Number 69.

ALLIES CONSOLIDATE POSITIONS WON TUESDAY

Heavy Downpour of Rain Over Marshy Ground Retards Progress

The Associated Press war summary today follows: With a wide stretch of territory and more than 3,500 prisoners in their hands as the result of the first day's fighting in their new offensive, the British and French troops in Flanders spent last night consolidating their gains and repulsing German counter attacks.

CASUALTIES ALLIES LESS THAN HAD BEEN EXPECTED

The Associated Press account sent from the British front in France and Belgium last night follows: An epoch-making offensive, launched by the British and French against the German lines between the River Lys and Boesinghe at daybreak, has with few exceptions, accomplished all that it had been planned for the first day of the battle, which gives promise of being the greatest effort of the war.

ALLIES WITHDRAW TROOPS FROM ANCIENT GREECE

Athens, Aug. 1.—Withdrawal of the allied forces from Greece was decided in accordance with the decision of the Balkan conference at Paris being rapidly carried out.

LIONS CLUB TO INVITE KEMP TO SPEAK BEFORE IT

J. A. Kemp is to be invited to speak before the Lions Club at its luncheon next week on the proposed reclamation amendment.

ALLIED FORCES ATTACKED OVER VERITABLE SWAMP

BASES BUILT FOR GUNS

Unique Concealment Methods Permitted Progress Under Very Eyes of the Enemy Without Discovery.

SEARCH ALL WHO ENTER CHAMBER FOR REVOLVERS

By Associated Press. Austin, Texas, Aug. 1.—While no trouble is expected to arise over the proposed amendment to the Legislative Code, no chances are being taken for early today four deputy sheriffs were detailed to search every one entering the chamber.

WAR EXPENDITURES COMMITTEE GIVEN UP BY CONFEREES

By Associated Press. Washington, Aug. 1.—The deadlock of the conferees on the administration food control bill was broken today and complete agreement reached when the Senate conferees yielded and consented to strike out the amendment proposing a congressional committee to supervise the war expenditures.

21 DEATHS FROM HEAT IN CHICAGO LAST 24 HOURS

By Associated Press. Chicago, Aug. 1.—Twenty-one deaths attributable to the heat were reported in the last 24 hours.

GERMAN COUNTER ATTACKS SUCCESSFULLY REPULSED

By Associated Press. London, August 1.—German counter attacks yesterday afternoon and last night against the new British positions at La Basséeville and north of the Ypres-Comines canal, in Belgium, were successfully repulsed, says the official statement issued today by the British war office.

RIBOT REFUTES CHARGES MADE BY CHANCELLOR

CITES SPEECH MARCH 21

By Associated Press. Paris, August 1.—Premier Ribot replied in the chamber of deputies yesterday to the declarations made Saturday by Dr. Michaelis, the German chancellor, that there was a secret treaty between Russia and France having in view a plan of conquest.

COTTON CROP ESTIMATE IS 11,949,000 BALES

By Associated Press. Washington, Aug. 1.—Cotton was unfavorably affected by weather and other conditions during July but an improvement to the extent of more than 100,000 bales was indicated in the monthly report of the department of agriculture today which forecasts a total production of 11,949,000 equivalent 500-pound bales from a yield of 166.9 pounds per acre.

SENATE CONFEREES YIELD TO PRESIDENT'S DESIRE AND AGREEMENT REACHED ON FOOD CONTROL

By Associated Press. Washington, Aug. 1.—The deadlock of the conferees on the administration food control bill was broken today and complete agreement reached when the Senate conferees yielded and consented to strike out the amendment proposing a congressional committee to supervise the war expenditures.

NEW YORK CONTINUES TO SUFFER FROM HEAT

New York, August 1.—New York continues to suffer from heat today after two days of the hottest weather of the summer with still no relief in sight.

