

AUSTRIA TO KEEP ON SEEKING PEACE BUT ON OLD TERMS

LEADERS MAKE THIS ANSWER TO WORKMEN OF REALM UPON STRIKE.

The war situation of today is summarized by The Associated Press as follows: Austria Hungary will continue to strive for general peace but on the terms previously offered. This is the answer given the leaders of discontented workmen who have quit work to demand the peace by Dr. Seydler, the Austrian premier...

ONE MINISTER RESIGNS

Importance is attributed to Political Situation By Press—Military Inactivity Continues.

Resignation of an Austrian minister, most probably that of von Seydler, is reported by a Berlin newspaper but there is no press or official confirmation.

German newspapers report that Dr. van Seydler, the Austrian premier, has resigned and that Dr. Kautsky, the Hungarian premier has determined to retire next month...

AUSTRIA-HUNGARY BELIEVED NEARING POLITICAL CRISIS

INCIPENT REVOLT IS FEATURED BY MORNING PAPERS IN LONDON.

London, Jan. 22.—Austria Hungary's cry for peace, accompanied apparently by a condition of incipient revolt is featured by the morning papers as a fact that is hurrying the dual monarchy to a crisis.

Uphoel Important. While most newspapers here attach the greatest importance to the up heaval and some infer that the Austrian government is encouraging the movement in a genuine endeavor to create peace...

Reports From Switzerland. Reports from Switzerland mention the arrest of peace demonstrators at some places in Austria.

BOLSHEVIKI SEEK THOSE WHO KILLED FORMER OFFICIALS

Petrograd, Jan. 21.—Premier Lenin and Secretary of State, Leonid Krich have ordered the Red Guard and soldiers to comb the city for the motor with Red Guards and soldiers who killed Shingarov and Kokshkin.

It has been learned that the sailors who were among the assassins were not part of any crew stationed in Petrograd, but had recently arrived from Finland where they had been attached to the Baltic fleet.

HOLIDAY FAVORS ABOLISHING MANY PRISON OFFICIALS

INCLUDES IN HIS RECOMMENDATIONS THE DISCHARGE OF STATE COMMISSIONERS

By Associated Press. Austin, Jan. 22.—Representative Holiday today filed a report with the central investigating committee recommending the removal of the prison commission for failure to comply with the prison laws of the state.

FRENCH ENGINEERS CONSTRUCT FOOT BRIDGE IN RECORD TIME

French engineers are constructing a foot bridge over a bit of low ground in Belgium. The bridge, looking in its present state rather insecure, will support, when completed, a battalion of men. Shell holes in this low ground are frequently from twenty to thirty feet deep and filled with water.

PACKERS' EMPLOYEES ARE INSISTENT ON FEDERAL CONTROL

Washington, Jan. 22.—The demand of Chicago packing house employees for government control of the meat industry during the war was broadened today to include all the packing plants of the United States.

Disagreement developed as to the corporation of the Chicago mediation pact, negotiated by the commission on Christmas day. The workers contended that the packers failed to live up to their agreement.

London Newspapers Charge and Counter; Critic Quits Post

By Associated Press. London, Jan. 22.—The Morning Post announces that Colonel Hoping, who resigned as military critic of the Times, has accepted a position as military correspondent of the Morning Post.

Daring Convict Is Taken in Fort Worth; Escaped From Prison

Fort Worth, Jan. 22.—Oklahoma officials are expected from the reformatory at Granite today to take "Buck" Bruce, alias John Williams, alias Thomas Murphy back to prison.

MEN ARE NEEDED FOR FARM WORK MOST IS REPORT

Washington, Jan. 22.—Peremptory directions to many large industrial concerns to cease the widespread advertising for help, which was thought to be upsetting the labor supply and working hardships on individuals who answered the advertisements, have been sent out by the department of labor.

Secretary Post assured the delegation the department would cooperate in supplying labor for the farm work. Already steps have been taken to put an end to advertising for labor by concerns which the department believes was done for the purpose of attracting a large reserve supply of labor to industrial centers and thereby lower wages.

CONTROL OF FOOD BILL IS IN HANDS OF COMMITTEEMEN

Washington, Jan. 22.—An administration bill giving President Wilson broad powers to fix prices of food and other commodities essential to the government's war program, or for domestic consumption was in the hands of Chairman Lever of the agricultural committee today for introduction in the House.

Plank and Pratt Are Traded Off

St. Louis, Jan. 22.—Eddie Plank, veteran pitcher, and Derrick Pratt, second baseman, were traded to the New York Yankees by the St. Louis Cardinals today for five players and cash.

ENGINEER AND FIREMAN ARE KILLED IN WRECK

Ashland, Ky., Jan. 22.—Engineer M. J. Ealy and Fireman W. J. Paris, both of Russell, Ky., were killed and four other firemen were injured in a head-on collision of Chesapeake & Ohio passenger train No. 4 and a yard engine in the railroad yards at Russell, early today.

TRAFFIC IMPEDED THROUGHOUT EAST BY HEAVY SNOWS

Washington, Jan. 22.—Heavy snows over the entire east today compelled the abandonment of scores of passenger train schedules. Locomotives so released were diverted to coal traffic.

