

FORMAL GERMAN ANSWER IS RECEIVED IN ARGENTINE

UNFAVORABLE IS CURRENT BELIEF IN BUENOS AIRES

FOREIGN MINISTER LINDMAN SAYS HE KNEW NOTHING OF PRACTICE.

SWISS MINISTER TALKS INTENDED GREAT REVOLT

That Country Plans Through Investigation and Will "Satisfy the United States," It Is Declared.

By Associated Press. Buenos Aires, Sept. 15.—From an authoritative source it is learned that the reply of the German government to Argentine's demand for an explanation of Count Luxburg's action in sending secret code messages to Berlin through the Swedish legation has been received here. It is indicated that the reply is unfavorable. The Argentine foreign minister does not deny that the German answer has been received, although he refuses to admit the fact.

By Associated Press. Stockholm, Sept. 15.—Sweden realizes the seriousness of the situation created by the recent disclosures at Washington regarding the transmission of German dispatches and expects to take all steps possible to put matters right. Foreign Minister Lindman told the Associated Press during an informal talk. All transmission of German dispatches had been stopped, he said, and Germany had been asked for an explanation of the abuse of the privilege formerly extended.

In the course of his discussion of the affair with the correspondent, Lindman brought out the following points: Sweden's Statement. First—The Swedish government was not alerted in certain quarters, taking the affair lightly, but on the contrary realized fully the serious aspects of the situation and intended to do everything possible to settle the problem.

Second—That transmission of dispatches on behalf of Germany had been stopped absolutely from the moment the Swedish government was brought to the foreign ministers' attention, and would under no circumstances be resumed.

Third—That had the Swedish government been alerted in time of the nature of the dispatches which the German government was transmitting, the messages never would have been transmitted.

Fourth—That strong representations had been addressed to the German government on the abuse made in this practice, accompanied by a request for explanation to which, however, no reply had yet been received.

Would Clear Up Matter. Administration of the entire conversation seemed imbued with the desire to see the situation closed up fully and completely on a basis satisfactory to the United States.

Authorized Statement Given Out by Sweden. Stockholm, Sept. 15.—The semi-official news agency has been authorized by the government to communicate the following in reference to news

(Continued on page 7.)

F. L. P. A. MEMBERS DECLARED WILSON WOULD DISAPPEAR

THIS TESTIMONY IS BROUGHT OUT IN DAY HEARING AT ABILENE.

INTENDED GREAT REVOLT

Plan Was to "Feel Out" Labor in Oklahoma, Arkansas and Louisiana on Question of Uprising.

Special to The Times. Abilene, Texas, Sept. 15.—Further testimony brought out here today in the federal court in the trial of fifty men for conspiracy, show that a well planned revolt was discussed at the meeting of the F. L. P. A. to take place on the day President Wilson signed the conscription bill, that the revolutionists were to conscript other laboring men, make them help them and that each member was to provide himself with a high powered rifle, and a hundred rounds of ammunition.

It was brought out that some speakers at the meeting at Cisco remarked President Wilson would "disappear" on the day set for the revolt; that people would think he was dead, but that he would not be dead, just "disappeared."

Many details concerning the arming of members were brought out. One witness testified a revolt was to be started, and spread throughout the country, the revolt taking over banks, stores, railroads and other things and applying them to their own use. The Cisco meeting elected two delegates to confer with the working men and F. L. P. A. and all other labor organizations in Oklahoma, Arkansas and Louisiana, and to see them out on the question of revolt, the witness swore.

As a result of a conference, he communicated with each local lodge by courier, because he distrusted mails. One resolution at Cisco to oppose conscription by open revolt was voted down, the witness said, and a minority report advocating less drastic action adopted.

Chief Counsel Atwell for the defense objected to the introduction of testimony concerning the "disappearance" of President Wilson, saying it was too inflammatory, and did not think the defendants would get fair trial, if it was allowed to go in. Judge Jackson overruled the objection, that threats to take the life of the president were the highest form of treason.

All defense witnesses have been examined for the week in the instance of the nature of the dispatches which the German government was transmitting, the messages never would have been transmitted.

Plans to Hurry Insurance Bill Are Completed

By Associated Press. Washington, Sept. 15.—The Atlantic disturbance is near the North Carolina coast moving slowly northward along the Delaware Capes, the weather bureau announced tonight. Northeast storm warnings are still displayed for the Virginia Capes to Nantuxet.

Germans Offer Reward for Americans First Brought Behind Their Lines, Whether These Are "Dead or Alive"

By Associated Press. British Headquarters in France and Belgium, Sept. 15.—German military authorities on the western front have shown concern about the eminence of the American army, and have offered a reward for the capture of the first American prisoners. They put the price at 400 marks on the first American soldier brought dead or alive into their lines.

American Organization of Laboring Men Offers Top Reward For Capture of Kaiser

By Associated Press. Minneapolis, Sept. 15.—Labor's Loy al Legion, recently organized here, will pay \$1000 to the American soldier or who captures, dead or alive, the German emperor or crown prince.

KORNILOFF TAKEN BY PROVISIONAL GOVERNMENT NOW

GENERAL LOKOMSKY IS ALSO CAPTURED FOLLOWING REVOLT.

BATTLE FRONTS QUIET

Rome's Official Statement Makes No Particular Mention of Fight at Monte San Gabriele.

Russia's internal situation was considerably clarified by Saturday's news dispatches, which announced the arrest of General Korniloff, marking the definite end of his revolt, and the formation of a new cabinet at Petrograd. Publication of the names of the new cabinet members was deferred for a day.

With General Korniloff was arrested General Lokomsky, who was in command on the Russian northern front when the revolt started, and who cast his lot with his chief. What the fate of the two men will be is problematical. Opinion in Russia seems widely divergent as to the treatment that should be meted out to them.

Little Activity. Military activities on most of the fronts seem at a minimum for this season, when active operations are still possible virtually everywhere in the field of hostilities.

Rome's official statement, while reporting a rectification of the Italian lines on the Bainsizza Plateau, does not mention particularly the fight for Monte San Gabriele, which height on Friday was reported in dispatches to Washington to have been captured.

On the Franco-Belgian fronts the only activity reported in dispatches to Washington is the capture of Verdun where Paris reports the French successful in reclaiming most of the trenches which the Germans penetrated north of Courieres on Friday.

On the Riga front the Russians still are on the aggressive and their war office reports advances which resulted in the occupation of several towns.

NO INFANTRY ENGAGEMENTS ALONG CANADIAN FRONT

By the Canadian Press. Canadian Headquarters in France, Sept. 15.—There have been no infantry engagements on the Canadian front during the past few days. The enemy has apparently given up patrolling in the chaos of wrecked houses. No Man's Land consists on the greater part of the front of festalation for the recent projection of gas into Lens was not swift, but when it came it was vigorous and direct.

On Friday afternoon the German trench mortars opened fire on our lines to the west of Lens, where the enemy perhaps believed our gas projectors were located. After the mortars had been engaged for some time, enemy guns light and heavy, were also turned loose on this section of the front. In response our artillery put a barrage on the German line and silenced their trench mortars, but the violent artillery duel continued for several hours. The only reasonable explanation of the enemy's marked activity is that his losses from our gas attack had been so serious that even at great cost in projectiles he was determined to search that part of the line from which he believed the attacks came, in the hope of locating and destroying the projectors.

The situation of the Germans in the center of Lens with the vigilance on high ground to the north and southwest is not a happy one. The bombardment was renewed during the night, when gas shells were used by the Germans, but this morning rain is falling heavily and all is quiet.

MINNEAPOLIS TEXTBOOKS TO BE FREED OF "GERMANISM"

By Associated Press. Minneapolis, Sept. 15.—Revision of German textbooks used in Minneapolis public schools with a view to eliminating pro-German sentiment was decided upon today at a special meeting of the board of education. The study of German, however, will not be discontinued, it was announced.

DETAILED ACCOUNT IS GIVEN OF RAID ON FIELD HOSPITAL

MAJOR GRAYSON P. MURPHY TELLS OF TRAGIC BOMBING ATTACK IN FRANCE.

KANSAS OFFICER KILLED

Three Other Officers, Six Privates, and a Nurse With Twenty-Two Patients Among Wounded.

By Associated Press. Story of Attack. The first complete detailed accounts of the German air attack on American base hospital No. 5 in France on the night of Tuesday, September 4, have been received in a report from Major Grayson P. Murphy, head of the Red Cross commission in France. It was in this attack that Lieutenant William T. Fitzsimmons of Kansas City, the first American officer to give his life in the war, was killed; three other officers, six privates, a woman nurse and 22 patients from the British lines were wounded. An American Red Cross inspector returning to Paris from the scene told the story as follows:

The airplane attack occurred at 11 o'clock at night. Just at that time fortunately no convoy of wounded was being received or the list of casualties would have been far greater, as one of the bombs fell into the center of the large reception tent to which wounded are first borne for examination. Ten seconds sufficed for the explosion of the bomb from the fast flying plane and within less than a minute afterward the surgeons of the hospitals were at the task of collecting and attending those who had been struck down. And for 24 hours they were at work in the operating room, one surgeon relieving another until work no longer, and the very next day just as if nothing had happened these same surgeons were called upon to receive and care for 200 wounded men from the trenches of the British expeditionary force.

"Unmistakably" a Hospital. The hospital, which is on the French coast, has 1800 beds under canvas in a quadrangle 500 feet square in a district in which there are many similar institutions and is unmistakable as a hospital. At the time the German aviator flew over the camp the hospital staff was engaged in the preparation of the evening meal. Lieutenant Fitzsimmons, however, was standing at the door of his tent.

There had been a brief warning of the presence of a hostile airplane in the neighborhood, but because a quarter of a minute before the sound of exploding bombs was heard from a point perhaps 200 yards from the hospital, this warning sufficed to cause all lights in the tents to be extinguished immediately and those who had been under fire before three themselves face down upon the ground.

Five Explosions. Then came five explosions in rapid succession in the hospital itself. The first two were directly in front of Lieutenant Fitzsimmons' tent—he probably never knew what happened to him, as his body was torn to shreds. The next two fell a hundred feet beyond in a five marquee ward in which there were many patients, and the last struck the reception tent.

Overhead there was no sound, the German aviator flew too high to be heard, but he left his identity behind him not only in the bomb he dropped, but in the derisive handful of pennies he scattered upon the hospital as he whirled away. A number of these were found when light came. Lieutenant McGuire, who was in a tent adjoining that of Lieutenant Fitzsimmons, was struck by three bomb fragments, but was not seriously wounded. His escape was narrow, as there were more than a hundred holes cut in his tent.

Other Officers Wounded. Lieutenant Smith was struck in the knee and Lieutenant Ellis in the chest while in the hospital. The private soldiers injured were on duty as orderlies in the reception tent and the bomb fell almost upon them. Seriously wounded were Private Aubrey S. McLeod injured that it was necessary to amputate both his legs that night.

Although the exploding bombs created a delirious confusion, there was not the smallest sign of panic and the work of discovering the wounded and collecting them was immediately begun. This was made cruelly difficult by the darkness, but everyone sprang to it with a will. Many of the injured had been blown from their cots, some even outside of their tents, where they were found tangled up in tent ropes. The American nurse, although struck in the face by a fragment of steel from the bomb, refused to be relieved and remained at her post courageously to the end. A hospital orderly who worked untiringly in the head by a fragment and painfully injured. He had just tied up his head and worked on.

Operations Performed. In the operating room Captains Horace Binney and Elliott with their assistants worked all night long. Several delicate operations were performed and their task was made all the harder by the fact that innumerable cases the patients were in serious danger of infection from the pieces of wood and nails and dirt which had been blown into their bodies.

Lieutenant Colonel R. U. Paterson, U. S. A., commanding officer of the unit, and Major Harry Cushing, head of the surgical force, the latter being the first at the time of the disaster, have expressed the highest admiration in the manner in which the emergency was met. Latest reports are that the condition of the wounded is progressing satisfactorily.

ENEMY "SUB" REPORTED OFF AMERICAN COAST

Two Vessels Hear Calls of Ship in Distress as She was Being Shelled

By Associated Press. An Atlantic Port, Sept. 15.—Evidence that an enemy submarine has begun depredations in American waters was brought here today by two steamships which yesterday morning picked up wireless "S. O. S." calls, indicating that a ship was being shelled by a U-boat near Nantuxet light ship.

One ship receiving the distress calls was a British freighter, and the other an American tanker. Both reported the scene of the attack as about sixty miles east of Nantuxet and the time about eight o'clock yesterday morning. The identity of the submarine's victim was not learned by either vessel as far as is publicly known.

According to the commander of the British vessel the messages said the ship was being shelled and reported her position, but only a part of her name could be heard—the word "Abby," the last name of several ships in Atlantic trade.

GOLD IS SEIZED ON SPANISH SHIP BY CUSTOMS MEN

VESSEL IS HELD UP AT TIME OF SAILING FROM A GULF PORT.

DESTINED FOR GERMANY?

Inquiry Believed Taking Into Consideration Rumors Neutral Ships Disgorge to Submarines.

By Associated Press. A Gulf Port, Sept. 15.—Customs officials today boarded a Spanish steamer here shortly before the vessel was scheduled to depart for a European port, and seized \$40,000 in gold stored in a barrel of salt pork that formed a part of the ship's stores.

An investigation concluded by the federal district attorney was followed by the arrest of three members of the ship's crew charged with violating her submarine with neutral ships. Following the investigation, comment was withheld. Full details were wired to Washington tonight by the collector of the port.

While officials were inclined to await further developments before making public details of the investigation, it is understood the money was obtained by the ship's cook from a local bank. The cook presented and cashed a draft for the full amount on a bank in Havana. The individual giving the draft is a Spaniard, it was said. Bank officials here declined to make a statement of the transaction.

SWEEPING INQUIRY INTO DEPARTMENTS IS TO BE SOUGHT

BOTH BRANCHES OF LEGISLATURE WILL BE USED TO ACT ON MONDAY

Special to The Times. Austin, Texas, Sept. 15.—In both branches of the Legislature on Monday resolutions providing for a sweeping investigation of all state departments, and institutions are to be considered. It is learned this afternoon that a strong effort will be made in the House to reduce the number of investigators to the members of the House.

The present resolution provides for a central executive committee of 10 members, and each one of these ten is authorized to name two members as sub-committees, consequently the total number of the committee will be 20.

A substitute for this resolution is to be offered to reduce the entire committee to 7 members on the grounds that this number is sufficient.

House Wants Authority. In the event this substitute fails, then an effort will be made to have the House and not the speaker, name the members of the committees. This is expected to cause a lively debate and also much opposition.

No Details Given. The American tanker's captain confirmed the British skipper's report, but added no details. Silence was imposed on both captains by naval officers.

The British captain said he understood an American radio station also had picked up the distress call. Following the new rule of the sea established since German submarine warfare began, neither vessel was to the assistance of the submarine's victim.

Reports of the sighting of submarines or periscopes in American waters have been frequent, but the fact that in this case wireless messages telling of an attack by shellfire were picked up by two steamships gave today's report the color of truth, in the opinion of shipping men.

Was Told to Watch. Furthermore, the captain of a third incoming vessel reported he had been instructed to watch out for submarines in western Atlantic waters. It was realized, however, that it was possible that the messages were a hoax.

The place where the attack was reported was in the steamship lane of the Atlantic, a lane which runs from New York and in the vicinity of which last October the German submarine U-25 sank five steamships, sparing an American ship, as the United States was not then in the war.

BRITISH STEAMER WARNED OF PRESENCE OF ENEMY. By Associated Press. An Atlantic Port, Sept. 15.—A British steamer arriving today reported that she had received wireless warnings of the presence of a submarine off the station on September 13, the presence of a submarine that had been reported previously by another steamer. The exact location in which the submarine was sighted was not given.

Officers of the steamer were of the opinion that the underwater craft had been lurking in the narrow lane between Halifax, St. Lawrence River ports and Europe. They thought it likely also that the submarine reported today was attacking a steamer off Nantuxet might have been the one sighted previously in northern waters. It was probable, they said, that she had been given off the steamer's course and had waited to the southward in hope of catching unawares vessels from American ports.

MEXICO IS CELEBRATING BIRTH OF INDEPENDENCE. Special to The Times. Laredo, Texas, Sept. 15.—Mexico is celebrating today the anniversary of her independence. The celebration, which began today, will continue through Sunday. Not since the days of Porfirio Diaz has this anniversary been celebrated in such a pretentious fashion. Bull fights, fiestas of various descriptions, band concerts and similar demonstrations are being held in Nuevo Laredo, San Antonio and other cities in northern Mexico.

Time Extension To Be Asked by Dallas Saloons. Special to The Times. Dallas, Texas, Sept. 15.—Members of the Dallas County commissioners court tonight declared themselves in opposition to the movement to postpone the date when prohibition will take effect in Dallas County. Petitions are to be presented to the court Monday asking an extension of time to give the saloon men and wholesalers time beyond October 21 to dispose of their stocks.

There is much interest here in the probable action of the Tarrant County commissioners court Monday, when it will be asked to order a local option election in Tarrant County. There is conjecture here as to whether the Tarrant County court will order an election or not. Tarrant County as a whole has voted on prohibition within the last two years, therefore the whole county can not be included in the district in which it is proposed to hold the election. The pros plan to have the commissioners court order an election in a district not including one commissioner's precinct which is already dry. The question has been raised as to whether it is made mandatory in such an instance for the commissioners to order an election. There are rumors that the Tarrant County commissioners may refuse to order the election.

WORK AT AVIATION CAMP ON SABBATH IS NOT PERMITTED

UNCLE SAM LAYS DOWN LAW WITH REFERENCE TO LABOR FOR PRESENT.

MORE WORKMEN DESIRED

Pay Roll Now Reaches More Than \$7000 a Day and Every Effort Made to Expedite Work.

Sunday work is to be ceased on the aviation camp here and in all cantonments or training camps in process of construction, according to a sign posted at the camp, ordering that there be no more work on the Sabbath until further orders. The order was given by the war department and applies to all government work so far as the building of camps is concerned. Twenty per cent of the work at the aviation camp has been completed in 13 working days. Twenty-two buildings have been finished entirely and many others laid off. There are 1500 men at work with an average pay roll of over \$7000 daily.