TWO INDICTMENTS AGAINST FORMER SECRETARY STATE

By Associated Press. Austin, Texas, Aug. 1.—Two of the indictments returned last Friday by the Travis county grand jury were against John G. McKay, former secretary of state, and he is charged with these two counts with the misapplication of public funds, the same as several of the other state officials.

By Associated Press. London, August 1.—German counter attacks yesterday afternoon and last night against the new British positions at La Basséeville and north of the Ypres-Comines canal, in Belgium, were successfully repulsed, says the official statement issued today by the British war office.

WHY HOOVER BELIEVES AMERICA WILL WIN AGAINST GERMANY

The Times several days ago published a statement from Herbert C. Hoover in which he said the American people had accomplished more in a practical way for food conservation in four months than Germany had accomplished in twelve. A copy of the New York Times has been received giving Mr. Hoover's statement in more detail.

"No one can rightly be gloomy over the outcome for the American people in this war," Mr. Hoover began. "Success in this war is a question of resources and the will and ability of the people to organize themselves to use them rightly and to endure. Many thinking Americans and the whole world have been watching anxiously the last four months in the fear that democratic America could not organize to meet autocratic Germany. Germany has been confident that it could not be done. Contrary proof is immediately at our door, and our people have already demonstrated their ability to mobilize, organize, endure, and prepare voluntarily and efficiently in many directions and upon a mere word of inspiration, aside from the remarkable assemblage of our army and finances.

"We entered the war four months ago, and it was announced by the

president that one of the great problems of the war would be food; that we must prepare to increase and to save our foodstuffs for a year in advance, not only for ourselves but for our allies as well. There has been no consequential national legislation, yet the greatest spontaneous volunteer effort ever made in history has not only provided us with a larger stock of food supply as a result of patriotic planting in every quarter, but waste is being eliminated out of every crack and cranny of our homes and of our industries, and this is being done without compulsion of the law, but by spontaneous effort and self-denial of the people.

"There have sprung up overnight throughout the United States in every city, county, village, and state definite and positive organizations, practical in their ends and unflagging in their efforts which have the will to solve the food supply questions. No autocratic government could accomplish this. Germany accomplished less in twelve months than our people have done in four. The only need of our legislation and authority is to curb those who would profit by the volunteer movement. The proof of all this lies in the fact that our present prospects indi-

cate an increase of production of cereals by 850,000,000 bushels, and although our farmers planted an increased acreage of wheat, the weather has not responded for this product. Literally millions of new gardens have been planted or extended everywhere. We have the largest supply of vegetables ever in our history.

Wolf at Europe's Door.

The wolf is at the door of Europe, and with all these surpluses, our stock of foodstuffs would still have been too little for the demand upon us during the coming year if our people had not responded to the call for wise use, economy, and elimination of waste. The response not only in planting, but also in conservation has been of such a spontaneous, magnificent order as to give confident optimism in the ability of our people to prepare and to persevere. In the matter of our great surplus of perishables, because of our inability to ship these to our allies, a call was sent out from Washington asking that our people should consume the perishables during the summer and fall months in substitution for the great staples which should be held for the winter, and to ship to our allies. They were asked to substitute corn for wheat and to conserve the waste of meat and fats by the use of substitutes. That this is being done is already evidenced by reports of dealers in cereals and in meats, which indicate a most remarkable decrease in demand for these commodities and an increased demand for substitutes.

Response of the Women

A call was also sent out asking that all perishables that could not be consumed should be preserved and stored. This call since the arrival of perish-

What Do Your Hands Tell?

Soft, white hands and bright, clean nails are every woman's right. Household duties are hard on the hands. Protect them against the dirt, grease, stains, roughness, redness and disfigurements—wear a pair of our

HOUSEHOLD RUBBER GLOVES

for washing, cleaning, sweeping, dusting, scrubbing, handling meats, poultry, fruits and vegetables. When your hands are tired, aching and red after a hard day's work, just before going to bed, wash them in luke warm water, bathe them well in one of our Santox preparation, slip on the gloves and you will soon fall asleep, the ache gone, the soreness disappearing, and you will find on arising in the morning that your hands show no evidence of the hard usage of the day before.

