Seasonable Goods at Reasonable Prices

FOR "SECOND SUMMER" BABIES—The safest and most efficient means of artificial nursing is a Faultless "NATURAL NURSER." Ask to have it explained.
NIPPLES—We have every kind, including the new Faultless Transparent Sanitary ones, in all the most popular shades—5c each.
BATHING CAPS—These are the styles that you'll see at all the beaches, the "hits" of the season. Very durable and practical—25c, 35c, 50c, 75c, \$1.00, \$1.50.
SICK ROOM RUBBER GOODS—Absolute reliability is the foundation of our trade in Sick Room Supplies. That's why we sell and recommend WEAREVER Rubber Goods for the Sick Room.
EVER USE A RUBBER SPONGE?—Try one! They're simply "great" in the bath tub—so soft and pleasant, yet very efficient. WEAREVER quality—they last longer and are more satisfactory. "A size for every hand."

RICHARDSON-TAYLOR DRUG COMP'Y "The Store of Better Service." Phone 64 and 65. Ohio at Seventh.

Rooter's Thirst

Home team batting.—two runs behind, bases full, two down and "Umps" who favor the visitors. Pinch hitter grips the stick,—the pitcher winds up,—let's go and Bing!—a drive clear into the bleachers. Three runners gallop home.
You're dry after that,—Rooter's Thirst,—a thirst that calls for something better than tasteless "soda pop." It's a thirst that calls for a bottle of sparkling, non-intoxicating

Try it. Barma is nutritious, healthful and pure. Its delightful, snappy tang and flavor will reach the thirsty spot, refresh and please you.
Always obtainable at places of amusement, soda fountains, grocery and department stores, restaurants,—every place where wholesome drinks are sold. Any dealer will deliver it by the case to your home.

CARROLL-BROUGH-ROBINSON-GATES Distributors, Wichita Falls, Texas. BLATZ-MILWAUKEE

Barma comes only in sterilized sealed bottles with an orange label, red triangle and the name in white. Beware of imitations.

MOTHER'S ADVICE TO SON BRINGS RELIEF

Albert Dupree Relates Story of His Condition and How He Was Relieved.

"I was swollen or bloated," says Albert Dupree of 801 Irma street, Fort Worth Texas. "It looked like Bright's disease. I was stiff all over my body and suffered from piles, caused by constipation.
My heart was bad and a little exertion fatigued me.
My whole system was completely run down and I would have to lie down and rest at every chance.
I was in such shape that I didn't think there was a medicine in the world that would relieve me, but my mother, who is very old, kept reading advertisements in the paper about Pep Pills and advised me to give them a trial.
I am very thankful that I did so. Pep Spastic Pills have certainly put 'Pep' in me. I sleep well now, which is very much out of the ordinary.
My swollen and bloated condition has gone down, the stiffness has disappeared. I am relieved of constipation and I do not have to take other medicines to make my bowels move. My condition in this way seems natural.
They have given me benefit and I am certainly thankful to my mother for her advice and to you for your great general tonic.
Pep Systemic Pills are the greatest tonic ever produced for putting 'Pep' into people who are run down or suffering from nervousness, loss of appetite, impotence, impure blood, rheumatism, sallow complexion, constipation, sleeplessness and stomach trouble.
Try a bottle today. For sale and guaranteed by Miller Drug Co.—Adv.

MOTORISTS WARNED TO OBSERVE LAW ON LIGHTS
Motorists who are driving in town tonight without having properly dimmed their lights will lay themselves open to a fine, according to a statement made this morning by City Marshal Humphris and City Attorney Nutt. This ordinance has been in effect since July 1, and the city authorities think that there has been plenty of time for automobilists to provide proper dimmers for their lamps. Accordingly, they announce that they will take proceedings to enforce the ordinance, beginning tonight.

The authorities also stated that the method of dimming was immaterial, so that the result was the elimination of too strong a glare. The officers will decide whether the dimming device is satisfactory, and complies with the ordinance. Automobilists may either use special lenses or darken those they have by means of coloring matter of some kind, according to the statement of the authorities.

