DRAFTING OF MILLION MEN FORSHADOWED IN APPROPRIATION REQUEST

Washington, July 24.—An American army of one million men for service abroad at once instead of five hundred thousand contemplated for the first draft is foreshadowed by the government's request for additional five billion dollars made to the Senate Finance Committee today.

RESISTANCE OF THE RUSSIANS A LITTLE STRONGER

BERLIN ADMITS RESISTING POWER OF RUSSIAN FORCES IN VICINITY OF BRZEZANY

ACTIVITY IN THE WEST

Germans Apprehensive of An Offensive By French—British Aerial Activity

The Associated Press war summary today says:

Signs of a halt in the Russian retreat in Eastern Galicia before the advancing Austro-German armies are largely wanting but indications of a stronger resistance in some sectors are cropping out. The Russian generals undoubtedly are doing their utmost to bring their men to a realization of the necessities of implicit obedience and the pressing plight of certain sections of the Muscovite armies because of slackness in discipline can hardly help serving as an object lesson.

The resisting powers of the Russians are admitted by Berlin to be strongly in evidence south of Brzezany line and it is here that such fighting capacity as the Russian possesses need to be exercised to the limit. The Austro-German forces are pressing southward in an effort to cut in two the Russian forces on this old line and the Dniester river, success in which would spell disaster for the Russian units in this sector.

The allied armies in the west are holding the threats of a renewed offensive over the Germans on the Franco-Belgian front. The situation along the Aisne front appears to show that the crown prince fears a renewal of the offensive should again result in the French offensive here, his countless attacks being considered in many quarters an attempt to forestall it.

On the British front the intense aerial and artillery activity presages important events. The main infantry movement of the last 240 hours was again in the Craonne sector, where the crown prince launched another attack on the French line without achieving any success.

SERBIA GIVES NOTICE OF CLAIM FOR INDEMNITY

By Associated Press. Washington, July 24.—In a formal note made public at the state department, Serbia charges Austria and Bulgaria with illegal economic exploitation of occupied provinces and gives notice that she reserves the right of claiming at the time of the peace negotiations an indemnity corresponding to the damage inflicted both on the Serbian state and its subjects by these flagrant violations of public international law.

The note giving the first official glimpse behind the scenes in occupying Serbia, claims that over 100,000 crowns has been illegally extorted as well as six million crowns in the form of forced subscriptions to the Austrian war loans and the Austrian and Bulgarian Red Cross.

By Associated Press. Paris, July 23.—Plans have been completed for bringing all American aviator forces here under a single direction working in conjunction with other military units. Airplane squadrons will be divided into two classes, tactical and strategic. The tactical will work directly with the troops doing reconnoitering, pursuing enemy aviators and bombing enemy establishments. The strategic units will operate independently. They will engage in destroying enemy defenses and in attacking supply bases, depots and factories.

JUDGE DISQUALIFIES FOR TRIAL OF KIDNAPPERS. Springfield, Mo., July 23.—When the case against Taylor B. Adams, his son Cletus Adams and Claude J. Piersol, charged with the kidnaping of Baby Lloyd Keat, and Mrs. Ellie Adams, Marie Adams, Dick Carter and Sam McGinnis, charged with complicity in other kidnaping conspiracies, in Springfield were called in the Green county criminal court this morning, Judge Arch Johnson disqualified himself as sitting as the trial judge but set all the cases for next Monday when it will be determined when and where the trials will take place.

IMPEACHMENT GOVERNOR IS ASKED

SPECIAL SESSION LEGISLATURE CALLED ON AUGUST FIRST BY SPEAKER FULLER

MENTIONS FOUR CHARGES

West Texas A. and M. Location, University Matters And Mansion Expenditures Named

By Associated Press. Waco, Texas, July 24.—In a telephone conversation with the Associated Press correspondent here Governor Ferguson at his ranch in Bosque county this morning declined to make a statement for publication today. The governor said he would go to Austin tonight and would determine there tomorrow morning whether he would give out a statement concerning the call for a special session for a meeting of the House of Representatives.

Houston, July 24.—F. O. Fuller, speaker of the house of representatives yesterday issued a call to the members of the house of representatives to assemble in regular session at Austin on August 1 to consider whether articles of impeachment shall be presented against Governor James E. Ferguson. Speaker Fuller specifies four charges and states the others will be filed after the house gets in session.

At the same time Speaker Fuller and Lieutenant Governor Hobby made public affidavits in which they charge that Governor Ferguson misrepresented mis-represented matters to them and secured their signatures to a statement that the award of the West Texas Agricultural and Mechanical college was fair and final in these affidavits both officials are very plain in their statements that to each of them Governor Ferguson misrepresented the other's attitude; and each of them repudiate their signatures as having been procured in a manner which they do not sanction.

