

MAYOR PROCLAIMS MONDAY IS THRIFT DAY IN THE CITY

ALL CLASSES ARE EXPECTED TO MAKE EFFORT TO SAVE.

BOOTH TO BE ARRANGED

Number of Stamps Are Expected to Be Sold All Over the City During Period.

Officially proclaimed Thrift Day by Mayor Britain who thus adds his plea for the War Savings Stamp campaign to that of state and national officials Monday will be generally observed as a day of saving, according to the plans worked out by the campaign committee. The Boy Scout were busy all day Saturday putting out posters and cards calling attention to the matter and posting up certificates of War Savings stamps agencies which had been established by the merchants committee.

The women's committee has arranged for booths in hotels and places of business on Monday if the weather is favorable and the sale of the stamps will be pushed by this committee. In the schools the Thrift essays written in competition for Mr. Kemp's prize and that offered by State Chairman Lipsitz will be read. The campaign committees will see to it that all men, women and children in Wichita Falls have the savings stamp brought to their attention and an effort will be made to sell at least one 25 cent stamp for every person living in this city on Monday give the campaign a start that can mean nothing but the most splendid success.

Proclamation of the Mayor. Next Monday, February 4th, 1918, has been designated as Self Denial Thrift Stamp day, and that this day may be fittingly observed by the citizenship of our city, whose lofty patriotism has been demonstrated on many occasions heretofore. I, A. H. Britain, Mayor of the city of Wichita Falls, do hereby issue this proclamation, calling upon all of our citizens—men, women and children—to wholeheartedly observe this day. Let everyone deny himself on that day of every luxury; let every one abstain from expending money that is not strictly necessary to be spent; let every one practice the most rigid economy; and let the sum saved from such self denial be spent for war saving stamps, each of us go further than this and take today's earnings, be it great or small, and purchase whatever amount of war saving stamps it will buy. In other words, let us practically lend such amount to our government to help win the war. No person can lose by a faithful observance of this day. He is assured of the return of his money with interest. He will have been personally benefitted by this small practice of self denial. He will have the approval of his own judgment and conscience that he has done his "little bit" for his country, and all these little "bits" combined will make a very substantial sum to be used in a righteous cause.

Witness my hand this 2nd day of February, A. D. 1918.

A. H. BRITAIN, Mayor.

Picture show men are indicted for opening Sundays. This is report which made rounds when grand jury adjourned. Twelve indictments for violations of the Sunday laws, which are understood to be against proprietors of Wichita Falls picture shows, were returned by the grand jury which adjourned late Saturday afternoon after being in session several days. Nine other indictments all of them felonies, were returned including forgery and arson charges. Those already under arrest are: Chester Roberts, two indictments on an arson; Mrs. O. F. Keith, one on forgery; and J. A. Miller for forgery.

Talley tenders resignation to cotton co. here. D. B. Talley, general manager for the Wichita Cotton Oil Co. has tendered his resignation to the directors of that company to take effect at the close of the present season. Mr. Talley is resigning to take another position which will necessitate his removal from Wichita Falls but which he is not at liberty at this time to divulge. Mr. Talley is a stockholder in the company and is a director and also holds the office of secretary. He came to Wichita Falls in 1907, and superintended the construction of the mill and has been manager from the beginning. The mill has been very successful under his management. Mr. Talley is known all over the state as a good roads enthusiast and it was largely through his pioneer efforts that several of the national highways were routed through Wichita Falls. There will be universal regret that he is to leave the city.

HEATLESS MONDAY URGED TO REMAIN IN FULL FORCE

By Associated Press. New York, Feb. 2.—State and municipal fuel authorities indicated today they opposed any move by the national fuel administrator to modify the plan providing for heatless Mondays in an effort to conserve coal consumption. The situation involving the arrival of less coal than is used continues here, it was stated, and any step which would result in a general increase in the use of fuel would endanger the operation of necessary industries.

Mexican Dynamited After Killing Four And Wounding One

By Associated Press. El Paso, Tex., Feb. 2.—After withstanding a siege of more than 100 city and military policemen, Felipe Alvarez, who late last night shot and dangerously wounded Mrs. Trinidad Lucero, her two small children and killed a policeman and civilian who sought to capture him, was dislodged from his refuge in an outdoor house in the densely populated Mexican quarter at three o'clock this morning by a charge of dynamite. Four charges of dynamite were exploded before the building was wrecked and Alvarez hurled high into the air. Examination of the body disclosed that he had received six bullet wounds from the police and soldiers in hundreds of shots with the fugitive. Alvarez' victims were: Killed, Juan Greta, deputy tax collector, Octaviano Perea, policeman, Francisco Lucero, aged 3, Alfredo Lucero, aged 2. Dangerously wounded: Mrs. Trinidad Lucero.

AMERICANS WARNED NOT TO BE LULLED BY GERMAN STRIKE

By Associated Press. New York, Feb. 2.—A warning to American workmen not to relax their efforts in shipbuilding and other trades because of the strike disturbances in Germany was issued here today by the United States employment service. "The unrest in Germany may be quelled any minute," the statement says, "and the war is not over yet by any means. The United States must build ships this year above everything else and men of skill should enroll now so as to be available for the service whenever the shipyards are ready for them." The workmen are urged meanwhile to retain their present jobs until notified they are not wanted for shipbuilding.

***** TWENTY-SEVEN RATS ARE FOUND DEAD AS RESULT OF CAMPAIGN ***** Twenty-seven dead rats were found by Dan Hardy, the whole-sale liquor dealer, in his warehouse yesterday. Mr. Hardy was so pleased at the quick results achieved by W. D. Hunsing, expert rat exterminator, that he called up the St. James hotel to tell him of his success. Nine rats were found in one pile. *****

For Sale—Acme Oil Lots on Sunshine Hill
We have listed with us by clients who are ready to dispose of their holdings, two or more lots in each of the twenty blocks. If in the market for drilling sites in this remarkable tract, let us know the number of lots desired and block preferred (first and second choice), and we will be pleased to submit prices by wire on receipt of your inquiry. "First come, first served." Address: INVESTORS SERVICE 618-623 Boston Block Minneapolis, Minnesota

SERVICE!

No word in the English language is more significant, and it may be said no other word counts for as much with American citizens.

It is Our Constant Aim

to render "SERVICE" to our customers and the public generally all the time. Our first service to them is to be sure that all drugs we buy to compound prescriptions with are fresh and pure. Our next service to them is to be sure that all drugs we buy to compound prescriptions with are fresh and pure. Then it behooves us to give the best service in filling prescriptions, and the next service is to get the completed prescription to the patient as quickly as possible. We do all these things and more, too.

CHIROPRACTIC!

HISTORICAL—In 1895 D. D. Palmer discovered the basic principle of Chiropractic. Its crude practice followed until 1903, at which time his son, B. J. Palmer, D. C. Ph. C., began to formulate the discovery into a science, art and philosophy, and has since developed it into a well defined non-therapeutic health system which accounts for, locates and adjusts the CAUSE of "disease." Six thousand Chiropractors are now scattered over the world and more than a million persons daily take Chiropractic adjustments.

CHIROPRACTIC is the only science, philosophy and art that has been thoroughly tested and proved that disease is caused by the interruption of mental impulses as they pass through the nerves at the intervertebral foramina wherever the vertebrae, spinal bones, are not in perfect alignment with each other. Pain and disease are warnings of spinal subluxations or irregularities. Throw off an electric switch and you throw off the electric current—subluxate a spinal bone and you pinch the nerve and shut off the life current which passes from the brain through the spinal column to the parts affected.

MODERN RESEARCH has discovered the importance of the spinal column as a health factor. Conscientious study by intelligent men through two decades has served to confirm the theory that, as a CAUSATIVE FACTOR in the relation to health and disease, the spine controls the supply of health energy passing from the brain to individual tissue cells in every part of the body.

CLINICAL PROOF in large volume exists to confirm the logic of the theory. The Science of Chiropractic has finally reached a stage of progress in development and practice where it is being investigated, studied and adopted for exclusive practice by influential members of other health modes.

CHIROPRACTIC SCIENCE OVERCOMES PREJUDICE DAILY—

Chiropractic is no longer a theory; it is a recognized fact; its followers are increased by the hundreds throughout the country daily. When someone is rescued from an untimely grave, or someone afflicted with a chronic disease that has made life a misery to him or her for years and every treatment known to the old profession has been tried and hopelessly abandoned, and by scientific adjustments is restored to health by nature, is it any wonder that the enthusiasm of such a patient knows no such limits.

WHY WAIT?—The usual plan is to try Chiropractic adjustments after everything else has failed. Would it not save a lot of unnecessary expense and suffering if you tried Chiropractic adjustments first? Put off no longer the opportunity which thousands of others have found and tested by their experience—their return to health—Chiropractic is your hope.

"Let the medical doctor cure their patients and these other doctors will not be patronized."—Alfred Walton, M. D., Philadelphia.

"The Chiropractic theory of the cause of disease appeals to the educated judgment of the people as no theory of medicine ever can."—Dr. Frederick Terry.

"Chiropractic is a scientific mode of adjusting the real cause of disease."—U. A. Lyle, M. D., Los Angeles, Ind.

"Chiropractic is a rational method of combating disease and should be legally recognized."—Alfred Walton, M. D., Philadelphia.

"The drugless healer is steadily growing in influence. Medicine is facing an ever-increasing wave of discredit. The public knows the unstable side of medicine."—D. D. Tait, M. D., San Francisco.

"Drugless healing, operating within the realm of common sense, is therefore understood and accepted by thirty million of our people."—Dr. Frederick Terry.

"In accepting the theory of Chiropractic, I feel that I am really on the way to solve the health problem."—W. E. Bayman, M. D., Youngstown, O.

"The spine has more to do than any other factor with the maintenance of health on the one hand, or the establishment of disease on the other."—Alfred Walton, M. D., Philadelphia, Pa.

"The cause of physical disorders is Vertebral Subluxations."

This cause can be corrected by spinal adjustments given by the trained hands of the educated Chiropractor.—G. H. Patchen, M. D., New York.

We do not use drugs, osteopathy, massage, electric vibrators or adjuncts of any kind—just Chiropractic

GREAT CRUELTY TO CAPTIVES IS CHARGED TO HUNS

ITALIANS SAY MEN ARE FED THROUGH BARS LIKE ANIMALS.

WOULD DESTROY SERBS

None Given Army Care and Neither Doctors Nor Sanitation Are Considered.

