SIMMONS RETURNS FROM FARM LOAN MEET IN DALLAS

PERMANENT ORGANIZATION OF LOCAL SECRETARIES IS EFFECTED AT SESSION.

GREATER SPEED ASSURED

Money May Now Be Secured Upon Lands Within 30 Days—Courtney Lawyers Busy With Abstracts

George Simmons, secretary of the Farm Loan Association, has just returned from Dallas, where he attended the conference of all the district secretaries with officials of the federal land bank, whose headquarters are at Houston. Mr. Simmons gives a most enthusiastic and interesting account of the meeting which, he says, was very well attended, the meeting room at Adolphus being crowded to capacity.

Mr. Simmons stated that a permanent organization of the local secretaries was effected with meetings at least annually, and possibly semi-annually. The federal land bank officials told the delegates that they could get all the money for loaning purposes that they needed, and that the demand in the east for the bonds was so great that it could not be supplied. This was very encouraging news to the farmers.

Approved Many Loans.
 The federal land bank has approved loans to the value of \$19,860,000, and appraised lands to the value of \$12,000,000. About 1,500 farms a month are being appraised, and about \$1,000,000 a month is being issued in loans. Mr. Simmons said that fourteen lawyers were at work on the examination of the abstracts and that it was an enormous task.

One of the most important achievements of the conference, Mr. Simmons says, is that the business of the bank has been now so systematized that it will be henceforth possible to obtain the loans within thirty days of the application, and to obtain an appraisal of the land within eight days after the bank has been notified that the locality needs its services.

Value of Organization.
 Mr. Simmons gave it as his opinion that the farmers all through the country were learning the value of the organization, and were becoming very enthusiastic to take advantage of the proposition it has to make. Much of the delay that has held up the progress of operations thus far has been the making out of abstracts of titles and other necessary papers, and much valuable instruction was given to the many secretaries present at the conference as to how this was to be done. As the abstracts have to show every title to the land since it was first granted by the government, and as many of the titles were originally Spanish, and many more of very hazy origin, it will be readily seen that this work involves no small amount of time, patience and accuracy.

Homestead Law.
 Another very important topic of discussion was the proposed amendment to the state constitution relative to the homestead law, which will be voted upon at the primaries next July, and which will allow any husband or wife owning a farm to mortgage same, provided the mortgage runs for a period of twenty years, and is paid off upon the amortization plan, which provides for a certain portion of the interest to be paid each year as well as the interest, which must be not more than 6 per cent. This matter was discussed at length, and great interest was shown by the delegates.

Still another topic was whether owners could borrow money upon farms which they were letting out to renters. It was understood to be the sense of the decision that they could so borrow; but it was deemed advisable that the owners have a definite written contract with the renters, and that they should be able to give reasonable proof that the value of the land would not be liable to deterioration from neglect or other causes at the hands of the renters.

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

MESS ATTENDANTS AND FIREMEN ARE NEEDED BY NAVY

MANY MEN ON RECRUITING DUTY ARE NOW BEING ORDERED OUT TO SEA.

The call for firemen to the number of 210 in this district, and 20 mess attendants, coupled with the fact that many of the older men are being recalled from recruiting duty and ordered to sea, are recent navy developments which are considered of much significance. A special campaign drive for the new recruits, especially in the above ratings, is in progress, and the orders state that the men are wanted by Dec. 15.

C. A. Harrington, chief recruiting officer at this station, has just returned from a few days furlough, and on his return stopped at the Dallas station, called from recruiting duty and ordered into plans have been announced, it is certain that a number of the older men are being ordered to sea, himself among the number, and that it is probable that many of the retired navy men will take up recruiting duty. These are men who would not go to sea in any event, and will be especially fitted by long experience for recruiting duty.

Inspection tours are being made of all the stations in the district, and the recruiting inspector will, on all probability, be here today. In a word, there is to be a general spending up of recruiting for the navy, and the recruiting officers are being urged to make strenuous efforts to bring in more recruits. Special advertising funds have been appropriated, and the widest publicity is planned for the coming drive for men.

Obviously no dates have been given out for the men to report for sea duty, though the approximate date is known, nothing will be published in this respect. A great quantity of navy literature has arrived at the recruiting station, especially the booklets giving an account of the life of the sailor, his training, opportunities for advancement and general prospects. These booklets are for free distribution, and the recruiting officers will be very glad to give them to prospective recruits and to see any of them at the recruiting station. They are anxious to see and talk with any fellows who are physically sound and tell them about the navy, and they will make them very welcome at their office in the Anderson building, on Indiana avenue.

