Number 51.

WARD ENJOINED FROM ASSUMING REGENT'S DUTIES

JUDGE GRAVES ISSUES SECOND NOTABLE RESTRAINING ORDER IN UNIVERSITY MIDDLE

MUST COUNT JONES' VOTE

Order Mandatory Upon Secretary of Board Believed Jones Will Support Vinson

By Associated Press. Austin, Texas, July 11.—Temporary injunction restraining John Ward of Temple from assuming duties of regent in the University of Texas in the place of F. J. Jones was granted today at noon by Judge Ireland Graves of the Twenty-sixth District Court. The petition is also mandatory in that it compels the other members of the board to recognize Jones as regent and E. J. Matthews, secretary of the board to record Jones' vote. The injunction also restrains Ward from attempting to prosecute in any other court any suit having for its purpose the restraint of Jones from the discharge of duties as regent of the University.

Jones was in Virginia and was sick at a former meeting of the board and unable to attend, when Governor Ferguson declared his place vacant and appointed Ward to the vacancy. While Jones has made no public statement of his position it is believed he will vote against the discharge of President Vinson and other members of the faculty who have incurred Governor Ferguson's ire by their refusal to do his bidding.

VON BERNSTORFF MAY SUCCEED HERR ZIMMERMAN

HOLLWEG DECLARES LACK OF SUPPORT IN REICHSTAG HAS HAMPERED HIS POLICY

By Associated Press. Copenhagen, July 11.—Count Von Bernstorff former ambassador to Washington is mentioned in the lobby of the Reichstag as a candidate to succeed Foreign Minister Zimmermann in the case of his retirement.

HOLLWEG REPLIES TO CRITICS IN REICHSTAG

By Associated Press. Copenhagen, July 11.—The debate in the Reichstag main committee yesterday, according to reports received here, was opened by Dr. Gustave Stresemann, social liberal, with a sharp attack on Chancellor von Bethmann Hollweg's policy, particularly that of foreign affairs which he characterized as being of no definite consistent program. The chancellor reported that he was forced to look on all sides for support because the Reichstag offered no stable majority. Give him this and he would be able to develop a consistent program, he said.

The Vossische Zeitung asked that the chancellor express readiness and willingness to carry through necessary internal reforms. Herr David, socialist, painted a picture of the difficult internal situation in Germany. He declared the dueling between the government and the people must cease. Thereafter the chancellor briefly spoke about the committee without reaching any decision.

Afternoon papers yesterday generally assumed that an agreement of all parties except conservatives and extreme socialists can be reached by a joint declaration on peace, terms and internal reforms.

REFUSES TO MAKE KNOWN CROWN COUNCIL PROCEEDINGS

By Associated Press. Amsterdam, July 11.—Chancellor Von Bethmann Hollweg declined yesterday to make known to the Reichstag main committee the proceedings of the session of the crown council on Monday regarding which there is much speculation within and without Germany. The committee then decided to adjourn, according to a semi-official statement issued yesterday in Berlin.

GERMANS TROUBLES LOOKED ON ONLY AS TRANSITORY

By Associated Press. Washington, July 11.—Germany's latest difficulties are regarded by officials here as due largely to internal problems and probably of a transitory nature only. The dismissal of Foreign Secretary Zimmermann, Minister of Finance Herffrich or even Chancellor Von Bethmann Hollweg himself would be considered a surface movement for not until the great army generals are reached will the real crust of German militarism be broken. The German foreign office, it was pointed out today, has served during the war mainly as means to get the military officers out of trouble. Methods are brought to the attention of the civil branch only when it is desired to negotiate a way out of difficulties.

RETIREMENT WILL BE GAZETTED NEXT TUESDAY.

By Associated Press. Copenhagen, July 11.—A dispatch from Berlin to the Cologne Gazette says the retirement of Minister Helfferich and Zimmermann will be gazetted Tuesday.

"CANADA IN WAR FOR LIBERTY UNTIL THE LAST GUN IS FIRED!"

In these two photographs may be seen Canadians cleaning up one of the giant howitzers with which they have done great execution against the German lines on the French front. The Canadians have proved themselves keen artillerymen, although much of their fame in the war has been gained as infantrymen. They are quick to learn and adapt themselves readily to modern conditions of warfare in camp as well as on the battlefield. Recent reports tell how the newly arrived American troops fraternize especially with the Canadians, finding many Americans in the ranks of the Dominion's men. Celebrating Dominion Day, July 1, the Canadian national holiday, all the guns on the Canadian front in France fired a triple salvo against the enemy. Just before noon the guns ceased to fire. Simultaneously at 12 o'clock and again at 2 and four minutes past the hour, hundreds of guns from eighteen points to the westward of the Canadian front, burst out in a mighty clamor. The enemy for the third time on Canada's soil was driven back. It was realized that the Dominion is in the fight for liberty and democracy. "Till the last gun is fired," says a dispatch.

GREEK ARMY IS TO BE INCREASED, 3 TO 10 DIVISIONS

By Associated Press. Rome, July 11.—The Greek army is to be increased from 3 to 10 divisions, the equipment of which is to be completed within four months, according to plans outlined today to the Associated Press by Charles Jonnart, entente high commissioner in Greece, who has reached Rome on his way to Paris. "Concerning recruiting there can be no doubt," M. Jonnart said. "This will remain wholly with M. Venizelos and the Greeks. In the matter of munitions, heavy artillery, other supplies and equipment the cooperation of France and Great Britain will be required. After being torn by internal dissension for the last two years Greece finds her financial resources sadly depleted and she needs and expects friendly co-operation and assistance of those powers, which wish to see the smaller nation placed on a firm and enduring foundation."

THREE BOMB EXPLOSIONS IN CHICAGO TUESDAY NIGHT

By Associated Press. Chicago, July 11.—Three bomb explosions in widely separated sections of the South Side last night took a toll of one man dead, another probably fatally injured, scores of buildings damaged and dozens of families driven into the streets. Two of the explosions are attributed to the "black hand," the other to labor trouble, according to the police.

"ENEMY TRADING" BILL NEAR FINAL PASSAGE

By Associated Press. Washington, July 11.—Debate on the administration trading with the enemy bill neared the final stages in the House today and its passage by tonight seemed assured. The new provisions added to the bill in lieu of that to empower the President to designate all natives of enemy countries as "alien enemies" would provide that such designation shall be given only to citizens or subjects of enemy countries.

SWEDEN PROTESTS TORPEDOING OF FISHING BOATS

By Associated Press. Stockholm, July 11.—The government has instructed the Swedish minister at Berlin to protest against the torpedoing of Swedish fishing boats by German submarines.

PROCLAMATION

WHEREAS President Wilson has called upon the nation to mobilize all of its forces and energies, both in men and in means of supplying those men and our allies in the great struggle in which our country has engaged, and especially at this time with reference to conservation of food stuffs and supplies, and has asked for concerted and systematic organization throughout the country to the end that we may be able not only to feed our own people but our allies as well, and have appointed H. U. Hoover Commissioner to mobilize the country in that respect, and WHEREAS Commissioner Hoover has worked out and effected a plan whereby waste may be stopped and food conserved through systematic and thorough organization among the housewives of this country, and WHEREAS it is desired that an especial day be set aside for the pledging of the housewives and others to cooperate with the organization already effected and as above outlined, NOW, THEREFORE, I, A. H. BRITAIN, Mayor, City of Wichita Falls, Texas, do hereby set apart and designate Friday, July 13th, 1917, as the day upon which pledges may be made to cooperate with the plans of conservation of food stuffs and stopping of household and economic waste, said day to be known as Hoover Day, and when all of the housewives shall be given an opportunity and urged to sign the pledge prescribed by Commissioner Hoover and his associates, to the end that the organization shall be thorough and systematic and that each and every one shall do his or her patriotic duty in that respect. Let everyone realize that victory can not be won by the men at the front alone but by the furnishing not only of munitions but of foodstuffs to our allies, and that it is necessary that each one not only sign a pledge, but resolve that the pledge shall be faithfully and patriotically kept and that others shall be urged to a like promise and fulfillment. Witness my hand this 11th day of July, A. D. 1917. A. H. BRITAIN, Mayor, City of Wichita Falls, Texas.

SEEK TO HASTEN ACTION ON FOOD CONTROL BILL

By Associated Press. Washington, July 11.—Administration leaders in the Senate spurred on by Herbert C. Hoover's letter to President Wilson declaring that further delay in enacting food legislation threatened serious loss to both farmers and consumers today sought to hasten action by the agricultural committee in perfecting the Gore substitute for the food control bill under consideration in the Senate. The committee again today worked on the substitute bill while the Senate continued debate on general features of the measure. The Senate will vote on the bill July 21. The substitute is generally similar to the administration bill, except that power to control other industries besides food and fuel has been stricken out.

