

ARGUMENTS BEGIN IN FERGUSON IMPEACHMENT TRIAL

ALLIED WEDGE DRIVEN MILE

ALL POSITIONS TAKEN FIRMLY HELD DESPITE HEAVY COUNTER BLOWS

The war situation today is summarized by the Associated Press as follows:

Today found the British in Flanders holding the valuable ground they gained yesterday when they surged forward on an eight-mile front on both sides of the Ypres-Menin road...

All the reports emphasize the completeness of the success. The British hold Veldehoek, Zevenkote and numerous strategically important farms and wooded tracts which had been heavily fortified by the Germans.

Late yesterday the Germans began to counter-attack, but every thrust was effectively dealt with by the British guns, which wiped out the advancing lines of infantry. The heavy casualties sustained in these fruitless attacks evidently impelled the German command to order their cessation...

Today's advances further announce the resumption of British attacks this morning southwest of Gheluvelt, where a position desired by the British was still held by the Germans. This was attacked by British forces at 9:30 a. m. From none of the other fronts were there indications in morning dispatches of operations of more than ordinary importance.

Completeness of Success Given In Statements at Headquarters

Field Marshal Haig in later reports regarding the British offensive on the Belgian front to the east of Ypres yesterday when the British troops pushed through the German lines for a distance of more than a mile, says that the completeness of the British success is confirmed by detailed accounts of the battle.

The British war office, after the receipt of Field Marshal Haig's report today, issued this bulletin:

More detailed accounts of yesterday's battle confirm the completeness of our success. During the evening local attacks delivered by us in the neighborhood of Tower Hamlets and northeast of Langemarck cleared up a number of strong points and completed the capture of our objectives in these localities.

British Casualties Prove Light During First Day of Great Advance

British Headquarters in France, Sept. 20.—The British offensive which began at dawn yesterday when the forces of the British army pushed through the German lines for a distance of more than a mile, says that the completeness of the British success is confirmed by detailed accounts of the battle.

Such redoubtable strongholds as Nieuport, Ghencorse Wood, Iverness Copse and Shrewsbury Forest, which have withstood numerous fierce assaults recently, were entirely overrun by the British, who reached points well beyond them. It was a day of great success for the British arms, for the possession of wooded heights which they captured east of Ypres, unquestionably is of crucial importance, since these dominating positions form the keystone of the German structure of defense in this sector.

The greatest gains have been made between St. Julien and Hollebecq, which was as had been planned, for with our counter-attacks the important defenses just mentioned.

Flower of Army.—The troops that went out to the attack represented some of the finest in the British army. Their advance was preceded by one of the most perfect and heaviest barrages yet attempted. The men went over the top stripped light and as a result of this, coupled with the fine artillery support, they were enabled to negotiate the first stages of the difficult ground rapidly. They had swept through Ghencorse Wood, Iverness Copse and the eastern part of Shrewsbury Forest by 8 o'clock, two hours and 30 minutes after the attack began, and other advanced positions were reached with equal rapidity, which is a remarkable achievement in view of the marshy nature of the ground, due to heavy rains.

Points of Resistance.—On the left of the line attacked considerable forces of the enemy during the afternoon and evening his casualties were unusually great. The clear light of the latter part of the day enabled our troops to observe the signs of impending attacks and in every case the advancing lines of German infantry were destroyed by the continued fire from our rifles and machine guns and artillery.

AMERICAN ENGINEERS EMPLOYED TO MOVE TONS OF SUPPLIES TO FRENCH FIGHTING MEN AT FRONT

By Associated Press. American Training Camp in France, Thursday, Sept. 20.—By day and by night the men of the American regiment of engineers which has taken over an important line of French strategic railways are hauling tons upon tons of ammunition and other supplies to the French army.

The American engineers have turned over as a unit to the French and are getting all its supplies except clothing from the French government. The officers and men already have been under German bombs and machine gun fire from airplanes.

How 'The Jones Family' Played Into the Hands of Kaiser's Agents Related in Trial in Oklahoma

Enid, Okla., Sept. 21.—While waiting to testify as next witness in the trial of 11 alleged members of the "Jones family" in federal court here today, J. C. Havasod, about 60 years of age, attempted to commit suicide by slashing his throat. Bystanders overpowered him but not until he had succeeded in partially severing his jugular vein. Physicians believe he will recover.

Witnesses late yesterday and early today testified that organizers of the "Jones family" admitted the organization was affiliated with the Working Class Union and Industrial Workers of the World and that through an office in Chicago received the assistance of German agents.

The morning session was taken up with the testimony of James Welsh, a farmer who lives east of Chickasha.

NEW GERMAN INTRIGUE IS REVEALED

BERNSTORFF ASKED FUNDS TO INFLUENCE CONGRESS; LANSING GIVES MESSAGES

Washington, Sept. 21.—Secretary Lansing today made public an astounding addition to the series of disclosures covering German intrigues in America and elsewhere, a message sent by Count Von Bernstorff in January of this year to the Berlin foreign office, requesting authority to pay out \$50,000 to influence Congress through an unnamed organization, apparently known to the Berlin authorities.

Count Von Bernstorff indicated in his message that money had been paid the organization on former occasions to perform the same work.

Text of Message.—The text of the message, made public without comment, dated January 22, 1917, follows: "I request authority to pay out up to \$50,000 (fifty thousand dollars) in order, as on former occasions, to influence congress through the organization you know, which can perhaps prevent war."

"I am beginning in the meantime to act accordingly. In the above circumstances a public official German declaration in favor of Ireland is highly desirable, in order to gain the support of Irish influence here."

The text of the message was given out without comment in the same manner as were the messages of Count Luxburg, German minister to Argentina, which have disrupted relations between Argentina and Germany, and the letter of German Minister Von Eckhardt in Mexico City, recently made public.

Whether state department is in possession of other evidence indicating the ambassador's activities has not been revealed, but the extraordinary disclosures already made have fixed the belief that agents of the United States government have collected and compiled the entire story of German duplicity and intrigue and that additional chapters will be added.

Known of Sub Campaign.—The reference about avoiding war is taken as indicating that Ambassador Bernstorff had prior knowledge of his government's intention to proclaim a merciless widespread submarine warfare and that he was equally confident that the United States government could not easily be placated by mere promises.

The German announcement of its intention to expand its submarine activities was not made public until January 31, when the world was startled not only by the determination to remove all restrictions but by the statement that it would become effective on the following day.

Not Actual Briber.—It has not been assumed that the ambassador actually attempted to bribe or personally influence any member of congress and doubt that such was his purpose is supported to some extent by the comparatively

DECISION IN CASE IS EXPECTED

RENDERED TOMORROW AFTERNOON; EACH SIDE TO SPEAK FOUR HOURS

Austin, Texas, Sept. 21.—Counsel for both sides in the case of Governor James E. Ferguson, on trial before the Senate high court of impeachment, this afternoon announced they had closed the taking of evidence.

The question of arguments came up next. M. M. Crane, chief counsel for the House board of manager, in reply to a question from Senator Hopkins, said he was ready to submit the case without arguments, but that the governor had the privilege of presenting arguments, and, if he did, the proponents must do so, also.

It was agreed both sides should have four hours. Will R. Harris began the arguments against the governor at 2:20 p. m.

Arguments this afternoon were to continue until 5 p. m. They will be resumed in the morning, and it is hoped to reach a vote early in the afternoon.

Arguments are on both the charges and the governor's demurrer.

FERGUSON WILL MAKE CONCLUDING ARGUMENT IN HIS OWN BEHALF

Alcohol Supplies Will Be Used For Making of Vinegar

Petrograd, Sept. 20.—With a view to promoting temperance permanently, the provisional government has ordered that all supplies of alcohol at distilleries and on license premises shall be used for the manufacture of vinegar and mineral waters. These products, it is specified, shall not contain more than 1 per cent alcohol.

Gov. JAMES E. FERGUSON

Four French Ships Sunk During Week, States War Office

Paris, Sept. 21.—Two French merchantmen of more than 1,500 tons and two vessels of less tonnage were sunk by enemy submarines in the week ending Sept. 19, according to an official statement given out today. In this period 980 vessels arrived and 19 and 59 in the state of Texas to work during the period of the war, whether such person has property or not. The bill authorizes the governor by assign such persons to work carried on by the state or by counties or by private employers.

Every Able-Bodied Man In Texas Must Work If This Bill Passes

Austin, Texas, Sept. 21.—Senator Dayton has introduced a bill in the senate, which would require every able bodied man between the ages of 18 and 59 in the state of Texas to work during the period of the war, whether such person has property or not. The bill authorizes the governor by assign such persons to work carried on by the state or by counties or by private employers.

FRENCH DEPUTY WILL BE PROSECUTED IN COURTS

Paris, Sept. 21.—The report of the special committee approving the appeal for the authorization of legal proceedings against Deputy Louis Turrel was adopted by the chamber of deputies last night.

'SHOOT OFFICERS' ORDER GIVEN TO F. L. P. A. MEMBERS

Abilene, Texas, Sept. 21.—G. Davis was recalled to the stand Friday morning in the conspiracy trials of 50 F. L. P. A. members. Defendant Bryan told the lodge at Odessa that if any officers gave them guns to use in war they should shoot the officers and go home, he testified.

Discusses Overdraft

Mr. Harris declared the fact that the governor was notified of an overdraft on his official account and paid it, showed that he knew there was something wrong with the account, even though he has testified that he knew nothing of \$50,000 having been paid from it to settle his note with the First National Bank of Temple, August 23, 1915.

Day's Early Proceedings

Austin, Texas, Sept. 21.—Counsel for both sides in the impeachment trial of Governor James E. Ferguson would be completed by noon when the Senate high court convened today.

COST OF LIVING CUT IS OBJECT OF NEW LEAGUE

LOCAL CHAMBER OF COMMERCE
GETS PAMPHLET FROM
NEW YORK

An organization known as the American Committee on the High Cost of Living has recently come into being in New York. Literature explaining the object of the organization has been sent out all over the country to such people as are likely to be interested, and the Chamber of Commerce here is the recipient of two pamphlets dealing with the work.

It is proposed to enroll fifty thousand members at once, with the prospect of passing the Kelly Bill through Congress. According to the pamphlets, the bill empowers the president to requisition all natural resources, such as coal, oil, steel, timber, and water power, and to sell the products at cost.

Purchase Price.
The present owners of these resources shall be paid for their equipment, but nothing for the inherent or site value, of any natural resource in land, nor for the inherent value of power in navigable and non-navigable streams, nor for good-will, nor for other intangible elements.

The bill, according to the literature distributed, provides the only effective method to reduce the price of coal, steel, gasoline, oil, timber, and other natural resources. Half a billion dollars has been appropriated for paying the owners of title of such natural resources and plant and equipment, and two and a half million dollars has been appropriated for the administration of the act.

Expect Reduced Prices.
The committee on the High Cost of Living believes that the passage of the bill will mean reduced prices, and will lighten the present hardships on the poor people, and that the only way to obtain these results is by organization.

There are three classifications of membership—active, \$5.00, associate, \$2.00, and contributing, \$1.00. There are also free memberships. "If the high cost of living has hit you so hard that you can't give anything now, get your friends to join, and send us your name as a free member. We have hundreds of them now, as well as hundreds of paying members," says the announcement.

Any interested person may make checks payable to John J. Hopper, Treasurer, 320 Broadway, New York City. Literature will be sent upon application. The executive committee consists of Charles H. Ingersoll, chairman; John J. Hopper, secretary; C. Marsh, F. L. Cranford, F. C. Howe and F. C. Leubuscher.

Dr. H. B. Collins Will Conduct Conference At Methodist Church

Farm Labor Shortage Statistics Sought By Chamber Commerce

The Texas Industrial Congress has issued circulars to all the Chambers of Commerce in the State, with a view to compiling statistics on the shortage of farm labor in Texas. With the circulars are blank forms for the filing of information on the situation, and the ground seems to have been covered pretty thoroughly.

The main causes of the shortage are found to be the creation of the vast army, distributed now in the various camps; the exodus of negroes into the northern states on account of the high wages paid there; the exodus of many Mexicans on account of the selective draft law; and the heavy drought which has caused many families to migrate to other parts.

How far these causes have operated to reduce the supply of labor in each community, and what can be done to

GLAD TO TESTIFY

Says Watoga Lady, "As To What Cardui Has Done For Me, So As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly. . . Sometimes would go a month or two, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. Then . . . it would last . . . two weeks, and was so weakening, and my health was awful.

My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three. . . I gained, and was well and strong, and I owe it all to Cardui.

I am married now and have 3 children. . . Have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others."

If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years. Begin taking Cardui today. It may be the very medicine you need.

WHY THE SONORA Phonograph IS BETTER

- 1—The quality of tone is admittedly unrivalled.
- 2—The Motor (made in Switzerland) runs about twice as long per winding as do motors of other similar priced machines.
- 3—The Sonora is designed (not adapted) to play all makes of disc records; steel needle, sapphire, and diamond point.
- 4—The Sound Box does not deteriorate with age nor does it coarsen and harden the tones as it grows older.
- 5—The Sound Amplifier is made under scientific principles, known only by us, and is the result of our long experience in phonograph manufacturing.
- 6—The Patented Tone Control is at the Sound Source—the correct place, and alters the volume, not the quality of tone produced.
- 7—The Patented Envelope Filing System is unique and wonderfully convenient, each record being instantly available.
- 8—The Patented Cabinet Work is rich and distinctive, the graceful "bulgy" lines being exclusively Sonora's.
- 9—The Patented Automatic Stop is thoroughly reliable and requires really no attention.
- 10—The Patented Motor Meter and Spring Control are very convenient, telling how much power is left in the motor.

BANDITS SOUGHT IN MISSISSIPPI; HELD UP TRAIN

By Associated Press.
Jackson, Tenn., Sept. 21.—Heavily armed posses left here early today to aid hastily organized forces of police and sheriff's deputies from McNairy and Madison Counties in the pursuit of three bandits who late last night held up a northbound Mobile and south of this city and dynamited the express car safe but, according to reports to local railroad officials, found only a miscellaneous lot of merchandise packages of little monetary value. It was said that a package containing \$12,000 was among the original express shipments aboard the train which left Mobile for St. Louis yesterday morning but the shipment of currency was deposited at Corinth, Miss., when the train reached there early last night to be forwarded on another train today.