Instructions Received.
 The following instructions have been received:
 First—The following quota has been assigned to this district, to be enlisted Dec. 15, 1917:
 Firemen, third class, 210.
 Mess attendants, 20.
 Second—Make every effort to get applicants for third class firemen and mess attendants.
 Third—We have been allowed extra money for advertising purposes in this campaign and ideas or suggestions will be welcomed.
 Fourth—The following named men in this district have been ordered detached: A. E. McNeil, P. J. Earl, S. O. Thacher, C. A. Harrington, J. R. Hair, J. G. Lee and L. O. Waldrop.

WHERE CONGESTION SOMETIMES OCCURS

"The wires to my telephone hang idle. Why shouldn't I use them?"

That is the question so often asked when conversation in telephone use is discussed.

Those particular wires may hang idle but their use represents a very small part of what is necessary when you place a telephone call.

It is at the switchboard where congestion sometimes occurs. Additional central office apparatus to handle the tremendously increased number of calls has been very difficult to secure. Even if available, now it would require months to install it.

Therefore, lest vital calls be delayed, conservation is necessary. In these days the frivolous use of the telephone is a menace to all service.

Tuesday afternoon the Woman's Bible Class of the M. E. Church, South, was entertained at the home of Mrs. H. M. Bullard. The class was led by Mrs. William Hutton sharing the duties of hostess with Mrs. Bullard. The members devoted the entire afternoon to Red Cross work and light refreshments of tea and wafers were served. Those enjoying this monthly class meeting were Misses Waggoner, Miller, Blain, Frances, Robertson, Chauncey, Fox, Hill, Downing, Brown, Bachman, Doko, Cook, Smock, Dobson, Parker, Freeman, Mass, Allday, Roberts, Edwin, Hutton, Langston, and Bullard. The class will be entertained for the December social by Mrs. T. S. Freeman and Mrs. C. M. Miller at the home of the latter.

CIRCLE NO. 2 MEETS WITH MRS. J. J. SIMON

Circle No. 2 of the First Methodist Ladies' Aid completed a quilt at the meeting held with Mrs. J. J. Simon Monday. Devotionalists were led by Mrs. G. E. Friberg, the circle leader, and during a short business session plans were made to spend next Monday visiting church members. There were eleven members present.

SEASON OF YEAR CLOSE AT HAND WHITE BODY DEMANDS MORE IRON

Pep Systemic Pills Contain Iron in Blaud's Malt, the assimilable form of iron contained in Pep Systemic Pills, will not injure the teeth or upset the stomach. MISS WILSON NOT TO PAY VISIT TO CITY THIS FALL

Miss Margaret Woodrow Wilson, singer and daughter of the president of the United States, will not be able to appear before a Wichita Falls audience before next spring. It had been hoped to bring her here for her presentation of the state, but the Musicians' Club yesterday received notice that owing to her present crowded itinerary no date could be arranged for an appearance in Wichita Falls before spring.

Miss Wilson is touring for the benefit of war relief funds and as her ability as a concert singer would win a place in the public's consideration outside the fact that she is the daughter of the chief executive of the nation her concerts have been unusually successful, and she is realizing a splendid sum for war relief.

KEPT HER AWAKE

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful.

I could not do anything, not even sleep at night. I kept me awake most of the night. I took different medicines, but nothing did me any good or relieved me until I took Cardui.

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again. I decided I would try Cardui. By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.

I shall always praise Cardui. I continued taking it until I was strong and well. If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial.

Senator La Follette is reported to have cancelled his speaking dates in Kentucky. No doubt he had read what happened to a man named Bigelow at Ludlow.

Forces led "by the ghost" of Francisco Villa, probably dead these two years, are today attacking the border Mexican town of Ofinaga. It is to be hoped that the bandits will see to it that no stray bullets reach the American side of the line. The United States has many soldiers stationed along the border who are just itching for practice.

It is indicated by announcement of the government that no attempt will be made to seize the coast oil fields and operate them, that the strike situation in that section is unchanged and likely to remain so until the men and the operators reach a definite agreement. The operators have announced that work will not be refused to any man who desires it. We believe that the men are going to realize in time that it is not patriotic to hamper the government at this time so long as the wage they are receiving is sufficient to house, clothe and feed themselves and their families.

