Number 73.

WAR TAX BILL REPORTED TO THE SENATE TODAY

MEASURE REPORTED BY CHAIRMAN SIMMONS PROPOSES TO RAISE \$2,600,970,000

EXCESS WAR PROFITS

Incomes And Liquor And Tobacco Will Bear Most of Burden If Bill Not Changed

By Associated Press. Washington, D. C., Aug. 6.—The war tax bill finally revised to meet latest estimates was favorably reported today by the Senate finance committee.

The House bill proposed \$1,867,000,000 in new taxes. No provision for additional bonds to be considered later by the House are made in the Senate bill.

Chairman Simmons plans to call up the revised bill the latter part of the week and hopes for its final enactment early next month.

Most of the taxes proposed in the revised bill for the fiscal year would come from excess war profits, incomes and tobacco liquor taxes.

PASSING REVENUES WITH LEAST BURDEN, PURPOSE

By Associated Press. Washington, D. C., Aug. 6.—The war tax bill was reported to the Senate today as revised by the finance committee to the latest estimates for war expenditures.

The majority report was submitted by Chairman Simmons, who explained that the committee's revision of the House bill was for the purpose of raising revenues with the least burden upon the public.

A substitute report by Senator La Follette, Senator Gore and Thomas also plan separate reports. Senator Simmons' report stated that a flexible scientific war tax superstructure had been constructed by the Senate committee for the imposition of war taxes—the largest tax budget in American history—as well as for future tax increases declared probable.

Income, war profits, liquor and tobacco tax increases, the majority report pointed out, form the nucleus of the revised bill.

In a general statement for the committee, Senator Simmons said:

"It has at all stages acted with a keen sense of the extreme importance of its action in its effect upon the country and the successful prosecution of the war. Nor was it unmindful that those who will have to pay these excises will also have to furnish the larger part of the money to purchase the bonds for expenditures not provided for by taxation and also as we may be called upon to do by the governments engaged with us in war against Germany."

Your committee was profoundly impressed with the expediency and necessity of broadening and developing our system of special taxation so as to present a scientific, logical and constructed, to provide a structure sufficiently strong and flexible to meet not only our present but our future war needs, and so adjusted as to distribute equitably the burden of taxation and safeguard the activities of the nation by imposing no tax which would not leave the taxpayer a reasonably compensatory return from his investment.

"The basis of the system proposed by your committee is the income and war profits taxes, internal revenue taxes upon whiskey and tobacco, and certain moderate subsidiary levies in the nature of excise taxes. The system presented is in form much the same as that in the House bill, but it is believed, being systematized, coordinated and made more consistent."

As the result of these changes it is estimated that the total amount of the additional revenue expected will come from the income and war profits taxes. In fixing the rates upon incomes and excess profits, your committee has constantly in mind the fact that the amount of revenue derived from these sources would depend upon increased war expenditures and excess profits which would tend to dampen these activities would tend to defeat the legislative purpose. Moreover, thought that if the rates upon incomes and excess profits were fixed at the highest level there might be but little margin left for further increases in rates."

The report defends the elimination of the so-called Liepzig surtaxes on incomes of over \$40,000 added in the House, designed to raise \$25,000,000 as follows:

"In view of the fact that in addition to the large increase in the normal and surtaxes upon incomes, the bill provides for a large increase in the war profits tax of corporations and partnerships and includes individuals in the scope of the tax, and in view of the probability that it will be necessary hereafter to further increase these rates in order to provide for increased war expenditures, your committee believes that for the present it is inadvisable to increase the surtax rates beyond those proposed in the original House bill."

Regarding the elimination of the House retroactive income taxes on 1916 incomes, which would have produced \$10,000,000, the report states:

"This tax seemed in principle both morally and economically unsound. Incomes of the last year have paid their taxes and the balance has been spent or saved and added to capital, in which form it will yield returns in the ensuing years. To tax this tax-paid income again is not only a taxation of a pecuniary obnoxious kind but would possibly compel a taxpayer to impair his capital and thus diminish government sources of taxation which would impair business and check industrial productivity. It is very poor economy and would hold out a threat of uncertainty."

(continued on page 4)

GERMANS AGAIN FAIL IN ATTEMPT TO OUST ALLIES

ATTACKS ON NEWLY WON POSITIONS OF ALLIES IN FLANDERS MEET REPULSE

SAME RESULT ELSEWHERE

Strong Hand of Kerensky At Helm In Russia Revives Hope of Reorganization

The Associated Press war summary follows: Yesterday's tremendous campaign on the Flanders battlefield was followed last night by two German attempts to shake the British from their hold on important sections of newly won ground. Neither of these met with any success, however, London reports.

The first attack was launched in the Hellebek region. The Germans did not succeed here in reaching the British lines. Later the German guns laid down a barrage at Westhoek and the infantry tried to push in under its cover. They met with no more success, however, than they had done at Hellebek.

On the French front, aside from the Flanders area, there was considerable activity on the part of the Germans. They made an attack at Boezville, at Avacourt Wood and in Absace. The French guns were able to cope with the situation in each case, Paris announces.

The strong hand of Kerensky is again at the helm in Russia where the prospect of the reorganized cabinet has been agreed on under his premiership. The constitutional democrats are represented on the list.

KERENSKY'S CABINET PRACTICALLY COMPLETE

Petrograd, August 6.—M. Kerensky's cabinet is practically complete. The constitutional democrats have agreed to participate in the ministry who will form the new ministry have been agreed upon.

As regards many of the portfolios the choice is not definite and the cabinet is absent from Petrograd. Foreign Minister Tereschenko informed the Associated Press that M. Tchernoff, who again becomes minister of agriculture has been fully rehabilitated his accusers having withdrawn charges that he had relations with Germany.

ITALIAN LINES EXTENDED SUNDAY

By Associated Press. Rome, August 6.—Italian troops yesterday extended the Italian lines southward of Benevento. There was also spirited fighting on Mont Rambon where an Austrian attempt to win an Italian advance position was definitely negated, says today's war office report.

"SAVING HIS MONEY LIKE A SAILOR" IS NEW PHRASE

By Associated Press. Great L. S. III. The phrase "saving his money like a sailor" is fast becoming a household word for the service with a rouser bank account than that of his civilian brother.

With the recent increase of pay in the Navy, savings in the ship banks have increased enormously. The gospel of saving is preached continuously in the Navy, and with effect.

At the Great Lakes Naval Training Station, where 12,000 jacksies are in training, representing the lowest rank and correspondingly the smallest paid body of men in the Navy, nearly 25,000 has been deposited. The amount is not surprisingly large, but considering that the average jacksie has been at the station for only a little more than a month, it shows that they have saved the said. Civilian banks adjacent to the Training Station also carry considerable savings accounts for the jacksies.

The Training Station, as an every ship in the Navy, there is a bank for the exclusive use of the jacksies in which they can deposit their savings and draw "per cent interest" on their deposits as required to remain in the bank for the period of the depositor's enlistment and it is not uncommon for the sailor to come from his savings with a good sum set aside for a rainy day.

Of course, there are no rainy days in the Navy as the blue-jackets are cared for in sickness and is always sure his job as long as he behaves himself, but many who leave the service find that this financial backing comes in handy. There is no small number of men in the service who have bank accounts and investments that would make a civilian consider "well off" in his community.

STRIKE OF KATY SHOPMEN HAS BEEN CALLED OFF

DuPont, Texas, August 6.—Settlement of the long strike of Katy shop crafts employees on the lines of the Missouri, Kansas & Texas railway was announced here Sunday. The strike, which would have affected employees in the locomotive department, had been ordered to begin Monday morning at 10 o'clock.