COUNTRY AND FARMERS ARE LOSERS BY DELAY

Washington, July 11.—A report on the food situation, prepared for President Wilson by Herbert Hoover, holding that both the farmer and the consumer are suffering while food speculators make unearned profits from the delay in enactment of food control legislation, was given out at the white house. Unless strong and efficient government action is immediately taken, the food administrator reported, the farmers will face a slump in wheat prices and consumers will be caught in a situation even more serious than that which already is resulting in "actual undernourishment" in the great consuming centers. The speculator, it is declared, is taking a large part of the

STEAMER KANSAN SUNK BY U-BOAT; HAD 50 IN CREW

By Associated Press. New York, July 11.—The American steamship Kansan carrying a crew of 50 men has been sunk presumably off the French coast, according to a cable gram received here today by the Franco-Canada steamship company, which chartered the vessel. The fate of those on board is not known. "We are practically helpless to safeguard either the farmer or the consumer," concluded Mr. Hoover, "until the pending legislation is passed." The report, in the form of a letter to the President, was issued through the public information committee, with the statement that publicity was given it "in order that the country may know how serious and far-reaching the consequences may be both to the farmers of the country and to the consumers of the present delay in passing the pending food legislation." No comment by the president accompanied the report, although he has more than once demonstrated his impatience over the repeated delays in Congress which have kept the entire food control program in a state of uncertainty for weeks.

EMMA GOLDMAN EXPECTED AT JEFFERSON CITY TODAY

Jefferson City, Mo., July 11.—Emma Goldman, anarchist and lecturer, is expected here today in company with a federal officer, for commitment for a term of two years for which she was sentenced in New York. She will be put to work in the manufacture of overalls and shirts.

GERMANS BEGIN MENACING OFFENSIVE ON BELGIAN FRONT

BRITISH REPORT ON GERMAN GAIN IN DUNES SECTOR

By Associated Press. London, July 11.—The enemy penetrated the British position in Belgium on a front of 1400 yards to a depth of 600 yards, says the statement issued by the British war office today. In the advance the Germans reached the right bank of the Yser near the sea. The attack followed a 24-hour bombardment on which the defenses in the Dunes sector near the coast were levelled. The sector was isolated by destruction of a bridge over the Yser. The announcement adds: "Further south, opposite Lombardine, the enemy gained temporarily some of our advance positions, the enemy was driven back to his own lines by a counter attack."

RUSSIANS ADVANCE ALSO ON LEFT BANK OF LOMNICA

By Associated Press. Petrograd, July 11.—In addition to capturing Halicz the Russians took 200 prisoners and 20 guns. They also advanced westward to the left bank of the Lomnica river and pressed forward in the Bogarodchan Zelo front. These announcements were made by the war office today.

RUSSIANS STILL PURSUE ENEMY IN GALICIA

By Associated Press. Petrograd, July 11.—According to a telegram received from the general staff the pursuit of the enemy in Galicia continues. The capture of Halicz, key to Lemberg, is confirmed, the Russians taking prisoners and more than 50 guns.

GERMAN MARINE CORPS TAKE 1250 PRISONERS

By Associated Press. Berlin, July 11.—More than 1250 prisoners have been taken by the German marines in the West district of Belgium, army headquarters announced today.

RAIN PREDICTED IN NORTH TEXAS NEXT 24 HOURS

By Associated Press. Dallas, Tex., July 11.—Local rains in North Texas today served to break the terrific heat of the last few days. Reports to the local weather bureau were few in number but Observer Cline predicted from observations at a number of points there would be general rainfall in the upper portion of the state within the next 24 hours.

LIGHT RAINS FALL AT OKLAHOMA POINTS

By Associated Press. Okla., July 11.—A period of protracted and intense heat and drought was temporarily broken by light but general rains of last night and early this morning. The precipitation which ranged from one-tenth to an inch will give temporary relief to growing crops, particularly corn, according to the state board of agriculture.

MAJOR MORAHT SAYS TIME NOT RIPE FOR GERMAN OFFENSIVE

By Associated Press. Cologne, July 11.—Major Morahrt, military correspondent of the Deutsche Tages Zeitung, asks in a press article whether the moment has arrived for an offensive by Germany and concludes that for the present one is inadvisable. All Germany, he says, longs to hear the charging yell of the German armies in a big drive but it is doubtful whether the necessary superiority can be concentrated in any particular front to push an offensive through to success.

WATER PLANT BREAKS DOWN AT HILLSBORO

By Associated Press. Hillsboro, Texas, July 11.—Record breaking heat yesterday accompanied by a breakdown in the city water plant during efforts to supply the unprecedented demand for water, had its climax early today in a fire that destroyed five residences. Firemen could have checked the blaze but the crippling of the water plant left no water in the mains. The thermometer late yesterday afternoon registered 113 degrees here, according to a previous record of 109 degrees on August 17, 1905.

COMPTROLLER WARNS SALOON MEN ABOUT CLOSING TIME

By Associated Press. Austin, Texas, July 11.—Comptroller H. B. Terrell said today that he was receiving information to the effect that a number of saloon men over the state will disregard his ruling recently issued and close their place of business according to sun time and not by standard time as prescribed by the law. The comptroller announced today that the licensees of every liquor dealer in the state violating the closing order will be fined.

WIN 3000 YARD FRONT FROM BRITISH AT YSER

24 Hours Artillery Preparation Made Advance Easy--Guns Heard In London

The Associated Press war summary today says: Just as the Russians in the east have torn a big gap in the Austro-German lines in Galicia, captured Halicz and pressed on towards Lemberg, the Galician capital, the Germans on the western front have started a menacing offensive near the Belgian coast. The movement, while it may turn out to be nothing but a local effort or something with which the British can cope when the shock of the first thrust has been met, nevertheless indicates the possibility of a determined attempt to bend back the British flank on the Belgian coast and reach the French city of Dunkirk, about 17 miles distant. The Germans succeeded in their initial push by leveling the defenses through an intense bombardment for 24 hours and then attacking last evening over the devastated ground. The bridges across the Yser were destroyed by the heavy fire, and the sending up of reinforcements was found impossible. Thus a penetration of 600 yards on a depth of 1400 yards was effected, the Germans pushing as far as the east bank of the Yser. The attack also extended as far as Lombardine, but here, after having having temporarily driven in the British advance line, a counter attack forced the Germans back to their original positions. There have been no serious attempts by the Germans to break through the British front in Belgium since their two campaigns for Calais in the early months of the war. The first two were checked along the Belgian front by the combined British and Belgian defense, aided by the participation of British warships along the coast. Reports from London today indicate that the battle in Belgium is still in progress. The sounds of heavy firing heard in England all day yesterday were again heard today, beginning at noon. Sounds of distant firing were heard in London from 6 o'clock in the morning and until midnight. This morning in some of London's suburbs tremors like a slight earthquake could be felt. In the campaign which the revolutionary army of Russia is waging in Galicia the capture of Halicz, important though it is, is only an incidental feature. Given secure possession of it, Russians have the road to Lemberg well opened up to them and the continuation of their attacks on anything like the scales of the last ten days seems likely to result in the fall of the Galician capital at no distant date. In capturing Halicz the Russians took more than 30 guns and numerous prisoners. On the French front in France an attack was made by the Germans in the Woevre district near Fleury. They were ejected from a portion of the front in which they temporarily gained a footing.

ATTEMPT MADE TO BURN ELEVATOR AT VERNON TODAY

By Associated Press. Vernon, Texas, July 11.—Fire which is believed incendiary, today destroyed one of the grain elevators of the Shell Milling Company here. The loss was in excess of \$900. Destruction of grain and crippling of the food supply was supposed to be the incendiary's motive. Besides destroying the elevator the fire destroyed four Port Worth & Exeter freight cars. Because of the proximity of two large oil and gas tanks the entire northern section of the town was threatened. Several times men went to the tanks to remove burning clinders.

BOMBS ALSO DROPPED ON WAR OFFICE IN CONSTANTINOPLE BRITISH REPORT

By Associated Press. London, July 11.—An air raid on the enemy fleet off Constantinople was announced in a statement of the British war office today. Bombs were dropped on the Turkish cruiser Yildirim Sultani Zim, formerly the German cruiser Goeben. The extent of the damage to the vessel is not given. The war office at Constantinople was also attacked and a direct hit was attained by the British who returned without casualties.

PROMINENT MEN ARE GIVING AID TO THE ENEMY

By Associated Press. Lincoln, Neb., July 11.—Today the Nebraska Council of Defense issued a statement charging certain professors of the University of Nebraska and the "conspicuous representatives" of the Lutheran church in the state with "disloyal activities and passivity that has added to give aid and comfort to Germany as an enemy."