The government is seizing supplies of foodstuffs and is distributing these supplies where most needed. There is warfare at every hand against profiteering and hoarding. But it is just as necessary to have shelter as it is to have food. The Times makes this observation in view of the great demand for dwellings in Wichita Falls. The supply of rent houses here is wholly inadequate. Even with this condition a few owners are holding their houses vacant with the expectation of selling to somebody who is compelled to buy in order to find shelter for his family. Will somebody please point out the difference between this and hoarding foodstuffs for profits.

THAT MURDER AT WACO.

A week ago a young man going to his home in Waco was struck by an automobile. It was only 8:30 o'clock at night. The victim was shot in the back. The car had no lights. It was speeding through city streets at fifty miles an hour. The man was knocked down. His skull was crushed. Death came instantly. That was a week ago. So far as the post is informed, there has been no arrest. The murderer is still at large. Other innocent people are in danger. The law is ample for their protection. And surely Waco is not so large a city that the movements of every automobile in that city for one night could not be traced. There is a duty for the peace officers of Waco to perform. If they do not, they should make way for those who will. For if murders of this description continue to go unpunished, the people who are their victims will one day become enraged at the failure of the law. And the mob will take its prey whether the guilty be guilty or innocent.—Houston Post.

Waco Real Estate Man Shoots and Kills Wife Then Ends His Own Life

By Associated Press.
 Waco, Texas, Nov. 14.—Domestic troubles of a year or more were brought to a tragic end last night at the home of J. G. Lowery on South Eighth street, when Lowery shot his wife to death and then, turning his revolver upon himself, sent a bullet through his own head.
 A 14-year-old son, only child, witnessed the double tragedy. He was near the house when the shooting began and ran for policemen. When they returned both victims were dead. Lowery was a real estate dealer.

Small Cur Dog Bites Man; Canine's Head Is Dispatched To Austin

C. W. Hagewood, 1316 Sixteenth street, was bitten on the calf of the right leg by a little white cur dog about 10:30 o'clock this morning. The dog was subsequently sent to police headquarters, where it was court-martialed and ordered shot.
 The injury inflicted on Mr. Hagewood was not giving him any pain but he thought it best to play safety first, so the head of the canine will be packed in ice and sent to the Pasteur institute at Austin for examination.

KATY RAILROAD PLANS TO WORK IN CO-OPERATION

CLOSER RELATIONS BETWEEN CITY AND LINE ESTABLISHED AT MEETING.

NEW INDUSTRIES SOUGHT

Chamber of Commerce Offers \$100 to Any Representative of Line Who Brings in New Industry.

One hundred dollars reward was offered this morning by the Chamber of Commerce at its regular weekly meeting to the representative of the M., K. and T. railroad who should be instrumental in causing any new industry to locate in Wichita Falls.
 Representatives of the industrial department of the M., K. and T. railroad met with the Chamber of Commerce this morning for the purpose of discussing new work that has recently been undertaken by the railroad, and of finding out in what way the department of the Chamber could co-operate to their mutual advantage. This department has recently been reorganized and the scope of its activities enlarged, and it is planned to cover the important points in the north and east as well as in the territory of the road itself.

L. Peeler, industrial commissioner of the railroad for Texas, briefly outlined the scope and work of the new organization, saying that representatives were to be sent to some seven or eight points in the north and east, where they would get in touch with men and capital with the intention of interesting both in the development of the line and territory. Much of this work—practically all of it, in fact—has been done heretofore, Mr. Peeler said, by correspondence and, though the stationing of representatives in the principal cities would mean an added expense to the company, it was believed that it would be justified.

Eastern Representatives observed Mr. Peeler, "will make it their business to find out what factories or other industries are located in the north and east, and where they would get in touch with every inducement to operate in our territory. In this matter our interests are both identical, for we and you are both interested in locating industries here."

"We have had an immense quantity of letters sent us," Mr. Peeler continued, "dealing with the matter, and our object is to have our representatives personally investigate these propositions, weed out the good and recommend the best. We want to offer you needs here, so that our men can be on the lookout for propositions that are likely to suit you."

J. A. Kemp said that these representatives would find no town more ambitious to become a real industrial center and he felt sure that Wichita Falls had a great many advantages to offer to factories and other industries.
Will Get Co-operation.
 B. F. Johnson assured the representatives that they would find the heartiest co-operation from every man in town and that the spirit of Wichita Falls was such as to be a powerful inducement to any manufacturing concern who might locate here. Mr. Johnson said that it was especially desirable to have new manufacturers locate here, as a tractor factory and a twine factory as among the needs of the town at present. He said that Wichita Falls was prepared to offer many inducements to either of these factories.