J. S. Myers, Federal mediator, after conferences with representatives of the employees and railroad officials secured the tentative adoption of an agreement whereby unionists and helpers will receive an increase in pay of 5 1/2¢ an hour and apprentices an increase of 2 1/2¢.

The agreement yet must be submitted to the 1,600 men affected, but each side believes the agreement will be ratified.

An increase of 8 1/2¢ an hour had been asked for machinists.

RIGID PHYSICAL TESTS ARE APPLIED TO THE MEN DRAFTED FOR THE NEW ARMY

EXAMINING EARS AND EYES OF DRAFTED MEN

Throughout the United States scenes like those shown in these pictures will be common soon, when the draft men will be examined and the men called in the new draft.

VON KUEHLMAN HAS SUCCEEDED SEC. ZIMMERMAN

By Associated Press. Berlin, August 6.—Official announcement was made today that five ministers of state including Finance Minister Loeblitz and Imperial Minister von Loeblitz had resigned their portfolios.

Dr. Richard von Kuehlmann, the German ambassador to Turkey, has been appointed secretary of foreign affairs in succession to Zimmerman.

VON KUEHLMANN OPPONENT RUTHLESS SUB WARFARE

Amsterdam, August 6.—In a charge sheet of Dr. Richard von Kuehlmann just appointed German secretary for foreign affairs the Nieuwe Courant of the Hague says that Dr. von Kuehlmann has always been a vigorous opponent of ruthless submarine warfare. He is also, says the newspaper, a disciple of the policy of doing everything possible to avoid the further alienation of Great Britain, by trying that after the war friendship between Great Britain and Germany is necessary to the latter.

EXTRACTING "MOTOR SPIRIT" FROM LIGNITE COAL

Grand Rapids, N. D., Aug. 5.—Automobile owners and other users of gasoline are watching with interest, as search work here into a new source of motor fuel, which was discovered recently by E. J. Babcock, dean of the School of Mines of the University of North Dakota.

The new fuel which is called "motor spirit" by Dean Babcock, is a volatile oil distilled from lignite coal, great quantities of which exist in North Dakota. It is not exactly the same as gasoline but is very similar with both in chemical composition and properties, according to Dr. Babcock.

The discovery was entirely accidental. Dr. Babcock said he was not trying to find a substitute for gasoline but was merely using a new method of heat treatment of lignite to extract the gas water and other by products as a preliminary to briquetting.

Dean Babcock is working over his experiments carefully and will issue a bulletin soon defining his discovery. He would not state what quantities of the fluid could be obtained from a given quantity of lignite coal but did say, however, that most of the fluid could be obtained by distillation to warrant a belief that it may have future commercial importance.

The quantity of lignite coal in North Dakota is tremendous, according to the latest government survey which estimates that six hundred billion tons, nearly a thousand times the amount of coal in the whole United States, lies under the western part of the state.

FARMERS WILL NOT BE TAKEN FROM HARVESTING

Washington, Aug. 6.—Provision to protect harvesting from sabotage of hands due to the mobilization of the national army has been made by the government in regulations now going out to district exemption boards.

Men needed in the fields to complete harvesting will be permitted to remain at work until the need for them passes. Application for delay on this ground may be submitted to the district board.

CHINA'S ACTING PRESIDENT IS IN FAVOR OF WAR

By Associated Press. London, August 6.—According to reports received from the German front by the correspondent at Amsterdam of the Exchange company the explosion at Hemmingsdorf was one of the most catastrophic of the kind that has happened in Germany since the war began. A munition factory was wiped out, 300 people were killed or injured and enormous damage was done. Hemmingsdorf has been isolated by police and troops.

300 CASUALTIES IN EXPLOSION AT HEMMINGSDORF

By Associated Press. London, August 6.—According to reports received from the German front by the correspondent at Amsterdam of the Exchange company the explosion at Hemmingsdorf was one of the most catastrophic of the kind that has happened in Germany since the war began. A munition factory was wiped out, 300 people were killed or injured and enormous damage was done. Hemmingsdorf has been isolated by police and troops.

SENATOR REED CONTINUES ATTACK UPON HOOVER

By Associated Press. Washington, August 6.—When consideration of the conference report on the food bill was resumed in the Senate today, Senator Reed began an attack on Herbert Hoover and an attack on the man selected by Mr. Hoover to assist him in the food administration. Appointments of 12 agents to take charge of the 12 terminal grain markets had been made, it was said without authority of law, several of them being native born Englishmen.

RUSSIAN GENERAL WHO LED RETREAT IS ORDERED SHOT

London, Aug. 6.—General Macovitsky, commander of the Russian retreat, has been ordered to be shot, according to a Petrograd dispatch. This sentence came after a court martial for non-compliance with orders to shoot retreaters.

U-BOAT REPORTED OFF NEW YORK CAUSES ALARM

New York, August 6.—A report that a U-boat had been sighted near the Atlantic lanes off this port caused the war department authorities to close the gate in the net protecting the harbor mouth here at one o'clock this morning. The gate was opened again at 4 a. m.

GREGORY INVESTIGATING ANTI DRAFT REPORTS

Washington, August 6.—Attorney General Gregory today began personal investigation today of reports from district attorneys from Oklahoma, North Carolina and other states of the South on anti-draft demonstrations.

FERGUSON DECLINES TO TAKE WITNESS STAND

40 ALLEGED DRAFT RESISTERS LODGED IN PRISON

By Associated Press. McAlester, Okla., Aug. 6.—Forty alleged draft resisters were brought here from Oklahoma early today, and lodged in the penitentiary pending a hearing. Two others were also arrested at Sapulpa last night and brought here for trial.

LOYAL YOUNG MAN KILLED BY ACCIDENT

Holdenville, Okla., August 6.—A band of 25 men, alleged members of the Young Man's Union are reported to have been shot and killed, and eight others were injured. A detachment of men has been dispatched from here in motor cars to aid the small posse having the men strongly guarded the orders of authorities to stop his car disclosed the young man was on his way from here to take a train for McAlester where he had a meeting with the posse. The posse for entrance to the second officers' reserve training camp. Ignorance of the situation here was given as the only excuse which caused the young man to drive into the valley from the effort of which he died this morning.

Posse arrived this morning from Muskogee, bringing 20 prisoners. The situation at Sapulpa, where Sapulpa has been the headquarters apparently is quiet according to reports. There will be no more concerted work by these men and the man hunt will take the form of a chase to run down the leaders of the men still at large. Officers of Sapulpa are holding themselves in readiness, however, to lash into the hills at a moment's notice.

CHARGES OF TREASON WILL BE PREFERRED

Holdenville, Okla., Aug. 6.—Federal officials here working under orders of United States District Attorney W. F. McLaughlin, are preparing to file charges of treason against the draft resisters who they believe they had sufficient evidence to convict on charges of treason with a demand for the death penalty. Information received by the United States Commissioner Fauntleroy asserted that since Friday he had prepared an information charging conspiracy against the government through disregarding the draft. Two other agents of the department of justice are at work on similar information at Ada, Wevola and Dunlap, Okla. The information are made out in blank and the name of the prisoners and when they are brought before the commission.

The clause in the information containing the conspiracy charge demands that the resisters be held in preventive detention on or about the first of September 1917, did conspire together to aid the enemy and to obstruct military operations of and act.

It was the opinion of the federal officials that the charge probably will be preferred at a preliminary hearing of the grand jury. The department of justice agents agree that the draft law, although the main point of discussion in the proposed report brought to the surface a condition which otherwise might have gained strength by delay and caused greater trouble and damage later. Information was available from the posse who left for a point about eight miles from here where a number of the draft resisters were reported encamped and surrounded.