Italian Army Headquarters, Feb. 2.—Exchanged Italian prisoners who have just arrived from Austrian concentration camps tell of almost unbelievable cruelties practiced against prisoners, particularly Serbians who are confined in cages and fed through bars like animals. An authoritative summary of the statements of these returned prisoners say:

"Treatment of Serbians is even worse than that of Italians, indicating that Austria intends to destroy the Serbians as a race. As a result of these conditions there are now less than 30,000 to 40,000 dead from starvation. They are permitted to receive no parcels and are unable to work because of weakness. They are put like animals in cages with wooden bars. Through these bars the keepers throw them scraps of unclean bread, and scraps of turnips. The mortality, already great, is increasing, as they are given no care and there are no doctors and no sanitation."

Returned in Rags. Concerning Italians the statement says they returned in rags after suffering ill-treatment and conditions are so terrible that they will result in not more than one third of the Italian prisoners coming back alive.

Zinc Prices Agreed Upon by Government and the Producers

By Associated Press. Washington, Feb. 2.—Zinc prices have been agreed upon by representatives of the government and of the producers and will be announced soon. In requesting that the government name prices as has been done with copper and steel the zinc producers said such action would stabilize the market and increase the output.

Ambassador Frances May Draw Fifteen Dollars Every Week

By Associated Press. Washington, Feb. 2.—Ambassador Frances and members of his staff in Petrograd are assured of 150 rubles per week, according to information which has reached the state department. The ruble is now valued at approximately ten cents. The ambassador reported to the state department at the time the banks were closed in Petrograd that difficulty he was having in drawing money that had been placed to his credit and that he was attempting to establish a credit at Vladivostok. No report of any new order by the Bolsheviks closing credits to Ambassador Frances at the local banks has been reported.

KEMP UNWILLING TO MAKE "RACE" FOR MAYORALTY

(Continued from Page 1.)

Wichita Falls for Mr. Kemp and expressed the belief that Wichita Falls needed a man of Mr. Kemp's great ability and wide reputation at its head.

"We realize we are asking a sacrifice on your part and while we know you could be overwhelmingly elected over any opposition in the contest for this office, we do not insist that you enter such a contest, but only that you say to us that you will accept this call, provided all present announced candidates withdraw in your favor and that it is done without delay. We deem it unnecessary to recite conditions known to us all, but merely call attention to the fact that this announcement on your part will immediately clarify a muddled situation and be of untold value to the splendid little city we have so far befriended and love so well. We find among our people a kindly feeling and deep seated affection for you personally as a broad-minded and unselfish citizen and our chief city builder, and whatever be the result of this movement you should preserve and prize these petitions as spontaneous expressions of the esteem in which you are held by this community."

Those in Delegation. Included in the delegation which called on Mr. Kemp were M. W. Stanforth, E. Leopold, J. S. Brdwell, J. A. Richolt, W. Lee Moore, T. B. Noble, J. D. Anderson, Louis Nussbaum, P. A. Marshall, E. A. Cox, M. J. Gardner, R. L. Hargrave, Mike Benson, W. S. Currie and N. Henderson.

Following the presentation of the petition to Mr. Kemp, subcommittee called on E. G. Hill and J. B. Marlow who had announced their candidacies, last week, to ascertain whether they desired to continue in the race, if Mr. Kemp could be induced to run.

Mr. Hill expressed his willingness to withdraw if Mr. Kemp would accept the nomination. "I feel that I ought to withdraw, if a man of Mr. Kemp's reputation, ability and experience can be induced to serve," said Mr. Hill. He said, however, that he would not withdraw unless Mr. Kemp would become a candidate.

Mr. Marlow said that no man in Wichita Falls had greater admiration than he had for J. A. Kemp. He said that as a citizen, he would be unwilling to ask Mr. Kemp to make the sacrifice to serve the city as mayor for he knew what the mayorship would mean for a man in Mr. Kemp's position.

"I believe Mr. Kemp would be forced to accept the nomination against his own desires and his own judgment," said Mr. Marlow, quoting from an open letter he had addressed to Mr. Henderson. "I have gone so far that I could not in justice to my friends withdraw now," he continued and added that he felt Mr. Kemp's best friends did not want to see him forced to accept the mayorship.

HARRIS COUNTY POLL TAXES NUMBER 24,491

By Associated Press. Houston, Tex., Feb. 2.—Harris County poll tax receipts are 24,491, of which 2,221 poll tax and 2,270 exemptions. This is about the same as last year.

MISS OLIVER WILL DEMONSTRATE USE OF WHEAT "SUBS"

MISS STONE OF COLLEGE STATION, ALSO PAYS WICHITA FALLS VISIT.

CIVIC LEAGUE TO MEET

All Women's Organizations Are Expected to Attend Conservation Campaign.

Community demonstrations on the use of wheat substitute receipts will be held in various parts of the city and county in the near future, according to the plans of Miss Sadie Oliver, who has recently taken the place of Miss Opal Hughes, as home demonstrator. Miss Oliver plans to work through the various women's organizations of the city, including the Civic League. Schools and churches are also asked to participate in the work.

A meeting of the Civic League will be held on Tuesday next, at which representatives of all the women's organizations have been asked to be present, when the plans are expected to take concrete shape. A general chairman of the work will be appointed, with various chairwomen whose duties will be to undertake to stage the demonstrations, in various parts of the city.

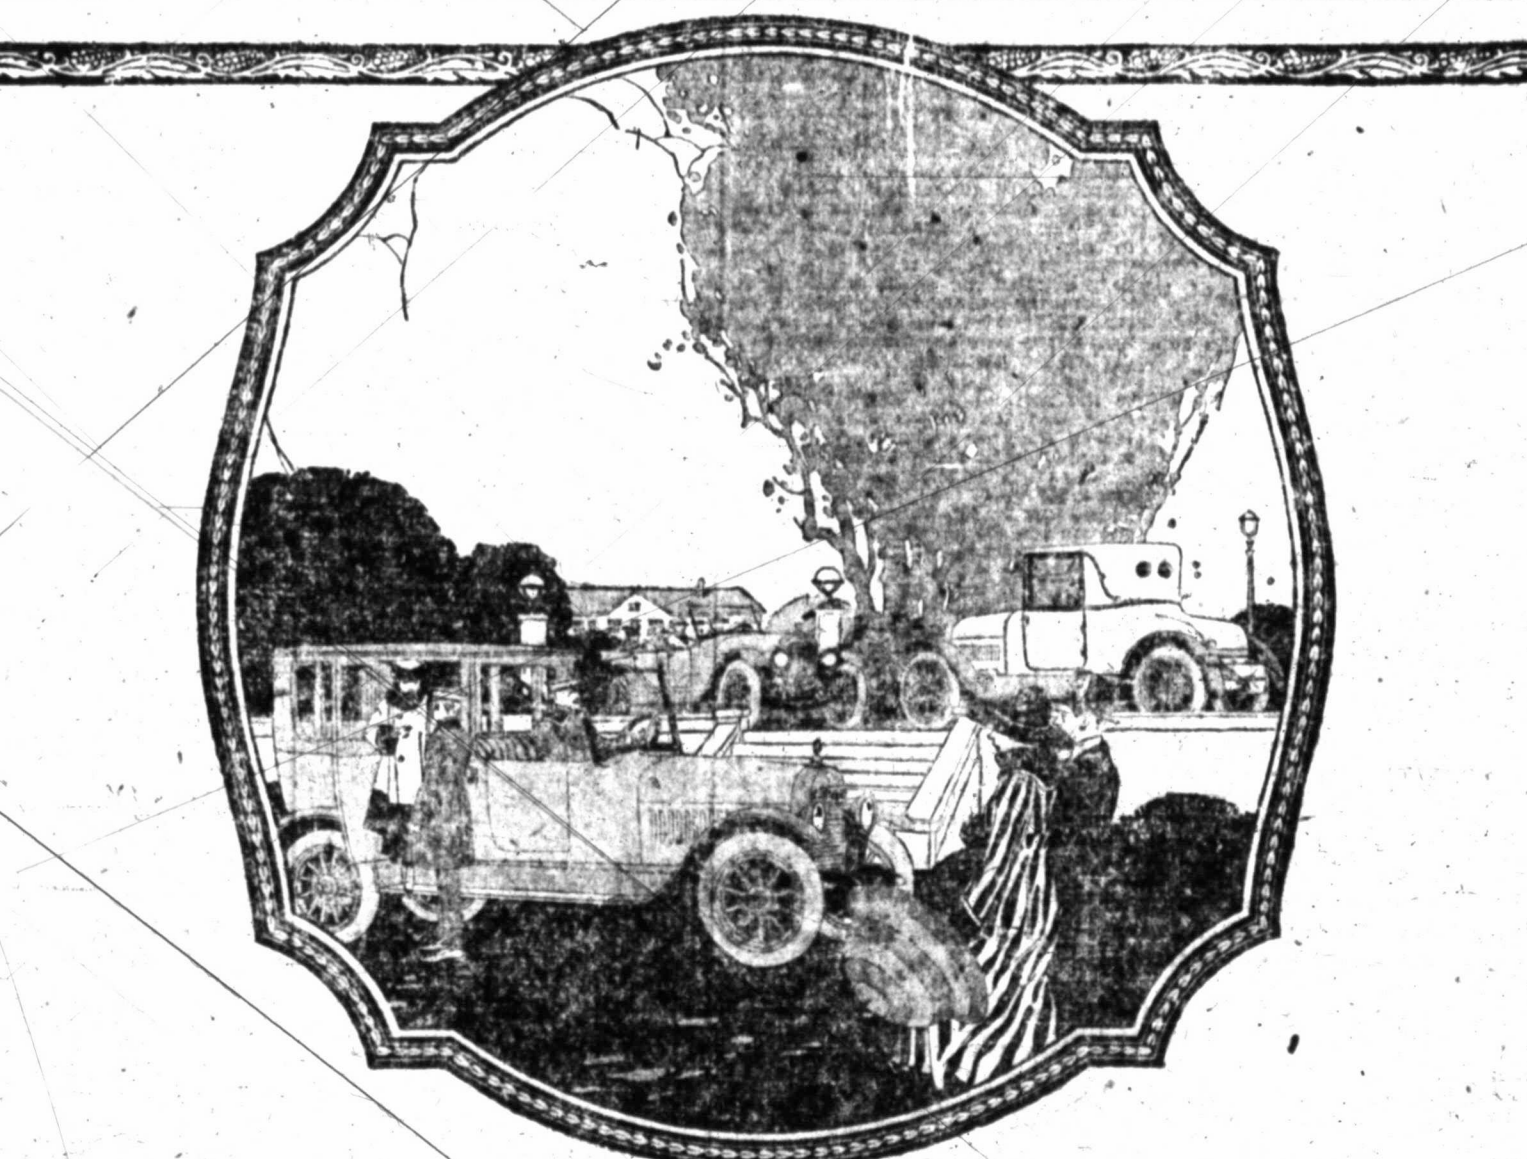

City Far Behind.