"The chief asset we have," Mr. Johnson declared, "is the splendid spirit of our people, who get solidly behind every industry that comes here and help to make it go. Every man here has a personal interest in seeing these industries a success and does everything he can to make them so. All our industries here are very successful and you men can tell any prospective manufacturer that they could not find another town where they will be accorded a finer sort of co-operation from the citizenship."

"I need not specify what we want," continued Mr. Johnson. "We want everything that can make a success here, and we will do everything in our power to make a great success of any concern that comes here."
 At this point Mr. Johnson stated that the Chamber of Commerce would give a bonus of \$100 to any of the M., K. and T. representatives who were instrumental in locating industries in Wichita Falls.

At the close of the meeting the party was taken over the city and shown the various points of interest, with particular attention to the factories and other plants.
 The new organization of the industrial department includes the following: T. L. Peeler, industrial commissioner; Dallas; L. B. Chibley, industrial agent; Boston; Charles E. Osborne, industrial and colonization agent; Pittsburgh; L. E. O'Leary, industrial and colonization agent; Cleveland, Ohio; A. Bryant, industrial and colonization agent; Chicago; Charles L. Knox, industrial and colonization agent; Omaha. All of the above were present at the meeting.
 Members of the Katy party were guests of the Lions Club at the club's weekly luncheon today. Each was called on for a short talk and in responding they pledged their co-operation to Wichita Falls and to any Wichita Falls business man or industry making investigations in their territory.

No Word of Complaint Heard Among Soldiers Now at Camp Travis

Mr. and Mrs. S. Y. Ferguson have returned from San Antonio, where they visited their son, Lieutenant Markham Ferguson and bride. They made the trip by automobile. At Camp Travis they saw many Wichita Falls boys. "I did not hear a single word of complaint," said Mr. Ferguson. "More than one of them told me that they could not better fed nor have more comfortable quarters at home than they had here. Every one appeared in fine spirits and they are certainly a fine looking lot."
 The negroes were coming in while we were there. Southern men have been assigned to have charge of them and there have been no misunderstandings. The negroes are catching onto the rudiments of the drill quickly but the first few days instead of answering "Sir," it was quite amusing to hear them answer their officers with "Here I is, boss."

NEW COURTHOUSE IS ACCEPTED BY COMMISSIONERS

Wichita county's new \$250,000 court house was formally accepted by the commissioners court Tuesday afternoon, though the building will not be officially occupied by the various departments of the county government until January 14. This is probably occasioned by the delay in arrival of some of the furniture for the building. The big public celebration of the opening of the structure will probably come following its official occupation.

The old county jail, which has been used by the justices of the peace during the construction of the new courthouse will be torn down, according to County Judge Harvey Harris. Bids for the razing of the structure will be asked for and the contract will be let at the December meeting of the commissioners' court.

TODAY'S MARKETS

CORN PRICE DROPS IN SYMPATHY WITH DECLINE OF STOCKS

Chicago, Nov. 14.—Decided setbacks took place in the price of corn today owing chiefly to weakness in the New York stock market. Holders unloaded freely. Opening prices, which ranged from 1/2 to 1 1/2 lower with December \$1.20 and May \$1.15, were followed by material further setbacks.

Government orders for the prompt movement of more than 3,000 box cars into the west to protect federal requirements for feed had a bearish influence on oats.

Provisions, although firm at the outset, gave way later with grain.

A notice issued by the board of trade directors warning members and commission houses not to overtrade had a bearish influence. Prices closed unsettled 1/2 to 3/4 net lower with Dec. \$1.15 and May \$1.15.

COTTON MARKET AGAIN NERVOUS THROUGHOUT DAY

New York, Nov. 14.—The cotton market showed renewed nervousness and irregularity during today's early trading. The unsettled character of European political news appeared to overshadow both the bullish census report on domestic mill consumption for October and the belief that the employment of neutral tonnage in coastwise and South American trade would improve the export situation. The market opened steady at an advance of 2 points to a decline of 7 points but soon sold 1 to 1 1/2 points net lower with January touching 27 3/8 and Mar. 26 1/2. There was Southern and Wall Street selling on the general list and the market found support on a scale down and there was scattered covering on the consumption report.

Cotton futures opened steady, Dec. 28.00; Jan. 27.15; Mar. 26.60; May 26.23; July 26.00.

The circulation of the domestic consumption figures seemed to bring in an increased trade demand toward the middle of the morning, and there were also bullish spot advices from the southeast. Covering by early sellers became active on the advance which carried January up to 27 3/8 and March to 26.99 with the general list selling 21 to 41 points net higher. Near months were relatively quiet but December sold at 28.20, making a new high record for the season.

