COAL MINERS ISSUE DEFY TO FEDERAL GOVERNMENT

Decline to Include Penalty Clause in Contracts—Garfield Gives Warning That He Will "Stand Pat."

By Associated Press. Washington, Nov. 3.—Southwestern coal miners representatives defied Fuel Administrator Garfield here today and refused to agree to the insertion in a new wage contract of provisions penalizing strikes and lockouts.

Fuel administration officials see possibilities that the situation may develop seriously. Sixty mines now are idle in Kansas and miners throughout the four states involved—Kansas, Oklahoma, Arkansas and Missouri—are threatening to strike unless they are given immediate wage increases.

No contract granting wage increases will be approved by the government, Dr. Garfield insists unless penalty clauses are inserted. Further, Dr. Garfield will not apply to the southwest the recent 45 cents a ton raise in coal prices which was designed to warrant wage increases until the miners come to terms.

By Associated Press. London, Nov. 3.—An official statement issued by the Admiralty says that ten armed patrol craft in addition to a German auxiliary cruiser auxiliary cruiser armed with six inch guns have been destroyed. CAVALRY PROVES OF GREAT VALUE IN HOLDING LINE

ENEMY HAS NOW BEEN HALTED TO WEST OF TAGLIAMENTO RIVER.

MASSED FORCES USED

Much Mystery Remains About Withdrawal of Italian Division from Russian Front by Germany.

By Associated Press. Italian Headquarters, in Northern Italy, Friday, Nov. 2.—The general situation presents many reasons for optimism, but its continued gravity is not to be underestimated. The enemy advance is being held west of the Tagliamento river.

Not only did German participate with heavy forces massed against the Italian second army, but the larger part of the huge concentration was drawn from the Russian front under circumstances which the Italians regard as very mysterious.

CHEMIN-DES-DADES PLATEAU RETREAT IS NOW COMPLETED

By Associated Press. The war situation of Saturday is summarized by the Associated Press as follows: Standing on the line of the Tagliamento river, the Austro-German invaders of Northern Italy to effect a crossing.

Without a doubt, the Italian front, although the enforced retreat of the Italians exists the menace to this line of a flanking thrust from the north. Close attention is being paid to the Trentino front, where a heavy blow is not unlikely development providing the Austro-German intention is to pursue the campaign in Italy beyond the stage already reached.

CAPTAIN OF GERMAN RAIDER MAKES STATEMENT

Copenhagen, Nov. 3.—Captain Lauterbach, who commanded the German auxiliary cruiser Marie, in a statement to the National Tidende, said his vessel was armed with four guns and carried a crew of ninety. She was suddenly attacked in the Kattegat and the shells fell with such rapidity that the men were virtually unable to work the guns and after a few shots the vessel was a mass of flames.

Negro Noncommissioned Officers Tell of Their Efforts to Stay Lawless—ness of Soldiers on Aug. 22.

By Associated Press. San Antonio, Texas, Nov. 3.—When the court-martial trial of the 63 negroes of the Twenty-fourth infantry, who were charged with rioting at Houston Aug. 23, last, adjourned this afternoon until Monday, it was indicated that most of the witnesses in the camp while the rioting was in progress had already been on the stand.

The riotous events in the camp, during which negroes disobeyed commands of officers and rushed the ammunition tents, procuring rifles and ammunition; fired hundreds of shots in the camp and in the streets of Houston; and their hasty exit from the camp towards city, have been narrated in detail during the first three days of the trial.

Among important matters yet to be testified about are the happenings in the city on Houston, where 23 lives were lost following the march of the soldiers on that city. No civilians yet have testified with reference to any phase of the riot.

Negro Noncommissioned Officers of the Twenty-fourth infantry who were in the camp at night of the rioting and who testified to assisting their commanding officers in various ways, such as checking up to determine those absent from the camp, were chief witnesses on the stand today.

Statements of these witnesses made relative to numerous and riotous conditions in camp were similar to those made by the negroes, a number of whom have preceded them on the stand. All of the soldiers who were detailed to guard the ammunition tents were knocked down by the negroes, a rush for ammunition, they testified.

ALL OIL FIELDS IN STATE QUIET THROUGH NIGHT

NO DISORDER IS REPORTED BY SOLDIERS AT ANY POINT.

MANY MEN HUNT DUCKS

Leading Operators Issue Statements That Situation Is Proving Entirely Satisfactory to Them.