We sell "WEAREVER" Household Rubber Gloves, the best obtainable. Every pair guaranteed doubly. A guarantee from the manufacturer with every pair, and we back this guarantee up with our own. The gloves are all rubber, tough and strong to stand severe service. They fit correctly, are comfortable to wear, and will far outwear ordinary grades. Per pair \$1.00

What Concrete Roads Mean to Everyone

How vitally good roads affect his personal welfare the average man on the street seldom realizes. But he is as dependent upon roads as every part of his body is upon blood supply. The defense of his country, the feeding of his children, the cost of his living, all are affected.

Food prices depend upon supply, and supply depends upon quick transportation. Wages depend upon business activity, and business activity depends upon shipping facilities. Shipping facilities depend upon an adequate mileage of permanent highways to handle the short haul freight.

Everybody Benefits

The Farmer: Concrete roads enable him to haul cheaply at any season of the year; to produce more; to earn a better profit. They enable his family to get to town and his children to get to school. They move his farm into town.

The Motorist: The pleasure, usefulness and value of a motor car can be measured by the mileage of good roads available. Concrete roads mean greater radius of travel, faster travel, safer and more comfortable travel, less cost of travel.

The Merchant: To the country merchant concrete roads bring trade. The more often farmers come to town with their wives, the more they see and want to purchase.

The Hotel Man: Concrete roads attract travel, both for pleasure and trade, and bring more patronage to the hotel keeper.

Be sure you know what a concrete road is. Concrete is made of Portland Cement, sand and pebbles or crushed stone. It is hard, rigid, unyielding and durable. Concrete for roads is the same as the material used in building concrete dams, factories, bridges and big engineering works like the Panama Canal, requiring great solidity and strength.

Let us send you an interesting booklet about concrete roads. After reading it you will be in a position to take up the building of concrete roads authoritatively with your neighbors and road officials. Write for a free copy of Bulletin No. 136.

Wichita Falls Electric Company

bles in May has been met by the response of millions of women in the country in not only the matter of preserving in the household, but also by the creation of innumerable committees, and clubs, demonstration trains and instructors provided by our educational institutions, making a completed system throughout the country, and now, although we are only half way through the canning season, we can begin to see magnificent results. It is obvious enough that the American woman has not lost the household arts of her pioneer mother.

"Our American canners will this year produce about 1,700,000,000 cans of fruit and vegetables. Our government and the Allies will require about 200,000,000 of these cans. The returns we have from various state organizations indicate, from the results obtained during the first half of the season, that the American women will preserve 200,000,000 jars and cans of fruit and vegetables this year and will thus only a very deficiency called for by the Allies.

"A few days ago we sent out a call to the women of the country that they should sign a pledge to us to accept our suggestions as to substitutes and waste elimination in their homes, so that their circumstances would permit. Already we have over 2,000,000 one pledges en route to Washington, Philadelphia leading with 250,000. St. Louis, for example, has over 150,000 meetings of women in arrangement of the enrollment. There are 400 organized women in Virginia in a house-to-house canvass. We shall have the millions of houses in the United States enrolled as members of food administration, joining us in volunteer regulation, within sixty days, and this in response to a simple request and with no extended organization on our part, except reliance upon the support of women's committees of the National Defense, the State Councils of Defense, the multitude of existing women's organizations, and the strong support of all the churches and fraternal organizations of the country. As a result of an formulate the voluntary regulations, we shall ask for similar pledges from every public eating place and every trade in the country.

Garbage Reduced 32 Per Cent.

"The elimination of waste in the country has been most gratifying. The test index of this saving is in garbage returns from our large cities. We have the returns of millions of pounds from cities of a population of 15,000,000 showing a reduction of their garbage by 32 per cent. under the month of June last year. This is a monument to the energy of the American women, not only of households, but of the organization of public opinion for the elimination of waste.