In his call for the extra session of the House Speaker Fuller uses this language: "The University of Texas cannot be maintained and supported on the salary of one man, and no deficiency can be based on such an item. The attorney general has held that the veto was not effective; but before a test of that question can be made in the courts the fall term of the university will be passed and the governor has declared that the University of Texas will not open its doors until every member of the faculty to whom he objects is expelled."

He has charged the faculty generally of being grafters, liars and traitors and in his judgment without reason, has sought to substitute his own will for the judgment of the board of regents, demanding of them that members of the faculty be dismissed without a hearing, thus seeking to override the law. He has removed members of the board of regents without good and sufficient cause in order to appoint someone who will carry out his wishes and has sought to substitute only his unbridled will in place of their lawful judgment. By section 28 of the bill or rights no power is given to suspend or remove the governor, but he has sought to suspend them and have them set aside to suit his own desire.

The last legislature provided for a committee to locate a West Texas Agricultural and Mechanical college. When the committee met three votes were announced for Abilene when only two were cast for Abilene according to affidavits filed. When three members of the five of the board called for a reconvening and a reconvened the governor stood alone against it. Finally a statement was given out by the members of the board. That statement was based upon absolute misrepresentations by the governor to at least two members of the committee, who would not otherwise have signed. If the governor was not guilty of fraud in the original meeting to locate this school, his acts in refusing to reconvene the committee are a fraud upon the people of Texas and upon the committee.

During the investigation by the legislature of the governor's acts he testified that he would refund the money to the state which he had taken without lawful authority in case the court so decided. He has failed to do so and the courts have long ago decided against his contention.

COMMISSIONER DAVIS ISSUES A STATEMENT. Austin, Texas, July 24.—The call of Speaker Fuller for convening the house of representatives at the West Texas A. and M. proposition and for other purposes caused much speculation here today in political circles. Officials declared there is no way in which a provision can be made for a payment of the per diem of the lawmakers for services during the meeting and the General Looney who will undoubtedly be called upon to pass on the question and also on the authority of the speaker to convene the house, refused to discuss the situation. Governor Ferguson is not here being still on his ranch in Bosque county, although he is expected to return to Austin for the meeting of the state automatic tax board.

Commissioner of Agriculture Davis, a member of the West Texas A. and M. locating board, made the following statement: "I have nothing to say at this time, further than as regards the West Texas A. and M. matter since there have been three affidavits made to the effect that Abilene did not receive three votes on the second ballot. I stand ready to join in a meeting with the

GERMANS ADVANCE ON FRONT OF 155 MILES IN GALICIA

THOUSANDS OF PRISONERS AND MANY HEAVY RUSSIAN GUNS ARE CAPTURED

BALTIC TO BLACK SEA

German Headquarters Reports Bitter Fighting in Progress Along Whole Russian Front

By Associated Press. Berlin, July 24.—The German forces in Galicia are advancing from the river Sereth to the wooded pathans over a front of 155 miles wide, says the official statement issued today by the German army headquarters staff.

Several German divisions, the statement adds, report that they have each taken 3,000 prisoners. Numerous heavy Russian guns have been captured and also much booty has been taken by the Germans. Over the entire eastern front from the Baltic to the Black Sea bitter fighting is proceeding. The statement says great successes have been obtained by the German and allied armies.

committee and reconsider the vote. I made this resolution on July 6 and am ready to act in accordance. The attorney general has ruled that three of the committee can meet and reconvene for the vote, if it is shown that an error was made. The affidavits indicate that an error was made and I am ready to act, also there are some little irregularities in the affidavits but I shall not take public notice of them."

Governor Ferguson is quoted as insisting most emphatically that Abilene was fairly and squarely selected for the location of the West Texas A. and M. College.

GRAND JURY TO MAKE REPORT THIS WEEK

By Associated Press. Austin, Texas, July 24.—The Travis county grand jury has not yet made a report of its deliberations but a report is expected to be made during the latter part of the week. That this grand jury is considering "grave and important matters" of statewide character is indicated by the fact that when it requested the court to grant an extension of time to July 28.

PRESIDENT SIGNS BILL FOR BIGGEST AIRPLANE FLEET

By Associated Press. Washington, July 24.—The \$60,000,000 airplane bill became a law today with President Wilson's signature. This immense appropriation is only the beginning of preparations for the campaign intended to overwhelm Germany from the air. More than 20,000 planes are to be built as a first increment and there will be many thousands of aviators. The first task will be the instruction of the vast army of fliers.

MIND YOUR OWN BUSINESS. Austin, Texas, July 24.—"Mind your own business" should be the motto of schoolmen according to Dr. Deffenbaugh, chief of the division of school administration of the national bureau of education in the principal address of the morning before the county superintendent's institute of Texas, which held its first meeting of a four-day session here this morning. Dr. Deffenbaugh explained that school administrators should devote their time to the subject and fully master all school matters in their community.

TAX RATE LIKELY TO BE CONSTITUTIONAL LIMIT. By Associated Press. Austin, Texas, July 24.—When the state automatic tax board meets tomorrow to fix the state ad valorem and school tax rates it may be decided to fix the state ad valorem tax rate at 25 cents on the \$100 property valuation which is the constitutional limit, at least this is the opinion of J. E. Edwards, state treasurer, a member of the board.

