Highest Class Phonograph in the World

The SONORA is a musical instrument of the phonograph type. As one listens to this great instrument, hears from a phonograph for the first time, true vocal and instrumental tones, with no characteristic element of beauty lacking, no unnatural quality added, one realizes the possibilities of phonographic reproduction.

The two distinguishing features of the SONORA are the scientifically faithful reproduction of all musical tones and a personal central of tone, which enables anyone to put new life and beauty into a record, without actually changing the artist's interpretation.

To those who have not heard the SONORA no description can be given which in any way compares with the instant comprehension that comes from actually hearing and playing it.

Those who are contemplating the purchase of a phonograph are invited to come to our booth rooms and have us make a demonstration of the SONORA.

Many young men of this city who have been attending the officers training camp at Camp Funston for the past three months will be at home in a few days, and nearly all will bring with them commissions as army officers of one grade or another. It is needless to say that the commissions would not have been given unless the receipients were found to be worthy in every way after about as severe a test as it was possible for the government to make during a three months trial. Those who were able to stand this test will be rewarded, and that they should feel proud of their achieve ment is but natural. All honor to these young men. They have earned their

Five or 6 years ago The Times made the prediction that the oil production of Wichita county would be greater than it was at that time, and The Times' prediction is now proving true. Jus the other day a well was brought by dry holes that is producing, ac cording to estimates, not less than announcement of the German military in on land that had been condemned 1500 barrels of oil every twenty-four hours, and some even place the daily average as high as 3000 barrels. There are now a number of wells in the Electra and Burkburnett oil fields that produce over 1000 barrels daily. Those who (five or six years ago) thought the Electra. Burkburnett and Petrolia oil fields would be about exhausted by this time, and who figured accordingly, can now see how bad they missed their guess. The field has widened constantly, until now the Elec tra and Burkburnett fields almost join up with each other, although the two cities are about twenty miles apart. During the past year new fields have been opened on the T. J. and Jeff Waggoner ranch, and the Burnett ranch. Also at Holliday.

CAMP COMES TO

By Associated Press.

San Antonio, Teas, August 13.—The first officers training camp at Leon Springs will come to a close officially Wednesday, with the giving out of credentials to men who have been successful in winning commissions.

The new officers will be dismissed from the training camp Tuesday and receive their final pay as student officers. They will be called to duty in their respective branches Wednesday and will draw pay of their rank from that time on. The officers will then be granted a leave of 12 days, the majority of them being ordered to report at Camp Travis on August 27. It is probable that they will be used in training the new national army, except in cases where special men have been assigned to the regular army units.

It will be some time before the men will receive their commissions, as the making out and signing of them will entail a great amount of work at Washington. For the present they will be supplied with credentials in the form of copies of telegrams appointing them.

Cleary said he and the men in the Columbus camp still hoped to be sent back to Bisbee under a guard of federal troops. He said he had nothing to do with any suits which might be filed against Arizona mining corporations as a result of the deportations, as he was not "capitalizing his friendship for labor."

They could as a whole. I herer saw cotton goods so high, particularly colored goods. High class goods do not reflect the rise so much as the cheaper grades. Credit men of the big jobbers say that the interior merchants are in good financial condition, speaking the was not "capitalizing his friendship what they owe. Sales were not on the great scale, in quantity, as last season, are labor."

If the government would take over the control of the mines and fix prices where they were a year ago, Cleary though the miners would return to work at the old wage scale.

We want they owe. Sales were not on the great scale, in quantity, as last season, for the reason that many merchants bought on the road, meaning from the travelling salesmen as they came along."

good business conditions prevailing for some time to come.

TO NEW SOLDIERS

The atmosphere in the vicinity of Lake Wichita is likely to be foggy for the next few days at least. Tom Mendenhall, manager of the Illinois Tor-

denhall, manager of the Illinois Torpedo Company, this afternoon bought
from Wilfong and Woods 450 cans of
Prince Albert Smoking tobacco to be
distributed among the soldiers at
Camp Marlow.

A dearth of tobacco at the camp
came to Mr. Mendenhall's attention.
He very promptly ordered the tobacco
sent out. The act won't lessen Mr.
Mendenhall's popularity at the camp.