More men are wanted, and more, and then more. Plumbers, electricians, tinmiths, painters and good carpenters, with the accent on "good." No hushwhackers need apply. There is work for every good man in every trade. All he has to do is go out to the camp or to the office, 215 First National Bank Bldg., and tell what he can do. After that he has a chance to show what he can do, and if claims do not outrun performance he can stay till the work is finished. There

will be work for every man who wants it for at least two months.

Improvements Are Made.

Much improvement has been accomplished in the sanitary arrangements. Earlier in the week it was found that not enough care was being taken in this respect to insure the safety of the men. Now, however, the latrines are all burnt out with oil every night, and the woodwork washed with cresote compound daily. All possible danger of disease has been reduced to a minimum, and every possible precaution is being taken.

A huge commissary has been installed, and will be open for business on Monday. Meals will be served at cost, as it is not the intention of the authorities to make money out of it, but simply to accommodate the men. The best possible meals will be served at the lowest price. This will not only be a great boon to the men, but a saving of time for the company.

Task Is Great One.

The Gilsontite Construction Co. has had a colossal task before them, and they have gone straight at it without fear or favor, doing the best they could with what they had. They had to convert a square mile of bald prairie into an aviation training camp, and no time must be lost about it. They had the material, more or less, at hand, but no men to do the work. The first, and to some extent, the worst problem they had to solve was the one of labor. The only way to get 2000 men was to offer larger wages than they would otherwise make, and even then the men were not available. In a town whose population is 15,000 or 17,000, there are not 1000 skilled men idle. There are not 200, under ordinary conditions, and when the work on the camp opened there were probably not 50.

Some of Troubles.

Therefore two things had to be done. First, the wages must be offered, in order to release those who were already at work. Second, the company must take anything and everything that offered in the way of a workman. It would have been nothing less than a miracle if in the 1500 men that were gathered in the incredibly short space of two weeks there had not been a proportion of loafers, seeing that the ranks of the workmen were recruited from men who might be described as the "floating population." Many skilled men were found, and some un-

skilled. But this war inevitable. There was no help for it.

Another difficulty was in getting the material to the ground. The Hall Bros. spur was the nearest place to the camp to which supplies could be brought by rail, for more than the first week, notwithstanding the fact that the M. K. and T. Railroad worked night and day to get the trucks and camp site, and did it in as short a time as the most carping critic could have desired. The material, therefore, had to be hauled by teams, and teams were another difficulty. Not enough could be had.

Same Story.

All down the line it is the same story, told by those on the ground. The equipment was at first inadequate for so gigantic a task, and the contractors had no choice but to use what was at hand, and go ahead. As a matter of fact, had everything been on hand to use—plenty of labor, plenty of foremen, the track right on the site, water laid on, and so forth—even under these conditions, a reasonable person would have hardly expected to see more than has already been accomplished.

Survivors of Vessel Tell of Disaster at Point Near Bombay

Sydney, Australia, Sept. 15.—Survivors of the sinking of the *Frisland*, a German mine off Bombay on June 23 have arrived here with further details of the disaster, which cost the lives of about twenty white persons and Lascars. The survivors' stories indicate that the mine was once placed by the German raider *Wolff* in the waters of the Indian Ocean, in water so shallow that the lips of the mine remained unshaken.

Abstractions on the vessel included Brigadier General Sir Robert MacArthur and Lady Anderson of Sydney, Major Norman Robertson and Mrs. Robertson of Sydney and Justice Gough of Western Australia. General Anderson had been on military duty in England and Major Robertson in Egypt. They agreed that had the *Frisland* struck the mine at night instead of mid-day the loss of life would have been heavier.

Wireless Shattered.

"The wireless apparatus was shattered by the explosion and we were unable to send any messages," said the wireless operator. "The mine coats had everything aboard—oils and water—demanded by the board of Trade regulations. If we had been unlucky enough to be seen out for somebody there would have been a greater number of deaths."

There were two deaths in my boat. One of these was from burns. Lifeboats should be equipped with a hop-pital chest and first-aid outfit. I think a proportion should be fitted with engines. With ordinary lifeboats it is not always possible to reach a man in time. We had one poor chap taken by a shark."

No Life Boats.

"When we took our places where our lifeboat should have been," said Mrs. Robertson, "there was none. It had not been launched because its crew had been killed in the engine-room. Some passengers and others tried to launch it but were driven off by escaping steam, which was worse than the explosion. The captain called to us to get into another boat. As three of the men were getting into this boat their fingers were caught in a block and taken off. In entering the boat someone knocked out the rudder and sail, so there was nothing for us to do but drift about. Then a month soon sprang up and there were 51 of us in a boat intended to hold 46. After having drifted ten hours we managed to attract the attention of a coalie boat by hoisting a woman's white undershirt flagwise on an oar."

Crowded Into Boat.

Justice Gough said that the whites, including several women, and the Lascars were crowded into the boat in which he and Mrs. Robertson were. He added: "We had a number of badly wounded men with us and no medicine chest. There were no white officers in our boat, so white sailors and no one to direct us or tell us what to do. It was luck more than anything else that we were not all drowned." In the boat, as in others, wounds were bandaged with pieces of machine underwear.

"The Mongolia's Lascar crew were criticized by the passengers. They rushed the boats," said Mrs. Robertson, "and their next act was to rush 'he biscuits. They would not row, put up sails or do anything else."

Car Orders Exceed Supplies of Empties.

Railways Announce

Reports just made by all the railroads of the country to the American Railway Association show that on September 1 the excess of unfilled orders for cars in some parts of the country over surpluses of cars in other places was 31,591, a reduction of 14 per cent as compared with the previous month, according to a statement by the American Railway Association, just issued.

In the latter part of April when the railroads war board was organized to cooperate with the government in all matters of the railroads affecting the conduct of the war, there was an excess of unfilled car requisitions over surpluses amounting to 145,527 cars. As it was impossible to create cars over night—not to mention locomotives, terminal facilities, tracks and other facilities, just as badly needed—the war board directed its first efforts to securing greater use of the facilities which existed, mainly freight cars. The object was to more nearly take care of all the orders of the government and shippers as well.

Railroads were instructed to do things within their own province which would increase the efficiency of equipment and at the same time to secure the co-operation of shippers, consignees and commercial bodies. The success of the combined efforts of state and federal regulatory bodies, shippers, commercial organizations, the railroads and seasonable weather may be seen from the fact that while the railroads have with practically no increase in facilities, handled the greatest amount of freight in their history in the past four months, the excess of unfilled car orders has been cut down from 145,527 on May 1, 1916, to 31,591 on Sept. 1, 1917, thus achieving an improvement in four months of 78 per cent.

GREAT INCREASE IN CAR DEMAND, SAYS WAR BOARD

THOUSANDS OF EMPTIES ORDERED FOR FIRMS IN SOUTH AND WEST.

REPORT JUST COMPILED

Most of Cars Moved into This Section Owned by Lines Operating Through East and North.

Washington, Sept. 15.—Fairfax Harrison, chairman of the railroads war board, authorizes the following: "Some conception of the efforts which the railroads of this country

are making to handle the tremendous increase of freight traffic which the war has produced may be gleaned from a report just compiled by the commission on our service.

The report shows that during the four months period between May 1st and August 31st, this year, 115,152 empty freight cars were ordered to the South and Southwest to protect the movement of grain and other food products and assure the prompt delivery of the millions of feet of lumber needed by the government for the can-tonments and shipyards. Several thousand of these cars were also used to facilitate the movement of phosphate rock and other materials needed in the manufacture of munitions. The cotton carrying railroads also received large consignments of "empties" to enable them to meet the beginning of the cotton and cotton seed movement.

Many Owned By Roads.

Most of the cars moved into the South and Southwest are owned by the operating or other sections of the country. They were moved, however, regardless of ownership into the districts where they were most needed. The prompt compliance of the roads owning them with the orders of the commission on car service averted what might easily have been one of the worst freight congestions in the history of the country, as the lines in

the South and Southwest have been called upon to transport an unexampled volume of freight since the United States entered the war.

The movement of lumber for commercial purposes has been universal-ly heavy, and added to that the government demanded for the 64,000 car-loads of timber needed in the con-struction of the training camps for the New National Army and the thou-sands of other railroads that are being rushed from the southern forests to the shipyards on the Atlantic coast.

Freights Heavy.

Coincident with the lumber move-ment, grain, melons, vegetables and other food products have created a demand for cars that would have been impossible to meet if the rail-roads of the country had not volun-tarily agreed to merge their com-petitors activities and operate as one system during the period of the war. This agreement made possible the shifting of empty cars into districts that would have been virtually buried under the abnormal amount of freight accumulated in them if the local lines had not received help from their com-petitors.

At the present time hundreds of empty cars are still being rushed into the South to assure the prompt move-ment of all government orders for lumber, hundreds of other "empties" are being rushed into the central states to

protect the grain crop, the transpor-tation of which is now being compli-cated by the fact that during the next six weeks, when the grain movement will be at its height, the railroads will be obliged to run a large number of special passenger trains to carry the 637,000 citizen soldiers to the canton-ments.

Cattle Being Moved.

Long trains of stock cars are also moving into Western Texas so that the thousands of heads of cattle that are threatened by the drought there may be moved into more fertile pas-turage.

The railroads operating in Maine will soon receive an extra consignment of empty cars to enable them to han-dle the potato crop.

No Criminal Cases Are Set for Trial During Next Week

There are no criminal cases set for trial in the Seventh-Eighth District Court this week. On Monday, Septem-ber 24th, the trial of Ed Isaacs, negro for the killing of John Mount, a white man, is set. A special venire has been ordered. On Thursday, Septem-ber 27, the Wakley rape case is set for trial. A special venire has also been ordered for this case.

WICHITA COUNTY TO ASK FEDERAL AID FOR ROADS

FORMAL APPLICATION WILL BE FILED WITH GOVERNMENT MONDAY.

ENGINEERS TO BE HERE

Will Arrive From Both Austin and Washington and Be Shown Every Attention by Wichitans.

Wichita County will make its formal application for state and federal aid in road building on Monday morning.

every courtesy during their visit, which will be of only one day's duration, as they have to cover a very large territory by the end of the month.

The following letter was sent to the Chamber of Commerce by the state highway commission:

"Dear Sirs: It is our desire to secure your application for state and federal aid at the earliest possible date, and in order to assist you in this matter and save time and a great deal of unnecessary correspondence, we are sending an engineer from this office, who will be accompanied by an engineer from the United States office of public roads, to make necessary estimate of cost and to secure the data requisite for the filing of your application for state and federal aid."

September 17, Judge Harvey Harris, B. F. Johnson; Clay County, Henrietta, September 18, Judge E. W. Coleman, W. H. Chilton; Montague County, Montague, September 19, Judge H. B. Latham, secretary Meridian Association; Wise County, Decatur, September 20, Judge J. W. Walker; Tarrant County, Fort Worth, September 21, Judge J. M. Brown; Johnson County, Cleburne, September 22, Judge B. J. Jackson, John Polindexter; Bosque County, Meridian, September 24, Judge W. A. York; Robert Summers; McLennan County, Waco, September 25, Judge J. P. Alexander, R. W. Lindrow; Falls County, Marlin, September 26, Judge F. S. Heffner, C. B. Monday; Bell County, Belton, September 27, Judge M. B. Blair, F. A. James; Williamson County, Taylor, September 28, Judge Richard Critz, Fred C. Fisher.

NEW COURT HOUSE TO BE COMPLETE IN TWO WEEKS

The new courthouse will be ready for occupancy in about two weeks. Stanley Light of Madonia & Piel is here, supervising the completion of the final details.

CORN DECLINES; WEATHER REPORTS NOT FAVORABLE

Subscription Rates: By the year (mail or carrier) \$5.00

Wichita Falls, Texas, Sept. 16, 1917.

NOTICE TO SUBSCRIBERS

Carrier boys are not allowed to collect for subscription to the Times, except in the city district and on north side of river.

The prices of wheat and flour are being regulated by the federal government, and as a result flour is selling at a lower price.

Announcements have now been made of the arrival of infantry, artillery, and aerodromes of the American army in France.

Austin dispatches say that President Wilson will recommend to the regents of the University of Texas that a strong publicity and advertising campaign be inaugurated immediately.

SENATOR JOHNSON A FAIR JUROR

A petition to the Texas State Senate has been circulated in Hall county declaring that Senator W. A. Johnson is prejudiced against Governor Ferguson and is not competent to sit as a juror in the latter's impeachment trial.

Since the beginning of the present proceedings, and long prior thereto, Senator Johnson has repeatedly and almost continuously demonstrated the defendant, publicly through his paper, and privately to individuals, with scarcely less publicity, expressing conviction that the defendant was utterly unworthy and that he should be thrown out of office, and ANNOYING HIS INTENTION TO VOTE FOR HIS CONVICTION should the House indict.

That we have every confidence and faith in the said Honorable W. A. Johnson, our state senator, and that

It is our sincere belief that despite his personal feelings toward Governor James E. Ferguson, he will abide by the evidence presented before you honorable body, and as one of the court before which the governor is being tried, will render a fair and impartial judgment according to the evidence.

LET US NOT TOLERATE SEDITION

When we read about the plight of the Russian armies, how the soldiers refuse to fight fire on their officers, fraternize with the enemy and do everything within their power to add to the demoralization, we can have a picture of what will happen if the Socialist and I. W. W. elements in this country gain the ascendancy in this crisis.

Had the postmaster General long permitted the use of the great postal system which he controls for the dissemination of such poison, it would have been to forego the opportunity to serve his country.

ONE GERMAN'S VIEW.

I have seen several articles about Germans trying to raise strife in this country. I am a German by birth and I am an American at heart and I will tell you why I left Germany.

OIL SAND IS ENCOUNTERED IN WELLS NEAR BURKBURNETT

Oil sand was encountered at a depth of about 1350 feet in a well near Burk Burnett, Wednesday of this week.

A SON.

(From The Presbyterian.) Edward Markham, the poet under the unpatric title, "I Did Not Raise My Boy to Be a Soldier," wrote this stanza:

"O, mothers, will you longer give your sons To feed the awful hunger of the guns? What is the worth of all these battle drums?"

Dr. James D. Hughes, for over thirty years superintendent of education of the schools of Toronto, Canada, answered this poem.

God gave my son in trust to me; Christ died for him, and he should be a man for Christ. He is his own.

M. More the sheet... Says... Fair... serious... (The rest of the text in this column is mostly illegible due to image quality and bleed-through from the reverse side of the page.)

MARY AND HER LITTLE LAMB IN PARADE
TELL OF WOOL INDUSTRY'S IMPORTANCE

"MORE WOOL" THE SLOGAN OF CHICAGO'S SHEEP PARADE

promptly, and with the co-operation of the military authorities, the wool situation can be presented dramatically to the public by means of the parade. It cannot be done too promptly, and all cities are asked to organize councils and get in touch with the bureau.

Banners carried in the parade read as follows:
NO SUBSTITUTES FOR WOOL
WE NEED MORE WOOL
ASK YOUR DEALER FOR BROOKLET WHY CLOTHES COST MORE

FOOD AND WOOL FOR WORKERS WILL WIN THE WAR
RED CROSS WORK NEEDS MORE WOOL

HOMEMAKERS GUILD ADVOCATE SHEEP RAISING FOR WOMEN
SHEEP FOR PETS—DISPLACE YOUR DOGS

Your Country Needs the Wool ATTE... GREAT LAKES WOOL CONVENTION
Stock yards, Sept. 11 and 12

WINTER WOOL FOR WAR WORKERS ATTEND GREAT LAKES WOOL CONVENTION
Sept. 11 and 12 at Stock Yards

ANOTHER LAMB FOR MARY NOT A DOG Your Country Needs the Wool ATTEND GREAT LAKES WOOL CONVENTION
Sept. 11 and 12 at Stock Yards

"More wool" was the keynote of following the sheep parade in Chicago, conducted by the men who say and believe that "Wool Will Win the War." The parade was led by mounted police and was followed by soldiers, sailors from the Great Lakes naval training station, ambulance corps, Red Cross units and floats depicting the importance of the woolen industry. The flock of sheep was driven by Miss Hazel Ken drick (shown in the lower picture), Miss Ruth Mara, Miss Ebba Nielson and Miss Kathryn Kolowrat, all of Chicago.

MANY INTERESTING CURIOS SEEN AT WILBARGER FAIR

Says the Vernon Record: "A visitor at the Wilbarger County Fair who fails to see the display of curios gotten together by Mrs. Berna Ross will perhaps never have another opportunity of viewing so varied and ancient display." was the way a Fair official expressed it today.

A collection of pictures of early Vernon shows a field meet held in 1888. Osborn won over Empire, Wood, and McCormick—not individuals, but communities which most of us have forgotten. There is a threshing scene of the days when wheat was about the only thing grown in Wilbarger county, and evidently thousands of acres were planted to wheat. Another picture shows a bridge across the Pease river, which was washed away in 1890; the first reunion of the Blues and Grays held 22 years ago; and a picture of Vernon's Trade Carnival in 1891 showing "a few of Vernon's pretty girls."

The pictures were loaned by Amos McConnell.

There is a picture of the first house built in Wilbarger county, built by F. Doan, 40 years ago, and a buffalo robe made from an animal killed by Mr. Doan at the foot of the plains in 1879. The railroad came 33 far north west as Sherman, and supplies were hauled overland nearly 200 miles. Mr. Doan was the first postmaster in Wilbarger, and the town was named for him, forty years ago. Mrs. Ross is a daughter of this pioneer.

R. L. Thornton has a set of calendars for every year since 1817, and a pair of glasses made by hand and brought over from Europe by the Wilbards to South Carolina a century and a half ago. Mrs. Cartwright, from near Fargo, is showing some of the most made 200 years ago, a home made coverlid which has been in use 85 years, and a shovel which came over from "Erie" 150 years ago.

There is a block of peat, or "Irish Coal" belonging to Mrs. Robert Boyles, which was brought from Ireland. Mrs. Boyles also has a gun which was made 100 years ago, and a pair of tongs that were used in the land of the Shamrock in 1777.