Miss Mary Jessie Stone, of College Station, district home demonstration agent for North and West Texas, who was here Friday and Saturday organizing the work, said that Wichita Falls was far behind many other cities of its size in the work of food conservation. There had been a great deal of general talk, she said, and some detailed talk, but absolutely no work of any kind. These demonstrations, of course, she pointed out, are merely the actual carrying out of the work of the food conservation campaign, and that without this work, the campaign was of no avail. Miss Stone was of opinion that Wichita Falls believed its work was done with the signing of the pledge cards, whereas the pledge cards meant nothing whatever unless followed up by actual food conservation.

The purpose of these demonstrations is to teach the people how to use the substitutes, and to show them generally what lines to follow that will make for the best conservation of food.

Work in Dallas. In Dallas, Miss Stone said, this work has all been done for at least three months, and there is now a result, no white bread to be seen in the restaurants. In many other cities in the state, she said, the same condition prevails, and if Wichita Falls wants to do any actual conservation, now is the time to begin it.

Miss Oliver is a graduate of the C. I. A. at Denton, and grew up on a farm close to Belton. So that both from her home training and her special work in school, she is well qualified to undertake this work. Miss Oliver has extensive and comprehensive plans made for the work of war gardens, poultry clubs, canning clubs, bread clubs, and so forth, both in the city and over the county. As soon as her work in the city is organized, she intends to make a trip over the whole county, and lay plans for her complete program.

50,000 Hudson Super-Sixes

Each one a Guarantee of this New Series

No one really in touch with motor car values now asks concerning the detail specifications of the Hudson Super-Six. In the sale of more than 20,000 cars last year, few buyers wanted such particulars. Thousands did not even care to see under the hood. They offered an explanation of their seeming disinterestedness that they were not themselves competent judges of such matters and that they chose the Super-Six because of what they knew it had done in serving persons they knew.

They said they had read with interest and perhaps some skepticism the statements made about the car when it was first announced. They were not sure that the Super-Six motor gave greater power than other motors of equal size and that they did not understand the Hudson patented principle which minimized vibration and assured longer motor and car life. They explained that they were conservative buyers, not given to buying new things. But they had followed the

performance record of the Super-Six, they had talked with any number of Hudson Super-Six owners and they in that manner had come to feel its reliability. It was that which had persuaded them to choose the Super-Six and so why should they show any more interest in such details than one would display in buying a watch? No one asks concerning the construction of the main spring. What they want to know is whether the movement is a reliable timekeeper.

So much assurance concerning the Super-Six is at hand wherever one inquires that we refer prospective buyers to what the public has to say about it.

But there is a particular about the Hudson line that everyone must want to know. A trained mind is not needed to appreciate the beauty and completeness of the ten different body models in which it is now to be had. Examine the new Hudsons from the side of their charm of line and the completeness of their appointments, and rely upon what all motordom says for the Hudson as your guide.

CASUALTY LIST FROM PERSHING; TWO ARE KILLED

NUMBER ARE WOUNDED AND SOME DIE OF NATURAL CAUSES.

By Associated Press. Washington, Feb. 2.—Two American soldiers were killed in action and four others wounded January 30, the war department was advised today by General Pershing.

The Dead. Corporal Edwin March, Infantry, Clayton, Minn., and Private George A. Raush, Infantry, 713 Fourth Ave., New York City.

The Wounded. Private John Theron Parks, Infantry, Obien, Tenn.; Raymond J. Gilbert, Infantry, Minot, N. D.; Clarence Ing, Infantry, 2847 Ambia Annex, Toledo, Ohio, and Clarence A. Larson, Infantry, Tunbridge, N. D. General Pershing also reported

that Private Herbert C. Minnear, medical detachment of infantry was slightly wounded in action January 28 and Harvey Dilley, infantry, slightly wounded January 31. Minnear's home is in Bluffton, Ind., and Dilley's in Cole Harbor, N. D.

General Pershing reported that Private James Kohr, infantry of Chicago committed suicide Jan. 29. Private John Thomas, infantry, Reading, Pa., and Peter Trogan Philadelphia have died from gunshot wounds accidentally inflicted. Died Natural Causes. These deaths from natural causes also were reported: Private Alfred West, infantry, pneumonia, Barron, Wis. Corporal Elmer H. Van Fleet, signal battalion, scarlet fever, Cincinnati.

Market Report

SHARP ADVANCE IN COTTON IS DAY'S FEATURE

New York, Feb. 2.—More optimistic views of domestic mill consumption and diminishing apprehensions of price fixing were responsible for a sharp advance in the cotton market this morning. After the first rush of buying orders had been supplied, however, trading became less active and part of the improvement was lost with the close barely steady at a net gain of 26 to 35 points.

Prospects for next Monday would be the last of the heaviest holidays, reports that Director General McCord had ordered railroads to accept cotton shipments from the interior to southern points for reshipment to New England and New York and Washington advices indicating that there might be a cotton price fix price for cotton but conferences of men determined to protect the staple. were the news features on the early advance.

Galveston Spot Cotton. Galveston, Texas, Feb. 2.—Middling 30.80; receipts 3,937; sales 413; stock 279,022.

Federal Reserve Statement. Washington, Feb. 2.—Nine million dollars in gold was "lost by telegraph" this week by the federal reserve banks, according to tonight's financial statement. The apparent decrease of that amount in gold reserves was due mainly to delay in transmission of telegrams from one bank to another.

New York Stocks. New York, Feb. 2.—Representative stocks were not especially responsive today to the prospects of a suspension of hostilities after next week, but various other issues, especially shippings, oils, motors, leathers and papers advanced to almost the same extent.

Chicago Produce. Chicago, Feb. 2.—Butter firm; creamery 43 1/2 @ 44 1/2. Eggs lower; receipts 1,518 cases; firsts 61; ordinary firsts 58 @ 59; at mark cases included 54 @ 55; refrigerator firsts not quoted.

Fort Worth Livestock. Fort Worth, Feb. 2.—CATTLE: Receipts 2,900; market steady. Beeves \$7.50 @ 11.50; stockers \$6.50 @ 9.50; heifers \$6.00 @ 7.50; cows \$7.50 @ 8.25; bulls \$6.00 @ 8.00; calves \$6.50 @ 11.50.

Kansas City Livestock. Kansas City, Feb. 2.—HOGS: Receipts 5,000 steady to five lower; at mark \$15.90 @ 16.15 heavy; \$16.00 @ 16.20; light \$15.90 @ 16.15; pigs \$10.50 @ 12.50.

CATTLE: Receipts 2,500; steady. Prime \$12.25 @ 12.75; dressed best steers \$10.50 @ 12.50; southern steers \$7.00 @ 10.00; cows \$7.00 @ 10.75; heifers \$7.25 @ 11.25; stockers \$7.00 @ 7.75; calves \$7.00 @ 14.00.

CORN MARKET IS STRENGTHENED BY PEACE OUTLOOK. Chicago, Feb. 2.—Lessening of bearish confidence regarding the outlook for peace did not deal today to strengthen the corn market.

Profit taking shorts was mainly responsible for the advance of oats. The incentive for action on the part of shorts was an unusual scarcity of offerings.

Wichita Falls hostesses are asked to forego the serving of refreshments to dispense with the dairy salads, sandwiches and delectable dishes which have graced their tables at the close of a card game or a musical evening.

The condition of J. C. Rhine who was injured in an automobile accident Friday afternoon, is reported unchanged. His physician says he will recover.

Amsterdam, Jan. 18.—The almost complete lack of nourishment in many of the food "substitutes" now being sold in Germany is arousing a storm of warning from German scientists, who declare that government supervision of the whole substitute food traffic is an immediate necessity.

The "Fourth Meal" has the favor of turnouts and backsliders and is no longer good form. The Federal Food longer good form. The federal food administration of Texas frowned on afternoon luncheons where delectables are served to delectables.

An investigation made into the habits of female card players and Texas tea drinkers, shows that they consume an ungodly amount of sugared drinks and fine breads and pastries, the rich creams and fattening coconuts and other fine draughts. It brings must be played and sociability MUST be indulged in, then to eat of an apple or some other wholesome thing—even a cold potato with salt.

The mortal sin among the Fourth Mealers is the afternoon social affair; while the venial sin, or forgivable sin, is performed daily by "flapping the pants" so as to fit into breeches, fast dinner and supper—never mind about high. Just let the fourth meal alone. If your appetite

Woman's Clothing Is Ignited From Gas Fire; She May Die. Sherman, Tex., Feb. 2.—Mrs. F. H. Elmore, 63, is not expected to live as a result of her clothing catching on fire late last night while she was standing in front of a gas stove in her home here.

Fate of Hudsons, of Crowell, Texas, has returned to his home after receiving treatment for his eyes at a local hospital.

Hostesses asked to stop "Fourth" meal practice. Wichita Falls hostesses are asked to forego the serving of refreshments to dispense with the dairy salads, sandwiches and delectable dishes which have graced their tables at the close of a card game or a musical evening.

Soap and Hot Water Make the A-B Broiler CLEAN After the STEAK COMES OUT

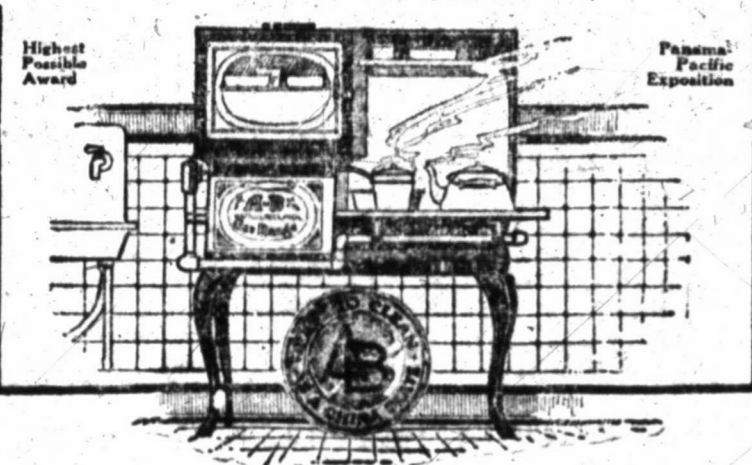

The trays are porcelain enamel, easily cleaned. Soap and hot water will rust and corrode naked steel, but they clean the A-B enamel broiler like they clean a china plate.