CITIZENS OF ROME, ARIZ., CLEAN OUT AGITATORS

By Associated Press. Rome, Ariz., July 11.—Hundreds of miners and citizens armed with rifles and pick handles started at sunrise yesterday to "clean" the town of agitators who they considered undesirable as the result of a strike called Friday by the metal miners branch of the Industrial Workers of the World which members of the International Union repudiated. Most of the industrial workers apparently learned of the proposed "drive" and left town during the night. Sixty-seven were herded together, searched and loaded into cattle cars and were started for Jerome Junction, 27 miles away.

SHOWERS FALL AFTER DAY OF UNPRECEDENTED HEAT

By Associated Press. Fort Worth, Texas, July 11.—After the hottest July 10 in the history of the weather bureau, the mercury according to 107 yesterday afternoon at 4 o'clock, showers began to fall here this morning. There had been a proportionate drop in temperature.

EARTHQUAKE AND TIDAL WAVE IN THE SAMOAN ISLANDS

By Associated Press. Melbourne, Australia, July 11.—A dispatch received here from Suva, Fiji Islands, says damage has been caused in the Samoan Islands by a severe earthquake and tidal wave. The Friendly Islands also have experienced an earthquake.

WOMEN OF TEXAS ISSUE ADDRESS ON UNIVERSITY SITUATION, PROTESTING GOVERNOR FERGUSON'S ACTION

Wichita, Texas, July 11.—No more notable address was probably ever issued to the women of this state than the following, which is signed by twelve of the leading women of Texas: To the Women of Texas: The bugle call summons us to service! The attack made by Governor Ferguson upon our State University strikes a blow at every home in Texas. The foundation of a home, the cornerstone of character in our children, is respect for law, obedience and fealty to the constitution of the state and with line upon line and precept upon precept to instill these principles in the hearts of her sons and daughters. The Constitution of Texas and the laws of Texas demand that a University of the first class be maintained, and that the affairs of the University be managed by a Board of Regents. Nowhere do the Constitution and the laws give the Governor of Texas a shadow of right to close the University or to administer its affairs, yet Governor Ferguson has seen fit to demand of the regents the dismissal of the president and certain other members of the faculty, and when a majority of the regents have refused to obey, he has vetoed the University appropriation, thus, as far as law in his power, closing the University doors in the face of our children for two years. How can we train our boys and girls to obey the laws, to respect and swear fealty to the Constitution, when the governor of Texas breaks the laws and violates the constitution? Next to the parents in moulding the character of the young come the teachers. No one can measure what

speeches that our University is a rich-man's school where the poor are treated with scant courtesy. We protest because we know by actual experience that this is not true, and because we mothers believe in the democracy that preaches and practices fraternity, not class antagonism; on this latter basis are our women organizations formed. Representing thousands of women of all social groups, of all industrial conditions, we feel that this is our University, given us by the Fathers of the Republic. As we have taught our children to honor the heroes of the Alamo, so have we taught them to be grateful to the Texas pioneers for establishing the University. This University Fight is our Fight. 1. Because the University is our property, since it was established by our constitution and is supported by our money. 2. Because we are the beneficiaries of the practical service of the University to the whole state. (a) Mrs. Kail, the president of the Farm Women's Congress, has well said: "The University has sent aid to the farm woman and has tolled unceasingly to make the home life of the rural woman less difficult. We of the country have seen our school buildings made over and public health bettered through the special help of Dr. A. Caswell Ellis, whose dismissal the governor demands." (b) We have benefited by the doctors, pharmacists and nurses sent out by the University. (c) Our waters and soils have been analyzed by the University Assaying department. Many of our best roads and bridges have been built by the University engineers. (d) Many of our country papers have been improved by the Department of Journalism of the University. (e) Business and legal advice has come from University-trained lawyers. (f) Our children have received the ground work of education in the public schools, often provided over by University-trained teachers. (g) Many of our ministers and missionaries have been drawn from the University graduates. (h) Our club work has often been directed by University programmes and lectures. (i) All our civic betterment has

Stock up for going-away time

When you go away, take the things you'll need for health and comfort—you may not find what you want away from home. Fill your needs from our complete stocks; get the kind you have always used, as well as save money by our usual lower prices.

You can be sure of finding exactly what you want here. We have complete stocks of things needed for your trip, including—

TRAVELING COMFORTS, TOILET NEEDS, CAMERAS AND SUPPLIES, RUBBER GOODS, SPORTING GOODS, NURSERY NEEDS--ANYTHING YOU'LL BE LIKELY TO WANT.

Come here first, before you go away. Take your things with you when you leave home, and be better satisfied.

If you cannot come, 'phone and we'll deliver your order quickly.

been aided by University influences. 3. Because our country needs the loyalty of Texas in its work of war preparation: (a) Since it has established there a training school for aviators. (b) Since it is using the Department of Domestic Science in the work of food conservation. (c) Since Red Cross work is there properly taught. (d) Since the loyalty of the Student Body is evidenced on every side and asks a larger field for its development. (e) Since it is training doctors and nurses to care for the sick and wounded of our army in France. (f) Because the present and future student body is looking to us for the protection of their educational rights. Governor Ferguson says there are too many people who have gone home with no higher education, but we say not so. Ignorance and not higher education, is the danger that threatens Texas and the United States. Most of our physical and mental suffering is due to ignorance. Most of our crime and poverty is due to ignorance. Most of our financial, industrial and political mistakes are due to ignorance. A large measure, the high cost of living is due to ignorance. The seven-hundred-million-dollar food waste is the result of ignorance. Our annual toll 300,000 dead babies is the result of ignorance. No one can accuse higher education of having brought these calamities about. Let us women of Texas take as our motto, "Down with Ignorance, up with the Democracy of True Learning." Let us not let the Governor of Texas close our University doors but rather let us open and the cause of all education be vindicated. Let each woman spread the truth; let meetings be called in every church and every school house. When the people know the people will do. Mothers of Texas, let us do our part to help Governor Ferguson. Mrs. Percy V. Pennybacker, Austin. Mrs. W. A. Warner, Claude. Mrs. Rebecca J. Fisher, Austin. Mrs. Chalmers W. Hutchinson, Fort Worth. STRONGLY ENDORSES NEW IRON TONIC FOR STOMACH TROUBLES

Mrs. Sallie George, 2212 College avenue, Fort Worth, Texas, has the following to say for Pep Systemic Pills: "I suffered intensely from stomach trouble, which caused me to belch, I had nervous headaches and spent many restless nights. I had attacks of rheumatism, which made me stagger when I got up. My limbs ached from this trouble, which caused me considerable misery all the time. I took many kinds of medicine for a number of years to make my liver act, with only temporary results. "Since taking nearly two bottles of Pep Systemic Pills, I find I am almost well of stomach trouble. I don't suffer with headaches and rest easy at night. "My rheumatism has left me and my liver is normal. I do not have those staggering, dizzy spells and am able to get about and do my own work. "I can't imagine how anyone could expect more good from a medicine than I have received, taking my age (Mrs. George is 77 years old), and condition into consideration. "I have been greatly benefited by Pep Systemic Pills and nothing can ever take their place in my estimation. "They certainly will do what they claim and most anybody can afford to try them." Pep Systemic Pills, the new iron tonic, is recommended for stomach troubles, constipation, sleeplessness, loss of appetite, malaria, nervous trouble, dizziness, heartburn, salivary gland, or any kindred ailments. If you are suffering from a weakened or rundown system, you should start a course of Pep Systemic Pills at once. You will be astonished how quickly any of these ailments will be relieved and with no bad effect whatever. Pep Systemic Pills are guaranteed not to upset the stomach nor discolor the teeth. Go to your druggist and buy a bottle of these pills today. They are guaranteed to give perfect satisfaction or your money will be refunded. For sale by Miller Drug Co.—Adv.