The Rotary club will meet at luncheon tomorrow at the St. James Hotel. Frank Kell will address the club on the "Conservation of Food."

SOCIETY

JOINT MEETING OF M. E. CIRCLES NOS. 2 AND 3

Exceptionally pleasant was the joint meeting of Circles 2 and 3 of the M. E. South Mission Society Monday afternoon at the home of Mrs. Alice Frazier with Mrs. Frazier and Mrs. J. M. Bland hostesses. The program was opened with devotionals by Mrs. E. C. Huckabee and members of Circle 3 contributed to the program as follows:

"Industrial Life of the Mexican Women," Mrs. Faulkner. "Map Study of Mexico and Cuba," Mrs. Harrison. The business session of the two circles featured by the roll call and free will offering followed the program. There were 20 members present and two visitors, Mrs. DeWitt and Mrs. Early.

Music by Mrs. B. C. Huckabee and little Helen George added to the pleasure of the afternoon.

CIRCLE NO. 4 M. E. SOUTH MEETS MONDAY AFTERNOON

Circle No. 4 of the Missionary Society of the M. E. Church, South, met Monday afternoon at the home of Mrs. B. M. Bullard, Mrs. Mart Roberson being hostesses jointly with Mrs. Bullard. The meeting was social in nature, the afternoon being spent informally. Miss Ila Cook entertained with piano music. There were 14 members present and a free will offering of \$23.25 was taken.

TERRIBLY SWOLLEN

Suffering Described As Torture Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Theford's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Theford's Black-Draught."

Theford's Black-Draught will help you to keep fit, ready for the day's work. Try it! NC-137

Thousands of Miles of Concrete Roads in California Followed the Building of the Concrete Roadway Through the Presidio

Men of the army, like men in other lines of business who know the importance of good roads, were quick to realize the efficiency of concrete as a roadway. The concrete road through the Presidio attracted wide attention among those interested in good roads in California. It was a success; so great a success, in fact, that at the present time many thousands of miles of concrete roads are to be found throughout the state.

The concrete road is the ideal road because it is not affected by weather, traffic, alternate freezing and thawing, cannot be softened by heat, increases the capacity of both horse-drawn and motor traffic and increases in strength with age. For further particulars about concrete roads, write

Portland Cement Association
DALLAS, Southwestern Life Building.

CONCRETE FOR PERMANENCE

NEW INDUSTRIAL PLANT FOR CITY IS ANNOUNCED

TANK AND BOILER MAKING PLANT TO BE BUILT HERE BY FORT WORTH MAN

Wichita Falls is to add another factory to her growing list. Frank Kell this morning introduced to the directors of the Chamber of Commerce, John Tancered, formerly of the Southwestern Mechanical Co. of Fort Worth, who proposes to install a factory here for the purpose of making tanks and boilers of all kinds.

Mr. Kell said that Mr. Tancered agreed to open his factory with not less than fifteen men, and to maintain at least that number for the first two years, though he said that the number would probably be increased to fifty, long before that time.

Mr. Tancered comes here highly recommended both as to his mechanical ability, and also financially, so Mr. Kell recommended that a committee be appointed to draw up a contract with Mr. Tancered, which should be held in escrow for two years and ratified after that time, if everything connected with the factory and the working thereof should be satisfactory.

The same committee will immediately select a site of five acres, located near one of the railroad tracks which will be furnished to Mr. Tancered for the location of his plant. Messrs. Bland and Huey were appointed to co-operate with the standing industrial committee in this matter.

Mr. Tancered said that he would be ready to ship his material for the plant in about ten days and work will begin as soon as the site is selected and the contract signed. There will be approximately ten thousand dollars worth of equipment, including a building of either steel or brick, and about forty thousand dollars worth of stock material. The equipment will comprise high power rollers for the sheets, a power punch, a power bevelling shear, an acetylene welding plant, and a large number of other special tools required for the work. In addition, there will be a small machine shop.

get a commission, I consider myself very lucky to be here still. The letter goes on to say that any one who shows the least inability from a military standpoint is asked to resign—a request that it is difficult to disregard. There are, so the letter says, four weeks of camp left, and Mr. Woodside is hoping to win out. "I should only get a second Neutenancy," he says, "on account of my age. But I would be happy with that."