By Associated Press. Houston, Texas, Nov. 3.—Quiet prevailed throughout the Texas oil fields Saturday night. Many of the workers, taking advantage of the freedom from work, are duck hunting. Men from four or five miles around Goose Creek are after ducks in Chambers county. Reports to Brigadier General H. D. Todd, Jr., from the detachment of soldiers at various oil fields stated there was no disorder or attempts at violence.

The leading operators issued statements that the strike situation so far as they are concerned is satisfactory, and that they are receiving applications from workers wishing to return to their jobs.

MUSSER IS APPOINTED MEDIATOR TO BE SENT AT ONCE TO HOUSTON

By Associated Press. Houston, Texas, Nov. 3.—George W. Musser of Chicago was today appointed a commissioner of mediation and conciliation with instructions to immediately go to Houston, Texas, to cooperate with mediation commissioner James J. Barrett in adjusting a strike of several thousand men in the oil fields in the Louisiana-Texas territory.

COAL PRODUCTION IS AT STANDSTILL IN KANSAS

By Associated Press. Pittsburg, Kans., Nov. 3.—Coal production in southeastern Kansas virtually reached the vanishing point today when more than fifty mines employing 8,000 men, having a total output of 20,000 tons daily, were closed by a strike against automatic strike fines and failure to receive a wage increase.

Practically all of the large mines in the city of Pittsburg, where the district headquarters expressed elation at the news from Washington late today that their representatives failed to agree to the penalty clause. They asserted that the convention in Kansas City, Mo., Nov. 12, will be almost unanimously in favor of that refusal.

The local option election was held Oct. 29 and the county voted by a majority of 1,254. The commissioners met today and, notwithstanding a petition presented by several prominent citizens of the county for extension of time until Jan. 1, a vote was canvassed, the result was declared and the order to close the saloons Dec. 1 was issued.

Word Is Expected From Pershing On Incident Shortly

Berlin, (via London), Nov. 3.—The capture of American soldiers by a German reconnoitering party is announced by the war office.

The portion of the official statement making this announcement reads: "At the Rhine-Marne Canal as the result of a reconnoitering thrust, North American soldiers were brought in as prisoners."

The Rhine-Marne Canal runs through a section of northeastern France in which there has been little fighting since the early days of the war. It crosses the French front at a point near the German border twenty miles northeast of Luneville.

BRINGS PEOPLE NEARER TO HEART OF CONFLICT

By Associated Press. Washington, Nov. 3.—Berlin's terse announcement today that "North American soldiers had been captured by German patrols on the Rhine-Marne canal" on the French front brought the American people a step nearer to the heart of the great struggle.

There was no doubt here that the men referred to were members of General Pershing's force undergoing final training with French regiments in front line trenches. Confirmation from General Pershing was lacking in due course he will transmit the names of any men missing and this may furnish some light.

If, as is assumed, a small scouting party was surprised by a German patrol in an man's land and captured, details may never be fully known since only captors and captives would know what happened in the encounter under cover of darkness.

First Report of Prisoners. This is the first report received here of the capture of any members of the American expeditionary forces, but a number of naval gunners taken from American armed ships sunk by submarines and civilian members of the crews of other ships are held in German prison camps.

Night patrolling is a vitally important part of the final training of the American forces, as it is upon these patrols that the commanding officers rely for information of activity in the enemy's front line.

Patrols Often Collide. Not a single day passes on many parts of the line but patrols encounter each other. Sometimes it results in firing but that is seldom; for the menace of the opposing trench lines with rifles, machine guns and star rockets ready to burst out at the slightest hint of

Patrol Vessel Sinks; Twelve Are Dead

By Associated Press. Washington, Nov. 3.—Twelve men—all the crew of the picket boat of the battleship Michigan—were lost when their little craft foundered in home waters.

In a brief announcement of the disaster today the navy department gave no details of the cause of the loss. Presumably the fast little picket boat was on patrol duty and foundered in a heavy sea or met with some accident.

Three bodies have been found. With the casualty list the department made this formal statement: "The navy department announces that on Oct. 30 the picket boat of the U. S. S. Michigan foundered. Apparently the entire crew was lost. The finding of the bodies of three of the crew and the failure to find any other trace of the boat or its occupants leads the department to believe that all were lost."

The navy department made public the following crew list of the lost picket boat: Joseph J. Schutz, seaman, brother, Herman Schutz, 1701 Lafayette street, Fort Wayne, Ind.

COMMISSION FORM OF GOVERNMENT AGAIN SUGGESTED

City officials have heard rumors in the past week that a movement is shortly to be launched to amend the city charter to provide for a commission form of government for Wichita Falls. There does not appear to be anything tangible about the rumors, but it is known that some of the leading citizens of Wichita Falls are still favorable to the commission form for the city government, and such a move would not be surprising.