All hopes of clearing up the condition until normal weather is resumed were abandoned by railroad administration officials.

NO SHIP BEING HELD FOR LACK OF FUEL

New York, Jan. 22.—No essential ship in New York harbor is being prevented from sailing for lack of fuel, according to J. E. Parsons, coal expert, detailed by the United States Shipping Board to supervise the bunkering of vessels here.

This was the first word to come from authoritative sources in New York indicating that the fuel situation had been relieved materially through five days' industrial suspension and its resulting curbed coal consumption and loosening of freight congestion.

ANOTHER HEAVY SNOW FALLS OVER THE EAST

Washington, Jan. 22.—Snow was falling today throughout the eastern half of the country north of Georgia and promised to tie up the country's transportation systems as badly as they were before the beginning of the five-day industrial shut-down.

ATTEMPTED ENEMY RAIDS ARE REPORTED REPULSED

London, Jan. 22.—"Attempted enemy raids last night east of Ypres were repulsed, the war office reports. Throughout the night was quiet on the whole front."

PRESIDENT AND CONGRESS WILL BEGIN CONTEST FOR AUTHORITY ON THURSDAY

By Associated Press. Washington, Jan. 22.—President Wilson's denunciation of Senator Chamberlain's attack on the war department and his openly expressed approval of Secretary Baker, had the effect today of apparently solidifying sentiment among senate Democrats who support the bill for a war cabinet despite the president's opposition.

Opposition Lines Up

The president's assertion that he had learned of the war reorganization legislation only second-hand was flatly contradicted today by military committee members. They said both Senators Chamberlain and Hitchcock advised the president last week of the proposed legislation and that the president had written a letter stating his opposition.

Deny Any Delays

The president's statement that war operations had been delayed by the congressional investigation calling of officials and officers from their duties to appear before committees also was disputed by committee members who pointed out that when Major Generalis Frozier and Sharpe testified before the military committee they had been relieved of their duties respectively as chief of ordnance and quartermaster general.

Disclaims Any Purpose of Answering Speech of Senator Stone

Washington, Jan. 22.—Colonel Roosevelt came to town today and received a steady stream of callers at the home of his daughter, Mrs. Nicholas Longworth.

The colonel frankly said his purpose in coming to the capital was to help speed up the war and confer with friends in congress. He disclaimed any purpose of replying to Senator Chamberlain's speech.

ONLY SIX ABOVE ZERO RECORDED AT FORT WORTH

Fort Worth, Jan. 22.—The mercury fell to six degrees above zero this morning. However, a minimum of suffering has resulted as local organizations had been forewarned and provided against the emergency.

ONE MAY NOT JOKE IMPROPERLY ABOUT PRESIDENT WILSON

Chicago, Jan. 22.—Interpreting the law relating to disparaging remarks about the president, Federal Judge Landis told a jury yesterday that a man may not speak about the nation's chief even in jest. The case was that of Walter Ragansky, a Lithuanian, convicted on three counts, the maximum penalty for each of which is five years imprisonment.

PRESIDENT ENDORSES PLAN OF BOY SCOUTS

New York, Jan. 22.—Letters written by President Wilson and Secretary of the Treasury McAdoo were made public here today endorsing the plans of the Boy Scout of America to increase the organized boyhood of the country through a campaign to raise \$600,000 between February 8 and 12 and to organize a scout leaders reserve corps of one hundred thousand men.

CREDIT EXPANSION IS ONE OF CAUSES OF PRESENT PRICES

Washington, Jan. 22.—Effect of credit expansion on the general rise of prices and the part the American people can play in counteracting inflation by war time economies were emphasized today by the Federal Reserve Board in its annual report to congress.

Must Save Credit

"Goods and credit," says the report, "must be saved to the utmost of our ability in order to check the upward movement of prices and in order to free for the use of the government the goods and savings required for the winning of the war."

AMERICAN GUNBOAT ATTACKED BY CHINESE

Peking, Friday, Jan. 18.—The attack yesterday on the American gunboat Monocacy in which one sailor was killed and two others wounded, was made near Kien Lin-Sien and came without warning from a Japanese vessel behind a barrier on the north of the Kian. The gunboat returned the fire but with what result is not known.

NEW MEXICAN GOVERNOR IS GIVEN COMMISSION

Mexico City, Jan. 22.—General Alfredo Braceda, former temporary governor of Coahuila, has been appointed governor of that federal district, which includes Mexico City. It is reported unofficially that General Canales would come to the capital this week to take the oath as secretary of foreign affairs. The general recently was granted a leave of absence from his duties as governor of the state of Vera Cruz by the state legislature.

MAN WHO HOARDED BUTTER FINDS HIS STORE SEIZED

New York, Jan. 22.—Nearly 31,000 pounds of butter hoarded by Charles Willner, a Brooklyn retailer, since June in the hope of a raise in price, is to be distributed by the federal food board to hospitals and charitable institutions at the cost price, it was announced today.

## BETTER SUPPORT FOR CAMPAIGN TO KILL RATS URGED

WORK IS PROVING ENTIRELY SATISFACTORY TO FIRMS TRYING IT.