Mr. Woodside will probably take advantage of the short furlough allowed at the close of the camp to visit his friends here, though he could not say positively that he would. He says, "I may possibly stop off for a day on my way home, to see you Wichita folks."

Paul Lienaux, and two daughters, Misses Paula and Yvonne, are leaving today for Toledo, O. Mr. Lienaux has been connected with the glass factory for the past two years.

WOODSIDE STICKING IT OUT AND HOPES TO WIN

The many friends of J. Uly Woodside will be interested to know that he has so far made good at Camp Funston, according to a letter received by C. B. Macklin, though he says he is in daily fear of coming on all the time. So far, he says, he has been lucky; though he has no means of knowing how long the luck will hold.

PHONES: Business Office 167 Editorial Room 1671 Wichita, Falls, Texas, July 18, 1917.

Something happens every once in a while to convince the editor that the Times' editorials are read. Tuesday The Times predicted the ending of the war before January 1. Scores of people have called at the office and have stopped the editor on the street to tell him why they believe the war is not likely to end so soon. It is certain that a majority of the readers of The Times differ with this view. To be candid about it The Times made the prediction while in an optimistic mood and is not willing to back up the prediction with its reputation. Sometimes The Times, too, feels like the war may drag on for twelve months or two years yet.

The two billion dollar Liberty Loan was oversubscribed by a little more than a billion, and the money thus raised will be loaned to England, France, Russia and Italy for the purpose of furthering the allied war on Germany. The two billion will only last a few months, and the government now has about determined to float another batch of Liberty bonds— from three to five billion dollars worth, on the same terms and to bear the same rate of interest. This will furnish to those who did not get all they subscribed for in the first instance an opportunity to get in on the second loan, and doubtless there are a great number of people who did not subscribe for any amount of the first issue who will now be persuaded to loosen up their purse strings and aid their country. This requires some sacrifice on their part, to be sure—the difference there is between the interest the bonds bear, and the interest they can secure by loaning their money to their neighbors. If every American citizen who was able and had been sufficiently patriotic to make a small sacrifice for his country, in the time of need, the first issue of Liberty bonds would have been subscribed many times over. In almost every community the list of Liberty bond purchasers, when compared with the list of property taxpayers will show that many who were amply able to subscribe for at least one of these bonds have so far refused. The people are going to take notice of this, and it is entirely proper that they should. This is a time when every truly loyal American citizen should be glad of an opportunity to aid his country in some way, and those who do not make response, and it is known they are well able to do so, will be listed as "slackers," a term that will be applied to them in after years, and one they will not like, but can't get away from.

Since the war started Germany has lost more than a million soldiers. That many, at least have been killed on the firing line, or have died of wounds received in camp and hospitals. Those crippled will equal the number that have been killed. Doubtless the allies have lost more, far more, than have the Germans, but it must be remembered that there are far more of the English, French, Russians, Italians and Americans than there are of the Germans, and the nations that are fighting with Germany. The German people are fully aware of this, and that is why they are beginning to show signs of restlessness, and want the war to end before it wipes them out completely. The war has continued a sufficient length of time to convince the Germans that victory is impossible for them. They may have to revolt against their rulers in order to stop the war, and the indications are now that that is what will take place shortly. The Kaiser has now had three years in which to demonstrate to his people that he has matched a scrap that he cannot win, and now, apparently he is making a play to save himself from being dethroned and put out of power. As to how well it works only time can tell. His subjects are rapidly losing confidence in his leadership.