"Now that we make a broad survey of the country after four months, we find every state spontaneously creating a definite and active food organization presided over by capable and devoted men and women, who have sacrificed every interest in this national service. We find a well-considered and well defined organization of sub-committees on the various phases of food production and conservation; and we see these duplicated by sub-organizations in counties and municipalities. This is the organization of democracy which is the positive proof, not only upon call of national duty our people will rise, and rise over night, to the real defense of their faith. I have no fear that the superior intelligence of our people and their capacity for self-denial, their will to persevere, will not prove a wall against which the Germans may battle for the next five years if it be necessary."

PERSHING HAS NO POLITICAL AMBITIONS

Chicago, August 1.—John J. Pershing is in France merely to do his best to beat the Germans. He has no political ambitions, and all talk concerning his name with political preference is extremely distasteful to him and members of his family. What he wants from the people of the United States is only co-operation in furnishing needed men and munitions, not hero worship or thought of present or future reward for him.

This, in effect, is a summary of a letter just received from the commander of the American forces in France by his brother, James F. Pershing, in which the General requested that the press of America avoid speculation on his political future and refrain from personal adulation of him, his son, or his relatives.

"My brother," said James F. Pershing today, "is not and never will be a candidate for president or anything else. He is a soldier, pure and simple. I couldn't tell you whether he is a Republican or a Democrat.

"The General asks that I do what I can to stop the papers from talking about his political future. He has none; the job in hand is his life's work. The French, he says, wished to show their enthusiasm for the United States Army and to the nation which has entered the war in their behalf, and gave a royal welcome to him—not as a personal tribute, but as the only available symbol of America's participation in the war."

WICHITA COUNTY RED CROSS

The following ladies reported for work at the Red Cross work room on Monday morning: Mesdames Laughery, O'Donohoe, Noble Bacon, Brainard, Gaffney, Ashner, Ornel, Munnell, Gray, McCaroy, Miller, Maer, Young, and Misses Lora Cobus, Levis, Amurey Ferguson, Editha King, Mildred Baiside, Margaret M. de, Louise Peterson, Margaret Walker Fenlon and Ellen Adele Anderson. On Monday afternoon, Mrs. E. H. Maupin, T. D. Grier, Mrs. Harlock H. Allen, H. J. Goodale, Harvey Harris, Orville Bullington, E. H. Burnside, Parker, A. E. Anderson, F. T. Taylor and L. A. Kellum, and Misses Selma Cloutier, Carl Carter, Kathleen Stonecipher and Chenault.

Mrs. E. A. Fowler's Sunday school class met and finished the knapsack port bags for the National Guard. Those present were Mesdames E. A. Fowler, Frank Keil, J. O'Donohoe, W. H. Priddy, C. J. McDowell, J. M. Bell, J. D. Robertson, A. Hayes, C. E. McCutchen, Minnie Gaffney, G. W. McCutchen, Lee McDowell, Andrew Urban, Butts, Charles Carlson, H. E. Munnell and W. W. Robertson.

The Red Cross benefit here as well as in other cities throughout the country is proving very popular and Wichita Falls people have been very generous. Those benefits must be referred to the business manager of the Red Cross, the headquarters in Martin's Book Store, and the Red Cross always assists in making the benefit a success as far as is within their power.

TRUST COMPANIES MUST PAY EXAMINATION FEES

By Associated Press.

Austin, Texas, August 1.—In an opinion to the commissioner of insurance and banking it is held by the attorney general's department that trust companies must pay examination fees in proportion to their capital stock as provided by law. The opinion also said that the commissioner has no authority to reduce these fees unless he reduces the fees for all banks of the same class.

DIZZY SPELLS

Relieved After Taking Two Bottles Of Cardui, Says Tennessee Lady.

