

OZARK TRAIL MEETING IS ATTENDED BY MANY WHO SHOW ENTHUSIASM

Col. W. H. Harvey Makes Address To Body and Secretary Bennett Tells of Interest Found Everywhere.

Before a large crowd of enthusiastic road boosters of the city, Burk Burnett, Randelotto, Haskell and other points, along the Wichita Valley Highway gathered at the Elks Club rooms this morning upon the invitation of the Chamber of Commerce.

Bennett Makes Report. Secretary B. F. Bennett, of Seymour, stated that he had received excellent reports from the organization along the entire route of the Wichita Valley Highway, Abilene having obtained 134 members, Seymour 121, Haskell 100, and other towns in about the same proportion.

Randelotto on Its Toes. D. F. Suter, of Randelotto, Okla., stated that his town was up on its toes, ready to do anything which would help in securing the O. T. designation, and that the organization there was fully awake to the many advantages to be obtained from being incorporated into the great system of highways known as the Ozark Trail.

Works For Glory. C. W. Reid averred that although Colonel Harvey was a promoter, he was one man in whom one did not associate promotion with profit, as his services to the great system of roads which he had promoted had been entirely without any money gain what-ever, as he would not accept a salary, and solely for the glory of service.

Works Without Pay. Touching upon the financial side of the organization, Colonel Harvey stated that himself and six vice presidents were working without pay, because they felt it best to do so; but that there was nevertheless a great deal of expense attached to the work of the organization in mailing, literature, employees salaries, and so forth; and that this expense must be borne by the membership fees—annual, \$5, one-year, \$25, life, \$100. There are five life members in the organization he said.

As an interesting side light on the many advantages which would accrue to the members of the organization, the colonel read letters in which a great number of hotel men had agreed to make a ten per cent reduction of their rates to all members of the Ozark Trail Association, as soon as the idea should be properly promulgated—which Colonel Harvey said would probably be at the close of the Miami convention next June. Other letters which that garage men all over the system were willing to make a storage charge of 25c per day, with a ten per cent reduction for accessories, and five per cent for tires.

The following committee of fifteen was appointed to complete the local organization: C. W. Reid, (chairman), C. E. Rodgers, G. T. Bacon, W. S. Child, P. H. Pennington, Roy Jones, R. H. Collier, Myles O'Reilly, W. W. Silk, M. J. Bashara, C. H. Clark, W. R. Ferguson, J. C. Ward, M. E. Stevens, and C. J. Barnard.

LEE MAKES CHARGE THAT MANAGEMENT OPPOSE NEW PLAN

ALLEGES COMPANIES DO NOT WANT GOVERNMENT OPERATION TO SUCCEED

BLAMED FOR CONGESTION

He Has Facts to Prove That Experienced Men Are Not Allowed to Use Own Judgment

By Associated Press. Washington, Feb. 5.—Traffic congestion throughout the country was blamed on the railroad management today at the railroad wage hearing by union leaders, who said the management desire to discredit operation of the eight hour law and to make government operation of the railroad a failure.

W. G. Lee, president of the Railroad Trainmen said he had evidence that veteran railroad men were replaced by inexperienced employees, and that they had been allowed to freeze up over night and that train crews had been called out and kept waiting until the 16 hour law took them before being sent out of the terminal.

Charges that the railroad management are attempting to discredit government operation of railroads were made today by W. G. Lee, head of the railway trainmen at the railway wage hearing.

Mr. Lee's remarks were made in the course of a spirited discussion precipitated by the presence of several representatives of railway management in the room. A. B. Garretson, head of the railway conductors, charged the present was in contradiction of the general McCadoo that the hearing was to be a success of operating the railroads.

Commissioner Covington said the railway officials were to be invited to the wage commission to supplement, not antagonize, information presented by employees.

Deal With Government. "We do not pretend to make the position of discussing matters with our former employers," said Mr. Garretson. "We do not intend to deal with a second set of employers, and having come here to put all the cards on the table, we don't intend to disarm ourselves."