At Geneva Stradavarius. Music lovers will linger over the old violin made 60 years before Gen. Washington took charge of the ragged regimentals in our revolutionary times. The violin is a genuine Stradavarius, and is the property of Alton Mathus.

An old cane belonged to W. A. Atchison was made from lumber from the home of Henry Clay's father. It is 150 years old.

An old fashioned pickel, the property of Dr. A. P. Hosmer, was purchased ten years before the beginning of the Civil War and is loaded with cartridges placed in the magazine in 1863.

Mrs. E. E. Keltz has a collection of family silver, dating back four before most of us were born. Perhaps just as interesting is a "Mantle of truth" loaned by Mrs. Alex Ross. "The Post Hosmer" built the first Methodist Church erected in Vernon. Mrs. Ross has a sampler which was made in 1921, and a gun which belonged to Alex Ross, that is 100 years old.

There is a silk quilt bed made during the Civil War. A quilt old heavy coverlet, made in Germany 150 years ago, and a magnificent glass from France are features of an exhibit loaned by Mrs. A. Baird.

Jefferson Davis Band. Mrs. J. F. ... has two coverlets, 85 years old, a pair of slippers made by the "Irish woman" who lived in ... and a shovel with some ... history, dating back 200 years.

A coveredid made in 1808, and another which has been in use 3 years less than a century, are the property of Mrs. J. A. Fickett. Mrs. Fickett also has a plate and cup which have been in use since 1836 and 1847, respectively.

There is a collection of trinkets made by Navajo Indians, some Indian arrow heads, and an Indian hammer in Mrs. W. D. McElroy's collection. Miss Opal Lewis has a hand bag more than 100 years old. And Mrs. Mattie K. Sherman has a coverlid which was made in Cherokee county, Georgia, in 1862.

Perhaps no more interesting bit of history is connected with any article in the exhibit than that which attaches to a quilt belonging to Mrs. E. L. Robinson. It was made 42 years ago by Mrs. Robinson's mother in law. The elder Mrs. Robinson picked cotton for money to buy the goods used in this quilt, more than that she picked the cotton from the seed, carded the lint, spun the thread, and knit it into socks before going to market with her product. Mrs. Robinson is the mother of G. L. Robinson, who is employed in the postoffice at Vernon.

Government Prescribes a Uniform For Red Cross Ambulance Drivers

YOUNG RED CROSS AMBULANCE DRIVERS IN THEIR NEW UNIFORMS

This photograph shows the new uniform by the government at Washington for Red Cross work just issued. These young women are ambulance drivers at the medical camp at Allentown, Pa. Left to right they are: Private Mary Devereux, Major Conley Hewitt and Private Ruth Stiles. They find their new uniforms well adapted to the work and are glad to wear them as Red Cross ambulance drivers.

SCHOOLS OF CITY SHOW ENROLLMENT OF 2,257 PUPILS

TWO MORE MEMBERS OF FACULTY HAND IN THEIR RESIGNATIONS.

Wichita Falls schools on Friday, the close of the first week of the new session, had total enrollment of 2,257 students, including negroes from the Washington School. This total is probably a few less than at the same time last year, though comparative figures could not be obtained Saturday. This can be attributed in large measure to the exodus of families from some parts of the city to the cotton fields, where the high wages paid on account of the scarcity of labor are proving an attraction to young and old alike. The board has chosen to operate the compulsory education law the last six months of school, commencing after Christmas, and when this law is put into effect it will probably result in an increase in attendance in some of the wards.

The enrollment by schools follows: Alamo School, 351; Sam Houston, 84; Travis, 155; Sarah Jacinto, 273; Austin, 885; High School, 429; Washington (negro), 85.

Two more teachers have resigned, leaving on Saturday, W. S. Millington, a teacher in the seventh grade at the Austin School, and the board has chosen to operate the compulsory education law the last six months of school, commencing after Christmas, and when this law is put into effect it will probably result in an increase in attendance in some of the wards.

drivers at the medical camp at Allentown, Pa. Left to right they are: Private Mary Devereux, Major Conley Hewitt and Private Ruth Stiles. They find their new uniforms well adapted to the work and are glad to wear them as Red Cross ambulance drivers.

War Department May Relax Its Vigilance As to Prostitutes

Waco, Sept. 15.—Reports that the federal authorities were about to relax their vigilance in enforcing the war department orders concerning the prostitution in the vicinity of army cantonments were not borne out here today when federal charges were filed against a couple who had been fined \$200 in the city court on a plea of guilty to a vagrancy charge. The couple was charged with keeping a disorderly house within five miles of an army camp. They were released under \$500 bond each.

Much Food in Small Bulk.

The British "Tommy," when fresh bread is not available, is supplied with what he calls "dog biscuit." It looks like just that, being a thick cracker four inches square and weighing three ounces. Of whole wheat flour pressed solid, it might be described as a condensed loaf of bread.

The French have a "war bread" somewhat similar, which, when put into hot water or soup, swells up like a sponge.

The famous German "pea sausage" is composed of pea meal, bacon and fat. It was the invention of a Berlin cook, who discovered a process whereby pea meal could be made proof against deterioration. One sausage, eight inches long, yields twelve plates of nutritious soup.

Why He Came Home.

Rescoe Boone, a Muncie electrical contractor, went home late the other afternoon to find Mrs. Boone entertaining a company of women at cards. He had forgotten about the party and besides it was the usual period of the day for him to remember about the evening meal.

"Oh, Mr. Boone," said one of the guests as he stumbled upon the room filled with women, "did you come home to supper?"

"Oh, no; not at all," he replied gallantly, even if somewhat confusedly. "I just came home to see what time it was."—Indianapolis News.

Unerring Instinct.

"The sense of direction in migratory birds is as marvelous as it is mysterious," didactically stated Professor Pate. "Last year's inhabitants of your dooryard martin boxes return this spring to these same domiciles, though meanwhile they have visited Brazil. This instinct is almost as amazing as that of the friend of your boyhood who, when he is broke, will travel many miles and unerringly follow your ramifications while you are doing your best to dodge him, and eventually overtake you and fall on your neck."—Kansas City Star.

Donkey Meat Fine, Moravians Learn.

According to a newspaper account, the governor of Moravia, in Austria-Hungary, has given instructions that the population of the province should eat donkey meat as much as possible in order to save the inadequate supply of other meats.

The flesh of the donkey tastes like that of the finest game, it is said, and experiments have proved completely satisfactory. Donkey meat has few peers as a table delicacy, the newspaper article declares.

Changed Her Mind.

Mrs. Gabby—Mrs. Finicky is a very discriminating woman, I understand. Mrs. Gabby—I was similarly deceived until I saw her husband.

CROWDS OF I. W. W. MEMBERS CARRIED FROM BISBEE, ARIZ.

Bisbee, Ariz., Sept. 15.—Trains leaving here tonight for the west carried crowds of alleged I. W. W. members and sympathizers who had been given until 9 o'clock to leave Bisbee or be tried on vagrancy charges. Two men were permitted to remain until Monday to get money out of the bank and all were allowed to obtain their personal effects. As a result of the departure tonight it is believed the situation created by the return here of men deported last July has been cleared of all possibility of trouble.

Wheat and Rye Will Have Preference In Movement Food Stuffs

St. Louis, Sept. 15.—As a result of a conference here today of members of the St. Louis Car commission of the railroad war board and Edward M. Fleisch, agent for the federal food administration, shipments of wheat and rye in the nine states under the St. Louis office of the food control will have preferential treatment by the railroads. Wheat and flour shipments will be kept moving even though this involves a car shortage as to other classes of freight.

GOVERNMENT DISBURSEMENTS SET RECORD AT SAN ANTONIO

San Antonio, Texas, Sept. 15.—Government disbursements from August 29 to September 13 through the San Antonio National Bank, government depository, have set a record of over \$15,000,000.

The figures, giving some idea of the vast amount of government business now being carried on through San Antonio and the Southern Department have been compiled by the president of the bank.

SCHOOL FOR NON-FLYING OFFICERS OPENS TODAY

San Antonio, Texas, Sept. 15.—The school for non-flying officers of the aviation section will open tomorrow morning at Kelly Field No. 2 which is to be turned over to the aviation section at that time by contractors who have been constructing its hangars, headquarters, machine shops and barracks. The school will open with 50 men enrolled. A new school of 50 will open each week and over 400 will be taken through the course.

SYMPATHETIC STRIKE ENDS AMONG SPRINGFIELD UNIONS

Springfield, Ill., Sept. 15.—The sympathetic strike which halted 8,000 men from their duties here during the week is over. Coal miners, watchmakers and many other workers will return to their tasks on Monday. Barbers, butchers and grocers resumed today.

The settlement was reached at a meeting of business men and strikers with Governor Lowden this afternoon. It was agreed that the union men may hold a peaceful parade tomorrow and that Sheriff Wheeler shall dismiss the special deputies employed since the strike of street carmen began two months ago. The latter strike is not affected by the settlement.

America and France Unite In Celebration of Lafayette Day

CELEBRATING LAFAYETTE DAY

Philadelphia, New York and other American cities celebrated the one hundred and sixtieth anniversary of the birth of Lafayette. The date coincided with the third anniversary of the great battle of the Marne, which checked the German advance on Paris. The memory of the chivalrous Frenchman who aided in the establishment of American independence was lauded, and wreaths were placed at the foot of his monuments, as shown in the picture. In New York one of the principal speakers on Lafayette day was Andre Tardieu, high commissioner of the French republic in the United States. Philadelphia's celebration was very elaborate, comprising patriotic exercises at Independence Hall and at the Betsy Ross house. Over the former the new Washington-Lafayette flag was raised. At the same time a similar flag was raised over the city hall of Paris, France.

Chiropractic

(Pronounced Ki-ro-prak-tik)

The New Way to Health

CHIROPRACTIC is the Science of locating the cause of disease and the art of removing it by adjusting the spine, which relieves pressure on the nerves, and allows nature's life spark, or nerve energy to flow freely to and from the brain. The task of solving the problem of health and disease is now mastered by the Chiropractor.

YOUR SPINE IS AN INDEX TO YOUR HEALTH

The backbone of man has been rightly termed the staff of life. It is the main shaft of the human body and when in perfect alignment there is HEALTH. When one or more of the vertebrae are displaced (subluxated) the result is DISEASE. The spine is made up of 33 bones called vertebrae, 24 of which are normally freely movable. As the foundation of the entire skeletal frame the spine is subject to every jar or strain, and any violent contraction of the muscles is immediately concentrated upon the spine and may by wrenching some of the ligaments which bind the vertebrae together, displace one or more of these bones slightly out of normal position. The brain is the dynamo of the human body where all nerve force (mental impulse) is generated. Leading down from the base of the brain is the spinal cord (like the trunk of a tree), which passes through the spine, branching from the spinal cord (like branches from a tree), are 31 pairs of nerves (cables) which contain thousands of separate nerves which radiate to every part of the body (like the twigs of a tree into the air). These branches pass between the movable vertebrae and are subject to pressure from the vertebrae if a displacement or subluxation exists. When unhindered, the nerves transmit 100 per cent of energy, and ease (Health) is the bodily condition. When pressed upon and the flow of energy is lessened, disease is the condition wherever these impinged nerves lead to. A light impingement may cause an abnormal increase of function, while a heavy pressure inhibits its action and paralysis of the part, partial or complete, ensues. There is close relationship of the various members of the body and secondary effects are often far reaching. For instance, if the kidneys are affected and can not carry off the poisons of the body this experimental matter remains and permeates every other structure of the body.

The Name of Your Disease Not Important

People are constantly coming to us and asking: "Do you treat rheumatism, neuralgia, heart disease, bronchitis, measles, diphtheria, dyspepsia, constipation, Bright's disease, impotency, barrenness, female disease?" etc. Our answer to these questions is that we do not treat any disease, but we remove the cause of all disease and abnormal functions. We are aware that it is repeating somewhat at this place to say that the cause (no matter what its name) is occlusion of stimulus in nerves, extending to the organ affected, and that we adjust the displacement, removing the occlusion, the organ affected will resume its normal condition; in other words, it will be well.

The Most Exalted of all Mechanical Sciences

Chiropractic is the most exalted of all mechanical sciences, since "The greatest study of mankind is man," and let it be understood once for all that it is purely a mechanical science; its entire purpose and object is accomplished when the displaced elements are put in place, the occlusions removed from nerves, and the stimulus has had time to restore normal power to muscles, ligaments and other tissues to maintain normal position. Incidentally, when this condition has been attained, no sickness, disease or pain can exist.

You Owe it to Yourself to Investigate

CHIROPRACTIC should be thoroughly investigated by those who are sick, or by those whose dear ones are suffering from disease. Chiropractic courts investigation. A science which is based upon logical principles delights in being investigated; while a pseudo evades analysis. Do not insult your intelligence by ridiculing the great science with which you are unfamiliar nor will you be a stumbling block to those who want to come in touch with this science. CHIROPRACTIC INVITES SUFFERING PEOPLE TO COME and to get well.

OPINIONS OF MEDICAL DOCTORS

Through ignorance, Wichita County officials are fighting chiropractic for what they term "practicing medicine without a license." Now the one thing we do not practice is medicine. Ours is a purely mechanical adjustment of the spine, performed with the hands alone, and is urged as a healing agent to do away with the use or practice of medicine. It is now endorsed by many of the most learned physicians of the world, who have come to realize the fallacy of drugs in the restoration of health. It is also employed in the U. S. army, as an adjunct to the surgeon and physician, and every big league baseball team employs a chiropractor to make adjustments of players who become injured in their work.

GROSS SALES TAX CAUSE OF CLASH AMONG CONFEREES

CONFERENCE AS TO METHOD OF RAISING AMOUNT IS FINALLY REACHED.

By Associated Press. Washington, Sept. 15.—Conferees on the war tax bill clashed today over Senate eliminations from the measure of the manufacturers gross sales taxes and others totalling \$70,000,000 and a compromise by which half this amount will be raised from these sources finally was agreed upon.

The compromise agreement is understood to have restored a tax of somewhat less than the amount of musical instruments and jewelry and revision of the automobile tax sections, with increases of two per cent on the gross receipts of patent medicines, cosmetics, perfumery and other toilet articles is probable.

Approximately two thirds of the bill had been disposed of when adjournment was taken tonight and it was expected that a report would be ready next Thursday for presentation to both houses.

Unexpected objection to the tobacco tax section which promises to delay final agreement suddenly appeared today. Mr. Kitchin is understood to oppose the proposed Senate increase in the tobacco tax from \$25,000,000 to \$30,000,000.

MRS. ASH ENTERTAINS FRIDAY NIGHT

Mrs. E. M. Ash entertained the L. A. to B. R. T. at her home, 1600 1/2 Burnett street, Friday evening in honor of Mrs. Mary Milton, fifth grand vice president of the lodge. Games of Forty-Two and Five Hundred were indulged in and vocal selections by the hostess and her little daughter, Nathlene, were much enjoyed.

LOCAL BANKERS TO ATTEND ATLANTIC CITY CONVENTION

C. E. McCutcheon, assistant cashier of the First National Bank, and W. L. Robertson, assistant cashier of the City National Bank, both of this city, together with their wives, will leave Tuesday for Atlantic City, N. J., to attend the American Bankers' Association. After adjournment of the association they will go to New York for a few weeks. Mr. and Mrs. C. J. McDowell will accompany them to Atlantic City, but will visit their old home in Pittsburg after the association meeting is over.

CONSTRUCTION OF REFINERY CONTINUES TO BE DELAYED

While construction work on the big 2,000-barrel oil refinery to be built near Burk Burnett was being delayed on account of a delay in the building of a switch from the main line of the Katy road, other arrangements are going right along according to Superintendent Rathbone, who left Thursday for Wichita, Kan., where much of the machinery will be shipped from. The delay in building the switch on the part of the railroad is said to be caused by the building of the spur at the aviation camp at Wichita Falls. As soon as that is completed the switch at this place is to be put in.

Pro-German Editors Are Indicted Upon Charge of Treason

By Associated Press. Philadelphia, Sept. 15.—Louis Warriner, editor in chief and Dr. Martin Darrow, managing editor of the Philadelphia Esquire, were indicted on nine counts charging treason by the federal grand jury here today. Separate indictments on two counts charging conspiracy and violation of the espionage act were returned against Werner, Darrow, Peter Schaffer, Thurman Lemke, business manager and Paul Vogel, treasurer.

ALIEN WAS ARRESTED AS HE APPROACHED ARCHER

Beaumont, Sept. 15.—The first arrest of an alien charged with approaching an army where government work is in progress occurred here today, when Joe Haslip, alias Charles Pettine, was taken into custody by federal authorities. It is alleged he secured work on a ship yard here under an assumed name. After being arrested he admitted his German birth. It is not probable that he will be sent to a detention camp in the East.

HALF OF NEGROES OF HOUSTON RIOTS ALREADY EXAMINED

By Associated Press. El Paso, Texas, Sept. 15.—One-half of the 164 negro soldiers of the Twenty-Fourth Infantry held at Fort Bliss stockade in connection with the disorders and rioting at Houston, Texas, August 19 had been examined when the special board of inquiry adjourned over the week end and late today. Captain Homer Preston, chairman of the board said another ten days would be required to complete the testimony.

The board of inquiry is preliminary to court martial proceedings and its report will determine the nature of the charges to be preferred against the negroes and the number of them who will be held for trial.

Highway Department May Be Reorganized; Rohman Resigns

Special to The Times. Austin, Texas, Sept. 15.—A general reorganization of the State Highway Department is being considered, in fact, the resignation this afternoon of W. W. Rohman, auditor and W. F. Woodman, assistant bookkeeper, and the dismissal of 12 other employees of the department. Because of this report of a reorganization, it is said to have been the cause of the resignations of Messrs. Rohman and Woodman. On August 1, Chairman Hancock said the force was reduced by 17; on last Saturday the department still further reduced the force by eight, and today a further reduction by 14 was made, including the auditor and assistant bookkeeper.