The linings are aluminum metal. Moisture and grease can't get in their deadly mischievous work.

Heat from the A-B burners hits the steak or chops just right to broil evenly and thoroughly with least use of gas.

Remember—"easy to clean as a china plate" applies to the whole A-B Range—white enamel and black—all over. Come in and let us show an A-B Gas Range in action.

Mobilizing Patriotism for Service in the Second Line Trenches

Schoolboys in Camp—Helping the Farmer

Clearing House of Patriotic Societies—Helping the Individual Do His Bit—Combating Unpatriotic Action.

THE COUNTRY has grown rich in patriotic organizations since the war started in Europe. Many of them have accomplished concrete work of untold value. As a natural result of many organizations, with the same purpose and end in view, there has been much duplication of effort, overlapping of work and consequent waste for lack of cooperation, coordination and mutual understanding.

The idea came to a number of men prominent in national affairs that a bureau or committee should exist which would serve as a clearing house of patriotic organizations. The result of due consideration was that such a clearing house was established in Washington under the name of National Committee of Patriotic Societies, composed of representatives of forty-four important national patriotic societies which are in connection with and support the central organization. The honorary chairman of the committee is Lieutenant General E. B. M. Young, U. S. A., retired; chairman, George Wharton Pepper, of Philadelphia; executive secretary, William Mather Lewis.

National Committee a Clearing House.

The purpose of the National Committee of Patriotic Societies is to assist in the coordination of the work of national patriotic societies and patriotic services carried on by various organizations in the United States. To accomplish this end the National Committee acts as a clearing house between the various societies and the

Governmental departments, furnished individuals, schools and other institutions with literature on war activities; supplies accurate information concerning war relief, enlistment in Army and Navy, reserve officers' training camps, etc.; combats seditious propaganda throughout the United States and promotes agitation for universal service. The committee is conducted with the purpose of service to the Government, and to all patriotic societies and their constituent members.

Then there is a more purely individual side to the work. A loyal American woman out on a ranch in Montana, so far from societies national or local as she is from transportation facilities, feels the stir of patriotism, and desires to place at the disposal of the nation her three or four spare hours each day. Or it may be a school teacher grown gray with hard service in the public institutions in North Dakota, but with a savings fund sufficient for the needs of a modest future. She would give her services as secretary for a war relief society could she but get in touch with the right organization. Again, it may be a hale and hearty veteran of the Civil War, who, residing in a remote section of the country, feels the blast of the bugle and would lend his strength to the cause could he be put in touch with the proper agency.

How To Serve.

"How can we best serve our native land in its hour of need?" is the query of thousands of loyal and willing sub-

jects of the Stars and Stripes. It is to serve these societies and these individuals that the National Committee of Patriotic Societies exists.

"It was a member of the Advisory Commission of the Council of National Defense, a master of efficient organization, who emphasized the idea voiced by certain preparedness leaders that the scores of patriotic and defense societies throughout the country could be of vastly greater national service than ever before, if through some central organization their efforts could be unified and the duplication of work eliminated," said Mr. Lewis in a talk about the organization of which he is secretary.

"And so there came about this organization which is acting as a clearing house between the individual and the societies. It is not attempting for a moment to usurp any of the functions nor to submerge the individuality of the constituent members, but to serve them all to the great end of conservation of labor and its resultant efficiency. Our Washington office stands ready at all times to advise anyone where his or her particular type of usefulness can best be taken advantage of.

Helping The States.

"Beyond these efforts to coordinate the societies, there has been a State situation where the commonwealth, each eager to mobilize their industrial and man power, began preparation for censuses without consulting each other or the Federal departments most concerned. Our committee at once communicated with all the governors urging deliberation on the matter and sending them pending State laws and other information.

"A third method by which we have been able to be of service since the declaration of war has been in the

America First

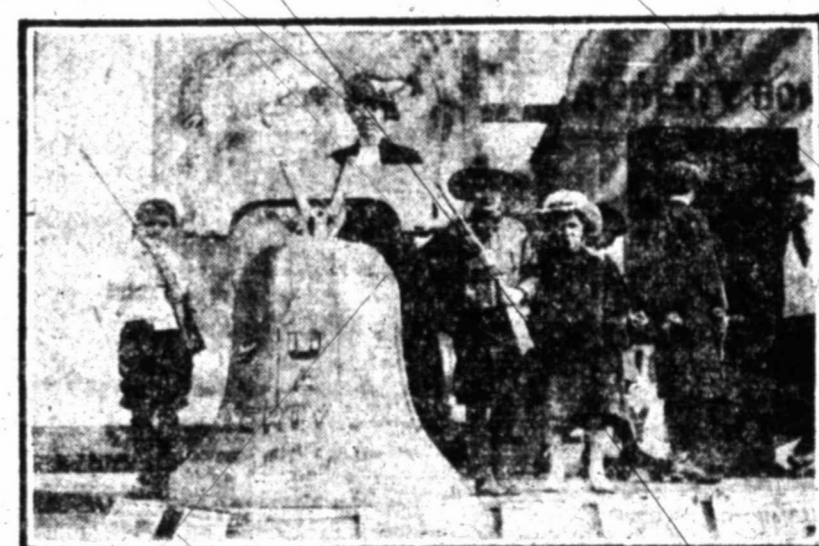

Mary's Patriotic Service would be fulfilled but for the Loyalty of the Boy Scouts

viding a channel of usefulness for the millions of men beyond military age, and for women who have wished to do their bit. If those desiring to serve beset the various branches of the Government with promiscuous offers of volunteer work and in ways which do not conform to the Government's plans, they are likely to prove more troublesome than useful.

Public Service Reserve.

"Civilian efforts to help the Government must be organized and coordinated, and personal desire for service must be subjected to the needs of the whole. To meet this situation the National Committee of Patriotic Societies adopted a plan for a National Service Reserve for military and industrial service to solve this problem which is now in operation and is known as the United States Public Service Reserve.

"From all sections of the country have come thousands of letters asking that the writers be enrolled for service. These communications have been a revelation of human nature. Mothers have written stating that the son who is the only support of the family is at the service of his country the moment he is needed, and that the women of the home will gladly take up the burden of livelihood when he goes. Stenographers and clerks have written that they have saved a little

Washington Children Buying and Selling Liberty Bonds

Those of us who cannot give our services to the Army should do their part by seeing to it that our soldiers are not subjected to the backfire of seditious statements made by individuals in this country. We have almost as dangerous an enemy to combat at home as we have across the seas.

The time has come when every man must go on record as a true patriot. Every citizen must be particularly watchful for the insidious influence which finds its outlet through private conversations.

Children Do Their Bit.

A valuable piece of work among the children, recently undertaken by the Committee, has been in interesting school children and stimulating them to activity in connection with the Liberty Loan essay contest. Over three thousand high school students sent in essays of varying degrees of excellence. The ten essays selected from the collection as the best revealed mature understanding of the subject, and in thought and expression were worthy the minds of trained men and women.

Here is an extract from one of these school child essays which goes to prove that the war is making statesmen of children:

"So the United States in spite of efforts to avoid participation, in spite of forbearance almost to the point of cowardice, in spite of prayers for continued peace, was compelled to take up the sword in defense of its life and liberty as a free nation of the earth. All of this means money. Now, how is this money to be raised? Three ways present themselves: High taxes on the present generation; bond issues to pass the burden on to succeeding generations; or a combination of the two. This last was decided as the best and so we have the so-called Liberty Bonds, the second issue of which is now offered."

Every day the mail brings letters to the desk of the Secretary of the National Committee of Patriotic Societies, from pastors, Sunday School superintendents and other religious leaders, inquiring how the churches can be of real service in this hour of the Nation's need. Also hundreds of letters pour in daily from every part of the country from individuals eager and anxious to do their part.

"Nothing in the present situation is more heartening than the enthusiasm of the people for the cause in which we are now enlisted," said Mr. Lewis. "Men and women everywhere are laying aside matters of personal interest to take up national burdens."

IT WAS NOT ANCHOVY.

HERE were tiny little biscuits sandwiches on the tea-table at which the guests partook delightedly.

"Oh the delicious anchovy paste," said one woman as she ate her fifth biscuit.

"Anchovy," echoed the hostess, over-hearing. "Anchovy! Why they tell me there isn't a particle of it in the States. It all comes from one of those beastly countries which spends its

time killing the people of other countries and they have ceased to export it. The filling of that sandwich is simply our own smoked herring which my cook grinds up, mixes with a little butter and spreads on, and to my mind it is better than anchovy."

"It is indeed," cried the guests as one man.

So here is a tip for the perplexed housekeeper.

CITY'S SUPPLY OF WATER SEEMS SETTLED AT LAST

GRAVEL BED 2,000 FEET BROAD AND 300 FEET LONG IS FOUND

QUANTITY IS SOUGHT

Excellent Quality is Believed to Have Been Located and Official Announcements Expected Soon

The locating of a gravel bed, two thousand feet broad, varying in depth from a few inches to six feet and producing an excellent quality of water, suitable for drinking and other household purposes, promises to be the most effective solution of the Water Company's troubles which has yet been made. Yesterday afternoon, and been discovered. Tests for quantity the results will be known within a few days, according to the report of F. N. Lawton, manager of the Water Company, who stated that eight wells had been sunk in the bed.

Near Downing's Nursery

The gravel bed is located close to Downing's nursery, and in the vicinity of the Kohnka well. It is also close to the intake canal leading from the lake to the pumping station, so that, should the quantity test prove favorable, and this become the main source of supply it will be merely necessary to pump the water from the wells into the canal, whence it will flow by gravity to the pumping station.

The well tested yesterday is hand dug by Mr. Downing on his place. It is eighteen feet deep, four feet of which are in the gravel. A special pump was used, to which was attached a twenty-five horse power motor, the power being laid on over a distance of half a mile, for the especial purpose of making this test; the result of which should be known by Tuesday or Wednesday.

Question of Quality

Mr. Lawton says that the question of quantity is the most vital of all in the water supply of a city, owing to the needs of sanitation and protection. It is even more important, he says, than that of quality; because, if the quality is not good it may be made at least safe by boiling. Whereas, in the matter of sewerage connections and fire protections—both vital to the health and safety of the city, quality does not matter, but quantity matters everything.