Mr. Lee said demand for increased wages were asked solely because of increased cost of living. He added that they had asked only what they considered fair, increases ranging from 20 to 42 per cent. More than 5,000 members of the Brotherhood of Railway Trainmen are with the colors, he said and the organization is keeping up their insurance and membership dues during their absence.

AMERICA SIGHS WITH RELIEF BECAUSE JANUARY IS GONE

HE LEFT US SOMETHING TO REMEMBER HIM BY. Come on out! Don't be afraid! Yes, January is gone! Packed up its traps and cleared out, bag and baggage. Hooray! So say we all of us, so say we all! The unanimity and fervency with which the foregoing was rendered makes it certain that if any one had the hardihood to suggest that part of the chorus which intimates that "he's a jolly good fellow" there would be a universal denial. For it is violating no secret to say that there was nothing jolly about the January that has just gone away from here, leaving behind a trail of frozen ears, noses and fingers.

Final Action Has Not Yet Been Taken But War Department is Still Considering Plans

By Associated Press. Feb. 5.—American troops will appear in British trenches on the Flanders front as a result of studies now being made here and in Europe.

The suggestion came from British officials, it is still under consideration at the war department, but final action probably rests on recommendations of General Bliss, who is considering it in conference with the supreme war council.

By the use of British shipping, training camps and supply lines, it has been urged that General Pershing's force could be supplemented without a proportionate increase in the demand of shipping.

FOUR ARE KILLED; SIX ARE INJURED; TRAIN HITS AUTO

By Associated Press. Fort Worth, Tex., Feb. 5.—W. F. Albritton, jitney driver from Riverside, a suburb, was hurrying into Fort Worth this morning with nine passengers in his car. The storm curtains were up. As he drove up on the Rock Island tracks at the Belknap street crossing a passenger train bound for the station backed into the car. Four were killed, six injured and the others escaped death by leaping off the running boards of the car. The dead are: Myrtle Shockley, Mrs. Martha Phares, Miss Mary Wenzler.

All of the victims died instantly. None of the passengers in the car saw the train until it struck the machine. Those who were able to jump saved their lives. None of those injured will die, it is stated at the hospital.

Every ambulance in the city was called out by the accident. Two of them crashed together opposite the city hall and were badly damaged. The first that A. B. Phares, Associated Press operator in the Station Telegram office knew of the killing of Mrs. Martha Phares, his stepmother, was when the story of the accident came to him. He immediately filed for the wire by the local correspondent.

MRS. ELMORE DIES FROM BURNS OF LAST FRIDAY. Sherman, Tex., Feb. 5.—Mrs. F. H. Elmore, who was burned last Friday night when her clothing caught fire while standing in front of a gas stove died today.

By Associated Press. Washington, Feb. 5.—America's war making machinery was pictured as a "conglomeration of scattered agencies" incapable of team work in an address in the Senate today by Senator Wadsworth, a Republican member of the military affairs committee.

Without details army affairs revealed by the military committee's inquiry with which he said the country is now fast familiar, Senator Wadsworth confined himself largely to an argument for the proposed legislation for centralization of war making agencies. President Wilson cannot coordinate the agencies, he said, with a long war in prospect, radical steps to unify the nation's efforts are necessary.

Great Things Have Been Done. "That great things have been done cannot be denied," he declared. "That other great things have been left undone must be admitted. The credit for the things accomplished can be assigned to several individuals. The blame for shortcomings ought not to be laid upon any individual. Criticism should be directed against our system, or rather the lack of cohesive system."

"Lack of Planning." "Mind you, I do not attempt to lay the blame upon any one man, or on any one department. I insist that this painful situation has resulted from a lack of planning—from a lack of vision and foresight in that we have no agency in our government today charged with the duty of projecting its vision far into the future, anticipating any other office, or any one department, in the event of an emergency, and laying the plans by which we can meet and overcome them."