According to trainmen the engine crew was confronted by the three men who were masked, when the train was near the town of Finger, Tenn., and forced to bring the locomotive to a stop. The engineer, fireman and express messenger then were driven from their posts at the point of revolvers, the express car uncoupled from the train, and with one of the bandits acting as engineer, taken to a point about ten miles further where it was found later, deserted, with the safe blown open.

No attempt was made to molest the passengers.
Before starting the engine the bandit who had taken the place of the engineer told the train crew "not to worry" about engine. "I'm an old engineer, pardner, and know how to run her," he said. Then they were off.

Fruits Go to Waste In America, But Are Treasured In England

By Associated Press.
London, Sept. 21.—Reports of great amounts of fruit going to waste in Middle West orchards cause the Americans here to sigh explosively. Fruit in England is treasure. Wee begone little apples sell in London from 15 cents a pound upward. The standard price for peaches is a quarter each, and the snops display them like jewels, each peach having a

square foot of varicolored clinky paper about it. Weakened little oranges are six cents each. Grapes are above 25 cents a pound. One reason the supply of fruit is greatly diminished is because of an enormous demand from the war hospitals. The average Englishman doesn't complain, as he rarely eats fruit with breakfast, and for dinner tart, there has been an abundant harvest of plums.

M. M. COOKE ELECTED CITY ENGINEER AND NEW STREET SIGNS ARE ORDERED AT REGULAR SITTING OF COUNCIL

Election of a city engineer and the reaching of a decision to erect 350 additional street signs with which to mark certain thoroughfares were among the features of the regular weekly session of the city council, held in the city hall last evening.

placed at street intersections in the city where signs have not already been placed. This matter was brought up in a council meeting some time ago, and Mr. Reichelt was requested to get in touch with the manufacturers and report to the council the cost. After he made his report last night he was instructed to place the order.

The scarcity of iron and metal of all kinds at the present time makes it impossible to state just when the signs will be erected, but it is thought that work can be started within the next 50 or 60 days.

Chas. Pogenpohl, manager of the Western Union Telegraph Company here, appeared before the council and application for permission to erect a self-supporting cable pole in the alley between Indiana and Ohio avenues on Eighth Street. The permission was granted.

Permission was granted Lon Morisset to install a gasoline filling station at 814 Scott, and also to the People's Ice Company to install one at their plant on Pecan Street.

Bills against the city were allowed and ordered paid. Mayor Britain presided at the meeting at which all members were present.

Parents and Teachers To Furnish Rest Room Is Decision Reached

The immediate furnishing of a high school restroom for the girls and women teachers will be undertaken as a result of the first business meeting of the Parent-Teachers council, held Thursday afternoon at the high school.

The usual routine business coming up after adjournment during the summer was attended to. Mrs. J. W. Lee, president, presided and there was a splendid attendance of teachers and parents.

The school board has given the council use of a comfortable room adjoining the auditorium with toilet and lavatory facilities installed. This room will be furnished with comfortable chairs, a table and rug and supplied with necessary conveniences.

When the council is able to announce the consummation of their efforts for a restroom and a lunchroom for the students, it is felt that the local school will then rank as it should with the larger and more modern high schools of the country.

RED CROSS UNITS TO KEEP CITIES SANITARY, PLAN

Washington, Sept. 21.—Appropriations to establish Red Cross Sanitary Units for the protection of health in districts surrounding army cantonments were announced today by the Red Cross War Council. Twelve cities have now requested the organization of the Red Cross in cooperation with the local health authorities to prevent the spread of disease or epidemics, and in making the communities surrounding the camps safe for the soldiers.

The four latest cities to receive Red Cross aid in sanitation are Newport News, Va.; Ayer, Mass.; Atlanta, Ga.; and Chillicothe, Ohio.

At Newport News large shipyards and an aviation school make the protection of the health of the inhabitants particularly important. To begin the work here, \$21,000 has been set aside.

Three public health nurses have been assigned to Ayer, Mass., for which \$5,000 is provided. They will work with the Massachusetts State Board of Health, which has now established a very efficient organization for taking sanitary measures around the cantonment nearby.

Sanitation of malaria-bearing mosquitoes will be one of the projects of the unit which will operate around Camp Gordon at Atlanta. It is to aid the personnel of the local organization in this work.

All these Sanitary Units of the Red Cross are to be placed at the disposal of the Public Health Service and State and County health authorities. Under their direction they will assist in the sanitation of districts around cantonments and army communities.

Will Aid Officials. Specifically, they will aid constituted officials in insuring the purity of milk and water supplies, and in cleaning up unsanitary places near the camps which might be dangerous as germ incubators. The inspectors will patrol the territory surrounding camp limits to enforce sanitary regulations in cooperation with the sanitary officers of the army.

In addition to the twelve Sanitary Units now authorized by the Red Cross to help protect army camp communities from disease, the Red Cross has recently prepared to equip five labor

WANTS HER BOY
WHILE IN FRANCE
TO HAVE SMOKES
"My boy will soon be in France. He
likes to smoke and while I don't like
to have him smoke, I want him to
have tobacco over there. I am sure he
and all the others who go will be
supplied if we at home do our part."
This was the statement of a mother
today in making her contribution to
the tobacco fund. That's the way to
look at it. Pretty soon nearly four
hundred Wichita County young men
will be fighting for us on foreign soil.
Surely it will be heartier and cheer them
to know that the folks at home are
standing back of them, anxious to do
anything that will help.

NEW GERMAN IN-
TRIGUE REVEALED

(Continued from page 1.)
small amount of money he asked
forty thousand dollars, it was pointed
out, would go but a short way toward
buying the influence of any congress-
man. Judiciously expended, however,
it might do much in compensating
many agents such as are now known to
have belonged to the elaborate ma-
chinery of espionage.
"Have Other Evidence."
The investigation of the German in-
trigue, but not yet revealed is
said to show conclusively a more direct
connection of the German ma-
chinery in America with the Irish ques-
tion than that indicated in Count von
Bernstorff's message. The records at
the department of justice are said to
contain the names of men implicated
in that phase of Germanic intrigues
well known in America.
Today's announcement is the first
official statement from the govern-
ment with reference to the German
ambassador's active personal partici-
pation in the maze of plots and in-
trigues conducted for Germany's
benefit in this country since the be-
ginning of the war.
The evidence of Count von Bern-
storff's personal activities, bears the
date of President Wilson's address to
congress, January 22, reciting his ap-
peal to the warring nations to enter
into peace negotiations.
Organization is Known.
The name of the organization through
which the German government
had sought to influence con-
gress, the manner in which the money
used for this purpose was ex-
pended, the previous instances and
the individuals carrying on the propa-
ganda, although not disclosed, are the
subjects of well defined suspicions at
the state department and to the de-
partment of justice whose bureau of
investigation has been conducting a rigid sur-
veillance of German activities in this
country.
Records of the department of justice
are overflowing with reports
from hundreds of agents concerning
German intrigues, some of which re-
ferred to the recall of Count von Bern-
storff, the German naval aid
and military aides.
The suggestion was made that by
"organization" the ambassador might
have meant any one of the different
so-called peace societies that were ac-
tive at that time.
It was learned that state depart-
ment officials do not know what the
ambassador did mean.
It was assumed, however, that he
referred to an organization he had
formed, although some officials were
inclined to believe that the method
of influencing was the using of pacif-
ists rather than any direct subor-
dinating of congressmen.
Lansing Keeps Silent.
Secretary Lansing adhered to his
determination not to discuss this in-
cident, although certain privileges had
been extended to the German ambas-
sador in the transmission of messages, but
only after their contents had been
made known.
"No, this was not one that passed
through this government's channel of
communication, was the reply of an
official at the state department when
it was suggested that Ambassador
Bernstorff might have used the
United States as a transmitter of the
message. While the United States
was neutral, certain privileges had
been extended to the German ambas-
sador in the transmission of messages, but
only after their contents had been
made known.

this morning. He testified regarding
\$21,000 paid out by former Governor
Ferguson before the latter turned over
to him \$101,000 of Canyon City Nor-
mal insurance money. A statement of
the insurance money received by Gov-
ernor Colquhoun and a statement of the
deposits by Governor Ferguson, with
the subsequent disbursements, also
were read to show that the entire
fund was accounted for. The governor
said his indebtedness to the Western
State Bank when he first came to
Austin was largely campaign expense,
which totalled \$31,000. His expense
for his second campaign was \$3,000,
he said.
He testified that he had not re-
ceived any interest outside the lump
sum of \$101,000 of Canyon City Nor-
mal insurance.
After Mr. Crane had asked if the
governor was positive about this and
he had replied, "I am," the witness
left the stand. This was at 10:40 a. m.
At 11:13 a. m. W. A. Hanger for the
governor asked a recess until 2 p. m.,
when he said he would have an an-
nouncement to make.

For months West Texas has been
parched by a drouth that oldtimers
say has been the worst within their
memory. Cattle are dying for lack of
food and water and the people are
leaving certain sections in numbers.
Nothing could more deeply impress
the need of impounding flood waters
for irrigation and as a supply against
a drouth for man and beast. The con-
stitutional amendment recently ap-
proved by the people will permit reclamation
and irrigation projects to be
organized. It is practically certain
that a big district will be organized
in the Big Wichita River Valley
above and below the City of Wichita
Falls. This will insure a supply of
feed for a big territory against any
drouth that can be expected. Similar
projects, although of lesser mag-
nitude, are certain to be launched in
many other sections. The adoption of
the Tillotson amendment was an
epoch event in Texas progress.

ONLY TWO CLASSES OF
PEOPLE IN AMERICA
Most of the sedition in this country
is being traced to German origin. It
is characteristic of the German sys-
tem that it exerts efforts to undermine
the loyalty of those of other nations.
Its money and favor can reach. The
German underhandness in Amer-
ican diplomacy. The Manufacturers
Record speaks plainly in this point
in its issue of September 13. It says:
"Why should any one be surprised at
the revelation of Germany's perfidy
in the matter of the Argentine? When
cable messages were sent from the
Argentine through Sweden that
Argentina thus should be sunk and
no trace left behind."
"Diplomatic history probably shows
no such degree of coldblooded perfidy
but what of that?"
"True world history shows no such
record of black crimes as have mar-
ked Germany's course since the be-
ginning of the war."
"Is it not conceivable that there
could ever have existed outside of
Hell itself, and it is almost a slander
upon Hell to mention it in such a con-
nection, such lying, treacherous, de-
ceitful, baseness, baseness of men
and women as Germany has shown
since it deliberately trained its people
to measure for world domination?"
"Why should we now be shocked at
anything which such devilish activities
of mind and body could bring forth?
We are fighting in a final life and
death struggle and yet our own coun-
try is full of German spies and con-
spirators and women professing to
be decent who are up through and
dead allied to these activities which
break with the suppurous ooz of the
lowest world?"
"Where are the now only two classes of
people in the United States. On one
side stand men and women of honor
and respect and patriotism who are
for Germany and its methods and on
the other side stand men and women
who favor Germany ally themselves as
friends and cowards of spies, con-
spirators, traitors and those who them-
selves cooperate with and encourage
to all the baseness and hell-bound
work of Germany?"

SAN ANGELO PHYSICIAN
WILL OPEN OFFICE HERE
Dr. J. P. Lynch arrived in the city
today afternoon from San Angelo.
After looking over the field an-
nounced that on or about October 1
he would open an office over the Rexall

Dr. Lynch is well known to many
Wichitans, he having practiced medi-
cine in Iowa Park for several years.
He left Iowa Park some time ago,
however, and has been practicing in
San Angelo.
He stated this morning that he
would move his family to this city
about the first of December.

Wichita Falls Man
Is Found Guilty of
Aggravated Assault
PALO DURO LAND
DEAL IS CLOSED
BY PARTIES HERE
Cecil Bailey, a Wichita Falls man,
was found guilty on a charge of ag-
gravated assault at Waurika, Okla.,
yesterday, and was given a sentence
of six months in jail. Bailey was in-
dicted for shooting a deputy sheriff.
The shooting took place when a party
of Oklahoma officers attempted to
halt Bailey on an Oklahoma road.
The officers testified that Bailey
fired the first shot, but that they did
not tell him they were officers. Bailey
shot one of the officers in the leg and
was himself shot. Bailey was tried
for assault to murder. The jury stood
9 to 3 for acquittal on this charge but
found the defendant guilty of aggra-
vated assault.
A land deal was consummated here-
today whereby J. L. and W. H. Steen
of near Graham became owners of a
six section ranch in the Palo Duro
Canyon, near Canyon, Randall county,
the consideration being \$48,000.
The land was purchased of J. B.
Gamble of Canyon, who was represent-
ed by Judge George G. Brandon, Mr.

Brandon arrived in the city late yester-
day afternoon, and has been in con-
sultation with Messrs. Kay and Akin
most of the day over the abstract and
title. It was announced however that
the deal had been closed satisfactorily,
and Mr. Brandon will leave to-
night for his home in Canyon.
It was intimated that the Steen
Brothers will place a large number of
cattle on the new ranch.
HENDRICK GIVEN DAMAGES
IN DISTRICT COURT HERE
E. P. Hendrick was given a verdict
for \$250 by a jury in the Thirtieth
District Court late yesterday in his
suit for damages against the M. K.
and T. Railway. Hendrick was work-
ing at the roundhouse when injured.
He was represented by Nicholson and
Pitgerald.

DELINQUENT TAXES SUBJECT TO SUITS AFTER JANUARY 31

Associated Press. Austin, Texas, Sept. 21.—The bill by Senator Bailey of Dallas to prohibit the filing of delinquent tax suits until January 31, 1918, and to continue all such suits now pending until that time, was passed finally. Senator Bailey explained that the purpose of the bill was to give a "breathing spell" to those hard pressed. Since the interest would have to be paid, he did not think those able to pay would take advantage of the bill. The bill applies to the entire state.