One of the effects of such a move would be to make certain offices, which are now filled by a vote of the people, appointive, the appointments being made by the city commission.

If an election is called to vote on a change to a commission form it is likely that other changes in the charter will be voted on at the same time.

LITTLE CHILD NUCLEUS AROUND WHICH MANY STARTLING EVENTS OCCUR WITH GREATEST RAPIDITY

A little child with a penchant for seeing how close he could go to passing vehicles without being run over; friendly neighbors who were unable to check the baby, yet were in constant expectation of seeing him run over; a sick mother who had been admonished from time to time by these neighbors; a casual friend of the baby and his mother and two police officers were the dramatic persons in a drama which came near to being a tragedy yesterday afternoon, beginning with the very narrow escape of the baby as he dived or at least halting, with the arrest of the casual friend.

But a friend of the family, supposing the officers to be private individuals who had come to bully the mother on the baby's account, and knowing her to have been in very poor health for some time, undertook to prevent them, with the result that he found himself under arrest for resisting officers—not, however, until he had put up an uncommonly vigorous struggle. The friend later paid ten dollars and and officers, after their exercise, seemed in good humor, as did the defendant.

Mrs. Mae Taylor Asks That Divorce Decree Be Finally Set Aside

The motion of Mrs. Mae Taylor to have the decree of divorce and judgment for the division of property granted her at a former session set aside was heard before Judge Bonner in the Third district court at Hensarrieta Thursday. In her petition Mrs. Taylor asks that the decree be set aside, alleging it was secured through error.

It happened thus: A street car rounded the corner of Tenth and Indiana, going west. The baby, seeing an opportunity for his favorite pastime, started across the street, and pulled up within six inches of the street car, throwing the motorman onto his back. The baby, in turn, threw on the brakes with such suddenness that the passengers were acutely conscious of the fact that their car had stopped. The baby, however, stopped of his own accord, or he would have been run over; for he ran out quickly from between the automobiles, and the motorman had no way of seeing him until almost upon him.

Two men who saw the incident and said that the same sort of thing had been happening many times every day, that they had complained to the mother about it, advising her to keep the baby in, announced their intention of notifying the police, as they felt that something should be done about it.

Two officers presently appeared and went into the house where the mother lived, intending to speak with her.

American Sector Continues Quiet

By Associated Press. With the American Army in France, Nov. 3.—A heavy downpour of rain, beginning at noon Friday, hindered the activity of the French front where the American battalions are on duty and converted the back areas into seas of mud. No official communication was issued on Friday but there has been nothing in the reports to headquarters to suggest any change in the normal situation along the American sector. General Pershing returned yesterday from a visit to the British front. A party of American major generals has inspected the billets of the first contingent.

ETON PROUD OF RECORD MADE AT FRONT DURING THIS WAR; SIX HUNDRED STUDENTS THERE

(By K. Walter.) London, Nov. 3.—Nobody will be able to say of this war that it was won on the playing fields of Eton—in the laboratories of Tonbridge would be more true. Yet a visit to England's most famous school unexpectedly afforded one or two sidelights on the war worth recording. For example, there was an American flag fluttering in one of the boys' room windows. The name on the door was Rose and the letters scattered on the table were postmarked Denver. And later, in one of the playing fields used as drill ground for the Training Corps, young Rose of not far from him in the ranks the young Prince Henry, King George's son. It seemed to me that those two boys checked boys going through the same course of school and military training were significant of what is going on in the world today. But Eton as a training ground for soldiers is holding its own even in these days of universal service. Six thousand old Etonians are fighting for democracy, or were, for eight hun-

dred of them have fallen on the field of honor. These figures too, are good comparative data, in all the Boer war, in which 1400 Etonians took part, 129 were killed in action. And they are good proof, if proof were needed, that families of social position in England are freely giving their dearest and best in the democratic cause. The Training Corps, 600 strong as it is in the fields, is proud of these figures, but still more of a fact related to me by one of its officers. Forty Etonians in the field have been made prisoners by the Germans, but of that forty only two were captured unwounded. The Corps is also proud of having been the first Officers' Training Corps organized in England. In 1860 the school drilled for war, drilled in top hats as is shown by a carefully preserved picture. And my last glimpse of the picturesque buildings was through a beautiful doorway into a quadrangle where small boys too young to enter the corps were drilling in the regulation school top hats.