### CITY UNABLE TO HELP

indications Are That There is No Fund From Which Appropriations May Be Made.

The civic league believes that the rat campaign is not receiving the support of the local merchants who so valuable a movement deserves, and claims that those merchants whose premises are in greatest need of attention on the part of the rat expert are slowest about making use of his services.

It has been claimed by some that if this work is of such tremendous benefit to the city, the city itself should undertake the cost, instead of putting the burden upon the individual merchant. But it has been pointed out that while this method might be just as satisfactory in point of results, and possibly more so, there is no machinery in the city government for this work, and no taxes to create a fund for this purpose. And it is further pointed out that while the merchant is to bear the cost of getting rid of his vermin, this cost is far less than that of keeping the vermin.

Upkeep of Pests.

It is claimed by those who have given much study to the question that the cost of keeping vermin on the premises is infinitely greater than that of getting rid of it. For many reasons. In the first place, those who keep vermin on their premises are increasing in number, and that if the vermin is allowed to remain for more than a year, its cost is increasingly great. In the second place, places of business which are known to be infested with vermin, and the campaign will accomplish the result of at least discovering where the vermin is, cannot hold a trade of any value, and this represents a greater loss. Added to these direct money losses, there is the greater insurance risk, fire risk, and health risk, all of which the merchant must bear along with the rest of the community.

Put, therefore, on a purely material basis, the civic league believes, and has a great deal of government information to substantiate its belief, that it costs each individual merchant less to rid his premises of vermin than to keep it.

Basis of Civic Pride

But it is believed that the basic of civic pride will be sufficient to arouse the interest of the Wichita Falls merchants, once the question is clearly understood by the civic league states that the local merchants have never failed to respond to any call or conform to any measure which was clearly for the benefit of the town. That the extermination of rats, mice, cockroaches and all other vermin is not only for the betterment of the town, but of the individual merchant himself, is a matter which it is believed will be perfectly obvious to all, once it has received a little study. The league strongly urges upon the merchants and all citizens that they bend every effort towards making a cleaner and more sanitary Wichita Falls, on which the whole town may make its pattern, and that the immediate action towards this end is the extermination of the town's vermin.

The following letters, received by W. D. Hussung, the rat expert, are self-explanatory.

Wichita Falls, Tex., Jan. 23, 1918

Dear Sir: We wish to commend you on the work you are doing for this city in the campaign against vermin by the civic league for the extermination of rats, mice and cockroaches. The results in our place of business have been entirely satisfactory and effective and we will be glad to see anyone call on us for confirmation.

We feel that the results obtained already are worth many times the price of a year's contract.

You are at liberty to use this letter in any way that you see fit. Yours truly,

WILFONG & WOODS.

By C. B. Woods.

Wichita Falls, Tex., Jan. 21, 1918.

Mr. W. D. Hussung, city.

Dear Sir: In order to lend substantial force to the rat, mouse and cockroach campaign being conducted in this city by the civic league, I wish to say that the work on my premises has been highly satisfactory and I would not accept the amount of the entire contract in return for the work done and saving made by the first application yesterday.

Anyone interested may call me over phone for information.

Yours very truly,

D. M. HARDY.

## Chicken Stealing Is Charge Made Against Negro; Dogs Used

Blood hounds after a thief have furnished the setting for many a tragedy, but the chase by city and county officers under a "civic genius" believed to have been helping himself to the chickens at J. A. Kemp's dairy Monday resulted in a comical finish.

After long chase with the dogs, the officers report that they came to a shack from which a darky was making desperate attempts to escape through the window. The window, however, was nailed up and baffled all attempts to be opened, and the darky was captured.

He introduced himself without preliminaries. "I knows want you believe I done stole chickens. I see a good negro, and all the white folks knows it. I wags down to the cafe, whar deys lots o' chickens. What would I want to steal chickens for?" he was recommended to tell it to the judge.

## PRESIDENT WILSON REPORTED URGING IRISH SETTLEMENT

By Associated Press

London, Jan. 12.—The Daily News says there is reason for stating that President Wilson has recently made urgent representations to the British cabinet on the desirability of an Irish settlement.

The Dublin correspondent to the Times reiterates the partially hopeful view of the convention, whose reports, he says, will at least advance the solution of the problem by stages of unprecedented length and importance. The end, he adds, cannot long be delayed.

The political world was surprised last night by the announcement that Sir Edward Carson, minister without portfolio in the war cabinet, had resigned. This action is a result of the present situation in the deliberations of the Irish convention.

In a letter of resignation Sir Edward stated that on account of his dual position as a member of the government and leader of the Ulster party, he felt it to be to the national advantage to resign since the convention may require a director by the government on grave matters of Irish policy. Premier Lloyd-George, in a laudatory acceptance of the resignation, admits there is wisdom in the course.

kings and Stokes, portrayed severally by Bert Leigh, Edward Butler and Donald MacLeod, was unusual to say the least, but the result was even more startling and unusual than the idea. Olga Eide who played Mary, who owned the ankle that caused the trouble and then solved the annoying problem to the satisfaction of all concerned, was altogether easy to look at that one fully appreciated the spirit which prompted the three dead broke, or almost, young men, who gave up their last dollars to the Red Cross.