TODAY'S MARKETS

CORN DECLINES ON REPORTS OF GOOD WEATHER

Chicago, Sept. 21.—Belief that frosts last night turned out to be almost negligible gave a downward swing today to the corn market. Forecasts of warmer weather counted also in favor of the bears. Selling however, was not aggressive. Opening prices, which ranged from 4 1/2 to 10 net lower at \$1.15 1/2 to \$1.18 1/2, December, and \$1.15 1/2 to \$1.15 3/4 May, were followed by a slight rally and then a fresh decline.

Chicago, Sept. 21.—Oats went down grade with corn. Trade was the smallest witnessed for some time. A slight enlargement of wheat receipts in Chicago was noted. Minneapolis wheat stocks increased 75,000 bushels for the week as against a decrease of 120,000 bushels a year ago.

CORN: Dev. 1.18 1/2, 1.18 1/2, 1.17 1/2, 1.18 1/2. OATS: Sept. 60 1/2, 60 3/4, 59 1/2, 59 1/4. Dec. 58, 58 1/2, 57 1/2, 57 1/4. May. 61 1/2, 61 3/4, 60 3/4, 60 1/4. COTTON MARKET SHOWS STRENGTH THROUGHOUT DAY

New York, Sept. 21.—The cotton market showed renewed strength and increasing activity early today. There were 300,000 bales and not hourly buying while there appeared to be also a broadening outside demand and after opening at an advance of 15 to 23 points, active months sold 4 1/2 to 5 1/2 points net higher shortly after the call. Oct. contracts sold at 22.66 and Jan. at 22.45, an advance of 3 cents a pound from the lowest level of last week on the latter delivery. There was talk of small ginning returns for the present period as compared with last year and the forecast for showers in the eastern belt suggested further delays in picking.

The advance widened to 60 to 71 points. Here profit taking by longs caused a reaction. Toward noon prices were 30 to 35 points of the previous day. Before the end of the morning Oct. contracts had sold at 22.66 and Jan. at 22.45, or 49 to 58 points net higher. At this level demands slackened somewhat and sentiment was unsettled by reports of freer spot offerings in the south. Prices showed reactions of some 15 to 20 points around midday. A great wave of buying developed in the afternoon, urged on by reports of higher spot markets in the interior. The demand from shorts was strong and much new buying for long account was in evidence. Outside interests were said to be buyers on a large scale. The market firmed up rapidly, standing at 130 at a net advance of 119 to 137 points of nearly \$7 a bale on the strongest months.

Chicago Live Stock. Chicago, Sept. 21.—HOGS: Receipts 8,000 strong; 5 to 10 cents above yesterday's average; bulk \$17.00@18.75; light \$17.30@18.70; mixed \$17.20@18.80; heavy \$17.25@18.85; rough \$17.20@17.45. CATTLE—Receipts 8,000; steady; native beef cattle \$7.50@17.50; western steers \$6.75@17.75; stockers \$6.40@11.25; hifers \$11.50@14.00; calves \$12.50@14.00. SHEEP—Receipts 12,000; tomorrow 3,000; weak; wethers \$10.00@12.00; lambs \$13.00@18.25.

Chicago Live Stock. Kansas City, Sept. 21.—HOGS: Receipts 2,000; five to 10 higher. Bulk \$18.00@18.85; heavy \$18.25@18.95; light \$17.75@18.65; pigs \$16.50@17.25. CATTLE—Receipts 3,000 including 500 southern; steady to weak. Prime fed steers \$16.25@17.25; dressed beef steers \$11.50@15.75; southern steers \$7.00@11.50; cows \$5.50@10.25; hifers \$7.00@13.00; stockers \$7.00@14.00; calves \$7.00@13.50. SHEEP—Receipts 1,000; steady. Lambs \$17.50@18.50; yearlings \$12.00@13.25; wethers \$11.00@12.75; ewes \$10.50@12.00; stockers \$8.00@13.75; \$17.25.

Money Market. New York, Sept. 21.—Merchandise paper 5. Sterling 60 day bills 47; commercial 60 day bills on banks 47 1/2; commercial 60 day bills 47 1/2; demand 47 1/2; cables 47 1/2. Gold: Demand 4 1/2; cables 4 1/2. Bar silver 108 1/2. Mexican dollars 87. Government bonds steady. Railroad bonds steady. Liverpool Spot Cotton. Liverpool, Sept. 21.—Cotton spots small business; prices 40 points higher. Good middling 15.27; middling 15.82; middling 17.32; good ordinary 16.37; ordinary 15.87. Sales 2,000, including 1,200 American. Futures 40 points higher. Sept. 16.22; Oct. 16.52; Nov. 16.31; Dec. Jan. 15.55; Jan. 16.15; Mar. Apr. 15.27; May June 15.11. The above are all spot prices.

New Orleans Cotton. New Orleans, Sept. 21.—A stiff rise featured early trading in cotton here today, the most active months gaining 54 to 71 points in the first half hour of business. Shorts covered in volume and from buying for long account because of important proportions, being stimulated by the better inquiry for spots at higher prices over the belt generally.

New York Stock Markets. New York, Sept. 21.—Under the lead of the copper stocks the market advanced strongly at the opening today. Announcement overnight of the agreement on a price of 23 1/2 cents for copper metal, reduced speculations of a drastic reduction and reacted favorably not only on the copper shares but on the industrials generally. Gains of 1 to 2 points were made in many instances. Profit taking and sluggishness of the railroads, however, caused a quick reaction. Utah Copper lost its two points and Canadian Pacific sold two points under yesterday's close. Improvement in sentiment implied by the firmness of stocks after mid-day led to short covering. Special strength developed in Cuba cane sugar, marine preferred and American Sumatra tobacco. The stock market gave a moderate demonstration of restored confidence in the last hour, he copper again became strong with a rise of 3 1/2 points in the closing. The market closed strong. Liberty bonds sold at 99.98 to 100.02.

Worker at Aviation Camp Painfully Hurt By Fall Off Scaffold. P. A. Brown, one of the workers at the aviation camp fell through the rafters of one of the buildings Wednesday afternoon, receiving very painful injuries about the back and head. It was first thought that his condition was serious, and he was taken to the hospital. This morning, however, he is reported making satisfactory progress and it is likely that he will be able to leave the hospital in a few days. PETROGRAD TREASON TRIAL IS NOW BEING COMPLETED. Petrograd, Thursday, Sept. 20.—The taking of testimony in the trial of General Soukhomlinoff, former minister of war, who is charged with treason, and his wife, the latter charged with being an accessory, was being finished today.

Paint is an Economic Necessity. It is the best investment a property owner can make. Because unpainted wood will rot and unprotected steel will rust, white paint will safeguard both indefinitely. NEW PLAY IS DEDICATED TO FOOD ADMINISTRATOR. Washington, Sept. 21.—Food Administrator Hoover today added to his collection of sheet music, piano rolls and poems dedicated to his work one manuscript for a play, entitled "The Song of the Vegetables." Among the writers are: Michaelis Potatoes, Thomas Onions, Misses Peas, Jake Carlebin and Mrs. Cauliflower. The setting of the allegory, which the author states has been submitted to producers, is at the top of Jack's Beanstalk and economy of food is one of the morals of the tale.

"SEVENTH TEXAS" MAY LOSE PLACE IN STATE GUARD. RUMOR HAS IT REGIMENT IS LIKELY TO RECRUIT OKLAHOMA CONTINGENT. There is a well-established report in town to the effect that the Seventh Texas Infantry, now training at Camp Bowie, is in danger of losing its identity and being absorbed by the Oklahoma contingents. According to the information given, the raising of the camp is from Oklahoma and has the right to be the organization of the troops as he sees fit. It is understood that some of the Oklahoma companies were not recruited to full strength, and that they will be filled with men taken from the Seventh Texas. Lowering of Ranks. It is thought that some of the officers of the Texas regiment may be lowered, as the Oklahoma organization is its senior in point of service, and the Seventh Texas will become virtually an Oklahoma organization with the senior officers Oklahomans.

Receives Telegram That His Brother Has Been Wounded. E. N. FEARS received a telegram from Duke, Okla., this morning stating that his brother, C. D. Fears, was accidentally shot and killed there early this morning. The telegram did not state how the accident occurred or whether any funeral arrangements had been made. The dead man was 33 years old and is survived by a wife and one child. Mr. Fears, wife and daughter, left for their home in Oklahoma this afternoon for Duke. While he knew of no funeral arrangements he made, he stated that he supposed these promises, made in perfect good, his brother would be buried at Duke.

Senate's Committee To Hold Inquiry Is Set at Ten Members

By Associated Press. Austin, Texas, Sept. 21.—The Senate has reconsidered its action of creating a committee of 11 Senators to conduct an investigation of the state

departments and institutions and amended the resolution by reducing the number of investigators to 10. Senator Henderson made an effort to have the committee further reduced to only three members, but this motion was tabled by a vote of 20 to 6. Another amendment was adopted limiting the investigation as far as the Senate is concerned to a period of sixty days, the members of the committee not to receive any pay unless actually engaged in the work.

BE READY FOR THE COLLECTOR

Receiving Want Ads by telephone is the final detail in making The Times Want Columns promptly and perfectly useful to the readers. Telephone Ads cost no more, in money—and less in time—but The Times must employ collectors to follow the phone. The extra accommodation of receiving by phone should be encouraged by always being ready for The Collector. DON'T LET HIM CALL THE SECOND TIME. If you have a room to rent, a house to rent, a farm for sale, or if you want to buy an article, whether new or second-hand, you should use The Times Want Ad Columns daily. RATES—Want ads one cent a word for the first insertion and half a cent a word for subsequent successive insertions. LA FOLLETTE SAYS HE BELIEVES WAR IS NOT JUST ONE

BUT SOME MEMBERS OF AUDIENCE CALLED WISCONSIN MAN "YELLOW!" By Associated Press. St. Paul, Sept. 21.—Senator La Follette of Wisconsin told an audience gathered at the closing session of the Producers and Consumers Conference last night that he was opposed to war, that he thought Germany had been rather rough with the "technical" rights of American citizens, but that he did not think the exercises of these technical rights on the border between merchantmen laden with munitions was worth going to war about. A majority of the delegates to the conference, many of them, gave the Wisconsin senator a tumultuous reception. There were a few in the large gathering, however, who did not approve of the senator's expression by the speaker. When explaining his declaration that the United States should never have entered the war and sought to defend the sinking of the Lusitania, there came cries of "You're yellow, Bob, and 'Pat' him out." Instantly there was great confusion, but above the uproar the senator shouted, "Any man who says that in an audience like this is yellow himself. I'll take care of any man who interrupts me, if you will give me a chance." A messenger on a bicycle carrying munitions ship is technically on foreign territory, said Senator La Follette. "The citizen who enters such a ship takes his life in his own hands. I believe the American munitions manufacturers encouraged Americans to ride on such ships, to give them a semblance of protection."

TROOP TRAIN IS RAIDED AND MUCH WHISKEY TAKEN By Associated Press. Fort Worth, Texas, Sept. 21.—Military and local police this morning raided a troop train en route to Antonio with Oklahoma drafted men and confiscated a quantity of liquor. So zealous became the raiders that they tried to take away toilet water from some of the men.

DALLAS SALOONS FAIL TO RECEIVE TIME EXTENSION

By Associated Press. Dallas, Texas, Sept. 21.—The county commissioners court today refused to grant an extension of time for the closing of the saloons beyond Oct. 20. After the county voted dry in the local option election September 10 the "wet" sought an extension of time, declaring they had recently purchased large stocks of goods and would be unable to dispose of the same so short a time.

FIRST BAPTISTS' NEW PASTOR WILL REACH CITY TODAY

Dr. O. L. Powers, new pastor of the First Baptist Church was expected to arrive this morning from Mansfield, La., where he had gone to bring back his family. The woman's Alliance of the Church has put the parsonage in readiness for the reception of the family and the church has a hearty welcome for them.

Dr. Powers will conduct the usual services today.

The First Church is in receipt of the following from the Mansfield, La. pastor:

Whereas, the Holy Spirit has called our beloved pastor and undershepherd, Rev. O. L. Powers, to a larger work as pastor of the First Baptist Church of Wichita Falls.

And whereas, the membership of our church has practically doubled, and the annual offering to missions and benevolences has increased four fold, the young peoples' work has been put in a flourishing condition and the church has otherwise greatly prospered under his leadership.

Therefore, be it resolved, by the membership of the First Baptist Church in conference convened:

1. That we regret his going immeasurably.

2. That we extend him an unanimous vote of our appreciation of his services among us for the five years of his pastorate here.

3. That we express our unbounded confidence in him as a man, a preacher and a pastor.

4. That we commend him and his most lovable and estimable family without reserve to the First Baptist Church of Wichita Falls, to which they go.

5. That our prayers go with him and his family in their new field, and our sincere wishes that the Good Lord may mightily bless and prosper him and the work of the Kingdom given into his care.

Be it further resolved, that a copy of these resolutions be mailed to Mr. Powers, to the Baptist Chronicle, the Baptist Standard and to the First Baptist Church of Wichita Falls.

Dr. Powers will conduct the usual services today.

The First Church is in receipt of the following from the Mansfield, La. pastor:

Whereas, the Holy Spirit has called our beloved pastor and undershepherd, Rev. O. L. Powers, to a larger work as pastor of the First Baptist Church of Wichita Falls.

Day of Atonement Is To Be Observed Here

Next Wednesday, September 26, will be observed by the Jews as the Day of Atonement, which is similar to the Jewish New Year.

Services will be held in one of the halls of the city by Rabbi Jaffe during the day. The exact place for holding the services has not been decided yet, but will probably be announced tomorrow.

All Jewish stores in the world, both orthodox and reformed, will be closed, and Jewish soldiers at the front will ask permission to observe the day. It is customary to fast and pray the entire day.

STATE DEFENSE COUNCIL NEEDS MONEY FOR WORK

MEETING IS TO BE HELD IN DALLAS IN OCTOBER, STATES INVITATION.