ALLEGED AGENT OF GERMANY IS UNDER ARREST

By Associated Press. El Paso, Tex., Nov. 3.—In the arrest of Ernest Lohendorff, government agents here believe they have discovered "an underground route" by which information has been transmitted between the United States and Mexico City for relay to Germany. Lohendorff is said to have admitted having been a sailor on a German boat interned in the harbor of Santa Rosa-

lia Lower California. He said he had gone to Mexico City with other German sailors and had been given letters by Baron Von Eckhardt, German minister to Mexico, to take to Ernest Goeldner, German consul at Chihuahua City. There he was sent to Juarez with letters for Frederic Reuter, former German vice consul. Lohendorff admitted having faded the Rio Grande from Juarez with letters for a German here. He probably will be interned at Fort Bliss for the period of the war.

PORT WAR BOARD FOR NEW YORK IS NOW ORGANIZED

FINAL CONFERENCE OF HIGH OFFICIALS IS HELD IN NEW YORK
WILSON APPROVES RULES

Formation of Body is Result of Discussion of Matter With President Wilson Recently

By Associated Press. New York, Nov. 3.—Creation of a New York port war board with William G. McAdoo, secretary of the treasury, as its chairman to coordinate all harbor utilities for transportation of war materials board, was effected at a conference here today attended by representatives of the federal government and the states of New York and New Jersey. The new board is the outgrowth of a conference held last week in Washington at the direction of President Wilson. The results of the decisions reached at the conference in this city today, it was announced, are "likely to be most momentous in their effect upon the operation of the war and the commerce of the country."

Baker in Attendance. Among those who attended the meeting today were Secretary of War Baker, Edwin H. Hurley, chairman of the United States Shipping Board; representatives of the navy and treasury departments, department of commerce; Governor Edge of New Jersey; and members of the New York-New Jersey port and harbor development commission.

The new board will consist of the Secretary of War, Secretary of the Navy, Secretary of Commerce, the chairman of the United States Shipping Board, a member of the railway war council, the mayor of New York City and the members of the New York-New Jersey port and harbor development commission.

William C. Wilcox, chairman of the New York-New Jersey port and harbor development commission was chosen vice chairman of the board.

Coordination Necessary. "Through the operation of the port war board," Mr. Wilcox said, "will complete coordination of all the available utilities so that New York and New Jersey will contribute every ounce of energy to the winning of the war. If transportation is to win the war we must forget that eighty per cent of the supplies that are going to the other side must go through the port of New York. Not an inch of space at our piers or docks can be wasted; not a moment delay must take place in the embarkation of men and the constant flow of supplies for them.

"There must be no waste of lighters, (tugsboats or ships. Railroads must meet railroads. The business men of New York will rally behind the president and the two governors in doing their bit in this fight of war services. In doing so they will make possible that complete coordination of the facilities of the port which is necessary to win the war and which after the war will be quite as necessary to the winning of victories in the field of commerce.

WHAT THE PAPERS ARE SAYING

GREAT BRITAIN.
About Kerevsky's Statement. London, Nov. 3.—Most of the morning newspapers print Premier Kerevsky's interview with the Associated Press conspicuously but the moment is not general. The Petrograd correspondent of the Daily Telegraph, who is now in London, writes: "Premier Kerevsky's statement seems to have been taken a little too seriously, in some quarters. It even has been construed as a hint that Russia is toying with the idea of a separate peace. The possibility should not be allowed to establish itself. "Probably what Kerevsky desired to establish was facts familiar to students of Russian history. It is true that Russia is worn out and has been for a much longer time than has elapsed since the outbreak of the revolution. Unfortunately, the essential military exigencies prevented the truth from being told about Russia's share in the war which has been greatly underrated. The essential fact is what Russia has had she has given."

Tells of Sacrifices. The writers of the immense sacrifices in men that Russia has made and recalls the revelations in the trial of General Soukhomiloff, former minister of war, how Russian heroes stood up with only sticks and stones and fists against the organized German troops. He believes that the Russian casualties have been higher than any other of the main belligerents. The writer also emphasizes the privations of the civilian population and the shortage of food since the middle of 1915, and adds: "Already people are dying of hunger in some of the northern provinces and it is not pleasant to think what the situation in such districts may become early in the future. What Kerevsky wants apparently is not a release from the bonds which unite us, but indulgence for Russia's weakness and Russia certainly has deserved indulgence for her efforts and sufferings. All we can ask of our leaders is that they do not do us wrong. We must not be impatient if that is less than we expected."