The entire cast was good, unusually so. Clementine, Gertrude Mann, and her "delicate, ailing ma," played by Louise Sanford supplied ample comedy. James Hester as the rich old uncle, was very satisfying, especially so to Mary's aunt, the love of his youth, played by May Wallace, and William J. Morrison and Royal Catter in the minor roles of the expressman and steward in the boat to Bermuda maintained the standard of excellence.

WILD CATTING IS GIVEN IN REVIEW IN NORTH TEXAS

F. W. BRIDGE MAKES REPORT IN OIL CITY DER-RICK.

Review of the wild cat operations in North Texas reported by F. W. Bridge in the Oil City Derrick as follows:

In the Realm of the Wild-Catters. For more than fifteen years wild-cattling has been going on in different parts of the district and during that time nearly every county in north Texas has had its depths penetrated, at least once or twice, by the prospector's drill, and its formations beneath the surface logged for future reference.

Among the favorite counties for wild-cattling have been Palo Pinto, Stephens, Coleman, Shackelford and Archer, in fact, until the last two or three years, most of the prospecting was done in these five counties. Palo Pinto appears to be about the oldest wild-cat territory, as a test was started in the northwestern part as far back as 1892, and was completed in 1903 and had showings of oil and gas. Much drilling has been done since, with very little success until the latter part of 1914, when shallow oil and gas were found at Strawn. In the southwestern part of the county, in 1915 gas was found in paying quantities south of the city of Mineral Wells, a field defined and a number of wells drilled in and capped for a reserve supply, the gas was piped to Mineral Wells and it is now used for heating and lighting purposes at that point. The pay is at about 1,100 feet.

In June, 1917, a very deep test, in the extreme southern edge of the gas field developed another gas stratum at about 4,200 feet, spraying about 25 barrels of 45 test herosem and in August a small well was completed in the northwestern part of the county, west of the town of Graford. Although the results of so much drilling have been very meagre, the indications in every hole put down have been so promising that prospecting is still going on merrily.

Prospecting has been active in Stephens county for several years, with no results until the early part of 1916, when a well was drilled in near Caddo, furnishing a good showing of oil and some gas. Since that time the Texas Company have completed three good wells south of Breckenridge, with a combined depth of about 700 barrels, the Texas & Pacific Coal Co. have a 250-barrel well, recently completed, east of Caddo, all these in a hard pay, from 2,170 to 3,480 feet and the latter company also have a couple of small wells in the southeastern part of the county in a shallow sand, while there are many other tests drilling, some of them being close to the pay.

To the south of Stephens lies Eastland county and in the northeastern part of that county, near the town of Ranger, a 1,200-barrel well was completed by the Texas & Pacific Coal Co. in the month of November, this year, apparently a little deeper. Another well, to the northwest of the town was drilled deeper still, but was finally completed a 7,000-foot test. In the other wells are drilling, several rigs are built and many new locations have been made.

Again to the south lies Coleman county, in the southeastern part of this county, near Trickham, is a shallow gas field, which supplies the city of Santa Anna, with gas. Between Trickham and Santa Anna are several small producing oil wells that have been drilled in during the last three years. Between Santa Anna and Coleman an oil sand, containing pay, was found on the Griffith ranch, more than a year ago, but was drilled into salt water and ruined. North of Coleman the Elizabeth Oil-Magnolia Petroleum Morris No. 2 was a 25-barrel well at 2,260 feet. No. 3 was recently completed at 3,428 feet, a 100-barrel well and now has wise ones among the talent are drawing lines, forming an irregular triangle, beginning on the north at Caddo, southwest to a point west of Breckenridge, thence south to Coleman, thence north through Ranger to Caddo, figuring that pay exists all the way, taking in the three counties and leases have been taken up, not only within the lines but on all sides of them, in fact, Eastland county appears to be more than 90 per cent under lease, with good bonuses paid for the mineral and oil and gas rights. A number of tests are going down in Coleman county, now and more are planned. Shackelford county has been prospected a good deal and at one time it was thought a pool had been opened near the town of Moran, in the southeastern part of the county. The wells quickly dwindled or salt water broke in; however, the production did not pay the expenses of drilling. There are still a few producing wells, but the output is light and it is included with the production of other wild-cat wells. Recently some small wells have been completed south of Moran, in a shallow sand, at about 360 feet, making from 5 to 12 barrels each. More are to be drilled and it is thought

How to keep the richness in and expense out of baking has been a problem. Housekeepers every day are solving this problem with whole-some Cotrolene.

Home-made cakes are coming into fashion again. And the very latest fashion in delicious cakes is to use economical Cotrolene instead of expensive butter—one-third less, too, than of butter.

RECIPE

Chocolate Cake
1/2 cup Cotrolene
1/2 cup sugar
1/2 cup milk
3 eggs
2 cups pastry flour
4 squares chocolate
3 tablespoons boiling water

Cream Cotrolene, add sugar gradually, stirring constantly. Add chocolate melted and cool with hot water until smooth. Add yolks of eggs well beaten. Mix together flour, baking powder and salt. Add add mixture to the mixture with milk. Lay in the battering and stiffly beaten whites. Bake 15 minutes in layer cake pan. Finish with white icing.

possibly that a shallow pool will be opened. A deep test is drilling near Albany and others are planned, west and south, in the near future.