HIGHWAY COMMISSION INSPECTING TWO ROUTES

Austin, Texas, Aug. 6.—The State Highway Commission began today a tour of inspection of two routes, one by Dallas and exarkana, one by Pittsburg, Linden and Atlanta, Texas, and the other by way of Sulphur Springs and Mount Pleasant. The entire membership of the commission, including Charles A. Duren, chief engineer of the commission and Captain J. D. Jentlemyer, United States district engineer, are in the inspection party.

The inspection of these two routes will consume nearly the entire week. Following this the commission proposes to make an inspection of the highways between Dallas and El Paso, perhaps not all at one time, but in sections. Plans for the establishment of these highways are already being made in the engineering department of the commission.

SURPRISE SPRUNG WHEN CRANE ASKED HIM TO TESTIFY

By Associated Press. Austin, Texas, Aug. 6.—M. M. Crane, counsel for the House investigating the impeachment charges against Governor Bryan, was surprised today when he was asked by Speaker P. O. Fuller, sitting at a surprise at the opening of the hearing today when he called for the Governor to take the stand. The Governor refused to do so, claiming he had constitutional right to be the evidence against him.

EVIDENCE IS INTRODUCED

Testimony at Hearing Last Month And Record of Requests Meetings Introduced

By Associated Press. Austin, Texas, Aug. 6.—M. M. Crane, counsel for the House investigating the impeachment charges against Governor Bryan, was surprised today when he was asked by Speaker P. O. Fuller, sitting at a surprise at the opening of the hearing today when he called for the Governor to take the stand. The Governor refused to do so, claiming he had constitutional right to be the evidence against him.

In reply of Mr. Crane that this disclosed his plan, the hearing then went over until 2 o'clock this afternoon. Representative E. R. Ryan, pointed by Speaker Fuller, with the consent of the House, to pass upon the admissibility of evidence upheld the Governor's contention as voiced by his counsel, W. A. Hamner.

Mr. Crane explained that if the Governor took the stand he would have the right to refuse to answer questions that might injure him. He said if Mr. Crane's counsel refused to answer questions the summing up of many witnesses and much trouble and expense. After Mr. Ryan had ruled the Governor's refusal to take the stand, Mr. Crane said that while he had no intention to criticize the decision he wished to state that he had a perfect right to call the Governor into the witness stand.

"This is not a formal court proceeding," he explained. "This is an investigation and should not be bound by court practice. I think the Governor owes it to the people's representatives as a courtesy and an evidence of willingness to proceed that he take the stand."

Mr. Crane was at first proposed to put over the hearing until 2 o'clock but on Mr. Crane's plea that he would need more time to interview witnesses and arrange his notes for the hearing, the hearing was set at 3 o'clock.

Mr. Crane succeeded in introducing the entire testimony taken before the House in the case of Governor Bryan, which considered charges against the Governor by Representative Davis of Van Zandt county last March. This left in all the constitutional evidence given by H. G. Lee, formerly of the People's State Bank, which charges that the Governor borrowed from that institution more than his capital and surplus combined.

The record of the first investigation was not read, it being assumed that all necessary evidence had been introduced and could be put in later.

Mr. Crane also offered the record of the meetings of the board of regents of the state university, but an objection of Mr. Hamner limited the evidence in the record to such statements as were made by the Governor. Reading of such evidence was postponed until it was put in later.

While the final preliminary were being arranged the Governor entered the chamber and took a seat in the gallery. When the time for the hearing began he moved down to the seat reserved for the counsel without attracting attention of the members or of the crowded gallery.

Speaker Pro Tem Ely issued a special warning that anyone in the gallery guilty of any disorder must leave the chamber. When the hearing began the House convened when all entering the chamber were searched for arms, were not renewed today.

SENATOR BEAN NAMED PRESIDENT PRO TEMPCRE

Austin, Texas, Aug. 6.—Senator W. L. Bean of Hubbard county, was today elected president pro tempore of the House. The election was held in the Senate chamber. When the Senate convened Senator Bean of Rush was named for this position, but it was announced today that Senator Smith was considered for the position. Senator Bean was elected to succeed Senator Smith.

Senator Bryan and others offered a resolution that the Senate finance committee proceed at once to the consideration of a bill for making an appropriation for the support and maintenance of the support of the University for the next 2 years. The bill provided that the money be lost and that the bill should be arranged in time for the legislature to pass it over the Governor's veto if that became necessary. The bill was referred to the finance committee.

After having been in session a little over two hours the Senate adjourned the day. The clock of the afternoon when the bill was taken up after noon will be signed. The Senate then proposes to adjourn until Wednesday morning.

LOSS OF U-BOATS ONLY THREE PER MONTH

Berlin, Aug. 6.—It is officially announced that contrary to rumors, the monthly average is little more than three underwater boats lost during the period from February 1 to August, which the monthly increase in submarines constructed is many times larger.

PLEDGE CITY'S RESOURCES TO THE GOVERNMENT

AVIATION OFFICERS HERE TO INSPECT SITE ASSURED EVERY SUPPORT FROM WICHITA

INSPECT PROPOSED SITE

Experts After Looking Over Proposed Site Hear City's Representatives—Leave For Belton

"What can we do to serve?" was in effect, the question which the chief representatives of the city asked the aviation experts at the banquet tendered them last night at the St. James Hotel. The entire resources of the city and county were laid before these distinguished gentlemen, and they were invited to take whatever would best serve their needs for the aviation camp. The assistance and co-operation of the whole community was pledged in support of the government.

Captain C. G. Edgar, in charge of construction in the aviation department here, and the visitors were further assured that if any useful thing was not on hand, it would be promptly obtained. "Tell us what you want done, and we will do it," was the keynote of the sentiments expressed by every one of the city's representatives.

Major H. H. Arnold, practical flyer, made a very thorough inspection of the proposed site yesterday afternoon, and afterwards were shown the various things of interest in the city. In the evening, they were the guests of honor at a dinner given by the Chamber of Commerce, of which the "Raison d'être" was that they might hear from the men of the city who Wichita Falls was prepared to do for them.

shire to contribute our part to the work you are engaged in. Judge Huff, president of the Chamber of Commerce, speaking on "What Wichita County Will Do" made a brief but significant summary of what the county had already done in the matter of war work, citing the over-subscription of the Y. M. C. A. war fund, the Liberty Loan, and the Red Cross war fund. "And I tell you these things," he said, "simply to show you gentlemen what sort of people we have here. Our people get right-behind-everything movement, and go after it till they get what they want. Our people are progressive, and liberal, and they are heart and soul in sympathy with the government. We can assure you that if these young men come here, they will receive a most hearty welcome from the whole citizenship, and that we shall do our utmost to carry out to the smallest detail the wishes of the government."

County Judge Harvey Harris spoke of the county and city using the last dollar of the interest and sinking fund to buy Liberty Bonds, and then came to the matter of roads. "The roads," he said, "one on either side of the camp would be built, and the county had the money to build them. What the county will do," he said, "will be determined by what the government wants done."

F. N. Lawton, manager of the Power and Light Plant, said that so far as water, light and power, there was no doubt sufficient to supply the needs of the camp, and that the government could have all they wanted. All lines and necessary connections would be made to the site as soon as the arrangements were completed, he said.

Mr. Lawton told of a most amusing experience in the Spanish-American war, when the whole country was making frantic efforts to find the Spanish fleet. Neither the army nor navy, apparently, were able to locate the fleet, and the heads of departments were hourly becoming more and more wild, as one fruitless endeavor after another was made. At length, someone heard of one Professor Eddy, who had conducted a number of experiments with kites. These kites were sent up with cameras attached, and an operator on the ground pulled a string which opened the shutter on the camera. In those days, when the airplane had not been materialized from the sphere of fiction, this method seemed the most practical for locating the fleet. Wherefore Prof. Eddy was wired to come with his kites and cameras and please find the fleet, as the professor replied that he was busy with yet other experiments, and could not come. As Mr. Lawton had been associated with Prof. Eddy, and had assisted in the experiments, he was called on to get an outfit of kites and cameras and please find the fleet. Mr. Lawton got joyfully aboard a machine of war, equipped with kites and cameras, and started in quest of this mysterious fleet.