Daily Express. The Daily Express makes a similar plea and says that a statesman ever faced more appalling difficulties than those that confront Premier Kerevsky. "The newspaper then says that Kerevsky, 'if he has made such a statement,' should be reminded that France and Great Britain have been in the war as long as this, and are not yet weary and do not desire to shirk their responsibilities. Russia, it declares, also has received generous assistance from the allies and the United States. The Graphic concludes: "Now is the time to prove her devotion to the ideals of the allies, not by lip service, but by good, hard blows on the weakened Austro-German knees in the east."

TEUTONICS URGE ATTENDANCE UPON BERNE CONFERENCE

By Associated Press. Washington, Nov. 3.—Germany and Austria are making strenuous efforts to further the pacifist conference to be held at Berne, Nov. 12, to discuss a basis for an honorable peace, according to an official cablegram received here today from Zurich, Switzerland. Even the Swiss, the message said, regard this solicitude of the Central Powers for peace as in strange contrast to their recent declarations that they were entirely satisfied with their military status. Little authentic information regarding the conference has been received here but it is said to be distinct from the Socialist peace move at Stockholm and that prominent pacifists from several European countries are to attend.

Early Morning Fire Does Slight Damage To Grocery Store

Damage amounting probably to \$150 was caused by a blaze in Levi Gambill's grocery store at 609 Indiana avenue at about 12:30 o'clock this morning. Two men passing in the street saw the flames and sounded an alarm. The apparatus from the downtown fire sta-

tion was called out and the flames were put out with chemicals. The blaze appeared to have originated beneath a case of soda water at one of the front windows, spreading to a showcase containing packages of biscuits and other goods. It had gained good headway when discovered. The cause of the fire was not learned.

Two Small Fires Are Quickly Extinguished By Local Department

Two small fires were promptly put out by the fire department yesterday: one at grass fire at 1907 Travis, and the other, C. W. Downtree's barn at the corner of Tenth and Broad. The latter was caused by some little boys who were playing around a trash fire. The cards which are being posted around the city offering a reward for any person convicted of arson, are being put out as a reminder of the city's standing offer, which has been in effect for some five or six years, and to which it has been thought well to draw attention, on account of the many fires which have taken place lately.

Market Report

COTTON MARKET PROVES NERVOUS THROUGHOUT DAY

New York, Nov. 3.—While general business was quiet, the cotton market was nervous and irregular this morning with moderate bulges meeting increased offerings from both local and southern sources. Near months were relatively firm, but January broke from 26.34c to 25c and closed at 26.07c. The general list closed steady at a net advance of 1 point on January, but 120 to 130 points net lower on other deliveries.

The market opened steady at an advance of 5 points to a decline of 6 points, and after a general recovery sold about 8 to 18 points net higher on trade buying of near months and covering by shorts. Around 2.58 for December and 26.22 for May the market weakened and broke sharply in the later trading. December sold off to 27.20c and May to 25.81c, with the close several points up from the low level on covering. It was rumored that private returns indicated a gain of 1,775,000 bales up to Nov. 3, against 8,623,000 for the same date last year, which would indicate a gain of 1,200,000 bales last year. These comparisons may have led to uneasiness and confusion over the export outlook. This arose from Liverpool advices stating that the British government has allotted 25,000 tons of ocean freight room to carry cotton from this country during November. In some quarters this was supposed to mean that only that amount of room would be available for shipment to Liverpool this month, while others believed that the space allotted by the government would be in addition to room secured through other channels.

New Orleans Cotton.—New Orleans, Nov. 3.—Although the local cotton market stood at a small advance on week-end covering by shorts, during most of the session there were periods of irregularity and late in the morning some uneasiness developed. The net change for the day was a rise of 3 points on December, while other months showed net losses of 1 to 3 points, except Jan., which was net unchanged. A bearish construction was placed on a private bureau estimate of ginning to Oct. 31 of 7,220,000 bales and bears made much capital out of the export situation, an especially feature showing that at the end of the cotton week there were only 108,045 bales on shipboard at all United States ports against 281,578 a year ago.

Weekly Financial Review.—New York, Nov. 3.—The stock exchange was put to its most severe test this week since the memorable period preceding its suspension and resumption to the latter part of 1914. The decision to restrict short sales, so far as such action may be feasible, was arrived at after quoted values had receded to lowest prices of the year and in many cases to levels materially under those touched in the panic of 1914.

Cotton Seed Oil.—New York, Nov. 3.—The cotton seed oil market closed easy. Spot \$18.60 bid; Nov. \$18.61; Dec. \$18.45; Jan. \$18.11; March \$18.20. Total sales 4,300.