ASSISTANCE ASKED HERE

Parts of Texas Drought Stricken and Hence Will Not Be Requested To Give Much Aid.

The Texas State Council of Defense needs money to carry on its work, and the various county councils have been asked to aid in raising the fund. The local council being asked for \$500, half of this to go to the State Council and the remaining half of the local council. An invitation to the joint meeting of several county councils to be held in Dallas in October has also been received, and as many members as can possibly do so are urged to go.

Mr. Orth, the local secretary, received the following letter from J. F. Carl, secretary of the Texas State Council:

Has Big Field.

"The Texas State Council of Defense has a big field to cover and a very large volume of business, and necessarily a heavy expense. We believe that great good is being accomplished and this body and the county councils will become more important and useful all the time. We need some money, and the local councils ought to have some, too, in order to get the best results; for you need stationary, stamps, etc., and various other items will come in, although your members are giving their time, just as the State council are giving theirs, without compensation. Even a church must have money in order to run successfully.

"Will you not, as expeditiously as it may be done, raise at least \$250 for us, and a like amount for your own use? No business can be run with any degree of success without money, and this is a time when sacrifices must be made. We fear that much greater ones will have to be made yet, not altogether of a pecuniary nature.

One a Restricted.

"Most of West and Southwest Texas is drought stricken and in a deplorable condition, and for that reason we cannot call on them. On the contrary, they are in dire need of assistance, with a few exceptions.

"Let us suggest that you call on only people who are able to make donations, for we have no desire to make the burdens of the needy any heavier."

As yet Mr. Orth or the county council have made no move to raise this money, but it thought that a plan of some kind will be adopted in a few days, whereby the local council may be of service to the state council in a financial way.

A strong effort is being made to have several men of national reputation present at the joint meeting in Dallas the 14th of next month, and since low railroad rates may be secured at that time, it is thought that quite a few will attend from this council.

WHY THE SONORA Phonograph IS BETTER

- 1—The quality of tone is admittedly unrivalled.
- 2—The Motor (made in Switzerland) runs about twice as long per winding as do motors of other similar priced machines.
- 3—The Sonora is designed (not adapted) to play all makes of disc records; steel needle, sapphire, and diamond point.
- 4—The Sound Box does not deteriorate with age nor does it coarsen and harden the tones as it grows older.
- 5—The Sound Amplifier is made under scientific principles, known only by us, and is the result of our long experience in phonograph manufacturing.
- 6—The Patented Tone Control is at the Sound Source—the correct place, and alters the volume, not the quality of tone produced.
- 7—The Patented Envelope Filing System is unique and wonderfully convenient, each record being instantly available.
- 8—The Patented Cabinet Work is rich and distinctive, the graceful "bulge" lines being exclusively Sonora's.
- 9—The Patented Automatic Stop is thoroughly reliable and requires really no attention.
- 10—The Patented Motor Meter and Spring Control are very convenient, telling how much power is left in the motor.

Official Flirt Late Addition to Staff of Police at Omaha

By Associated Press.

Omaha, Neb., Sept. 22.—The official flirt is the latest addition to the Omaha police force and he is said to have found a rich field for his activities. A handsome young "copper" in plain clothes with all the evidence of prosperity in his make-up saunters about the streets or drives an inviting looking automobile seemingly looking for a damsel yearning for a touch of high life.

The first week he was on duty with turkey, seven months on squint and eight months on fur bearing animals in the police court.

This is one measure of a general clean-up inaugurated by Chief of Police Liberty, Jefferson, Orange and Leo Dunn before the annual fall session of the Knights of Ar-Sar-lion which always draw big crowds of sight-seers to Omaha and incidentally not a few undesirable of both sexes.

CLOSED SEASON ON TURKEY IS EXTENDED BY MEASURE

By Associated Press.

Austin, Texas, Sept. 21.—The House passed finally a bill by Terrell of Cherokee, providing a closed season of 19 months in the year on consideration.

Word From Headquarters

"When, where and how will the war end?" "I don't know," replied the land lord of the Petunia tavern. "However, the young ladies and gents of the senior class of the village academy, several of whom are over sixteen years of age and have been outside of the county a time or two, are going to settle the entire question in a debate to night. I understand, too, that while they are at it they will fix things so there will never be any more wars. So I shall be able to inform you in full tomorrow morning."

Remodeling Sale of High Grade Jewelry

Preparatory to the Fall Jewelry selling season, we have made arrangements for the complete remodeling of both the front and the interior of the store. The work is to start early next week, and this necessitates the very extensive reduction of our stock. Beginning

Monday Morning, Sept. 24

WE HAVE ARRANGED TO OFFER THE MOST SENSATIONAL BARGAINS IN CUT GLASS, FLAT SILVERWARE, STERLING SILVER, IVORY TOILET GOODS, WATCHES, SOLID GOLD JEWELRY, EVER ATTEMPTED IN WICHITA FALLS.

This is not a "SALE" in the ordinary sense of the word. Simply an occasion where we find ourselves in a position where we must get the goods out of the way, and while most of the stock is new,—bought especially for the fall trade—we are going to make prices on every article in the house at less than the manufacturer's first cost, and let our customers be the judges of what are the best bargains.

We still have a number of very beautiful diamonds left from our last Out-of-Pawn Sale, which we shall offer this week at prices very much below the present market value. If you want a diamond this is really a rare opportunity to secure it

WE CALL YOUR SPECIAL ATTENTION TO THIS LINE OF VERY EXCEPTIONAL BARGAINS

DATA UPON SITE FOR RANGE WILL BE SENT BOARD

SPECIFICATIONS AS TO REQUIREMENTS OF CANDIDATES

Data regarding a site for the artillery school of maneuvers will be prepared today, and taken to San Antonio for presentation to the Army Board on Tuesday morning. J. A. Kemp, B. F. Johnson and P. N. Lawton are the committee appointed for this work at the called meeting of the board of directors of the Chamber of Commerce yesterday morning, and every minute of the time will be required in order to have the necessary data ready by Tuesday. The committee will utilize Sunday for the purpose.

The printed specifications issued by the government for the site of the proposed school are of a strictly confidential nature, and all publicity regarding them is rigidly forbidden at the present time. It is probable, therefore, that such conditions as have been published heretofore, and may be in the near future, are speculative and problematical. Nothing is definitely known as to the requirements, and the officials themselves have not completed all the detail work on the matter.

The entire matter was discussed at the meeting yesterday morning, and the chances of obtaining the site, the preparatory work in every branch, and the methods of handling the many details. The directors feel hopeful that that is as far as they can go at present.

Well Known Missionary of Presbyterians Will Speak at First Church

Rev. R. H. Evans, Presbyterian missionary on furlough from Africa, will be here this coming week and will speak both morning and evening at the First Presbyterian Church today. Mr. Evans is the missionary supported by the men of this church and his visit is thus of more than ordinary interest.

On Monday afternoon the missionary will speak to the combined Missionary Society and Ladies Aid of the church and Tuesday evening the women of the church have arranged a reception in his honor to be held at the church. All church members are cordially invited to attend this reception.

SALES OF CARS FOR PAST WEEK SHOW ACTIVITY

MANY AUTOMOBILES DISPOSED OF WERE SECOND HAND, SAY DEALERS.

WILL ERECT BUILDINGS

Motor Supply Company Will Construct Ford Supply Stations in Both Burk Burnett and Electra.

Automobile business last week showed more signs of life than for several weeks, coming back to nearly the high average of the summer with about fifty cars, wholesale, retail and second hand, sold.

W. S. Langford, president of the Motor Supply Company, has arranged for the erection of Ford car and supply buildings in Burk Burnett and Electra similar to the houses built for that purpose here.

Chenault & Wheat sold a Kissel car to W. A. Huper, city, and a Grant six to O. A. Whittenbach, of Electra.

The Consumers Cash Co. report the sale of Saxon cars to B. T. Couch and John Taylor, city, and Mr. Housat, at Newcastle; also three second hand cars.

The Peter Car Co. report the sale of three second hand cars. The Overland Sales Co. made whole sale deals with Rogers Bros. at Bowie, six cars, Curtis and Duncan, Byers, two cars, and the Jefferson Overland Co. at Hastings, Okla., five cars; also a retail sale to E. G. Kuehl, Burk Burnett.

The S. Bemrod Auto and Supply Co. reports the sale of a Chandler to Mr. Cross at Electra and a Monroe to Rev. P. G. Cross, city, and a Chalmers to Sam Cook, Henrietta. Mr. Bemrod has a carload of Chalmers en route.

Marmon is sold. The Staley Motor and Supply Co.

SEVENTEEN TO GO TO CHICAGO FOR WORLD'S SERIES

PARTY WILL LEAVE FOR CHICAGO AND SOME MAY GO TO NEW YORK.

The local baseball fans are rapidly completing their plans for attending the World's Series, which open in Chicago October 6. So far seventeen have signified their intention of going, and an effort is being made to increase the party considerably.

Monte Stanforth, W. J. McAllister, J. W. Farabee, Dr. F. P. Brown, Linn Boyd, Dr. L. Mackechney, J. L. Art, C. E. Rogers, W. E. Norton, L. E. Stone, Lamar Fain, Walker, Hendricks, L. C. Heydrick, R. O. Harvey, W. M. Little, T. P. Adams and J. P. O'Donohoe.

The party will leave Wichita Falls the afternoon of October 4, arriving in Chicago in time for the first game, October 6. The second game will also be played in Chicago, and the trip to New York will be made October 4, the Wichita party going by Buffalo and Niagara Falls.

After the two games in New York the party will return home by way of Philadelphia and Washington. Some of them, however, who have pressing business at home, may have to return after the first two games have been played at Chicago.

A special Pullman will be chartered for the trip.

Mr. Marmon to E. E. Hartin, Buick cars Mrs. W. L. Mann, J. K. Bissett, and Oaklands to T. J. Taylor, A. O. Yarbrough, and the Electra Motor Co.; also four second hand cars.

M. Fall and Orth made sales to J. L. Maxwell, A. A. Kaufhold, G. W. Musgrave, city, and Otto Schaffke, Electra.

The Lloyd Weaver Co. report the sale of Hudson Supers to W. C. Sutherland, Wichita, Falls, W. P. Bickley, Electra, H. A. Van Cleave, Burk Burnett, Karl Grof, Henrietta. This house is expecting a car load of Hudson's next week. Lloyd Weaver was in Dallas on business this week and drove back a Hudson Super Six.

AVIATION CAMP BUILDING PROGRAM BEING PUSHED TO COMPLETION WITH GREATER SPEED THAN SHOWN BEFORE

More has been accomplished at the aviation camp this week than in any week since the work started. Thirty buildings are roofed, and the exterior finished as far as the carpenter work is concerned. The size and location of the sashes, which have not yet arrived, is being determined.

Timber work is going up on the hangars, and very heavy, solid, permanent looking work is being done. The present looking work is the appearance of a hangar which is not number one—will be completed, except for painting, by Tuesday or Wednesday.

Next week the two great additions to the camp will be roads and paint. The paint is expected Monday, and the painters Tuesday, Wednesday, Thursday, and so on, as many as may be, and as often as possible.

Laying of Roads. The laying of the camp roads will be the greatest boon the camp could have. One who has not seen the camp can not get an idea of the amount of dust that can be scraped off the ground in three weeks by an army of teams and men who really give their minds to it thoroughly.

The commissariat is in operation, and about five hundred meals are served daily. Most of the men have breakfast at home, and a large number have their lunches put up for them by accommodating landladies. So that the commissariat is not as heavily patronized as was anticipated.

Next week, however, with the completion of the first hangar, many of the men will take up temporary quarters there. They are forbidden to use the houses already up, because they will later be occupied by the regulars. The hangars, however, will only house the machines, and they may be used as temporary quarters for the workmen.

The commissariat expects to feed a great many more men when they are driving on the ground.

Flying Field. The flying field is being filled, graded, and leveled, and will be as smooth as a billiard table when this work is finished. Teams and men may be dimly distinguished through a haze of dust digging away the mounds and filling the holes and hollows, thumping the deposits with treat energy.

FEW FEATURES IN OIL FIELD DURING WEEK

BURKBURNETT FINISHES ONLY WELL OF IMPORTANCE IN PERIOD.

LACK OF WATER HAMPERED

Demand Continues Brisk For Crude, Especially From Oklahoma, and Prices Are High.

The past week in the surrounding oil fields was devoid of any unusual features. As has been the case for some time drillers are hampered by lack of water. Demand continues for crude, especially from Oklahoma, sources with supplies on hand being held for high prices, according to those who are best informed.

Burkburnett furnished the only well of importance last week, in C. B. Farquharson's No. 3 in the Northwest corner of the L. E. Ramming 35 acre strip, the well is flowing at the rate of three hundred barrels a day.

The pay was encountered at 1625 feet and the well is only five feet in the sand.

J. A. Fisher has a 20 barrel well in his No. 1, Birk, in the Fowell survey, the top of the sand is 1225 feet, this will open up quite a strip of territory to the southeast of the main pool.

FURTHER INTRIGUES BY THE GERMANS

(Continued from page 1.)

effect be sent to Berlin."

This letter was signed "5132 8167 0230" and was addressed to Count von Bernstorff, Imperial Ambassador, Washington, D. C.

A code message sent to Berlin was given as follows:

"National Germania Insurance contract certainly promised. Executor is evidently satisfied with proposition. Necessary steps have been taken."

"HENRY NEUMAN."

"Of this message the committee has this to say:

"Not so innocent and harmless as it looks for what the message really means is this:

"I wish to agree to proposition. The necessary steps have been taken."

Mexican Crisis.

"Information carefully and extensively set forth in secret documents of the German officialdom, the committee continues, "was sometimes of the facts. For example a lengthy memorandum of March 1, 1916, transmitted by the secret agent, Captain Boehm, dealing with the Mexican crisis appears to have been largely the work of some fervid and projective imagination."

"It predicts that the president will attribute Mexico's anti-American activities to money and incident; that he will call upon congress to support him in radical measures (the prophet even attempts to paraphrase the language to be employed in the message); that Congress will endorse the president's stand, following which upward of 150 German spies and agents were to be arrested and the ambassador of the central powers were to receive their passports."

