GERMANS REPORT ATTACKS AGAINST THEM IN YPRES

The Italian position of today is summarized by The Associated Press as follows:

General Cadorna's armies in Northern Italy are again in retreat, forced back by the power of the Austro-German thrust.

The line of the Tagliamento, where the Italians have been making a stand after their retreat from the Colan, has been won by the invaders and the Italians have evacuated it, Berlin reports.

Virtually all of eastern Venetia also, it would appear from the official statement is being held by Austro-German forces on both sides of Passchen-daele and at the Menin-Ypres bend.

The withdrawal of today is summarized by The Associated Press as follows: General Cadorna's armies in Northern Italy are again in retreat, forced back by the power of the Austro-German thrust.

News dispatches from the Italian front this morning indicated that Cadorna was preparing to fall back to a new line after having made a stand of the Tagliamento to retard the enemy advance.

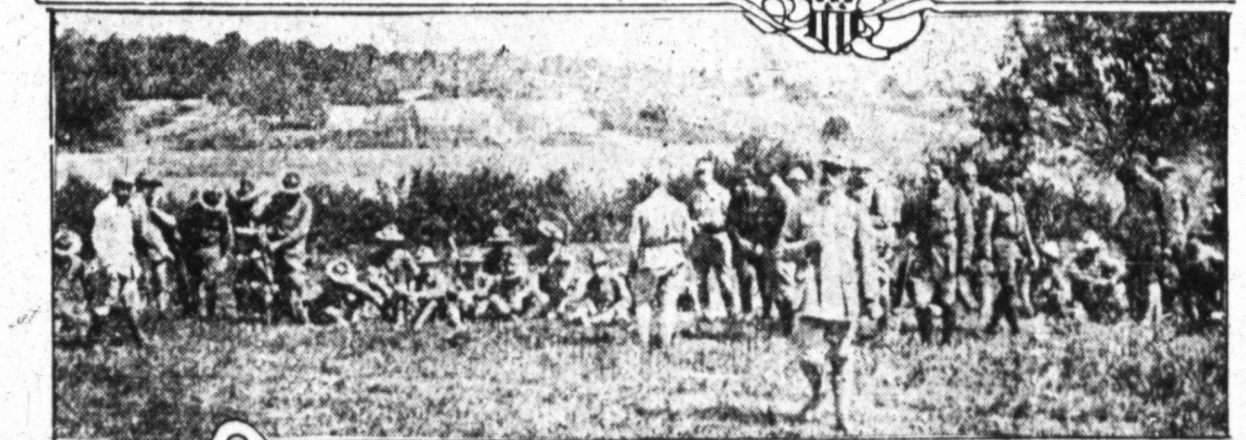

The renewal of the British offensive in Flanders, ushered in by the intensive bombardment reported yesterday, came early this morning.

Early dispatches from the British headquarters not long after the attack was under full headway, reported considerable success for the thrust.

MITCHELL INCUMBENT ISSUES FORMAL STATEMENT AS CAMPAIGN CLOSES.

By Associated Press. New York, Nov. 6.—New York is holding its quadrennial mayoralty election today. Fair weather that ushered in the day led to predictions that a record-breaking vote would be polled.

At the close of a campaign almost unparalleled for its bitterness and many sensational charges and counter-charges, campaign managers of the four parties issued statements claiming victory.

By Associated Press. Chandler, Ariz., Nov. 6.—William J. Bryan, former secretary of state, was saved from a wild bull by the presence of a mesquite tree on the desert here yesterday.

By Associated Press. London, Nov. 6.—The eventuality of an Austro-German crossing of the Tagliamento had been foreseen clearly since the Italian retreat began, according to a message dated today from the headquarters of the British Daily Mail at Italian headquarters in Northern Italy.

PETER MORRISON INTIMATES HE HEARD FIRING OF PISTOLS AIMED TOWARD CAMP

Mrs. H. Rinkle Says She Heard Many Shots Fired and Saw Soldiers but Could Not Say Whether White or Black.