Drinks at Fountains Keep Pace With Other Ascensions of Price

Standing treat now at the soda fountain is going to cost about double for practically everything, but plain "coke" and there's no assurance of what the morrow will bring forth. It wouldn't be surprising in view of the price cards posted yesterday at local soda fountains to see the old reliable "shot in the arm" take a flier with the rest of the drinks. Milk chocolates are now out of the jitney class, grape nuts have gone to a dime as have root beers with cream. Some time ago egg malted milks went to 20 cents and the plain malted to 15. Milkshakes are 10 cents; in fact, there is precious little left on the nickel list and the prices as quoted are apparently "subject to change without further notice." One glass and two straws, may have to become a popular order.

NORTH CAROLINA FLOODS CAUSE OF THREE DEATHS

By Associated Press. Raleigh, N. C., Sept. 15.—Five deaths and property damage estimated at many thousands of dollars were known to result tonight from the floods in Eastern North Carolina caused by last night's torrential rainfall. Railroad bridges in many sections around Wilmington and Goldsboro have been washed away. Dams broken at several points carrying away buildings.

Texas Camp Funston Will Get New Name To Avoid Confusion

By Associated Press. San Antonio, Texas, Sept. 15.—A request was received today at South Department headquarters from the war department that a new designation be made for Camp Funston, at Leon Springs. This is asked because of confusion arising from the fact that there is another Camp Funston in Kansas. Kansas being the native state of the late General Funston, it had been decided to permit the camp of that name there to retain its present designation. Colonel Ralph Harrison, department adjutant today asked for suggestion of names of Texas heroes who have not already been honored by the name of a camp or cantonment.

Hundred-Mile Race Is Taken By Milton At Providence, R. I.

By Associated Press. Providence, R. I., Sept. 15.—Thomas Milton today won the 100-mile auto mottle race at Narragansett Park Speedway in one hour and 24 minutes 42 seconds, and the 50-mile in 19 minutes and 46 seconds. He also got third in the five-mile race. In the 100-mile race a scant 20 yards behind Milton when the latter crossed the tape Hearn was third. Vail and Chevrolet followed Milton across, at the final of the 25-mile and Buick, Chevrolet and Milton was the order of the final in the five-mile.

Soldiers Are Ordered By Premier Kerensky To Cease All Disputes

By Associated Press. Petrograd, Sept. 15.—Premier Kerensky today ordered the day to the army and fleet after stating that General Korniloff's revolt disorganized the operations of the army and the soldiers to cease all political disputes in the army, which must do everything in its power to restore its fighting force. The premier instructed the soldiers to stop arresting their commanders, the order of the day concludes with the assurance that the army, which showed its complete confidence in the government in the recent troubles, will realize that the country can be saved only by the "reestablishment" of all elements.

GOOD RAINS FALL IN SAN ANGELO SECTION

San Angelo, Sept. 15.—Rains which have fallen throughout the Concho country in the past week have greatly encouraged the people of this section. Plans for the San Angelo fall fair and race meet have been revived. A fund of \$1500 has been raised for the purpose for the race meet.

Rapid Fire Guns Play Big Part In Italians' Attack on the Austrians

ITALIANS USING RAPID FIRE GUN AGAINST AUSTRIANS.

All of the American accounts of the fighting on the Austro-Italian border tell of the work of the Italian artillery. While the heavy work is done, or course by the huge guns transported with some difficulty up the mountain-

Woman Balloonist Is Killed By Fall From Descending Parachute

By Associated Press. Pasha Valley, Okla., Sept. 15.—While making a parachute drop following a balloon ascension here late this evening, Madame Labelle, 24 years old, lost her grip on the hanging trapeze, fell more than 100 feet to the ground and was crushed to death. Madame Labelle was with a carnival company. No members of the company seemed to know her full name nor address. She will probably be buried here.

STATE ATTACKS REPUTATION OF WITNESSES FOR HENSON

By Associated Press. Wichita, Kan., Sept. 15.—Several hours of rebuttal work remained in prospect when the trial of W. A. Henson, retired captain for the murder of his wife recessed late today until Monday. This state was waiting for physicians to testify as to whether the shotgun wound caused Mrs. Henson's death could have caused a stellar fracture of the skull. The state today attacked the reputation for truth and veracity of several defense witnesses. At the Henson home, where Mrs. Henson and her son Walter, slayer with whose murder Mrs. Henson is charged, were killed, the jury today was allowed to view the house from the outside. The jurors were not permitted to enter because it was said that the interior had been changed since the killings.

MAN PLACED UNDER ARREST UPON CHARGE OF DESERTION

By Associated Press. Fort Smith, Ark., Sept. 15.—August Schlemmer, aged 19, arrested here this afternoon by city police on a charge of being a deserter from the United States army, admitted tonight he left Fort Logan H. Roots, Sept. 5th, without permission and has been "traveling around" since.

FEW TAKE ADVANTAGE OF CITY'S MILK SALE

By Associated Press. Kansas City, Mo., Sept. 15.—Less than one hundred persons took advantage of the city's milk sale today despite the shortage of milk that has existed here the last three days because of the refusal of the seven large distributors to deliver their product without protection from strikers. Use of canned milk as a substitute during the shortage was given as the reason for the few takers. Resumption of deliveries by the seven distributors who have not served one of their fifty thousand usual customers in the last three days, will start tomorrow morning, according to announcement today.

BROTHER OF DEPOSED CZAR REPORTED BECOMING INSANE

Petrograd, Sept. 15.—Since the transfer of Nicholas Romanoff, the former emperor of Tobolsk, according to the Birleva former Grand Duke Michael Alexandrovich, his brother, has been showing signs of mental derangement and has been bombarding the government with requests for various privileges. The grand duke now asks permission to go abroad to take a cure and demands the trial of two officers on whose evidence he is accused of complicity in the monarchist conspiracy.

Personal Mention

Mrs. Warren Wagner and son, Furlow, of Strawn are the guests of Mr. and Mrs. B. D. Powell. Elmer Erwin of Haskell is visiting relatives in the city. Mr. and Mrs. Sam Kruger are in Fort Worth to spend the Jewish holidays. Mrs. Kruger will remain to visit friends for several weeks.

Two Army Officers of "School of Fire" Stop Over In City

Captains H. Templeton and C. E. Meyer of Fort Sill were in Wichita Falls today on their way overland to Fort Bliss, El Paso, where they are required to report by the 25th inst. Both officers are graduates of what is called the "School of Fire" in the Field Artillery, and though they can not say positively, they believe they are to be assigned work as instructors at Fort Bliss. They stated that men who have begun through the school, which has a most intensive course of training, are to be assigned to every regiment of regulars in the United States. It is understood that a great deal of stress is to be laid upon artillery work in the future training of the troops. The officers said that at the school they were at work all day, and that their instructors believed that the way to learn to shoot was to shoot. "Learn to shoot by shooting," he said was the slogan of the instructors. According to the fired guns great and small all day long. Captain Templeton has been for two years on the border, prior to going to Fort Sill, and thinks he is due his "fired" day's furlough. Captain Meyer is from Fort Hamilton, New York, and has just completed a two-months course of work at Fort Sill. He is expected to return to the prospect of a short respite, and was making all speed to meet his wife in Philadelphia.

Japan and America Standing United In Struggle, Says Ishie

By Associated Press. Philadelphia, Sept. 15.—Viscount Kikujiro Ishie, head of the Japanese war mission in this country, speaking at Independence Hall today declared that Japan and America stand united in the world struggle for liberty and freedom. The two nations he said had been the victims of a vicious campaign of slanders and intrigues "as dastardly and horrible as the black record of German crimes on the Atlantic, in Belgium and France." A tone of historic points of interest, a municipal luncheon was given in program of entertainment. Tonight the members of the mission were the guests of honor at a dinner tendered by Roland S. Morris of this city, newly appointed American ambassador to Japan.

Conspiracy to Help Aliens Escape Gives Editor Prison Term

By Associated Press. San Francisco, Sept. 15.—Lawrence Delacy, editor of a weekly publication, was sentenced today in the United States district court to eighteen months imprisonment at McNeil's Island, Washington, penitentiary and a fine of \$5,000 following his recent conviction with two others of conspiracy to effect the escape of former German Consul General Franz Bopp and E. H. von Schack, former vice consul from a detention camp on Angel Island. D. J. Harnedy, a shoe dealer and William Mullen, a bartender, were each sentenced to one year in the late Senator J. B. Foraker of Ohio, arrived here today and was escorted to her hotel by Ashton D. Means, business agent of Mrs. Maud A. King, wealthy Chicago widow, who was killed here August 2. Mrs. Foraker later visited the Means home, but neither Mrs. Foraker nor Means would comment on the purpose of her visit. W. B. Patterson of Chicago, Means' father-in-law, arrived last night, and is at the Means home. As far as known here no action has been taken by Superior Court Judge Cline regarding Means' failure to comply with the court's order to turn over documents requested by Solicitor Hayden Clement, who expects to reopen inquiry into Mrs. King's death. It was announced tonight that Solicitor Clement will come here early next week to lay plans for his investigation.

FORMAL GERMAN ANSWER IS RECEIVED IN ARGENTINE

(Continued from page 1.)

dispatches from Washington concerning the handling of American messages to Turkey by the Swedish legation office. "On April 26 our legation at Constantinople took charge of the interests of the United States in Turkey. As stated in the ministerial statement of the tenth instant, the minister already on April 14 received the thanks of the American secretary of state for the dispatch of telegrams. When the American minister at Stockholm requested that telegrams be despatched on behalf of the United States the foreign minister declared he was ready to accept the request without imposing conditions. Telegrams in French. "At first the telegrams handed in were written in French later on telegrams were filed in English. For practical reasons the ministry then in a letter dated May 17, 1917 to the U. S. Legation asked that the telegrams should always be in French. "It has never been stated on the Swedish side that telegrams handed in for dispatch by the American legation in Stockholm were written in American cipher. On the other hand telegrams destined for the same department have been on many occasions sent in American cipher from the Swedish legation in Constantinople to the foreign minister to be handed to the American legation in Stockholm. During the period when Sweden was entangled with the charge of American interests in Turkey. Possibility of Control. "It appears from information received last night when the cipher was handed to the Swedish minister at Constantinople there was a possibility of control, although reliance on the loyalty to the Swedish legation in Constantinople of the American officials entrusted with the coding, this communication is ready published."

DIPLOMATIC ENVOY IS SURE SWEDEN GUILTLLESS

By Associated Press. Philadelphia, Sept. 15.—Dr. Alex Nordval, special diplomatic envoy from Sweden to the United States, speaking today at the national conference on world food before the American Academy of Political and Social Science, referred to the recent exposure of Germany's trickery in Argentina and denied that his country had been instrumental or was pro-German. "Sweden seeks her political ideals in other way than does Germany," he said. "Sweden must retain her neutrality if she is to keep an independent government."

Mrs. Foraker Goes To Concord Seeing Agent of Mrs. King

By Associated Press. Concord, N. C., Sept. 15.—Mrs. J. B. Foraker, Jr., daughter-in-law of the late Senator J. B. Foraker of Ohio, arrived here today and was escorted to her hotel by Ashton D. Means, business agent of Mrs. Maud A. King, wealthy Chicago widow, who was killed here August 2. Mrs. Foraker later visited the Means home, but neither Mrs. Foraker nor Means would comment on the purpose of her visit. W. B. Patterson of Chicago, Means' father-in-law, arrived last night, and is at the Means home. As far as known here no action has been taken by Superior Court Judge Cline regarding Means' failure to comply with the court's order to turn over documents requested by Solicitor Hayden Clement, who expects to reopen inquiry into Mrs. King's death. It was announced tonight that Solicitor Clement will come here early next week to lay plans for his investigation.

Quality Ice Cream

FORTIFIED ISLANDS ASSIST RUSSIA IN THE DEFENSE OF THE BALTIC SEA

FORTIFIED RUSSIAN ISLANDS IN THE BALTIC

The accompanying pictures show the fortified island of Oskaid in the Baltic sea, one of the Russian fortresses which the German fleet will have to subdue or capture, and the Aland islands, also in the Baltic, an

important group held by the Russians. The latter are near the Swedish coast and it has been said that some Swedish consider their possession by Russia a menace to the safety of their own country. Russia's fleet in the Baltic

is theoretically strong, but it is more than overmatched by the power which Germany is able to send against it, since the Kiel canal assures Germany uninterrupted communication between the North sea and the Baltic sea.

M'CUTCHEW WINS GOLF TOURNAMENT FOR SECOND TIME

MUCH INTEREST IS BEING EVINCED IN SPORT BY MEMBERS

C. E. McCutcheon is again the big winner in the regular weekly tournament played yesterday at the Wichita Falls Golf Club, being one up against the great "Colonel Bogey." McCutcheon has been playing excellent golf of late, which shows that practice makes perfection.

Harry Weeks, H. L. Hunter and Fred E. Cooper are also worthy of much credit as each of them broke even with the colonel yesterday.

Show Much Interest. Members of the club are beginning to show a great deal of interest, and all who are not playing now are being urged by George Scott, the professional instructor recently secured by the club, to come out and make a "go" of the club, which it is thought will prove a big factor in the social life of this city.

It was pointed out by Mr. Scott yesterday that practically every city of 10,000 population or over has a good country club, and it is certainly not his desire that Wichita Falls be an exception to this rule. Already plans are being laid for the club, which it is hoped that construction of it can be started in the near future. A weekly tournament is also a new feature of the club, there being some kind of a contest scheduled for each week end.

Saturday's Score. The score for Saturday:

- C. E. McCutcheon, 1 all square
- H. L. Hunter, all square
- Harry Weeks, all square
- Fred T. Cooper, all square
- Roy B. Jones, 6 down
- L. H. Cullum, 1 down
- A. I. Brainard, 6 down
- J. D. Moulder, 4 down
- W. P. Weeks, 4 down
- Mrs. W. F. Weeks, 4 down
- Clide Woods, 3 down
- A. H. Britain, 3 down
- Lloyd Weaver, 5 down

A prize of a dozen balls was offered for the winners of the tournament. Six of these were awarded C. E. McCutcheon, while the other six were equally divided among the three who scored "all square."

Kaiser's Statements Are Challenged By Russian Diplomat

By Associated Press. Paris, Sept. 15.—Some of the statements made by Emperor William in a telegram to Emperor Nicholas of Russia in one of a series of recently published messages exchanged by the two rulers in 1904-05, brought forward to show that a secret agreement had been reached between them to attempt an alignment of Germany, Russia and France against England, are challenged in an interview in the Temps by Alexander P. Iwowsky, former Russian ambassador to France.

Quite incidentally, apparently, Mr. Iwowsky makes the declaration that this secret agreement was cancelled in the fall of 1906 and was not renewed. He states also that Emperor William told him during the interview that he regarded the question of Alsace-Lorraine as a dead issue, France failing to take up the challenge to fight Germany when Germany threw down the gauntlet during the Moroccan crisis early in 1905.

Representative E. J. Hill, Leader of G. O. P. Men In House Many Years

REPRESENTATIVE E. J. HILL

Representative Ebenezer J. Hill, the well known congressman from Connecticut, who has been ill for weeks, and has served in the house of representatives since 1895, with the exception of one term, when he lost his seat to a Democrat. He has been a leader of the house Republicans for many years.

DEFICIENCY BILL AMENDMENT GIVEN HOUSE APPROVAL

By Associated Press. Washington, Sept. 15.—Without objection from a single member, the House approved the appropriations committee's amendment to the seven billion urgency deficiency bill providing \$1,234,000,000 for the administration of the merchant marine program. Of this sum \$633,000,000 is made immediately available.

The amendment carried appropriations of \$200,000,000 for purchasing, requisitioning or otherwise acquiring plants, material, charters of ships now constructed or being constructed; \$250,000,000 for the cost of building ships authorized in the bill; \$150,000,000 for the purchase of ships other than those now or previously specifically authorized; and \$230,000,000 for purchasing, building or enlarging ship building plants.

RECORDS SMASHED BY NEW CHAMPION WESTERN GOLFER

JAMES M. BARNES GOES OVER 72-HOLE COURSE IN TOTAL OF 283 STROKES.

By Associated Press. Chicago, Sept. 15.—Breaking all records for a 72-hole open golf championship with a score of 283 strokes, James M. Barnes of Whittemarsh Valley Club, Philadelphia, today won the western open championship at Westmoreland Country Club. The previous best championship score was 286 by "Chick" Evans in the national open last year and by Walter Hagen in the western open last summer.

Barnes' record was two strokes better than the score of Walter Hagen or Rochester, N. Y., who was 1916 champion, and three strokes ahead of Jack Hutchinson of Glenview Club, Chicago, eastern open champion. Emmet French of York, Pa., finished fourth with 292 and Fred McLeod fifth with 294.

Barnes started the championship route in the first round on Thursday, scoring a record of 67 and winning the special prize for the best 18 holes. He added 71 strokes on Friday and was in the lead of the field of 135 starters with 78. His last cunning on the greens in the first half of the third round today, taking 23 putts for 40, but cut two under par on the second half for 34 and a total of 212, while Hutchinson with 211 and Hagen with a 69 was 213.

The luncheon interval left these three players within two strokes of each other and far ahead of all other competitors.

Race Rioting Starts Again at Chester, Pa., Costing Life of One

By Associated Press. Chester, Pa., Sept. 15.—Race rioting broke out here again tonight when Joseph Hardman, 40 years old, a patrolman was shot and probably fatally wounded by George Ford, a negro. The news quickly spread and a crowd of men and boys searched the colored section and threatened to lynch the policeman's assailant.

Hardman had been sent with a warrant to arrest Ford on a minor charge. The shooting occurred in the district where race rioting took a toll of six lives several weeks ago.

Oil Leases Recorded. A. W. Hooper and wife to Jas. Long Jr., seven tracts of the Harrison, Denbriksa, Revis Survey, containing in all 146 acres; consideration, \$500.

John Kiel and wife to Jas. F. Long, Jr., 200 acres off the east side of the John Kiel homestead; consideration, \$500.

At the Plaza. The Patriotic Girls will open a week's engagement at the Plaza airpome here tomorrow night. This company comes direct to Wichita Falls from Chicago, having made only two stops since leaving that theatrical metropolis, that of Oklahoma City and Lawton.

Since the company has only been on the road three weeks they have not had time to prepare any very extensive advertising matter, the printed and lithographed being several weeks behind with their work. However, the manager of the house states that there are 12 or 14 people in the company and that they will present a clean bill of musical comedies, with an entire change of program each evening. The comedians in this company are said to be exceptionally good.

