GOVERNOR MAY MAKE ONE VISIT HERE SERVE FOR ASYLUM SITE INSPECTION AS WELL AS ADDRESS AT COURTHOUSE

Governor Hobby and Attorney General Looney will be here to inspect the offered site for the location of the State Asylum for the Insane, and they will endeavor to make the one trip serve both for the inspection and the opening of the courthouse. The recent meeting at Austin, according to B. F. Johnson, secretary of the Chamber of Commerce, who was present to bring up the matter, was for the purpose of eliminating some of the applicants, and deciding on the town which the locating board would visit. Fort Worth and Wichita Falls are among the number to be visited, and it is understood that there are very few others. Fort Worth is hot on the trail, Mr. Johnson says, and is making desperate efforts to get the location. As soon as he can get the time, Mr. Johnson intends to go to Memphis, and see Lieutenant Governor Johnson on the matter. Practically everything that could be done has already been done, and the matter is now "on the knees of the gods."
Mr. Johnson further reports from Austin that the new state highway has been obtained, running from Wichita Falls to Abilene, and will be designated the "Wichita Valley Highway." It is the purpose of the meeting at Seymour today, to have this route established as the branch of the Ozark Trail.
Howard Will Speak.
In this connection, owing to the inability of Floyd Thompson, of Oklahoma City, vice-president of the Ozark Trail Association, to be present at Seymour, the Young Men's Business League of that city have released Mr. Johnson, who was to speak. H. C. Howard, assistant secretary of the

JOHNSON RETURNS FROM DALLAS TRIP; CAMPAIGN BEGUN

CHAMBER OF COMMERCE SECRETARY TELLS OF FOOD CONSERVATION WORK.

MANY CARDS ARE ISSUED

This District, of Seventy Counties, Guarantees to Raise Total of Pledges Equal to All Rest of the State.

B. F. Johnson, secretary of the Chamber of Commerce, has returned from Dallas, where he spent the last two days on the food conservation, mainly engaged in the entertainment of several dozen printers, to whom he set contracts for several thousand dollars worth of printing, and with whom he was in conference, immensely popular.
A hundred thousand pledge cards, one hundred thousand letter heads and envelopes, two hundred thousand tin can labels, and the most economical methods of buying and cooking for the families of the state, are being distributed. The cards, which are printed on the backs of the envelopes, are being distributed to the printer's hands at the printer's.

Mr. Johnson says that things are certainly waiting in the wings of the state, and that this district, comprising seventy counties, has guaranteed to raise as many pledges as any other district in Texas. He said that he is perfectly confident of making good on the guarantee—or says they say—that they will. He said that he is sure that the expense accounts on the outcome. Nothing going so far.

At this work, Mr. Johnson may be seen in operation in the United States, may use the Western Union and telephone wires on the same basis, and save money generally. He seems to cause him infinite satisfaction. However, it will all be over on Nov. 5.

The same plan will be used for obtaining pledges as was in operation here in the recent Red Cross campaign, and the same plan will take up the matter, and all students will be asked to give him infinite satisfaction. However, it will all be over on Nov. 5.

Every printer in Texas is to be asked to reach a sermon on food conservation on a certain Sunday to be determined in the immediate future. Mr. Johnson was asked to outline the sermon. He said that he is going to give a sermon on food conservation upon him to an overpowering extent at this point. Mr. Johnson caught the next train for Dallas on Tuesday, where E. A. Feden, Texas Food Director, will receive reports, and outline further plans of work.

Work of High School Pupils for Red Cross Pleases Local Board

Five hundred and ninety-six subscription cards have been turned in to the Red Cross supply fund for the local chapter, and about nine hundred dollars, in cash, as a result of the campaign staged last week by the students of the High School. There are about fifty-five envelopes still to be turned in and it is estimated that the final results will show about six hundred and fifty dollars as the monthly income of the local chapter.

The executive board feels very grateful to the students who have worked hard enough on the campaign to have deserved better results. The thousand dollars set as the goal for the monthly income, was, it is the least sum on which the proper quota of supplies could be secured. The board feels that the students could have been used to great advantage. It is urgently requested that those who have not yet signed the cards, and who wish to avail themselves of the privilege of being in this great work, will call the Chamber of Commerce, where there are plenty of subscription cards for their convenience.

"Tourists' Information" Covers Lot of Ground, Say Bureau Operators

When the Chamber of Commerce set up the sign "Tourists' Information Bureau," it may be assumed that the design was purely altruistic—indeed they said so. As a matter of fact, they are now complaining that the sign is the bane of their existence. Inasmuch as the word "Tourists" seems to escape notice and everyone thinks the Chamber is the place from which to rent house-keeping rooms, recover stolen property, obtain rail-time tables, get jobs, have umbrellas mended, and so forth. In short, the sign is a source of infinite trouble, and the means of bringing into the office may loiterers from Quaker street, and an enormous variety of weird requests.
Chamber of Commerce will attend in his place.
The route is to be inspected, the latter part of the month, by the state engineer, and will hereafter be one of the important highways of this section of the state.

The SONORA is the World's GREATEST PHONOGRAPH

DON'T MAKE A MISTAKE IN YOUR PURCHASE OF A PHONOGRAPH

Remember, the SONORA, in competition with all known Phonographs, at the great Panama-Pacific Exposition WAS THE ONLY TALKING MACHINE THAT WAS GIVEN ANYTHING FOR TONE QUALITY. The Jury of Awards gave the SONORA 100% PERFECT.

This is the highest endorsement that can come from the minds of the greatest musicians that have both National and International reputations.

The tone of the SONORA is nearer absolute perfection than any other talking machine. THE ONLY TEST OF TONE IS THE EAR. Hear any other Phonograph, then hear the SONORA. You will appreciate it's deep, rich, mellow tone.

We Ask You to Come to Our Booth Rooms and Let Us Demonstrate to You the Better Qualities of the Sonora.

What's This? Snakes Worth Millions In War Time as Food Savers, Says Forestry Man

Washington.—Snakes are a valuable asset and there should be a campaign against killing them, writes Gayne T. Norton in the current issue of the American Forestry Magazine. The article goes on to show what the snake does for food conservation by way of killing rodents and insects, the greatest enemies to grain that man knows. The public has become acquainted with snakes as never before, writes Mr. Norton, because of the pictures in the current issue of the American Forestry Magazine. The article goes on to show what the snake does for food conservation by way of killing rodents and insects, the greatest enemies to grain that man knows. The public has become acquainted with snakes as never before, writes Mr. Norton, because of the pictures in the current issue of the American Forestry Magazine.

The plea for the snakes is illustrated with pictures of Miss Gladys Dittmars, daughter of Raymond L. Dittmars, curator of the New Zoological Society, fondling a King snake, Allen Samuel Williams, founder of the reptile study society and Geo. von Buchen of New York city, who has one of the best private collections of snakes in the world.

The work of the Dittmars Club of Newark, N. J., whose members go snake hunting is recited in detail. "With this summer the millions of war gardens have given the snake popular status," writes Mr. Norton. The gardens brought outdoors many who ordinarily would not step from paving blocks. Tremendously increased tillage has brought people and snakes together.