"Distressing State." "In both the ordinance and quartermaster's departments," he said, "we discovered a distressing state of affairs. Those who attended every day became deeply impressed with the conviction that purchase and production of supplies must be essentially an industrial operation and that military men with rare exceptions are incapable of bringing about the best results."

All the expert civilians appearing before the committee, Senator Wadsworth declared, testified in the same direction—proper centralization of authority established preferably by statute whose decisions may be promptly reached and accepted as final.

Reviewing the government's handling of the coal industry the senator said: "As a result of lack of planning we have great commotion, starving of coal and an order issued by the Fuel Administration closing thousands of factories and throwing out of work hundreds of thousands of men and women, costing millions of dollars in wages and delayed products and crippling, for the time being, those very activities upon which we must depend while standing in front of a gas stove died today."

### BREAD RATION IS FEDERAL DECREE FOR RESTAURANTS

TWO OUNCES OF WHEAT IS LIMIT TO GO TO ANYONE PERSON

Washington, Feb. 5.—A two ounce bread ration was ordered by the food administration today for patrons of hotels, restaurants and dining cars. This allowance is about that now observed in England.

Not more than two ounces of wheat bread may be served to any one person at any one meal except that when rolls made from corn meal, oats or bran are served or when any one kind other than wheat bread is ordered a portion may consist of four ounces. Rolls may not weigh more than one ounce each.

Public eating places are now licensed under the new bread regulations and the bread ration rule is issued under this authority. Hotel representatives have been instructed to see that immediate observance is given hotels for Monday and Wednesday as wheatless days, Tuesday as oatmeal days, Saturday as porridge day and that there is one wheatless meal and one meatless meal every day.

### LUTHERAN CHURCH MEMBERS BUY MANY OF THRIFT STAMPS

One of the best reports for the thrift stamp campaign that has been received by the local committee comes from St. Paul's Lutheran Church.

At the service Sunday morning the voting members of the congregation, after the matter was presented, by Rev. C. M. Beyer, the pastor, bought \$100 in thrift stamps. The Ladies Aid Society bought \$25 worth of stamps and Bible class adopted a resolution to join in the movement every member pledging to buy stamps.

Since the declaration of war this church has been participating readily and fully in the various war activities. Eighty one of its congregation took out full memberships in the Red Cross and there were a number of junior memberships taken out. Members subscribed for the Liberty Loans and the Ladies Aid is knitting for the Red Cross.

EAST GRIPPED BY COLD WAVE; MAY BE SHORT

TEMPERATURES RANGE FROM 35 DEGREES BELOW TO SEASONABLE

Washington, Feb. 5.—Severe cold today gripped the country east of the Mississippi river from its northern borders to the Gulf of Mexico, adding its share toward making this one of the most extraordinary winters of modern times. The present cold wave, however, is not expected to be of long duration as there is indication of moderation in the Lake region and Ohio valley tonight, in the western portion of the middle Atlantic states to the Atlantic coast districts Thursday.

### Modern Woodmen End Membership Drive; Is Tremendous Success

The membership campaign of the Modern Woodmen of America, in progress for the past six weeks in Wichita and adjoining counties, closed Monday night with a big class adoption. The meeting was a pronounced success, and the largest class of new members adopted at one time in the history of the local organization was the result of the campaign.

The Hon. John Sundeen of Minneapolis, a representative of the head office was present and directed the exemplification of the ritualistic work, which was pronounced by all present as being superior to anything they had ever witnessed.

Col. A. N. Rooks of Dallas State Deputy of the Society was also present and delivered one of his eloquent addresses. The hall was packed with neighbors who voted unanimously to continue the campaign for another month, which will be done, and it is expected that even a larger class will be secured.