Reviewing the water situation generally, Mr. Lawton said: "since it became clear that the supply in the lake would have to be supplemented in some manner, we have sunk between seventy five and one hundred wells, in many parts of the city. I think I may say that we have covered the whole territory, both in the city and in the immediate vicinity, and have put down wells, wherever there seemed any chances of getting water. In every case we have found some—in no case have we found enough. And as quantity is the first necessity, as I have said, we really got nothing out of our wells that could at all be construed as a settlement of the difficulty.

"We discovered that we should have to find a gravel bed, if we were to get the quantity. Sand packs too tightly, and we cannot get enough from gravel. We found a gravel bed east of the brick yards; but it was only a small one, and it was situated at least a mile east of our mains. We located another north of the city, which we have been investigating, and which we think will be useful.

"But by far the most favorable bed is the one near Mr. Downing's nursery. This is an immense bed, the extent of which we have tested on the north, east, and south, and is two thousand feet long, and three thousand feet broad, varying in depth from a few inches to six feet. We have put down eight wells in various parts

Bible Prophecies Are to be Applied To World Happenings

In the light of his study of prophecy and revelation in relation to present events, Daniel Toole will deliver a lecture at the Wichita Theatre Sunday afternoon, saying what constitutes "Babylon the Great" and telling how it will shortly be overthrown. Mr. Toole is of the belief that prophecy speaks of the fall of Babylon at the end of the age, and emphasizes the importance of every thoughtful man and woman's hearing his message in explanation of the events of this awful and mysterious age.

Mr. Toole has been delivering a series of lectures in the important cities of the United States and Canada and is reported to be a speaker of unusual ability.

The lecture is free of charge and no collection will be taken.

CALL FIELD CAMOUFLAGE

Finds Call Field Is Cleanest Camp He Had Ever Seen

Efficiency Declared to Reign Supreme in Its Management, Says Judge Carrigan at Aviation Camp

"In cleanliness and efficiency I have found Call Field to be above any camp I have ever seen and I found the private soldier at Call Field better provided for in every way than I had expected possible, notwithstanding it is a new camp," said Judge A. H. Carrigan Saturday, commenting on his recent visit to the local camp.

Judge Carrigan's Irish was immediately up at the thought that the men and boys who were offering their lives to their country might not be properly cared for and provided with comfortable clothing. But instead of discussing the rumor with anyone who might happen along and never taking the trouble to investigate as to the truth Judge Carrigan immediately went to the source.

to make. All were comfortable and very well pleased with conditions and the provisions made for their comfort. And they were talking to me privately, not before officers.

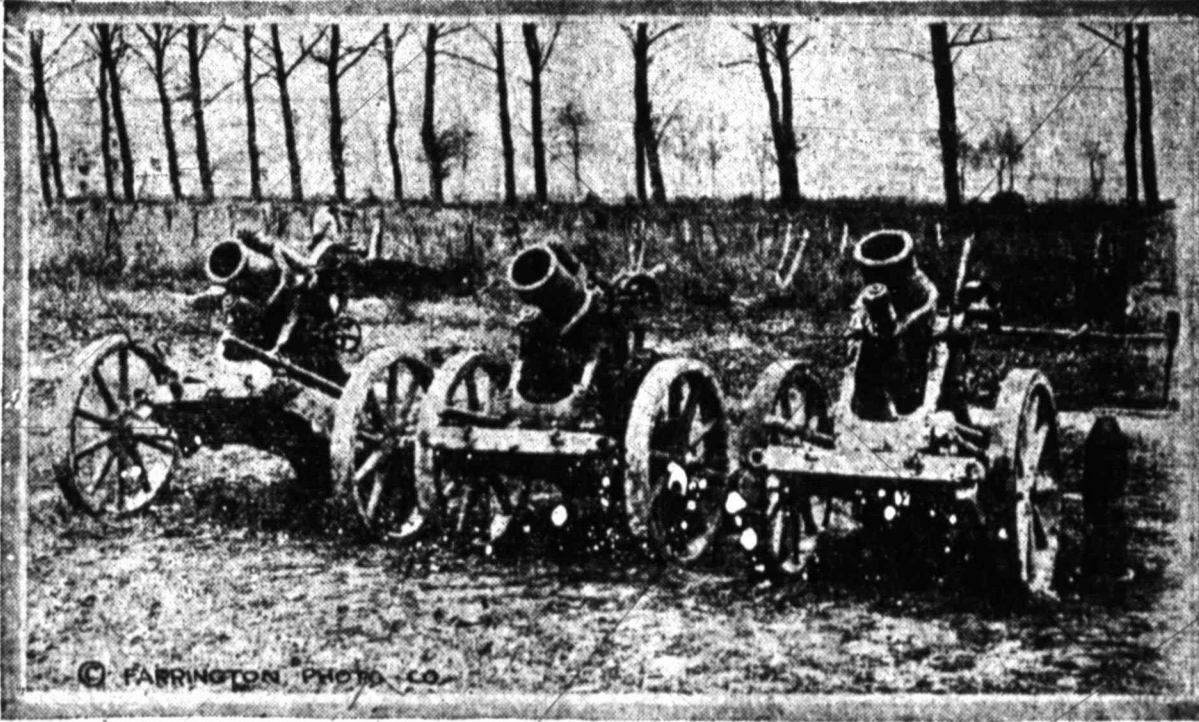

"I have inspected Camp Bowie and the camps at San Antonio and I find the local camp above all I have seen in cleanliness and efficiency I went to the camp expecting to find it rusty with West Point red tape and I found no evidences of it. I am much delighted with conditions as I found them and believe that no higher type of men could be gathered together anywhere than the officers and enlisted men at Call Field."

All Well Clothed "I found them all very well clothed indeed. While there were a few who did not wear woolen uniforms, all had woolen shirts, heavy, warm underwear, woolen socks, very good shoes and all wore handsome overcoats. They were as warmly clad as could be humanly possible. None of the boys I talked with had any complaint

AMERICAN SECTOR EXTREMELY MUDDY; MEN SEEM HAPPY SO MUCH WATER IN TRENCHES AND DUGOUTS, FEW VATS ARE THERE PUMPS KEPT WORKING

One German Airplane is Seen to Fall When It Attempts Flight Over Lines of Western Troops. With the American Army in France, Feb. 1. (Delayed)—American troops in trenches on the French front at one place are only sixty feet from the German line. In another place a mile of ground separates the opposing positions. At this point however, there are a number of ponds and neither side apparently desires to occupy the water covered ground. The American trenches are all in more or less marshy ground making the use of "duck-boards" necessary at all times except when the trench water and mud are frozen. The trenches were shallow when the American moved in but since then they have been deepened and improved. In every dugout the soldiers work almost constantly at the pumps keeping out the water which seeps in. But the water conditions are unfavorable for trench rats and few of them are seen.

THE FRUITS OF FRENCH VALOR AT GERMAN COST

One of the war photographs which the German people at home are never allowed to see. It reveals the fruits of French valor at German cost.

STUNT NITE PROVES HUGE DELIGHT TO TREMENDOUS CROWD AT Y. M. C. A.

to trees, bushes, poles, wires and the ground. In some places the ice coating is nearly an inch thick. All the men are apparently well satisfied with the food. Two meals a day are always served and sometimes there are three. For breakfast the men frequently get a large bowl of oatmeal as the principal dish while at dinner there is beef or some other meat and vegetables. Supper sometime brings bacon, corned beef hash or canned salmon. There is always good white bread made from American flour and plenty of it.

The American regimental headquarters just back of the line is established in dugouts under the ruins of houses long since knocked down by German shells. It is never known when the enemy may again take a notion to throw a few shells into the town so the American commanders were determined their headquarters should be well protected.

When recruits are wanted again for the aviation section there's a new plan that could be suggested. All the men are apparently well satisfied with the food. Two meals a day are always served and sometimes there are three. For breakfast the men frequently get a large bowl of oatmeal as the principal dish while at dinner there is beef or some other meat and vegetables. Supper sometime brings bacon, corned beef hash or canned salmon. There is always good white bread made from American flour and plenty of it.

ATHLETIC SEASON TO BEGIN TODAY AT CALL FIELD

This afternoon at 2:30 the Call Field athletic season is to open with a football game between the 192nd Aero Squadron team and the "Cade's" eleven and all citizens of Wichita Falls interested in sporting events are invited to be the guests of the camp for the afternoon. Automobiles will be admitted at the main gate and permitted to drive to the football field at the west end of the flying field. It is announced.

Major Jernigan Here On Formal Inspection; Goes to Other Fields

Major Jernigan, flying officer and Captain Shay, supply officer, were here on an official visit Friday and Saturday at Call Field. The major spent his time in inspecting the work of the flying corps and attending the classes, and the instructors and men received the benefit of his experience and advice and recommendations, as well as from comments on the work being done.

The program was termed "a misdemeanor in two acts" entitled, "Over There." A ward in a field hospital in France was the setting and the thrilling appearance of "Joan of Arc" in a vision to the men was the first to greet the audience as the curtain went up. Night time in the mess kitchen stirred the program of the excellence attained by this trio. Private Eichelberger and Private Girard.

St. Paul, Feb. 2.—The Minnesota state police commission's committee sent to investigate conditions in training camps at which soldiers from this state are in training, reported today that at Camp Cody heavy conditions failed to meet their approval. The dust was found a serious fault; the social attitude of some officers criticized; the class officers and physicians found "high" and the food good.

Private Nichols Nurse Private Watson Mailman Private McMahon Chief Surgeon Sergeant Grimes Messenger Private Shaw Sergeant Private Eichelberger and Private Girard.

Specialty Acts Specially acts were introduced as an entertainment provided by the Y. M. C. A. for the 626 soldiers. All were healthful and enjoyable. Demanded for all, "Hawaiian String Beans" were Sergeant Garret, Robert Watson and Sergeant McCreary. Musical acts of the excellence attained by this trio. Private Eichelberger and Private Girard.

MINNESOTANS FIND CAMP CONDITIONS ARE FAIRLY GOOD

St. Paul, Feb. 2.—The Minnesota state police commission's committee sent to investigate conditions in training camps at which soldiers from this state are in training, reported today that at Camp Cody heavy conditions failed to meet their approval. The dust was found a serious fault; the social attitude of some officers criticized; the class officers and physicians found "high" and the food good.

Aviators Pay Visit To Burkburnett and Business Suspends (Burkburnett Star.) Business in Burkburnett came to a standstill about 2 Tuesday afternoon when a couple of airplanes from Call Field at White River circled over town for a time and one of them came to the ground in a field near the school building. The appearance of the winged warriors was the occasion for everybody to quit their ordinary tasks and watch the machines as they glided gracefully over and around town. When the machine came to the ground near the school the teachers dismissed the pupils and allowed them to go and give them the "once over." A large number of people from town were seen on the ground to inspect the airplane.