"Unless much educational work is done the number of snakes that will be killed next year by the well-meaning but misinformed gardeners will be very large. Our snakes, and we are rich in reptile life, are a national asset worth many millions of dollars. Snake killing will never become a national issue—conserved as an economic factor, destroyed as a menace to the farmer, particularly at this time, should be conserved. The relation it bears to successful crops is important—more important than even the average farmer realizes."

Not Man's Enemies. "Rodents may not manifest friendship toward us, few would welcome such a condition, yet they are not enemies. They never attack unless in self-defense. Of our 111 species but 17 are poisonous—two species of rattlesnakes, and 15 species of Crotaline snakes, the copperhead and moccasin, the dwarf and tropical rattlesnakes. On the other hand the 'help the snake' is valuable. The nests destroyed each year, especially by rodents that injure crops and carry communicable diseases, roll up a large balance of good service in their favor.

Shooting of Ducks Begins October 15
The duck shooting season opens on October 15th and the date is being impatiently awaited by duck shooters. There are already a number of ducks and geese at Lake Wichita. Geese are reported more than ordinarily plentiful this season.

Indiana at Eighth Street.

EMPRESS THEATRE Today

"The Honor System"

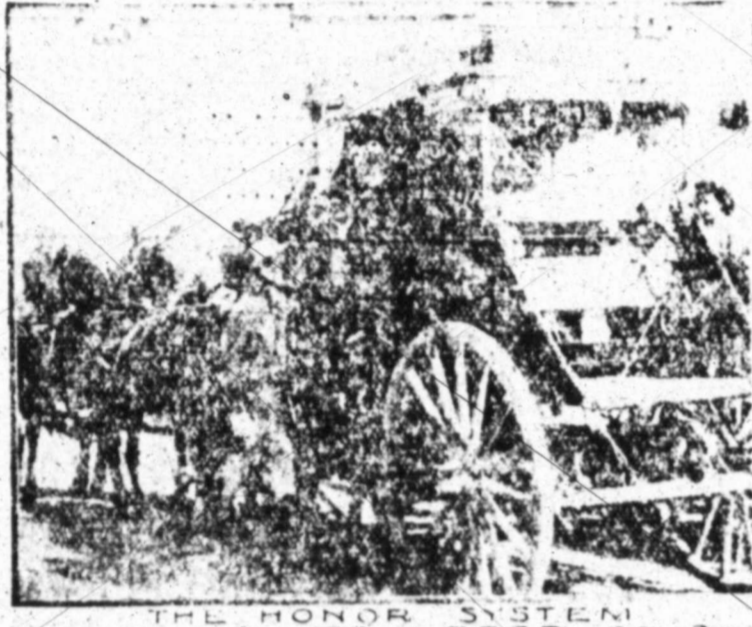

10 REELS 10

"The Honor System," directed by R. A. Walsh, breathes the spirit of virile Americanism and establishes the screen as a medium for the depiction of human emotions.

Laughter, tears, tense moments, thrills, are the components mixed or alternated by a master hand.

This production has the greatest aggregation of stars ever shown in a picture such as Milton Sills, the male star of "Patria," Miriam Cooper, one of the stars of "The Birth of a Nation," Arthur Mackey, the greatest SHERIFF CHARACTER ever shown on the screen, Gladys Brockwell, known as "the woman of a thousand expressions" and Charles Clary who plays the part of a State's Attorney.

While this picture is NOT a war picture, it is in class with "The Birth of a Nation." This picture has been shown everywhere for prices ranging from fifty cents up, and we are only charging these small prices in order that every one may see this wonderful production.

TOMORROW

"Silver Threads Among the Gold"

The Photoplay That Will Never Die Love is always young and fair, What to us is silver hair, Faded cheeks or steps grown slow.

Sing a song of long ago, Now the weary day is done, And the breeze is hushing low Dishes to the vanished sun, Sing a song of other days, Ere our hearts were tired and old, Sing the sweetest of old lays, "Silver Threads Among the Gold."

This sweet old song has been pictured in six reels, and will leave a lasting impression and make you feel better for having seen it. Pure in tone, theme and humor. A play that will please.

10c—ADMISSION—15c

AL. H. WILSON AND COMPANY AT WICHITA THEATRE OCT. 22 Al. H. Wilson, America's dialect character comedian and singer with a specially selected company will appear at the Wichita Theatre Oct. 22nd, in a new play "The Irish Fifteenth" written by Theodore Burt Sayre. It never did require much of an effort to like Al. H. Wilson for there is no "high-brow" effect at the social problem in his acting. Possessed of a voice that sings true he is content to fall in love in the good old-fashioned way, to sing songs that have a touch of sentiment and to dispense the kind of comedy that keeps his audience in a state of merriment, and that sends them on their homeward way feeling all the better for having witnessed his performance.

"SILVER THREADS AMONG THE GOLD" AT MAJESTIC FRIDAY "Silver Threads Among the Gold" starring Richard J. Jose will be the attraction at the Majestic on Friday. Concerning this attraction a notice says: "Silver Threads Among the Gold" has played more return dates than any photoplay ever produced, and will live as long as the song from which it sets its name. It is a part of your life and entertains all classes. Its appeal is all human, and makes one feel better for having viewed it. It will live in the memory of all who have been censored by millions of mothers and fathers and has found a warm spot in the hearts of all.

Naval Airplane Plant Established and Many Workers in Demand

The local secretary of the civil service commission has received notice that the government is opening a naval air craft factory at the Philadelphia navy yard and that tradesmen including machine woodworkers, cabinet makers, boat builders, fine joiners, tube men, acetylene welders, machine operators, sheet metal workers, smiths, flat metal workers, lay-out men, assemblers and varnishers, are urgently needed. Further information may be procured at the postoffice.

NEW POSTAL RATE SCHEDULE BECOMES EFFECTIVE NOV.

LETTERS WILL BEAR THREE CENTS AND NEW REGULATIONS, NEXT MONTH

POST CARDS TWO CENTS

Letters For Delivery by Office at Which Mailed However, May Still Be Sent for But Two Cents.

Beginning November 2 the new postal rates will be in effect, and officials say the public should acquaint themselves with the details of the changes in order to avoid needless confusion and even serious loss of mail. Necessarily the changes in rates will be the occasion for more or less confusion, and doubtless much mail will be held up for lack of proper postage and probably many other confusing incidents will take place.

Following is an excerpt from an order issued by Postmaster General A. S. Burleson:

"Upon all matter of the first class postage shall be charged at the rate of three cents for each ounce or fraction thereof; and drop letters shall be mailed at the rate of two cents per ounce or fraction thereof, including delivery at letter-carrier offices.

"Drop letters are letters addressed for delivery from the office at which they were mailed. There is no drop rate on any matter received at post offices.

Two Cent Postage Cards. Postal cards shall be transmitted through the mails at a postage charge of two cents each, including the cost of manufacture.

"It shall be lawful to transmit by mail, at the postage rate of two cents apiece, payable by stamps to be affixed by the sender, written messages on private mailing cards, such cards to be sent openly in the mails, to be no longer than the size fixed by the convention of the Universal Postal Union, and to be approximately of the same form, quality, and weight as the stamped postal cards now in general use in the United States.