The experts are all of them distinguished men. Captain G. H. Edgar of the Signal Corps, U. S. Army, is one of the many big-spirited men that have come to the aid of the government in her hour of trial. Having been, until he took up this very successful business man of Detroit, Mich., where he was a director of the First National Bank, and was prominent in the sugar industry. Realizing the need of the government, he volunteered his services, and was placed in charge of the construction department of the aviation camp. Major H. H. Arnold is a practical flyer, and a man of the most contagious enthusiasm for his work. His duty was to examine the site from the standpoint of the flyer.

Lieutenant Colonel Crabtree is a veteran doctor of many years service, whose work here is to arrange the sanitary conditions of the camp. Colonel Crabtree was associated with General Goethals in the construction of the Panama Canal, and it was due to Colonel Crabtree's suggestion that all the boys continued in such splendid condition. Repeating to the many toasts, both Captain Edgar and Major Arnold expressed their full appreciation of the courtesies and offers of assistance which had been extended to them and the government. Major Arnold said that he was not a talker, but an aviator. He gave a brief account of the development of the United States aviation department, and said that if the camp were located here, we might expect to see dozens of planes flying over the city daily.

Captain Edgar, after expressing his thanks to the gentlemen present, said: "I can only say, on behalf of the government, that I do not see what more they could possibly ask."

Besides the visitors, those present were: J. A. Kemp, R. E. Huff, Harvey Harris, E. G. Hill, A. Winn, T. B. Greenwood, J. C. Johnson, J. W. Thomas, J. G. Culbertson, F. N. Lawton, J. C. Mytinger, R. L. Eeds, J. P. Jackson, Mr. White, Horace Nutt, A. Huey, C. B. Macklin and W. S. Curlee.

terious fleet, that refused to come out and show itself. Before he had opportunity to see whether the experiments would be successful, however, the fleet was discovered, and Mr. Lawton was saved from becoming a hero, and possibly from the fate of Hobson.

J. C. Mytinger stated for Tractor Co. that they, like the rest, only need to be told what was wanted, and it would be done. County Attorney T. B. Greenwood assured the gentlemen that the vice-district was closed, and that the authorities would render the government all the assistance in their power in the matter of safeguarding the camp from any untoward incidents.

Alterman Hill, speaking for the Mayor, expressed very clearly a thought which had been suggested in every speech: "While we are anxious to see the camp here," he said, "and while we feel that it would add to the honor and importance of our city, and again, while we are ready and willing to do everything in our power to influence the government to bring it here, I am sure that there is not in the whole county a citizen so unpartisan enough to wish to see the camp here, if it should not prove to be exactly what the government wants in every detail. We are anxious to have the camp, and we are willing to make sacrifices to get it; but I know that we are sufficiently disinterested, and sufficiently alive to the national importance of the matter, to see that our site chosen if there is a better one to be had." This sentiment was warmly applauded, and was expressed by many of the speakers.

Jack Culbertson, manager of the Wichita Falls Motor Factory opened his doors to the government, and told them to take whatever they could use in his plant. "We have some special machinery," he said, "which may be of use to you. There is a press of 175-ton capacity, a welding plant, a very complete woodwork department, a large supply of sheet metal, and a small, but fully equipped machine shop. These things are yours to command."

A. P. Winn, general traffic manager of the Northwestern, said that here, as elsewhere, the railroads stood ready to give a maximum service to the government business would receive the promptest possible attention. The railroads would run spur tracks to the site, and would begin the work that arrangements were completed, and that the tracks would be finished in not more than three days.

B. F. Johnson, secretary of the Chamber of Commerce, gave a brief outline of the campaign that had been made for the camp, showing that no effort had been spared. Mr. Johnson said that Wichita Falls was the first town to apply for the camp, and that a picture of the Lake Hugh in General Squiers' office. Mr. Johnson, learning that Captain Edgar had been in town, took the opportunity of presenting him with another on behalf of the Chamber, adding joyously, "and I hope that you will bring some return to Washington with that pen, and that it will be a good one."

The experts are all of them distinguished men. Captain G. H. Edgar of the Signal Corps, U. S. Army, is one of the many big-spirited men that have come to the aid of the government in her hour of trial. Having been, until he took up this very successful business man of Detroit, Mich., where he was a director of the First National Bank, and was prominent in the sugar industry. Realizing the need of the government, he volunteered his services, and was placed in charge of the construction department of the aviation camp.

Major H. H. Arnold is a practical flyer, and a man of the most contagious enthusiasm for his work. His duty was to examine the site from the standpoint of the flyer. Lieutenant Colonel Crabtree is a veteran doctor of many years service, whose work here is to arrange the sanitary conditions of the camp. Colonel Crabtree was associated with General Goethals in the construction of the Panama Canal, and it was due to Colonel Crabtree's suggestion that all the boys continued in such splendid condition.

Repeating to the many toasts, both Captain Edgar and Major Arnold expressed their full appreciation of the courtesies and offers of assistance which had been extended to them and the government. Major Arnold said that he was not a talker, but an aviator. He gave a brief account of the development of the United States aviation department, and said that if the camp were located here, we might expect to see dozens of planes flying over the city daily.

Captain Edgar, after expressing his thanks to the gentlemen present, said: "I can only say, on behalf of the government, that I do not see what more they could possibly ask."

THE INSTRUMENT OF QUALITY

Sonora

CLEAR AS A BELL

The Sonora Phonograph will be hard to get before long, on account of the abnormal war demand for steel products, labor, and other necessary materials. Better make your selection early, so as to avoid disappointment.

The SONORA received the ONLY PERFECT SCORE for TONE QUALITIES, in competition with all other known phonographs, at the PANAMA-PACIFIC EXPOSITION.

SOLDIERS TAKE UP ARMY ROUTINE AT CAMP AT LAKE

About three hundred men yesterday answered the call at the National Guard camp at Lake Wichita and automatically became part of the regular army. The two companies average about one hundred and fifty each, and are a fine well set-up bunch.

In spite of the very un-military aspect of the companies, there is every variety of uniform, from uniforms to overalls—the men are at work in a very business-like manner. The equipment is by no means complete, but there is plenty of good food, and the men are already learning one of the essentials of the good soldier to make out with whatever comes along. They are short of plates and feeding weapons, though appetites are plentiful. The mess tent will not hold more than forty or fifty, so the men grab a plate, have a short interval with the cook, and take their grub wherever they happen to be. If the wind should happen to spread a layer of sand over the meal, they scrape it off, and go on if the coffee is similarly treated, they wait till it settles. They are making out in good style, and there is a very marked atmosphere of cheerfulness throughout the camp. In fine weather, they remain in the open, and in foul they use the two large barns at the back of the camp. Cots and blankets are being supplied as fast as the government can attend to it, but the boys seem quite prepared to get along cheerfully without these things as long as is necessary.

Below follows the daily routine of the camp from now till they move to Fort Worth:

First Call	5:45 a. m.
Roll call	5:55 a. m.
Assembly	6:00 a. m.
Mess Call	6:30 a. m.
Recall	8:00 a. m.
Mess Call	11:00 a. m.
Drill	12:00 a. m.
Recall	2:00 p. m.
Mess Call	4:00 p. m.
Call to Quarters	8:00 p. m.
Mess Call	6:15 p. m.
Tattoo	9:00 p. m.
Tap	9:30 p. m.
Sleep	10:00 p. m.
Site Call	7:30 p. m.