Loose of Tongue.

After quoting an extract from Captain Boehm's letter the committee states he was "too loose of tongue" for the good of his service and citing a report of the German military information bureau of March 21, 1916, quotes the report as follows:

"Too great confidence in the silence of his fellow men, especially the members of the American Truth Society, was probably the cause of his becoming quickly known here."

The committee statement continues: "So the notorious American Truth Society which so strenuously denied its pro-German associations figures as indirectly linked up with Germany's secret representative. This society is still extant and its members, in its moving spirit is now the editor of Bull, recently shut out of the mails for publishing seditious matter."

Many inventors.

"Many inventors, the committee states are represented as having plans involving the use of devices of destruction. One entry is cited as follows:

"June 15, 1916, sender G. S. Vierck Contents, inquiry as to bombs; supply offer. Told to send further details."

"Fossils and details," the statement continues, "are indicated in another entry of four months later:

"Sender Vierck. Contents, offer of peric acid."

"Peric acid is constituent of many high explosives."

An entry titled "Pure War Expenses" is another of the items made public by the committee as follows:

"Edwina Emerson's \$1,000. Fair play (Mr. Braun) \$2,000. Fair Play (Mr. Braun) \$1,500. Marcus Braun \$1,000. J. Archibald \$5,000."

The statement continues: "Concerning the identity of the last entry there might be room for doubt but for a signed receipt from J. F. F. Archibald, acknowledging the sum of \$5,000 from the German embassy for propaganda work."

The committee concludes its expose as follows:

"While chiefly concerned with military affairs in Europe, the representatives of supposedly friendly nations were keeping an interested watch on our own activities in that line. A secret code message of April 11, 1916, signed "5132 8167 0230" addressed to Count von Bernstorff, the German ambassador to the United States at the time, relations were broken between the two countries. Bernstorff was a genial, able and scholarly diplomat who apparently was doing his utmost to influence his government to refrain from a course that he felt was certain to provoke the United States into war. There was genuine regret that he had to leave this country. The situation would have been altogether different had the revelations made Friday been known at that time. These revelations show that Bernstorff was using money in an effort to influence congress. Evidence has also been uncovered indicating that Bernstorff knew for some time that his government did not intend to keep its pledge concerning submarine warfare. Bernstorff, known once as a high-minded man, stands revealed as an agent for duplicity, bribery and double dealing. He has fallen a victim of the Prussian system which knows not the word "honor" in intercourse with other nations."

HOBBY DECLINES TO COMMIT SELF ON SUBMISSION

Special to The Times. Austin, Texas, Sept. 22.—Governor Hobby declined tonight to make any statement on the question as to whether or not he will submit the subject of statutory prohibition to the Legislature during this called session.

From in the house, circulated a petition urging Governor Hobby to submit the question of statutory prohibition before it was presented to him, he announced that he would not submit any legislation during the progress of the impeachment trial by the Senate that might affect the trial or create confusion or diversion from it.

The matter was then dropped, but there is every reason to believe that such a petition will be presented at the next called session which is likely to be in January 1919.

REGISTRATION FEE ALLOTTMENT MADE FOR THIS COUNTY

Special to The Times. Archer City, Texas, Sept. 22.—While J. W. Seals, manager of the Farmers Union Gin at this place, was applying for a license to sell and distribute, he was arrested by the sheriff here this afternoon, his right arm was caught in the pulley and so badly mangled that amputation will be necessary at the shoulder.

Doctors Hooper and Lindley and Dr. Hamilton of Olney, will perform the operation tonight.

Mr. Seals is one of the best known and most popular men in Archer county.

Two hundred and thirty-five bales of cotton had been ginned here up to tonight. The crop will be one of the lightest ever picked here.

Archer county has sold \$50,000 of road script bonds authorized a few months ago. The sale was made at 97 cents. The money is to become available immediately and it is expected that work on the roads will begin within a few weeks.

The laymen from the Baptist churches of Wichita county are to meet at the First Church this city Sunday afternoon at 3 o'clock for the purpose of organizing an association.

It is proposed that this organization shall meet monthly on Sunday afternoon and the meetings will be passed around among the different churches in the county. A number of men from the churches at Burkburnett, Electric City, and other places, are members of the county churches in the county will be present at the meeting here.

W. F. McKenzie of Burkburnett, moderator of the Wichita County Baptist Association will preside.

FEDERAL COURT DOCKET IS HEAVY FOR NOVEMBER

COMMISSIONER LANTZ COURT HAS BEEN BUSY SINCE MAY 1.

JUDGE MEEK TO PRESIDE

Fifteen Charged With Failure to Register Will Be Brought Before the Body: Two White Slave Charges

Wichita Falls first federal court will be convened for the fall term Nov. 19 by Judge E. H. Meek, in event that he has recovered from an illness which has prevented him from serving for the past term of court in Dallas. It is thought that Judge Meek will be able to hold court this coming term. Judge Jack of Louisiana has been substituted for him in Dallas and is now holding court at Abilene in his absence.

Docket is Heavy. The court, which was established here on May 1, has as heavy a docket arranged for November trial as any of the Federal courts in the district, with the possible exception of Dallas. Commissioner J. A. Lantz has issued forty-nine warrants for arrest from May 1 to date. Of these, the largest number have been for failure to register, with the white slave cases coming next. Many of the cases are of a peculiar nature, violating statutes which the average person has no knowledge of.

Cases For Trial. There are fifteen charges of failure to register, nine of white slavery, four of violating the Reed amendment, making it unlawful to transport liquor into a state which has forbidden the manufacture and sale of it; three of inciting rebellion, two of impersonating United States officers, two of bootlegging, two of conspiracy to oppose the authority of the United States, and one each of the following: illicit handling of narcotics, burglary of the postoffice, conspiracy to violate the Reed amendment, perjury, conspiracy to violate the Mann act, false registration, making nonmarketable matter, aid in evading the registration act and making threats against the life of the president.

Of these cases, there have been 44 hearings from which eight have been discharged. Thirty-nine persons have been held over for the November court, and four have not yet received their preliminary hearing.

HOUSE COMMITTEE CONTINUES PROBE OF GERMAN FUND

By Associated Press. Washington, Sept. 22.—Investigation by a House committee of Count von Bernstorff's plot to influence members of Congress against a declaration of war tonight apparently was doubtful.

The general opinion among members seemed to be that the former ambassador's request to Berlin for funds should not be interpreted as indicating that any member of Congress accepted money or was otherwise influenced by propagandists. A similar view was said to have been expressed by Secretary Lansing to Chairman Flood of the House foreign affairs committee during a conference at the state department today. Mr. Flood testified from his Lansing that the administration believed nothing was to be gained from such an investigation.

In some quarters it was pointed out that the object of making public the Von Bernstorff message was to expose German intrigue and that any inquiry by a House committee would confuse the situation and a large measure lessen the intended effect in the public mind.

SUBMARINES ARE BELIEVED TO BE WELL IN CHECK

By Associated Press. Washington, Sept. 22.—Unless some new outbreak of submarine activity develops many officials are satisfied that the situation is fairly well under control. Encouraging results have been obtained through convoying of fleets of merchant craft, the loss having been reduced to less than one half of one percent. The employment of smoke screens, kite balloons and other detection devices also has shown good results and progress is being made with the reduction of smoke from merchantmen and by painting ships to make them almost invisible at a distance through a periscope.

In discussing submarine conditions today, Admiral Benson, chief of naval operations and acting secretary in the absence of Secretary Daniels, indicated the department is to make known more of its accomplishments hereafter than in the past. No formal announcement was made, however.

CHART ON COTTON OF MUCH INTEREST TO ALL GROWERS

A. NORDEN & COMPANY ISSUE STRIKING HISTORY OF CONDITION.

A Norden and Company cotton brokers, New York, have issued a yearly chart showing the fluctuations and other statistics of the cotton business for the past quarter of a century. Many of the local cotton firms have received copies of this chart and the information contained therein is of great interest to all cotton dealers. The fluctuations on the price chart show many wild plunges and leaps, and the line tracing the course of the market looks like a particularly vivid flash of lightning. The lowest point reached was at the end of 1893, when cotton could be bought for five cents a pound; the highest, of course, being the spring of this year, when the price soared to 27 5/8 cents. New York. Towards the end of 1905, cotton was at 17 1/4 cents, taking an immediate plunge to seven cents. Another remarkable plunge was in 1910, when the price dropped in six months from 19 3/4 to 9 1/4 cents.

Two Restless Years. None of the plunges of the past twenty-five years, however, have been comparable in spectacular effect to the meteoric leap of the last two years after the reopening of the market, which was closed July 31st, 1914, at 11 1/8 cents. Market opened on November 15th, 1914, at 7 3/4 cents, and moved rapidly upwards. There have been three quite negligible drops—a few points—since that time, and one considerable one at the end of last year, the price falling in a few weeks from 21 cents to 14 cents even. Since the beginning of January, this year, there has been practically an unbroken rise from 14 to 27 5/8 cents, reached in the spring. Since that time there have been slight drops, but the market still shows a good deal of nervousness, a condition observable at so in some of the dealers.

Visible Supply. The visible supply of American cotton at the beginning of the season—that is, the amount left over from last season—was a million and a half bales. The acreage planted this year was 21,000,000—an increase of fifteen million acres over 1915. The percentage given on June 1st, this year, was 69.5, going to 70.3 on July 1st, where it stayed until August 1st, deteriorating to 67.5 by September 1st. The average date of the first killing frost is an item of importance to cotton growers and dealers. The earliest date shown in the last twenty-five years is Oct. 27th, which was in 1907; the last being November 13th, which was in 1905. Last year and the year before have been by a day before this, both years being recorded at Nov. 12.

Ginning Report. The amount of cotton ginned on September 1 this year was 605,000, as against 521,000 for the same date last year. The smallest amount for this date was in 1905, when only 17,000 bales had come from the gin. The largest amount ever ginned during the whole season was in 1914, when sixteen and three-quarter million bales was turned out. Last year there was a little over twelve and a half million bales. It is estimated that the crop for this year will approximate thirteen and a half million bales, as conditions look at present.

The world's consumption of American cotton reached its highest point in 1915, nearly five million bales, in the second year of the war. This was the high water year for the world's consumption of cotton of any kind, over a quarter million bales being consumed. Last year was the second largest in this classification, showing about nineteen and a quarter million bales.

COURT DECISION FAVORS RAILWAYS; SUIT IS CHECKED

By Associated Press. Austin, Texas, Sept. 22.—The United States circuit court decided in favor of the railway in a injunction suit of the railroad against Attorney General Loomis and Assistant Attorney General Luther Wickles. The court restrains the attorney general and his assistant from prosecuting an injunction suit in the fifty-third district court here in which the state sought to restrain the railroads from charging differential rates to a distance of 350 miles had been reached in West Texas.

Chevrolet Is Winner of Hundred Mile Race For Harkness Trophy

By Associated Press. New York, Sept. 22.—Louis Chevrolet won the 100-mile auto race for the Harkness gold trophy on the Sheepshead Bay Speedway track today. Ralph De Palma was second, Eddie Anderson third, Ralph Mulford fourth, and Dan W. Hickey fifth. Chevrolet's time of 54:29.98 is a new American speed record for the distance. His average speed was 110.4 miles an hour, the former American record was 56:57.72 made over the same track by Dario Resta in 1915.

Will Take Week More to Examine Negroes As to Houston Riots

By Associated Press. Fort Bliss, Tex., Sept. 22.—One hundred and four negro prisoners at the Twenty-fourth military camp here were examined here by the Twenty-fourth Infantry board of inquiry which is making an investigation preliminary to filing charges against negro soldiers found to have had a part in the Houston, Texas rioting of August 23. Another week will be required to complete the investigation after which the general court martial will convene here to try the negroes.

NINE PASSENGERS TAKEN BY ITALIAN PLANE TO CAPITAL

By Associated Press. Washington, Sept. 22.—Three Italian airplanes, piloted by Italian military aviators, flew about 200 miles without a stop today from Langley Field at Hampton, Va., to the capital and returned without mishap in Potomac Park near the White House grounds. The big Caproni airplanes, the principal machine in the flight, carried besides the pilot, nine passengers. Secretary Lane, who was to have been a passenger, did not make the flight. Friends arguing that he already has flown twice, prevailed upon him not to take the adventure.

Becomes Cashier

Bank of Commerce

The National Bank of Commerce announces the election of R. E. Shepherd of Burkburnett, to the position of cashier. Mr. Shepherd has purchased a substantial interest in the bank and in addition to the position of cashier will be a member of the board of directors. Mr. Shepherd will assume his new duties October 1. Mr. Reid, the president, and Mr. Frank, the assistant cashier, will continue to give their entire time and attention to the promotion of the interests of the bank. The National Bank of Commerce has made steady progress since its doors were opened for business in May 1914. It now has deposits of over a half million with total resources of almost three quarters of a million.

Mr. Shepherd is a young, vigorous, aggressive banker with nine years experience. From a minor clerical position in a small country bank he has by his perseverance and honorable dealings, risen to his present high position of trust and honor. He was elected cashier of the Farmers State Bank of Burkburnett in January 1915 at which time the deposits of the bank were \$69,197.29. Under Mr. Shepherd's splendid management the total deposits in less than three years have been increased to \$338,565.

Mr. Shepherd is president of the Commercial Club of Burkburnett, an active church worker, and is a member of all the prominent organizations of his city which have for their purpose the upbuilding and betterment of his community.

WAR TAX MEASURE IS STILL SUBJECT MUCH ARGUMENT

By Associated Press.

Washington, Sept. 22.—Conferees on the war tax bill today agreed on one of their chief points of dispute in considering war excess profits taxation—the definition of invested capital—and then struck a serious obstacle in House demands for drastic tax increases which threatened tonight to result in final disagreement.

The new deadlock disrupted earlier confidence for a complete agreement and several conferees tonight predicted that the fight would be thrown back into both houses though some members were more optimistic, believing an ultimate complete agreement could be reached.