PLENTY SUPPLIES ARE ASSURED FOR THE NEW ARMY

Washington, D. C., July 11.—The Council of National Defense authorizes the following: Sufficient supplies for the National Guard and National Army are assured by the time these troops are in the Federal service. Since the last of March more troops have been outfitted than during the entire Spanish-American war. More than were supplied to meet the Mexican trouble. Furthermore, the troops sent to France took six months' supplies with them. About 300,000 men have been supplied since the last of March—between 200,000 and 225,000 regulars, about 30,000 National Guardsmen, and enough engineers, hospital and medical corps to make up the rest. The action of Secretary Baker in ordering the department to go ahead and order supplies when there was no money in the treasury that saved the day. The adjournment of Congress March 4, without passing the urgent deficiency bill, left the War Department without money to pay for the supplies for future needs, but the orders were placed and a great saving of time effected. Clothing and Tentage. Clothing and tentage have offered the most difficult problem. At times it has appeared that the country's capacity production of khaki and tent canvas would be insufficient. Cooperation of the supply division of the Quartermaster General's office, the committee on supplies of the Council of National Defense, and manufacturers has, however, met the difficulty. The committee on supplies announced that the tentage duck situation had improved so materially through the development of new sources of supply and the expansion of existing manufacturing facilities that it will be possible, if the War Department so desires, to place at least half a million of the new army under tents by September 1. Deliveries of an amount of tentage sufficient for 300,000 men before that date have already been arranged. This is considerably more than the National Guard will need even if all should go under canvas. The original plan to build 32 wooden cantonments for the accommodation of the new army was based on the belief held at first that tentage could not possibly be secured in filling the gaps of it. When it was discovered later that the shortage was less severe than at first supposed, the number of cantonments was reduced to 18, with an increase in the size of the cantonments and the men in charge of securing tentage are now confident that there will be no difficulty in filling the army's needs under the new plan. Contracts for all supplies, such as blankets, shirts, uniforms, overcoats, shoes and other clothing essentials needed by the initial army of a million, have now been arranged for by the committee on supplies and orders have been placed by the Quartermaster Corps. Deliveries on these have been promised prior to the 1st of September. Comment by Mr. Rosenwald. "In commenting on the work, Julius Rosenwald, chairman of the committee on supplies, said: "Through doing away with the system of competitive bidding in the open market we have been able to indicate where orders should be placed for uniforms and equipment at prices varying somewhat in different locations, but nearly always at a figure below that which the private wholesale buyer would have to pay, and giving only a fair margin of profit to the manufacturer. Through personal conference with the manufacturers the market has remained comparatively steady, eliminating the danger of price-inflation, which a big government project usually brings in its wake when bids are advertised in the open market. The result has been not only a big saving to the government in its supply contracts, but what is of far greater importance—the prices which the general public has had to pay have been usually increased as a result of the government's purchases." Supplies for Guardsmen. Each National Guardsman will receive clothing, shoes, hat, gun, etc., before he leaves his state. Lockstubs are immediately needed will be sent direct to the mobilization camps in the South. Clothing, etc., will be distributed at the armories to those National Guard units which are held at armories while being mustered into Federal service. The distribution will be made at the State mobilization cause in the cases of those states which have arranged to concentrate all their National Guard units at one place before they leave the state. The dates given for mustering into Federal service—July 15, July 25, and August 5—are the dates upon which it is planned to start the units toward the southern camps, where they will be further trained. If the final decision is to bring all the units into

TOURS IS SITE AMERICAN AVIATION CAMP IN FRANCE

Washington, July 11.—News of the first fatality among the Americans of the expeditionary force in France under Major General Pershing reveals the fact that American fliers are undergoing training in an aviation camp established in one of the most famous cities of western Europe.

"Sited in the garden section of central France, in the fertile valley of the Loire, Tours is 145 miles southwest of Paris by rail, and nearly 200 miles in an air line northeast of Bordeaux. It is the chief trade and population center of the Department of Indre-et-Loire and stretches for nearly two miles from the left bank of the Loire to the right bank of the Cher, which flows into the Loire a few miles west of the city. Before the war it was a favorite city with English and American tourists.

"While Tours has numerous important industrial establishments, such as iron foundries, steel, cement, pottery, and chemical works, leather, boot and shoe manufacturers, and automobile factories, besides its famous confectionary establishments, its chief interest for American aviation students will be its historic associations.

"The town takes its name from the Gallic tribe of Turones. It was an ally of Vercingetorix, the leader of the insurrection against the authority of Julius Caesar in Gaul in 52 B. C. Thereafter, the town was known as Caesarodunum for many years. It fell before the Visigoths just three years prior to the final collapse of the empire of Rome. Early in the 6th century it came into the possession of Clovis, but it was not until 732 that there was fought in this vicinity a battle which takes its name from the town and which saved Europe from the domination of Mohammedans. The Saracens, who had entered Gaul from Spain, which they had overrun, here met and were defeated by Duke Charles, commander of the Frankish forces. The battle raged all day and the Moslem leader, Abderrahman, was slain together with a vast multitude of his followers, estimated by ancient chroniclers at 375,000. In commemoration of this great victory for Christian Europe Charles received the surname of Martel, "the Hammer," on account of the mighty blow of his huge battle axe. This was the grandfather of Charlemagne.

"One of the most interesting, medieval treasures of Tours is the Cathedral of Saint Gaudens, begun in 1150

INCOME TAX COLLECTIONS SHOW BIG INCREASE

By Associated Press.—Austin, Texas, July 11.—There has been a material increase possibly over \$1,000,000 in income tax collections for the fiscal year ending June 30, according to A. S. Walker, internal revenue collector for Texas.

"Collections from all sources, for 1915-16 aggregated a little over \$4,000,000. While the collections for this fiscal year have not been officially announced, it is said they will exceed \$5,000,000.

"Those subject to income taxes have shown a greater willingness to remit this year than ever before, according to Mr. Walker. It is said, however, that not a few liquor dealers are holding back pending the outcome of the prohibition issue in congress. It is expected a number of liquor dealers will suspend business temporarily until this question is settled.

WESLEY GIRLS MEET WITH MRS. B. G. ONEAL

Mrs. Ben G. Oneal was hostess to the Wesley Girls on Tuesday afternoon, the time being spent as is customary with fancy work. Refreshments of grape sherbet and angel food cake were served to Mesdames Jim Hanks and A. H. Drake, Misses Ben Cook and Muriel Hickman.

MISS MABLE BUNDY HOSTESS TO F. F. F.'S.

The F. F. F.'s were entertained in their usual pleasant social session Monday afternoon by Miss Mable Bundy. Fancy work, games and a short program of readings and music was the order of the afternoon and refreshments of feed punch, sandwiches and individual cakes were served. The members present: Misses Virginia Miller, Judith Sherron, Josephine Freeman, Maurine Smith, and the hostess.

SHOT FIRED BY WIFE FATAL TO ABILENE MAN

By Associated Press.—Abilene, Texas, July 11.—Sam Spicer, who was shot by his wife, Monday while in a moving picture theatre died late last night. After the shooting Mrs. Spicer waited several blocks to the jail and surrendered.

SOCIETY THE ROAD TO FRANCE

(The poem which was awarded the \$250 prize in the National Arts Club competition May 30. Jury: Joyce Kilmer, Percy Mackaye, Edward J. Wheeler.)

Thank God our Mberating lance
Goes flaming on the way to France!
To France—the trail the Gurkhas
found!
To France—old England's rallying
ground!
To France—the path the Russians
strode!
To France—the Anzacs' glory road!
To France—where our Lost Legion
ran
To fight and die for God and man!
To France—with every race and breed
That hates Oppression's brutal greed.

Ah, France—how could our hearts
forget
The path by which came Lafayette?
How could the haze of doubt hang
low
Upon the road of Rochambeau?
How was it that we missed the way
Brave Joffre leads us along today?
At last, thank God! At last we see
There is no tribal liberty!
No beacon lighting just our shores!
No Freedom guarding but our doors!
The flames she kindled for our sires
Burns now in Europe's battle fires!
The soul that led our fathers West
Turns back to free the world's oppressed!

Allies, you have not called in vain!
We share your conflict and your pain!
"Old Glory," through new stains and
folds,
Partakes of Freedom's sacraments!
Into that hell his lusts his hates!
We drive the foe: his lusts his hates!
Last come, we will be last to stay—
Till Right has had her crowning day!
Replenish, comrades, from our veins,
The blood the sword of despot drains,
And make our eager sacrifice
Part of the freely-rendered price
You pay to life humanity!
You pay to make our brothers free!
See, with what proud hearts we advance—
To France!
—Daniel M. Henderson.

REGULAR AND CALLED MEETINGS OF REBEKAHS

The Rebekahs will meet at 2:30 Thursday afternoon for the regular meeting at which time officers will be installed. On Saturday night a called meeting for the purpose of initiation will be held. All members are urged to attend these meetings.

FREE FROM PAIN

And No Longer Nervous, Since Taking Cardui, Says Georgia Lady.

Trenton, Ga.—Mrs. Ellie Gifford, of his place, writes: "I have always suffered... but was worse after marriage. I would have... pains and misery in my stomach and hips. I would have a bad sick headache every time, which would generally last two days. I had always read what a good medicine Cardui was, so I thought I would try it. I used two bottles and it helped me.

Fifteen months later I began to be nervous and was worse at my... But it these times I did not have any pain and do not now suffer any pain. But I was very nervous, so nervous that my hands would shake. Any noise would make me jump. So I took two more bottles of Cardui. I have never been nervous since... and do not have any pain. I think this is all due to Cardui and Slack-Draught."

Cardui, the woman's tonic, is composed of pure, vegetable ingredients, which have been recognized for many years by standard medical books as of medicinal value, in the treatment of many diseases peculiar to women. Try Cardui.