PRICES OF CORN DROP LOWER UPON WEATHER REPORTS

Chicago, Nov. 3.—Ideal weather for curing the new crop made corn prices today average lower, despite week-end evening up of trades. The close was unsettled. Dec. \$1.15½; May \$1.10 to \$1.10½ and the market ranging as wide as 14¢. Corn declined to 14¢ advance as compared with 24 hours before. Oats finished unchanged to 1/8 cent down. Provisions showed losses of 7 to 80 cents net. A result of the favorable weather rural offerings of new corn to arrive broadened out considerably and handlers looked for a material enlargement of receipts by the middle of next week. Associations, however, that in some places the mudiness of roads would interfere with hauling, tended somewhat to curtail aggressive selling and to bring about profit taking purchases in the last half of the session.

Table with columns: Corn, Oats, Pork, Lard, Ribs. Rows: Dec, Jan, May. Includes sub-tables for Open High Low Close.

Weekly Grain and Provisions.—Chicago, Nov. 3.—Enlarging receipts of new grain this week as well as uncertainty resulting from the German invasion of Italy have pulled down the corn market. Prices this morning as compared with a week ago showed declines of 2 to 8¢ to 5-8¢. Oats were off 5-8¢ to 3-4¢. Provisions showed a rise of 2¢ to 1.80.

Houston Man Appointed to Be Dental Examiner.—Austin, Texas, Nov. 3.—Governor Hobbs today announced the appointment of Dr. Joseph P. Arnold of Houston to be a member of the state board of dental examiners. He fills the vacancy caused by the resignation of Dr. H. C. Hesse, who has joined the army.

RESERVE BOARD MEMBERS ISSUES GRAVE WARNING.—Philadelphia, Nov. 3.—With a warning that inflation already had begun, A. C. Miller, member of the federal reserve board, told the national conference on financing the war here today that American business must not undertake to carry the war as an "extra," but must exercise the vision and imagination necessary to see the great changes in economic organization essential to victory.

Mr. Miller pointed to the increasing federal reserve bank investments as evidence of the existence of inflation, particularly responsible for the rise in commodity prices since the United States went to war, and declared that if this increase continued it was not unreasonable to expect before long the reserve system would be made into a great engine of banking inflation.

He explained the process by which enormous inflation has been caused in Germany and France through government borrowing from the banks, and added: "Whether a similar result is to be expected here in connection with our greater government borrowings and, if so, how soon, will largely depend on whether all the people who have income enough to save will save, or whether they can be or will be made to save enough out of their income to absorb such loans of the government as may be put out in excess of the current savings fund of the nation."

Mr. Miller stated his opinion that it would require all of the economic resources of the country to win the war. "I have it on competent authority," he said, "that it takes the labor of four men working industrially of one kind or another producing military and other needed supplies to maintain one soldier at the front. This means that an American army of one million men usually requires the output of four million men working in factory, field and foundry."

FREE JUNIOR CLASSES ORGANIZED

A class in harmony for the Junior students of the college of Students has been organized, holding its first session Saturday morning. Miss Edith Slaten is in charge of the class, which is open free of charge to all younger pupils of the college who care to take advantage of the opportunity thus offered.

Miss Theresa Vesle, the vice instructor at the college, has organized a class in sight reading, which the juvenile students will have privilege of attending. It is the aim of this class to instruct children in the rudiments of sight reading for singing.

Couldn't Help Singing. In this way public singing, whether at church, school or any other gathering, could be much improved, and it is the hope of the college officials to have all their students have at least a rudimentary knowledge of the principles of sight reading.

A physical culture class is the third free class which the college will offer this season. Miss Emily B. Foster, instructor in expression and physical training, will have charge of this class, which will be at first for the younger students. Later it is hoped to extend the privilege to all students of the college.

BEDDING WANTED AT CAMP BOWIE FOR HOSPITALS

THOUSAND PIECES ASKED OF VARIOUS CHAPTERS OF RED CROSS.

TELEGRAM IS RECEIVED

Scant Supply on Hand is Said to Have Resulted in Danger Some of Men Met with Cold.

One thousand pieces of bedding, especially comforts, are needed immediately for the hospitals at Camp Bowie, and an S. O. S. has been sent out to various local chapters, Wichita Falls among them. The local chapter is going to try and get one hundred comforts donated or made to send to the hospital at Camp Bowie in the next few days.