It is thought that later on when the aviators get in better practice they will make frequent visits to this place.

It has been suggested by some of our people that a landing place should be provided for the birdmen. In or near town. The old ball park would seem to be a good place for the purpose. In order that frequent landings may be made it is necessary that the ground be marked in such a manner that it can be located by the aviators without much difficulty.

Restaurants In City Are Ready For The Soldiers

Capt. Atkinson Makes Inspection to Safeguard Health of Soldiers After His Visit

Girls are not the only ones affected by a uniform, according to Mrs. T. B. Smock. There are some natural dealers in Wichita Falls who have had such a healthy respect for the uniform of the government that the suggestion of one of the officers resulted in their cleaning up where Mrs. Smock has been unable to get more than a promise of reformation.

revealed that the captain's suggestions had been carried out and she reports he returns with the effect of the inspection. This reformation has been accomplished by the military inspection after Mrs. Smock had found it practically impossible to get her complaints any further along than a complaint on account of certain conditions, she says, and she is very glad that the medical officer made this inspection.

COMMITTEE NAMED TO AID IN GIVING FLYERS AMUSEMENT

J. Wilkie Talbert, local chairman of the Wichita Entertainment Board, has announced his executive committee to work with the soldiers of Call Field in devising any manner of entertainment which they may desire. This committee consists of H. H. Bray and George Hodgins for the Camp activities; J. W. Gray for the churches and Mrs. T. B. Smock for the Civilian Control Board.

MAJ. GEN. MARCH IS SLATED TO BE CHIEF OF STAFF

MAJ. GEN. BLISS MEANTIME MAY BE KEPT CONTINUOUSLY IN EUROPE. The permanent assignment of General Bliss to the war council may result in a reassignment for authority to appoint an additional general. As General March will be in fact head of the army, it is regarded as probable that he will be given rank and title of chief of staff of the army. General Bliss being continued in similar rank but relieved as chief of staff to permit him to devote himself exclusively to his work abroad.

Captured Airmen Are Sentenced to Prison For Dropping Papers

Amsterdam, Feb. 2.—Two captured British airmen the Tages Zeitung of Berlin says have been sentenced by a German court martial to ten years imprisonment for dropping hostile proclamations in Germany.

Thirty-Eight Men In Signal Corps May Go Abroad Shortly

College Station, Tex., Feb. 2.—In response to the request of the commander of the Ninth Field Battalion of the signal corps at Leon Springs, thirty-eight students of company K, who have been attending the school in signal corps work at the Texas A. and M. College, have volunteered for immediate service abroad and will leave next week to join the battalion at San Antonio.

Chance to Get Fish Cheaper Is Aim of Food Administrators

New Orleans, Feb. 2.—Resolutions recommending the removal during the war of various fishing restrictions placed by the states, suggesting the removal of closed seasons on certain kinds of fish and the opening of certain waters now closed to fishermen, were adopted at the closing session today of the conference here of food administrators and representatives of fishing interests of the Gulf states. The resolutions will be presented to a conference of state food administrators in Washington February 18.

May Have New General

The permanent assignment of General Bliss to the war council may result in a reassignment for authority to appoint an additional general. As General March will be in fact head of the army, it is regarded as probable that he will be given rank and title of chief of staff of the army. General Bliss being continued in similar rank but relieved as chief of staff to permit him to devote himself exclusively to his work abroad.

Highly Commended

The qualifications of General March for duties have been highly spoken of by officers of General Pershing's staff. Secretary Baker has had under consideration for sometime the urgent necessity of putting a young man at the head of the staff to coordinate the military branches of the army. Several of the general officers have been discussed for the post.

CAMPBELL-ANDERSON CO.

SUCCESSORS TO P. H. PENNINGTON CO.

LADIES

Every Day Brings New Things for Spring

Our buyers now in New York are proving to us that they went after the goods and are getting them. They are sending us the best the markets afford in coats, coat suits and one-piece dresses. These are of the latest fashions and newest fabrics.

You should be one of the first to purchase one of these beautiful garments for early spring.

OUR MILLINERY DEPARTMENT

is now complete. Though the weather has been awfully cold our Spring Hats, due, of course, to their superior style and attractiveness, are selling fast. In buying in this department you have the assurance that the style is right.

OUR PIECE GOODS DEPARTMENT

is simply overstocked with new goods for SPRING. Silks, silk shirtings, Taffetas, Crepe de Chines, messalines and foulards. We also have a beautiful line of French Gingham. We want you to go through our stock before buying.

MEN'S DEPARTMENT

Just Received—A Large Shipment of Spring Suits

These suits are of the very best styles, latest cuts and of the new materials, being made by the very best concerns in the country. Come in and see them at

\$16.50 to \$35.00

We have about two dozen winter suits left—these are of good styles and, on account of being crowded for room, we are going to close these out at **1/4 OFF**

If you don't need a suit now, you should buy for next fall and winter, because good fabrics are not easy to get and next fall's prices will be much higher.

We have our new spring line of Stetson Hats in the latest shapes and colors. Also a swell line of medium price hats in something up-to-date.

We have one of the swellest lines of Dress Shirts in the city, having just received a BIG SHIPMENT. These are in the delicate and also the most gorgeous stripes. In pure white also. We can fit you in any size or color. SEE OUR WINDOW TODAY—it will be full of the latest in shirts at from **\$1.00 to \$2.50**

Our Stock of Edwin Clapp Shoes is complete. In this line you get style and quality of course

At the Theatres

"THE SPOTTED LILY" AT THE GEM WEDNESDAY

Yvonne Lamour, a daughter of France, in whose heart lives again the soul of her sainted mother, is a peasant girl in Brittany. Her mother has sacrificed herself to militarism and Yvonne's father was a Prussian who had conquered by force of arms. War again devastates France, the village priest takes Yvonne and Jean (whom the girl loves) to America, there hoping to find in the new world happiness and contentment for all. But the good priest falls ill and dies. Jean surrenders to selfishness and is about to desert the girl who has unselfishly befriended him. In the final triumph of sacrifice and devotion, Yvonne awakens Jean to a realization of his duty and she ends well. "The Spotted Lily" will reflect this story in beautiful photography and skilful play-acting when Ed Hall celebrates "Bluebird Day" at the Gem theatre Wednesday.

"POLLYANNA" WILL BE ENJOYED ON TUESDAY

A very special treat is promised the many admirers of Eleanor H. Porter's lovable heroine, "Pollyanna" on next Tuesday evening when Miss Emily B. Foster, instructor of expression at the college of Music, will give, in four selections, her original arrangement of the well known and much loved story.

The selections, largely in the form of stories, will deal with the most interesting and vital incidents of Pollyanna's life, taking first the orphan's arrival at the home of her aunt Polly, then describing the fateful meeting with the blind child, the death of John Pendleton and its effect on life of the little girl, and the delightful solution of all problems and the happy ending of the story. The program will be given in costume and will be in part accompanied by musical selections rendered by Miss Kathleen Stonecipher.

Between the readings musical selections will be rendered, with Miss Stonecipher at the piano, B. F. Adams at the violin and T. L. Krebs, at the cello. The program for the trio follows:

Informezzo—Mascagni.
Angel's Serenade—Braga.
Ave Verum—Mozart.

The program will be given at 8:15 at the First Presbyterian Church on Tuesday evening Feb. 5. No admission will be charged and the public is cordially invited to take advantage of this opportunity to see Miss Foster in the work in which she most excels.

THE GEM TO SHOW "BROADWAY LOVE" TUESDAY

The Bluebird presentation of "Broadway Love" at the Gem theatre on Tuesday will be a screen fashion-show with a score of the prettiest girls to be found at Universal City, the "film capital of the world," appearing as stage beauties in gorgeous apparel. There is a dressing room incident of especial interest to those uninitiated in stage ways; several scenes of chorus girls in handsome gowns, and a fashionable reception where beauty is decked in the height of style. These scenes are incidental to an engaging story of love and adventure, typifying night life in New York amid the shimmer of the bright lights and the swirl

of the "fast set." Dorothy Phillips, prettiest of Bluebird stars will head a large company in these brilliant scenes, telling a story of gripping interest with a plot baffling in its sudden changes on the way to the happiest of endings. William Stowell who has been leading man for Miss Phillips in most of her bluebirds, and Lon Chaney will head the supporting company.

"EVERY WOMAN" TO PLAY AT WICHITA, MARCH 7

The wonder play of the world, "Everywoman" is coming again to the Wichita Theatre March 7, representing the very latest words in amusements. It is designed to please the most exacting, offer diversion to the most jaded taste. There is nothing about it to remind the spectator of any other production he has ever seen. It often occurs that a person who has not seen "Everywoman" will ask someone who has what it is like. There is no other play or production to which it can be likened.

It proves a delight for the eye and for the ear. It is a feast for the lover of luxury beautiful gowns upon the forms of fair women; artistic designs in costumes, draperies, sumptuous stage settings evidencing a wizardry of light and color effects, the highest achievement of the specialist.

For the lover of excellent music there is an orchestra of symphonic capabilities to render the score, which was composed for "Everywoman" by George Whitefield Chadwick, dean of the New England Conservatory of Music, of Boston.

For the admirer of fine acting, Mr. Savage has assembled a cast with fully a score of names which are well and favorably known to everyone who follows the annals of the stage. The leading role, Nobody, a strange prophetic figure, is played with fine discrimination and effect by Percy Parsons, one of the most solid and substantial actors of the American stage. Long schooling in the support of leading stars has given him the polish which renders his performance delightful, pictorially and as an elocutionary effort. The leading female role, Everywoman, is one of the most exacting an artist is ever called upon to portray. It requires not only artistic but physical fitness. Paula Shay really beautiful enough to typify the character is the interpreter of "Everywoman." There are thirty-seven speaking characters in the play.

"WHEN DREAMS COME TRUE" AT WICHITA THEATRE FEB 14

"When Dreams Come True" will be the next attraction at the Wichita Theatre, being looked for Feb. 14 by Manager Markovitz. The musical comedy has just shown in Wichita Kansas, where it met with much approval as the following criticism indicates:

"When Dreams Come True" the musical show which Manager Martling procured for the Crawford Theatre last night and today, proved to be a "dance show" and pleased more than the usual musical comedy, because of the life and "pep" the principals put into their work.