There will be mostly physical exercises given at this time. All members of the company staying in town report at Camp by 7:30 a. m. for drill.

AMERICAN SOLDIERS FEEL TOUCH OF WINTER

By Associated Press. American Training Camp in France, August 4.—The rain which has done so much to hinder offensive in Flanders has been falling over the American training camp for almost a solid week, the only dry day has been Wednesday when Major General Pershing made his first visit.

TERRIBLY SWOLLEN

suffering Described As Torture Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he insured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks. He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture."

I sent and bought Theodor's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Theodor's Black-Draught."

Theodor's Black-Draught will help you to keep fit, ready for the day's work. Try it!

Tuition reasonable.

CHAS. J. TEMPLETON 1107 Broad St. Phone 1232 Opposite High School.

CROWDS THROUGH STORES BUYING DOLLAR BARGAINS

To one who had not read the advertisements on Sunday, the business settlement of Wichita Falls must have presented an appearance to suggest Circus Day this morning. As early as 7:30 the streets were filled with women and stores open at that early hour report an unprecedented rush.

All talk of rising prices in necessities and luxuries seemed to be dispelled by the liberal bargains displayed in the store windows and the greatest difficulty presented seemed to be that of the majority of articles the supply was insufficient.

The Perkins-Timberlake bargain sale was advertised to open at 9 o'clock but by eight the crowd was gathering and at 8:30 had reached such volume that the manager was forced to open the door to avoid, as he said, having them burst in by the crowd. Three windows filled with Dollar Day bargains were emptied in 20 minutes.

At McClurken's where ladies dresses and shoes for \$1 were the most attractive feature, the pick of the offerings were gone shortly after the doors were opened, a large number of shoppers being waiting at 7:30.

WEETH LEASE TO BE DEVELOPED BY THE WESTLAND CO.

Announcement was made today that the Westland Petroleum Company would begin development work immediately on the Andrew Weeth lease, of eight acres owned by the company. The lease adjoins the Ruyle lease on which the Harvey Company has been bringing in its big wells, the last of which is making five hundred barrels a day. Its proximity to these big wells make this lease look exceptionally good.

The Westland Petroleum Co. is a Wichita Falls corporation, all the officers being well known Wichita Falls business and professional men. F. P. Avin is president of the company, T. B. Weeks is secretary and C. E. McCutchen is treasurer. Its field operations will be in charge of a competent and experienced oil man. The company's offices are in the First National Bank building.

Miss Annie May Roguemeore of Palestine, visited friends in the city last week. She left Saturday night for Fort Worth.

FINISH BOOZE BEFORE CROSSING BRIDGE, PRACTICE

Oklahomans who come to Wichita Falls to buy large quantities of booze evade the penalties of the "bone dry" law by the simple expedient of drinking it up before they cross the Red river bridge. They start from Wichita Falls with sundry quarts in their automobiles. Their task is to drink it up before the crossing to the Oklahoma side where they are sure to find officers waiting to search their cars and to arrest them if they find booze.

The result of these efforts is that the drinkers generally reach the bridge in advanced stages of intoxication and very often in a belligerent mood. As a result they are often abusive to the man in charge of the bridge and sometimes they try to drive through the gate without paying toll. Last week a big party refused to pay toll and drove through the gate defying the bridge keeper to do anything. Since that time the bridge man has been given two lusty assistants and himself carries a sixshooter at his side.

Those who fall in their best efforts to swallow all the booze before reaching the bridge stop on the Texas side and engage in bottle tilting until the last drop is gone.

There have been many complaints within the past few weeks of rowdiness by drunken Oklahomans between Wichita Falls and the Burk Burnett bridge. The fact that so many Oklahomans are coming across to the Texas side to consume their booze on the spot, officers say, is a good indication that the "bone dry" law is being enforced in Oklahoma.

RAILROADS WILL KEEP GOVERNMENT FREIGHT MOVING

The following has been received from D. E. Koeler, vice president of the Fort Worth and Denver Railway: Fairfax Harrison, chairman of the Railroads War Board, authorizes the following statement: Plans for the solution of one of the most important transportation problems thrust upon the railroads of this country by the war have just been completed by the Railroads War Board after a series of conferences with authorized representatives of the Army, the Navy and the United Shipping Board. The problem concerns the supply and prompt movement of the thousands of cars required by the government to transport lumber and other supplies to the ship building yards, the army cantonments and other mobilization points. During the next few months, it is estimated that more than 100,000 cars will be needed for government purposes.

Under the plans agreed upon by the Railroads War Board and representatives of the government, the government will give advance notice to the War Board's Commission on Car Service whenever orders are placed for more than ten carloads of materials and supplies.

The government will also issue, where necessary, through its authorized representatives, orders to the railroads on which the supplies are to be shipped, instructing them to provide the number of cars ordered within the time specified and at the shipping points designated. To prevent shippers from utilizing for their own selfish purposes cars needed for government service, the Railroads War Board has issued strict orders to all the railroads absolutely

to forbid shippers the use of any of the government-ordered cars for any purpose except the loading specified in the government order. To assist further in the campaign to keep the cars bearing government supplies moving, a new form of envelope in which the waybills are to be carried has been designed. These envelopes, which will be supplied to all persons or firms making shipments of materials for the use of the Army, the Navy or the Shipping Board, will bear the following headings, printed in big type: "United States Government, United States Army Supplies, United States Navy, United States Shipping Board."

In addition, the railroads have been directed by the War Board to instruct their agents at all points to stamp or write in a prominent place on waybills covering less-carload shipments consigned to officers or agents of the Army, Navy or of the Shipping Board, the words, "United States Freight, Expedite."

The railroads have also been instructed that if departments of the government or individual railroads desire to place cards of their own form upon cars to assist in securing the continuous movement of government and U. S. shipping supplies, neither the Railroads War Board nor the government will object.

The chief desire of both the government and the War Board is to expedite the movement of all the government supplies that are needed so vitally for the proper conduct of the war. If any shippers are unpatronized enough to attempt to make improper use of the cars delivered to them for government business, investigation will follow promptly.

WILL PERMIT SOME HORSE RACING IN ENGLAND

Associated Press Mail Correspondence. Newmarket, England.—The government having agreed to allow a certain number of days for horse racing, it was decided by the Jockey Club stewards that the New Derby stakes should be run for early in August and the "Oaks" during the same week.

THERE IS WORK FOR EVERY WILLING MAN OR WOMAN

Question is, Are You Able to Do It? There is a shortage of men and women in every line of work. Each year vacancies occur and these vacancies must be filled with people possessing good health and able to fill the bill.

It is a certainty that any man or woman in good health is able to do this. This message is really intended for those who are growing around with tired, lazy bodies and languid brains unable to stand long hours and whose minds fall them at the physiological moment.

You can't do it with an inactive liver! You can't do it with a poor blood supply! You can't do it by dragging a feeble, a lazy body.

Rejuvenate your whole system with something to correct these complaints. You are not so burdened with ills that you are past the stage for relief. Peppermint Pills will make you five-active and furnish you with rich red blood. It will put a twinkle in your eye and obliterate the sallowness on your face. It will so change you that the mind will once again become keen and aid you to tackle big things and accomplish them in one third less time.

Constipation, stomach trouble, nervousness, sleeplessness, malaria and a fagged out body can be relieved by taking a course of the pills today. For sale by Miller Drug Co.