Archer county has also had a good many tests drilled at different times and twice it was thought that pools had been opened. In 1912 the Corsicana Petroleum Co. got a couple of small wells near the town of Olney, in the southeastern part of the county, and spent a good deal of money trying to develop a pool, but finally gave it up and sold the wells to a local party, who is still shipping some oil from them. In the latter part of the year 1916 a well was completed south of the town of Holliday, on the Wilson ranch and later sold, with the lease holding to the Panther Oil Co., a Wichita Falls concern. Several other wells were completed, pumping all the way from 35 to 100 barrels, and it was hoped that a good pool would be opened there. It appears, however, that all of the pay lies within a very small acreage as, with the exception of one well, only a short distance from the Panther wells to the southwest, all of the tests have been dry holes, or practically so. A few tests are drilling and others are expected to start as soon as water can be obtained.

Several tests are drilling in Young county, two in Montague, three in Tom Green, two in Grayson and one or two in several other counties, but, outside of the shallow pool in Brown county there is nothing further to record at this time. In Brown county, in and to the west and south of the town of Brownwood, a shallow pool has been opened up during the year and there are now quite a number of producing wells, of from 5 to 25 barrels each at depths varying from 220 to 350 feet and it is claimed that the daily production now amounts to nearly 500 barrels. Two small refineries are being erected and one of them is nearly completed. Many wells are being drilled, drilling machines and mud-drift rigs being employed for the purpose and from one to three wells are being completed weekly. One deep test is being drilled to the north of the town and rigs have been built for two to the south. 1917 Production Monthly.

"Non-Ricochet" Shell Latest Invention To Be Used Against Huns

By Associated Press. Jan. 22.—The "non-ricochet" shell a weapon as deadly as the depth charge, is the newest device perfected by the navy ordnance experts for use against German submarines. The new shell dives when it strikes the surface of the water instead of bouncing as do the ordinary missiles used in either naval or

coast defense artillery. The charge can be made to explode on contact with a solid surface under the water or at a pre-determined depth. The value of the latest anti-submarine weapon lies in the fact that shots which fall slightly short will be on as much effect as those which register direct hits.

The navy department has forbidden the publication of details of the invention but it is known the British and French admiralties also have adopted it.

UNDAMAGED BRITISH TANK EXHIBITED IN BERLIN

By Associated Press. Amsterdam, Jan. 5.—(By Mail).—An undamaged British tank, captured at Cambrai by the troops of the second German army, was driven through Berlin under its own power a few days ago. It is now on exhibition at the Zoological garden at one mark admission, the proceeds going to war charities.

# TODAY'S MARKETS

## HEAVY RECEIPTS FORCE PRICE OF CORN DOWNWARD

Chicago, Jan. 22.—Big receipts of corn here had a bearish influence today, especially as a large part of the total was definitely known to have come from a clean up of exportation on one of the principal western lines. Opinions were expressed that the supply would temporarily exceed the demand. Snow flurries and a prediction of colder weather tonight, however, tended somewhat to check selling. Initial prices which ranged from unchanged figures to 1/4% lower with March 1.25% and May 1.24 to 1.24% were followed by a sag all-around.

Continued traffic difficulties east formed a depressing factor in the oats market. Local traders sold freely.

After opening 1/4 off to 1/4 up with May at 76 1/2 to 76 3/4, prices took a moderate downward slant.

Provisions averaged slightly higher as a result of scattered buying. Weakness in the market did not seem to count.

## NERVOUSNESS IS SHOWN BY COTTON THROUGHOUT DAY

By Associated Press.  
 New York, Jan. 22.—The cotton market showed renewed nervousness early today, losing a good part of Saturday's recovery under liquidation and local pressure. The failure of Liverpool to fully meet Saturday's local advance was partly responsible for the opening decline of 12 to 19 points, while selling was also encouraged by better southern weather prophecies and sentiment was unaided by reports from Washington that the president had asked blanket authority to fix prices when deemed necessary upon all commodities essential to the conduct of the war. Many of Saturday's buyers seemed to be selling on the spot, although very few to 2080 for March and 3042 for May, or about 33 to 36 points net lower.

Cotton futures opened steady: Jan. 31.15; March 30.97; May 30.84; July 30.24; Oct. 28.87.  
 There was enough trade buying to steady the market at times but every bulge met increased offer and there was another flurry of liquidation toward midday when sent March off to 30.56 and May to 30.19, or 57 to 59 points net lower. Houses with Wall Street connections were aggressive sellers and the decline was accompanied by rumors of an easier spot situation, although very few advices were received here from the belt.  
 Trading was less active during the early afternoon and prices held fairly steady at rallies of 10 or 15 points.  
 Cotton closed steady.