The Universal Car

No Change in Ford Prices

We have just received authorization from the Ford Motor Company to continue to make deliveries at the present prices

Roadster \$345
Touring \$360

(Prices f. o. b. Detroit)

Orders for future will be accepted as heretofore, with the insertion of clause covering possible advance prior to delivery. This clause gives the prospective purchaser the option of paying any advance which may be made before delivery, or cancelling the contract and receiving full refund of his deposit if he should not care to pay any possible advance.

THE NEW FORD TRUCK HAS ARRIVED

We take pleasure in announcing that the new One-Ton Ford Truck is now ready for delivery.

The chassis of the new Ford Truck is now on display at the Motor Supply Company, where all who are interested in trucks are cordially invited to call and give it a thorough inspection.

The price of the Truck will be \$600 f. o. b. Detroit; \$640.60 delivered in Wichita Falls.

When you buy a Ford Truck you will not only receive Ford efficiency, but the all-round Ford service of our organization.

Don't Neglect Your Car

A little attention to your Ford car, a little adjusting now and then, will help to keep it in prime condition and add to its ability to serve you. Bring your Ford here. Why take any chances? Let those who know how, those who use genuine Ford parts, take care of your car. To be sure of getting the best service from your Ford car let skilled Ford men care for it. Prompt attention assured. We will guarantee prompt, efficient Ford service at the established Ford price schedule, thereby protecting Ford owners from the errors of inexperienced mechanics and exorbitant prices.

On or about November 1st we will occupy our new building, corner Sixth and Indiana. Our shop will be installed with complete factory equipment and competent and expert mechanics.

Yours for Universal Service,

MOTOR SUPPLY COMPANY

Phone 1081 612-614 Ohio Ave.

PLANS FOR CARING FOR SMALL BUYER OF COAL OUTLINED

Washington, Sept. 15.—Plans for taking care of the small consumer coal needs this winter but requisitioning so-called spot coal at the mines and directing its sale through local dealers at government fixed prices, were disclosed tonight by Dr. H. A. Garfield, the fuel administrator.

Hold Governor May Not Remove Regents From the University

Special to The Times. Austin, Texas, Sept. 15.—Answering an inquiry by Acting Governor Hobby, Attorney General Looney today held that the governor is without authority to remove a regent of the University of Texas. General Looney quotes Article 15 of the Constitution which provides that the Legislature shall make provision for the trial and removal from office of all officers of this state, the modes for which have not been provided in the Constitution. It is held that the Legislature in obedience to this provision of the Constitution has made ample provision for the trial and removal of university regents under quo warranto proceedings.

TOO LATE TO CLASSIFY

SITUATION WANTED—By young married man who desires to locate in Wichita Falls; grocery store preferred; cat drive car; an strong and healthy and willing to work; would consider any kind of work that pays a living wage. Phone 403, or write care box 753.

MOST TEXAS FIRES PREVENTABLE SAY LATEST STATISTICS

TOTAL OF 78,000 HAVE OCCURRED IN THE STATE IN LAST SEVEN YEARS.

Special to The Times. Austin, Texas, Sept. 15.—Reports have been received by the State Fire Insurance Commission, through State Fire Marshall Wallace English, of 78,000 fires occurring in Texas since December 10, 1910, to the present time, according to a statement made public today by the commission. Of this number 27,074 were of fires in dwellings, apartment houses, boarding houses and private outhouses, and of which 24,493 or 68.1 per cent were preventable; 3,931 or 10.6 per cent were unpreventable; 8,550 or 23.3 per cent from unknown causes.

High School Seniors Elect Their Officers During First Session

Election of officers featured the first class meeting of the 1918 seniors, held Friday afternoon at the close of school. Andrew Urban, the last year president, retains the chief executive's chair. Edward Bell, son of the new high school principal, is vice president, Miss Annys Lee is secretary, Miss Ione Bryng, treasurer, and Edwin Wilson is sergeant at arms.

WICHITA HARDWARE CO. Complete line of Shelf and Heavy Hardware. 804—Ohio Avenue—806

FERGUSON AGAIN MAY BE PRODDED TO MAKE ANSWER

Special to The Times. Austin, Texas, Sept. 15.—It is now generally predicted that the impeachment trial of Governor Ferguson in the senate will be concluded by next Wednesday or Thursday. Governor Ferguson is expected to be on the stand Monday and Tuesday. He is the last witness for the defense and it is not expected that much rebuttal testimony will be introduced by the prosecution.

Disorders Occur In Chattanooga, Tenn., As Result of Strike

By Associated Press. Chattanooga, Tenn., Sept. 15.—Disorder in connection with the strike of street railway employees here was renewed late today when a crowd of men attacked a car in South Chattanooga. A member of the crew, W. A. Sisen, of Chicago, was shot in the leg. Two young women were arrested today charged with having placed a scintilla across a track.

SHOOTING SCRAPE ALARM DEVELOPS NO ARRESTS

Police officers were called to a negro settlement on Broad street late last night to investigate a shooting scrape. After they got there, however, no one seemed to know anything about the matter, other than they had heard the shots, of which it seems there were quite a number.

ADJUSTED TO PERFECTION

EYES THAT SQUINT

People having a tendency to squint may be relieved of the awkward, unbecoming habit by wearing proper glasses. Squint is caused by nervous twitching of the eyelids, and is positive proof of defective eyes.

Children should have their eyes examined before being taxed by study. Defects may be remedied then that, if left alone, may cause much distress in after years.

Will Deliver Address to Pythians At Session Here on Friday Night

GRAND CHANCELLOR GEORGE G. SHAW, of Kaufman, Texas.

W. P. Hodge of this city district deputy grand chancellor, has called a district meeting of the order of Knights of Pythias to be held in the Castle Hall, second floor of the Masonic Temple, next Friday night, September 21. The 24th Pythian district is composed of the following lodges: Wichita Falls, Iowa Park, Electra, Henrietta, Bowie, Seymour, Archer City, Olney, Newcastle, and Brockton. A large representation is expected from each of the above lodges and the total attendance is expected to reach 200 or 300. Past Chancellor W. T. Harris of this city will deliver the address of welcome, and the response will be made by Deputy Grand Chancellor J. C. Hines of Iowa Park. Grand Chancellor George G. Shaw of Kaufman will be present and will deliver an address. He will also confer the Grand Lodge rank on all Past chancellors that are present and have their credentials properly checked. The Famous Pythian Male Quartet of Henrietta will furnish music for the occasion. Every member of this quartet is a past chancellor and a member of the grand lodge. A district meeting is called by the district deputy grand chancellor once a year. The object of the meeting is to get all the members together, and also for the purpose of initiating several candidates in the ranks of Knights of Pythias and Knight Templars. Dinner will be given by Dr. J. W. DuVal, Grand Outer Guard, and H. P. Hodge, district deputy grand chancellor, in honor of Grand Chancellor George G. Shaw of Kaufman, at the grill room of the St. James Hotel Friday afternoon at 6 o'clock. The meeting Friday night will begin promptly at 7:30 o'clock, and luncheon will be served following the program and initiations.

LIFE AT CAMP TRAVIS PROVES LIVELY FOR NEWLY-DRAFTED, BUT THEY ENTER INTO SPIRIT OF NEW LIFE QUICKLY

(By J. G.) Camp Travis, Texas, Sept. 15. The nucleus of one of the divisions of the National Army is now installed here a few thousands of enlisted men and almost as many officers. They have been swallowed up in this desert waste of buildings that was mesquite thicket ten weeks ago and have started, vigorously, cheerfully, splendidly, hammering into shape for the days to come. San Antonio extended to all a typical San Antonio welcome, the same consisting of a 50 per cent advance in the price of everything that soldiers need. The municipal motto "Soe El Tu Em" was gloriously lived up to, and everybody joined in, from the shine parlors to owners of apartment houses. The prices of practically all things purchased are far above those charged in other Texas cities and instead of the appreciative spirit that one might have expected in a city that virtually owes its existence to the uniformed men, the spirit of "let not a nickel escape" seems to obtain. Transportation Problem. Another thing that has not served to endear this city to the soldiers is the matter of transportation to and from Camp Travis, which is above five miles from the business center. No one minds the jitney fare of ten cents, but there are not enough jitneys. Just why the street car line has not been extended is a puzzle. All things considered, the soldiers' memories of San Antonio will be far from pleasant.

mess shack of the contracting company. This contracting company appeared to have considerable surplus concrete remaining from its building operations. The writer had better luck than many others, however, for three consecutive days he got the rats in the rice pudding. Most of the officers soon deserted Stone & Webster and boarded at a restaurant at the army post, two miles away as the jitney files. This restaurant was a noteworthy institution in several ways. Firstly, for its lemon pie, the nearest approach to the real article I have ever met in a hash house; secondly, for its lady cashier, who flirted sweetly with all enlisted men, but who was possessed of a deep and abiding distrust of all officers; thirdly, for the fact that it still served regular meals for two bits. This latter condition was promptly changed when the officers began to patronize it, and there appeared an "officers' lunch" consisting of a napkin, a fingerbowl and one or two other things, at 75 cents.

Practically all of the organizations have their own mess halls now and conditions are more home-like. Many mess officers obtained cooks from the Chinese refuge colony, near Camp Travis. Those who couldn't get orientals hired negroes; a very black personage who answers to the expressive designation of "Hard Times" presides over the kitchen that serves the quartermasters.

Writer's Chief Duty. The writer's principal duty so far has been to meet the trains on which the drafted men arrive. The recruits are loaded on big army trucks and transported to the camp into the life of which they are merged with considerable ceremony, but little delay. Whatever hopes, doubts or fears may have gripped the recruits as they arrived, the first question invariably was, "when do we eat?" One bunch came in from South Texas with a good start. The young man in charge saluted neatly as he handed the papers over, and each of the two dozen men in the detachment, as he answered to his name, also saluted. "Where did you learn that?" I asked. "He taught us" they answered, pointing to the recruit who was in charge. The latter, fortified by nothing more than the "Military Manual" had been improving the hours on the train. In one detachment was a young Jew, whose enormous derby gave him the appearance of a comic opera character. As the men were being checked preparatory to boarding their truck, he sat down on the curb, buried his face in a big handkerchief, and began to sob. Someone asked him what the trouble was. "I ain't crying for a soldier, I'm cry-

Eating Arrangements. Last week the first five per cent of the drafted men put in an appearance, and by the time this appears in The Times they will be well started on their training. With three or four hundred non-commissioned officers from regular army organizations and between these and the reserve of officers, the recruits ought not to lack for instruction. With their early start many of them will probably be made non-commissioned officers, and will help in the training of the thousands who are to follow them within a few weeks.

MANY WICHITANS ARE SUBSCRIBING SMOKES FOR ARMY

Many Wichita Falls people are going to be remembered gratefully by American soldiers in France, when they sit in their dugouts and smoke their "Jimmy" pipes, laden with tobacco purchased with the funds raised through The Times and disbursed through the American Tobacco Company. The response Saturday was generous. Any smoker by denying himself a few cigars or cigarettes, can be the means of giving genuine pleasure and comfort to American soldiers, for a package containing tobacco which sells for 45 cents at retail will be forwarded by the American Tobacco Co. for twenty-five cents.

- Contributions in any amount, will be forwarded by The Times, whether it be of 25 cents or \$25.

Railroads Will Help Advertise New Issue Liberty Loan Bonds

Fairfax Harrison, chairman of the railroad war board authorized the following: As the result of the Treasury Department, the railroads of the United States will cooperate in the publicity campaign that is being planned for the second liberty loan. Colored posters advertising the new issue of liberty bonds will be placed in the waiting room of every railroad station in the country. Through these posters, the Treasury Department will be able to reach the millions of persons who use the railroads and present them with timely information concerning the second Liberty Loan. The 1,750,000 employees of the railroad will also have the subject called to their attention by a series of posters, that will be placed in the railroad shops and all other places where employes assemble. More than \$20,000,000 worth of the first issue of liberty bonds were purchased by railroad employes.

ing 'cause I'm sick," he replied. Examination proved the sickness to be real and he was taken to the hospital, a melancholy picture.

As they neared the camp, alternate cheer and grief would greet the recruits. Some regarded it on their faces to make considerable fun of one bunch; but two coherent veterans stood rigid at the salute as the truck rolled past.

Willingness Apparent.
Cheerfulness and willingness have been very evident on the part of the drafted men, and these two attributes will cover a multitude of military sins. Almost without exception the men are eager to begin, anxious to learn. Their spirit is such as to bode no good for the Kaiser.

One needs but to look at their faces to realize that a big part of the fight is already won. Many of them would have preferred not to come because soldiering had no attraction for them; many others had to sever business and family ties that meant sacrifice and heartache; but not a frown, not a murmur. There is a look in the eyes and a firmness of the mouth that needs no physiognomist to translate and that says eloquently that Texas' share will be second to none.

Camp Travis a Wonder.
Camp Travis is an institution that has to be seen to be appreciated. The first week in July it was a mosquito thicket; today its 1200 acres are covered with barracks, officers' quarters, bath houses, hospital and Y. M. C. A. buildings, warehouses and the various other structures that make up a camp. It is a wonder.

cars of other material, forming 1475 buildings. The largest number of men employed on any one day was 9,100, and even then more were needed; a weekly payroll of \$200,000 was not unusual. There are 25 miles of water lines, 30 miles of sewer, with macadamized roads, electrical equipment and other work in proportion. It cost \$6,500,000, much of which went to the workmen who drew wages of \$7 a day and upwards. Many of these had never driven a nail or sawed a plank. Small wonder that the cotton crop in this section was left to shift for its meager self while the men-folks on hundreds of farms swarmed here to work.

The danger of fire is realized, and all day long guards are stationed on the watch-towers that are scattered through the camp, watching constantly for any signs of a fire that might make a 1200-acre ruin in a few hours. There is a fire station with a bright red auto engine, while barrels of water are placed in all buildings for emergency use. As a precaution, no smoking is permitted out of doors where a cigarette stub might be thrown into a pile of lumber. Indoors, one may woo Mrs. Patton with impunity.

Discipline Strict.
Meantime, another crop of humans is at Camp Funston, and one of these, E. H. Walpole, came to town for a brief week-end rest and to buy some breeches more suited to his frame. Walpole's face has lost some of its roundness and there is a worried look in his eyes, but home folks need not get uneasy. They won't kill him.

though there may be times when it will look that way. The average size of the present student body at Camp Funston is higher than at the first camp. Its discipline is somewhat stricter and those who have been there say that the schedule is every bit as strenuous. One of the Wichitans at Camp Funston, Louis Nussbaum, was laid up with tonsillitis for several days. Wichita Falls is represented at Camp Funston, at the aviation camp at Camp Kelly and in every branch of the service among the troops in and around San Antonio. Some of her representatives among the officers are already in line for promotions.

Laborers Not Very Heavily.
The officers at Camp Travis are having no great amount of labor, compared with what they did at Camp Funston. For many of them, just at present, the hardest job is killing time. The other morning I found one of the Wichitans deeply engrossed in an important duty. He had to make out a "morning report" which on that day consisted of putting the figure "6" in one column, the figure "1" in another column, then adding the two together. He pondered deeply then put down "7" as the total, and signed the document with an air of great virtue. How he stands under the strain is a mystery to me.

Tancred Tank Factory Now Well Upon Way to Completion Says Owner

John Tancred's tank factory is well on its way toward completion. The building itself is finished, and the men will begin to install the machinery on Monday. Mr. Tancred said on Saturday that in about three weeks, if all went well, he expected to be ready for business.

It was gathered from Mr. Tancred's remarks that there has been some delay in getting machinery, on account of the car shortage and so forth. Had things gone as rapidly as had been hoped, the plant would be ready for work at the present time.

Parents and Teachers to Consider Important Matters on Thursday

Matters of vital interest to parents and students, including a matron, a restroom and a lunchroom for the high school, will be discussed at the first meeting of the Parent-Teacher Council of this term, called to meet at 4 o'clock Thursday afternoon by the president, Mrs. J. W. Lee.

These are matters which have been brought up previously, and all concerned are anxious to have the new departments added. The only consideration now remaining before they can be instituted as part of the high school is finding the financial means. This will be undertaken by the council at the meeting and as the mothers clubs of the city have generally obtained whatever they went after in earnest it is expected that they will not be slow in finding the way.

Mrs. S. I. Lindsay to Speak on Missions Twice During Day

Mrs. S. I. Lindsay, field secretary for the board of the Southwest of the Presbyterian Church, U. S. A., is here today and will speak on missions on two occasions. At 4 o'clock this afternoon she will conduct a meeting at the Floral Heights Presbyterian Church on Kemp Boulevard and her talk will take the place of the evening sermon at the First Presbyterian Church, corner of Tenth and Bluff.

Pythian Lodge Home to Be Constructed Here; Cost Is to Be \$25,000

A new home, to cost \$25,000, is the present plan of the local lodge of the Knights of Pythias, according to an announcement made yesterday afternoon by Dr. J. W. DuVal.

A committee has been appointed to look after the selection of a suitable site, and soon as possible after it has been selected construction will be started. They plan to have the building equipped with all the things that make a place seem homelike, such as a library, reading room, showerbath, gymnasium, pool and billiard room.

J. K. Roach Resigns Auditor's Position At First National

J. K. Roach, who for the past five years has been auditor for the First National Bank of this city, has resigned and gone to New York to accept a life position with the Chatham and Phoenix National Bank.

and space required. With over two hundred exhibitors, the B. I. M. I. T. feature of the Fair will likely be one of the largest attractions. At the State Fair of Texas the exhibit will occupy the first corridor of the Coliseum, one of the largest exhibition spaces on the fair grounds. It will be open at all hours to visitors, and it is likely that various souvenirs will be given away by the manufacturers to their guests there. Officers and member of the executive staff will be in charge constantly. Indications now are that the B. I. M. I. T. exhibit will prove to be an astounding thing to the average Texan. The extent of the manufacturing industry of the State is little known, and this gathering of all products will reveal it fully. Preparations are being made for thousands of visitors at each fair, and many times that number at the State Fair.