JIM BRIGGS SHOES YOUNGEST HORSE THAT EVER WORE SHOES

Jim Briggs of the Palace Horse Shoeing shop believes he has put shoes on the youngest equine ever shod. The animal was a four months' old colt.

The colt was following a mare being driven by a man named Wilson of Dundee who was on his way to Oklahoma. Trotting over the hard ground the colt's hoofs became so tender that it could hardly get along. When Mr. Wilson reached Wichita Falls he referred the matter to Mr. Briggs. The latter made a study of the colt's hoofs and told Mr. Wilson that he could shoe the colt so that it could travel without difficulty.

Wilson told him to go ahead. Briggs forged a pair of diminutive shoes and a set of nails of proportional size.

The colt stood like a veteran horse while he shod it and when he had finished trotted off swinging its feet proudly. Mr. Briggs felt justifiable pride in his job. The job was a most delicate one and a miscalculation would have resulted in injury to the colt.

HOUSE-TO-HOUSE CANVASS FOR 'HOOVER PLEDGES'

WOMEN OF CITY ORGANIZE TO AID IN SAVE FOOD CAMPAIGN

MASS MEETING IS HELD

City Divided into Districts And Committees Named to Canvass in Each District

Friday, July 13, will be 'Hoover Day' or Women's Registration Day, so named by proclamation of Mayor A. H. Britain following the women's mass meeting held this morning at the Chamber of Commerce. Talks were made by Frank Kell and Mayor Britain, following which Mrs. J. F. Traylor, Wichita county chairman of the Food Conservation movement, announced the appointment of committees.

The work is to start promptly at 8 o'clock Friday morning, and the committees will make a house-to-house canvass of each district with the housewives pledge cards to obtain signatures. The cards have been given to the chairman of each district, but in case their supply is inadequate additional cards may be obtained at the Red Cross headquarters or at Dr. Traylor's office at the city hall.

Mrs. Traylor has appointed as her executive committee for the work of registration, Frank Kell, chairman; Mesdames J. A. Kemp, T. B. Smoock, S. H. Johnson and Mayor Britain.

Mr. Kell speaks. The morning attending the meeting this morning, for the most part those who took part in the registration, left the Chamber of Commerce deeply impressed with their responsibility in this present war and with a clear idea of what the woman's part is to be as a result of Mr. Kell's talk.

There probably will be no more important order issued by the food administration, when the bill becomes a law, than that by which the women of the United States are now asked to register, said Mr. Kell. 'The most important part that America has today in the war is in keeping herself and the other nations of her allies fed. We are going to have to find provisions for our allies as well as ourselves and it will mean the most far reaching economy. The place to teach that economy and to bring education to assure that our crops will feed us and have some to spare for our allies is to begin in the home kitchen. Only by enrolling the assistance of the individual can the most efficient work be done.'

EMMA GOLDMAN AND BERTRAM GET TWO YEARS. By Associated Press. New York, July 11.—Emma Goldman and Alexander Berkman, anarchists, convicted here of conspiracy to obstruct operation of the Selective Draft Law, started for prison in the custody of federal marshals a few hours after the verdict had been returned.

Berkman will be taken to the federal penitentiary at Atlanta, Ga., and Miss Goldman to the state penitentiary at Jefferson City, Mo. Each was sentenced by Federal Judge Mayer to the maximum penalty of two years imprisonment and to pay a fine of \$10,000.

In addition to the severe sentence, Miss Goldman and Berkman are liable to be deported because they are not citizens and Miss Goldman claims citizenship only on her father's application.

When Judge Mayer passed sentence the anarchists appeared to be completely awed. In sentencing the prisoners, Judge Mayer said he regretted they had not put their abilities to better use, since they could have rendered highly influencing elements in imparting knowledge to the foreigners who came here.

Miss Goldman asked for the verdict set aside on "all the grounds and all the formalities." The prisoners' pedigrees were taken, Berkman saying he was born in St. Petersburg, forty-one years ago. Miss Goldman gave her birthplace as Kovno, Russia. She said she is 48 years old.

"We were convicted because we were anarchists," Berkman said. "We were convicted out of prejudice." "The very fact that we were denied a few days' relief is because we are anarchists," Miss Goldman declared. "It shows the prejudiced attitude of the court. We were frank and outspoken and we stood by our opinions."

In charging the jury Judge Mayer said: "This is not a question of free speech, for free speech is guaranteed to us under the constitution. No American worth the name believes in anything else than free speech, but free speech means no license, but counselling disobedience of the law."

FRIBERG ITEMS. S. M. Thompson is working in one of the glass factories in Wichita Falls and his services are needed in the National Guard.

Mrs. Callen returned from the Pastoral Institute at Austin last Sunday. She is out of danger. The Ladies Aid Society is having the church overhauled preparatory to having it repaired. The society will hold its next regular meeting with Mrs. Ben Roodiger next Thursday.

A revival meeting will start at the M. E. Church at Thornberry beginning next Sunday morning. The pastor has secured the services of Rev. L. V. Pickett and wife of Grandfield, Okla. Mrs. Pickett is a fine singer and good personal worker. Rev. Pickett is a good preacher. You are invited to come and hear them and enjoy this "Feast of Tabernacles."

BILLY HART BENEFIT PROGRAM HIGHLY PLEASING. The program at the Billy Hart benefit last night was a good one in every respect, as was evidenced by the hearty applause of the very small but appreciative audience. Sol Blank, an interlocutor and George Hodgins and Wilkie Talbert as end men worked off some exceedingly bright gags, some real, some general and some awful.

INCENDIARY IS SUCCESSFUL IN SECOND ATTEMPT. Fire, apparently of incendiary origin, destroyed the county horse barn, just north of the Panhandle refinery, about 11:30 this forenoon. Yesterday afternoon an alarm was turned in from the same place, but the fire was extinguished before any material damage was done. In today's fire the barn with its entire contents was a total loss.

COUNTY HORSE BARN NEAR PANHANDLE REFINERY DESTROYED BY FIRE. Fire, apparently of incendiary origin, destroyed the county horse barn, just north of the Panhandle refinery, about 11:30 this forenoon. Yesterday afternoon an alarm was turned in from the same place, but the fire was extinguished before any material damage was done.

FEDERAL TRADE COMMISSION NEEDS FAR MORE POWER. Washington, July 11.—In answer to a Senate resolution asking what is done to relieve the news print situation, the federal trade commission today, in a formal statement, points to its recent recommendation to congress that the government give power to assume control of print paper manufacture and distribution.

The commission emphasizes the need for more power. At one time it says a formal complaint against news print paper manufacturers was considered, but the plan was carried out for fear of embarrassing the department of justice, which meanwhile had started prosecution against the manufacturers for alleged violations of antitrust laws. As an order to print paper manufacturers to desist their "resent practices would have afforded no immediate relief, the commission was powerless to remedy conditions.

The commission's statement adds "and earnestly invites attention to the serious condition which is confronting the public and the newspapers of the country. If a situation continues where prices are so high for paper based not on cost of production and fair margin of profit, but upon conditions such as have obtained in the past, and give promise of continuation in the future where price is based upon panic demand.

WACOAN WITNESSED ARRIVAL OF PERSHING'S CONTINGENT. Waco, Texas, July 11.—Crawford Glass arrived in Waco after an exciting sea voyage to France and return. The ship in which he sailed was twice torpedoed by German submarines, and finally was compelled to put into a foreign port for repairs. At a French port it was Glass' privilege to witness the arrival of one contingent of Pershing's force of United States army regulars. Mere words, declares Glass, will never be adequate to describe the reception accorded the Americans.

PARROTS WORD OF DISTRESS BRINGS HELP QUICKLY. Texarkana, July 11.—"Hurry, quick; hell's broke loose here." These words were cried in a shrill voice at the union passenger station here this morning, startling scores of passengers. Employees searched about the station in order to find the "brak." Finally the author of the cry was found in a large coop containing about 100 Mexican parrots being shipped from Laredo to Des Moines, Iowa. One of the parrots was almost overcome with thirst and he uttered the above words to impress station employees with the seriousness of his situation.

CROPS PROSPECTS IN ITALY MOST PROMISING. Rome, July 11.—Crop prospects in Italy are promising. Wheat everywhere is up to the average, today, which have been planted in increased quantities are also good. BILLION DOLLAR SHOE CONTRACT IS AWARDED. Washington, July 11.—A billion dollar shoe contract was let today by the government. Twenty-one concerns shared in the agreement to furnish 2,175,000 pairs of marching and field shoes for the army, to cost a total of \$1,028,775,000.