DEFENSE COUNCIL WRITES REGARDING SKILLED WORKERS

PACKAGES OF CARDS ARE SHIPPED TO COUNTY CHAIRMEN

The State Council of Defense has written the local secretaries the following letter regarding the registration of skilled workmen for service in the ship building yards:

"Supplementing letter of January 24th, and explaining delayed registration blanks, will say am just in receipt of the following telegram from Hon. W. E. Hall, National Director, U. S. Public Service Reserve; which is self-explanatory:

"Delivery of Cards. For expeditious delivery of our cards and to hurry return of postal checks, I have shipped standard packages direct to every chairman of county or local councils of defense, each state. Where your agents in county differ, instruct them to secure supplies from such chairmen. Discontinue getting chauffeurs for motor mechanics' regiments. Press other kinds."

Please be governed accordingly, keeping me advised as to the number of registrants in your county. We regret the embarrassment caused by this delay, but Washington Departments have been overwhelmed with work. For this reason, at times our advice has been somewhat confusing.

We very much appreciate the work being done by your council, and urge a continuance of the same. As you know, we are face to face with one of the most important campaigns of the war, that of registration for war service. 250,000 men capable of service in ship-yards. Publicity in your county rests with you. Ask your daily papers to give the matter preferential consideration. Mr. W. H. Lewis, state director is now in Washington, attending a conference of U. S. Public Service Reserve and upon his return will issue bulletin containing further information.

Posters Are Placed. Several very fine posters have been placed in various stores in the city, by Secy. T. E. Orth, of the County Council of Defense calling attention to the great need of the navy for spy glasses and binoculars. The poster is very realistic. It shows a gun crew in action, waiting orders from the officer, who with his eyes bandaged, is vainly trying to see in which direction the attack is coming from. The appeal, "Will

WAR HAS COST U. S. TOTAL OF SEVEN BILLION

TOLL IN MONEY IS INCREASING MORE THAN \$7,000,000 A MONTH.

By Associated Press. Washington, Feb. 5.—Ten months of the war have cost the United States about \$7,100,000,000—at the rate of \$724,000,000 a month. More than half this huge sum or \$4,121,000,000 has been paid as loans to the allies, and the balance about \$3,000,000,000 represents America's outlay for its own war purposes, exclusive of more than \$600,000,000 for ordinary governmental expenses.

The war toll in money is increasing at the rate of more than \$100,000,000 a month and indications are now that the remaining months of the nation's first year as a belligerent in the war to nearly \$10,000,000,000 of which about \$5,000,000,000 will be loans to the allies and about the same amount for the army, navy, shipping board and other war agencies.

Government borrowings on the two Liberty Loans have paid for four fifths of the war cost to date, taxation and a few minor ordinary government receipts for about one fifth. The loan campaigns produced \$5,750,000,000 and \$1,250,000,000 came direct from the pockets of the people and will not have to be repaid. Financial demands of the war in the same amount for the army, navy, shipping board and other war agencies and by taxes which will begin soon to roll in from the first war tax act.

### SOLDIERS URGED TO GET QUICKLY WAR INSURANCE

RED CROSS POINTS OUT THAT FEBRUARY 12, IS LAST CHANCE

All families of enlisted men in Wichita Falls should see that the soldier has taken out government war insurance and the Red Cross again calls attention to the fact that on Feb. 12 all applications must be in to take advantage of the cheap rate the government is offering. Taking out this government insurance is the least that a soldier can do to be certain that his family will be provided for in the event that he fails to come back to them and the government desires that every man in the service be insured for some amount. The maximum is \$10,000.

The War Risk Insurance bureau has announced by telegram that it will accept telegram or cable authorization of representative to make application for insurance. For example the wife may wire her husband to authorize her by telegram to apply for insurance on his life. If he sends such a telegram of authorization it can be attached to the application for insurance and will be accepted as an appointment by the man of his wife as his representative. Such authorization must be given not later than Feb. 12.

The local chapter of the Red Cross asks that all those who have relatives in the army see that these men are insured. This may mean comfort in the future—instead of distress.