Bulletin is issued. A. M. Hockery, Third Assistant Postmaster General issued the following bulletin on Oct. 4th:

Under the Act of Congress approved July 3, 1917, changing the rates of postage, the Department will begin issuing stamps and stamped envelopes as soon as a supply can be manufactured. It will not be possible, however, to provide them in sufficient quantities to exchange stocks of 1-cent postal cards, 2-cent stamps, or 2-cent envelopes held by the public or by postmasters. It will therefore be necessary, beginning Nov. 2, 1917, when the new postage rates become effective, for postmasters to continue the sale of 1-cent cards and 2-cent envelopes to the public on the basis of the public to their adhesive stamps to cards and envelopes to the amount of the increase of postage."

New Cards to Be Issued. In other words, the law becomes effective Nov. 2 your postal cards will cost you two cents when it bears your written message. Just as soon as possible the government will issue two-cent postal cards and when the old stock of one-cent postal cards are entirely gone, the new two-cent postal cards will be regularly on sale at all post offices.

The same is the case in regard to stamped envelopes. As soon as possible the government will issue three-cent stamped envelopes. But until then the stock on hand will be sold at the usual prices and the additional postage required (after Nov. 2) will have to be added by affixing extra stamps to the envelope or postal card. No stamps or stamped envelopes on hand in possession of any person will be exchanging cable at any postoffice or station.

SOCIETY

Admission to the Sunday Dinner must be phoned or sent to the business office by 1 o'clock Saturday afternoon. Contributions are requested to proceed to the business office for the closing of the column. An exception will be made, however, in the event of Saturday social engagements or special announcements.

STANDARD CLUB HOLDS INITIAL BUSINESS MEETING

Mrs. E. K. Lynn was hostess on Wednesday at the Standard Club in the initial business meeting of the club year. The new year's business from last year and plans for coming meetings were discussed and two new members, Mrs. Rob Robinson and Mrs. Rose Brantley were elected. The club is to meet on Wednesday of each week, deciding to keep up the club study as practically all the members are workers for the Red Cross already and the club hours of 4 to 6 do not conflict with this work. Refreshments will be simple. The club will meet Thursday of next week with Mrs. M. M. Walker. Before adjournment Mrs. Lynn served a salad with coffee.

NEW IDEA CLUB MEETS WITH MRS. DELLIS

The New Idea Club met Wednesday afternoon in regular session with Mrs. D. Dellis as hostess. Fancywork as usual occupied the attention of the members and late in the afternoon when the hostess served a tempting two-course luncheon of ham, mousse, hot graham gems and tea, and a dessert of apples, cake, and home made nuts. Mrs. Vera Friberg and Miss Thelma LaVera Simmons were the guests, the club members present being: Mesdames G. E. Friberg, J. H. Simmons, M. E. Carey, Harry Thornberry, L. W. Newton and J. J. Simon. The club will not meet next week as Circus day comes on the regular day of meeting.

BIRTHDAY PARTY FOR MARY ELIZABETH LEE

Little Miss Mary Elizabeth Lee was four years old Wednesday, October 10, and the occasion was properly celebrated with a birthday party given by her parents, Dr. and Mrs. O. B. Lee.

By the month (mail or carrier) .50
Wichita Falls, Tex., October 11, 1917.

NOTICE TO SUBSCRIBERS
Carrier boys are not allowed to collect for subscription to The Times, except in the factory district and on north side of river.

We haven't heard from any German sources lately any retort of the kind that the English won't fight. The British are doing decidedly more fighting now than is relished by the Germans.

Wichita county feels honored in having Governor Hobby and Attorney General Loomay accept its invitation to be present and have a part on the program at the opening of the new courthouse.

The Times is being favored with perhaps the largest volume of advertising in its history. Not only are local merchants using its space liberally, but the big advertising agencies in the North and East are giving the paper a big patronage.

An Associated Press dispatch says that Gunther William Clancy, the Texan, who was the first man to carry the Stars and Stripes on a battlefield in Europe, is to receive a comfort package, which, among other things, will contain a pack of American tobacco for which Clancy had expressed a longing.

There has been times when we thought editorials were the least important of all newspaper features. (That was before we began writing them.) We even took the position that few people ever read them.

Editorials may not do so much good, but they certainly can do harm. If you don't believe that, get a job on some reputable paper and get a politician's name spelled incorrectly in one of his initials wrong.

OFFICIAL DERELICTION.
Ninety-eight counties in Texas have failed to file returns of the election with the secretary of state held in August on important constitutional amendments as required by law.

Some one told me you were out of politics. "I'm like a number of other men in political life," replied Senator Sorghum. "I'm here, but events have made politics such an enormous proposition that I am scarcely discernible."

WISER AND OTHERWISE.
"Conscience is the tax a man pays to the public for being eminent."—Swift.
"Knowledge is power."—Bacon.

"Good salesmen are said to earn large salaries." "Well, if you've ever tried to peddle anything you'll admit they deserve 'em."—Louisville Courier-Journal.

ROTARIANS VOTE AGAINST SALE OF GASOLINE SUNDAYS

WARM DISCUSSION DEVELOPED AMONG MEMBERS WHEN MOTION IS BROUGHT UP.

DR. P. G. CROSS SPEAKER

Urges That Employes of Garages Rest Upon Sabbath as Well as Men in Other Lines of Work

A warm discussion followed the presentation today by Dr. P. G. Cross to the Rotary Club of the petition to close the gasoline supply stations after 9 o'clock on Sunday mornings, which he also presented yesterday to the Lion's Club, and will bring before the city council tonight.

Many Need Gasoline. It had been moved and seconded that the Rotary Club endorse the petition, and also agree not to buy their gasoline and oil on Sundays, and the motion was about to carry, when Dr. Cross rose and suggested that there were plenty of men who simply had to have gasoline on Sundays, because their business demanded it. "What is to become of the man who is on a life and death errand, and is forced to remain all day in town because he cannot get gas?" Mr. Cross inquired.

Rev. Cross cut in. "That's just what I am asking for. These fellows—do you want to live on Sundays? Look at San Antonio. There is a wicked town for you. But she has one good thing. You cannot buy a drop of either oil or gas from midnight Saturday till Monday morning. And San Antonio is furthermore the biggest tourist centre in Texas. If any town has an excuse to get gas and oil on Sundays, it has. And there is one more point. There is a city ordinance to the effect that, these stations be closed; the government has asked that we conserve the supply of gasoline; if you are patriotic, you will know what to do."

The motion was then put to the vote, and was carried by a majority of five, though many did not vote. Several members expressed themselves as being very much against the endorsement, but did not vote on the question, and the resolution was adopted.

T. B. Smock spoke upon the recent campaign for the Red Cross fund. "Last week, four hundred high school students succeeded in raising a little over five hundred dollars for the Red Cross fund," said Mr. Smock. "I am in the position of being able to tell you that I did not see a single one of them."

Hert Bean warned supported Mr. Smock's remarks, and said he thought the school would be staid, "and this time," he said, "we shall not leave the matter to children, but let it ourselves, as we ought to have done long ago."

MANEUVERS SITE NOT TO BE CHOSEN IN NEAR FUTURE

Socialist Congress At Bordeaux Closes; Conference Favored

By Associated Press. (Delayed)—The Socialist congress ended today in a complete triumph for the majority section. Their resolutions, drawn up by M. Renaudel, leader of the majority Socialists in the chamber of deputies were passed by a vote of 1509 to 52. The resolutions, which take up two newspaper columns, favor the Stockholm conference and affirm the determination of the Socialist party to obtain the necessary passports for delegates to attend it.