Out of about 3000 volunteers at the officers-training camp at Leon Springs, more than half have failed to make good, and have either been discharged or resigned. Some few have resigned and secured commissions in the National Guard. Probably had they not done so, they would have made good at Camp Funston, but they preferred to go with the National Guard for various reasons, one of which was that they would be placed in charge of soldiers whom they knew

in their own state and community. Of the 1400 remaining at Camp Funston the press dispatches tell us that 800 will receive commissions as captains and first and second lieutenants, and it is not clear what will be the fate of the other 600, but the chances are they will be commissioned as army officers of some lower rank. These young men have worked hard and made great sacrifices in order to secure these honors, and doubtless many have thrown up good positions in order to receive the training necessary for an army officer. They have not relied on "pulls" for promotion, and are therefore entitled to every consideration on the part of the government that can be given them with consistency, and with consideration of the welfare of the duties they are to perform in the great American army. They represent the flower of our young men. All of us, of course, are in hopes the war will come to a speedy end, but should it continue, these young men who have failed in their most cherished ambition at Camp Funston are likely to be heard from, as many of them will go in the army as regular soldiers, and if we do not miss our guess badly, will win fame and honors on the battlefield that will be equal to any honor that could have been conferred on them at an officers' training camp.

EXAMPLE OF WICHITA COUNTY Vernon Record. The Wichita County road bonds have been sold at par and accrued interest, a highway engineer has been employed and we may shortly look for a beginning of work upon the hundred miles or more of permanent roads in our sister subdivision. Some of our own citizens described darkened bumps on the horizon when a million-dollar bond issue for good roads was suggested about the time the Wichita campaign was started, pictured all sorts of dire calamities for the county in general and Wilbarger county in particular, and expressed a determination to be "agin" the bond issue, while professing the greatest devotion to the cause of good roads as an abstract proposition. That is the trouble with some of these people, they oppose the thing itself when it is presented in concrete form. The Wilbargers braved the criticisms of the weak-kneed contingent, carried their bond issue, by a majority of four to one and are soon to have the benefits that the improvement will confer. Paradoxical as it may seem, the people who keep right on with business in spite of all adversity find that they are able to contribute more to public causes than those who stop everything in the way of new investments in order to meet these calls. This has been true of Wichita county. Not only has she voted an issue of \$750,000 for roads, but oversubscribed her quota of the Liberty Bonds, overpaid by several thousand dollars her assessment for the Red Cross and has recruited to full war strength two companies of National Guard. Contrariwise, the county backed off from the bond issue, failed to subscribe her quota of the

Liberty Bonds and is lagging behind in the Red Cross subscription. We mention these matters not to show Wilbarger in a bad light for she has done as well as the average of these public matters, but to call attention to the false reasoning of those who imagine that progress at one point is to be made by retreating at the other. The whole front of progress must be carried forward at one time. When a community begins to lag in one department it becomes doubly hard to make progress or even hold ground already won in the others. This may not be good logic, but it is good psychology and works out in actual experience. The more a community does the more it is capable of doing. England is trying more to the cause of missions since the war started than ever before in history.

SEVERAL FINES METED OUT IN COUNTY COURT

Olan Burns, now in jail here, paid probably as high a price for a pair of shoes as is ever paid in the ordinary way. Originally he took the shoes, without mentioning it, from a garage in Iowa Park. Yesterday he appeared before Judge Harvey Harris to explain the circumstance. His explanation not proving satisfactory, he was fined ten dollars and costs and given twenty days, making the total cost of the shoes \$51.45. Right in line with this extravagance was the price of \$61.45 paid for a pair of lines by J. W. Eudaley. Eudaley took the lines from a team of mules belonging to R. S. Fowler, and went away. He, ten days later, appeared before Judge Harris, who fined him \$10 and

costs and gave him thirty days. The same penalty was exacted from L. B. Johnston, for stealing a bicycle, and from H. F. Colston for stealing a garden hose. Arthur Joiner, charged with aggravated assault upon Marion O'Keefe was released upon a bond of \$200 set by Jailer Bob McFall. Joiner's case will come up on August 6. HIGHER POWER LINE TO HENRIETTA NEARING COMPLETION The high power line being built by the Wichita Falls Electric Co., to Henrietta is nearing completion and service to Henrietta, patrons from the power plant here will start about September 1.