**New Orleans Cotton.**  
 New Orleans, Jan. 22.—Fear of price fixing by the government was the dominant influence in the cotton market here on the opening today and in the first half hour prices lost 24 3/4 points. It was a quiet market, showing a barely steady tone.  
 Cotton opened barely steady. Opening bids: Jan. 29.90; March 29.75; asked: May 29.56 and May to 30.11; Oct. 27.90.  
 No buying power was attained at any time during the morning session. Prices gradually declined until toward noon they were 54 to 60 points off net.  
 Cotton closed barely steady at a decline of 58 to 62 points.

**Liverpool Spots.**  
 Liverpool, Jan. 22.—Cotton spot quiet, prices unchanged. Good middling 22.78; middling 22.26; low middling 22.23; good ordinary 21.74.  
 Sales 3,000, including 2,500 American.  
 No receipts.  
 Futures closed quiet. New contracts: Jan. 23.48; Feb. 23.24; March 22.83; April 22.64; May 22.42. Old contracts: Jan. 22.01; Feb. 21.91; March 21.73; May 21.57; June 21.49.

## HIGH SCHOOL BOYS ENJOY BANQUET AND NUMBER OF TALKS

### "FATHER AND SON DAYS" ARE SUGGESTED AS FEATURE FOR FUTURE

The Y. M. C. A. high school club met last night at a very enjoyable dinner at the St. James Hotel, which was donated to the club by J. Jay Culbertson, and at which plans and programs for the new year were outlined by Homer L. Holington, secretary of the Y. M. C. A. work of the association.

Among the suggestions for the work were "Father and Son" days, which would be "bring" their fathers to meetings, banquets, and so forth.  
 The underlying thought of this idea seems to be to promote a closer understanding and co-operating partnership between fathers and sons, in such cases where the relationship between them may lack some of these features. Another suggestion was the "Come Clean" campaign in which a direct appeal was made to the boys for greater sincerity and honesty in their dealings with their fellows.

Classes for Bible study were also suggested, one for the seniors and juniors, and one for the freshmen, sophomores and freshmen, making three in all. The plan outlined was to have some of the business men take charge of these classes, which should be held for half an hour before the opening of school, once a week. "The Manual of the Master" was a book suggested for study in the classes.

It was decided to hold the meetings hereafter once a month instead of once a week, as it is believed that greater interest and better attendance will result.  
 Andrew Urban, president of the club, presided at the meeting, at which the following visitors were present, and spoke to the boys: C. W. Snider, C. H. Clark, Lee Clark, and Homer L. Holington.

**Kansas City Produce.**  
 Kansas City, Jan. 22.—Butter, eggs and poultry unchanged. Potatoes steady 1.75@2.30.

**New York Stocks.**  
 New York, Jan. 22.—With the exception of rails, in which trading was limited and irregular, many substantial gains were made at the active opening of today's stock market. Steels, copers and the various war issues were the chief features at advances which ranged from large fractions to almost two points. Oils, tobaccos, leathers and sugars augmented yesterday's gains and the motor group handened with shipments. Liberty bonds eased slightly.

Industrial Alcohol and Distillers were appreciably higher in the early afternoon but the list again reacted on heavy selling of oils Mexican Petroleum reacted four points, Texas Company 2, following speculative interest to 2 points.

**Coffee Market.**  
 New York, Jan. 22.—Coffee No. 7 Rio 8 1/2; Futures barely steady; March 8.60; May 8.78.

**TAX ON IMMIGRANTS APPRAISED BY CARRANZA**  
 By Associated Press.  
 Mexico City, Jan. 22.—President Carranza has approved the bill imposing a tax on immigrants. All persons entering Mexico after February will have to pay a tax of fifty cents Mexican.

## Rev. J. M. Kirwins Made Administrator In Galveston Diocese

By Associated Press.  
 Galveston, Jan. 22.—Very Rev. J. M. Kirwin, who was vicar general of the Catholic diocese of Galveston under the late Right Rev. Nicholas A. Gallagher, bishop, has been appointed administrator of the diocese pending the appointment of a bishop. Announcement of the appointment of Father Kirwin was made today by Bishop Theophile Meerschaert of Oklahoma, senior bishop of the province, and has been confirmed by the apostolic delegate at Washington. The appointment was made by Bishop Gallagher a few days before his death. It was announced today that all the bishops of the archdiocese would be here Thursday for the funeral of Bishop Gallagher.

"Absolute Reliability"

FOOD IS BEING CONSERVED AT EVERY ANGLE

SAVING STOCK FROM DESTRUCTION OF TRAINS IS URGED.

The food administration is overlooking no phase of the work of conserving food...

A phase of the work which has recently received a good deal of attention is that of keeping live stock off railroad right-of-ways...

The following bulletins and letters on the subject are worthy of the closest attention.

Katy Will Aid.

Dallas, Texas, Jan. 9, 1918.

To Officers and Employees.

The federal food administration has made the attached appeal in the interest of food conservation...

We have told the food administrator that we would give this appeal the widest possible publicity...

The movement would have our heartiest cooperation.

It is a patriotic duty and we should head our earnest efforts toward performing it.

Chief Operating Officer.

To Assist in Work.

Dallas, Texas, Jan. 9, 1918.