METHODISTS MEET HEARING REPORTS FOR PAST QUARTER

FOURTH QUARTERLY CONFERENCE DEVELOPES SOME INTERESTING FACTS.

The fourth quarterly conference of the first Methodist Church was held here last night by Dr. H. D. Collins of Oklahoma City. Rev. H. P. Draper is just closing a tour of the city for three months, at his report to the conference.

Finances of Church.
 The business of the church took full charge of the finances. Some of those who have had charge of this work are G. E. Friberg, chairman of the official board, A. Thornberry, chairman of the board of trustees, W. W. Swartz, chairman of the board of stewards, H. L. Hunter, chairman of the Benevolence Committee, and Mrs. Emil Friberg, president of the Ladies Aid.

When Rev. Draper took charge of the work here last fall there were only two complete organizations in the church, the Ladies Aid and the Woman's Missionary Society. Since that twenty-three other organizations have been completed, each of them having a full set of active officers.

Boy Scouts.
 Among these organizations are the Sunday school, two troops of Boy Scouts, Intermediate League, Camp Fire Girls, Junior and Epworth League and the choir.

Rev. Draper's report also showed that 35 members and others have been converted, and 26 have been baptized, besides the children of the Sunday school. Twelve were baptized, 26 taken on probation and 20 were received into the church by certificate or profession of faith.

Mrs. King's Manager Arrested on Charge of Killing Employer

By Associated Press.

Concord, N. C., Sept. 22.—Gaston B. Means, formerly business manager of Mrs. Maude A. King, wealthy Chicago widow who was killed near here on August 29, was arrested late today on a warrant charging him with the murder of Mrs. King. Means is now in the custody of the sheriff of Cabarrus county at the Means home in this city, but it is thought that he will be taken to the county jail here later tonight.

INFANT WELFARE WORK IS CARRIED ON BY RED CROSS

DR. CHARLES ULYSEES MOORE IS SENT TO FRANCE WITH ASSISTANTS.

Washington, Sept. 22.—The American Red Cross announces today that Dr. Charles Ulysees Moore, of Portland, Ore., has been sent to France to reinforce the infant welfare unit now at work there under the direction of Dr. William P. Lucas of the University of California.

Dr. Moore, who is one of the leading pediatric specialists of the Pacific Coast, a group of sixteen nurses who have had special training in children's diseases and social welfare work.

Go On Request.
 These reinforcements are sent in response to a cable request from Major Grayson M. Murphy, head of the Red Cross—Commission to France, under whose direction Dr. Lucas is working. The Red Cross will endeavor to decrease the present high death rate among children under two years of age, which with the falling birth rate, threatens rapidly to depopulate the country.

While the plans of the unit are not yet fully developed it is expected that doctors and nurses will be assigned to service at all the points of greatest need in France. They are to be stationed in groups of two or more at leading hospitals from which home house work and benevolent campaigns can be conducted, both in the cities and through the country districts.

A third detachment of doctors will sail before the end of the month.

Children's Refuge.
 The Red Cross has already established a children's refuge near Toul where 750 boys and girls, from nearby villages which have been under bombardment, are now being kept safe from gas attacks under expert medical care in co-operation with the French government. In Belgium the Red Cross, together with the Rockefeller Foundation, is preparing to care for between five and six thousand children.

To the American Red Cross hospital established by Dr. Joseph A. Blake in Paris, two doctors from New England are being sent, at Dr. Blake's special request. They are Dr. I. B. McCook of Hartford, Conn., and Dr. W. Irvine Clark of Worcester, Mass. Dr. Blake's hospital has made an especially notable record in its treatment of fractures. Several novel methods are in use, including the "Blake Extension," by means of which the broken member is suspended in a cradle above the patient's bed.

LOCAL GOLF CLUB TOURNAMENT PROVES ENTIRE SUCCESS

About thirty members of the Wichita Golf Club participated in the weekend tournament yesterday. Several laborers have been hard at work on the course during the past week, and under the direction of George Scott, the professional, the course is now in fairly good shape, but it is their intention to keep improving it until it is up to the standard of golf courses found in cities much larger than this.

Much more interest is being taken in the club since Mr. Scott came and so far, really low scores are now being made. Several ladies are also now playing regularly.

It was announced last night that on each Friday the club will start a 9-hole handicap week-end tournament and on each Saturday a 9-hole match either against bogey or par, with prizes each week for winners of either event.

The following score was made yesterday: W. F. Weeks gross 45, 2 up on bogey; H. L. Hunter gross 48, 1 up on bogey; Fred T. Couper gross 45, one up on bogey. Mrs. W. F. Weeks made a 54 on the nine holes.

Other scores: W. E. Weeks, 1 down; Fred Weeks, 2 up; Carter McGreer, 4 down; J. C. Hensley, 2 down; J. D. Moulder, 1 down; A. H. Britain, 3 down; H. L. Hunter, 1 up; Fred T. Couper, 1 up; Harry Weeks, 6 down.

Money Order Window Does Rush Business; Open "After Hours"

A heavy business was done last night at the money order window at the postoffice which was kept open until 9 o'clock as an experiment. There was little business, however, at the general delivery window, only a few persons appearing to call for their mail.

The money order business last night made the day one of the best in the history of the office. It is probable the window will be kept open each Saturday night while work on the aviation camp is in progress.

COTTON RAISERS URGED TO HOLD FOR FAIR PRICES

By Associated Press. Washington, Sept. 22.—Cotton raisers of the South were urged by Senator Ransdell of Louisiana, in a speech today in the Senate to hold out for "fair and legitimate" prices and not to sell for less than 25 cents a pound. Present prices, he declared, are absolutely unwarranted, caused largely by a rush of offerings because of the embargo.

Statistics were presented by the Louisiana senator in support of the contention that the actual purchasing power of cotton is much lower than of other products which have advanced in prices. He also declared the south was never in better position to hold its cotton for a fair price.

The farmers, he said, can aid by storing his cotton at home when it is ginned, or in warehouses, by shipping it slowly in small quantities, and by refusing positively to sell unless a satisfactory price is offered. He should not seek buyers.

"The recent drop in the price," he said, "was caused, in my opinion, by a rush of cotton to market and eagerness to sell on the part of the producer.

"The cotton grower is in command of the situation. We are in a position to dictate our own terms and force compliance therewith.

"The people of the south were never so independent and so well able to hold their cotton as now."

Curtailment of cotton production next year because of labor shortage and other causes was predicted by Senator Ransdell. His use for explosives, he believed, would increase the demand.

REAL ESTATE IS ACTIVE IN CITY; MANY SALES MADE

TOTAL TRANSFERS IN LAST SIX DAYS AMOUNTS TO \$150,000.

ADICKES HOME IS SOLD

Handsome Residence is Purchased by J. H. Marriott, Prominent Oil Man.

Approximately 150,000 worth of Wichita Falls real estate changes hands during the week just past, this amount representing sales on comparatively small pieces of property, cottages and bungalows, with the exception of a business house sale, involving \$50,000 and the sale of the M. M. Adickes home on Tenth street, a \$22,000 trade. Property is changing hands rapidly and at a good profit, according to sales reported by numerous real estate dealers, who state that houses for homes are at a premium and the demand is in advance of the supply.

The sale of Mrs. Adickes home to J. H. Marriott of Electra, means that another prominent oil man will make his home in Wichita Falls. Mr. Marriott is a son in law of J. W. Stringer. This deal was filed for record on Saturday, the sale being made through J. J. Moran. Friday the purchase of one-half interest in the Vreeland building by C. W. Snider from W. W. Silk was reported, the consideration being \$50,000.

W. D. Cline, former mayor of Burk Burnett, bought the MacMakin home at 1414 Eleventh street through H. Peery, the consideration being \$4,750. This bungalow still another man with large oil interests to the city. Pretty Bungalow Sold. The bungalow at 905 Lamar, built a few years ago by F. P. St. Clair was sold through O. F. Marchman to D. Phay Taylor for \$4,750. Taylor made the purchase for his daughter, Mrs. J. R. Newlin. Mr. Marchman reported other sales as follows: A room house in the 1600 block of Eleventh street was sold to Miss Eva Ingham for \$3,000, and a room house at 1414 Twelfth street to Wayne Robinson for \$2,250. S. Y. Montgomery purchased a cottage on Ninth through Mr. Marchman, the consideration being \$2,500. A five room house at 1802 Ninth street was purchased by Ferdinand Hunt for \$3,250. A number of lots on Eleventh were also disposed of through Mr. Marchman, the highest priced of these being in the block which was bought by Jerry Lucius for \$1,100. Others ranged down as low as \$550.

Thos. H. Peery reports six sales, the consideration ranging from \$300 upward to \$4,750. W. D. Cline of Burk Burnett purchased the house at 1414 Eleventh street for \$4,750. L. Green gave \$4,500 for a home on Ninth street in the Floral Heights addition. The Thornberry home on Polk street, in the Floral Heights addition, was sold to O. E. Lillard for a consideration of \$4,250. Other sales were made to Chas. Fleming, A. T. Holt, Jack Porter and W. J. Mack. Thomas and Bland made three sales, the highest consideration being \$5,000, which was paid by Mrs. Mattie Spearman to W. F. Long for lots 6 and 6 of block 234. R. E. Thornburg bought lots 15 and 16 of block 27 in the Floral Heights addition from this firm for a consideration of \$2,750, and Mack Thomas sold lot of block 18 in the Jalonic addition to W. H. Sanders for a consideration of \$2,500.

LATE ADVERTISING FOR NAVY WRITTEN BY NEWSPAPERMAN

C. C. LYON GIVES HIS ACTUAL EXPERIENCES AFTER ENLISTMENT.

The navy has recently put out a good deal of new advertising literature; from which it may be inferred that a new recruiting campaign is about to open. Among the matter distributed to the stations is a booklet called "The Making of a Man-of-War." This booklet is part one of "The experiences of C. C. Lyon, who enlisted in the navy in 1914. Mr. Lyon, it will be remembered, is a newspaper man, who enlisted in the army some time ago for the purpose of writing his experiences for the benefit of prospective recruits. After serving his time, he enlisted in the navy, and the navy life seems to be as attractive and instructive as the army. Mr. Lyon's book tells the story in a very interesting manner.

What Navy Does. "The first thing the navy does for a man," says Mr. Lyon, "is to improve his physique. It is the greatest institution in the country for 'making over' men and boys lacking perfect development, and joining the navy. But did you ever see one of them who hadn't developed into a white hope by the time his four year's enlistment and discharge came? The book gives many interesting details, showing the extreme care the navy takes of the health of the men. The slightest ailment of teeth, cuts, eyes, tonsils, and what not is at once remedied.

There is the case of a doctor spending an hour removing a speck from the eye of a man, who was unaware of its presence. "It might have bothered you later," the doctor said.

Care of Clothes. It is also interesting to learn that shape and cut of the sailor's trousers are not a freak of some demented tailor, but the result of a far seeing and deep design. They are bell shaped at the bottoms, so that the sailor can change clothes quickly without taking off his shoes, and also, that in case of the ship's being blown up, he can kick off his trousers easily, and keep on swimming with his hands.

The book does not say who all this care is expended on the sailor, while the poor officer has to be content with pants that are normal. The personnel of the navy has improved greatly in the last few years, says Mr. Lyon. Every encouragement is given to the better sort of boy to take advantage of the many lines of special training which the navy has to offer. He mentions the case of one Wilson, who, he says, is the type of boy the navy is very anxious to get. Wilson, neither drunk nor choker nor swore; yet he was full of red blood, and was as popular a boy as any in the station. Every evening found the boy at his books, brushing up on mathematics at Appolis. Hundreds of boys belong to the navy. Y. M. C. A., and crowd the place of evenings, writing to their sweethearts. It is a rule of the stations that every boy must write home once a week, or he is denied the "liberty" to go ashore one afternoon each week.

Offers Many Advantages. Of the many advantages of physical and mental training which the navy has to offer, the most important are: the chances of promotion which are sure to come to the boy who works for them; of the excellent financial position secured to the men's work of a similar nature; of the navy's trick of somehow putting her men into a condition of mind and body in which they seem to be equal to any situation that may arise; of these and many other phases of the wholesome life and training in the navy, as told in the book, which is a most interesting kind to the average prospective recruit.

There are several copies of the book at the local navy recruiting station, and the officers will be glad not only to give them out, but to supply any information which may be desired. If a boy has not made up his mind about this, he will do well to drop in and see the officers. They will treat him well, and tell him whatever he wants to know about the life and work of Uncle Sam's First Line of Defense.

Resolutions of Respect. Whereas, our Past worthy Patron, Bro. J. C. Hinkley, has been removed from our midst by the hand of death; Therefore, be it resolved, by Wichita Falls Chapter No. 277, G. O. P. E., that his wife has lost a faithful and loving companion, and his children a kind and devoted father. That this chapter has lost one of its best and most devoted members. That the chapter hereby expresses its deep sorrow, and its sympathy with the bereaved. That a copy of these resolutions be spread upon the minutes of the chapter, a copy given to the family of the deceased, and a copy furnished the newspapers for publication. MRS. S. J. ASHMORE, MRS. J. W. AKIN, MR. W. S. WILLAS, 114-116

Spy Scare On Ship Results In Search That Is Thorough

London, Sept. 21.—A spy scare on a transport crossing the Atlantic brought out some American qualities of thoroughness that were much admired by the British crew. It was in the first dark hours in the pirate zone and everybody was more or less settled down for the night, except the men at stations and the relief guard, when one of the former from a dark deck lonely post on the top deck sang out for the corporal of the guard and reported seeing a light flashed at intervals from a distant part of the deck. The guard was called out to deck. The rest is better told as I heard it.

"The guard come up an' got to work," said a sailor, "an' the 'ole 'bloomin' regiment troopin' up arter 'em. Search? They didn't 'arf get through 'er. There weren't seat or spar in one them boxes that would 'ave a rat, let alone a blinkin' weren't, neither, at the thought of soragin' sucker. Not 'arf savage they 'frit on board an' 'arakin' to be took out on a torpedo. Good boys, they are—an' not seemin' so very many things in the dark, if you know what I mean, considerin' the time of year."