The following telegram was received by Miss Willie Mae Kell at 5 o'clock last night:

"Wichita Falls Chapter of the American Red Cross: "Great need of one thousand pieces bedding, especially comforts for hospital. Am writing nearby chapters for assistance. Will your chapter collect or make plain dark comforts, and send in next few days? Please wire or write number you can send and when. Fort Worth will donate 500. Do your best."

(Signed) "C. W. STOFFORD, Field Director American Red Cross, Camp Bowie, Texas."

Wichita Falls is called upon to give as many comforts as can be collected within the next few days. One hundred has been suggested, but if five hundred can be collected they will be gratefully accepted.

One of the officials of the local chapter said last night: "Surely, there is not a family in Wichita Falls which has a boy or even a friend in the camp there which would not be willing to sacrifice something so that that boy, sick in the hospital, should not be cold in addition to being sick. We simply must have the boys kept warm in the hospital."

Chance to Find Them.

"Today, being a day of leisure for most people, will give ample opportunity to every one to look into the chests, shake out the moth balls and see what comforts and blankets there are to spare. Dark colored ones are preferred, but any color will be sent, as when a man is cold he is cold he is not likely to be unduly sensitive as to the color of the thing that keeps him warm."

"It is hoped that Wichita Falls will not only sustain its reputation in this matter, for oversubscribing contributions of every sort, but will absolutely smash to pieces all of its own previous records. One thousand pieces of bedding are asked for in the telegram, but that is probably the very smallest amount the hospitals can get along with. One of the local merchants, hearing of the need, said last night: "Why, that is a perfectly shocking condition and one that we should not permit to exist for a minute. We must send those boys even things we want, and not stop at things we can spare."

Can Buy Own Later.

It has been suggested that those who have not yet started to use their full supply of winter bedding send what they are keeping in store against the coming of the cold weather, and fill up their own supplies at their leisure. It is possible that they can wait or make shift in some way with less inconvenience and danger than the sick in the hospital at Camp Bowie.

This need was found by the Red Cross field director at Camp Bowie. In each army camp there is a field director, volunteer, who finds the needs of the soldiers at home, which nearby Red Cross chapters can supply. In this call for supplies for a camp where many friends and relatives of local people are stationed, it is hoped there will be a generous response, for the need is immediate and is close to home, not "the boys in France," but "the boys in Texas."

Y. M. C. A. TO URGE RAISING OF FUND FOR WORK IN WAR

This week will see the gathering in Wichita Falls of all the forces of the district which are to be presently set in motion for the gathering of the quota of approximately \$11,000 to Y. M. C. A. war fund of \$35,000,000. J. W. Hogue, district manager of the campaign, is in Wichita today, putting through the preliminaries of organization and will make the balance of the district and return here by the middle of the week.

Mr. Hogue says that he finds the work far easier than he expected. "I find," he observed, "that people know a lot more about the Y. M. C. A. than I thought they did. Of course," he continued, "every one has heard of the association, but in most places as far away from a Y. M. C. A. center as this, they have very little idea of what work it is carrying on. So many people used to think that the Y. M. C. A. was merely a preacher's disguise. As a rule, people do not like cant and they a little bit look for cant in the Y. M. C. A. I do not know why—but they do not find it."

certainly, for those who want to come to them, indeed, we have charge of practically all the religious activity in the training camps here, as it was found more practically to center these under one control than to have so many denominations all working independently. That caused friction and was, therefore, undesirable. But that is only one thing that we do. The work of the association, even at peace, covers a very wide range of activity, social, intellectual and physical, besides religious.

"But our war work specializes on looking after the men's physical comforts, giving them the many things they want, and, for the most part, can not get through any other channel, being on hand to help when we are needed in any capacity whatever."

Work in Prison Camps.

Homer L. Holsington state boys' campaign director told a great deal of the work of the association in the prison camps in every land, even in Germany. According to Mr. Holsington, the German government has, by some miracle, so far kept faith in this; that the Y. M. C. A. secretaries are allowed to work in these prison camps unmolested, and through their efforts packages sent to prisoners of war held in these camps actually do look after the men. Mr. Holsington stated positively that, so far, the secretaries have reported no case of theft of these packages by the German authorities.

The Y. M. C. A., however, as Mr. Holsington pointed out, was not so foolish as to take any chances with German veracity and arranged a very neat scheme for compelling the German government to keep faith by a simple process of making it to their advantage to do so. And many German writers have urged the wisdom of keeping one's word under these circumstances. The association proposed to work among the German prisoners in other countries if they might be allowed to work in the German prison camps. This agreement was made with the German government, and has proved satisfactory so far.

Results Gratifying.