CLOSE WEDNESD'Y COMMISSIONERS

All National Guard Reservists must report for transportation and subsist-ence to either Capt. Perkins or Capt. Staniforth at the National Guard camp at the lake. The telegram concerning this reporting of reservists was received at the local army recruiting station and is as follows: "You are heretion and is as follows: "You are here-by directed to instruct any National Guard Reservists who report at your station for transportation to his orga-niaztion, that the Department Com-mander directs that they report to the nearest commanding officer of troops in Federal Service for duty until fur-ther orders. The commanding officer should report name, date of reporting, etc., to the Department commander. Men will be assigned, etc., when troops reach their mobilization camps."

Market Report

Mr. Antrobus also helped organize Clarendon.

At one time Mr. Antrobus owned the first newspaper ever started in this city, The Wichita Herald, which he afterward sold to F. T. Dougherty, Mr. Antrobus stated that at the time he left here thirty years ago Wichita Falls was the trading point for the entire panhandle territory, trade coming here from as far as the Canadian river, There were but few brick buildings here then, and he was able to locate only two which were standing at that time. They are the buildings at the corners of Seventh and Ohio and Seventh and Indiana. The latter was ogton burned by the Panhandle National Bank. During the time he lived here Mr. Antrobus states he saw the town burn to the ground three times and to him the many improvements and dear rise of 1-4 cent with December, at a loss of 1-4 cent with December at the corners of the country made no important difference in the wheat and flour business of the country made no important difference in the wheat market to day. Prices showed a slightly increased tendency to ease off but a downward trend of late has been the plain the amount of trading done has been hardly more than enough to establish to quotations. After opening one cent lower at \$2.14 for September, the market to the many attended to the plain the many and the lived here the corners of Seventh and Ohio and Seventh and Indiana. The latter was ogton but September was dealt with to any extent whatever. The close was been have a seventh and decline to him the many improvements and dear rise of 1-4 cent with December at

"The Love That Lives" Another instance of this versatile star's scope is her success in

this Famous Players' picture, in which Miss Frederick plays the part of a young mother who determines, at all costs, to save her children from the sordidness of poverty. She was the daughter of a scrubwoman and the bare and joyless existence that had been hers since childhood drove her to think any offense less than rearing children to face life uneducated for the fight. Robert Vignola has staged the photoplay by Scudder Middleton, with all his remarkable skill. A play far different from past Pauline Frederick pictures, but, none the less,

OPENS, COLORADO SPRINGS TODAY

Colorado Springs, Colo., August A prosperous organization with its "house in order" and ready to expand the work it already has started in connection with the war activities of its members, was pictured by Marsden G. Scott of New York, president of the International Typographical Union, in the address with which he opened here today the sixty-third annual conven-tion of the organization. He said that nearly 600 members of the union had enlisted with the Canadian forces army or navy of the United States, and that "thousands of others will fol-low the Stars and Stripes in the world's war.

NEW BUILDING FOR DEAF

Austin, Texas, Ausget 13. The cornerstone of the new \$75,000 oral school building at the State School, for the Deaf and Dumb here has just been laid with appropriate ceremonies. It is planted to have the new structure ready for occupancy within the next we months.

In this building only lip reading will be taught, and the advanced pupils who have learned to use the older methods of language will not be allowed to mingle with the other students, since this invariably leads to the use of the sign language which is said to be easier than the lip method, though the latter is considered more efficient

after it has been thoroughly mastered. The addition of this new building will also materially increase the capacity of the new institution which now has upwards of 450 students.

OSTEOPATTHS RECOGNITION

Osteopaths throughout the country are much interested in a bill now pending in Congress providing for the service of osteopaths for the American troops on European battlefields. This was brought out at the annual

American Osteopathic Association convention in Columbus, Ohio, last week The convention also took necessary steps leading to securing an adequate supply of physicians and surgeons for the United States army and the entire resources and services of the Association were pledged to the government.

The old school physicians of Great Britain and her allies, it was stated, during some of the reports of osteopaths who had made a study of war conditions, have acknowledged that they can not handle the enormous amount of mechanical treatment neces-The convention also took necessary