C. Wilm and I. D. Winchell of Kansas City, Mo., passed through here yesterday on their way to San Francisco. Wilm and Winchell started from Kansas City about two weeks ago, and have covered about nine thousand miles so far, making the southern coast, and the important cities there. They took a seven passenger Buick car, converted it into a two passenger roadster, doctored the engine a little, built a chuck box and tool cabinet at the rear arranged a tank that would hold forty-two gallons, filled same, and started. They say that they have had but two punctures in two thousand miles and no other trouble of any kind. They have an eighty horse-power engine that will turn out seventy-eight miles an hour on a good road. They expect to have covered approximately forty thousand miles before they get back to Kansas City.

Suit was filed in the county court by J. P. Bennett against the Fort Worth and Denver City Railroad company, for damage to live stock in shipment. The case will come up at the August term.

Local recruiting for the army has been steadily on the increase for the past several days. For a while there were only two or three men per week being sent away; but recently the officers have been having much better

luck. Seven have been sent away this week—and if the run keeps up, this should prove a record week. J. H. Kinard left for Dallas last night. Kinard was formerly of the 158th company of the Coast Artillery Corps, and has re-enlisted in the same corps. He is from Los Angeles.

Mrs. Joseph South, 1206 Broad, underwent an operation this morning at the Arason-Hargrove sanitarium.

News has been received here of the sudden death at Salt Lake City, of Douglas A. Hargrove, who some time ago was a resident of Wichita Falls. Mr. Hargrove was a son-in-law of Captain and Mrs. J. A. McMurtry, who were among the most prominent citizens of Wichita Falls a couple of decades ago. His wife, formerly Miss Avon McMurtry, survives him. Death was caused by heart failure, according to the message.

Mrs. Howard Reger, Mrs. J. B. Townsend, Mrs. W. H. Huggins, Mrs. W. K. Long and Mrs. S. W. Bailey, who represent the Vernon chapter of the Red Cross visited the local headquarters today with a view of gathering information. The Vernon chapter started less than one week ago and have had two meetings. Yet the chapter already numbers one hundred and forty-five members. The ladies say that they have followed the course of the campaign here with the closest interest, through the columns of The Times and through personal friends, and they feel sure that the heads of departments here will be of great assistance to them. They spoke very warmly of the work done for the Red Cross here by the newspapers.

Marriage licenses have been issued to Merritt H. Gates and Antonio Lawro, John Percy McAnley of Pittsburgh, Pa., and Miss Lillian Hunsuck Ardmore, and to E. J. Dickel and Miss S. M. Foley.

The young people of the First Methodist Church will meet at the church (corner Seventh and Lamar) at 8:30 o'clock Friday night, to organize a serenade party. They will go on foot, and intend to persuade many of their friends in this manner during the evening. There will be no charge for the show, though they may be induced to take their departure for a consideration.

NEW SCHOOLHOUSE IS BEING BUILT AT GUYER

Special to The Times.
Vernon, Texas, July 18.—Work on a \$2500 schoolhouse has been started at Guyer, a small town a short distance from here. The board of trustees will spend an additional \$500 for equipment.

UPTON COUNTY WITHOUT A SINGLE PHYSICIAN

By Associated Press.
San Angelo, Texas, July 17.—Upton county, located in the Pecos river valley of West Texas, 102 miles west of San Angelo, is without a practicing physician. Dr. J. H. Johnson, the only man who holds a medical certificate in the county has resigned the office of county assessor to move to San Angelo, and people are fearful of results should some member of its small population suddenly become ill. According to 1910 census Upton county's population is 501. Since that time, however, the town of Rankin had been established on the Orient railroad and the population has been slightly increased. Rankin, and Upland, the county seat, are the only towns in the county. Upland is 15 miles north of Rankin off the railroad.