LISTS OF DRAFT NUMBERS ENROUTE THROUGH MAILS. By Associated Press. Washington, July 24.—Master lists of the draft, the official and last word assigning every man of the 18,000,000 to his place in the national army were going forward in the mails today to the 457 local boards. They superceded all hitheerto published lists and rectify all errors. The lists have been prepared with the greatest care. In order that all district boards may be assured of getting a list in the mail two copies are being mailed to each. The summoning of the men of the first increment before the local board will quickly follow the receipt of the master list.

ANOTHER BABY BOLLINGER CASE, LIKE DECISION

By Associated Press. Chicago, July 24.—Many doctors and nurses were interested today in a child born yesterday in what was pronounced a "hopelessly deformed" condition. Similar to that of Baby Bollinger, who was allowed to die more than a year ago when an operation might have prolonged life.

The parents took the child to a hospital agreeing to abide by the verdict of the surgeon in charge, who decided that it would be preferable to allow the infant to die.

According to the decision of the surgeon, the child is to be fed as long as there is life in the body but no operation is to be performed.

CUBAN PORTS COMPANY BILL PASSES HOUSE. By Associated Press. Havana, Cuba, July 24.—The House of Representatives at the first meeting of its extraordinary session, approved by a vote of 29 to 20 the Senate bill empowering the president to settle with the Cuban Ports Company bondholders.

The Cuban Ports Company, known as the "Tragadero," was formed during the Gomez administration to clean and dredge the harbors of the island. The company was to receive a certain percentage of the revenue paid to the government on merchandise entering Cuba, its bonds were sold in the United States and England.

When President Menocal entered office he cancelled the concession. It was understood the American and British governments protested on his account on behalf of the purchasers of the company's bonds.

WILSON TAKES STEPS TO SETTLE CONTROVERSY

Appoints Hurley President of Board And Names Bainbridge Colby to Succeed Goethals

By Associated Press. Washington, July 24.—President Wilson today asked Chairman Denman of the shipping board to resign, and accepted the resignation of General Goethals as general manager of the emergency fleet corporation. The president also accepted the resignation of Captain John D. White of the shipping board.

Official announcement of the acceptance of the resignation of Goethals and White was made with publication of a letter from President Wilson to Chairman Denman, asking for his resignation and giving the president's opinion that the only way to settle the row that has delayed the shipbuilding program was to remove both Goethals and Denman.

Edward Hurley, a Chicago business man and former chairman of the Federal Trade Commission, will become chairman of the shipping board. Washington L. Capps, chief constructor of the navy, will succeed Goethals as general manager of the emergency fleet corporation. Bainbridge Colby of New York, will become a member of the shipping board in place of Captain John B. White.

President Wilson's action came as a surprise. Officials generally had thought he would make a further effort to patch differences and divide specifically between Chairman Denman and General Goethals powers conferred on him by the shipping act.

Chairman Denman received the president's request for his resignation at noon and tendered it immediately. "I want to help the president in every way possible," he said, "and never have questioned the wisdom of his decisions."

In asking Mr. Denman's resignation, President Wilson suggested that he would be glad to take the "same disinterestedness and self-forgetting course that General Goethals has taken. When you have done as he has done," the president wrote Mr. Denman, "I am sure that you may count with the utmost confidence upon the ultimate verdict of the people of the country with regard to your magnanimity and unselfish view of public duty and upon winning in the retrospect the same admiration and confidence that I have learned to feel for you."

President Wilson's action came as a surprise. Officials generally had thought he would make a further effort to patch differences and divide specifically between Chairman Denman and General Goethals powers conferred on him by the shipping act.

PLAN TO RESIST ARMY CALL REPORTED NEAR CHICKASHA. Chickasha, Okla., July 24.—Reports reached the Sheriff's office in this city today that an organized attempt to defeat the draft by armed resistance was being formed in the southern part of this county. It is reported that night meetings have been held in secret and the members of the meeting pledged themselves to resist the draft to the point of armed resistance.

The reports that came, the Sheriff's office stated, show a number of high-power rifles had been shipped into this county. It is reported that farmers had been selling their cattle and buying rifles. The headquarters of the society is said to be in the village of Bagley. This is a strong socialist community.

SHEPPARD'S RESOLUTION WILL COME UP TODAY. Washington, July 24.—Senator Sheppard will call up his resolution for submitting to the states the question of limiting not including ad valorem to the allies which represented in excess of 300,000 pounds sterling daily.

While the anti-prohibition Senators will oppose passage of the Sheppard resolution, in view of the pending food legislation which exempts wine and beer for war-time purposes, they are willing that national prohibition may be brought to a vote.

Each element in the Senate claims a victory on the basis of two-thirds vote, and there is genuine speculation on the probable attitude of the House.