THE SOCIAL KEY

INFLATING AND TESTING NAVAL DIRIGIBLE BALLOON

The inflating and testing of the envelope of a big dirigible balloon now being constructed for the United States military forces are shown in the picture. These monster "gas bags with paddles" are not considered as effective as airplanes. This has been demonstrated conclusively by the experiences of the Zeppelins, Parsevals, etc. in the great war. But they have their military carrying purposes, and the American government has been experimenting with them. Inflation brings out the defects of the gas bag, to be discovered by the making of careful tests.

Charles S. Herman, president of one of the largest whiskey making concerns in the country declares that within sixty days not less than 2,000 saloons will be forced to quit business in Chicago, and that a like proportion throughout the entire country would be similarly affected, caused by the enactment or enforcement of the food control bill. He also estimates that the supply of whiskey now in the United States, at the present rate of consumption will be completely exhausted within one year. To some, no doubt, this will read like a tragedy, but as for ourselves, it is not going to cause us to shed any tears.

Are we to understand that simply because a man has made good as county school superintendent he is qualified and capacitated to perform the extremely arduous as well as delicate duties pertaining to the office of president of a university? Carrying out the reasoning, one who has succeeded as a country school teacher should be given a college professorship. And that is just about what will happen if the governor's program goes through.—Denison Herald.

WICHITA FALLS BOY WITH ADMIRAL SIMS' FLOTILLA. M. D. Morgan has received a cablegram from his son, Lee, who is one of Uncle Sam's fighting men in the navy. The cable was sent from Queenstown, Ireland, stating that young Morgan was well and sending his regards to his parents, and was received by Mr. Morgan on July 2nd.

DALLAS JUDGE HOLDS WINKING NOT MASHING. Dallas, July 11.—Winking at a woman is not an "indecent gesture" and can be construed in many other ways in the opinion of Police Judge Bennett Hill, who today refused to convict a young man of "mashing" after testimony had been submitted that he winked at a woman whom he passed on the street.

Market Report

Fort Worth Live Stock. Fort Worth, Texas, July 11.—CATTLE—Receipts, 10,000; market steady. Heavies, \$6.00 to \$11.00.

Chicago Grain Futures. Chicago, July 11.—Nervousness over checks on trading in corn at St. Louis and Kansas City had a bullish effect today on corn prices here.

New York Cotton Futures. New York, July 11.—Better prospects for showers and rains, West and a rather less favorable view for peace prospects seemed to be responsible for scattering liquidation in the cotton market today.

When Justice Cost Less. Records of a justice of the peace in Butler county, Ohio, from more than a century ago, show that the magistrate's fee was then 12 1/2 cents in all cases.

Little John Had It Right. The twelve-year-old twins learned a lesson in gift making when they looked at their five-year-old brother.

Love Files From Demand. So far from there being anything divine in the low and proprietary "Do you love me?" it is only when you leave and lose me, by casting yourself on a sentiment that is higher than both of us, that I draw near, and find myself at your side.

Close to the Truth. A friend came to visit us one evening and became much attached to my little niece, who is three years old.

Vegetation as Index of Land Value. When it is proposed to bring a tract of land under cultivation for the first time, information as to the soil and climate is always an urgent desideratum.

Broke It Gently. The impetuous author passed over the manuscript with a faltering hand. The editor of the Bugle started. "Er—Mr. Wrightly," he said, with the air of a man who has just become addled with a great thought.

Such Is Feminine Nature. Once there was a modest young man he boasted in a characteristically triumphant way that he had never used tobacco nor liquor.

After a Bad Day. If you are weary after a fatiguing day, on reaching home take ten minutes' rest lying prone on the back.

RUSSIANS TAKE 10,000 PRISONERS IN 3 DAYS. Petrograd, July 11.—The Russians have reached the Trojitz-Lisitzva-Kosmack line in the fighting between Sunday and Tuesday in the direction of Tolina, the Russians took more than 10,000 prisoners.

REPUBLICAN TROOPS ENTER CITY OF PEKING. Washington, July 11.—Republican troops have entered Peking and momentarily expect abdication of the restored Manchurian emperor, Puan Tung, according to a cablegram to the Chinese legation here from the Chinese foreign office.

THURSDAY WILL BE A SPECIAL RECRUITING DAY. Special recruiting efforts for the National Guard will be made through out the state tomorrow. Efforts will be redoubled here. So far more than 25 men have been recruited here this week and it is believed with a special effort this number can be equaled tomorrow.

REAL DISCOVERER OF AMERICA

John Cabot's Memorable Voyage Never Has Had the Recognition It Deserves.

It is one of the ironies of fate that the new world should bear the name of America, thus perpetuating the name of an adventurer, Americus Vesputius, whose claim to being the "first discoverer" of the western continent was based on a falsely dated letter, re-marked the New York World.

Columbus had succeeded only in attaining the island fringe of the continent before Cabot set foot on the mainland. Cabot sailed over waters far stormier and more difficult than any encountered by Columbus, and his equipment and resources were vastly less.

GIVES ADVICE TO HUSBANDS. Writer Offers the Suggestion That Men Should Occasionally Praise Their Wives.

Apparently there are some men in the world who would not be likely to live long if by any possibility they should be betrayed into praising their wives, remarks the Philadelphia Inquirer.

The man of this description is a self-sufficient creature, who evidently believes that creation was instituted for his benefit. He is a little surprised and a good deal annoyed that things were not arranged more to his liking, but he tolerates the arrangement, not because he approves of it, but because he cannot help it.

The wife of this man is a woman whom no old maid should envy. And no old maid would ever marry this man when his wife is worn out and laid in the grave; if she does she will regret it to her latest day—that is, unless she has backbone enough to put the man where he belongs and keep him there.

The man who never prates his wife will find fault with everything on the earliest possible occasion. It is the easiest thing in the world to find fault with; and the proverbial sliding down hill, it gets to be a habit with some men, and they are hardly conscious when they are exercising it.

Why cannot a man show his wife that he appreciates her efforts to please him? Why cannot he praise the pudding of his wife as well as the cooking of her neighbor Smith?

Why cannot he speak kindly of her mince pie, and charitably of her sponge cake? Why cannot he say that the new hat is becoming to the face of the woman who loves him?

Kind words make his wife happy, and no decent man ought to withhold them, and he will find that the general run of affairs in his household will be smoother all around.

The Boyish Woman. I think it is the boyish woman, curt and kind and impersonal, who gains the confidence of other women.

Staking a Larkspur, by Anne Douglas Sedgwick in Century Magazine.

Labor. "Labor is the instituted means for the methodical development of all our powers under the direction and control of the will."—J. G. Holland.

Motive Must Be There. God made man to go by motives, and he will not go without them any more than a boat without steam or a balloon without gas.—Henry Ward Beecher.

He Would, Indeed. If a man should happen to reach perfection in this world, he would have to die immediately to enjoy himself.—H. W. Shaw.

Optimistic Thought. The instability of a friend is more grievous than the malicious hatred of an enemy.

Wrong Way to Go About It. "Experience is de best teacher," said Uncle Eben, "but gittin' arrested ain no way to study law."

WANT VOLUNTEERS FOR "HOOVERDAY" REGISTRATION

Still more volunteers are desired to serve in registering the women of Wichita Falls on Friday, "Hoover Day," in fact, those in charge of the registration declare that more helpers should be had if Wichita Falls is not to fall down in this undertaking.

"If enough women will volunteer this whole city can be covered easily in one forenoon," said one of the leading workers in civic matters, and women's clubs this afternoon. "But right now we are afraid that it will take longer simply because the women are not offering their services as they should and some when they are asked to work refuse."

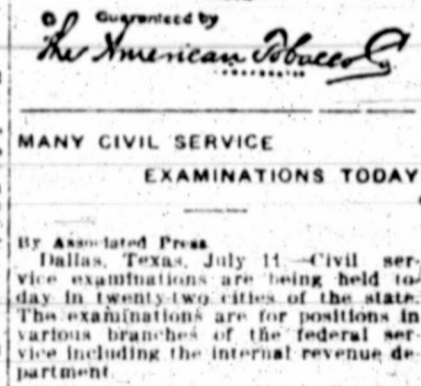

FREE LUNCH WITH NICKEL GLASS TO PASS OUT. By Associated Press. New York, July 11.—Free lunch and a large glass of beer for a nickel will pass into history beginning with Monday, according to an announcement by the Retail Liquor Dealers of New York.

ONLY ONE SALOON FAILS TO RENEW LICENSE. Only one saloon in Wichita Falls took umbrage at the action of the United States Senate in refusing to permit the manufacture of grain into whiskey, and refused to take out a license.

FARMERS AGITATED OVER COTTON EMBARGO. Austin, Texas, July 11.—Farmers in the southwestern part of the state especially in the border counties are considerably agitated over the plan of the federal department of agriculture to place an embargo on the production of cotton within certain zones in the border counties as a measure to prevent invasion of Texas by the pink boll worm.