Whitwell, Tenn.—Mrs. G. P. Cartwright of this place, writes: "About four years ago the dizzy spells got so bad that when I would start to walk I would just pretty near fall. I wasn't past doing my work, but was very much run-down.

I told my husband I thought Cardui would help me, as a lady who lived next door to me had taken a great deal, and told me to try it. This was when we were living in Kentucky.

My husband got me a bottle and I took it according to directions. It helped me so much that he went back and got me another bottle. I got a whole lot better and just quit taking it. I got over the dizzy spells. I took no other medicine at that time nor since for this trouble. No, I've never regretted taking Cardui.

I felt just fine when I finished the second bottle."

Purely vegetable, mild and gentle in its action, Cardui, the woman's tonic, may be the very medicine you need. If you suffer from symptoms of female troubles, give Cardui a trial. All druggists. NC-127

U-BOAT SHELLS LIFE BOATS STEAMER ADDAH London.—Eight men were killed, and several wounded by the shelling of a German submarine of the life boats of the Elder Dempster Steamer Addah which was torpedoed on June 15, according to an official version of the affair. One boat was sunk by shelling from the submarine and the others were damaged with shrapnel while they were in the water waiting for the other boat to pick them up.

INCENDIARY ATTEMPT TO BURN SAND DREDGE

A partially successful attempt was made Friday night to burn the dredge used by T. P. Hickman in pumping sand from the Wichita River. About two hundred dollars damage was done to the machinery and some time will be required to get it into operation. The attempt was plainly incendiary because evidences of wood piled underneath and upon the dredge in order to make it burn were plainly visible.

"RED" MITCHELL ON TRIAL AT SEYMOUR TODAY "Red" Mitchell is on trial at Seymour today for the killing of a man named Douglas at Benjamin in Knox county several months ago. Mitchell is well known here. W. J. Howard, Ed Walsh, George Hawkins and J. B. Morrow have been summoned as character witnesses.

"ROAD OF THE LADIES" IS OBJECT OF FURIOUS GERMAN ASSAULTS

Military observers in America, France and Great Britain have been speculating on the purpose behind the incessant German attacks on the sector of the French battle line shown in the accompanying map. One recent account of the fighting said that no fewer than forty attacks were made by the Germans in this region, but in spite of the terrible sacrifice of men in their futile attempts to retake the plateau north of Craonne the Germans were forced back to the positions whence they launched their first attacks several weeks ago. The French launched a vigorous counter-attack with the purpose of dividing the German troops from the positions of the French first line on the Casement and California plateaus. The attack was a brilliant success. The war office announced that on the California plateau the French troops recaptured all the ground lost with the exception of a small salient in the northwest which was abandoned by both sides after being completely destroyed. The Germans set up a stubborn defense. It has been asserted that the object of these furious German attacks is the breaking of the French line and the defeat of the French before American power makes itself felt in France. The map shows the famous Chemin des Dames, or "Road of the Ladies," the objective point of much of the future battling.

Market Report

Chicago Grain Futures.

Chicago, Aug. 1.—Rains in Kansas where drought has been a great drawback led to a break in corn. Bearish sentiment was further increased by an estimate from a leading expert who figured the probable yield this season in the United States as 3,175,000,000 to 3,200,000,000 bushels. Opening prices ranged from 58 to 1 1/2 cents lower with December at \$1.16 3/8 to \$1.16 7/8 and May at \$1.15 to \$1.15 1/2. The close was nervous, 1 5/8 to 2 3/8 net lower at \$1.13 3/4 to \$1.13 1/2 for December, and \$1.13 1/8 and \$1.14 for May.

New York Cotton Futures.

New York, Aug. 1.—The cotton market was comparatively quiet during today's early trading. There was some scattered realizing and the market opened at a decline of 14 to 25 points but otherwise early trading showed little figures and prices held fairly steady after the opening decline with the market waiting for the government report. October sold at 23.85 and January to 23.50 on the call or about 47 to 49 points up from yesterday's level. Cotton closed steady. October 24.28, December 24.49, March 24.52, May 24.66.