SHERIFF OF MURRAY COUNTY, OKLA. SHOT AND KILLED. Ardmore, Okla., July 24.—Dick Deel, sheriff of Murray county, was shot and killed at Sulphur, Okla., late last night, according to telegraphic advices received here this morning. A report with a relative is supposed to have been the cause of the shooting.

SENTRY FIRES SHOT WHEN CAR REFUSED HALT COMMAND. EMPEROR SPEAKS SLIGHTLY OF AMERICA'S PART

By Associated Press. Bern, Switzerland, July 24.—The Kaiser, riding to Aachenburg, Havarria, says that at the reception here recently in Berlin by Emperor William to members of the Reichstag the emperor conversing with Philipp Schiedemann the socialist leader, spoke slightly of America and expressed the conviction that the United States would not play a decisive part in the war.

BLOOD AND IRON POLICY WILL BE PUT IN EFFECT. Petrograd, July 24.—"A blood and iron policy" will be put into effect if needed to have Russia by the government of Premier Kerensky, to which unlimited power has been granted. In an interview today the premier said: "Relying upon the confidence of the masses and the army, the government will save Russia and Russian unity by blood and iron, if arguments and reason, honor and conscience are not sufficient. The situation at the front is very serious and demands heroic measures but I am convinced that the organization of the state is sufficiently vigorous to be cured without a partial amputation."

NECESSITY FOR BIRTH STATISTICS EMPHASIZED

From the Boston Transcript.
Washington—Will the question, "How old are you?" asked at least 10 million times on registration day, result in state legislatures passing laws requiring the registration of every birth? The bureau of the census is hopeful that this will be one lesson of last Tuesday. Sam L. Rogers, director of the bureau, believes that as the city devastated by fire is so rebuilt as to guard against a second conflagration, and as the heavy loss of life which follows the overloading of an excursion steamer results in more stringent laws and in greater safety for future travelers, so will the war call for the registration of our young men bring home the need of birth records to every community and to almost every family in the United States.

Never in the history of this country has the question, "How old are you?" been of such vital interest to so many people as it is today. Never before has the government itself been so deeply interested in knowing the exact ages of the young men of the land. Consequently, it is not to be wondered that never before has the public mind been so generally aware of the great importance of complete birth registration.

The need for complete birth registration is recognized by many when they hear the story of the American who was arrested in London early in the war as a German spy and who was unable to obtain a birth certificate because his birth never had been recorded and the physician had died. The man was saved finally only by the fortunate discovery of a letter, written by his mother, which gave the date of his birth. But as the story related to somebody far away, someone unknown to the general public, someone never heard of before, the point was soon forgotten, except by officials, and no wave of strong public opinion was started. Registration Tuesday, the day of interest in the story and gave added evidence of the need of birth statistics. Not only are birth records needed for registration purposes, but they are needed to prove one's voting age, to establish old age pensions and pensions for the children of soldiers, to establish the rights of inheritance and to determine how efficiently the states are protecting the health of the child ren.

Can you prove, young man, the Bureau of the Census asks, that you are under 21 or over 31 or must you forever be suspected of having falsified your age and having failed to protect your flag? Perhaps a fond mother, who save her son from the horrors of the battle field, may swear that the boy is below the age limit, only to face proof later that the man should have registered and his mother, the Director Rogers believes that perhaps there are slackers who in the absence of official birth records may be able to shirk registration. The director and all of his subordinates in the bureau believe that last Tuesday demonstrated beyond all question the need of complete birth registration in every corner of the United States. "May we hope," says the bureau, "that this call for registration of all men between the ages of 21 and 31 will awaken the people from their lethargy and lead at once to this forward step in our civilization—the registration of every birth."

TWO FINED IN POLICE COURT FOR SPEEDING

Home talent mostly put on the performance this morning. One speeder, fine \$5. He was coming in from the actory district yesterday, splitting the wind. Said his speed indicator was disconnected. Mounted officer said he ran his motorcycle at 35 miles rate to catch him and it took about five blocks to accomplish the task. Defendant had never been pulled before, and was let off with lowest fine and warning. Grocery delivery man, fine \$25 for breaking the speed record. Third offense. Two householders testified that 25 miles an hour was conservative estimate of rate defendant was going in race with another as yet uncaptured delivery auto. Three drunks, five each. One nut, pulled for running circles around houses across river and freight-car women and children. Officer making complaint said man was apparently drunk or doped, and dangerous.

REGULATIONS GOVERNING PHYSICAL EXAMINATION OF THOSE DRAFTED

The Times will publish in installments from day to day the regulations governing the physical examination of those called by the army draft. The first installment follows.

Secretary of War.
1. It is important, to begin with, that the examining physician should realize that there will be a certain proportion of men among those presenting themselves for examination who will endeavor to obtain exemption by dissimulation, varying from exaggeration of an existing condition not disqualifying to downright malingering, and he should be prepared to protect the government and himself against such attempts at deception.