LABOR SHORTAGE IS FELT MORE AND MORE

Intense Heat Curtails Retail Trade Over Country—Dunn's Review of Business Week

Dunn's Review of business for the past week follows: Further restraints upon business have been imposed by the intense heat over a wide area, and some apprehension of crop damage has resulted. The effect of the extreme temperatures has also appeared in diminished manufacturing activity, with substantial curtailment at many establishments and smaller numbers of buyers in the shopping districts have reduced the volume of retail distribution. Aside from the torrid weather, progress has continued by the uncertainties arising from war conditions, and in some important branches there is rather more evidence of the mid-summer lull than was manifested last year. The strong position of leading producers is illustrated by the Steel Corporation's unexampled earnings, but in most industries regular commitments are more or less restricted by the present high costs of materials and by the doubts about prospective price revisions, yielding a general conservatism in the principal commodities remain a feature, though this week's list of wholesale quotations discloses more advances than recessions in some of the principal commodities. The growing shortage of labor, especially of skilled hands, are heard in many sections, and at a few scattered points wage controversies have rendered maintenance of production increasingly difficult. Reports of improvement in transportation, however, are now less infrequent, though the drawbacks are more intense, as movements of troops and crops become more general.

Failures Still Relatively Moderate. Convincing evidence of the strengthening of financial conditions during the time of war readjustments still appears in the insolvency statistics. Notwithstanding the general doubts about inventing economic changes, and the hesitancy and waiting in many directions, the country's commercial mortality gives no indication of conspicuous unsettlement in business. The number of failures in July 1, 1917, was less than in any other month this year, excepting April, and the smallest for the period since 1911, while the defaulted indebtedness, about \$17,000,000, though larger than in May, April and February of this year, was the lightest for July in all years back to 1912, and smaller than both in manufacturing and trading. Fewer embarrasments occurred last month than in the previous year, but the amount involved was not so small, several reverses of exceptional magnitude, those for \$100,000 or over surpassing more than one-third of the liabilities in the two classes.

June Foreign Trade Large. A really close approach to last January's maximum figures of \$613,500,000 has been made by domestic merchandise exports, and none is likely to be witnessed while the embargo order continues effective. Yet, eliminating January, the June total, about \$576,000,000 exceeded all other monthly records, and imports set a new precedent at \$207,000,000. That this nation's overseas commerce in the fiscal year recently ended far surpassed all former exhibits goes without saying, and nearly \$9,000,000,000 was the mark set by this week's official statement. Of this colossal aggregate, \$6,200,000,000 represented exports, so that the so-called favorable trade balance reached

It's all right for the government to produce the wheat producer to the extent of guaranteeing him \$2 per bushel for his wheat during the duration of this war, but it occurs to The Times that the consumer should be protected to some extent. This could be done by fixing a maximum price, after allowing the grain buyer and the manufacturer a fair profit for their work. If this is not done, not much beyond giving protection to the producer will have been accomplished. The consumers of food-stuffs in the United States have been exploited unmercifully for the past two years, and if they do not get relief many will come to the conclusion that it will not make a great deal of difference to them whether their pockets are picked by Americans or foreigners. Mr. Herbert Hoover is authority for the statement that the food consumers of the United States have been held up by the food speculators to the extent of about fifty million dollars a month, and that's entirely too much. Probably he has a plan that will give the food consumers the desired relief. They certainly need it.

General Pershing, now at the head of the American army in France is reported to have made the request that no generals over the age of forty-five be sent over there, leaving no to conclude that after a man reaches that age he had best retire in favor of some younger man, and also to wonder why General Pershing should have made such a request unless he himself expects to follow his own suggestion. It is more than likely, however, that General Pershing has been misquoted. Younger men no doubt can execute plans to better advantage than older ones, but the older men are best for laying out and directing such plans.

A determined effort is being made to put through Congress a bill that will permit manufacturers to put an arbitrary retail selling price on their products whereby they can absolutely control the selling price to the jobber, to the retail merchant and to the consumer. It strikes The Times that such a law would destroy real merchandizing and would make the wholesalers and jobbers only distributors for the manufacturers, and the retailers their agents. At the start, the wholesaler and the retail man might be allowed a fair percentage of profit but as the retail merchant increased business he would likely find the manufacturer and price fixer lessening the margin he permitted the retailer without in any way reducing the retail selling price. The Times believes it to be in the interest of merchants worthy of the name, and of the public generally, not to permit manufacturers to fix the retail selling price of any commodity.

According to reports filed with the Interstate Commerce Commission, telephone companies operating in the United States made a clear profit of practically one dollar per phone during the month of March of the present year. Considering which we are led to conclude that rate adjustments made last year have worked out very nicely for the telephone companies, and it will probably not be necessary to repeat the process in the near future.—Denison Herald.

Probably the rates are not too high, but if the telephone companies are making that much clear profit, don't you think it is about time the telephone girls should get a substantial raise in their salaries?

Representative James R. Mann of Illinois is a republican minority leader. He has been continued in congress by his constituents for almost a quarter of a century. This is his verdict on legislative commission appointed by congress in my twenty years of service in this body that has done anything really valuable. Jones says the world is not really better off than it was before the war. There is a war on Herbert C. Hoover says every country in Europe has gone through an era of disintegrated effort. The municipalities of thousands of committees and tons of useless inappropos and wrongly destined materials. It is a warning coming at an opportune time.—Fort Worth Record.

Here is a suggested thought. Texas is weighted down with "boards" and "commissions." Few of them render anything like adequate service to the public. Most of them are extravagant, some of them profligate. In many, if not a majority of instances, they are political sinecures, peopled by proteges of politicians. The people are being bled for taxes with which to support these useless appendages to their government. The people should have relief. And right here is suggested, involving work for the next legislature, involving as it will an imperative duty

to the suffering public. When the people fully understand the situation, the legislature will be sent to Austin that will clean things up to a fare you well!—Houston Post.

HEAT IN METROPOLIS FALLS TO STOP BUYING
 The unprecedented-heat wave under which New York sweltered last week is mentioned in a communication from Mrs. Louise Salm, buyer for Baum & Gardner, now in New York. According to Mrs. Salm, there were 86 deaths and 166 heat prostrations on Wednesday. The most of New York is spending the nights at the beaches, she says, and 1,000 police are guarding Brighton and Coney Island. In a number of seasons she says she has never experienced such heat. She has been in New York about a month.

PERSONALS

W. T. Perkins, a prominent lawyer of Quannah, is here today in a case before U. S. Commissioner Lantz. He is here on a subpoena issued by the U. S. Attorney General. He spent Sunday in Dallas with his family.

A. L. Miskell, deputy constable at Quannah, came to this city today as a witness for the government in an alleged "slacker" case.

NAVY DEPARTMENT GETS REPORT OF INCIDENT

By Associated Press.—Washington, August 6.—A preliminary report from the master of a merchant ship who thinks he sighted the periscopes of a submarine off New York yesterday has been received at the navy department. Investigation is being made.

YES, WAR MUST BE WHAT SHERMAN SAID IT WAS
 Lo, the poor booze fighter! Drinks have gone up to 45 cents straight in Wichita Falls. And 45-cent whiskey will sell hereafter for 20 cents per portion, with some of the more select brands at 25 cents. War seems to be making the booze fight a losing one. Some of the new price list went into effect in the local emporiums this morning, and it was said to the increased cost of the raw product. At the same time the bartenders slipped the owners of thimble parlors a new scale that was formulated at the bar-tenders' meeting yesterday evening, which calls for a weekly stipend of \$25 per week. This is an increase of \$5 per week. Most of the men have been drawing this wage for some time so it will effect but a few of them, and these few expect to get it without a strike. The new price list may cut off a considerable portion of the treating business in this way, do some good. Many fellows, instead of going in for a drink by their lonesome, have heretofore been in the habit of taking a friend along. They even up each his two drinks for a quarter, and at the same time each being a fellow in good standing with the bunch. Now the lot is stretched and each will take his drinks by himself—and probably not as many of them.

Market Report

Fort Worth Live Stock
 Fort Worth, August 6.—Cattle receipts steady. Hogs 45 to 48. High receipts 4,500, 10 to 25 higher. Sheep 1,500, steady. Lambs 13 to 14.