"WHEN DREAMS COME TRUE"

A TRACTIVE MUSICAL COMEDY "When Dreams Come True" the musical attraction which will play at the Wichita Theatre Thursday, Feb. 14 is a genuine hit, according to the New Orleans theatrical critics. One of them reviewed it as follows on the occasion of its recent showing in a New Orleans playhouse.

"All's well," sung by the sailor, and "Like hell," sung by Hedges, still carries the house. Comedy in the second act succeeds to the melodrama in the first and Carolee Gleason as Matilda, who has the "black on white" by which she fondly expects to annex a man, shows up strong. She is on the Charlotte Greenwood order, wearing a make-up that camouflages her pretiness, and getting by purely on her temperament that keeps the house in an uproar. Her dancing ability cannot be concealed in her attempt to carry the part of a country Jane Harlan Briggs, as Hercules Strong, is a detective who enlivens the entire play. His ability as a detective is fully up to that of Police Chief S. P. McMullen's finest here, and as an actor he is responsible for much of the fun in the play.

In the third act he unloads some choice graveyard literature, on this order: "Don't weep for me, I went straight to Heaven, first one from Los Angeles, since 1907." He has about a hundred gems like that, all of them with the most subtle wit if you don't care what you say, and he gets called back twice.

A jolly little side-comedy in the third is a burlesque on the movies, done by six of the principals, who seize the opportunity to have all the fun they can and they have it. So does the audience.

Flour Purity Economy

When it comes to shortenings, Cottolene is Queen of the Kitchen. Butter does some things well; other shortenings do other things. Wholesome Cottolene takes the place of all shortenings. It combines true economy with better cooking.

WOMAN'S MISSIONARY SOCIETY HAS ALL DAY MEETING

Monday's all day meeting of the Women's Missionary Society of the First Methodist Church south was one of unusual interest and pleasure. A delightful morning of social entertainment was spent, and at twelve o'clock a Hooverized luncheon was much enjoyed.

During the business meeting which opened at two in the afternoon, encouraging reports were read of the work of the circles and hope for a year of splendid work was expressed. Plans for improvements on the part of the society in regard to the organization which will add to the general attractiveness and comfort of the place were adopted. The following resolution was unanimously adopted by the society:

Whereas, we the Ladies of the Missionary Society of the First Methodist Episcopal Church South, Believing that in this time of war, we especially need the help of Almighty God and that we should observe His law.

Whereas, One of the commandments of God is that we should remember the Sabbath day to keep it holy, this commandment is being violated in our city.

Whereas, the opening of the moving picture shows is not only a violation of the law of God but an open violation of the laws of our state, and

Whereas, we believe the laws of Texas should be observed, respected and enforced by every citizen of our State.

Whereas we deny the statement which appeared in the Monday Morning Tribune leaving the impression that the women of Wichita Falls were favorable to moving picture shows on Sunday.

Therefore, be it resolved, we the Ladies of the Missionary Society, express our unalterable and uncompromising opposition to the opening of the picture shows and other like amusements on the Holy Sabbath.

FEDERAL CONTROL OF OIL INDUSTRY TO BEGIN TODAY

By Associated Press Washington, Feb. 5.—Government control of the oil industry became effective today under a proclamation of President Wilson authorizing Mark H. Requa, chief of the oil division of the Fuel Administration to establish a licensing system for all manufacturers or distributors of gross sales in excess of 100,000 barrels annually. The proclamation does not extend to gasoline or kerosene, but licenses for these commodities probably will be required soon.

The order was prompted by the necessity of establishing a supervised distributing system to aid in relieving the shortage caused by inadequate transportation facilities. Impaired railroad service has tended to lessen the supply usually available and the situation has been intensified by a marked curtailment of oil shipments from the Tampico fields in Mexico. The Mexican oil fleet has been cut nearly in half by the diversion of many of the vessels into other trades.

The fuel administration has established in the east a list of preferential consumers, whose demands for oil will be granted precedence in distributing the supply. Railroads and ships using oil for fuel had the priority list.

SUNDAY PICTURE SHOWS AND RESPECT FOR THE LAW.