The physical examination should take place in a large, well lighted room. The examining physician should proceed in substantially the following order, viz:

(a) Observe the general condition of the skin, scalp, cranium, ears, eyes, nose, mouth, face, neck and chest. Take weight and chest measurements. As follows, all chest measurements to be taken on a level just above the nipple.

Height.	Chest measurement.	Mobility
Feet. Inches.	(ibs.) ration. (inches)	(inches)
5. 1	61 118	31
5. 2	62 120	31
5. 3	63 124	31
5. 4	64 128	32
5. 5	65 130	32
5. 6	66 132	32 1-2
5. 7	67 134	33
5. 8	68 141	33 1-4
5. 9	69 148	33 1-2
5. 10	70 155	34
5. 11	71 162	34 1-4
6. 1	72 169	34 3-4
6. 2	73 176	35 1-4
6. 3	74 183	36 1-4
6. 4	75 190	35 3-4
6. 5	76 197	37 1-4
6. 6	77 204	37 1-2
6. 7	78 211	38 1-4

Variations Permissible.
The following variations below the standard given in the table are permissible, when the applicant is active, firm muscled and is evidently vigorous and healthy:

Height—Inches.	Chest at expiration.	Inches. Pounds.
61 and under 64	1	8
64 and under 68	2	10
68 and under 72	3	12
72 and under 76	4	15
76 and under 80	5	20
80 and upward	6	24

To be acceptable, men below 64 inches in height must be of good physique, well developed and muscular.

Variations in weight above the standard are not disqualifying, unless sufficient to constitute obesity. Unless exceptionally well proportioned, men above 6 feet 6 inches in height, should be rejected.

(b) The arms being extended above the head, back of hands together, the applicant is required to cough vigorously, and form of rupture may now be discovered by the hand and eye, but not better by the index finger passed up the external ring.

(c) The arms remaining extended above the head, the applicant is required to take a long step forward with the right foot and bend the right knee; the genital organs are now conveniently exposed and varicocele and other defects in the scrotum may be recognized.

(d) Arms down and the man required to separate the buttocks with his hands, at the same time bending forward; this exposes the anus.

(e) Examine heart and lungs; rate of pulse and respiration.

(f) Upper extremities: Make sure that all joints are free and supple, from the phalanges to the shoulder.

(g) Lower extremities: The person

The Empress

In "Her Greatest Love," the new special super de luxe William Fox photodrama, found on Quida's novel "Moths," showing at the Empress today Miss Theda Bara reaches the height of her artistic career in her impersonations of a young, unsophisticated English country girl, and later that of a woman whose very soul has been torn by agonizing emotions. Miss Bara shows a versatility that has seldom been equalled in photodrama art. Her characterization of Vere Herbert is evidence that Miss Bara possesses a depth of feeling and emotion entirely foreign to one who has made vampire roles famous the world over.

The story of "Her Greatest Love" is one of deep human appeal. It tells of the maneuvering and the machinations and the subtle intrigue of a typical society "butterfly" anxious to make an advantageous marriage for her daughter. In doing so she eventually schemes away her child's happiness by marrying her to a Russian prince, whose peccadilloes and flagrant breaches of morality were known throughout Europe.

FRENCH WAR PICTURES AT THE GEM AND PLAZA

Today is the final showing of the French official war pictures at the Gem and Plaza. Manager Pois having the benefit arranged for the Wichita Falls Red Cross. Those who saw the pictures yesterday had impressed on them more forcibly than ever before, how horrible it was and made them confident that it is America's mission to bring these horrors to a speedy end. These pictures have an undeniable interest and a mission as well and it is especially fitting that the Red Cross of both America and France benefit by their showing, as the people of America when shown what the men and boys of other lands suffer by war will loosen their purse strings the more readily that this suffering may be spared in future, or at least, alleviated in a large measure.

SOCIETY

THE NEW SOUTH.

Out of the wreck of a Civil War, Out of the ruins spread wide and far, Out of the deluge of shot and shell, Out of the graves of a Nation that fell, Out of the ashes of the Old Southland Has risen in triumph a New Southland

Young and vigorous and growing fast, Grasping the present, forgetting the past,

Growing, expanding, forward she goes, Making the desert bloom as the rose, Building homes where peace abides, Starting the world by her giant strides

Ceaselessly waging a bloodless fight, Conquering wrong with weapon of right,

Winning the shining trophies of peace, From hands reluctant to give release, In her glad mouth is industry's song, Which she gayly sings as she bounds along.

To the roar of cannon and roll of drum Has succeeded the factory's musical hum,

Banners of peace now float in the breeze, White sails of commerce cover her seas;

Her temples of war are now temples of arts, And her fortified cities commercial marts.

All hail to the land, the fairest e'er seen!

All hail to the land, of all lands the queen!

She is sparkling and bright as an ocean gem,

And she's destined to wear the world's crown, For for freedom and progress, her people stand.

In this land of the New South, imperial land.