SAXON

\$395
f. o. b. Detroit
With full electric equipment

Note These Fine-Car Features on Saxon Roadster at \$395

Electric starting and lighting system, two unit type, built by Wagner. Demountable rims. 30-inch by 3-inch tires.

High-speed Saxon Continental Motor. Schebler carburetor. 3-speed transmission. Dry plate clutch. Hyatt Quiet Bearings.

Streamline body. Fedders radiator. Atwater-Kent ignition. Extra long vanadium steel springs, cantilever type.

Check these features one by one.

Think of the convenience of merely stepping on a button to start your motor.

Think of the added smoothness, the greater economy, the finer performance given by the 3-speed transmission.

Consider the fact that the tires are 30 inch by 3 inch. That means that Saxon Roadster has more tire surface in proportion to car weight than any other car in the world.

So you are practically immune to tire trouble.

Every feature of Saxon Roadster is a feature of high-quality and known reputation.

No other car within \$300 of the price of Saxon Roadster has all these features.

And Saxon Roadster is a wonderfully able car. The Continental motor is unusually powerful and flexible.

It pulls smoothly and quietly "on high" or "in low."

You note instant power-response to the least pressure on the accelerator.

And above all else, Saxon Roadster is the world's lowest cost car to drive. It has established a grand average of 30 miles per gallon of gasoline.

10,000 miles to the set of tires is its tire-average. And a complete two-year record of total operating costs on thousands of Saxon Roadsters shows an average of 3c per mile. Price is \$395, f. o. b. Detroit.

Saxon "Six", \$395; Saxon "Six" Sedan, \$1395; Saxon "Six" Chummy Roadster, \$935. F.o.b. Detroit.

Wichita Falls, Texas

SPECIAL PULLMAN WILL CARRY FANS TO WORLD SERIES

FIVE LOCAL MEN REACH DECISION AND OTHERS EXPECTED TO GO.

When the world championship baseball series is pulled off this fall there are several Wichita Falls fans who will be right there, their plans charted for a special Pullman to be chartered for the trip.

Speculation is rife. Already speculation in baseball circles is rife concerning the probable outcome of the present series as there are three teams running close contenders for the championship.

Regardless of which clubs are in the contest, it is thought that both parks will be sold out before the games, as the rivalry will be exceedingly keen.

WEEK'S BANK CLEARINGS SHOW GOOD INCREASE Bank clearings for the week were \$526,923.13, showing an increase of \$69,675.81 over the previous week, which was \$457,247.32.

BASEBALL RESULTS

AMERICAN LEAGUE NATIONAL LEAGUE

Washington 5-4, Philadelphia 0-0. Washington, Sept. 15.—Philadelphia was unable to score on either Harper or Johnson today and Washington won a heavy hitting contest from both games of double-headed 5 to 0.

Philadelphia 2-0, New York 1-0. Philadelphia, Sept. 15.—New York won a heavy hitting contest from Philadelphia today, 2 to 0.

Boston 5, New York 1. Boston, Sept. 15.—The wildness of pitcher Ragan and Allen of Boston combined with the excellent work of Sallee enabled New York to win today.

New York 8 to 3 on Clark Griffith Day here. Ruth permitted two hits up to the ninth inning and New York did all its scoring after two were out in that inning.

Cleveland 5, St. Louis 4. Cleveland, Sept. 15.—Timely hitting coupled with errors by Severide, Hale and Davenport and Groom's wildness enabled Cleveland to win today's game from St. Louis 5 to 4.

Detroit 3-4, Chicago 4-6. Detroit, Sept. 15.—Detroit and Chicago split even in a speedy double header here today.

Chicago 2-1, St. Louis 4-10. Chicago, Sept. 15.—Chicago won a heavy hitting contest from St. Louis today, 2 to 1.

Philadelphia 2-1, Brooklyn 1-0. Philadelphia, Sept. 15.—Philadelphia won a heavy hitting contest from Brooklyn today, 2 to 1.

Little Rock 2-0, St. Louis 1-0. Little Rock, Sept. 15.—Little Rock won a heavy hitting contest from St. Louis today, 2 to 0.

St. Louis 2-1, Memphis 1-0. St. Louis, Sept. 15.—St. Louis won a heavy hitting contest from Memphis today, 2 to 1.

Memphis 2-1, Nashville 1-0. Memphis, Sept. 15.—Memphis won a heavy hitting contest from Nashville today, 2 to 1.

Western League. At Joplin 4, Hutchinson 7. Twelve innings. At St. Joseph 2, Lincoln 1. Thirteen innings. At Wichita 3, Denver 1. At Des Moines 6, Omaha 0.

American Association. At Columbus 10, Minneapolis 12. At Indianapolis 2, Kansas City 1. At Toledo 1, St. Paul 7. At Louisville 8, Milwaukee 5.

Ham Hyatt Leads Southern League in Season's Hits. Chicago, Sept. 15.—The Southern Association season closes today with Ham Hyatt of Chattanooga showing the way to the batters with an average of .355.

Leading batters who have participated in half or more of their club's games: Hyatt, Chattanooga, .355; Munch, Atlanta, .324; Vick, Memphis, .321; Knisley, Nashville, .320; Morgan, Atlanta, .315; Lunte, Mobile, .302; Cov-

Cincinnati 7, Pittsburgh 6. Cincinnati, Sept. 15.—Cincinnati won a heavy hitting contest from Pittsburgh today, 7 to 6.

Cincinnati 10, Pittsburgh 6. Cincinnati, Sept. 15.—Cincinnati won a heavy hitting contest from Pittsburgh today, 10 to 6.

Cincinnati 10, Pittsburgh 6. Cincinnati, Sept. 15.—Cincinnati won a heavy hitting contest from Pittsburgh today, 10 to 6.

Cincinnati 10, Pittsburgh 6. Cincinnati, Sept. 15.—Cincinnati won a heavy hitting contest from Pittsburgh today, 10 to 6.

Cincinnati 10, Pittsburgh 6. Cincinnati, Sept. 15.—Cincinnati won a heavy hitting contest from Pittsburgh today, 10 to 6.

What's New for Fall?

A GOOD many men and young men are asking that question about clothes.

Here's the first item of interest: Hart Schaffner & Marx suits and overcoats for fall have arrived.

The popular fabrics are worsteds, chevots, tweeds, iridescent shades, greens, browns, grays, in checks, plaids, stripes and mixtures—and they're all-wool, every one of them.

Military touches in suits and overcoats are the big idea; belts all around, pouch pockets with flaps, patch pockets, accented waistlines. These are just a few of the newest features.

We don't need to argue about the merits of Hart Schaffner & Marx clothes; you know they're good clothes; you know that they are guaranteed to give you satisfaction or your money back.

Also new styles in hats, shirts, neckwear, shoes and accessories.

Number Dogs Killed By Order of Police When Found on Street

While no exact record was kept of the matter, it was stated at the city hall yesterday afternoon that 18 or 20 dogs had been killed when found running at large on the streets of the city since the order of Chief of Police Humphries went into effect in regard to keeping all dogs confined for a few weeks or until all danger of hydrophobia had passed.

TO THE PUPILS OF THE WICHITA FALLS SCHOOLS:

THUD OF FOOTBALL HEARD UPON FIELD OF 'BIG TEN' AGAIN

COACHES AT WESTERN COLLEGES FIND MANY MEN ARE NOW IN ARMY.

Chicago, Sept. 15.—The thud of the football resounded throughout the camps of the "Big Ten" eleven today—the first official practice day of the season. Opening games will be played three weeks hence.

From every camp came reports of the serious problems confronting coaches due to the heavy inroads the war made on athletics. Practically every institution in the Western Conference lost its gridiron stars of a year ago. A majority of them won commissions in officers' training camps and are now officers of the new national army. Others, however, enlisted in the navy or other branches of the service.

Crop of Players Young.

Although the crop of players will be younger than usual, the same old fighting spirit will prevail, and critics believe followers of the sport are due for an agreeable surprise in the class of capable players that will be developed. They say there are "just as good fish in the sea" as ever. Some critics believe there will be more interest in football this year than ever. The absence of star players, they say, will make the games more evenly contested whereas in former years the power of certain teams made up of stars, was accepted as a foregone

conclusion. As the exodus of athletes has been general, one college will be about on par with all others in the matter of material.

Two or three veterans will form the nucleus of teams in almost every instance. Underdeveloped, unskilled players—youths who have never played the gridiron sport—will make up the remaining cogs in the machines.

Michigan Will Play.

In the Western conference, the return of the University of Michigan will stimulate interest although the Wolverines will meet only one conference eleven—Northwestern—this season. The performance of the Wolverines, however, will be watched more keenly as they are certain to arrange four or five games with "Big Ten" eleven next season.

Gloom is thick at Northwestern because so many members of the near championship team last season have responded to the nation's call. Those of the 1916 eleven who are in military service are: Cibrand, half back; Driscoll, half back; Johnson, end; Thomas, center; Norman, end; Putman, tackle; Bennett, end; and Brumbach, tackle. Driscoll would not have been eligible anyway because he had signed with the Chicago National before he was drafted.

In addition to these players, Coach Murphy found that a host of promising material expected from the squad of freshmen had enlisted. Smith, center; Williams, half back; and Zanger, guard, were lost to the team through graduation.

Kohler Will Be Star.

Coach Murphy plans to build his team around Kohler, the plugging full back of last year's eleven; Gesler and Mulder, guards, and Arries and Lynch, tackles; Kohler is the only one of these players who performed regularly last fall. The others were put into the play as substitutes.

There is a prospect that Brightmire, Fullwood and Underhill—all of whom played a brilliant game for Northwestern last fall—may return to school. Brightmire went to the officers' training camp at Fort Benjamin Harrison

but lost out because of "flat feet"—something his football opponents did not discover until fall.

Northwestern plays the University of Michigan at Evanston on Nov. 24 and Coach Murphy is eager to develop a squad capable of making a determined showing against the Wolverines.

At University of Chicago

There also is plenty of gloom in the University of Chicago camp. Coach Stagg faces one of the hardest football problems of his career, as that year's team is literally shot to pieces as the result of enlistments and loss of stars through graduation. It is probable that Stagg will build his team around Gorgas and Bondzinski, guards, and Carl Brolos, end.

There also is a ray of hope in the announcement that Charles Higgins, all-western guard, may play. Higgins is a member of the base hospital unit, which has been expecting for three months to leave for France, but which sees no immediate departure. Parker and McPherson also may return to fill gaps in the line. Don Harper, a son of former President Harper of the university probably will be a candidate for center.

Red Jackson, a brother of last year's captain, is regarded as the only member of last year's freshman squad up to the varsity standard. Curly, the track and baseball star, may attempt to win a place in the backfield.

Frank Pershing, who was chosen captain of the 1917 eleven, is among those who have enlisted for military duty. Pershing is a nephew of the American commander in France. Young Pershing is at the Rock Island arsenal learning all about ordnance. Others who have graduated are: Captain Jackson, tackle; Schafer, Agar, Graham, Gordon and Cahm, half backs; Pershing and Klipschid, quarter backs; Morgan, end; Fisher, center; Hanisk, fullback.

TRIS SPEAKER IS LIKELY TO FINISH SECOND TO COBB

AVERAGES RELEASED TODAY SHOW CLEVELAND STAR BATS JUST AHEAD OF SISLER.

WAS CHAMPION IN 1916

Cicotte of Chicago Is Leading Pitchers Participating in Thirty or More Games, Is Announcement.

Chicago, Sept. 15.—Tris Speaker, the 1916 batting champion, is making a desperate drive to finish second to Ty Cobb for American League batting honors. Averages released today show the Cleveland star back in second place with an average of .352, with Sisler of St. Louis, who held the spot a week ago, six points behind him. The averages include games of Wednesday.

Cobb fell off 12 points in the week, getting only five hits in seven games. But he is safely in the lead with an average of .274. The Georgian stretched his total base hitting to 201. His record includes 29 doubles, 21 triples, and five circuit swipes.

Bush Scores Well.

Bush, the Detroit shortstop, shot over the 100 mark in scoring, having brought in 101 runs, while Cobb is trailing him with 94. Veach of Detroit clung to home run honors with eight. Bodie of Philadelphia and Pip of New York are following with seven each.

Both and Chapman of Cleveland are fighting it out for honors in base stealing. Roth with 45, having a lead of three. Chapman continues to show the way to sacrifice hitters with 64. Detroit which leads in team batting, has an average of .259.

Leading batters who have played in half of their club's games: Cobb, Detroit, .374; Speaker, Cleveland, .352; Sisler, St. Louis, .347; Felsch, Chicago, .314; Venen, Detroit, .296; Chapman, Cleveland, .296; Lewis, Boston, .295; McInnis, Philadelphia, .292; Harris, Cleveland, .291; Bode, Philadelphia, .290; Jackson, Chicago, .297.

Leading Pitchers.

Leading pitchers participating in 20 or more games rated, according to earned runs per game:

Name	W	L	ER
Cicotte, Chicago	44	24	11 1.51
Faber, Chicago	35	12	11 1.87
Washburn, Cleveland	35	8	10 1.86
Coveleskie, Cleveland	41	16	14 1.88
Ruth, Boston	36	21	11 1.92
Leonard, Boston	35	15	14 1.94
Mays, Boston	33	19	7 1.98
Bagby, Cleveland	44	29	13 2.01
Russell, Chicago	33	15	4 2.12
Johnson, Washington	42	19	15 2.16

Rough of Cincinnati widened the gap between himself and Hornsby for the St. Louis shortstop for the batting lead in the National League averages including games of Wednesday, giving Hornsby an average of .345—19 points ahead of his rival.

Were No Changes.

There were no changes among leaders in other offensive departments of the game. Carey of Pittsburgh added another stolen base to his total, bringing it up to 41, and Burns of New York stretched his mark in scoring to 93. Cravath of Philadelphia drove out another home run, giving him a total of 12. Deal of Chicago is showing the way to the sacrifice hitters with 28. Cincinnati clung to team batting honors with average of .265.

Leading batters who have played in half or more of their club's games: Roush, Cincinnati, .345; Hornsby, St. Louis, .325; Groh, Cincinnati, .308; East, New York, .307; Burns, New York, .299; Cruise, St. Louis, .299; Abbott, Brooklyn, .297; Whitton, New York, .297; Zimmerman, New York, .296; Carey, Pittsburgh, .296.

Leading Pitchers Work.

COME, LOOK OVER OUR NEW THINGS

"The Big, Busy Store"

their open dates. The eleven-hour decision of the army to confine football will make it difficult for the Soldiers to restore their schedule to its original form. Whether Notre Dame can give the cadets the date formerly set for this game at West Point remains to be seen. This contest is always one of the features of the season and its continuation, if possible, is earnestly to be desired.

TEAM OF HORSES RUNS AWAY BUT NO DAMAGE RESULTS

A team belonging to C. T. Goad, who lives west of town, ran from back of McCarty and McCarty's grocery store to the river, about 6 o'clock last night, fortunately doing no damage, either to the wagon or to themselves. Mr. Goad was making some purchases, preparatory to returning home, when something startled the team. Before he could get to them they were off, racing furiously down the alley. They turned into Indiana and made a beeline for the river. Mr. Goad following post haste in a Ford car.

He came up with them in time to head them off, make the capture and bring them back to town before any damage was done. The smaller horse had the skin cut on the left hind leg, but otherwise sound. His partner, a very pretty dappled gray, fell down, but did not seem to be hurt. The wagon rattled a good deal, but seemed to be all together. Mr. Goad gathered up his scattered groceries and set out for home.

WORK IS PROGRESSING ON BURNETT ST. BRIDGE

Work on the second pier of the Burnett street bridge, from the south side, will be commenced some time this week, according to the bridge engineer, M. M. Cooke, who states that work on the bridge is progressing at a good rate.

At present the southern abutments are nearing completion and the foundation is laid for the first pier from the south side. The bridge will be a seven-pier structure, counting the abutments as piers. The contract calls for the delivery of the bridge by January 1, 1918, and at the present rate of work it is thought it will be easily finished within the time limit.

A BULLETIN from Bell Mattress Factory

A faulty uneven Mattress makes a good night's sleep impossible. Let us make over any such mattress you may have in mind. We'll return it to you, not just as good but better than it was when you bought it, new. And as to our own special make, we will not only guarantee its substantiality, workmanship, but guarantee you a good night's sleep. If it takes only a comfortable mattress to induce it.

T. J. Edmonson, Mgr. Phone 2412.

Don't for the Knitters of Socks
Don't cast on tightly. An otherwise well knitted sock may become useless by this tight cord at the top.

Don't make a heel with a seam.
Don't use needles too fine for the wool. The knitting should be elastic if too tightly knitted the sock becomes hard and boardlike in use.

ANOTHER WICHITA FALLS STRUCTURE WHICH IS BEING PUSHED TO COMPLETION BY CONTRACTORS

ARCHITECT'S SKETCH OF J. A. KEMP PUBLIC LIBRARY.

EXCELLENT PROGRESS IS REPORTED ON LIBRARY BUILDING WHICH MAY BE OCCUPIED WITHIN NINETY DAYS

Good progress is being made on the new free public library donated to the city of Wichita Falls by J. A. Kemp. It will be ready for occupancy in about 90 days, or just about in time to come as a Christmas present to the city from Mr. Kemp. The exterior of the ground floor is completed as regards the brick work, and the walls are up as far as the windows on the first floor; indeed, many of the window casings are already in place. All the skeleton timber work on the dome over the rotunda is in place, and it is possible to form a fairly distinct idea of what the library will look like.

The building which will be one of the handsomest and most substantial constructed in the state, is from the design of Madrie and Field of Kansas City and Wichita Falls. The contractors handling the work are Taylor Bros., and with this excellent combination of design and construction, Wichita Falls may be assured of work that is first class in every respect. While not of large proportions, the building is in excellent taste, and equipped with every modern convenience.

The location, in the downtown city park at the corner of Lamar and Third streets, is considered a most happy one, being right on the way to town of all who take the street car, and within three or four blocks of the business district. The pleasant open space in which it is situated, shows the building to the best advantage, allowing a full view, for several blocks, which could not be obtained if it were placed in a more congested part of town.