Chicago Grain Futures.
 Chicago, August 6.—Beneficial rains in Kansas and a forecast of showers over the greater part of the central corn belt eased-down prices today in the corn market. Opening quotations ranged from 5-8 cent to 1 3-8 cents lower, with September at \$1.16 5-8, 15 and May at \$1.14 5-8. The close was nervous 1 cent to 1 1-8 net lower with December at \$1.16 1-2 to \$1.15 5-8, and May at \$1.13 1-2 to \$1.12 5-8. Wheat closed unsettled at 2 1/2 cents net lower at \$2.25 for September.

New York Cotton Futures.
 New York, Aug. 6.—The cotton market showed renewed firmness today. There was criticism of the weather conditions of the two days adjustment that too much rain was falling in some parts of the eastern belt and not enough in the Southwest. The opening price of September at \$1.35 1-2 to 20 points, active months selling about 33 to 45 points net higher.

Cotton closed steady. October closing at \$1.25 1-2, December at \$1.25 1-2, March 25 1-2, May 25 1-2.

ONLY 88 DID NOT FILE CLAIMS FOR EXEMPTION

The Wichita County Exemption Board is awaiting the arrival of papers connected with the examination of registrants here whose examination has been authorized by other boards before taking up the claims for exemption. It will likely be several days before these come in. In the meantime the defaulted office work is being completed so that there will be no delay when all the papers come in.

Of all the number who appeared for examination here, 82 did not claim exemption. Only 41 of those examined were disqualified for physical reasons. Thirty-six of those called were already in some branch of military service and were exempted for that reason from the draft. Thirty-four failed to report altogether. This neglect has caused them to forfeit all claim for exemption.

Three aliens who had registered were exempted. Transfers for examination before other boards has been insisted on by seven. This board is awaiting papers from these seventeen before proceedings with exemption claims.

A total of 329 passed the physical examination and from this number will be selected the county's quota of 140. Of the 329, 241 have claimed exemptions.

WAR TAX BILL REPORTED TO THE SENATE TODAY

(Continued from page one)

In recommending the graduated war profits tax upon individuals as well as corporations in lieu of the present eight per cent excess profits law, the committee said its plan is similar to that of European countries, where it has had marked success.

"We must face the possibility, even the probability," the report stated, "of even higher taxes than are now proposed in this country and we must adjust our systems in many cases, satisfactorily even under increased rates. Your committee has not been able to find any satisfactory reason why individuals engaged in trade and business should not be subject to this tax (war profits) as well as corporations and partnerships." Under the present law, the report stated, inflated values to patents and trade marks and watering of corporations' stocks makes evasion of the revenue law possible, while the committee's new basis is believed to meet the situation. Senator Simmons also pointed out that the new plan is a war profits tax rather than an excess profits levy.

The new tax of one cent for each 25 cents paid on parcels post packages was said in the report to remove discrimination in favor of the railroads and the parcels post.

"In addition to this," the report said, "your committee can see no intrinsic reason why, in this present emergency, the government should not impose a tax upon this important participation, especially in view of the fact that the rates on first and second class mail are increased."

The House five per cent taxes upon electricity, gas and local telephone service were eliminated because "it appeared to the committee that this tax would fall with very great severity upon the people of moderate means as well as the poorest classes, who at the present time depend very largely in the cities upon gas or electricity to furnish them with both light and heat for cooking as well as for many other purposes for running small machinery like that of the sewing machine. The committee felt that a tax of this character ought not to be imposed unless a point was reached where it would become necessary to tax everything susceptible to taxation. Light and heat are the very necessities of life and should be subject to taxation. For similar reasons the committee recommended that the tax upon charges for telephone services to subscribers be eliminated."

Striking out of all insurance taxes from the House bill was passed upon the belief that excise taxes upon insurance is a questionable principle and should be subjected to tax only as a last resort.

Elimination or reduction of all of the five per cent gross sales tax upon many manufacturers was defended because the manufacturers also must pay high income and excess profits taxes. "Your committee felt," the report said, "that only where the conditions are exceptional should such a manufacturer's gross sales tax be justifiable." For these reasons the House tax on patent medicines was reduced to two per cent.

Proposed new federal license tax on motorcycles and automobiles based upon the original selling cost in lieu of the House manufacturers' tax, was explained as follows:

"A gross tax upon automobile manufacturers was first considered, but thorough investigation it appeared that over 80 per cent were making very small profits. A few were making enormous profits. A gross production tax in size sufficient to produce a substantial return would have driven out of business a large number of small, reliable manufacturers. Your committee concluded that the automobile was a proper subject for a war revenue tax and recommended for the tax on automobiles which might or might not be passed on to the purchaser a moderate excise tax upon the owners of automobiles and motor vehicles. The committee believed that the new tax on cabs and retention of taxes on other amusement admissions is justifiable, the report said the tax on moving picture theatres charging less than 25 cents a seat had been eliminated because:

"The moving picture show has become a national institution. It possesses many valuable educational features. They are largely patronized by people of small means.

House taxes on club dues were eliminated, the report said, because it was difficult to reach clubs properly taxable and at the same time exempt those whose dues should not be taxed.

Most House stamp taxes, virtually those of Spanish War days, the report said, have been retained. The one-cent stamp tax on bank checks, it was said, was provided because prevalent in most belligerent countries and because "there is no good reason why this source, which would yield substantial revenue, should be overlooked."

The House general to the cent tariff levy, the committee declared, would have taxed nearly 4,000 articles and yield \$200,000,000.

"There is no estimate, however, of the amount the country would have to pay," the report said. "So sweeping a change would have brought consequences thought clearly undesirable."

The committee, it was stated, substituted for the House 10 per cent tariff levy, "moderate temporary excise taxes" of one-half a cent per pound on sugar, five cents on tea, two cents on coffee, and from three to five cents on cocoa.

"Of every cent of these taxes," the report stated, "were passed on to the consumer, it would amount to little more than 15 cents per capita, a sum so small it would hardly be felt by the consumer. A considerable part is likely to be absorbed by the producers and dealers. They are small compared with similar taxes in practically all belligerent countries."

The increase of one-fourth cent a pound in second class mail rates and the five per cent net profits tax against publishers on profits over \$4,000 annually, in lieu of the House zone rate increases was commented on as follows:

"Leading representatives of the publishers appeared in protest against the zone system and presented evidence that it would be a serious mistake to increase in any instance the postal rates. The combination postal and special income tax, recommended as a substitute, is not regarded as perfect but in view of increases on first and second class mail and parcel post, it was felt that some reasonable proportionate additional tax should be imposed upon newspapers and periodicals

having the privilege of second class mail matter.

Substitution of a new plan of "information at the source," instead of collection at the source for income taxes, the report said, will enable the government to locate effectively all individuals subject to the income tax, and stimulate collections, lessen expense. The new plan of taxing undivided corporate surpluses, also, was said to insure larger and fairer collections.

HEARING GIVEN FOR HARDEN COUNTY MAN

Frank Hines, a wealthy and prominent young man of Harden county, is being heard this afternoon before U. S. Commissioner Lantz. Hines is charged with failing to register for the draft. He claims he is 36 years old. It is alleged that he made a statement that he secured his poll tax receipt that he was 28 years of age, and that recently he made a statement when making application for life insurance that he was 23 years of age.

Hines was brought here Friday, giving a \$2,000 certified check for his appearance before the commissioner today.