By Associated Press. San Antonio, Tex., Nov. 6.—Some of the shots fired in the vicinity of Camp Logan on the night of August 23 last, in connection with the riot of negro soldiers of the 24th Infantry, came from an easterly direction, not from the camp and sounded like they "were fired from a six shooter," Peter Morrison, who testified at the court martial trial of the 63 negroes charged with mutiny, murder and rioting testified today. Those bullets as well as others that apparently came from the rioting in the direction of the camp hit his house, he said.

This was the first testimony intimating that other than army rifle shots were fired in the vicinity of the camp on the night of the rioting and was brought out by questions from the defense in cross examination.

Sam Teske, who said he lived near the camp, was at home in bed when the shooting occurred. About half a dozen bullets passed through his house, he said. He did not see any of the soldiers, neither did he hear any loud talking in the street.

RHODES S. BAKER TO MAKE ADDRESS AT BANQUET HERE

PRESIDENT OF TEXAS WAR COUNCIL TO SPEAK TO Y. M. C. A. WORKERS

TO BE GIVEN THURSDAY

Endorsements of Campaign For Y. M. C. A. Work in Army Are Given by Many Distinguished Men

Rhodes S. Baker, president of the Texas War Council, and one of the most prominent lawyers in the state, will address the gathering of the Y. M. C. A. forces at the banquet given by the committee of the district next Thursday night at the St. James hotel. —Not Friday night, as had been the original plan, J. W. Hogue, manager of the campaign for this district, says that he is extremely fortunate in getting Mr. Baker, as he has only four dates in North Texas, and decided to make Wichita Falls one of them. Besides the central executive committee, it is planned to have as many representatives of every committee in the district present at the banquet as possible. Final instructions for the campaign, which will start next Sunday, will be given, and every phase of the work discussed. Mr. Hogue returned yesterday from a trip around the territory, where he started local organizations in Iowa Park, Electra, Bowie, Montague and Henrietta.

Towns Will Assist. Iowa Park, which was asked for \$100, promised it promptly, and assured Mr. Hogue that he need spend no further thought or trouble in that direction. Electra, asked for \$500, told Mr. Hogue that he could probably look for that amount. Montague promised \$100, and Bowie and Henrietta promised to do the best they could. Representatives from these towns are very cordially urged to be present on Thursday night to hear Mr. Baker, and to become fully acquainted with the complete plans for raising the quota for the district.

The report of the Commission on Training Camp activities whose work Secretary of War Newton D. Baker regards as "the most significant factor in winning the war", gives the highest praise to the work being done in the camps by the Y. M. C. A. Dr. John W. Mott is in charge of the activities of the Y. M. C. A. in the camps, and the association has received official recognition as one of the agencies for furnishing recreational facilities within the camp. In addition to this phase of the work, the association's lectures on social hygiene and kindred subjects are much commended in the report.

Domestic Work Costs. For the work at home, the association plans to spend about eleven million dollars, a like amount for the benefit of the American soldiers abroad. Letters from the soldiers in the camps in France and Belgium are considered the best testimony of the value of the work there. They indicate that the men have found the Y. M. C. A. a veritable haven of refuge in more senses than one, and have been so unanimous in their praise that there can be not the slightest doubt as to the effect of the work upon the men themselves.

It is pointed out that great public men, great army men, teachers and preachers have all endorsed the Y. M. C. A. activities in the field both at home and abroad. President Wilson in a personal letter to Dr. Mott, says: "May I not in view of the approaching meeting of the War Work Council, express to you the very high regard I have attached to the work which has been accomplished by the Young Men's Christian Association in behalf of our own army and navy, as well as in behalf of the prisoners of war and the men in the training camps of Europe, and may I not express also my sincere personal interest in the plans of the War Work Council for the work which is still ahead of the association?"