Feature honors probably would go to Lorraine Lester, the leading woman, because she was pretty, could sing well and was an expert dancer. All of her numbers were favorably received and she earned, but refused to take, several recalls.

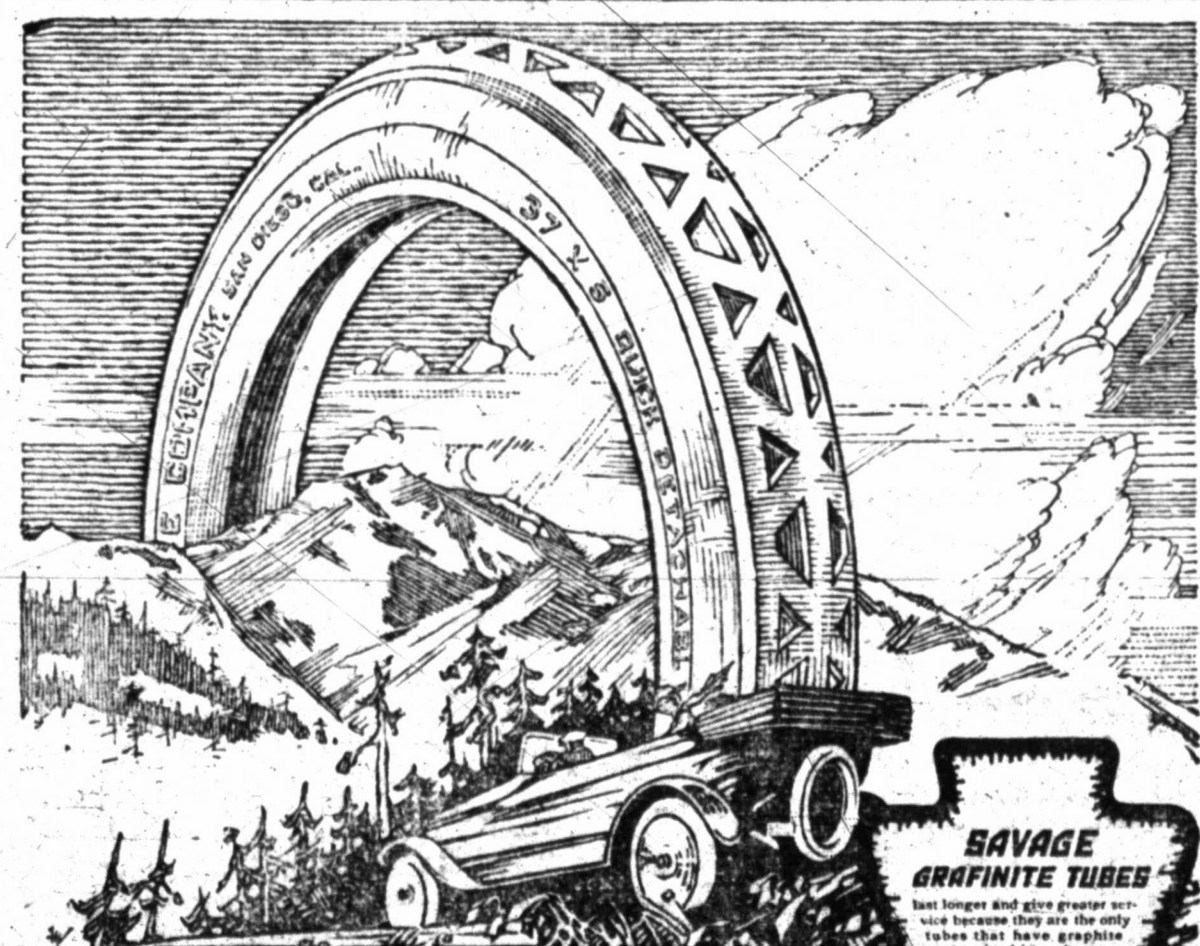

the rather small, proved very dramatic. William Pruette, Jr., leading man, sang very little, but made up for this with his feet and when his dancing bordered on the "acro-matic" style his popularity increased.

"Come Along to the Movies," a clever sextette with a bit of clowning thrown in, was probably the musical success of the show.

May Finch also deserves special mention for her dancing. She worked with every member of the company and then seemed anxious to dance some more.

Guy Bartholomew sang a bit and danced, a great deal and made both very acceptable.

The show is free from "rough" comedy and all of the lines and songs are clean. The plot serves only as a link between the songs and dances, but with such clever principals and the good looking girls a plot is merely a "necessary nuisance" and the spectator anxiously awaits the next song or dance number.—Ned Conner.

THOUSANDS OF PEOPLE HAVE MADE THEIR FORTUNE IN REFINING PROPOSITIONS

Wichita Falls has one of the most successful Refineries in the Southwest. There is plenty of room for another, and **HERE IS YOUR OPPORTUNITY** to get in on the ground floor and get yours

AS OTHERS SEE US

Through the faith the Wichita Falls Chamber of Commerce has in our proposition and our ability and integrity we were provided with a 25-acre site to induce us to locate at Wichita Falls.

The Above is a photograph of the Coffeyville, Kans., Refinery, which we propose to duplicate and build at Wichita Falls, Texas.

GREAT POSSIBILITIES

There is abundant opportunity here for our proposition. The Wichita Petroleum district in 1917 produced 25 millions of dollars worth of crude oil, and will do better in 1918. We have complied with the Texas laws and have been granted a permit to build a refinery at Wichita Falls.

The Sunshine State Oil Company,

(CAPITAL STOCK \$100,000.00) at a recent stockholders' meeting, voted to increase the capitalization to \$300,000. Approximately \$200,000.00 will be used to build this refinery. The company owns about 20,000 acres of land located on four different anticlines, located by one of the best geologists in Texas, and offers to the public a portion of its stock at the par value of \$10.00 per share, and solicits your investigation of this perfectly legitimate business proposition.

WICHITA FALLS, TEXAS.

DENVER REPORTED TO BE PREPARING TO EXTEND SHOPS

The Childrens Index says it learns from "switch shanty" talk that the Fort Worth & Denver railway is to expend a large sum in improving its shops at Childrens.

The talk that we heard the other morning at the railway eating house was that the new budget called for more than \$100,000 in improvements at Childrens.

The roundhouse is to be increased ten stalls. The back shops are to be enlarged and the yards are to be doubled in capacity. All of this work is needed and as the government is throwing so much business over the Denver Road it will be necessary to make improvements.

The spending of a hundred thousand dollars or more by the railroad company, the proposed waterworks improvements by the city, new business buildings and should the roads here be voted Childrens will see more development work this year than any single year since the shops were located here.

These improvements would mean the expenditure of nearly \$500,000 and every citizen of the county would be benefited. The expenditure would also mean that city values would increase, and farm values in proportion.

MISSOURI MULES ARE GOOD ONES

Norborne, Mo., Jan. 27. Times Publishing Co. Dear Sirs: This has been a lonely day for me, going to church this morning. Snowing today and last night. It has been zero and below most of the two weeks I have been here. This place is in the Missouri river valley, which is about nine miles wide. The town is on the west edge, has a population of about 1,000 and two railroads.

I have been travelling in auto part of the time. I am getting about all the corn I can see, six cars this past week and one car oats. Corn is making 40 to 50 bushels per acre. There is lots of frost bitten corn here. This is a fine level country. Farm land from \$100 to \$400 per acre. The farmers seem to be in good shape here. The miles here are the best I ever saw, most all the 4 and 5 year olds weigh 1,400 to 1,600 pounds, each bring from \$200 to \$300. A span of two year olds brought \$500 yesterday. There are lots of hogs and corn here.

I have a good boarding place but would rather be in the south. G. W. MUSGRAVE.

WHAT THE LONDON WORKER HAS TO EAT

By Margaret Walter. London, Jan. —What does the London office worker eat at midday and where does she lead for when she rushes out from her work in her almost uniformly smart long coat of fur or bright colored cloth with its broad fur collar turned up round her ears and her trim low shoes above which tinted cashmere stockings have now taken the place of openwork silk?

The government controls the sale of food in restaurants and lunch rooms, limiting the amount which may be consumed by each patron in the lunch-room to which the average office worker goes. This amount is fixed at thirty cents exclusive of beverages and including not more than two ounces of bread. There are five big companies which run "multiple shops" of this class in every office and shopping district of London. After time you become a devotee of one or the other of these middle class institutions, either the A. B. C. (Aerated Bread Company), Lyons or the Express Dairy Lunch Company. Let me tell you about the dairy place in Westminster where I go for an omelette as daintily as could be had in the best New York hotel and wonderful coffee, big cups of it, with plenty of hot fresh milk brought every morning from the Company's great farms in Middlesex.

Compared with the same sort of lunch room in America, the general appearance is not nearly so attractive, but the food is so much better that it puzzles an American how such a clean, well cooked meal can come out of such dark places. There is not a particle of white enamel filling, not a nickel plated rod, a palm tree in a jardiniere to be seen, as in American quick lunch rooms, but the place is clean scrubbed every day and the waitresses in neat black dresses with snowy fluted caps, broad white cuffs, and aprons with flying streamers, are as attentive and polite as if they were in a private dining room.

Housekeeping is so difficult nowadays that many office workers make their heaviest meal in the middle of the day; for these there is always ready a selection of meat dishes. Stewed steak and carrots with plenty of thick gravy costs 20 cents and steak and kidney pudding the same. Fillet of beef or sump steak comes at 18 cents a portion and the portions are good and big, and an extra 4 cents obtains a portion of boiled, mashed or fried potatoes. Beef and potato pie cost 16 cents; ox tail pie of sausage and kidney with mashed potatoes come at 14 cents each; one sausage costs 6 cents. Tongue sells for 16 cents a plate, a cold veal and ham pie 10 cents, a sardine sandwich 6 cents.

Curry is a favorite winter dish and it can be had at the Express Dairy well made of vegetables and rice for 12 cents. A big bowl of porridge and milk with a little sugar to top it with, costs only 7 cents and hot bread and milk is 5 cents a basin.

Apple pudding, steaming hot, served also with a spoonful of coarsely brown sugar melting on the top, is 8 cents, rice pudding 7 cents, stewed prunes the same and a mound of ground rice with rich jam is only 4 cents.

The one dish which is almost universally well made in these popular eating places and which we in

America have never fully appreciated as an everyday dish is Welsh rarebit. It comes served on a thick piece of toasted war bread, buttered, margarine or soaked with dripping, and it has all the food value of a meat dish. A 10-cent portion is generous enough for a meal all by itself, and a good meal when a cup of steaming coffee and milk is added.