The resolution also approves of Socialist representation on the cabinet, a more vigorous national defence policy and a revision of the war objectives of the allies. The resolutions declare that the Socialist party should vote in favor of France's war appropriations in order to demonstrate that it is the unanimous will of the party to assure national defense.

Russia to Take Part in Allied Conference, Says Official Report

By Associated Press. Petrograd, Wednesday, Oct. 10.—The new Russian government, in a proclamation declaration today, regarding its participation in the forthcoming allied conference that will discuss questions connected with the common war, the Russian representatives will seek to reach an understanding with the allies on the basis of the principles proclaimed by the revolutionary government at its inception.

To the Charge

The bugle shrills—there's a yell from the men—and with bayoneted rifle held high they swarm across the field. A living, breathing challenge to Democracy's foes. Hot and panting they halt as the "Assembly" sounds and later charge again—this time the Regimental Exchange for a bottle of thirst-absorbing, cool, refreshing—

LA PERLA NON-ALCOHOLIC NON-INTOXICATING
"The Drink that Satisfies"
Wholesome—Invigorating—Delightful
Wholesome because it's pure. Invigorating because of its health-giving ingredients. Delightful because it has the snap, the sparkle and the flavor that reaches the spot. La Perla is the most popular of all soft beverages now before the public. It is the favorite at the Regimental Exchange as well as all places where good soft beverages are sold.

Pep Systemic Pills
"The New Iron Compound"
Combines Three Tonics in One.
Liver, Blood and Nerves.
Especially beneficial for a run-down, ragged-out nervous system.
For sale by Miller Drug Co. and other druggists.

TODAY'S MARKETS

NEW YORK COTTON PROVES IRREGULAR FOR MOST OF DAY

New York, Oct. 11.—The cotton market was very irregular during today's early trading. Business appeared to be largely in the way of evening up commitments for over the three day adjustment. Some of the local traders thought they saw a possibility of frost for northern sections of the belt between the close today and the re-opening of Monday and this idea probably accounted for rebuying by some of yesterday's sellers or covering. On the other hand, there was further realizing by old longs and some southern selling. The opening was firm at a decline of 4 points on regular contracts, 20 to 23 points higher with Dec. selling up to 26.19 and Jan. to 25.85 during the first few minutes or about 24 to 35 points net higher. Reactions of several points followed with the market unsettled and fluctuations erratic. After selling off to 25.95 for Dec. and 25.62 for Jan. the market steadied on the western belt forecast for cooler weather. Dec. selling up to 26.20 and Jan. to 25.85 or 27 to 40 points higher. Spot house buying accounted for the relative firmness of Dec. The volume of business tapered off on the advance however with the market later quiet but fairly steady at reactions of 10 or 12 points. Cotton closed irregular. 424. *S.N1 shrdlu etoin shrdlu u

went to new high levels for the day where they stood at a rise of 51 to 53 points. Cotton closed very steady at an advance of 52 to 71 points.

Liverpool Spot Cotton. Liverpool, Oct. 11.—Cotton spot quiet. Prices easy. Good middling 20.27; middling 19.72; low middling 19.22; good ordinary 19.27; ordinary 17.77. Sales 3,000 including 27,000 American receipts 4,200 all American. Futures close steady. New contracts Jan. 18.80; March 18.50; May 18.26. Old contracts (fixed prices) Oct. 18.82; Dec.-Jan. 17.86; Jan.-Feb. 17.75; March-April 17.57; May-June 17.41.

New York Stock Market. New York, Oct. 11.—Feverish irregularity characterized the active opening of the stock market today; various prominent issues falling under final quotations of the preceding session while others made appreciable recoveries. Declines ran from 1 to 3 points in Union Pacific, Consolidated Gas, Colorado Fuel. Utah copper and United Cigars with a drop of almost four points for Savings Arms. United States Steel was barely steady at the outset but soon hardened with other equipments. Central Leather, Industrial Alcohol and Ohio Gas. Most early losses were retrieved before the end of the first half hour. Steel rebounded to 104 on the lighter trading of the afternoon and other leaders rose 1 to 2 points over lowest prices including representatives rails. Motors were strong and the active speculators. Short covering contributed to the further improvement of the last hour but prices reacted again at the end. The closing was heavy. Liberty bonds 99.68 to 99.80.

Kansas City Produce. Kansas City, Oct. 11.—Butter, eggs and poultry unchanged. Potatoes firm \$1.30@1.35.

Chicago Produce. Chicago, Oct. 11.—Butter unchanged. Eggs: Receipts 5,529 cases. Unchanged. Potatoes: Higher; receipts 75 cars. Wisconsin, Michigan and Minnesota, bulk \$1.15@1.22; same sacks \$1.25. Poultry alive unchanged.

Sugar Market. New York, Oct. 11.—Raw sugar steady; centrifugal 55.90; molasses \$8.02; refined steady; fine granulated \$8.35@8.50.

FLUCTUATIONS IN CORN PRICES PROVE DAY'S CHIEF FEATURE

Chicago, Oct. 11.—Wild fluctuations this morning disturbed the grain and provisions market even more than during yesterday's session. Materially lower levels were reached especially by provisions. Corn at first showed a tendency to rally from previous declines but the fact speedily became apparent that the buying demand was of a transient sort, chiefly from shorts who were collecting profits. The bullish causes that operated yesterday became forceful, notably peace prospects, big crops and government pressure for cheaper food. Opening quotations which ranged from 5/8 off to 3/4 up at \$1.13 1/2 to \$1.15 1/2 Dec. and \$1.09 1/2 to \$1.06 1/2 May were followed by a sharp general rally and then a setback of more than 2 cents to mtou figures. Oats held relatively steady on account of recent large export sales. Demoralization ruled from the start in provisions. Buying support was slender and the pressure to liquidate more and more urgent. Pork dropped 2 1/4 a barrel to 41.29 January delivery and ribs suffered falls that were almost a sleep.

LIVESTOCK

Chicago Live Stock. Chicago, Oct. 11.—Receipts 9,000; weak. Bulk \$17.85@18.95; light \$17.20@18.85; mixed \$17.40@19.30; heavy \$17.40@19.20; rough \$17.40@17.65; pigs \$13.00@16.75. Cotton Seed Oil. New York, Oct. 11.—Cotton seed oil market closed unsteady. Spot 16.50 bid; Oct. 16.00; Dec. 16.40; Jan. 16.48; Mar. 16.43; May 16.00. Total sales 17,100.

HOME ECONOMICS TO RECEIVE HERE ADDED STIMULUS

CHAMBER OF COMMERCE RECEIVES LETTER FROM SPECIAL FIELD AGENT. Various parts of home economics are about to receive added stimulus from the government, which is contemplating activity in this section, in co-operation with the work of Food Conservation. The Chamber of Commerce is in receipt of the following letter, dealing with the subject: "The United States Government, co-operating with the A. and M. College and the University of Texas, contemplates doing some work in your locality along the lines of Home Gardening, Home Poultry Raising, Home Butter Making and Bee Keeping. As a leader in your community, will you kindly tell me what organizations, if any, are working along these lines in your town. To avoid duplication, we wish to work with any and all of the forces in the work of Food Conservation. Of course it is unnecessary to call your attention to the great necessity of this work—we all realize that the winning of the war depends largely upon the proper handling of our food supply. Assuring you that your assistance and co-operation in this matter will be keenly appreciated, I beg to remain, Yours very truly (Signed) MRS. BEULAH A. MARSHALL, Special Field Agent."