To The Public.

The federal food administrator for Texas has made the attached appeal and we have agreed to distribute it as widely as possible.

It is unnecessary to add anything to this appeal.

We beg to request that it be given the fullest consideration and publicity.

We welcome the opportunity to cooperate in this way to conserve our resources and each employe interested has been instructed to do so.

O. W. CAMPBELL, Assistant to Chief Operating Officer.

To Save Stock.

United States Food Administration, Houston, Texas, Jan. 9, 1918.

To The Public.

There is at present a great unnecessary economic waste due to the killing of stock on railroads.

All citizens, patrons and co-workers with the railroads should cooperate to prevent this great loss, which can largely, if not entirely be overcome by careful observance of the following:

1. Superintendents, division engineers, roadmasters and section foremen notify owners of stock found running at large to keep them in fenced enclosures.

2. Engineers take precaution to avoid striking of stock, and do not fail to report stock seen on right-of-way.

3. Section men drive stock off the right-of-way, assist in keeping farm gates closed, keep fences and cattle guards in good repair, give preference to locations where liability of stock setting on right-of-way is greatest.

4. Owners of stock should keep their animals in fenced enclosures and not permit them to roam at large on railroad right-of-ways.

5. Property owners, farmers and tenants should keep farm gates closed at private crossings over railroad tracks when using them.

6. Every person living along or near railroads, employee and non-employee alike should do their part in the saving of every animal where possible.

TENSE MOMENTS FOR THE ATHLETIC SOLDIER BOYS

A tour of the various cantonments of the country, where the new National Army is in training, has convinced the photographer that the men are as happy and contented with their new mode of living as any one could imagine.

THORNE ALLEGES THAT RAILROADS ARE WELL PAID

Washington, Jan. 22.—Clifford Thorne, former chairman of the Iowa state railroad commission, told the senate interstate commerce committee today that the administration railroad bill guarantees \$300,000,000 more to the railroads than Great Britain guaranteed to her railroads when she took control and at the same time offers no inducement for the railroads to be efficient to the public.

ARMY TRUCKS ARE NEEDED WHEN STREET CARS STOP

Owing to a break in the trolley wire on the lake end, street car traffic in Call Field was interrupted about 10 o'clock last night and the men in trucks were taken back to camp in army trucks sent in from the camp when the accident was learned.

DEPOSITS SHORT IN BANKS WITHIN DROUGHT TERRITORY

Austin, Jan. 22.—In a letter to State Comptroller Terrill, with reference to conditions in drought stricken West Texas, Clarence Ousley, assistant secretary of agriculture, expressed the belief that in a short time Texas banks in the affected territory will be embarrassed if they do not receive funds above their local deposits.

MODERN BATTLEFIELD SOMETHING LIKE DANTE'S DESCRIPTION OF HELL WHEN SEEN IN THE WINTER

London, Jan. 22.—A modern battlefield in winter is a realization of some of Dante's most impressive descriptions of frozen Hell. Our motor car took us first through a mile of purgatorial country, dotted with tree stumps and shell holes and scarred by old trenches, arrived at the foot of a long incline, and was stopped by a sentry.

Off For High Land. After putting on our steel helmets and slinging our gas masks into position for immediate use, we set out on foot on the rest of the road to Wytchaete, commonly known as Witchet.

Very well, said the Captain as we got out. We'll go and see the shells.

Thought of Air Raid. Instantly I felt that London air raids and was interested to find out what was etiquette at the front when the enemy came overhead.

There are batteries all around us, said the captain. They might try to drop a bomb or two on them but it is unlikely.

Shipyards Strike Formally Called Off By Men at Beaumont. By Associated Press, Beaumont, Texas, Jan. 22.—The shipyard strike in Beaumont has been called off and the men returned to work Tuesday afternoon. The decision to call off the strike was reached after a conference with Mediator Rogers who promised the men that if they would go back to work at the old scale of wages they would receive any advance the government might decide to make being paid the new scale from the time they returned to work. This action resulted in the resumption of work in the Piaggio and Tarver shipyards which had been closed down as a result of the strike. As a result of family difficulties in the negro section last night one negro man is pretty badly carved up and his wife is under arrest by county authorities. Sheriff George Hawthe has gone to San Antonio to take a prisoner, formally adjudged insane, to the asylum for confinement. An optical department has been added to the Art Jewelry Store with M. L. CLOPTON, well known optician in charge. A balcony will be built in the rear of the store, similar to that in which the offices of the store are lodged in the front of the building and the department installed there. Port Arthur, Texas, Jan. 22.—Sam Wilson, a negro, confessed today that he killed his wife with an axe Sunday because she tore up his registration card during a quarrel.

CAPT. ATKINSON INTERESTED IN RAT CAMPAIGN

Captain Atkinson in charge of the health department at Call Field is taking great interest in the campaign conducted by the Civic League for the extermination of mice, rats and cockroaches in Wichita Falls. # RAILROAD MEN ARE NOW LIKE ARMY IN FIELD

GOOD SERVICE TO RESPECTIVE LINES MEANS WORK FOR GOVERNMENT.