CAMP BREAKFAST FOR CLARENDON VISITOR SUNDAY

In honor of Mrs. J. A. Tomb and son Henry and Harry Ramsey, all of Clarendon, who have been visiting relatives for the past few weeks in this city, a delightful outing was given Sunday at McFarland Springs. The party consisted of the Ramseys, Mr. Ramsey, Mr. and Mrs. W. W. Brown and family, Mrs. C. M. Dike and family, Mr. and Mrs. F. W. Snyder and family and C. F. Friebe and family.

B. W. A. MISSIONARY PROGRAM MONDAY AFTERNOON

The Uplift of the Negro and Indian Race formed the study of the Baptist Women's Alliance meeting in missionary study Monday afternoon at the First Baptist Church. Mrs. W. W. McGinnis was leader and the meeting was held in the parlors of the church. The subject of "Witnessing" Mrs. J. J. Lory discussed the uplift of the negro in relation to economic, social, education, health, housing, morals and religion. Mrs. A. W. Eichenberger gave a reading, "Aunt Dinah's Story" from "The Birth of a Nation." Mrs. F. W. Snyder discussed the Indian problem; the Supplemans sang, "Tell It Again" and the program was closed by the benediction by Mrs. R. B. Stanton.

NEW VERSION OF ASSASSINATION THAT STARTED WAR

Copenhagen.—A correspondent of the Associated Press has reported to the hitherto unpublished facts relating to the assassination of Archduke Franz Ferdinand of Austria, showing that he had a strong prejudice of approaching death, are contributed to the Berlin Tageblatt by its correspondent at the Austro-Italian front.

The correspondent's informants, according to this dispatch are persons of high standing, some of whom were eye witnesses to the Sarajevo tragedy, which has been described as having supplied the match that set the world aflame.

Indications of the Archduke's uneasiness, it is asserted, were apparent while he was driving along the quay at Trieste to board the steamship for Sarajevo. He repeatedly glanced at the houses fronting on the water, as if suspecting a bomb-plot. At Cuman Ridge, in Sarajevo, however, when Gavrilo, a Serb, hurled a bomb which landed on the colored top of the Austro-Hungarian heifer's carriage, the Archduke showed remarkable presence of mind by sweeping the death-dealing missile away with his hand. Falling to the ground, the bomb exploded, damaging the third automobile in the line of the parade and wounding the adjutant, Lieutenant Colonel Count Merizzi.

After the injured officer had been removed to a hospital, the archducal pair proceeded to the city hall. At the conclusion of the ceremonies there, a consultation was held as to the advisability of carrying out the program which had been announced for the royal visitors. Contrary to the accepted version of the episode, which described Ferdinand as insisting that the program be carried out despite the urgent advice of members of his party in opposition to the plan, the heir to the throne is now quoted as having asked:

General Petiorek is said to have proposed either that the city should be punished by the cancellation of the program or that the streets be cleared and the ceremonies carried out as arranged. To the latter proposal, the Archduke, after brief reflection, is said to have replied:

"To carry out the program after clearing the streets doesn't suit me.

 Wichita Falls, Texas, July 24, 1917.

The Houston Post is now making an effort to have Col. Tom Ball consent to become a candidate for mayor of Houston. Doubtless Colonel Ball would be the very best man that could be selected for that position. Many Democrats of Texas were of the opinion that he should have been given the nomination for governor in 1914, but the mere fact that he was a prohibitionist defeated him. His defeat was accomplished principally by the fellows who say they are prohibitionists right up to the time it comes to vote, and then flop over and vote for the anti candidate for "business reasons."

It might be that way again. Houston is about as strong an anti city as there is in the State, and the anti as we all know by this time, rarely ever neglect an opportunity to spear a pro.

A trip to the country surrounding Wichita Falls leaves the impression on all who have made it that the acreage planned to cotton this year is by far greater than ever before, and that the condition of the crop is just about as good as ever has been heretofore. Many who are in position to judge such matters are free to predict that Wichita county will produce this year between 18,000 and 20,000 bales of cotton. The crop of last year was only about 8,000 bales, and the largest crop ever produced was 16,000 bales. If the price holds up and our calculations are right, it will mean that about \$2,000,000 dollars will be realized from the sale of cotton by Wichita county cotton producers this year. In addition to the money for the cotton, the seed is almost sure to sell around \$60 per ton.

Several of The Times subscribers who are spending the heated season in the various mountain and seaside resorts have been kind enough to send us picture post cards showing to some extent what they are enjoying, and some few suggesting that we follow their example and do likewise. But we can't—for more reasons than can be enumerated. In the first place, we feel absolutely sure that it is our solemn duty to stay on the job and keep the wheels of commerce buzzing and humming during the absence of our city builders, and even after they return we generally find that our finances are so low that they will not permit an outing of more than twenty-four hours duration. Yes, the scenery is great, but it is not for us.