"Just imagine some fellow about your size sliding into eternity feet foremost. Then take your hand off that gun—and do it quick!"

This is a Scene

from the thrilling novel "Hidden Power" by Senator John G. Willacy that starts in the November number of

HOLLAND'S The Southwest's Own Magazine

An astonishing story of the invisible and evil powers that dominate the government in one of our great Southwestern states. How these powers are traced and fought by two men—one a typical, big-hearted son of the Southwest itself, and the other a member of a fine old Kentucky family—and how they were helped by two of the most lovable and resourceful girls that ever graced the pages of fiction will be unfolded month by month in the pages of Holland's.

Every woman who is interested in suffrage or the fight against liquor should read it. Every man who is interested in better and cleaner government should read it. Everyone who is interested in a gripping story that hardly lets you catch your breath from start to finish should read it. Written by a Southwesterner for Southwesterners. Don't forget. It begins in the November number, Oct. October 13th.

Other Big Features in Holland's

GERMANY CHARGED WITH EFFORT IN 1909 TO STOP CELEBRATION PLANS FOR PEACE CENTENNIAL

By Associated Press. Washington, Oct. 11.—Germany financed Irish-American propaganda organizations in the United States as early as 1909 to combat the newly developed movement for celebration of 100 years of peace between America and Great Britain, President Wilson has learned from leaders in the celebration movement. John Stewart of New York, chairman of the American branch of the committee, who recently called at the White House with H. S. Perry of London, a leader in the British plan for the movement, brought evidence that within five weeks after announcement of the centenary plans early in 1907 Germans and Irish in the United States formed a series of organizations and associations. Most of these organizations, Mr. Stewart informed the President shortly became merged with the American Truth Society, whose president, Jeremiah O'Leary, was mentioned in the secret message to Count von Bernstorff from the German government, disclosed yesterday by Secretary Lansing. One of the activities of the organization was to erect one of the elaborate monuments over the graves of prominent German-Americans and to give publicity to historical roles played by Germans in the United States. Development of the British-American peace centenary movement was combated by the German propaganda in a multitude of ways, extending even to lobbying against bills in state legislatures to promote the success of the centenary celebration planned for 1914 and disarranged by the war. Mr. Stewart offered to place at the disposal of the President or state department records of the British-American peace centenary committee, indicating that German-Irish propaganda came into existence at least 8 years before the war.

High Record Is Made In Price of Cotton In the Local Market

Cotton sold around 25 1/2 cents a pound on the local market today, making new high records for the season. Local cotton men report the crop is moving freely.

General Bliss Wears Four Stars on Collar; Now General In Army

Washington, Oct. 11.—General Tasker H. Bliss, army chief of staff, has received his commission as general, and today appeared at the war department with four stars on each shoulder. General Bliss will assume the regular position of chief of staff when the regular commission is received.

Provisions Market Is Nicely Set Back; Even Lard Cheaper

Chicago, Oct. 11.—For the third successive day the provision market this morning underwent setbacks in prices that were sharp to a degree seldom equaled. Pork today dropped more than 22¢ a barrel. Lard and ribs fell 1 1/2¢ or more a hundred pounds. Wichita Falls Produce Market. Hens 16 cents; springs 17 cents; eggs 28¢ cents; butter 30 cents.

PERSONALS

N. W. Cowton of Waco, is visiting his sister, Mrs. E. M. George.

Miss Pearl Howard of Spanish Fort, is the guest of Miss Rhea Gardner.

E. S. Hurley left today for his home at San Francisco after a visit with his brother, W. J. Hurley, here, and relatives at Seymour. His mother, Mrs. W. W. Hurley, accompanied him to San Francisco where she will spend the winter.

Mrs. J. H. Hyatt and little daughter were expected to return today from Dallas where they have been visiting relatives.

W. D. Bentley left this afternoon for Oklahoma City.

J. C. Strauss returned today from a trip to Coleman county where he went to look at the new oil well on the Morris ranch. He says the well is good for about a hundred barrels a day and that it is the belief of oil men that a new field has been discovered. There is little acreage left in the vicinity, he says.

J. C. Webb of Seymour is here to attend the farmers union meeting.

A. C. Parker, preacher-business man of Dallas, is in town looking after his oil interests.

Earl Gromley, of Oklahoma City, is spending a few days here, in connection with his oil holdings in the Burk Burnett field.

J. F. Cagle is visiting relatives in Oklahoma City.

Our repair man has had fifteen years experience in the furniture business. If you have anything to be repaired or refinished, we know how. Phone 528, Wichita Furniture Co., J. A. Deaton & Son. 120 tlc.

Exclusive Dressmaking. Miss K. C. Harris, dressmaker, late of San Antonio, and Bryan, 1609 Elizabeth street. Phone 884. 129 51p

RISING TEMPER AGAINST BOSCHE EASILY CULTIVATED BY TROOPS ENCAMPED ON SCENE OF CRIMES

(By George T. Bye.)
With the American Forces in the Field in France (via London) Oct. 10.—Probably none of our soldiers now in France reached Europe with any hot bitterness in their hearts against Germany unless there were some in the expedition who had non-combatant relatives murdered by U-boats or air raiders.
I find now a rising temper against the bosche. I have talked with scores of our boys, and each one has vehemently declared he was eager to slay ten or more Germans, not for adven-

ture but to get even on the world's score. Our men now feel they have more than a casual grudge against the Kaiser and his vassals. It was interesting to discuss this new feeling.
Aroused ire of Americans.
My first thought was that the English and French had aroused the Americans' wrath. It is true that the English drill sergeants always refer to Germans as "swine" and they say it as if they believe it. The French don't hang so utilitarian a name to Fritz. The French population around American Headquarters holds its nose

when referring to anything Teutonic. But I don't believe these foreign opinions have been absorbed by Americans. It appears that our boys have formed their own American sentiment of hot antagonism to the bosche, and wholly from evidences all about them of the need for the extermination of many Germans.
If our soldiers in France really despise armed Germans, and if they haven't their emotions second-hand, what has awakened this fighting hate even in boys of German descent?
I have the answer and I believe I have the answer.
Our boys want to maul out military Germany, from the same repugnance that moved our American frontiersmen in despoiling the treacherous savage Indians.
Saw Bombs Dropping.
The Americans have seen German aeroplanes dropping bombs upon unfortified towns far from the battle front. These bombs were not dropped carefully to gain a military end, but were scattered about so the residential districts were suddenly wrecked and women, children and old men blown to bits or terribly mangled.
The American has seen many square miles of country so level, that he rejoiced that America always has had beautiful France as a friend. Suddenly the beauty stops and immediately extends a horrible wave. Where once were aged, stately poplars along a road, there are now nothing but stumps a foot from the ground. The Germans sawed these off. Hundreds of miles of them, wantonly. Where once were gentle villages, there is now nothing but a few low man retreat that siege shells never touched. The Germans burned, sacked and dynamited to the ground line. Isolated palatial chateaux have been gutted, because such destruction was amusement to these wild haters. Once thriving cities were totally wrecked, and for no military purpose. Wherever Germans breathed, beauty perished. The American, after one quick glimpse, is fighting mad.
German Atrocities.
The American has been told by his doctors, who have been on the front since the start of the war, that Germans actually have inoculated French and Belgian refugees with dreadful diseases and sent them across the line. These people have come to American doctors' attention, and an American believes an American. The American has either seen or heard from American doctors and American ambulance drivers of the repeated bombing by German aviators of allied hospitals, marked by immense red crosses on white fields, in great circles on the ground.
The American has seen crowds of German prisoners coming back from the front. At first there was a soft flicker of sympathy in his eyes, as he watched the wide-headed bosches marching to their internment camps. However, just from studying the prisoners, a feeling of repulsion has come over the American. He cannot feel sorry for men so dull as to submit to and even take pride in a system of militaristic feudalism. He is beginning to think the bosche is hopeless and must have his head knocked good and hard and many times before he can see the light.
Huns Are Wrong.
The American has come to feel that the Germans are wholly and deeply in the wrong. Our soldiers are going after Germany with the full enthusiasm that comes from knowing you are rushing to help in a fight in which your side is 100 per cent right.
This is why I was acclaimed by cheers, shining eyes and much hand-shaking just now when I told a group of our boys of the war plan of a Kentuckian New Yorker friend of mine. "Fewer and Better Germans."