All railroad officers and employees have been placed upon the basis of government employees and have been called upon in a bulletin issued by Director of Railroads McAdoo for their loyal and unstinted services to the country; without which, he says, America cannot win the war against the difficulties now confronting her. The bulletin which follows has been distributed through the courtesy of the Fort Worth & Denver lines to all officers and employees.

To All Officers and Employees:

Your attention is directed to the following circular letter addressed to all railroad officers and employees by the director general of railroads:

Director General of Railroads, Interstate Commerce Commission Building, Washington, D. C. 8, 1918.

To All Railroad Officers and Employees:

The government of the United States having assumed possession and control of the railroads for the period of the present war with Germany, it becomes more than ever obligatory upon every officer and employee of the railroads to apply himself with unreserved energy and unquestioned loyalty to his work.

The supreme interests of the nation have compelled the drafting of a great army of our best young men and sending them to the bloody fields of France to fight for the lives and liberties of those who stay at home. The sacrifices we are exacting of these noble American boys call to us who stay at home with an irresistible appeal to support them with our most unselfish labor and effort in the work we must do at home. If our armies are to save America from the serious dangers that confront her. Upon the railroads rests a grave responsibility for the success of the war. The railroads cannot be efficiently operated without the whole-hearted and loyal support of every one in the service from the highest to the lowest.

I earnestly appeal to you to apply yourself with new devotion and energy to your work, to keep trains moving on schedule time and to meet the demands upon the transportation lines, so that our soldiers and sailors may want for nothing which will enable them to fight the enemy to a standstill.

and win a glorious victory for united America.

Every railroad officer and employee is now, in effect, in the service of the United States, and every officer and employee is just as important a factor in winning the war as the men in uniform who are fighting in the trenches.

I am giving careful consideration to the problems of railroad employees, and every effort will be made to deal with these problems justly and fairly and at the earliest possible moment.

There should be a new incentive to every one in railroad service while under government direction to acquit himself with honor and credit to himself and to the country.

W. G. McADOO, Director General of Railroads, D. B. Keeler, Vice President.

RUSSIAN ASSEMBLY NOT TO BE RECONVENED

Petrograd, Jan. 21.—(Monday)—Anti-Bolshevik members of the constituent assembly, it is reported today, consider that it is now impossible to attempt to reconvene the assembly in Petrograd at this time, and because of transportation difficulties it is inconvenient to go elsewhere. The probability of meeting later at Kiev is being discussed. Many members of the assembly left for their homes today.

The meeting of the all-Russian congress of councils of workers' and soldiers' delegates, called for today, has been postponed until Wednesday.

## Newton Says

PATIENCE AND COWARDICE

By Cardinal Gibbons.

As an evidence of the righteousness of America's cause in the war, I would point to the patience of the President and congress under the long series of grave injuries and broken pledges endured by the United States during the time that Germany was professing its friendship for us. We were shocked to see our property unjustly destroyed in vast quantities, but what was immeasurably more serious to read of our men, women, and children killed in violation of the universally accepted customs of the sea. When at length not only American citizens but neutrals everywhere suffered appallingly under the cruelties of a nation which hesitated not to disregard international law we learned that patience was being construed as cowardice, and that it was folly to hope that wiser counsels would prevail among our enemies to bring about a change in their lawless policy. Then we took the only course open to us, the defense of our sovereign rights as a nation and the upholding of the ideals of truth and justice in the hearts of all peoples. We have entered into the struggle with a clean conscience, seeking no territorial or financial gain, but the peace of the world, the liberty of its people, and the security of all nations.

Woodmen Expect to Have Big Time at Wednesday's Meeting

W. O. W. Camp 3001 are expecting to have a big time at their smoker Wednesday night, and quite a number have said they intend being present. The smoker is to be held at the hotel and refreshment committee is expected to hold its meeting at the usual high standard. Invitations are expected to be the feature of the evening, and the members are all urged to be present, and visiting members of the fraternity are invited. Applications are now coming in, and work from non-members is expected each meeting night.

## EDUCATIONAL RALLY HELD AT BAPTIST CHURCH

A very interesting and enthusiastic educational rally was held at the First Baptist church, in an all-day meeting Monday. Dr. S. P. Brooks, president of Baylor University, and Rev. J. C. McKinzie, student in the Baptist Seminary at Fort Worth and Dr. Scavron, who are touring this district in the interest of Christian education, were very interesting speakers both in the morning and afternoon and discussed at length the advantages of training and especially of Christian training, both in the home and in the schools. The Baptist churches of this district pledged \$3000 for the support of the school this year. The meeting was well attended, there being several out of town visitors. C. D. Willard will leave tomorrow for a visit with relatives in Waynoka, Edin and Guthrie. He will be gone a week or ten days.

**WE APPRECIATE THIS KIND** An extract from a letter under date of Jan. 14, 1918: "It sounds pretty but does little good to tell a fellow how natural he looks when he's dead, so allow me to tell you how much I appreciate the brand of coffee you are putting out. It touches the spot with every cup and takes away the sting of the thought of coming prohibition. It's as invigorating as the best imported liquor, as nourishing as the best egg-nog or Tom and Jerry.