Fort Worth Live Stock.

WIFE MUST BE DEPENDENT BEFORE EXEMPTION GIVEN

Washington, Aug. 1.—Marriages made since July 29, the date of the army drawing in an effort to escape army service through the claim of a dependent wife, will not be considered ground for discharge unless the wife is actually dependent on the husband's daily labor. Prompted by reports from many cities of marriage licenses being issued by men included in the first call, Provost Marshal General Crowder today ruled that "marriage is not of itself a valid ground for making claims for discharge. Dependency is a matter of fact, not a law. General Crowder pointed out, "A man whose wife is actually dependent on his daily labor for support," he said, "may claim exemption on that ground. Only the exemption boards can determine this fact. When dependency is claimed and circumstances show a marriage hastily consummated since July 29 by a man whose number is high on the available list, the actual fact of dependency must be closely scrutinized."

Moreover, General Crowder declared women who marry men merely to add them to the slackers are liable to prosecution under the draft act. In his ruling General Crowder adhered strictly to President Wilson's draft regulations which draw no distinction between a dependent wife acquired before or after the drawing. Secretary Baker, however, advocated refusing exemption to any man who married after the drawing, saying the draft should be considered a prior claim, but this course will not be followed. Predictions of some officials that delay in obtaining materials and sufficient labor for national army cantonments would postpone the mobilization of the 1st by an announcement by Secretary Baker that 75 per cent of the cantonment materials are now on the ground and that reports indicate everything will be in readiness or nearly so in another month.

No definite date for mobilization has been fixed, but Secretary Baker has indicated that every effort would be made to effect it about Sept. 1.

WILL FILL QUOTA HERE FROM THOSE ALREADY CALLED

The Wichita County exemption board expects to fill Wichita county's quota of 140 men from the 450 men already called for examination. The board has been rejected on account of physical disqualifications. It was believed that a number of claims for exemption will not be allowed, but the board has not yet taken up the consideration of these claims. The board means to fill the quota from the 450 men called. Of course, those who claim exemption but who are selected by the local board will have the right of appeal.

At 2 o'clock a total of 215 men had been examined of whom fifty who made no claim for exemption had been accepted as physically fit. Very few had been rejected on account of physical disqualifications. It was believed that a number of claims for exemption will not be allowed, but the board has not yet taken up the consideration of these claims. The board means to fill the quota from the 450 men called. Of course, those who claim exemption but who are selected by the local board will have the right of appeal.

LOCAL COMPANIES TO BE MOBILIZED ON AUGUST FIFTH

Companies F and G of the Texas National Guard will be mobilized at Wichita Falls on August 5, and be sworn into federal service according to a telegram received this afternoon by Captain J. M. Perkins of Company F. The telegram did not state whether the men would be equipped here or would be sent directly to Fort Worth on mobilization.

Those who have visited Camp Bowie at Fort Worth do not believe it can be prepared to receive the Guard before September at the earliest.

HARVEY OIL CO. HAS ANOTHER BIG WELL ON THE RUYLE

The Harvey Oil Company on the Ruyle farm nine miles north of Iowa Park has forty feet of sand in its Ruyle No. 14 which is showing for one of the best wells ever brought in in Northwest Texas. The sand was first produced in 1906 and the drill was continued through 44 feet of sand with rotary rig.

Oil and gas came up through a hole full of mud and the well started to flow Monday night and continues to do so making about 100 barrels a day. The well is being bailed today and a production anywhere from 500 to 1000 barrels is looked for.

Local Brevities

The docket at the police court netted fifteen dollars this morning—one vag and two drunks, five each.

Light showers fell yesterday and this morning on the Valley Lide at Swenson, Bomarton, Goree and Starnson.