CALUMET BAKING POWDER
Calumet Baking Powder costs half what you pay for "Trust Brands." That is a big saving. And you make even a bigger saving when you use it—as you use half the amount generally called for by other Baking Powders—only a level teaspoonful to a cup of flour.
Calumet has the most leavening power and is so soft and light that it keeps its strength. When you use—
CALUMET BAKING POWDER
you are certain of best results—light, tasty, whole. Some pies, cakes, biscuits, etc. Calumet is a perfectly manufactured baking powder—sold at a moderate price. It costs less than high priced trust brands. It is more economical to use than the cheap big can kind. Try it—
And save a lot both ways.
Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

WHAT WILL HAPPEN WHEN TURK LEAVES EUROPE? QUESTION

ENTENTE ALLIES, IN ALL WAR TERMS, SPEAK AS ONE UPON HIS MATTER

Associated Press Mail Correspondence
Athens.—If the Turk is to leave Europe, as the Entente allies have required in their war terms, there is a well-defined belief in the Balkans that two results will occur of high importance to Greece and all Europe:
First—That the Greek inevitably succeed the Turk throughout Thrace and in the whole region down to the Dardanelles and the Bosphorus.
Second—That a new zone of territory friendly to the Entente will thus be stretched horizontally straight across the Balkans as a barrier to the German dream of making the Balkans a German highway to the Orient.
University Man Talks.
Professor Andreade of the University of Athens, one of the foremost authorities on international affairs relating to the Balkans, holds this view, and in the course of a talk today he explained how these two results would naturally come about in the final peace adjustment, by reason of the principle of nationalities now accepted by the Entente allies as a basis for territorial readjustment.
Professor Andreade who is a specialist on the extent of Greek citizenship beyond the Greek frontiers—in Macedonia and the other Balkans, in Turkey, Syria and Asia Minor—pointed out the great predominance of the Greeks in the regions to be evacuated by the Turks if they are to leave Europe.
The whole vilayet, or province, of Adrianople, extending from the Balkans down to Constantinople, he declared is as much Greek as it is Turk and with the Turks out it is practically all Greek. "Even Constantinople," he said, "is a Greek city—the largest of Greek cities—with a population of 350,000 Greeks. That gives an idea of the extent of Greek citizenship in all this section down to the Straits, which will have to be considered on the basis of nationality and race, when the Turk leaves Europe."
Greeks Will Lead.
"That is why I said," added Prof. Andreade, "that if the Turk is to withdraw, the principle of nationality which recognizes the racial condition of a community, will lead to the recognition of Greek citizenship influence in that section. Thus far, the principle of nationality has been ignored and violated in all Balkan settlements, and forces has prevailed. Austria and Bulgaria have not occupied any of the territory annexed in recent years by reason that their race or nationality prevailed in these sections, but solely by reason of their military force. That has been the cause of the endless wars in the Balkans, for people are never satisfied when their race is ignored and they are attached to a for-

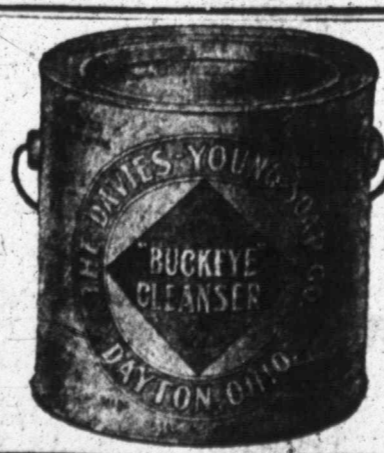

sign conqueror by force."
Professor Andreade, referring to the Balkan map, showed how the readjustment of Balkan boundaries, based on nationalities, would interpose two barriers to German expansion toward Asia Minor and the Orient of the Greek zone across Thrace, and another the Serb-Rumanian link of territory which lies as a dam between Hungary and Bulgaria. This Serb-Rumanian link is only fifty miles across, but with Rumania getting the Banat region, to which Professor Andreade says she is entitled by the principle of nationality, this Entente link will be 150 miles across.
"And thus Entente Europe can accomplish what it chiefly seeks in the Balkans," said Professor Andreade, "friendly Entente zones intercepting the natural route of Germanic expansion toward the Orient, and this can be accomplished, not by force, but by the principle of nationality now accepted by the Entente powers."

NAN'S LETTER HOME

London, September 25. My dear Nan: I was glad to hear you are doing so well with your vegetable and fruit preserving for if we may judge by conditions in England it is going to be a question of secure voluntary restriction or else having food doled out by the government, or "cards," as they are referred to with horror over here. Just now, as you have heard, we are having an orgy of bread, as the scaremongers call it. Bread has been subsidized and the price reduced and in consequence the consumption has increased. Whether the people will believe what is being explained afresh every day, that the price was

ENLIST YOUR DOLLARS IN THE WAR

In this time of our country's crisis an idle dollar is as much a "slacker" as an idle man. Are your dollars doing their duty? The Liberty Loan of 1917 invites the immediate response of the American people. Every dollar subscribed will help make it a success. The quicker the better. Armies of dollars are an absolute necessity for national defense. Unless the dollars at home stand back of them, the soldiers in the field cannot do their utmost to protect our household and our freedom.

lowered so that the poor might have their bread and the rich pay the extra price through taxes. I do not know, but at present it looks as if people simply could not get out of the old way of reasoning that if prices are low there must be abundant supply.

Many Queer Complaints
You would be amused to hear the complaints coming over from the Australian women against the number of their soldiers who are marrying English girls. The girls out there are that almost every man left a sweetheart at home when he volunteered. The stay-at-home men are taking sides with the girls and send some rather convincing figures. It seems that there was no scarcity of women in Australia before the war—in fact, now that so many men are fighting there is a shortage of more than a hundred and twenty-eight thousand. So it looks as if the English girls who eventually go back with their soldier sweethearts would not get a very enthusiastic welcome.

I wonder how it will be with us. I can't help thinking that our boys will return to America to meet. Anyhow they will be kept in France more steadily than the Australians are and it is chiefly the common language that makes these war alliances so easy.