The market showed continued firmness during the afternoon as reports of a good spot demand together with further buying by trade interests supported to be against spinners calling and covering. Jan. sold up to 27 1/2 and March to 27.18, making new higher records for the season with the general list selling 25 to 60 points net higher.

Cotton closed firm.

CLERKS OF DENVER LEAVE THEIR JOBS; HAD ASKED RAISE

Alleging that the officials of the road ignored their petition of November 10, asking for a 20 per cent increase in pay, clerks at the Denver freight office here left their desks, declaring a walkout at 1 o'clock today. The strikers, who have no organization, is understood, but who merely by common consent signed the petition, stated that 18 men, all but four of the local clerks and stenographers, have walked out. They also stated that freight office employees in Uuanaah, Childress, Vernon, Chillicothe and Fort Worth had been asked to walkout at the same time.

At the Denver offices this afternoon, the statement was made that business was continuing as usual. Outside of this, there the situation called for no comment.

October Consumption for October Is Given By Federal Bureau

Chicago, Nov. 14.—Cotton consumed during Oct. was 595,232 running bales and 1,001,266 bales of lint, the census bureau today announced.

Consumption for the three months ending October 31 was 1,687,418 running bales and 2,881,914 bales of lint. Last year in October 595,655 bales of lint and 67,228 of lint were consumed and during the three month period 1,636,723 bales of lint and 2,912,292 bales of lint.

Cotton on hand Oct. 31, this year in consuming establishments, amounted to 1,085,770 running bales and 69,887 bales of lint compared with 1,721,890 of lint and 87,435 of lint a year ago and in public storage and at regular compress 3,030,455 bales of lint and 93,271 of lint, compared with 2,667,840 of lint and 77,220 of lint a year ago.

Cotton spindles active during October numbered 33,556,922 compared with 32,537,717 a year ago.

Imports there were 3,582 bales and for the three months 29,475 bales.

Exports during October were 535,565 bales including 31,322 bales of lint and for three months 1,449,278 including 94,166 bales of lint compared with 796,588 bales in October a year ago, including 7,430 bales of lint and 1,761,613 bales including 75,998 of lint for the three months period a year ago.

Lieutenant Keil Reported In Italy; May Be In Big Drive

First Lieutenant O. B. Keil, Wichita Falls physician, who entered the service when war was first declared, is now in Italy and may be among those who will have a part in the big allied drive which it is thought will come to the assistance of Italy. Lieutenant Keil's first leave since landing in Italy has just been received by his sisters, Mrs. M. J. Moore and Mrs. T. R. Boone of this city. Just where the aero squadron to which he is attached is stationed was, of course, not revealed and the letter contained no information other than that all were well, had stood the journey safely and were delighted with their situation. Lieutenant Keil has as fellow-officers the famous violinist, Albert Spaulding, Congressman La Canada from New York and Kinsley Moses, the writer.

Mail and papers are slow to reach the continent, according to the lieutenant's letter, but they eventually get there and are much enjoyed. Lieutenant Keil has just learned of the impeachment of Governor Ferguson when the letter was written.

Little Independents Are Aided In Finding Their Father In City

When Curtis Weaver, 9 years old, and his little sister, Mayfair Weaver, 7, left a Denver train at the central station here about 10:30 o'clock this morning there was no one to meet and welcome them.

After standing around the depot a while the children gathered up their belongings and went over on Ohio avenue. At the corner of Eighth and Ohio they stopped to rest their tired arms and to make inquiries, and when a newspaper man came along and learned that the children were looking for their father they were accompanied to police headquarters and then Patrolman Humphreys went to the Light & Power office to ascertain if Amos Weaver was employed by the company. He was referred to a foreman and was told that Weaver was with the company, so the children waited at the police station until their father came for them.

A New Way to Heat Houses

A GUARDIAN FIRE-PALACE FURNACE in the home insures a warm, cheerful house during the coldest of winter's crimp weather.

This Furnace sets in the ordinary fireplace and is easily installed.

If your mantle is now equipped with an open front asbestos heater, or gas logs, both of which are little more than ornaments, entirely inadequate and unsatisfactory as heating supplies, all that is necessary to do is remove them, set a GUARDIAN FURNACE in the opening, connect the Gas, and the job is completed.

This Furnace is absolutely odorless, all fumes go up the chimney. In their passage to the flue they impart their heat to such an extensive radiating surface that a very high heating efficiency is obtained from a small consumption of gas.