Out at Call Field men are being trained for serious work on the battle fronts because Germany disregarded international law and invaded Belgium and sank American merchant ships on the open seas. These men are preparing to offer their very lives that respect for international law may be restored.

The soldier is the very embodiment of law. He is taught the highest respect for law and discipline; that is, training to act in accordance with rules based on law, is one of the most important things in the soldier's education. Yet in Wichita Falls we have made the presence of the military camp here the occasion for excusing the violation of a state law in a manner that is so open that all must know it.

Thus we have the anomaly of the law being brought into disrespect for the pleasure, it is claimed, of those who are in training to sell their lives at the dearest price that law may be respected.

Now it is comparatively a small question whether picture shows in Wichita Falls are opened or closed on Sunday, but it is a serious matter that we make these soldiers the excuse for trifling our own desire for pleasure at the cost of respect for the law.

It is unworthy of ourselves and unfair to our guests. Let us treat them like men and soldiers and not like spoiled children. There has been nothing in the conduct or attitude of these men to indicate that they expected or wanted anything at the cost of the convictions of honest people or in violation of any law or ordinance.

It is a poor tribute we pay these men when we camouflage the profiteering of a few and the desires of a number with what is misrepresented as the needs of the soldiers. This is plain speaking, and plain speaking has cost the Times business and patronage, but plain speaking is necessary if we are to be honest with ourselves and avoid wrong to others.

If it is desired and necessary that the men at Call Field have motion pictures on Sunday, the Times will be glad to join in any movement that will provide these pictures for them in a way that is not in violation of the state laws.

The legislature is to meet this month in special session, when matters connected with the training camps will come before the law-makers for special consideration. It ought not to be difficult to get legislation enacted that would legalize Sunday picture shows in army camp towns, if the military authorities and their advisors think them desirable or necessary.

Football games, such as played Sunday, baseball games and other contests and amusements, which are not commercialized, are not in violation of Texas laws nor of the ordinances of the City of Wichita Falls, and he who would protest against them would receive scant attention. The Times does not want to be understood as raising any question concerning these diversions. It believes that the open and flagrant violation of the law, after warnings by the grand jury and after indictments have been returned, if permitted to go unrebuked, will encourage wholesale disregard of the law, and is a dangerous example against which our officers ought to act. It feels that if the laws must be violated and disregarded that we ought not to make soldiers the excuse.

It believes that a line must be drawn but it does not believe this line should stop this side of the law, especially since the issue has been raised, as it was raised when an effort was made to "pass the buck" to the City Council some weeks since.

TODAY'S MARKETS

CORN MARKET IS SOMEWHAT EASED BY WEATHER NEWS

Chicago, Feb. 5.—Moderating temperatures over much of the corn belt tended today to ease the corn market here. Until there should be an actual increase of arrivals, however, sellers were inclined to be cautious. Most of the trading was in small lots. Opening prices which varied from unchanged figures to 1/2 lower, with March \$1.26 1/2 and May \$1.24 1/2 to \$1.24 1/2 were followed by continued slackness of values.

COTTON MARKET IS NERVOUS FOR BIG PART OF DAY

New York, Feb. 5.—The cotton market showed continued nervousness early today but a somewhat irregular and unsettled opening was followed by higher prices on covering and trade buying. Selling by local and Wall Street operators and houses with Liverpool connections prevented a full response to the higher cables and first prices were 1 to 1 1/2 points higher. Offerings were light after the first batch of selling order had been absorbed, however, and before the end of the first hour March had sold up to 30.59 and May to 29.94, or 27 to 27 1/2 points above the closing price of last Saturday.

New Orleans Cotton. New Orleans, Feb. 5.—Good cables and a better feeling regarding market legislation resulted in a general demand for cotton in the early trading here today. Prices were lifted 19 to 28 points in the first half hour. The undertone was very steady.

### THRIFT AND WAR SAVINGS SALES IN CITY ARE LARGE

(Continued from Page 1.)