Adaptable Women.
And English women are so adaptable. For instance, the carrying of parcels. You almost never see a woman in the shopping district who is not carrying her purchases and the shopkeepers are constantly writing letters to the papers (this is a favorite pastime of the British of all classes) saying how much this taking away of parcels saves. Women are asked to carry anything weighing under seven pounds but they do not stop at that and speedily trudge along the streets looking like Christmas trees in curl papers.

The drollest things are happening, too, at the London railway stations these days, for people are swimming back from their vacations and the baggage is being weighed. You may only carry a hundred pounds and there's no getting around the matter. A woman at Brighton had to take out the entire second tray of her trunk and bring its contents up to town in her arms. She looked a pretty picture. I can tell you with two coats on, one evening and one tweed, and a hat and other things in each hand, she had the least sympathy with her and she was just and ridiculed without mercy. I felt rather sorry for her when I heard she was explaining she was coming up to meet her husband who was expected on leave. Of course she wanted to make a brave show.

Little Mourning.
No, there is very little mourning worn in the streets here. Once in a while you see a woman of the older generation in regular widow weeds, but she is more than likely one of those who wear black all the rest of their lives when they are widowed. Speaking of older women, I must tell you about a canteen I visited the other day. It is run by Lady Henry Grosvenor. She is one of the women who say what she wanted and set to work at her job while other women were discussing their fall hats in 1914. She picked out one of the big ones of a building just outside the factory gates, and here under the patronage of the Y. M. C. a committee was provided shilling dinners to the workers twice every 24 hours. All their waitresses are volunteers. They serve 30,000 meals a day. They dress in lovely lavender linen jumpers and wear black silk caps, all of which they provide for themselves, of course.

After two years of faithful continuous work the waitresses are given badges of honor. I can't describe to you the pride with which a darling old creature of 78 touched the pretty enamelled badge which she had just received at the hands of some royalty or other. She said that she had to beg daughters to be allowed to serve at first once a week, then she increased to two and now she is doing her four days a week and has not missed an hour for two years. That's not all, though, for she dispenses smiles and pretty speeches as well to men and women who are tired and nerve-racked after long hours at skillful and dangerous labor. So well known is her fact that men hang around and wait for her table to be empty and I heard a great hulking giant who works at the forges growl out with a twinkle in his eye, "Oh, you just bring me what I need, mother." "Mother was back in a jiffy with a steaming loaded plate of delicious food and she hurried away. "This is your day for fish and beans." "Fancy her keeping track of all her patrons and giving them what is her part. But that's what she does and they depend upon her like children."

Few Signs in "Fall Styles."
I wonder if you are thinking of fall styles over there at home, dear. I expect you are, some of you, and I'll have to get tips from you because there isn't any such thing here and Bond Street looks just as it did the first week in August when I arrived. The only sign of the season is the advertisement of fur lined coats for hawthorn workers. The one thing dear to a munitions maid is a fur coat. This may sound queer to you, but when you see the distance they have to walk to their work and realize that they are gone from home 14 hours and that their fingers have to be supple and warm in order to work efficiently, the fur coat sinks to the uninteresting level of a bare necessity. So when you write tell me about some of the nice unnecessary things I expect you are still indulging in.

Your loving,
NAN.

Relief from Eczema

Don't worry about eczema or other skin troubles. You can have a clear, healthy skin by using a little zemo, obtained at any drug store for 35c, or extra large bottles at \$1.00.
Zemo generally removes pimples, blackheads, blotches, eczema, and ringworm, and makes the skin clear and healthy. Zemo is a clean, penetrating, antiseptic liquid, neither sticky nor greasy and stains nothing. It is easily applied and costs a mere trifle for each application. It is always dependable.

Actual Service Gives Leadership To Firestone SUPER CORD TIRES

THE leadership of the Firestone Super Cord has been won solely on construction producing unequalled strength, durability and flexible action. The body is built of walls of stout cord. Each cord imbedded in pure gum, no two cords ever touching to cause friction. The cushion (which is under tread to absorb shocks) is a thick layer of pure gum. The tread is tough and thick. The beads which hold the tire to the rim are specially reinforced. The side wall is also reinforced, giving extra strength against rim-cut, and raising bending point safely high. Users of Firestone Cord Tires are getting the highest average mileage enjoyed by car owners.

That motorists find extra values in Firestone Tires is proved by the fact that our sales increased 72 per cent this year up to Sept. 1st. Our total business this year will exceed \$60,000,000.

New Fabric Tire Features Suggested By CORD CONSTRUCTION

Firestone FABRIC TIRES

THICK, TOUGH TREAD gives longer surface wear. MORE RUBBER BETWEEN LAYERS. Added protection against internal friction, greater resiliency. THICK CUSHION STOCK. More resiliency, protection against tread separation and stone bruise. REINFORCEMENT IN SIDE WALL. Greater strength at bead. Firestone dealers will show you cross section of the newest output, with features that add more miles to Most Miles per Dollar.

FRATERNAL BODIES ASKED TO ASSIST IN HOUSEWARMING

OPENING OF COURT HOUSE WILL BE MADE OCCASION OF BIG CELEBRATION

The various fraternal organizations are asked to co-operate with the bar association in providing a fitting celebration on the opening of the new court house. The association committee calling for representatives of each order to meet with the general committee appointed some time ago on Monday, October 15 at 10 a. m. The call issued by the committee follows:

Call For Meeting.
To the Secretary of the Masons, Odd Fellows, Knights of Pythias, W. O. W., M. W. A., Elks, Rotarians, Lions, Eagles, and all other fraternal associations:
There is a movement on hand to have an opening day as soon as the new court house is finished and delivered to the county; the exact date cannot yet be ascertained, but should be somewhere about November 1st. The Bar Association appointed a committee to arrange a program for the opening occasion. The committee from the Bar Association has called a meeting of that committee at the 7th District court room for Monday, October 15th, at 10 o'clock, a. m. and we would like to have a representative from each one of your orders to meet with us and arrange this program. It should be done at once. We would like to have with us a representative from all organizations who desire to take part, and will be glad if the organizations from all over the county would send representatives. It is not a Wichita Falls entertainment, but a Wichita County entertainment. All the citizens of Wichita county have an interest, and should be proud of our beautiful court house, and we hope to have present representatives from all the different organizations.
J. T. MONTGOMERY,
FRED WEBER,
EDGAR SCURRY,
Committee.

MORTUARY

Mrs. Fannie McDonald, aged 56, died at her home on the Lake Creek road at 1 o'clock yesterday morning. Funeral will be held from the residence at 3:30 this afternoon; burial at the Lake Creek Cemetery.

A Timely Suggestion

This is the time of the year to look over your lighting equipment in preparation for its more extended use when the days grow shorter and the nights longer this Fall.

Go over your wiring thoroughly from attic to cellar. See that you have all the outlets that you need, that the outlet for the reading lamp in the parlor is installed. It costs very little.

Also look over all the sockets and see that they are filled with MAZDA lamps. You can eliminate waste by discarding the old yellow carbon lamps. Be sure that a MAZDA lamp is in each socket. It means more light for less money.

Winter time also means school time for the children and good light for them to study by is essential.

We will be glad to help you.