The heat is derived not only from the fuel bed in the fire chamber which glows like a hard coal burner, shedding its rays of warmth and cheer over the room, but the heated products pass through many feet of radiating surface in the rear.

WHEN GAS PRESSURE IS LOW the "GUARDIAN" meets the exigency. It will give satisfactory heat when the pressure of gas is so low as to be entirely inadequate for the demands of a basement furnace. Nothing is lost in transit. Every foot of gas burned radiates its warmth right where it is wanted.

We have sold more than 100 of these Furnaces in Wichita Falls, and without exception everyone is giving absolute satisfaction.

New Orleans Cotton.
 New Orleans, Nov. 14.—The bullish showing of the census bureau mill statistics for October caused buying on the opening of the cotton market here today, but after a rise of 4 to 7 points on the strongest months there were heavy offerings which caused a setback. Much of the selling appeared to come from realizing longs. At the end of the first half hour prices were 2 to 14 points under yesterday's close.

Cotton opened steady. Opening bid: December 27 1/2c; January 26.30c; March 26.70c; May 25.28c; July 24.98c.

After more mature consideration of the mill statistics, the trade went to buying again and prices made a ready response to the pressure. In the trading up to noon the active months were forced 18 to 49 points above yesterday's final quotations.

The feature of the afternoon was the narrowing of differences between the distant and near months owing to the undoing of straddles. The near months stood still while the distant months climbed.

At 1 o'clock prices were 18 to 22 points up on the near months and 60 to 72 up on the distant compared with yesterday's final.

Cotton closed steady at an advance of 11 to 83 points.

AGRICULTURE IS EXCITING KEEN INTEREST HERE

REPORT TO STATE AND GOVERNMENT FOR YEAR MADE BY J. W. CAMPBELL.

START MANY HOG HERDS

Boys and Girls' Clubs of Wichita Have Especially Taken Up Work With Seriousness, It is Shown.

The annual report prepared for the department of agriculture at Washington and Austin by J. W. Campbell, county agricultural agent, shows that between Jan. 1 of this year and Nov. 15 an enormous amount of work has been accomplished in Mr. Campbell's department. There has been great activity in all branches of the work, and the importation of grain for seed and feed, selling same to the farmers at cost, has been one of the most notable achievements of the year. Mr. Campbell is in close touch with the best markets of the country and, being a very astute buyer, he has secured some phenomenal bargains, of which the farmers have had the advantage.

Boys' Hog Clubs.
In raising pure-bred hogs, mainly through the boys' hog clubs, a great deal has been done, and the hog industry in Wichita county bids fair to become in time one of the most profitable of the community. Great enthusiasm has been developed among the boys in this industry, and Mr. Campbell says that they are both keen to learn what he has to tell them about better methods and consequently better hogs, and are also very careful to apply it.

There have been 51 demonstrations of wheat plats, with a total acreage of 6,033, the yield being 49,026 bushels or an average of 8.1 bushels to the acre. The three oat plats, with a total of 77 acres, showed an average yield of 19.7 bushels to the acre. Twenty-seven cotton plats, with 1,172 acres, took 446.1 pounds of seed cotton to the acre.

Feed Oats Are Delivered.
Last August 59,000 bushels of feed oats were delivered at cost to the farmers at a great saving. In September 12,900 bushels of feed oats were also sold to the farmers at cost, and in October 1,000 bushels of seed barley. Early this month an additional 4,000 bushels of feed oats were delivered at cost, and there is more to follow, while 1,000 bushels of feed corn is ordered, and will be here this week, delivered to the farmers next week at latest. This makes a total of 77,000 bushels of feed and seed grain that has been imported and sold at cost to the farmers in about ten months, and there are other shipments planned. This alone with no other agricultural activity taken into consideration, means an enormous saving to the farmers, and is considered one of the best signs of farming progress in the community.

Many Herds Started.
There have been 184 herds of pure-bred hogs started in the county this year. Mr. Campbell stated that at the beginning of the year there were very few pure-bred hogs in the county, but that the industry is growing rapidly. Mr. Campbell has done considerable traveling this year, having covered a total distance of 12,289 miles on official visits, of which 10,750 miles have been by auto, and 1,533 by railroad. Twenty-eight farmers' meetings have been held, with a total attendance of approximately 2,532. Ten field meetings, of which there is no record of attendance, and 59 visits to schools. There are 137 flourishing pig clubs in the county and 140 agricultural clubs. Five hundred and twenty-nine United States bulletins have been distributed and 364 from the state colleges and a total of 953 official letters written.