Viscount Bryce Endorses Move. From England, Viscount Bryce, who has headed the commissions on the investigations of the atrocities of the Germans in Belgium and the Turks in Armenia, and is credited with knowing more of the actual condition of the life of the fighting men than any other man living sees the following: "I have heard from every quarter, including many naval and military authorities, the warmest acknowledgments of the excellent work done by the Y. M. C. A. during these terrible years of war, for the British and Canadian and Australian soldiers, both in the camps here and at home, and among the troops on the various fighting fronts. I believe that the American association, which will have the advantage of our experience, will work with true American energy, and render the greatest possible services in France to those American soldiers whose British and France rejoice to welcome as their Allies in this fight for right and freedom."

Others are quoted as follows: Newton D. Baker, Secretary of War: "For many years the Y. M. C. A. has been established as a prominent feature of army life in times of peace. The war, however, has developed for it a degree of prominence far larger and a field of usefulness far wider than even its friends could have hoped. Its capacity for mobilization on a large scale and the readiness with which it has fitted itself to the needs of the troops in training camps and trenches in this great world war make it an indispensable factor in any future military plans. It provides for the social side—the home side—of the life of the soldier and its influence in rationalizing the strange environment into

Groom of Two Weeks Is Fined Then Turned Over To Another Court To Be Tried for Aggravated Assault

The echoes of four bands and five calliope here Monday left a melody to be played in police court Tuesday morning, when a groom of two weeks was fined \$10 on a fancy drunk charge and then ordered turned over to the county authorities to answer to a charge of aggravated assault.

The newweds were out in a car late Monday evening and when they were driven to a local hotel the woman screamed and attracted the attention of other women, and the proprietor was called and he called the night police chief, who arrested the groom and kept him in the city jail over night. While this case was being thrashed out in police court this morning, a woman beyond the sunny side of 10th dropped in to inquire about her 18-year-old daughter, who left home Monday shortly after the noon hour, ostensibly to go to the circus, and had not returned home. The city authorities

had no trace of the young girl, neither had the county officers. Five plain drunk cases were disposed of. One of the defendants appeared in an attitude to listen to the national anthem, and when questioned he said he was working for the Sells-Floto circus when he was arrested last night, and that he had been compelled to leave the show without getting his money and clothes. His home, he said, is at Denver.

700-BARREL WELL OF HUMBLE OIL CO. LATE COMPLETION

SCHULZ NO. 1 PROVES UP WELL A DEPTH OF 1700 FEET—OTHERS OF WEEK

The Humble Oil and Refining Co. got a 700 barrel well of its Schulz No. 1 at 1700 feet. The well was drilled in the area. There has been several shallow completions in the Burk Burnett shallow area. The best one is that brought in by the Weona Oil Company, making 30 barrels at a depth of 502 feet. This well is of some little interest as it is on the right of way of the Wichita Falls and Northwestern Railroad over which an easement was secured some time back. The well is on the Cropper lease. In this shallow pool there are several five and ten barrel completions.

The Magnolia's Ramming No. 1 was brought in at 1580 feet and is making 20 barrels. Nos. 2 and 3 this lease were drilled in some time ago. In the Culbertson district the 4-4 Oil Company has a well probably good for 400 barrels on its section 6, Burnett No. 2. The sand was found at 1468 feet.

In the Electra district, across the Wilbarger line the Texas, Colorado Oil Company, which has been operating as McKenzie et al., has drilled in its Zislet No. 1, a 30 barrel well.

Bacon Qualifies As Republican Member of Jury Commission

Otis T. Bacon qualified this morning as the Republican jury commissioner for the United States court, northern district of Texas, Wichita division, his appointment by Judge E. R. Meek having been announced yesterday.

The first session of the federal court for this division is on the calendar to convene here on Nov. 19, and in that event the jury commission, composed of Mr. A. Lantz, will draw the petit and grand jurors about Nov. 12.