The exterior of the library presents a most pleasing appearance, the style of architecture being a colonial adaptation of the classic. This is the traditional style for art galleries, museums and libraries. The soft, dark blending of the colors of the tapestry brick form a rich background for the gray terra-cotta of the columns, sills, and cornice. There is no better looking brick made than the tapestry used on this work.

Six broad steps lead up to the main doors on the east side. Above the entrance is the colonial portico, an open gallery from which rise six columns, in Greek Corinthian style, supporting the roof of the balcony. It is planned to use the portico for band concerts, public speaking, and also as an open air reading room.

The interior of the library is planned to be a most pleasing and convenient. The main floor, which is as much or more as for ornament, however, as the dome is in reality a skylight, lighting the charging desk in the center of the main floor. Around the edge of the roof runs a low parapet, ridge, supported by the heavy corner, surmounting the elaborately ornamented frieze.

The main doors, which are half way between the two floors, give on to a landing, from which stairs lead up to the first floor, and down to the ground floor. On this latter there is a very large lecture room, equipped with a stage, which can be used for lectures, recitals, theatricals, and so forth; a ladies' club room, which will also serve as an art gallery, and museum; an office the boiler room, and a room which may be used for the unpacking of new books, the binding and repairing of old ones, and "odd jobs" generally. The toilet rooms, both for men and women, are on this floor, which is being plastered with flat-stone painted finish. All the newest mechanical equipment will be installed, providing every convenience, including a hose racks and vacuum cleaner.

The collection of books is under the direction of the librarian. The librarian's desk is in the center, a position which has many advantages. For one thing, this commands a view of all the shelves, and the reading room. For another, the amount of attendance may be reduced, thus saving the overhead expense of the library. The delivery desk connects direct with the librarian's office in the rear. Above the office is a mezzanine or balcony room, enabling the librarian, in dull hours, to be employed on filing or binding work, and yet keep in touch with calls at the desk.

Among the members of the library committee and its advisory council, from any of whom information may be obtained, are Messrs. C. W. Snider, J. A. Kemp, C. R. Bartook and H. H. Carrigan, and Messrs. A. H. Brittain, A. H. Carrigan, T. F. Hunter and Miss O'Reilly.

The committee will be glad to receive cash donations from any who desire to show their interest in the work this way. Funds so received will be applied as suggested by the donor, or if given unconditionally will be applied as may be deemed most judicious by the committee. The committee invites the donation of books, and the name of the donor will appear in the printed record inside the front cover, unless the donor wishes to remain anonymous.

Subject to Approval. All books will be received subject to the approval of the committee censor. Paintings accepted will be carefully placed and given proper lighting. All paintings, or other art objects loaned, will be insured by the Library director. The cooperation of the entire citizenship is cordially invited.

It is hoped and believed that during the winter season this library will be of great benefit and pleasure to the citizens. It will supply a long felt want, and represents yet one more thing for which Wichita Falls has to thank Mr. Kemp.

CONCERT AT ST. JAMES HOTEL RESUMED TONIGHT

A. A. Dixon, manager of the St. James Hotel, is to resume his Sunday night concert by the Katz Orchestra, commencing tonight. These concerts were much enjoyed by patrons of the hotel last season, and it will be with much pleasure that they will learn of the announcement. The programs run from 6:15 to 8:15, during the dinner hour, and Mr. Katz provides the best of popular and classical music. While there is a set program, Mr. Katz is always pleased to play any selections which may be requested. The program for tonight follows:

1. Under the Banner of Victory... Von Blom
2. Selection from the "Blue Paradise".... Eugene Ezyler
3. Waltzes from "Her Little Highness".... De Koven
4. Moreaux.... Schumann
5. Ave Maria.... Bach-Gounod
6. Gems from the Mikado.... Sullivan
7. Selections from "Very Good, Eddy".... Carroll
8. Three Dances from "Henry VIII".... German
9. "Strains from Killarney".... Recker

"WHERE WOMEN AND STYLE GET ACQUAINTED"

SOCIETY

THE COMING WEEK'S SOCIAL CALENDAR

MONDAY: Meeting of the various church societies as announced elsewhere in these columns.
TUESDAY: The Wesley Girls will meet with Mrs. Loren Taylor, 1203 Lamar. The U. C. T. Club will have the first meeting of the new year with their new president, Mrs. R. Heywood, 907 Denver, at 3 o'clock.
WEDNESDAY: The New Idea Club will meet with Mrs. Harry Thornberry. The Young Men's Club will meet with Mrs. J. M. Bland.
The Consonial Crochet Club will meet with Mrs. W. H. Bachman, 1310 Eighteenth street, Friday.

POPULAR YOUNG WICHITANS MARRY AT MEMPHIS

Announcement has been received here of the marriage of Miss Beas Alexander to Clyde A. Winfrey Wednesday, September 12, at the home of the bride's father, Samuel G. Alexander, at Memphis, Texas. Mr. and Mrs. Winfrey will be at home at 812 Burnett after October 1. Both young people are very well and favorably known here. The bride has been stenographer for the law firm of Fitzgerald and Nicholson, and the groom is connected with the Wichita Falls Sash and Lumber Company. Their many friends here will unite in the heartiest of congratulations on their return.

EPWORTH LEAGUE SOCIAL FRIDAY AT FIRST M. E. CHURCH

Mrs. E. L. Richardson, president of the Epworth League of the First Methodist Church, and the leaguers staged an "Electric Light Social" Friday night, this name being given because the proceeds will go to install new lights in the auditorium, study gymnasium and other parts of the church building. Novelty was the keynote of the arrangements, both eats and the program, which consisted of a number of tableaux and pantomimes and special vocal selections by George Taylor. When refreshment time came Uncle Sam and St. Perkins, impersonated by Donald Ross and E. L. Richardson, circled among the crowd passing plates, cups and other feeding implements, while Miss Newale, Miss Birdie Simmons, garbed in newspapers, passed paper napkins. A collection of "hot dogs," buns, pickles, doughnuts and coffee was served. Orrin Simmons, the German butcher, served the wieners from a scoop; Miss Gladys Zetsche as a French maid, passed the buns in a coal bucket; O. B. Ross, masquerading in a blackface, poured coffee from an oil can; the Candy Kid, Bonnie Martin, sweetened it with sugar from a dustpan, and cream was poured from an oiler by the merry maid, Miss Estelle Freitag. Miss Bonnie Zetsche, the Dutch girl, passed the pickles, while Robert Carey supplied the dessert by handing out doughnuts on stove poker. Mr. Carey made a very effective dog or man grinder. The novelty of the refreshment course which was termed "hardware" by the entertainer was much enjoyed by the guests, of which there were a large number present.

WICHITA FALLS WOMEN ASKED FOR "COMFORT" PILLOWS

Have you tried sleeping on a straw mattress without a pillow? Or better still, have you ever tried sleeping in a blanket on the ground? If you have you will appreciate what the latest move of the Red Cross, to supply "comfort" pillows to the soldiers, will mean to the boys in khaki. A call has been issued to the Wichita Falls chapter of the Red Cross for 150 pillows, each to be 16 by 20 inches and of regulation thickness, and these pillows will mean that 150 more boys will have a comfortable sleep by reason of a little thoughtfulness and expense on the part of the folks at home. A contribution of 24 pillows has already been received by the local Red Cross from two women who have a special place in their heart for the comfort and well being of the soldiers. They are Mrs. L. W. Gullahon and Mrs. K. Smith, grandmother and mother of two soldier boys, one of whom is already in France. There are many other mothers of soldiers in Wichita Falls and while all may not be able to give as many as have these two, one pillow will help materially on the 150 quota. The mothers who for any reason have no sons in the army might take this means of doing something for the defenders of the country as a thank offering that their immediate family is not touched. Mrs. W. M. McGregor—and a person of interest is found in her contribution also as the son-in-law of the family is in the service—has given a feather bed to the Red Cross, which will be made into a number of "comfort" pillows. This should give a suggestion to house keepers who have discarded feather beds. The workers at the hall will be very glad to make them up into pillows. Slips for all pillows contributed will be supplied at the hall. These pillows are wanted immediately and a liberal response to the appeal is anticipated.

FORT BILL OFFICERS ARE ENTERTAINED HERE

On Saturday of last week several officers from the Fort Bill School of Musketry were Wichita Falls visitors and were guests of honor in the evening at a dinner dance given at Kemp Kont by several young ladies, Mesdames Danforth and M. Gaffney being chaperones. Sunday Mrs. Paul Fowler was hostess for the party, including Misses John Bonner, Alice Bonner, Willie Stewart, Hazel Stutz and Mrs. Grace Higgins; Captain W. A. Carmichael of the Second Washington Infantry, Captain Bludworth of the First Georgia, Captain Burnett of the Fourth Mississippi, Lieutenant Varing of the Indiana Reserve, Lieutenant Walton of the Georgia Reserve and Lieutenant Marshall of the Second Washington.

WITH THE WOMEN OF THE CHURCHES

The First Methodist Ladies' Aid will meet in business session Monday afternoon at the church. The Ladies' Aid of the Central Presbyterian Church will meet in foreign mission study Monday afternoon at the home of Mrs. A. F. Kerr. The regular monthly business meeting of the Women's Alliance of the First Baptist Church will be held Monday afternoon at 4 o'clock at the church. A meeting of the executive board will precede the open session, this to be at 3 o'clock. The Girls' Auxiliary will meet in regular session at 4 o'clock at the church. A business session to plan fall work will be held by the Ladies' Aid of the First Presbyterian Church Monday afternoon. The Missionary Society of the M. E. Church South will meet in circles Monday afternoon. Circle No. 1 will meet with Mrs. W. S. Curlee, 2506 Tenth, at 3:30; Circle No. 2 will meet

METHODISTS AT ELECTRA PLAN TO BUILD CHURCH

Rev. Thomas G. Whittin, pastor of the Methodist Church, informs the Leader that plans have been made for the erection of a \$20,000 brick building in Electra.

Subscription lists are being circulated, and so far they are meeting with most liberal contributions.

In one instance a young man was asked for \$200 and he went a little better and made it \$250, which shows a fine spirit and one that will build churches, if it is an example of the rest. Electra needs better church buildings, which is an evident fact to all observers. The present ones were built years ago, when Electra was a village, and now that we have assumed the proportions of a city, more commodious structures are required. Church and schools are the first considerations given a city, by people

investigating with a view of a permanent location, and the better these things appear the stronger is the drawing card.

Electra being an oil town, suffers from the general reputation of other oil towns, and many people believe it is morally deficient. Our present collection of churches being so far behind the times, substantiates the belief to the casual observer. This stand is based upon hasty judgment and without proper investigation. This is a regrettable thing and should be remedied without delay.—Electra Leader.

ELECTRA RATE OF TAXATION IS MATERIALLY INCREASED

An advance of almost double in the city tax rate was announced by the commissioners yesterday. The future rate to be \$1.40 on the hundred valuation, against the old rate of 66 cents. The additional taxes will go to securing an abundance of water, installing a sewer system and maintaining the Boosters Club in addition to regular routine expenses. At first sight the increase to \$1.40 might seem alarming, but it must be born in mind that every new industry

coming into our town will operate to reduce it immediately. The present valuation is around \$500,000. New industries amounting to \$100,000 would automatically reduce the rate to \$1.26, and thus the reducing process will go on as the town grows, but it can not grow until it is made a better place to live and work in.

The first \$100,000 will probably come in the form of a new modern hotel and two other industry developments which are now under serious consideration. These developments will bring others and there will be a steady increase in taxable property.

with corresponding reductions in taxes.—Electra Leader.

POLICE COURT SESSION BRIEFEST IN MANY DAYS

Police court was the shortest in many days yesterday, there being only one case of drunkenness to be tried. The man in the case was a stranger at the city hall, it being his first time to come before the court, so on a promise that he would behave in the future his case was dismissed by Judge Whitelaw.

Queen Quality SHOES advertisement featuring illustrations of various styles of women's shoes and the Thomas G. Plant Company logo and address.

THIS TRADE-MARK IS YOUR ASSURANCE OF FAIR AND EQUITABLE PRICES

When you buy Queen Quality Shoes you know that you are getting full measure of value. You know that the prices asked are fair prices.

FEATURE FILMS OF WEEK

From a standpoint of timely interest Ince's "Civilization," which is to commence a half week run on Monday September 17, at the Wichita Theatre, is heralded as the premier film event of the season. This spectacle is an even greater scale than "Intolerance" and similar films, magnitude and number among its thrills a reproduction of the sinking of the Lusitania. The inimitable Douglas Fairbanks with his inimitable and infectious smile will be the feature of the week at the Empress, his new Artcraft picture, "Down to Earth," to show Monday and Tuesday.

"CIVILIZATION" TO OPEN AT WICHITA THEATRE MONDAY. "Civilization," Thomas H. Ince's much discussed cinema spectacle which will open for a three day run at the Wichita Theatre Monday has such an extraordinary theme that it has caused more discussion than any picture of play produced in many seasons. Although it deals primarily with war and the terrible conditions resulting therefrom, Mr. Ince's film drama represents Christ returning to earth to view with unpeppable anguish the carnage created by men whom he instructed to "love one another."

HARRY CAREY AT THE GEM MONDAY. "It looks like a good day to get the batch off, doesn't it, Harry?" "Sure thing," said Cheyenne. "What about my pay?" The British army officer who had been buying up horses for shipment to the war cast a cunning look at Harry before he said: "Oh, that's all right. But what about turning your own horse Cactus there, in with the bunch? That will make about a thousand coming to you."

The opening scenes of "Civilization" represent a mighty monarch declaring war on a neighboring state for the sole purpose of territorial aggrandizement. In spite of the fact that this country is prepared in a material way for all eventualities, he does not rock on with the soul of his enemy. His people are defeated, his country is sacked, his health and strength are the very doors of his palace. But his hope, and that of the entire nation, is pinned on the invention of a wonderful submarine which promises to revolutionize naval warfare. The submarine set forth to sink an unarmed merchant vessel, filled with innocent men, women and children (the Lusitania tragedy is reproduced in amazing detail here). The vessel is sunk but an accident overtakes the submarine also. It disappears beneath the waters and the body of the great inventor, who has gone on the trip, is picked up, lifeless, on the surface of the water.

Douglas Fairbanks

-IN-

"Down to Earth"

The ever-resourceful, optimistic, philosophical "Doug" Fairbanks, Idol of the screen, in a play of his own making.

Bridge parties, matinee dances, tea parties and sumptuous dinners, sound very unlike what we know of the versatile Douglas Fairbanks, and he really doesn't care very much for them, as you will find out on seeing his latest production containing the famous Fairbanks' smile. But he loved the girl enough to stand for them for a while, and then the inevitable happened. How he got back to nature, and how he converted his sweetheart to his way of thinking and living, make a highly amusing and entertaining story. One could forgive pretty Eileen Percy most anything, even her ambitious society ideas.

Majestic Theatre--Tuesday

The Most Successful Photoplay Ever Shown in New York

WHERE ARE MY CHILDREN? The Play That Stopped Traffic on Broadway

This marvelous photoplay created a sensation on Broadway. It compelled the admiration of press, public and clergy. Physicians and educators gave it their unqualified endorsement. It is a dignified presentation of the subject of birth control, produced by a reverent and master hand. Enthusiastically endorsed by Rev. C. H. Parkhurst, the best known clergyman in America, by Father John J. Hughes, Superior Paulist Father of the United States, and others of equal prominence.

Your picture, "Where Are My Children?" is a modern Bible and should be seen by every soul in the world over sixteen years of age.--WILLIAM J. STONE, United States Senator

This popular feature has been run in our city, however, at a price out of reach of some. We viewed it personally, and consider it worthy of a return showing. It has commanded advanced admission prices at all theaters that we have ever known it to be run, in most instances to capacity houses. It is a picture that we do not recommend for children, although it is free from repulsiveness or objectionable matter for anyone. But children do not comprehend the meaning of some parts of the production, and it's better that they should not be encouraged to see it. Here for one day only, with no advance in the price.

FIVE and TEN CENTS

"THE LAW OF THE LAND" COMING TO EMPRESS THEATRE. Mme. Petrova, the famous Russian actress, will appear at the Empress Theatre Wednesday in an adaptation from George Broadhurst's well-known play, "The Law of the Land," which had a sensational long run on Broadway a short time ago. This is a Paramount photoplay directed by Maurice Tourneur. The story is of a woman, tried beyond her strength, who shoots the heart of a man, by attempts to beat her boy. The verdict of any jury would have been against her, for the circumstantial evidence was never cleared against the child, and the verdict of the inspector who was sent to look up the case--well, you must see that for yourself. Appreciate it at the Empress Theatre Wednesday.

FAMOUS FRENCH ACTOR TO SHOW AT MAJESTIC. "Better even than Sarah Bernhardt!" This was the conclusion reached by three famous New York critics when they saw the work of Albert Signer in "Mothers of France." Now Mr. Signer is to be seen in another photoplay bearing the title of "Atonement," and in this production his wonderful artistry, his great ability and his polish is seen to the best possible advantage. "Atonement" is released in the Brady-International Service--World Pictures in which the most famous French screen artists are seen in American plays.

OLIVE THOMAS MAKES SCREEN DEBUT AT MAJESTIC. One of the strongest supporting casts ever seen in a single photoplay has been selected for the debut of the beautiful Olive Thomas, the former Miss "Dollie" who will make her initial appearance on the screen in "Madcap Madge" by Rex. Her first day and night will be made by Olive Thomas, who is being presented by Thomas H. Ince as star of the Majestic Monday. Charles Gunn, who is making a notable debut in "The Madcap Madge" with Louise Glamm, "The Snarl" with

JONES-KENNEDY CO.

SEVENTH and INDIANA—WICHITA FALLS, TEXAS

AT THE CHURCHES

First Methodist Episcopal Church
(Corner Seventh and Lamar.)
Morning worship with sermon, subject, "Faith, that God Answers." The organist will play as voluntary "Prelude in E" by Hollins. Mr. Taylor will sing a special solo. The Sunday school at 9:45. Robert Carey, superintendent, trained teachers, changing programs and special music makes all inviting to people not well acquainted in the city. A call meeting of the entire official board at the church Sunday afternoon at 3 o'clock.
3:30 p. m. the pastor will conduct the Junior League and Catechism class.
7 p. m. meeting of the Intermediate League with Mr. H. E. Bachman as superintendent. All should be present for the election of officers.
7 p. m. Epworth League meeting. Mrs. Richardson, president. Mrs. Pearce will lead the discussion, subject "Faithfulness in Work."