"THE SPY" AT THE EMPRESS THURSDAY

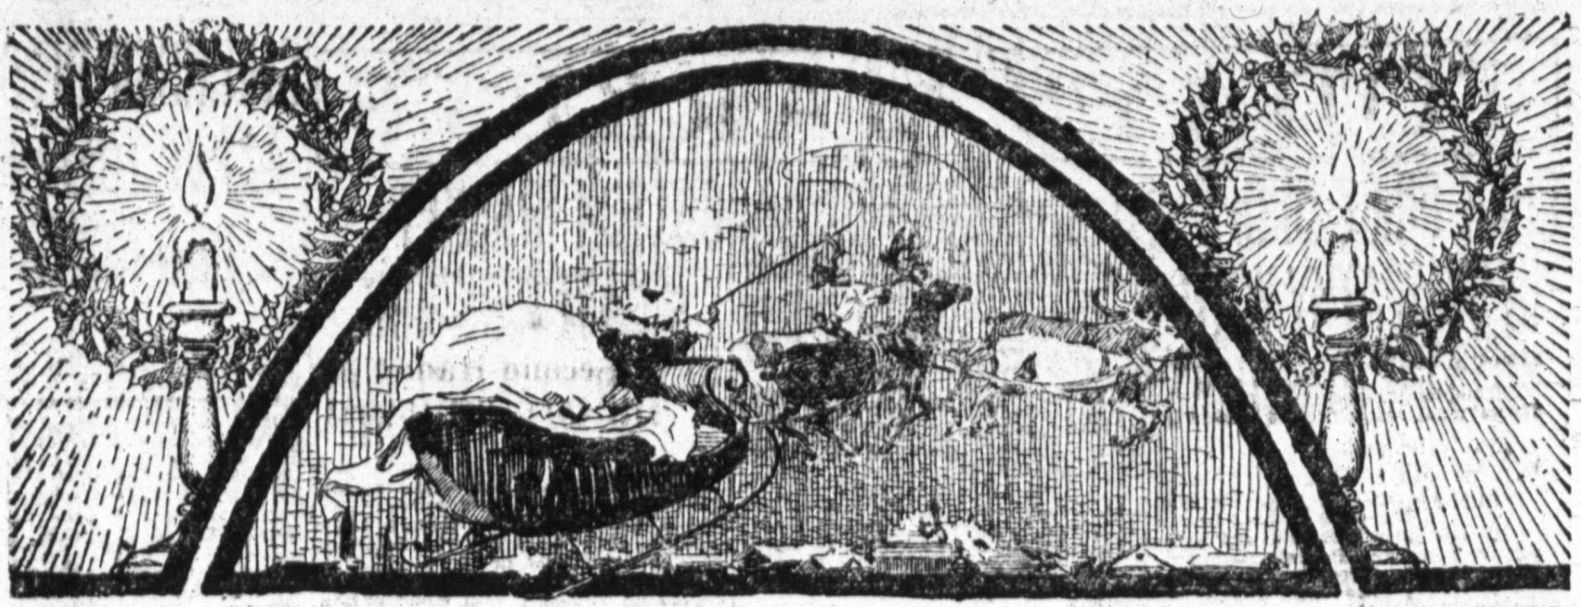

Thursday, William Fox's "The Spy" will open at the Empress for a two day's run. An announcement says: "It's the unusual that cuts the great big figure. And William Fox has attained it in "The Spy", the timely, sensational photo-drama, exposing the operations of Germany's Secret Police in the United States. Do you know your neighbor? No, not always. Do you know that the Prussians have 10,000 foreign emissaries lurking and scheming in this country? Every day the newspapers have stories to the effect that important state secrets, information of military movements and operations of the naval vessels reach the head of Germany's Secret Police in Berlin.

Do you know your neighbor? Are you sure that the man who lives next door or the man who rides down to the office with you in the morning is

not one of the Kaiser's paid hirelings? Are you certain he is not one of those spies who transmit this important information to the capital of Germany?"

"EXPERIENCE" TO SHOW HERE SATURDAY AT THE WICHITA

The most wonderful play in America as "Experience", George V. Hobart's modern morality comedy drama of today is called, will be presented by William Elliott, F. Ray Comstock and Morris Gest at the Wichita Theatre, Saturday, November 17, with matinee at 2:30 p. m.