Since this has become a federal court district there is some speculation as to the manner of drawing the jurors. The postmasters throughout the district supply the jury commission with any number of names of citizens the commissioners may ask, and when all of the names are received they are placed in a receptacle and the jury commissioners draw them out one at a time until a sufficient number have been drawn to meet the requirements of each of the panels.

BRONZE LIONS STILL GET WEEKLY BATH IN LONDON

London, Nov. 6.—In spite of labor shortage the great lions in Trafalgar square still receive their weekly bath. Bright and early every Monday morning a squad of girls in khaki overalls, directed by an ancient male member of the street cleaning department, climb the pedestals and scrub the bronze monsters until they glisten.

PORK AND BEANS AT LAST HEARD OF BY BRITISH

London, Nov. 6.—Pork and beans has just been discovered by the British public, and great newspaper clamor is being made over it. This recently appeared here: "The tasty combination was first told of by Jack London in his stories of the American Southwest, where the idea was picked up by the Canadian Pacific railway which in turn has made the dish popular. What will Boston say to this?"

Absentee Voting Law Ruled Not Applicable In "Prohi" Elections

Austin, Texas, Nov. 6.—The absentee voting law passed at the first called session of the Thirty-fifth legislature does not apply to local option elections, according to an opinion rendered today by the attorney general's department and given to J. W. Hornby, county attorney of Travis county. It had been generally believed that this law applied to all elections including prohibition elections, but an investigation developed that the law applies only to primary elections. The attorney general's department holds that a local option election is not a primary election, consequently the law has no application to such an election. In the local option election to be held here a number of persons had already voted with the county clerk because they would be out of town on the day of the election.

One Prisoner Taken By Germans Is Known To Wichita Falls Man

When reading The Times of Monday which carried the complete list of American soldiers captured by Germans, J. R. Ogle discovered that of the dozen prisoners, one, Warren Kendall, was an Oklahoma acquaintance of his and son of an intimate friend, at Roll, Okla. Young Kendall is well known by other Wichitans, among them N. O. Monroe and Roscoe Staton. It is not known just when the youth enlisted as his local friends had not seen him for some time. Mr. Ogle has a brother in business in Roll and is expecting to hear about the boy's enlistment and previous service soon. These Wichitans will await news of the fate of these first American prisoners with more than the usual interest.

Deer Shot Near Mason Viewed By Many Here When Hunters Return

A dead buck with a hat rack with five points on the top of his head was viewed by many as it lay crumpled up in a heap in a car that stood in the 700 block on Ohio avenue Monday afternoon.

The deer was shot at long range by Bill Guthrie at a point on the Llano river near Mason, Texas, where Mr. Guthrie, Homer Mahphris and Perry Parker spent the past week hunting deer and turkey. Several turkeys were killed, but only one deer was brought down. They each corroborate the other that a great big time was had, and there being no evidence to the contrary their friends are taking it for granted they are stating facts.

HAROLD LOCKWOOD AT THE MAJESTIC WEDNESDAY

Harold Lockwood will be seen at the Majestic Wednesday night in "Under Handicap," a vigorous western drama, abounding in strong scenes. "Under Handicap" is another book play. Its author, Jackson Gregory, has demonstrated that he knows how to hold the attention, and in the photo drama made from the novel Harold Lockwood and Fred Balshofer, who has adapted it, show their ability to take that story and put it on the screen in terms of good, red-blooded action. "Under Handicap" is a story of New York—and the desert, principally the desert. It shows the workings of gigantic reclamation projects, the problem of wresting great gifts from nature. Its greatest lesson is perhaps that to win from nature requires grit and strength of both moral and physical. It is partly because Lockwood plays are so clear that the public has learned to trust them and Lockwood—and to want more of them.