LIFE SENTENCE GIVEN TO SAN ANGELO KILLER. San Angelo, Texas, July 11.—A life sentence was meted out to M. H. Bibb today by the jury which tried him for the killing of Edward W. Stokes on December 8, 1916. Bibb shot Stokes while the latter was in the company of Mrs. Bibb, who had been suing for divorce. Both men were stockmen. The jury deliberated 18 hours.

RED CROSS NEEDS SUPPLIES BADLY CHAIRMAN SAYS

According to a letter from Eliot Wadsworth, the acting chairman of the Red Cross, the need of speeding up the work of making garments and supplies is imminent. The letter says: "Based upon recent cable advices from our allies, the following supplies are urgently needed: 100,000 pairs of socks, 250,000 pairs of ward slippers. These hospital garments are greatly needed now and should be made according to the specifications given in the instructions. The production of bandage and surgical dressings, however, should not be allowed to fall off on account of the difficulty of getting raw materials abroad, a special effort should be made to have the above articles shipped at the earliest possible date."

GEN. SCOTT SAYS SPIRIT OF RUSSIAN TROOPS SPLENDID

Petrograd, July 8.—(Delayed)—"The Russian army is going to fight. The spirit among the troops everywhere is excellent. The advance so brilliantly begun has every chance for successful continuation." This was the reassuring comment by Major General Hugh L. Scott, chief of the general staff of the United States army, on his return tonight from a ten days tour along the southwestern front into Rumania. General Scott described in detail and with the greatest enthusiasm the Russian advance of June 30, which he personally observed at close range from a point near Brzeznice. "The precision and exquisite working of the Russian machinery was a marvel to me. Every man was in his place and there was not the slightest sign of insubordination or reluctance among the men."

OFFICERS CHOSEN 6 MONTHS' TERM BY LION'S CLUB

Officers for the ensuing six months were elected and a constitution and bylaws adopted by the Lion's Club on its second weekly luncheon today. The officers elected were as follows: W. H. Ferguson, president; Judge Harvey Harris, vice president; J. C. Lewis, secretary; W. M. Frank, treasurer.

ARGENTINE SUSPENDS EXPORT DUTY ON SUGAR

Buenos Ayres, July 11.—The government has suspended the suspension of export duties on sugar up to 50,000 tons.

BLOOD ON THE MOON AND MANY FIGHTS YESTERDAY

There was blood on the moon in Wichita Falls Tuesday and the day was marked by a series of fights and events that kept the police wondering where trouble was going to break out next. There appears to have been four fights, or rather one fight that had four installments in different places. The final fight was staged at a place on Ohio avenue and it was a fight to a finish. One man was so badly beaten that the services of a physician were needed. In all, eight fights for a prize were assessed in the city court and there is a suspicion that this number did not include all who were engaged in the affrays.

NOTICES

SHERIFF'S SALE. STATE OF TEXAS.

By virtue of a certain order of sale issued out of the Honorable 78th District Court of Wichita County, on the 2nd day of July, 1917, by A. F. Kerr, clerk of said court against F. J. Maier and W. H. Ellinger for the sum of Twelve Hundred Ninety One and 25/100 (\$1291.25) Dollars and costs of suit in cause No. 726 in said court, styled J. G. Hardin versus F. J. Maier et al. and placed in my hands for service; I, G. A. Hawkins, as sheriff of Wichita County, Texas, did on the 3rd day of July, 1917, levy on certain real estate situated in Wichita County, Texas, as follows, to-wit:

Lot Fourteen (14) in block No. Two Hundred and forty (240) in the City of Wichita Falls, Texas and levied upon as the property of said F. J. Maier and W. H. Ellinger.

And on Tuesday the 7th day of August, 1917 at the court house door of Wichita County, in the City of Wichita Falls, Texas, between the hours of ten a. m. and four p. m., will sell said real estate at public vendue for cash to the highest bidder as the property of said F. J. Maier and W. H. Ellinger by virtue of said levy and said order of sale.

And in compliance with law I give this publication in the English language once a week for three consecutive weeks immediately preceding said day of sale, in the Wichita Daily Times newspaper published in Wichita County, Texas.

Witness my hand this 3rd day of July, 1917. G. A. HAWKINS, Sheriff Wichita County, Texas.

By R. L. Lassiter, Deputy. (July 4-11-18.) 31c

GERMAN CLERGY BELIEVES KAISER INSTRUMENT OF GOD

Sandforth Griffith in the Outlook. "The war, you see," explained the diminutive curate with the expansive gesture, "is the will of God against iniquitous France. The most righteous Emperor of Germany is his instrument in this bitter task. At my rather quizzical smile he added, reprovingly, "and a most loyal son of the Church."

"I ventured to remark that the kaiser is commonly believed to be Protestant. But the curate passed the pain of his hand along the palting before him, as though smoothing out the wrinkles of earth, and corrected me by explaining that his majesty was 'obliged to fulfill the outward formalities of the Church.' Could William II have been confused with James II in the mind of this simple man? As he spoke my eye wandered along the jagged, yellow teeth of the Saracenic battlements surrounding the city of Toledo, only a few steps away from where we stood on the steps of the little church. In words though it seemed to me, we were at least a century distant.

Several conversations of this sort awakened my curiosity to become better acquainted with this new Spanish saint. In the course of a few weeks I found him reappearing—now in the words of a prelate, now in the eloquence of a statesman, and often enough in the columns of certain

At the Theatres

The Empress. Vivian Martin, the clever Moroso-Paramount star, who will be seen at the Empress today in a dramatization of Lois Zellner's interesting story, "Giving Becky a Chance," is having a very hard time trying to keep up her reputation. Through some secret channel Miss Martin learned that thousands of young girls throughout the country were using her gowns as models for their own and it is the problem of living up to this and not showing any costume that is not absolutely correct which is causing Miss Martin many sleepless hours; consequently, she has found it necessary to keep in constant communication with a leading modiste in New York city and secure from her the latest advices in the fashionable styles. As a picture is taken some three or four months before it is released, Miss Martin has

to anticipate the public taste in order that when her picture appears on the screen, the gowns will be timely. The Majestic. The cast selected by George Fitzmaurice, the famous motion picture director, to support Mollie King in "Blind Man's Luck," the Pathé feature in which she is to be seen at the Majestic Theatre Friday, includes Earle Fox, William Riley Hatch, Zeffie Tilbury, Helene Chadwick and Frances Byrne. "Blind Man's Luck" is said to show ample evidence of George Fitzmaurice's careful and able workmanship; he is the director of "Via Wireless," "At Bay," "New York," "Arms and the Woman," "Kickin'," "The Hunting of the Hawk" and other big Pathé successes. "Blind Man's Luck" briefly is the story of a girl born into a family of somewhat shady connections. She leads the atmosphere of illegality and fear of the police, in which she lives. Though innocent she is sought by the police as an accomplice in a crime.

To escape them she is forced by a strange chain of circumstances into marriage with a wealthy young man who has been spending his time and money in following her adventures, and not the end. The Plaza. Nera Gerber, supporting Herbert Rawlinson in the special attraction, "Like Wildfire," which comes to the Plaza Theatre tonight, boasts that though she was trained as a lawyer, and is at present one of the leading ladies at Universal City, that she is just as good a housekeeper as the girl who has never spent a law book or seen her features on the screen. Miss Gerber studied law to please her father, a well known jurist of Chicago, and her native land wanted to please her mother, too, so she studied domestic science under the maternal wing at the same time, and so she can make pies just exactly as mother used to make them. Lawyer, housewife, and screen actress, Miss Gerber has her choice of three careers. At present she will be the latter, but you can never tell, and she believes in preparedness.

MAJESTIC THEATRE

TODAY SHIRLEY MASON -IN- "PASSION"

One of the "SEVEN DEADLY SINS" should have reached us for last Wednesday, but failed to get in—not a serial, but complete five-reel picture. Also, "SHORTY TRAILS THE MOONSHINERS" a two-reel-venture comedy. 5c and 10c

TOMORROW ANOTHER BIG DOUBLE-HEADER WILLIAM S. HART in a new character

"The Desert Man"

He's not a "bad-man" this time; he's a big, square-jawed, whole-souled man, with faith, ideals and courage. He changes the desolate village of "Broken Hope" to the prosperous town of "Belleville." He cleans up a notorious dance hall for the sake of a little boy, and in so doing rescues a woman from vice. A sweeping drama with the tang of the Mojave Desert in its atmosphere.

FATTY ARBUCKLE

"A Rough House" His third two-reel PARAMOUNT Comedy.