...being put on in the public schools by the women's committee, assisted by Supt. Lee Clark and Friday it is expected that the awards for the Thrift Essay contest will be made. The pupils are having the savings idea brought before them in every way possible by the teachers, agencies for the sale of the stamps being appointed in each school, and much splendid work is being done by this division of the women's committee.

Yesterday afternoon the Boy Scouts paraded the downtown section with their Thrift Stamp banners and patrol flags. The various patrols had offered their services for Thrift Day and Mrs. Lee gave the special mention for their work in assisting the ladies at the booths and in making themselves generally useful. Those who sold stamps in the business district Monday were: Misses Grace Nolen, Helen Stone, Gladys Herron, Polly Roberts; Mesdames W. B. Shepherd, Alford, S. J. Ashmore, Fitzhugh, Mary Boyd, Robertson, Bolding, Harry Weeks. Today's workers were: Mesdames Bolding, Myttinger, Fitzhugh, Abe, Marcella, Lee, Smith, Poggenohlt, J. Daniels, J. W. Stone, Misses Helen Stone, Grace Nolen, Polly Roberts, Margaret Noble and Marie Garrison.

for the winning of the war. "Other emergencies will overtake us," Senator Wisagworth said in conclusion, "if we are wise and prudent and far sighted we shall establish some agency in our government, whether it be called a war cabinet or by some other name, whose members shall sit around a council table, every day, morning, noon and night, and devote their whole time and every ability toward working out in advance the methods of meeting and overcoming the emergencies."

### WICHITA COUNTY RED CROSS

With only seven workers present on Monday, the Red Cross workroom is in danger of having its output decreased very appreciably and today a distress call has gone forth for more workers. This spring the women of America are called on to assist the men in making the big drive against the enemy which has been forecast throughout the winter. Wichita Falls has been asked to double or even triple the normal output of the workroom for 1918. Monday's record had given the instructors cause to fear that the chapter will fall down unless there is a revival of interest, they say.  
There are instructors and supplies to keep hundreds of women busy each week and there is no lack of room. There is a real need for the bandages, hospital garments and supplies which are being made as the daily reports from the war zone tell of Americans in the fight, some of them necessarily wounded and dying. The workroom instructors hope that the plea will be all that is necessary.

### Pleas of Guilty Are Given In Court and Two Fines Assessed

A five dollar fine was imposed on W. A. Norworsky in the county court this morning on his plea of guilty to giving a \$2 check without funds to cover it.  
Mrs. Myrtle Singleton pleaded guilty to simple assault and received a \$5 fine. The assault charges grew out of some trouble at the Union laundry between Mrs. Singleton and another woman worker.

### Year In Penitentiary Is Punishment Fixed For Crayton Smith

### Chihuahua City Is Filled With Thieves; People Remain at Home

By Associated Press.  
Juarez, Mex., Feb. 4.—Conditions have grown so bad in Chihuahua City few venture from their homes after dark, passengers arriving here last night said. Robberies and murders occur almost nightly and there is an organized league which has terrorized one section of the city until all the police and gendarmes in that district have resigned for fear of them. Recently a woman was kidnapped from her home and held for ransom by the robbers who released her upon the payment of one thousand pesos.  
Men go about at night dressed in federal uniforms and rob, assault and kill the passengers added. Whether these men are members of the gang or are using the uniforms as disguises is not known.

of Athens where soldiers of Greek infantry regiments mutinied according to an Athens dispatch to the Times. One hundred and fifty arrests were made according to the dispatch. Former premier Skouloudis and Lambrinos and other former cabinet members under impeachment have been ordered to consider themselves under arrest in their own homes where they are guarded closely by police. All political prisoners of military age undergo sentences in Athens have been sent to the Fortress of Nauplia.  
The news Hestia of Athens, the dispatch adds, calls the Lamia incident a blushing in disgrace, saying: "It furnishes positive proof of the underlying inflection which the Venizelos government trusted it could not cure without surgical remedies."