Things must be getting strenuous for Governor Ferguson. The other day Austin dispatches told us he appeared before the Travis county grand jury, and that four State Rangers were close by. And today the news comes over the wire that Speaker Fuller has issued a call for the legislature to assemble in extraordinary session for the express purpose of instituting impeachment proceedings against the Governor, charging fraud by the governor in the matter of locating the new A. and M. College at Abilene. It is also worthy of note that, apparently, the Lieutenant governor, W. P. Hobby, is siding with Speaker Fuller in this matter. It now seems apparent that unless the legislature does reassemble, the State University will not open while Ferguson is governor, or if it does, will be conducted along lines mapped out by him. Every day, almost, something is occurring to convince those who went "hog wild" about "Farmer Jim" to such an extent that they were able to elect him governor of this great state—that they are the victims of misplaced confidence. Doubtless many of them now wish they had the power to recall what they did in the Democratic primaries in 1914 and 1916. Unfortunately this cannot be done. The only relief now for Texas is that the legislature will convene at the call of the Speaker, and if possible, correct about the most colossal blunder the Democrats of Texas have ever made.

PART PLAYED BY NEWSPAPERS.

In a letter to Congressmen at Large Garrett acent some proposed legislation affecting newspaper publishers, Marcellus E. Foster of the Houston Chronicle has this to say:

"The United States government could make little or no progress in its present fight for the world's freedom without the aid of the press of this country. We have given this aid freely and without hope of reward or financial recompense. In the matter of the Liberty Loan we came to the rescue of the government, and that loan could not have been made popular, nor could it have been oversubscribed or even subscribed, had it not been for

the fact that the newspapers gave it their editorial endorsement and gave column after column, and page after page of space for impressing the necessity and value of the Liberty Bonds.

"In the matter of registration we came to the aid of the government, and in the matter of recruits our columns have been thrown open for the use of the War Department in all its branches day after day and week after week.

"The newspapers of the United States are doing all this without being paid one cent for advertising by our government, which is in strong contrast with the methods used in England and Canada, where many hundreds of thousands of dollars were spent for newspaper advertising, both in securing recruits and in making bond issues popular."

That is the truth; the newspapers have done their bit and over and over again. They have given full measure, packed down and running over. Some of the proposed legislation has been of a sort calculated to impair their earnings and to cripple their usefulness, while other lines of business have escaped notice. "It's a queer world, my masters."—Waco Times-Herald.

DR. VINSON'S LEASE.

Denison Herald.

According to Regent John M. Mathis of Brenham, President Vinson's term of office will be limited to but a few months longer, when he too will be made to walk the plank as per the Governor's program. It is presumed the reason he was not decapitated when the seven members of the faculty suffered that fate is the Board need help in securing teachers for the forthcoming term; and realizing the difficulty to be encountered in securing a president of an established institution that is without teachers, they decided to use him to that end and then proceed to discharge him.

We cannot conceive of no other reason for President Vinson's retention, if Regent Mathis' statement is correct, and reflects the sentiment of his associates on the Board. Not only will he be dismissed, but it appears that certain medical professors who have long been connected with the medical branch of the University are to go because they are persona non grata to Dr. Fly of Galveston, a member of the Board and whose fiery temperament appears to fit in nicely with the destructive disposition of the Governor.

With such a prospect in view it will probably not be worth while for Austin boarding house keepers to stock upon on groceries and supplies preparatory to taking care of the army of students that have hitherto made such business profitable at the capital. It is not to be expected that boys and girls of Texas desiring an education will take chances on finishing the term even if they start at the beginning of the session. What assurance have they, even if a corps of teachers should be secured for the opening—that they would not be dismissed before the end of the term? No teacher, however competent he or she may be, can rest secure in the thought or hope to finish the session unless they made up their minds beforehand that they will see instructions daily from his excellency the Governor. Falling in which they will be summarily removed.

Any teacher whom Dr. Vinson may induce to accept a position at this time will be entering the realm of speculation, for it is not to be expected that he will select men antagonistic to him. And since his head has been

chosen for the block, it is reasonable to suppose that all friendly to him will likewise be delivered pink slips. Any educator who would accept the presidency of the University under present conditions will make a monumental failure of its affairs, and no man of business ability will attempt it. A politician might assume the presidency for the honor of being the titular head of a supposed great educational institution, but the rest, man who has an interest in the educational advancement of the youths of Texas, knows that under the present administration, the president of the University is such in name only. The strings reaching from the Governor's office prevent the exercise of the power and authority the president is supposed to be clothed with.

It was to be hoped that the dismissal of the seven faculty members would appease administrative wrath and he would proceed with the work of building and reconstructing the institution to be immediately begun under the direction of the man whom all Texas honors with a confidence most worthily bestowed. Dr. Vinson has proven himself to be well fitted for the place and his record though brief, appears to have been worthy of everyone save the Governor and his hordes of appointees including others who hope to receive favor before his term expires. But the man who happens to be one of the Governor's latest additions to the Board and who is authorized evidently, to speak with authority has disillusioned us, and we can now expect when the Board of Regents meet in October to witness the final act in the tragedy the scenes of which are laid in political infamy.