"GIDDAP!" SAYS DRIVER AND CAMELS JOG ALONG

SIXTEEN CAMELS IN HARNESS, ONE OF THE FEATURES OF RINGLING BROS. CIRCUS PARADE.

There are enough people in this season's Ringling Brothers' street parade to populate a fair-sized village, sufficient horses to equip a regiment of cavalry and gorgeous vehicles in great enough numbers to supply a durbar in India. And this suggests the scope of the pageant for in addition to the enumerated divisions are scores of splendid wild animals in open dens, 30 of the Ringling elephants, a band of horses, two calliope electric chimes and no end of novelties.

Among the unusual features is the camel team. It is said that no broncho breaker ever worked harder than did the trainers who accustomed these "ships of the desert" to the strangeness of complete harness. Yet the feat was accomplished and when Ringling Bros. parade stretches its three miles of rainbow caravan through the local streets one of the best of a score of novelties will be a team of sixteen camels hitched to a gorgeous band chariot and driven like horses. Not a great way behind them will come a team of six zebras drawing a tableau wagon and driven in the same manner.

These strange teams are not led nor are they policed by outsiders. They are guided solely by the reins and have become as familiar with the "gee" and "haw" of their drivers as the oldest equine in the ranks. As for the Ringling horses, there are more than 700 of them in this season's street parade, ranging from splendid, silken-maned percherons harnessed in sets of ten and twelve to the agile thoroughbreds of Arabia, Russia, Spain and France who carry richly dressed men and woman riders. The street pageant is so long that it takes the monster procession almost an hour to pass a given point. It is the best and most brilliantly equipped parade that Ringling Brothers have ever devised. It will be given on the morning of Wednesday, October 17, and will be followed by matinee and night performances which include two hours of arena display and the new spectacle of "Cinderella," with its wonderful ballet of the faeries, gorgeous electrical effects and a cast which embraces more than a thousand characters.

WICHITA COUNTY NOW WELL AHEAD ON LIBERTY LOAN

WICHITA COUNTY RED CROSS

The local Red Cross chapter reports a donation of \$1.50 from the Malins Bridge, and \$1.00 from Mrs. E. B. Kirby.

OVER TWENTY-FIVE PER CENT OF QUOTA REPORTED ALREADY SUBSCRIBED.

DISTRICT PROVES SLOW

Ninety-Seven Per Cent of Minimum Allotted to District Remains Unsubscribed, Says Chairman Ramsey.

That Wichita county is one of the heaviest buyers of Liberty Bonds in the whole of the eleventh federal reserve district is evident from the fact, according to a telegram received from the chairman of the district, 97 per cent of the minimum quota is still unsubscribed. Wichita county has already, in one day of canvassing, subscribed more than twenty-five per cent of her minimum, and nearly that percentage of her maximum. She was asked for nearly nine hundred thousand dollars, and she has started out after a million. Yesterday afternoon she raised nearly a quarter of that sum.

Facts Given Public. The telegram follows: As the agents of the federal government, charged with the serious task of securing from 75 to 100 million dollars subscriptions for the Liberty Loan, from the people of the eleventh federal reserve district, we desire to place before the public certain facts. The minimum subscription figure of \$75,000,000 represents practically eight and one-third per cent of total banking resources of the district. It is hoped by the government that we shall raise \$100,000,000. With a practical certainty that subscription up to this last named figure will be accepted, these facts bring us face to face with a situation which calls for the release for government use of at least ten per cent of our total banking resources.

The situation calls clearly for the purchase by individuals of Liberty Bonds, to an extent which, in the absence of large banking deposits will mean borrowing money, and the sacrifice of other investments. Bankers are called upon to encourage—even urge—their customers to adopt this courageous but necessary course, in order that the national objective may be obtained.

Much Not Subscribed. At present, 97 per cent of our minimum quota is still unsubscribed. The loan is to succeed in the eleventh federal reserve district, the people must make up their minds during the next sixteen days to make sacrifices commensurate not only with their cash balances, but with their total wealth and holdings. In placing these intensely serious facts before the public, we trust to their very seriousness to effect the realization of the situation by the people of the need of raising the money.

Little need be said. The national honor, reputation, and safety is at stake; the lives of our sons, the surety of our trade, everything we value is in the balance. (Signed) W. F. RAMSEY, Chairman. J. J. CULBERTSON. FRANK KELL. E. A. MCKINNEY. S. SANSON. W. B. NEWCOMBE. J. T. SCOTT. E. K. SMITH. H. O. WOOTEN.

Recently an active member of the Fort Worth and Tarrant county chapter of the Red Cross was a guest at the St. Louis headquarters. A most cordial welcome was extended, and she was escorted about the city to the various work rooms. "Do the women in Texas spend much time knitting for themselves?" asked Mrs. Brown, one of the principal officers of the St. Louis chapter. "I am sure they realize that we should give it all to the soldiers. In fact, I believe that the time is not far off when we will be called upon to dye and re-make our sweaters that the soldiers may be kept warm." Upon asking what message she would send to Texas, Mrs. Brown replied: "We count the Fort Worth organization one of the finest chapters in our division, and trust that their splendid work will continue."

WICHITA FALLS HIGH TEAM TO MEET GRAHAM ON LOCAL FIELD SATURDAY

The Wichita Falls High school football squad will meet Graham High school, its third opponent, here Saturday afternoon at 3:30 at the Katy Park. A battle royal is predicted. The local team has played two games with- out defeat. Graham has a good record. Coach Glass stated today that every man has been working well in the practice games each afternoon. According to the rules laid down by the State Interscholastic Athletic Association, all players are required to make a certain grade in their literary work before they will be allowed to enter a game. Some schools, however, where material to select a team from is light, sometimes disregard this ruling and allow men to play in the inter-scholastic contests when they are not quite up to the mark in studies. Such is not the case in the local High school and Coach Glass has warned all men who are trying out for positions on the football team that they would not be included in the lineup unless their grades were up to the standard. So far all the men on the lineup of last week have made their grade satisfactorily, and it is thought there will be no changes for the Wichita Graham game Saturday. Physical examinations of all the players will be finished before Saturday. Two more games have been scheduled since the last announcement was made. On next Friday Wichita Falls will play the Electra High school at Electra, and on the 27th will play a return game with Graham.

KAISER WILL VISIT BULGARIAN ROYALTY

Associated Press. Amsterdam, Oct. 11.—Extensive preparations are being made in Sofia, Bulgaria, to entertain the German emperor during his forthcoming visit there. It will be the emperor's first visit to Sofia and the burgomaster has issued a proclamation inviting the population to participate in the reception.

Do You Realize the Size of Texas?

YOU know Texas is the largest state in the Union; but do you realize that it is one-twelfth of the area of the United States, and 100,000 square miles larger than the second largest state; and that every United States citizen might own almost two acres in Texas?

By the same token, you probably do not realize Goodrich makes more than 4,000 different rubber products.

But you do know Goodrich makes tires, the world's standard and pattern for tires.

GOODRICH

BLACK SAFETY TREADS

Are tires built from the lessons taught by the Goodrich Test Car Fleets.

Millions of miles ground out under the Cars of the Test Car Fleets in widely different regions of our nation, have taught the lasting strength of the Uni-Mold, Unbroken-Cure body of these matchless fabric tires.

"America's 'Tested Tires'" only give you the benefit of the lessons of the Goodrich Test Cars.