At the Theatres

The Majestic
 Jack Devereaux and Winifred Allen are featured in "The Man Who Made Good," a Triangle play produced under the supervision of Allan Dwan, which will be shown at the Majestic theatre today. It is a lively comedy of today depicting the struggle of a young couple in their attempt to make good in New York. Devereaux appears as Tom Purton, a young man who comes to the city to take business by the throat and make it behave. He meets his inspiration in the girl who secures the table from him at Mrs. Carroll's boarding house, just off Broadway. The play is filled with witty precepts for success, as: "You are a Burton, pick out the right kind of wife. If you already have the right kind, commerce making good for her."

The Empress
 Photographed a great thunder storm, one of the rarest feats of modern photography, was achieved by cameraman Charles Rousier in "A First Sight," a Famous Player-Parmount picture starring Mae Murray, the winsome actress who has recently appeared in such well-known screen successes as "The Primrose Ring," "On Record," "The Pig Wagon" and others. In "A First Sight" Miss Murray is seen in the novel role of a refreshingly naive American girl who secures the marriage planned for her by her relatives and frankly sets out in quest of a husband of her own choice. "A First Sight" will be the attraction at the Empress theatre today.

GERMAN BUSINESS AND GERMAN AGGRESSION

"German Business and German Aggression" is the title of a pamphlet published anonymously by T. Fisher Ulrich, Ltd., of London. The pamphlet shows the co-ordination between the German government and German industries in foreign lands, and demonstrates that this co-ordination has been made with a view to placing foreign capital and foreign industries under German control.

The book is remarkable for the amount of light brought to bear upon the subject, and as remarkable for the moderation of the language and style, which is rather that of a very gentle

In foreign countries, a "good press." German concern whatever. Largely through the independence of the Havas and Reuter News agencies, this scheme had at least partial success, even before the war. Yet a society was formed in time to perfect peace, for forcing on newspapers abroad, by threats and bribery, a service of news which could never hope to be printed on its merits. "The country which is the home of such projects is hardly a desirable neighbor," says the book.

There will be no meeting of the Civic League this month, Tuesday is the regular appointed meeting day but the majority of the members are out of town and there is little business the meeting will go over until September.

SAVINGS BANK DEPOSITS IN PARIS BANKS INCREASES

Associated States Bank deposits continue to exceed the withdrawals. Balances due to the credit of depositors have increased more than seventy million francs since the first of the year.

DENVER MAY HAVE TO LOOK ELSEWHERE FOR WATER

The Fort Worth and Denver has received no formal notice that it will have to get water for its shops and children elsewhere than Wichita Falls. Intimations have been received by the railway company, however, that the Wichita Falls water company cannot continue the supply indefinitely.

It is said that with the water receding at the present rate after ten days or two weeks it will be necessary to raise the water at the Lake with a pump in order to get it into the city. There is no question as to the adequacy at the Lake, but if pumping is necessary the cost to the water company would be increased.

The Fort Worth and Denver has just completed a loading rack here in the cost of more than \$3000 for putting water into the tank cars. From 100,000 to 150,000 gallons are hauled to Childress daily.

DISTRICT EXEMPTION BOARDS HOLD CONFERENCE AT AUSTIN

Austin, Texas, Aug. 5.—A conference is being held today by the members of the four district exemption boards with a view of arriving at a uniform interpretation of the regulations governing exemptions from military service that comes with such statements of fact coming before the various boards will be decided in the same way. It also is the purpose of this conference to discuss plans for cooperation and coordination of work. These boards are in each of the four Federal districts and each has five members.

Adjutant General Henry Hutchings and Captain George W. Carter are conferring with the Board, the latter representing the State Council of Defense. It was at the request of President Wilson that the Governor called the conference.

SITUATIONS WANTED

PERMANENT POSITION WANTED—By young man as salesman or mechanic, experienced in both lines. Phone 1867.

DRRESSMAKING

MRS. FRANKIE ROSS, Dressmaker alterations, repairing, 1209 Scott, Phone 1718.

PERSONALS

A. A. Keys of Quanah, manager of the electric power and ice plant there, spent Sunday in Wichita Falls. S. G. Allen of Fort Arthur, was here Sunday. D. E. Lyall of Childress, spent Sunday in Wichita Falls. A. L. Samuels of Paducah, was here yesterday. J. M. Miskell, special officer from Quanah, was in the city last week on business with United States Commissioner Lantz. Misses Joza Alexander and Oma Link, and Messrs. Smyth Alexander and Ernest Curila motored over Sunday from Nocona. They were accompanied home by Miss Bruce Dickson, Mrs. Boss Ferris of Fort Worth was the guest of Mrs. C. E. Clark Sunday. Mrs. Ferris was on her way to Frederick, Okla. C. E. McCarty motored to Temple, Okla., yesterday, returning last evening. He reports the trip almost entirely through rain which fell in sheets. At Hyers, he says, something near an inch fell, but when within about five miles of this city, the rain fall lessened sharply. Mrs. Bob Knoll of Fort Worth, came up Sunday for a visit with Mr. and Mrs. W. S. Kay, returning to Fort Worth this afternoon. Mr. Kay has been confined to his home since last December, when he suffered a stroke of paralysis. L. D. (Dusty) Rhodes and wife are here from Clarendon today. Mr. Rhodes has bought an interest in the light plant at that place and they will make their home at Clarendon. Mr. Rhodes who was a Fort Worth and Denver engineer had been in poor health and made the change for that reason. Miss May Merritt and Lurline Chapell are visiting at Electra. Mrs. W. H. Bachman left Sunday for San Angelo for a visit with her daughter. E. P. Carroll and family will leave tomorrow for South Texas points for a month's visit. Oscar Williams and family, and Mrs. W. C. Brown and children, motored from Quanah yesterday where they have been visiting Mrs. Geo. Williams, their mother. Mr. and Mrs. George Keith, Mr. and Mrs. Milo Connelly and Mr. and Mrs. Miller with their families, left this morning for Medicine Park for a several days' outing. Mr. and Mrs. W. B. Douglas of Graham, spent Sunday with Mr. Douglas' mother, Mrs. P. H. Douglas.

Evans Jones, the 11 months old infant of Mr. and Mrs. Ashley Jones, living in North Wichita, died Sunday afternoon and was buried in Riverside this morning.

Every Day is "Sundae"—at Our Fountain

Our menu contains such a variety of Sundaes that we can serve you a different one every day in the week. Pure Ice Cream, Pure Fruits and Fruit Syrups are used in the making of all our Sundaes

"COOL AS A CUCUMBER"

—that's the way you will feel when you visit our Fountain—electric fans, tempting ripe fruits, frosted glasses filled with sparkling beverages, tempting sundaes—these are some of the things that make our Fountain such a cool, inviting spot these hot days. The sanitary surroundings, too, are very satisfying and appealing.

TRY ONE OF THESE FOR A DELICIOUS, COOLING DRINK:

- Jumbo Root Beer, as a thirst quencher and health helper 5c
Cherry Lemonade, cold and sparkling, with ripe cherries 10c
Orangeade Cooler, made from fresh ripe oranges 10c

HEAVY SHOWERS FELL EAST OF CITY SUNDAY
Heavy showers fell to the east of Wichita Falls Sunday afternoon, but only a light rain fell here. The area of heavy precipitation extended almost to the city limits on the east. At the Dale ranch in Clay county the precipitation was estimated at nearly three inches. Heavy showers also fell in westerly localities south of the city. Showers were reported from a number of Oklahoma points on the Wichita Falls and Northwestern. A number of Wichita Valley points also reported showers. The precipitation here amounted to about one third of an inch in the downtown section being lighter at the northern and western limits of the city.
THOMAS D. JONES MADE MEMBER EXPORTS BOARD
By Associated Press.
Washington, August 6.—Thomas D. Jones, Chicago business man and capitalist whose nomination to the Federal reserve board was rejected by the Senate after a memorable fight was today appointed a member of the exports administrative board, succeeding Edward N. Hurley, who became chairman of the shipping board.