ODD FELLOWS TO CONFER THIRD DEGREE MONDAY

The Odd Fellows will confer the Third Degree candidates at their hall Monday night, and a good attendance is expected out for that occasion. The following statistics will show what it means to be an Odd Fellow and what they are doing or have done in a few ways.

Total number of members, 1,678. 211 total relief paid in 1916, \$6,408. 256,644 total recd. for 1916, \$19,926,384.45. Invested funds at close of 1916, \$71,945,421.71.

The Odd Fellows are trying to keep in touch with all members of some of members who are serving their country in the present war.

CIGARETTE PRICE MAKES ADVANCE, FIFTY PER CENT

The high cost of living has gradually moved from one peg to another, always to the peg ahead, until at last it has reached the poor man's only luxury—tobacco. Great big signs have been placed at practically all cigarette stores to the effect that from now on all 15c cigarettes would sell for 20c; likewise cigarettes which formerly sold for a dime are now worth 15c. And even the nickel pack has been advanced to a dime, but at that the consumer is allowed

to practice economy by buying two of them at once for 10c, saving a nickel. This is the first big jump tobacco has taken in some time, but they made up for the lost time, as is shown by the fact that even the cheapest brands have been advanced 50 per cent, and the most expensive kind 13 1/2 per cent.

Other Tobaccos Will Rise

It never rains but it pours. According to statements made by a number of tobacco dealers yesterday, cigars, pipe and plug tobacco will take a like jump about the first of October. In other words the cigar you are now smoking, if it's the two-bit kind, will cost you 37 1/2c, which is about equal to the price of a good meal, provided the percentage of raise is the same as on cigarettes. Brownand, Tinsley and all the favorite "chews" in the handy tins will probably sell for 15c after the advance. Likewise Tuxedo and Prince Albert, which are at most certain to go to 15c. While, with but few exceptions all the stores selling these goods raised the price at the same time, it was not that they wanted to, but were forced by the manufacturers to do so. And possibly, in a way, the manufacturers were forced to raise their prices, for their expenses have been increased. The salaries of their thousands of employees had to be raised in order that they might meet the increased cost of the necessities of life.

Cost to Smokers

Some may think that the present advances will not amount to much, but just stop and figure a minute. Say your tobacco bill formerly was 20c a day. It will now be 30c. A ten cent increase per day for 365 days will amount to \$36.50 a year, which will be almost enough to buy wife a new pair of shoes next spring. In case that article keeps advancing the next few months as it has the past few

INSPECTION MADE OF ARMY STATION BY MAJOR FABER

NEGRO MEN FOR STEVEDORES ARE NOW WANTED IN THE ARMY

IS PLEASED WITH WORK

Only Infantry and Coast Artillery Branches Remain Open in The National Guard

Major C. W. Faber, U. S. A., made an official visit of inspection to the army recruiting station on Friday afternoon. The major seemed very well pleased with the work and conduct of the office, and left several important papers of instructions.

The first of these relates to the acceptance of strong negro men for stevedores in the Quartermasters Department, National Army. Married men will be accepted on the proviso that they will sign in duplicate a paper promising to support their wives during the period of service.

The officers are charged to pay especial attention to the physical examination of these negroes, particularly in the matter of weight.

Some Branches Open

There are further complete instructions as to what branches are open for negro men with previous service

will be accepted. The same applies to cavalry. In the coast artillery, only men with previous service will be accepted. In the various departments of the signal corps, married men will be accepted whose wives and families are not dependent upon them for support, or if papers are signed to the effect that they will support their wives and families during the period of service. Qualified telegraph and radio operators are in great demand, as are also engineers with previous training in civil life. This condition also applies to the medical corps. In the quartermasters corps, there is a severe shortage of competent stenographers, typewriters, and chauffeurs. For cooks and bakers, married men will be accepted. The field artillery and the aviation corps of the regular army.

In National Guard. In the National Guard, infantry and coast artillery only are open, and there is a great demand for the latter. In the National Army, engineers are in much demand, upon the same conditions as those obtaining in the regular army. Men for the ordnance, who have letters from the chief of the chief of ordnance recommending acceptance, are required.

On account of the great number of eligible men absorbed by the draft, army recruiting has been slow for the past two months. There seems to be an impression that because of the draft, there is no recruiting by the regular army. The recruiting officers, however, wish to state that the station is open for the purpose of enlisting recruits, and that they are anxious to see more applicants.

FALSE ALARM OF FIRE IS TURNED IN TO DEPARTMENT

The alarm turned in at the fire station at 2:50 yesterday afternoon proved to be false. The address given was 410 Tenth street, but this is down in the railroad yards. Thinking probably they had misunderstood the number, the fire department was rushed to 1212 Tenth, but there was no sign of a fire, or of having been one.

RED CROSS WORK IN THIS CITY AND SECTION PROVES EXCELLENT ACCORDING TO STATISTICS GIVEN

A plea for more women to devote a part of their time to work for the Red Cross, and a word of praise for the work accomplished under difficult conditions during the hot summer months, is contained in the first quarterly report of the executive board of the Wichita County Red Cross, issued Saturday following the quarterly business meeting of the board Friday afternoon.

Workers and funds are the two great needs of the local chapter. The board feels that something must be done to arouse the women to a realization of the great need of the work of the Red Cross, of making supplies to care for those wounded in defense of the principles for which the country stands.

Shipments of Supplies. With the few workers that have been at the local hall and at the work rooms in Burkburnett, Iowa Park and Electra in the past three months shipments of supplies in fairly creditable quantities have been made and next week a large shipment will be sent to St. Louis, practically all coming from the branch chapters of the counties.

The Wichita county Red Cross has been changed from the Southern division, with headquarters at New Orleans, to the Southwestern division with St. Louis as headquarters. In this St. Louis division there are many large and active chapters and it is felt that Wichita county women will need to bestir themselves if they wish to hold the name of Texas in the manner befitting its dignity.

Work Next Week.

Next week, and the weeks following, the board of the Wichita Falls chapter will make determined efforts to set a large proportion of the women of the city to work in some branch of the Red Cross.

If this war is to be ended as soon as

possible, and what women does pray fervently that this day be not prolonged, the men on the battlefields and in the trenches must have the support of the folks at home. Every one has their part to play and in the hospital relief work of the Red Cross the women folks can bend their energies to the best effect.

The board has reviewed the work of the Wichita Falls chapter in the following report:

In April President Wilson and Congress declared war between America and Germany. May 17 a group of women met in the M. E. Church, South, and passed a resolution to organize a Chapter of the American Red Cross. On June 5 Miss Jessie Kaye, an authorized instructor from Fort Worth, came up to teach for five days 8 women how to make surgical dressings. A few days later a sample box of hospital garments came from New Orleans, Burkburnett, Electra and Iowa Park and Petrolia, though not fully organized sent a group of women in to take the instruction from Miss Kaye too. This means a great deal of work and a sacrifice for these women to make the drive in, work hard at something so foreign to them, and then go back to home duties at night.

Texas Leads.

Texas stands second in the list of states contributing the most soldiers; she stands first in all in proportion to her population. We must make her stand first in Red Cross. To keep up with our boys we here at home, every man, woman and child, will have to do "My Best" to keep up with them.

Every child can save its pennies for the Red Cross. The motto of Americanism is that we are one nation from many states. From many persons here in this county we make one Red Cross Chapter. In France the government organized the school teachers of every district to be its representative; when it needed anything it wired the school teachers. Here in America we are united under the Red Cross. Each chapter is wired from headquarters the immediate needs. Major Grayson M. P. Murray cables from France the needs. The only way the chapters have of filling the quota allotted to it (There is a department in Washington which figures out the right amount each chapter is to contribute to the community in which it works. The immediate and fullest response to every appeal is necessary from each and every one of you for Wichita Chapter to fill her quota. When these calls come to the chapter, the quickest means of communication is through our newspapers. (They give us the best co-operation as they say that is their way of serving; it is necessary for you to read our papers and then act immediately. When we here fall short of our allotment some soldier over there has to do without. If you can furnish something when called upon and don't you let some soldier suffer.

Wichita county has already put her feet in the front. Through the long hot summer days our women have worked faithfully and steadily to keep this work going. The Seventh Texas is making a record which makes us proud to say, "They belong to us." It is already known as "one of the best." Our Red Cross must do likewise.

Rusk Iron Industry,

Now Owned By State,

May Be Disposed Of

By Associated Press. Austin, Texas, Sept. 21.—In the House Terrill has obtained the adoption of a resolution directing the investigation committee to include a probe of the Rusk iron industry at Rusk owned by the state. He pointed out that much valuable machinery was going to waste and he could see no reason why steps should not be taken to dispose of the plant.

Filtson and others introduced a resolution urging the state highway commission and the United States department of agriculture to do all in their power to build roads in the drought-stricken section of West Texas and thus give employment to those in the districts. The resolution was adopted.

COMMON SENSE IDEAS

Before we present to you the scientific principles of Chiropactic, we wish to call your attention to a few simple truths well known to yourself.

First: That the body is endowed with power to extract from simple food all that is necessary to make flesh, bone, hair and nails when in normal condition.

That this is the power we call life, and through its normal transmission the Heart, Lungs, Stomach, Liver, Kidneys, Bowels, circulation, as well as sight, taste, hearing, smelling, feeling, motion, and all other functions necessary for growth and repair are made to work in harmony.

That the brain is the seat of this power, and the channels prepared for its transmission are the spinal cord and nerves, and that a normal transmission will produce perfect health.

That any obstruction that would prevent a normal transmission of nerve stimuli will produce the opposite effect, called disease.

That the spinal column contains the spinal cord and that the nerves emerge therefrom through little openings between the vertebrae. That any deviation of the vertebrae in the spine will put pressure upon nerves and cause a derangement of the part supplied by it.

That the derangement so caused produces a condition commonly known as disease, varying in gravity and character with the amount of pressure and number of nerves involved.

That Chiropactic adjusting will put the vertebrae of the spine in normal apposition, remove the pressure from the nerves, thereby removing the cause of the trouble, making it possible for nature to cure you.

CHIROPRACTIC

It is without doubt the greatest drugless method of the twentieth century. It is no longer a theory but a tried and proven science, recognized and respected.

A true secret of restoring health, and no discovery is doing more to bring about a complete revolution in the healing art than this one.

MEANING OF CHIROPRACTIC

The meaning of CHIROPRACTIC is not known to many people, therefore a brief description:

The term CHIROPRACTIC is derived from the Greek, and literally translated means HAND PRACTICE. Practically the word stands for a drugless method of removing the cause of disease, based upon a scientific knowledge of the human body.

We want to especially impress on our readers that Chiropactic is not a "cure." We do not claim to "cure" any disease, nor do we give any character or kind of dope or medicine calculated to "cure" any manner of disease. Ours is purely a mechanical science, performed with the hands, and for the purpose of putting the body in condition to heal itself. County officials, through ignorance, doubtless, accuse us of "practicing medicine without a license." Many hundreds of people throughout the county who have been benefited by adjustments, will, of course, understand the absurdity of the officials' charge, and at the time of our trial we shall be able to prove to all others that ignorance and prejudice alone are the foundations for the persecutions being perpetrated against this wonderful science.

COME FOR EXAMINATION

In the meantime, we say to you, if you are sick or ailing, no matter of how long standing, or the nature of the trouble, come to us and we will give you a thorough examination free, and gladly explain the method of our work.

FEATURE FILMS OF WEEK

Billie Burke, of the scintillating personality and titian hair, will hold forth as star of the Empress screen for two days this week, her engagement to be on Monday and Tuesday in "The Mysterious Miss Terry."

Monday at the Plaza will mark the opening bill of the Star Vaudeville Company, coming here from Dallas and Houston engagements. Zoe Rae, noted comedienne, is the star of "The Golden Heart," a Universal feature on the Monday program at the Plaza.

"The Flame of the Yukon" with Dorothy Dalton playing the part of the "Flame," a woman of the dance halls of the north, will be the stellar attraction of the Majestic's Monday program.

The program for the remainder of the week at the various shows follows: Tuesday—"God's Law," Lois Weber special at the Majestic. Billie Burke in "The Mysterious Miss Terry" at the Empress.

Wednesday—Sessue Hayakawa in "Hashimura Togo" at the Empress. Gladys Hulette in "Streets of Illusion" at the Majestic.

Thursday—William Desmond in "Time Locks and Diamonds" at the Majestic. Dustin Farnum in "Durand of the Bad Lands" at the Empress.

Friday—Emily Sawyers in "Miss Robinson Crusoe" at the Empress. Alna Taylor in "Iris" five-part drama by the story by Arthur Wing Pinero.

Saturday—"Checkmate" at the Majestic. Alice Joyce in "Richard Brazen" at the Empress.

"GOD'S LAW" AT THE MAJESTIC TUESDAY

"God's Law" an expose of past and present systems of dealing with crime will be the attraction at the Majestic Tuesday. The Universal film "God's Law" was the instrument used a few days ago by a group of Pennsylvania state legislators to drive home the injustice of the death penalty as punishment for crime. The film, which is said to be a powerful lesson to those who still cling to the belief that capital punishment is just, was projected on a private screen in the Pennsylvania house. The first day of the Philadelphia Public Ledger published a two-column story on the first page calling attention to the ingenious use to which the film was put. The Ledger was instrumental in securing the performance. Many of the representatives went out of their way to speak to me following the performance. Representative Lex N. Mitchell of Jefferson county declared that he was very deeply impressed by the film. "I am against capital punishment," he said, "and this picture only confirms my belief. It also exposes another horrible fault in our system of dealing with persons charged with crimes. That is the third degree. I believe it should by law be abolished and a heavy penalty inflicted upon de-

tried and convicted but because he has rescued the Governor's daughter that official pardons him. Durand then marries Molly and they settle down and he becomes a good citizen.