The story is wonderfully fitted for his laimitable characteristics. In the third picture Fatty has left nothing undone or untouched to make it the most screamingly hilarious production he has ever appeared in. It is undoubtedly the best he has done and lives up to its 10c and 15c—PRICES—10c and 15c

EMPRESS THEATER

TODAY VIVIAN MARTIN IN "GIVING BECKY A CHANCE"

All her life Becky had lived with her father in a country town which in the summer drew fashionable colony of wealthy people from the city. So when her father, by dint of years of scrimping, sent her to a smart boarding school, and she told the girls that she came from Rosemere, they supposed naturally that it was her summer home. And poor little Becky, starved for companionship with girls who dressed as she had always hoped to, hadn't the courage to tell them the pathetic truth. It seemed a little thing to her at the time, but in reality it changed her whole life, and especially her relations with young Dr. Tom Fielding, whose sister was a schoolmate of Becky's. It is an appealing picture of youth and love and ambition, with Vivian Martin at her very charming best.

5c and 10c—Prices—5c and 10c

TOMORROW R. H. WALSH'S NEW PHOTO DRAMA "THE SILENT LIE"

The story of a girl whose father drives her to a life of despair and who is rescued by the love of a man. 5 and 10c

Lake Wichita EVERY NIGHT

NO PRICE FIXED ON WHEAT UNDER FOOD MEASURE

(Kansas City Star.) Washington, July 11.—The government hasn't fixed a price "under \$2 a bushel" for the new wheat crop in Kansas and the wheat growers have fixed a definite price at all and doesn't expect to, it realizes, as keenly as does the farmer, the confusion that exists as regards to the market for new wheat. It has its plans and its organization already to step in and meet the situation. But it can do little or nothing until Congress passes the food bill which the Senate has been debating for more than three weeks.

These authoritative statements were made tonight by Herbert Hoover, food administrator. They were made because a rumor has been spread broadly east among the wheat farmers of Kansas that the government had fixed an arbitrary price for the new wheat crop, and that price was considerably under 2 dollars a bushel. The great concern felt in the wheat belt over the present demoralized market or lack of a broad market, which together with the rumors as to price fixing caused Mr. Hoover to make his statement, was voiced in the Senate almost at the same time, by Senator Knute Nelson of Minnesota, a wheat farmer and a close bargainer, and that uncertainty over the food control legislation and the embargo on wheat had practically "killed" the farmer's market. The former has put the speculation out of business, while the latter killed the exporter's business. The senator charged. He said farmers would have trouble selling wheat at all under the present restricted market. The food administration bureau's position is that it can't act until the bill is passed. Senator Nelson said the government planned, when the bill passed, a big government corporation to buy wheat and thus make a market.

In a formal statement explaining the situation Mr. Hoover says: "Information from Kansas and other Western states in the wheat growing section is to the effect that credence is being given a report that an arbitrary price is to be fixed on wheat for the 1917 crop, and that this price is to be less than \$2 per bushel.

To Allow No Speculation. It is not the intention of the food administration to fix a price on wheat, nor is it expected that it will have any such powers. If the Food Bill passes Congress, however, we certainly will not stand for speculative buying of wheat.

It is understood here, however, that agencies must necessarily be established to control the buying of export wheat, lest the power in the single hand now buying for all the Allies be used against the interests of the American farmer. There are no longer a hundred foreign buyers in the market, but only a few. The government is to one man. It is understood that the allied governments have already fixed the price at about \$1.80 per bushel for their own 1917 crop, and for England and France, and that the Canadian authorities last autumn offered to sell the Allies the Canadian harvest at about that price.

The feeling with Mr. Hoover and such of his associates as have conferred with him is that the export price must be maintained at a figure which is an inducement to the farmer to stimulate to the maximum the production of wheat, but nothing can be done to settle the matter with the Allies until Congress has passed the Food Bill.

There will thus be little check out upon the volume of exports, and the prices obtained for them will not be affected by the regulation.

License Controls Export Prices. With all the hundred odd foreign buyers out of the market, and prices thus are radically changed. If the situation were used against the farmer, it could be abused and would be to pound down the price now that the farmer has the new crop to sell. But it is on this very condition that Mr. Hoover promises the farmer of Kansas that they will be protected and that the food administration bureau is keenly awake to the situation.

The factors, which in the past have gone to make up the market and prices, thus are radically changed. If the situation were used against the farmer, it could be abused and would be to pound down the price now that the farmer has the new crop to sell. But it is on this very condition that Mr. Hoover promises the farmer of Kansas that they will be protected and that the food administration bureau is keenly awake to the situation.

WICHITA COUNTY RED CROSS

The Wichita Falls Red Cross chapter has received a financial contribution from a local business man. This man came to the headquarters and told them as he was too old to fight he desired to do his bit in another way and in a way that he would feel. Consequently he decided to refrain from smoking, which will be quite a sacrifice in the habit of long time standing, and to give the money he would spend on tobacco to the Red Cross. The society hopes that this may be an example may inspire others to follow a similar plan.

SANITARY DEPARTMENT FULLY RECRUITED

Dr. Everett Jones, who has received the commission of Major of the Sanitary Department of the Seventh Regiment of the Texas National Guard, started recruiting his unit of thirty-four members on Monday at three o'clock in the afternoon and by ten o'clock yesterday he had fourteen more men than he needed. Dr. Jones says that he cannot at present give out the entire list of his recruits, as there may be a few changes on account of the physical examination. The arrangements are not yet absolutely complete, but the list includes boys from some of the best families in this section. Dr. Jones is immensely proud of his unit and expects to have the matter settled by the end of the week.

TRADES POSITIONS STILL OPEN IN THE NAVY

There are three branches of the navy now recruited to full war strength—the yeomen, the general electricians, and the hospital corps. All the trade departments are still open, however, and there is still a shortage of something between thirty and forty thousand men. These men may be enlisted as carpenters, plumbers, machinists, boiler-makers, copper-smiths, blacksmiths, firemen, cooks, bakers, musicians, postmen, seamen, sail makers, and ship fitters. There is an excellent opportunity for anyone with a trade such as the above to serve the country and at the same time continue the work they are best fitted for, under the easiest circumstances. There are no strikes in the navy, and the men are well paid, well paid sick or well, and there is never any uncertainty as to whether their pay will make ends meet. They are absolutely untroubled by any economic conditions, and are assured of food, clothes, and bed under any circumstances.

The army is in much the same position as to the branches filled, except that their shortage is a little more. Most of the trades in the army enlist under the signal corps department. It is commonly understood that the signal corps duties are confined to waving those queer little short flags that one sees in the theaters. This, however, is only an infrequent part of the signal corps work. All telephone and telegraph lines are in charge of this department. It is commonly understood that the signal corps duties are confined to waving those queer little short flags that one sees in the theaters. This, however, is only an infrequent part of the signal corps work. All telephone and telegraph lines are in charge of this department. It is commonly understood that the signal corps duties are confined to waving those queer little short flags that one sees in the theaters. MORE THAN 40 YEARS OF CONSTANT EFFORT on the part of the German government was given up to perfecting a gun that would crack the concrete forts at Liege.

The Belgians placed their faith in a material they knew had strength, not in a substance coated with a make-shift imitation. They saved Europe.

YOU CAN SAVE YOUR CITY AND COUNTRY BY USING CONCRETE

Concrete is the road material that not only withstands everything you can give it in the way of traffic, but it is the material that actually becomes stronger with the years. It is the "road eternal"—the most desirable road way known at the minimum maintenance cost.

Many of the finest roads and streets in the country are made of concrete. In Bellefontaine, Ohio, four hundred thousand square feet of concrete paving was built in 1893. The total cost of repairs on this work up to January 1, 1912, or 18 years, was \$200, or 1-4c per square yard per year. Total cost for years 1910, 1911 and 1912—\$63.03, or about 1-2c per square yard per year; corresponding total cost for maintenance per mile per year 16-foot road, \$47.00.

Concrete roads, built in accordance with present day practice, using the experience and knowledge gained during the past twenty years, will require less maintenance, in spite of the tremendous increase in traffic.

There are many other instances on record equally as convincing as the above maintenance cost record on the Bellefontaine paving.

If you desire further information about the qualities of concrete paving write

Cleaning and Pressing and Repairing When your clothes are dirty and need repairing, send them to us. We also make all kinds of alterations on men's and ladies' suits, dresses and skirts. Our working departments are handled by first-class workmen. ALL WORK GUARANTEED BY COLLIER & RICHARDSON Phone 622 807 Indiana

There Is Nothing in the World That will put you right up on your toes this hot-weather and keep you there like a cup of good Coffee. And, put a pin right here: A cup of fresh roasted, fresh ground coffee, freshly made and freshly served, NEVER HURT ANY NORMAL PERSON. On the other hand, it's a life-saver. WE ROAST COFFEE EVERY DAY BERT BEAN COFFEE HOUSE 824 Indiana Ave Telephone 35