STRONGEST LOCOMOTIVE IS AMERICAN BUILT

FAMOUS HORSESHOE CURVE

Once more an American genius demonstrated its supremacy in the railroad field, this time in the production of the most powerful locomotive in the world, not a freak built for spectacular purposes, but the first of a standard type of giants of the rails constructed for a definite purpose. It is capable of developing 7,000 horse power, and was designed and built by the Pennsylvania Railroad Company and the Westinghouse Electric and Manufacturing Company. This monster, capable of exerting as much power as a string of trolley cars over half a mile long, draws its current from a wire no bigger than that used by a trolley car, or about the size of a lead pencil. This is made possible by the use of the high voltage alternating current system. The important field for this engine will be for hauling the tremendously heavy freight traffic of the Pennsylv-

ania Railroad over the Allegheny Mountains from Altoona to Johnstown, Penn., including the famous Horseshoe Curve, a distance of approximately forty miles. The freight traffic over this division runs as high as 300,000 tons a day. In capacity this locomotive exceeds by more than 50 per cent, the power of the large electric locomotives in transcontinental service, popularly called the largest locomotives in the world. The locomotive has been sent to Philadelphia, where it is being placed in initial service on the electrified portion of the Pennsylvania main line extending west from Philadelphia to Paoli. It is built in one unit. There are two trucks, each having six driving wheels six feet in diameter. On each truck are mounted two powerful electric motors taking current from the trolley wire and supplying mechanical power through a gear wheel to the drivers. The total weight is 200 tons, length 70 feet. Although this weight is compact, the en-

gine is said to be much easier on the track and roadbed than the steam locomotive because the weight is cushioned and the spinning gear is perfectly balanced for all speeds. The control has been applied to such perfection that power can be exerted gradually so as to enable the engine to start a train without jerk and acquire the speed of twenty miles per hour with a heavy train in about two minutes. This speed is fixed as desirable for the grades and curves which will be encountered when crossing the mountains. An interesting feature is the fact that the engine will handle these enormous trainloads, owing to the design of the motors at constant speed, whether operating up or down grades. When going down grade the motors automatically become generators and return power to the line, and at the same time obviate the use of the airbrakes, which are simply held for emergency use and for bringing the train to full stop.

MEETING AT HAGUE WITHOUT PRECEDENT Associated Press Mail Correspondence. London.—Commenting on the meeting of British and German delegates at the Hague, to consider questions relating to prisoners, the "Law Journal" says: "It has always been understood that the state of war operates a complete severance of all relations between the belligerents except that of mere force. This is the explanation of the common practice, following universally in the present war, whereby the belligerents deal with each other through the intervention of neutral powers. The present meeting is, it is suggested, without precedent in the history of international law. Its importance does not end there. It almost seems as if we are at last becoming emancipated from the chains of the old-fashioned diplomacy which almost deliberately made it impossible for belligerents fairly and squarely to talk out their causes of friction face to face. The new departure is one from which much may be hoped in other directions."

GERMANY DIVIDING BELGIUM INTO TWO PARTS Associated Press Mail Correspondence. The Hague, Netherlands.—The Germans are steadily carrying out their scheme of dividing Belgium into two parts, comprising the Walloon or the French speaking and the Flemish provinces respectively. The past month has seen the splitting-up of the ministry of the interior and the ministry of foreign affairs, leaving only two departments not yet affected, those of finance and of justice. The Walloon ministries are being transferred to Namur, the German appointed capital of the French half of Belgium, the Flemish remaining at Brussels. Where the Belgian officials have refused to lend their co-operation and obey the German instructions, and this has occurred in the case of a number of leading administrators, such dissenters have been replaced by men more pliable in German hands, often chosen from among those who have lent themselves to forwarding the separation idea or have otherwise commended themselves to the occupying power. According to the "Taegliche Rundschau" each of the projected parts of Belgium is to have its own budget. Irving Quail, representing the Sewell Patent and Glass Co. of Dallas, Mrs. Quail and family are here for a few days en route for home. They have been making the trip from Kansas City overland.