Everybody Likes PABLO

WILL GIVE HALF RECEIPTS TO RED CROSS CHAPTER

While Charles E. Veros, the new proprietor of the Waffle and Oyster house on Ohio avenue which he has renamed the Manhattan, has been a resident of Wichita Falls only a short time, an announcement he is making in today's Times shows that he has the Wichita Falls spirit. Mr. Veros announces that he will give half of his entire receipts tomorrow to the Wichita Falls chapter of the Red Cross.

REMEMBER

THAT The Palace Drug Store is located at 612 Eighth street, right in the heart of Wichita Falls, which makes our place the most convenient place to do your drug business.

THAT We are open and anxious for your business, from 6:30 in the morning until 12 o'clock at night.

NAVY BOOKLET TELLS OF ADVANTAGES OF SERVICE The Navy department has issued and sent to the local recruiting stations a new booklet dealing with the life, training, and advancement of the navy. After reading the book, it becomes clear why the sailor is so well equipped to take care of himself in any situation that may arise, and why he is a cheerful, contented, self-respecting and altogether admirable person. Navy training all tends to the development of just these qualities, and they may be observed, not in isolated cases, but in practically every sailor in the navy. An untidy, careless, discontented sailor is almost an unknown quantity, and if there be such a thing as an inefficient sailor, it is only because he has not been a sailor for very long. The training is carefully mapped out from the moment the man enlists. Uncle Sam immediately takes care of him and teaches him how to take care of himself. The sailor learns one great thing at the very start, and it goes with him all the way up the service—the value of discipline. And along with this, there is one great condition that surrounds and influences him from the start, and which obtains all through his service—he has no financial worries. From the first teaching he learns many lessons of self help. He is taught to wash and mend his own clothes, to care for his body, and to keep his mind active. One never heard of a sailor being "stuck" in any situation. And from the condition of financial security he develops a mind untroubled with the

questions and problems that worry many a hard-working and intelligent civilian to the point where he cannot do his work properly. His mind is therefore left free to learn to grasp the problems he is engaged upon, and master them. All this and much more—such as the work in the trade schools, the special training for special work, and the opportunities and means of advancement, may be learned from this very valuable little book, which is on hand at the local navy recruiting station, and which is very well worth while to read for any young man who may be undecided as to his life's work.

WICHITA COUNTY RED CROSS The following workers reported at the surgical dressing department of the Red Cross supply hall Tuesday: Misses Louise Feltz, Edith King, Louise Stevens, Margaret Noble, Audrey Adickes, Maudie Walker Fenton, Dora Coons, Earle Carter, Chenaunt, Mable Simpson and Cloud; Mesdames Bruce Greenwood, Harvey Harris, Orville Bullington, J. S. McDonald, II, A. Allen, Fogenpohl, Little, Hancock, Hoffer, C. Y. Tully, Ed Asher, V. H. Shepherd, M. Gaffney, Leon Loebe, T. B. Noble, Mary Robertson, W. M. Priddy, Frank Griffin, M. R. CHAS. RAY AT THE MAJESTIC THURSDAY "The Pinch Hitter," the show Thursday at the Majestic, a Triangle picture produced under the supervision of Thomas H. Ince, presents Charles Ray in the character of Joel Parker, known among the inhabitants of Turkey Creek, W. Va., as the "bashful critter in the country and sort of dumfounded. He finally gains permission from his crabbed old father to attend Williamson college. Looking not unlike Ichabod Crane, he invades the campus and is greeted as a prehistoric animal by a squad of college boys, who straightway conduct him to the "Students' Progressive Cream Puff Parlor" and exhibit him to the pretty proprietor, Abbie Nettleton. She sympathizes with the gawky youth and encourages him to try out the baseball team. At first he is put on as mascot, but his chance comes, and he wins a spectacular victory for the school. Incidentally he wins the love of a girl and the respect of his crusty father, Obediah. PHONE 56 For Auto Truck Work, Oil Field Work, and Heavy Hauling a Specialty P. A. ALVERSON 1306 Holliday.