Eggs are dear everywhere but at the dairy shops a fresh boiled egg may still be had for ten cents; a poached egg on toast 15 cents, and the big savory omelette which is a constant delight and surprise to me costs almost the limit of 24 cents.

Rolls are 2 cents each, three slices of bread and butter 4 cents, and a round of hot buttered toast costs 5 cents. That excellent coffee is 6 cents a cup, and with sugar, too; tea is 5 cents and cocoa or chocolate made with milk is the same price as coffee. Little dabs of jam, apple jelly, or honey, to eat with bread cost 3 cents a dab, gingerbread is 2 cents and a variety of plain cakes cost 5 cents a big square.

A dainty "afternoon tea" consisting of freshly brewed India or China served in a pot with milk and sugar, two slices of bread and butter, and a slice of cake, costs only 12 cents. Tipping is not allowed.

Every now and then the shop prints on its daily bill of fare a cheery message to war workers, or a plain statement of food conditions or government regulations to explain any advance in prices.

To see unoccupied cellars.

To find there are women who are not grocers.

To find people who want to go to the country.

To see funerals.

To be asked to sit down when getting one's hair cut.

To hear civilians complaining about their hardships.

NO SERVICES TO BE HELD SUNDAY BY EPISCOPALIANS

Owing to the fact that the church is temporarily without a rector and on account of the severity of the weather and the necessity for the conservation of fuel, no services of any character will be held at the Episcopal church Sunday. Even the Sunday school will not be held.

If the temperature moderates all services will be held as usual on the second Sunday in February.

Greek Reservists Called.

London, Feb. 1.—Sixteen classes of Greek reservists have been called to the colors, a Reuter dispatch from Athens says.

Austria Dependent Upon Hungary For Its Grain Supply

London, Feb. 1.—Austria is absolutely dependent upon Hungary and Rumania for grain, Herr Hoefler the Austrian food minister said in an interview in the Neues Wiener Tagblatt. Since last August only 150,000 tons of wheat have been received from Rumania while shipments from Hungary were quite inadequate to meet present needs.

It is impossible to think at present of increasing the flour rations. Minister Hoefler added that the production of beer in Austria would have ceased entirely but for the necessity of supplying the troops and certain classes who do heavy labor. The beer is now made chiefly of substitutes, especially the scakro seed.

C. A. De Rothschild Dies. By Associated Press. London, Feb. 1.—Alfred Charles De Rothschild, 76 years old, of the banking family of that name, died tonight.

THRIFT will win the war

Educate yourself to be thrifty. Cut out extravagance—buy serviceable merchandise—put your money into safe investments—buy what you need and save the rest. As Mr. Vanderlip, the Government's Thrift Stamp Chairman says, "A dollar wasted is a dollar spent for the Kaiser."

Think thrift—talk it—get the spirit of thrift and exercise it. These advertisers will help you.

Lend Uncle Sam \$4.13 Today 5 Years From Now He'll Pay You \$5.00

In offering War Savings Stamps and Thrift Stamps to the public, the United States Government presents to every man, woman and child an opportunity for profitable, simple and secure investment.

War Savings Stamps are "Baby Bonds." Back of them are the entire resources of the Government and the people of the United States. They enable you to invest your surplus savings in Government Securities paying equivalent to 4% compounded quarterly.

You need not begin with a large amount. You can buy U. S. Government Thrift Stamps at 25c each. When you buy your first Thrift Stamp you will be given a Thrift Card. Each Thrift card has spaces for 16 stamps. When you have filled a Thrift Card it may be exchanged for a \$5.00 War Savings Stamp at the Postoffice, Bank or other authorized agency, by adding 13 cents in cash if exchanged prior to March 1st, 1918, and one cent additional each month thereafter. Thus a \$5.00 War Savings Stamp will have cost you \$4.13 (if purchased before March 1st, 1918). On January 1st, 1923, the United States Government will pay you \$5.00 for each War Savings Stamp you own. (Under the law no person may hold such stamps in excess of \$1,000 maturity value).

If you prefer, you may buy the \$5.00 War Savings Stamps outright. When you buy your first War Savings Stamp, you will be given a War Savings Certifi-

cate. This has spaces for 20 stamps. Thus, when full, the certificate will have a cash value of \$100.00 on January 1st, 1923.

The interest paid you on War Savings Stamps is equivalent to 4% compounded quarterly, if you keep your stamps for 5 years. If you should need this money before January 1st, 1923, you can get it back on ten days' written notice with interest at approximately 3%, by presenting your War Savings Certificate, with stamps attached, at a Money Order Postoffice.

The 25 cent Thrift Stamps, however, are not redeemable except in exchange for War Savings Stamps.

It is the desire of the Treasury Department of the United States to have every man, woman and child participate in the War Savings Plan by buying Thrift Stamps and War Savings Stamps regularly. Parents are asked to encourage children to save and buy these stamps—to help win the war!

You can order War Savings Stamps and Thrift Stamps by mail from your nearest Postoffice. Note the coupon below. Fill it out—stating the number and kind of stamps you want—and mail it to the nearest Postmaster. Your letter carrier will deliver the stamps and collect the amount. Place your order at once.

ANARCHISTS WILL SERVE OUT TERMS, COURT DECISION

By Associated Press
New York, Feb. 2.—Emma Goldman and Alexander Berkman, anarchists, today lost the liberty they have had under bonds while the United States Supreme Court was considering the appeal from conviction for conspiracy to interfere with the operation of the selective draft law. The mandate of the highest court affirming the conviction was filed in federal court here yesterday and Judge Mayer signed the order directing the anarchists to surrender to United States Marshal Thomas D. McCarthy today.

Berkman will be taken to the federal penitentiary at Atlanta, Ga., and Miss Goldman will be returned to the state penitentiary at Jefferson City, Mo.
Both were sentenced to two years imprisonment and pay fines of \$10,000 each.
Miss Goldman and Berkman made impassioned speeches before the federal court in New York. Berkman, who was wildly applauded, said that he and Miss Goldman were returning to Russia.
This representation would be made, Berkman said, on the ground that inasmuch as they were to be deported at the expiration of their prison terms this indicated the United States government's recognition of their status as Russian citizens, and being Russian citizens, and being Russian citizens they were entitled

Come Again

This drug store invites you to come again and keep on coming—make this store your store for all your drug store needs.
The store that fails has customers that don't come again—
We have been right here many years and we have just lots of customers that have come again and again and are still our customers, and every year we add quite a few more to our list.

Satisfied

to be deported at once and without serving the prison sentences.
Miss Goldman also asserted that the United States would be asked to deport them.

DISTRICT ATTORNEY MAY ACCEPT CERTAIN FEES
Austin, Tex., Feb. 2.—A district attorney may accept employment and fees to be paid by private parties for assisting in the prosecution of a case transferred out of his district on a change of venue, the attorney general held in an opinion today.
The opinion holds that there is no duty imposed upon a district attorney to follow a case that has been transferred out of his district, and that he may accept a fee paid by private parties for his services in assisting in the prosecution.

STONE DENIES HE FOMENTED STRIKE AMONG GERMANS

By Associated Press
Washington, Feb. 2.—"Perfectly absurd" was how Senator Stone, chairman of the foreign relations committee today characterized the report that he was concerned in an organization to foment strikes in Germany.
"It is absolutely without foundation," he said. "The reports might have been circulated in Germany to head off the unrest and strikes now going on. Over there the United States is supposed to have money to burn and it might be that the government would circulate such reports."
That circulation in the enemy countries of President Wilson's ad-

dress also may have contributed to the rumors was suggested by Senator Stone.
"I learned only last night," he said "that the Russian Bolsheviks are themselves circulating the president's addresses not only in Russia, but in Poland, Germany and Austria. The Bolshevik leaders have had the president's addresses translated into German, Polish, Czech and Slavic and circulated them among the peoples which Germany dominates. Their purpose, I understand, is to stir up sentiment so as to force Germany at Breslau-Litovsk to enter into the peace the Bolshevik desire."
"But as far as any strike propaganda, as far as I am personally concerned and from all I know, the reports are ridiculous."

Amsterdam Strike Is Next Scheduled But No Fears Expressed

By Associated Press
Amsterdam, Feb. 2.—While the police and military are preparing for a general strike in Amsterdam on Monday there are indications that the movement probably will not assume serious proportions. The members of the moderate unions have issued a proclamation urging their members not to follow the dictates of the leaders of the syndicalists.

DISCRIMINATION FAVORING WOMEN IS NOW ALLEGED
CONDUCTORS AT ST. LOUIS DE-MAND BASIS BE THE SAME.
By Associated Press
St. Louis, Feb. 2.—A demand for discontinuance of alleged discrimination in favor of women conductors and for higher wages were presented to the United Railways, the local traction company, by officials of a newly organized union of car employees today.
The union has been chartered by the Amalgamated Association of Street Railway Employees.
The men claim that women conductors are given preference as to daylight runs.
As the committee left for the offices of the street car company it was learned that they would demand an immediate reply. Conductors and motormen said they understood a strike would be called at midnight Sunday night to enforce the demands.

The February Victor Records Are Here!

THEY INCLUDE "THE LAND WHERE THE GOOD SONGS GO" AND "GIVE ME THE MOONLIGHT, GIVE ME THE GIRL"

"The Land Where the Good Songs Go," it appears is somewhere the other side of the moon where it is always afternoon. This song is one of the successes from that successful musical comedy, "Miss 1917," and the words and music are from the alert and expert minds of P. G. Wodehouse and Jerome Kern. It is light music with the unmistakably "Broadway" atmosphere to it. "Give Me the Moonlight, Give Me the Girl (and Leave the Rest to Me)" is a complete enough title to explain itself. It is by Lew Brown and Al Von Tilzer. This music also is very dainty, and the refrain is played over on bells toward the end with charming effect.

Austin Sanitarium Destroyed by Fire; All Patients Saved
By Associated Press
Austin, Tex., Feb. 2.—The Austin Presbyterian sanitarium, just north of the capitol building is practically a total loss from a fire which broke out at 2:45 this morning.
All of the patients, between forty and fifty in number, were removed from the building without injury and with a minimum of excitement. Five new born babies were among them.
About 100 volunteers from the school of military aeronautics assisted the nurses in the work of rescue and aided the firemen in playing streams of water on the burning structure.
Private homes nearby were thrown open for the reception of patients. Towards morning some were taken to their homes and the rest were divided between the city hospital and the Se-ton Infirmary.
The sanitarium building, which was of brick veneer, was valued at \$25,000 and was insured for \$20,000.