WHY THE GUNMEN?

In noting that the governor of Texas had occasion to appear before the Travis county grand jury in Austin, the dispatches tell us that attending him were four State Rangers.

Even when the legislature was in session, it was observed from time to time that one or more armed gun fighters were always at the governor's side.

He was thus attended in passing from the mansion to his office, from his office to the mansion, and indeed, wherever he went.

Not long ago he was in Houston, and sure enough this armed guard was near him at all times.

Of course, if for any reason the governor's life is in danger, he ought to be protected, but what is the occasion for the chief executive of Texas to surround himself with armed men?

Why does he fear?

Whom does he fear?

Nothing of this kind has ever happened in Texas before. Our governors have always heretofore felt safe against assassination or attack.

The people of Texas have never indicated such hostility to their governors that it was deemed necessary for them to subject the State to the expense of employing gunmen.

Of course, our presidents have to be guarded, because there are anarchists and cranks who are mischievous, and presidents have been assassinated.

But no governor of Texas has ever been assassinated, nor has any attempt ever been made upon a Texas governor's life, and surely the shining mark that the disordered brain of an anarchist chooses as a victim does, not figure in any situation we have in Texas.

It is not a spectacle to excite the pride of the law-abiding citizens of Texas to behold their governor going about with an armed guard.

It seems to The Post that he ought

ARCHER CITY ROAD MARKED WITH SIGNS

(Archer Dispatch). Judge Melugin and a bunch of Archerites went to Wichita Falls last Monday and on their way home marked the road with signs. The same road has been marked with signs many times before but the kind you are thinking about is not the kind the Archerites went to Wichita Falls last Monday. WATCH THE BABY

Through the Hot Summer Months

Few babies can stand the hot, sweltering summer weather unless the right kind of food is chosen and especially see that it is fresh. If baby is not developing normally, we advise that you try a good standard brand of baby food. It's also good for children and grown-up people who find that heavy foods do not agree with their system this hot weather.

Let us provide you with any standard brand of Baby Foods, Nursery Need, Bottles, Nipples and Baby Medicines. We carry in stock:

- Mellon's Food, Horlick's Malted Milk, Nestle's Food, Eskey's Food, Robinson's Patent Barley, Squibbs Sugar of Milk, Eagle Brand Condensed Milk.

RAINS FAIL TO FURNISH WATER SUPPLY AT CHILDRESS

As stated a few days ago, the Denver shops at Childress are hard up for water, the lake there having given out and the recent rains in that part of the State not having been of such amount as to afford any relief. This situation is bad, and the Denver road management have been put to it to commence hauling 250,000 gallons daily from this city to Childress, which is 25 tank cars.

Market Report

Chicago Grain Futures.

Chicago, July 24.—General selling of corn resulted today, chiefly from news of the breaking of a two-month drought in North Central Kansas. Opening quotations ranged from the same as yesterday's finish at 1 cent lower with September at \$1.53 1/4 to \$1.53 1/2. The close was heavy with 1 1/2 to 2 1/2 cents net decline with September at \$1.53 1/4 and December from \$1.14 1/2 to \$1.14 3/4. Wheat closed steady, 4 to 6 1/2 cents net lower to \$2.50 for July and \$2.25 for September.

New York Cotton Futures.

New York, July 24.—After opening steady at 12 points higher to four points lower on a little covering based on a renewal of trade buying the cotton market eased off sharply under selling pressure due to rumors that a private crop reporting bureau made conditions 22 or 27 1/2 points above last month. October dropped to 23.65 and December 23.65, representing 18 to 20 points net loss.

Fort Worth Live Stock.

Fort Worth, Texas, July 24.—CATTLE—Receipts, 4000; market steady. HOGS—Receipts, 500; market 15 to 25 cents higher. HEAVIES, \$15.25@15.35. SHEEP—Receipts, 500; market steady. Lambs, \$13.00@14.00.

HEAVY INCREASES IN RETAIL FOOD PRICES

Washington, July 24.—Heavy increases in retail food prices in the United States in the last three years are shown in statistics compiled today by the Department of Labor. The sharpest advance was in flour, which jumped 150 per cent in price; potatoes increased 125 per cent, lard 82 per cent, sugar 79 per cent, corn meal

77 per cent, bacon 56 per cent and bread 55 per cent. The first year of the war many prices decreased slightly, but by the summer of 1916 they were mounting rapidly. Most of the increases were in the last twelve months. Wholesale prices of many commodities have more than doubled since 1914. Wheat and flour have increased 200 per cent, corn 140 per cent, corn meal 170 per cent, potatoes 140 per cent, lard 107 per cent, beef 76 per cent and hogs 79 per cent. Marvin Runion of Wolfe City, is the guest of his cousin, Rhea Howard, while here on a business trip.