The result sure very gratifying, according to all the reports. The prisoners, who have been suffering the tortures of purgatory, welcome the work of the association to a degree not understandable by people who are free to come and go as they will. It has been a veritable Godsend to them, and that this achievement has been possible is a source of infinite gratification to the association. Food and clothes are sent to the prisoners and received by them through this means, and the prisoners have, in addition, the great consolation of knowing that there are friends in their midst, whose only purpose is to lighten their burden and minister to their needs in every possible way.

JULIAN ELTINGE AT THE EMPRESS MONDAY

Monday and Tuesday Julian Eltinge, the famous female impersonator, will show at the Empress in "The Clever Mrs. Carfax." Despite that he has won fame, fortune as a female impersonator on the stage, and has just duplicated his success upon the screen, via Paramount, Mr. Eltinge frankly confesses a growing aversion to the stage and laces of the opposite sex. In fact, he never liked the entangling garments of the eternal feminine. It was just because he had a peculiar gift for portraying the foibles and fancies of the fair sex that he became known for this particular style of work. Now, affirms Mr. Eltinge, "I'm going to quit the skirts." He plans, after two or three more film productions in which he will riot through the celluloid in both male and female attire, to appear before the public as a man.

WISHART TICKETS FAST BEING SOLD REPORTS HOWARD

H. C. Howard, assistant secretary of the chamber of commerce, reports a landslide business selling tickets to the Wishart lecture for Tuesday night at the Wichita theater. This will be the first public account of conditions in France and Belgium to be given in Wichita Falls by an eye-witness.

Corporal Wishart comes to Wichita Falls very highly indorsed by the organizations which have brought him to the many towns in which he has appeared. The following extracts from press notices will speak for themselves:

Speaker's War Service.
Corporal P. K. Wishart enlisted in the 102nd battalion, Canadian expeditionary forces at Prince Rupert, in British Columbia, in 1915. Six months later he was in the trenches in France. He fought around Ypres for about two months and was then transferred to a sector on the Somme near Comblen, Baupenne, Porons and Coreslette.

It was here the allies put on their big offensive called the battle of the Somme. Corporal Wishart participated in these various engagements and fought in the trenches for five months without removing his clothes. It was at Coreslette that he saw the British tanks first used and witnessed the first one which entangled the enemy trenches and brought in 350 prisoners.

Corporal Wishart is a most extraordinary character. He is called the "Grand Daddy of the Somme" as he is the oldest volunteer soldier on the allied front. Although 69 years of age, he is a perfect specimen of manhood, and as active as the average

man of 25. He has undergone many privations and hardships since his enlistment having been wounded several times once by a bullet from a German sniper at Ypres and again at the battle of the Somme. In this engagement he was buried alive by a shell and blown out again before he was suffocated. At another engagement the concussion of a heavy shell tore his uniform from his body without injuring him.

Worked as Sapper.
Corporal Wishart worked as a sapper and liner in the preparation for blowing up a ridge in France that required a year to complete. This is the exploit heard by Lloyd George in London, 140 miles away. This is an exceptional opportunity for every one to secure an unimpaired account first hand of conditions in Belgium and France depicted by one who has actually been there, not as a correspondent, but as a soldier from the front ranks, who not only fought but observed. To hear him tell of the gas attacks, liquid fire, bayonet charges, the blowing up of whole sectors with enormous quantities of high explosives, the dastardly crimes of the Germans in Belgium and France, how he went "over the top" 1,200 strong with his battalion and came back with 58 men; night attack under barrage fire, capturing trenches, digging themselves in, and his experience while detailed to do patrol work in "no man's land" and the activities of German snipers, make an intensely interesting entertainment.

Corporal Wishart will answer all questions asked by the audience after the lecture. All who are interested in the world war should hear this lecture. Corporal Wishart is addressing large crowds wherever he goes, and the value of his lecture to the community as well as the individual cannot be estimated in dollars and cents. Corporal Wishart makes a special appeal to men in the draft, and their relatives, and every father and mother of the boys who are going to France should hear the lecture.

TRIAL OF WILSON IS SET FOR NEXT HENRIETTA COURT

Judge Bonner came up from Henrietta Friday and will remain here until tomorrow, when he will return to take up the criminal docket of the Clay county district court. The trial of Jay Wilson, Clay county youth, who is charged with murder for the killing of Prof. Wright, principal of the school at Newport, several years ago, is set for Monday. At a previous trial Wilson was convicted and his punishment fixed at five years, but on appeal the finding was reversed. Wilson shot the teacher with a revolver. The shooting took place in the school room.