Fairview, N. J., August 28, 1917.
Editor Hudson Observer:
Dear Sir—About six years ago I was in the U. S. Navy, aboard the Montana which was detailed to Turkish waters. We expected our stay to be about a month or two.
At the end of three months our contract was renewed to run low and at the end of four months we were buying Bull Durham at 25 cents a pack from some of the boys who had taken a good supply in time. It was not long before we could not buy Bull Durham at any price.
Although we could have the real Turkish cigarettes at 20 for 10 cents, we would rather give 50 cents for a pack of Bull Durham than to smoke any other brand. So I am sending you \$1.00 so that the smokers and sailors will not worry for the want of the "makings".
Yours truly,

play, "The Clever Mrs. Carfax," the first one having been "The Countess Charming," recently gave out his reasons for desisting the stage. "It certainly seemed queer at first to be getting up at about the time I had been used to going to bed—and the other way around. But now I like it a million times better and wouldn't change back."
"There are many reasons why I enjoy this—the first being that it seems healthier. My complexion has improved tremendously. This sounds odd for a man to say—but if I were not careful about complexion and figure, where would "The Clever Mrs. Carfax" be?"
"Another reason is that I believe the early morning hours to be the pleasantest part of the day. I never knew much about them before, but on closer acquaintance I like them."
"The Clever Mrs. Carfax" is on the bill at the Empire theater today.

ANN PENNINGTON AT THE EMPRESS WEDNESDAY

The adventures of a harum-scarum seminary girl form the basis of Ann Pennington's Paramount release, "The Antics of Ann," to show at the Empress Wednesday. This will mark the first appearance of the little star in some time. Edward Dillon directed the production and a strong supporting cast was supplied for the star. The scenic effects will include a cabaret interior, beach scenes, dance interludes, a football scrimmage, and, in fact, almost everything that could be imagined of an unusual nature.

"NOTHING BUT THE TRUTH" TO PLAY AT WICHITA THEATRE

Anderson and Weber, who will offer Harry Stubbs, the well known comedian at the Wichita Theater on Saturday, November 24th, in James Montgomery's stage version of Frederick Isham's latest novel, "Nothing But the Truth," claim there are 304 laughs during the two and one-half hours that it takes to play the farce, and after one has witnessed the many troubles and tribulations that Mr. Stubbs, as the young stock broker who bats he can tell the truth for twenty-four hours; has, the auditor thoroughly agrees with the producers. The piece played for one year in New York at the Longacre Theatre, and comes with the highest endorsement of both press and public as being one of the cleanest and most laughable farces that has been seen for many years. Mr. Stubbs is well known as an actor of farce and he will have the assistance of as capable a company of farceurs as money can get together. All in all, "Nothing But the Truth" is designed for fun only, and it will help for two hours and a half to drive dull care away.

"CHEATING CHEATER" TO BE DECEMBER ATTRACTION

One of the theatrical events of the season is promised in the forthcoming production of "Cheating Cheaters," the remarkable farce melodrama, which A. H. Woods will present at the Wichita theater on December 10th, directed almost entirely by the Eltinge Theater, New York. "Cheating Cheaters" was proclaimed by the New York press and public as one of the most unusual and remarkable plays ever seen in the metropolitan stage. The New York Sun said of it that "nothing quite like it has ever been seen in New York. It makes a direct appeal both to those who love the irresponsible bubbling fun of farce, and the thrills and dramatic intensity of melodrama." "Cheating Cheaters" contains both, Mr. Woods famous for his splendid cast, has chosen a notable company, to enact the play, including:

The horses were taken from the train at the stock yards and fed and watered and exercised.

Hamburg Birth Rate Is Surprisingly Low Recent Report Shows

Copenhagen, Nov. 6.—The birth rate in Hamburg, Germany, according to the latest weekly statistics, has fallen below 7.7 per thousand, as compared with 9.1 during the first week of June, which was highly alarming as indicating a serious decline in the number of births. There were more than fifty per cent more deaths than births during the week, although the mortality is still somewhat lower than June, owing to the improvement in the conditions through the availability of fresh vegetables.