In recent years no play has enjoyed the remarkable success of "Experience" which is a huge pageant in ten scenes and eighty-two characters—a pageant of Youth—the average young man of today—his temptations, his ambitions, his failures, his ultimate victory. Yet the word pageant fails to describe "Experience" even as the drama fails utterly to give an idea of the varied brilliancy of Mr. Hobart's work. Can you imagine anything that is spectacular, brilliant, beautiful in a modern stage production combined with everything that is intense, emotional, thrilling, dramatic? That is "Experience."

The story that Mr. Hobart has set down is not an allegory or a morality, but a vivid, modern drama with the simple story that goes with unswerving directness from the first curtain to the last.

D. 1917, the same being the 17th day of December A. D. 1917, then and there to answer a petition filed in said court on the 29th day of September A. D. 1917 in a suit, numbered on the docket of said court No. 6150, wherein Sallie Carter is plaintiff, and Abrey Carter is defendant, and said petition alleging that plaintiff was legally married to defendant about November 24th, 1909 and continued to live with him until about July 25th, 1915, since which time she has not lived with him. That during the time they lived together she treated defendant with kindness and forbearance, but defendant, unprovoked and without cause, continued a course of unkind and tyrannical treatment toward her which compelled her to abandon him. That at the time plaintiff married defendant she was seized and possessed in her own right, property of the value of \$8,000. That defendant through mismanagement, etc., has squandered and disposed of her property. That defendant struck plaintiff and was guilty of cruel and excessive treatment toward her of such a nature as to render her unable to support and maintain herself and her children as a wife and mother, and plaintiff prays the court that the defendant be cited to appear and answer herein for judgment dissolving the marriage relation, for cost of suit and for general and special relief, etc.

TWENTY TO LEAVE FOR STAR ROUTE MEET IN WOODWARD

Twenty good roads boosters will leave tomorrow for the Woodward meeting of the Star Route Highway. The party will arrive at Woodward at 4 o'clock Thursday afternoon and leave at midnight on Friday, coming on a special, and returning home early Saturday morning. Berths will be drawn for, tossed for, or similarly distributed, losers taking the uppers.

The Star Route will connect Wichita Falls and Dodge City, Kan., following close to the Wichita Falls Route on the railroad. It will connect with the Red Star Highway at Dodge City, a splendid road reaching as far as Winnipeg. This meeting is regarded as one of the most important that has been scheduled by new road associations, and there is every indication that there will be a record attendance. The associations all along the route are sending large numbers of delegates, and it is believed that the Star Route will prove one of the most profitable trade routes leading to Wichita Falls.

The party will consist of Judge R. E. Huff, H. P. Johnson, Leon Leeb, C. McArthur, T. T. Reece, E. W. Griffen, H. G. Schauer, R. G. Shepherd, Monte Stanforth, James Walker, H. H. Bray, T. A. Bradley, D. P. Tally, F. H. Taylor, W. S. Currie, N. O. Monroe, C. J. Schumaker, Lloyd Weaver, Chas. Caramalis and possibly others.

Transaction Closed For Farm in Oklahoma By Wichita Falls Man

C. W. Bean has closed a transaction by which he acquired the C. R. Gamble 160-acre farm near Ardmore, Okla., for a consideration of \$13,000, or \$81.25 per acre.

Mr. Bean stated today that an inexhaustible supply of caliche sand is to be found on the farm by drilling wells 22 feet in depth, and that he contemplates putting down a number of wells and installing a small irrigation system. He has rented the farm to Jerry Yarboro, who will grow cotton and alfalfa another year.

It's Just A Little Over A Month Until Christmas

We are as busy as we can be receiving and marking new goods and preparing for the Holidays YOUR DESIRE TO GIVE

Christmas gift giving is so well established that none of us would forego the pleasure which the custom provides. The greatest gift in all the world is happiness, and Christmas, the birthday of the world, gives us an excellent opportunity to exchange wishes of good cheer and tokens of good will, which make for happiness.

YOUR ABILITY TO GIVE How to strike a satisfactory average between our desire to give and our ability to give is a problem which worries nearly every one at Christmas times. Our stock of useful, sensible things offers an easy solution to the problem. Something for the Soldier Boy—and lots of things for home folks at reasonable prices.

POPE'S ESSAY ON MAN Was inspired in a London Coffee House, as was also the following lines: "From silver spirits the grateful liquors glide, While China's earth receives the smoking tide, At once they gratify their sense and taste, And frequent cups prolong the rich repast. Coffee! which makes the politician wise, And see through things with half closed eyes." OUR COFFEES ARE RICH, MELLOW, FRAGRANT AND FRESH ROASTED. BERT BEAN COFFEE HOUSE 824 Indiana Ave. Telephone 35
