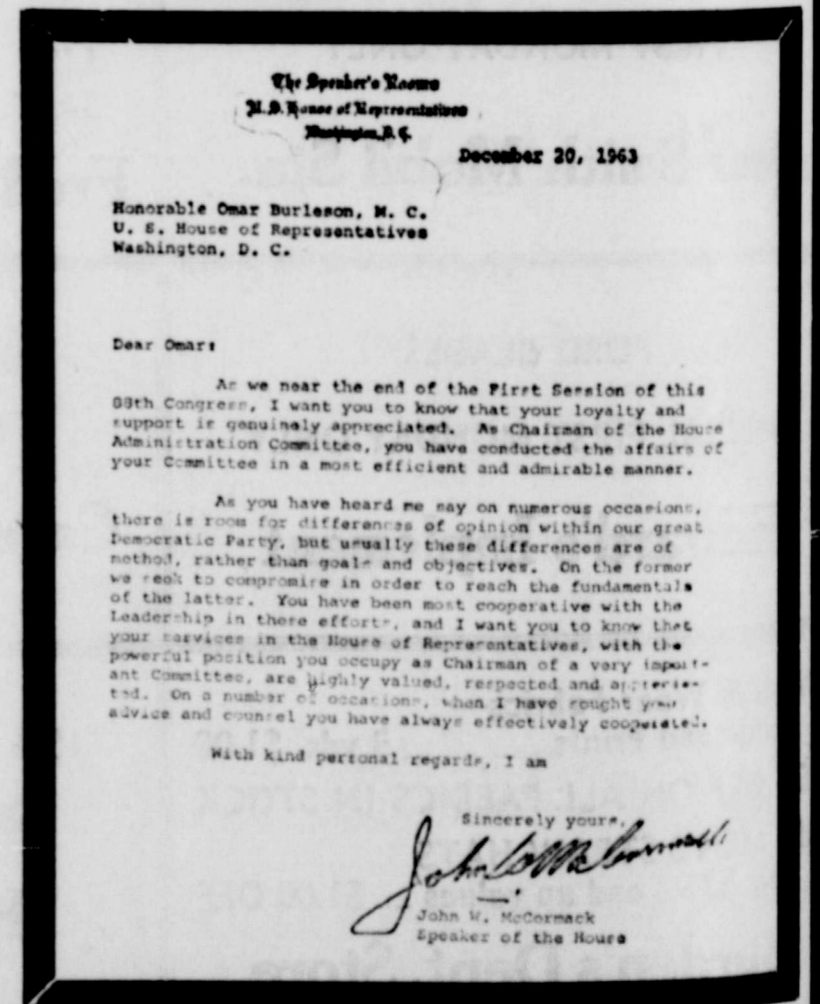

Omar Burleson has always voted for the defense bills of this country; he voted for the income tax reduction bill; he introduced a bill to limit beef imports to this country; he introduced the first bill to limit oil imports; he introduced a bill for a COMPLETE embargo on trade to Cuba.

In his 18 years in Congress Omar Burleson has voted to reduce the federal budget from three to 13 BILLIONS each congressional term; as Chairman of the House Administration Committee he has consistently effected economy in committee spending (i.e. reducing Adam Clayton Powell's committee spending 50%); he has always voted against foreign aid since the late 1940s and recent reaction in Congress is proving him correct. He voted against the Civil Rights Bill because in its present form it limits the freedom of all Americans; he is for the constitutional guarantees regardless of status.

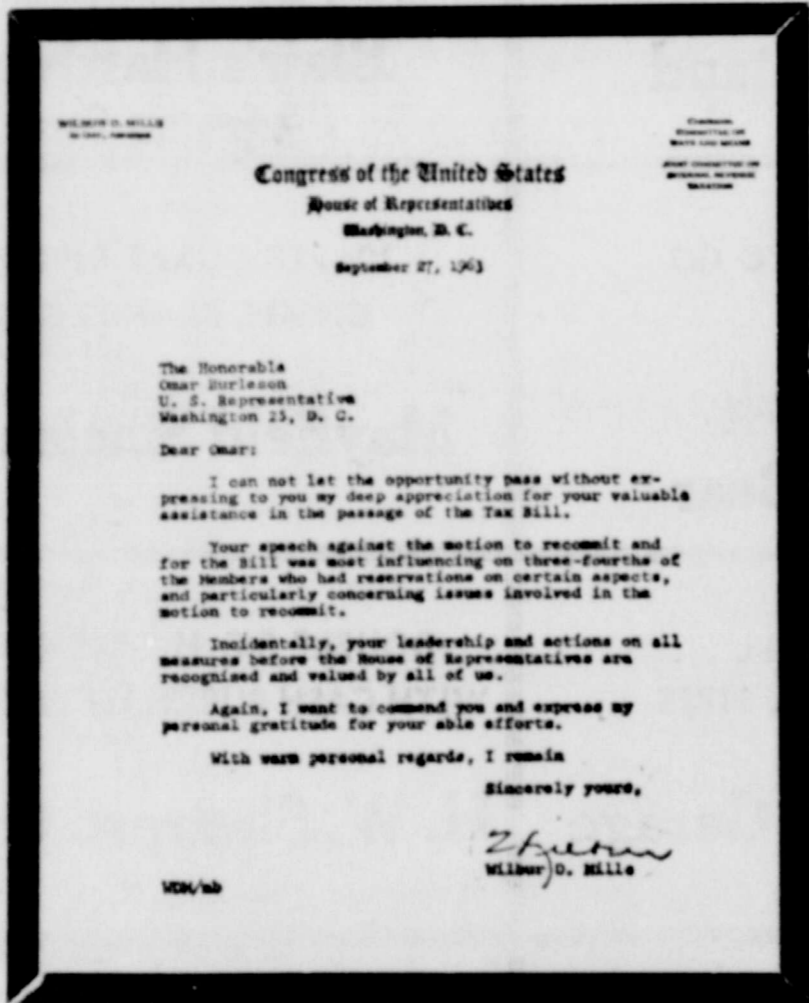

In 1961 the late President appointed him congressional delegate to the United Nations where he used knowledge gained as ranking member of the powerful Foreign Affairs Committee. He is also chairman of the Joint Committee on the Congressional Library and vice chairman on Printing.

Quiet, methodical and cool headed he is widely known in Congress as a quiet man who gets things done.