"HASHIMURA TOGO" NOW IN PARAMOUNT FILMS

Quaint, picturesque Japan and bustling, rushing America are shown and contrasted vividly in "Hashimura Togo," the Paramount screen adaptation of Wallace Irwin's famous Japanese schoolboy stories. The star is Sessue Hayakawa who has won fame on the screen in many productions, including "The Cheat" with Fannie Ward and "The Bottle Imp," a screen version of Robert Louis Stevenson's famous story. Being a native Japanese, Hayakawa has imparted to the role of "Togo" all the charm of the original and in order that the quaintness of his language may not be lost through the "silent drama" presentation, the titles are taken direct from Wallace Irwin's own stories and "The honorable newspaper writer" has done much to add to the attractiveness of the photoplay.

"DOROTHY DALTON STARRED IN 'THE FLAME OF THE YUKON'"

A woman as lawless and free of love as Merimee's Carmen, is the role played by Dorothy Dalton in the new Triangle play "The Flame of the Yukon" written by Monte Katterjohn and produced under the supervision of Thomas H. Ince. This picture will be shown at the Majestic Monday. "The Flame," as the gamblers and miners call her, is the queen of the dance hall girls in a Yukon frontier town during the gold rush days. She is a woman without creed, conscience or moral standard, yet when she meets "The Stranger," a young, rugged fellow who comes to the northland to find his fortune, she feels a sudden attraction that draws her to him. Instead of "trimming" him, as she has planned, she becomes his champion and determines to "go straight" in order to gain his respect. A splendid cast headed by Kenneth Harlan, former leading man for Gertrude Hoffman in "Sumurun," and last seen on the screen in "Cheerful Givers" with Bessie Love, insures the effective interpretation of the many dramatic scenes. Melbourne MacDowell, husband of the late Fanny Davenport and distinguished for his stage work, is another member of the cast, and Margaret Thompson, Carl Ellman and Ray Palmer have important roles. Charles Miller was the director.

DUSTIN FARNUM AT THE MAJESTIC THURSDAY

On Thursday "Durand of the Bad Lands" a Fox play will be the attraction at the Empress. Dick Durand (Dustin Farnum) an outlaw is wanted especially for the deed he has not done. Durand has been present at the massacre of settlers by the Indians, and he and three children are the only ones who escaped. Because his mask is found Sheriff Clem Allison (Tom Mix), thinks that the outlaw himself has massacred the people. In the midst of his escapades Durand falls in love with Molly Gore (Winifred Kingston), a girl who looks after the children rescued from the massacre. She goes east with the life ones but when she receives a letter from Durand mentioning the meeting with the Governor's daughter, May Boyd (Babe Cressman), she hastens west once more. Meanwhile the outlaw has been captured.

New Discoveries Are Made With Reference Motion of the Moon

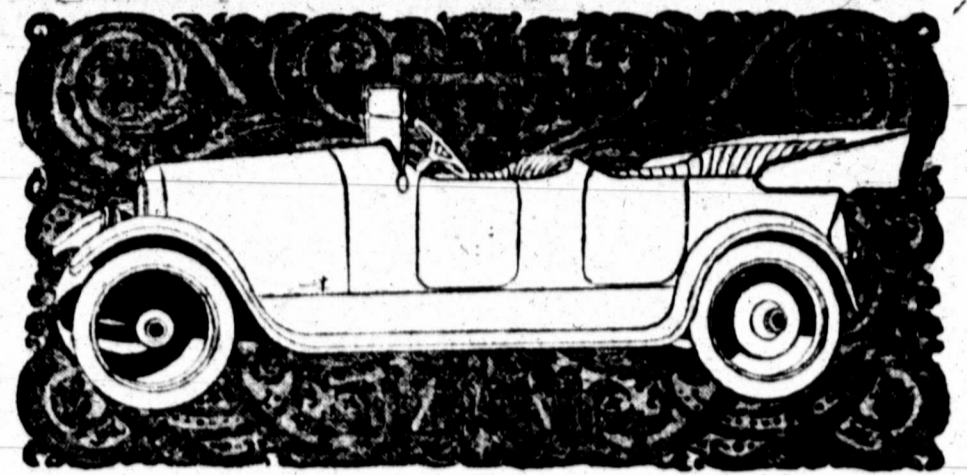

By Associated Press. St. Louis, Mo. Sept. 22.—The cause of the fluctuation in the motion of the moon in its orbit, which has long been a puzzle to astronomers—has been discovered by Prof. T. J. See, director of the naval observatory at Mare Island, Cal., according to a statement which he gave out today. Prof. See is visiting his mother in Montgomery City, Mo. He has made many important astronomical discoveries, a particular series being those by which he upset the old nebular hypothesis in 1909. Prof. See states that the electro-dynamic waves of the sun, which he announced two years ago, are the force of gravitation in the solar system are modified as to the moon because the force is exerted through the mass of the earth. This interposition of the earth between the sun and moon causes the electro-dynamic waves of the sun to undergo circular refraction, dispersion and absorption. This said Prof. See, weakens the action of the sun on the moon when that satellite is near the shadow of the earth, as at the time of lunar eclipses. This weakening of the gravitational force of the sun on the moon, he stated, causes the fluctuations in the moon's revolution in its orbit.

"For fifty years," said Prof. See, the motion of the moon has defied calculation, and astronomers have been greatly puzzled by the departure of the moon from its predicted place. In 1878 Simon Newcomb finished an elaborate investigation showing that the moon's motion was not as calculated, and that thereby the accuracy of the predicted places in its orbit may be increased twelve fold. "No irregularity," says the announcement, "now remains in the moon's motion large enough to be seen in the transit circles used by astronomers. Thus with the previous mathematical development carried out by Newton, Laplace, Hill, Newcomb, Brown and others, the lunar theory will be entirely perfected." Prof. See regards his discovery as to the cause of the lunar fluctuations, and his successful working out of tables that indicate the place of the moon in its orbit more accurately than has been done heretofore, as corroborative of his theory of the cause of gravitation. He has sent a report on his discoveries to the Royal Astronomical Society, London, and to scientific societies in Paris, Stockholm and Edinburgh.

"HIGH BROW" MUSIC IS PLAYED TO BLUEJACKETS

By Associated Press. Great Lakes, Ill. Sept. 22.—If you happen to hear a sea-faring bluejacket or Uncle Sam's Navy humming a snatch of "La Tosca" or "Il Pagliaccio," as he strolls about, do not be surprised. "High brow" music is to be a part of the jacksies training at the Great Lakes Navy Training Station, where five-eighths of the new American Navy personnel is being instructed. The famous Great Lakes Navy Band which is being "tutored to toast" under the personal direction of Lieutenant John Phillip Sousa, is specializing in the operas. Stiring marches are necessary, according to Lieutenant Sousa, to rouse patriotic and the fighting spirit, but combination keeps the men in excellent morale, refines them, and does not place upon them the frightfulness of warfare, as is true when only the martial music is played, he says.

MARMON 34

Comfort At ANY Speed

The Marmon 34 is 1100 pounds lighter than other cars of its class. Yet it rides easier than the heaviest cars. Prove this by an hour's ride over any highway. Sit at the wheel or in the tonneau at 50 miles an hour on a country road and experience the ease and luxury of boulevard driving.

Racing experience paved the way for this car. Like racing cars, the Marmon 34 is light and perfectly balanced.

The Marmon designers secured roadability by distributing weight properly—by securing the proper relation between sprung and unsprung weight.

You tour all day on any highway without fatigue in a Marmon 34—the result of scientific construction.

We're glad to prove these statements now—on any road you may choose.

IN "THE MYSTERIOUS MISS TERRY"

The appealingly feminine, lovely Billie Burke, of many stage successes, as the heroine in an unusual romance of love and mystery, by one of our most famous writers and humorists Gillette Burgess.

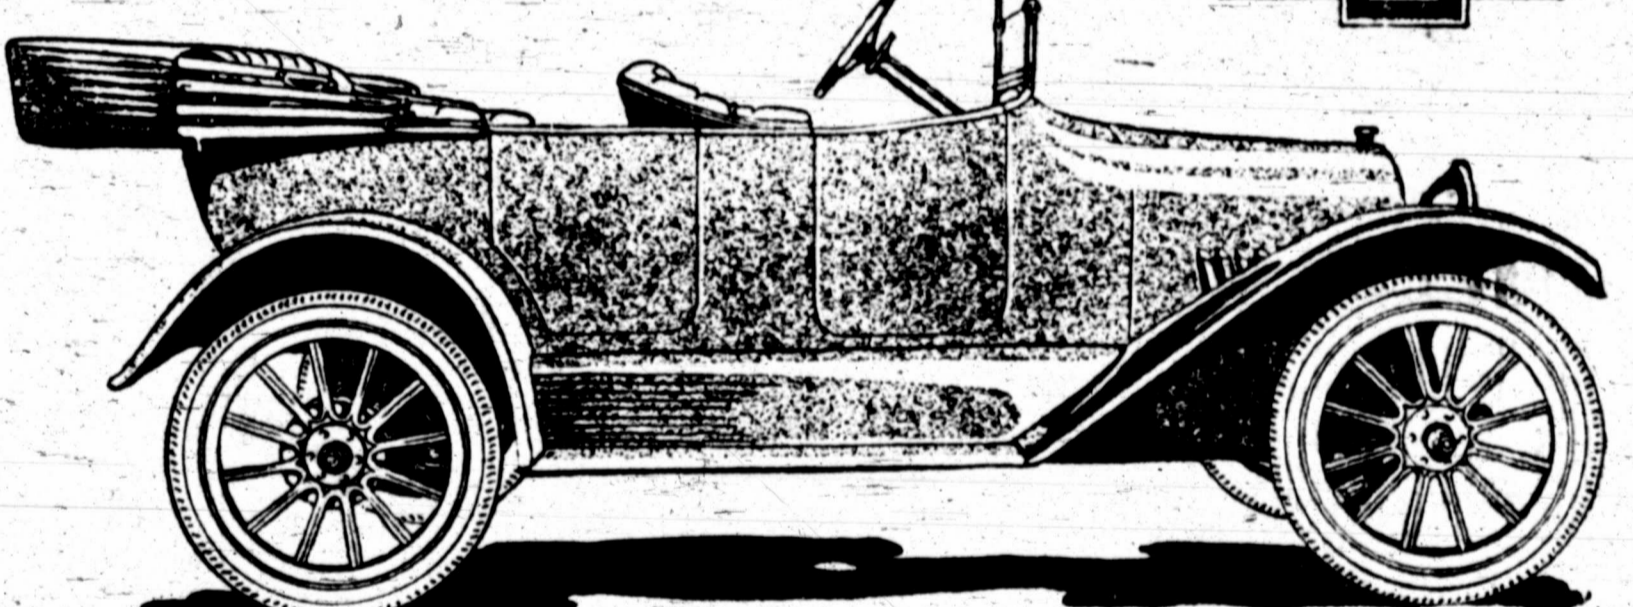

The above combination is enough within itself to assure one of the success of the play. Add to it a story of novel and amusing episodes, just a little bit different from anything that you have seen or read for a long time; a cast of extreme excellence, with Thos. Meighan as leading man, and a production above reproach, and you have the ingredients for a photoplay which should pack a theatre to its capacity. As the mysterious MAVIS TERRY, proud, high-spirited, captivating and fetching—too fetching in one incident—Miss Burke is in her element. The final unravelling of the plot is most entertaining.

American Officers In Navy Are Often Mistaken For Huns
London, Sept. 21.—Similarity between the American and German uniform for navy officers has caused several men of Admiral Sims' staff in London to be mistaken for German naval officers, prisoners of war, being shown about the city.
Several U. S. N. officers visited an old abbey at Epping Forest. A crowd had gathered outside the abbey and when the officers reappeared they were greeted with "Hello, Germanay; how's the kaiser?"
When this was reported at the American embassy other officers told of similar experiences.

SAXON 'SIX'

A big touring car for five people

See How These 14 Rival Cars Fall Behind Saxon "Six"

Here are 14 cars that rival Saxon "Six" in price. Some cost less. Some cost more.

They range in price from \$895 to \$1250. Saxon "Six" costs \$935.

But see how far they fall behind Saxon "Six" in point of fine-car features.

Saxon "Six" has Continental motor, Remy ignition, Wagner 2-unit starting and lighting system, Timken axles, Exide storage battery, Stromberg carburetor, Fedders radiator, Warner steering gear, Timken bearings, Spiral bevel gear, and Semi-floating axle.

Every one of these 11 important attractions is of top quality.

That is proved by the fact that they are all found on the costliest cars made in America.

Each of these 11 features on Saxon "Six" at \$935 is also

found on at least 9 cars ranging in cost from \$1175 to \$10,000.

In other words, the fine cars, the cars of high price that demand quality regardless of cost, use the same 11 features that Saxon "Six" has.

But do these 14 cars in the Saxon "Six" price-class also adopt these features? They do not—save in occasional cases.

Out of these 14 cars, ranging in price from \$895 to \$1250, 3 have not a single one of these quality features.

Three of these 14 cars have only 1 of the 11 fine features. Three have only 2 of these 11 features. Four have only 3 of these 11 features.

And only 1 car has 4 of these 11 features. And yet that car costs \$250 more than Saxon "Six."

This check proves beyond dispute that cars costing \$200 or \$300 more than Saxon "Six" cannot match it in quality and value.

For out of the 14 cars we listed at \$895 to \$1250, 13 of them cost from \$10 to \$315 more than Saxon "Six." Only one costs less.

So buy Saxon "Six" at \$935 and save the difference. And you'll get a better car and a better value. But by all means buy now. Come in today.

Remember this point, too. The very things that make any motor car desirable, such as quick pick-up, spirited performance, smooth pulling power, vigorous flexibility, quiet operation, and long efficiency, are found in far greater measure in a "Six" than in a "four."

Saxon "Six" Sedan, \$1395; Saxon "Six" Chummy Roadster, \$935; Saxon Roadster, \$395. F. o. b. Detroit.

CAPITAL CASES
SET FOR TRIAL
HERE THIS WEEK

Two capital cases are set for trial in the 7th district court this week. On Monday the case of Ed Isaacs, negro, charged with the murder of John Mounts, is set for trial. Mounts who was a white man was killed by a knife wound. Later Isaacs was arrested. He is said to have made a statement admitting that he stabbed Mounts.