This is the church training camp. You may volunteer.
8 p. m. song and prayer service led by the Boy's choir and orchestra. Title of the organ voluntary is "Prayer from Der Freischutz" by Weber. Subject of sermon "Unforgiven Sin." Special music by Mr. Taylor.
Monday 3 p. m. meeting of the Ladies' Aid.
Wednesday 8 p. m. prayer meeting.
Friday, Intermediate League Social.
Saturday 8 p. m. Fourth Quarterly Conference. Bring your friends to services you can't afford to miss.
H. F. DRAPER, Pastor.

Lutheran Church (Mo. Synod)
(Eleventh and Holliday Streets.)
Sunday we shall celebrate our Annual Mission Festival. In the morning services Rev. A. J. Birnbaum of Vernon, will preach in the German language. Services will begin at 10:30 a. m. In the afternoon services Rev. E. M. Rob-

ert of Dallas will preach in the English language. Services will begin at 2:30 p. m. A cordial invitation is extended to everybody to worship with us.
Monday morning our parochial school will open. We have been fortunate in securing the services of Prof. John Kollmeyer of St. Louis for our school. There will be no tuition charged to anyone, whether belonging to the congregation or not.
C. M. BEYER, Pastor.

First Evangelical Church.
(Corner 15th and Broad.)
Rev. L. Newman, district superintendent, will preach on such Friday and Saturday night at 8 o'clock. Quarterly conference immediately after the Friday evening service.
Rev. Newman will also speak Sunday morning at 11 o'clock and evening beginning 8 o'clock. Holy communion following morning worship. In the afternoon beginning promptly at 6 o'clock he will give a talk to the Juniors. All Juniors urged to attend.
Sunday school 9:45 a. m. with Albert Laukhuf superintendent.

The services for the week will be prayer meeting Wednesday 8 p. m. and the Ladies' Aid 2:30 Monday afternoon.
A cordial invitation to all.
G. E. Alstadt, Pastor.

First Presbyterian Church.
The session has employed Mr. Krebs to direct the choir on Thursday nights and Miss Veale as chief soloist for Sundays. This insures us good music for the year and we can promise our audience a musical treat at every service. Miss Veale will sing Sunday.
The subject of the Sunday morning sermon is: "The Pupil Greater Than The Teacher." A night Mrs. Lindsay, secretary of the Board of the Sound of the West, will deliver an address. Mrs. Lindsay is a brilliant woman and will please her audience. The Ladies' Aid society will meet Monday at 3:30 p. m. N. F. GRAFTON, Pastor.

First Baptist Church.
Sunday school 10 a. m. Preaching both morning and evening by Rev. Wilcox of Fort Worth. Morning service 11 a. m., evening 8 p. m. Regular prayer service at the church Wednesday evening at 8 p. m. Pastor O. L. Powers will return next week.

Floral Heights Presbyterian.
The services of next Sunday promise to be of unusual interest throughout. Sabbath school at 10 o'clock. At this time the superintendent, J. A. Giddings, will announce the program for review Sunday.

Junior congregation from 11 to 11:20, the subject of the sermon will be "Bolts and Hinges." Specially good singing by this live congregation. Thirty-eight boys and girls under 16 attended this service last Sunday.

Senior congregation continues right on after the junior closes. While the addition is being built to the church house, we will consider some of the principles of "Building a Working Church." So that will be the subject for next Sunday morning.

Young People's Society of C. E. at 7 o'clock. Miss Ruth Giddings, leader, with the subject "The Christian Power." The Endeavorers have pledged themselves specially to take some part in the meeting next Sunday night. Sunday night at 8 o'clock the pastor will preach the first of a series of sermons on the Book of Jonah. The subject will be "Fishes" or the Fare from Joppa to Tarshish. This will be based on the first chapter of Jonah.

Miss Lucille Henderson who leaves to enter Boston Conservatory Monday will sing at the concert at 8 o'clock.
J. Walter Hazard, Pastor.

First Methodist Church.
(Corner Seventh and Lamar.)
GUS BARNES, Pastor.
E. C. HUCKABEE, Assistant.
Sunday school 9:30 a. m., C. W. Sneider, Supt. in charge. Preaching by the pastor 11 a. m. Subject: "Moving Forward." Exodus 14:15. At 8 p. m. the pastor will preach from the subject "Taking Stock." Ladies' Aid, Senior and Intermediate Leagues 7 p. m. If you are a stranger in our city, come and worship with us, or if you have just moved to town, come and cast your lot with us. Our congregations are large, our music good, our communion helpful. Don't stay at home on the Sabbath, go to church, if your church don't suit you go to some other. We will be glad to have you accept a new and take part in our service. You will find a welcome.

Church of the Good Shepherd, Episcopal.
Morning prayer at 11 o'clock with out sermon. No service at the evening hour.

First Christian Church.
Sunday school opens at 9:30 sharp. The Greenville-Wichita Falls Sunday school contest is waxing hot. To be counted you must be in your place. No one counted after 10:15. Special organ prelude at 10:15 by Mrs. Stange. The church service proper begins at 10:45. Sermon subject, "The Secret of Success." The Junior, Intermediate and Senior E. E. meets at 7 sharp. The evangelistic church service begins at 8 and closes at 9:15. Sermon subject "The Demand of God—a Verdict." Prayer meeting Wednesday night at 8. Special talk by the pastor on "The Rule of 3 in Life." A home-like welcome awaits you in this home-like church. Miss Agnew, choir director. Bradley, superintendent of Sunday school. Mr. Gerald Pond, leader of orchestra.

Fourth Street Baptist Church.
The pastor will occupy the pulpit both morning and evening at the Fourth Street Baptist Church. Sunday School at 9:45 a. m. Sunbeam Band at 3 p. m. B. Y. P. U. at 7 p. m. Women's Alliance. Monday 4 p. m. Prayer meeting. Tuesday 8 p. m. A cordial invitation to strangers and visitors among us.
T. E. CANNEDY, Pastor.

Nazarene Church.
(Corner of Fifth and Bluff.)
Sunday school at 9:45 a. m., preaching service at 11 a. m. and 8 p. m. A cordial invitation to all.
Jas. N. Cooper, Pastor.

SCHOOL BONDS ELECTION IS TO BE HELD IN BURKBURNETT
Next Saturday, September 15, is the date for the election to determine if bonds to the amount of \$18,000 will be voted for the purpose of improving our school building and erecting another building.
It is not necessary perhaps to recall the former efforts along this line, but it should be impressed upon the minds of the patrons of Burk Burnett school that another building is an absolute necessity. It was badly needed last year, and our scholastic population has increased greatly during the past 12 months. School begins next Monday and every room will be crowded, if it is really possible that all the children may be cared for in any manner. Burk Burnett Star.

Kirschbaum Clothes

ALL-WOOL—100 PER CENT AND NO COMPROMISE
NEVER in all clothesmaking history were cotton-adulterated fabrics so numerous, never were pure-wool fabrics so rare . . . Yet in our Fall and Winter Kirschbaum suits there is no taint of cotton to steal away the lustrous, tailorable qualities which wool naturally possesses . . . If you want clothes of all-wool—all-wool and nothing else—look for the Kirschbaum label as your guide and guarantee . . . \$20, \$25, and \$30

MUCH PRELIMINARY WORK
Making of Detailed Estimates is Under Way, and Date of Completion of Labor Cannot Now Be Forecast.

But two stretches of the Wichita county roads to be made permanent remain to be surveyed, such has been the progress of the special road engineer, J. B. Crockett, and his assistants during the past few days. These roads are between Wichita Falls and Burkburnett and Wichita Falls and Iowa Park and they will be surveyed the first of next week. Since Tuesday when the survey was started the party has covered the roads to Seymour, Petrolia, Howland, the Valley road and the Lake road, making splendid progress in the opinion of Judge Harvey Harris of the county commissioners' court.
Judge Harris gave it as his opinion that the actual laying of the roads would probably not begin till December or possibly January. There is a great deal of work to be done after the roads have been surveyed. All the data and figures have to be worked up, estimates made and approved, and it is figured that there is at least two months office work to be done before the work on the roads will begin. The completion of the roads is a matter which it is practically impossible to estimate, as the questions of material, weather, labor, and so forth enter so largely into the calculation that only the very vaguest guess would be possible. From two to three months, however, after the work on the roads is commenced, should see very substantial progress, even with a good deal of handicap.

Children at Pasteur Expect to Return to Homes Here Thursday

Clara Lee Stone and Arvil Poole, the two children bitten by a dog affected with the rabies are expected to return Thursday of this week from Austin, where they have been undergoing treatment at the Pasteur Institute for the past three weeks. Both children have suffered no ill effects from the poison received from the dog bite, due to the fact that they were taken immediately to the institute for treatment, according to authorities there.
Mrs. E. R. Lofton mother of Clara Lee Stone, accompanied her daughter to Austin but returned some time ago, when it was seen that neither children were in danger.

Baylor County Will Take Advantage of the Reclamation Act

Special to The Times.
Seymour, Texas, Sept. 15.—Baylor county citizens intend to take advantage of the opportunity offered by the adoption of the conservation and reclamation amendment. More than 20 years ago a survey was made on the Brazos river and engineers pronounced a project that would irrigate 20,000 to 40,000 acres as feasible. At that time the limitations prevented the project from being carried out. There is already agitation for a reopening of the project.

McCONNELL BROTHERS 819-821 Indiana Ave. and 712-714 Ninth St.

WATER SITUATION IN OIL FIELDS IS STILL MOST GRAVE

RAINS ARE BADLY NEEDED IN ALL WICHITA FALLS SECTION.

WORK MAY BE CURTAILED

Humble Oil and Refining Company's No. 13 Serran is Still Flowing 2 Thousand Barrels Each Day.

The water situation in the oil fields adjacent to Wichita Falls, is still very grave and unless it rains very soon, work will be curtailed to almost a complete shut down. Nothing of importance has transpired during the past week. Panhandle Refining Co.'s No. 5, L. F. Rammick has been tubed and a packer set, the well is flowing 800 barrels a day. Humble Oil and Refining Co.'s No. 13, Serran is still flowing a thousand barrels and their No. 10 Schultz is flowing 500 barrels a day. Fishing

jobs in their Nos. 14 and 15 Serran have delayed the completion of these wells.

Godley Oil Co. No. 1, J. F. Wagner, northwest of Burkburnett, got three feet of sand at 1872 that looked rather promising, they drilled 10 feet deeper and it is believed that they went into water. They will set 6 inch casing and test the well.

Wichita Fuel Development No. 1, Fassett is drilling close to 2000 feet and will likely be added to the duster list. Their Weeth No. 1, is drilling at 1600 feet. Clasy Oil Co. are rigging up on the Creamer and should be drilling next week. Taylor and others have let the contract to drill their No. 1, Burnett to A. S. Smith, and he is rigging up and expects to get to drilling early next week.

Adams Oil Co. have a fishing job in their No. 4 L. F. Rammick, their No. 3, is drilling at 1550 feet and will probably set casing Monday. Producers Oil Co. No. 2 Prechel is drilling at 1200 feet and their No. 2 Friedline is spudding in. Frank Kell et al have started up on their No. 1, Hserman, this well has been shut down for water for the last five months.

It is reported that the Spring Oil Co. No. 1, Dale ranch will be started drilling next week, arrangements having been made to haul water, this well has been shut down at 900 feet for some time. Lockridge et al No. 1, Lockridge is drilling at 1825 feet, it will probably abandon it at 2000 almost a complete shut down. Nothing of importance has transpired during the past week. Midwest Oil Co. No. 1, Skiles, is drilling at 1200 feet. This well has had a number of shallow sands and the owners are very optimistic as to the result. Developers Oil & Gas Co. No. 2, Wilson ranch has been abandoned at 1643 feet and the casing pulled. Fortuna Oil Co. No. 1, Griffin lands is again drilling at 1870 feet.

NEW AUTO SUPPLY STATION OPENED IN WICHITA FALLS

Last week was very quiet in automobile circles, less than thirty sales being reported. Many dealers reported no sales, and five was the highest reported by any one dealer.

The S. Bemrod Auto and Supply Co. will open their new place of business 708 Eighth street this week. Mr. Bemrod, who came here a few months ago from San Francisco, has opened an up-to-date place, carrying a full line of Ford parts, accessories and three good lines of tires—the Michelin, the Racine and the Savages—as well as handling the agency for the Chalmers, the Chandler and the Harroun cars.

Mr. Bemrod is equipped with a first-class repair shop, and has one of the most modern filling stations in the city.

Report Fed Sales. The McMullon Auto Co. report retail sales to Annie Reynolds of Petrolia, S. S. Bell of Crowell, Joe Cross of McGeachie, and J. M. Linker of Petrolia; and a wholesale deal with W. W. Bynum, Wichita Falls.

The Staley Motor and Supply Co. made sales to G. E. Bates, city, and to Tom Powell, Burkburnett. Both cars were Buicks. This house unloaded a carload of Buicks last week.

McFall and Orth sold Dodge cars to Jack Strassel and J. F. Parker, Burkburnett, and R. J. Scheurer and George Keith, city.

Chenault and Wheat sold Kissel Trucks to B. F. Middleton, Gibtown, and to Fine and Elmore, city. They also sold a Mitchell car to F. N. Meyers, Burkburnett.

Get Mitchell Cars. Chenault and Wheat received last week a carload of Mitchell cars, in special colors. These cars will be exhibited at local fairs and auto exhibits, and are said to be quite the smartest thing in colored cars.

The Moon Auto Co. sold one car to H. Hundt, and a Republic truck to Wayne P. Roberson, city. A carload of Moon cars is expected this week.

The Peter Car Co. report sales of Premier cars to Jack Farabee, city, and Dr. Gains and J. L. White of Bonham. W. S. Willis left Friday night for Dallas to drive up four Premiers.

The Lloyd Weaver Co. report the sale of a Hudson Super Six to D. A. Smith at Burkburnett, and several Chevrolet cars.

Oil Leases Recorded. R. Brannon and wife to J. I. Staley, P. P. Langford and N. B. Chenault, 140 acres on the west side of block 89, and 20 acres on the south side of block 95 of the subdivision of the Red River Valley Lands. Leased for one year in consideration of \$900.

W. M. Gaines to J. I. Staley, P. P. Langford and N. B. Chenault, 80 acres, being the north half of block 56 of the subdivision of the Red River Valley lands. Consideration \$1100.

WICHITA GUN CLUB SCORES IN SHOOT PROVE TO BE GOOD

ORGANIZATION EXPECTS TO KEEP UP REGULAR FRIDAY EVENTS.

The attendance at the shoot of the Wichita Gun Club was much better Friday than the week before. Some very good scores were made, considering the high wind, which caused the targets to keep the shooters guessing.

C. J. Pate was high with 46 breaks out of a possible 50. W. D. Dillard, of the Winchester Arms Co., and F. M. Faurote of the Dr. Pont Powder Co. were present, Mr. Dillard taking part in the shoot.

According to a statement by Mr. Pate yesterday, the club intends to keep up the regular shoot every Friday, and that an effort will be made to secure several new members.

The score made at the Friday shoot:

J. G. Kilgore	18	19
Frank Wood	13	16
Dillard Anderson	16	
W. D. Dillard	17	20
G. C. Wood	20	22
E. G. Hill	20	23
Roy Artley	22	22
C. J. Pate	22	24
Fred Andrew	7	17
S. A. Wilfong	18	21
Joe Henson	17	17
Carl Yeager	22	
St. Clair Sherod	21	

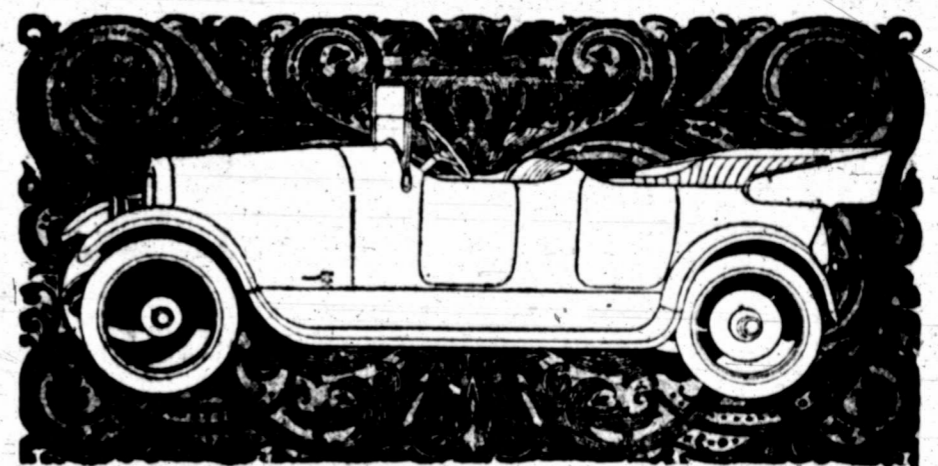

LUTHERAN PASTOR RESIGNS FROM CHURCH AT CLARA

Rev. J. W. Horstmann of Clara, pastor of the Lutheran Church and teacher of the parochial school at that place has resigned, after years of faithful service in both capacities.

He is arranging to leave this country during next month for New Wells, Mo., where he has accepted the pastorate of the Lutheran congregation.

His successor at Clara has not been announced at this writing.—Burkburnett Star.

MARMON 34

The MANY-YEAR CAR

The newer cars are showing strongly the influence of Marmon scientific construction and long, low design.

The Marmon 34—now well in its second year—is unequaled by cars of this class for tire and gasoline economy, light weight, balance, ease in starting and stopping, rapid acceleration, and luxurious comfort at all speeds.

Except for a few mechanical refinements, this year's Marmon 34 is last year's Marmon 34.

By the simple process of changing the color the Marmon owners of 1916 become possessors of cars as beautiful and efficient as the buyers of 1917.

It is worth much to own a car that does not put you to

the necessity of buying another model each year to keep in vogue.

That should not be necessary. With a Marmon it is not.

We will welcome your request to ride or drive in this car over any stretch of road you select.
