AMERICA BUILDING NUMBER OF CITIES BEHIND ITS LINES

CORRESPONDENT WRITES OF TRIP OVER TRENCHES AND BACK OF THEM

GREAT INDUSTRIES HUM

British at Present Are Holding Longest Front but Meantime Samnies Are Being Poured In

By GEORGE T. BYE London, Contro American (By Cable After Forwarding by Mail from France, March 3.—I am still sneezing from a very long spell in the American trenches. From 8 until 3:30 I sloshed around on our fighting "camps" in low lying Lorraine, and then, with the men, had to make our way back to headquarters in pitchy blackness, no light on the car showing, and trees and supply wagons appearing suddenly out of the gloom to our exceeding inconvenience. The blackness was pitchy black. Behind us were fitful, weird pyrotechnic displays, the flares that Americans and Germans occasionally shot up to give light to the deadly game going on between the trenches. Some of the pyrotechnics were skyrockets that rose gracefully in long parabolas and at full height yielded little parachutes suspending bright balls of white fire. As long as each light lasted there was a brittle feeling in joy of being in an arena near Verdun crouching tensely for a death grip.

Most on Hun Side I am glad to say that most of the flares went up on the German side, practically all of them in fact. The apprehension was rightly on the German side for there were several little parties of Yankees out on patrol excursions in front of our lines and when each light flashed followed invariably by biting racket from German machine guns. I hoped as hard as I could hope that my country out there in the cold mud would be still and safe under the wise thick, and then in the next short interval of blackness, would drag themselves slowly forward to success.

This stretch of front line that we hold is soul-impressing, but the fighting in it is a trifling effort compared with the balance of the American war activity in France. It is but the point of contact with the enemy, the upshot of the funnel into which we are pouring in ever increasing streams of demoralizing commodities to the Kaiser, and all that he represents. I am touring the great area of that tunnel back of our lines. I have seen the greatest cold storage plant in the world, erected by and for our army in France. I have been in our locomotive works where full sized American motors are being turned out many a month, and all rolling out on American rails to the music of that deep throated whistling

GRANDMOTHER KNEW

There Was Nothing So Good For Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters give without the plaster so without the blister.

Mustard does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Just massage Musteroil in with the finger-tips gently. See how quickly it brings relief—how speedily the pain disappears.

Use Musteroil for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lameness, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia), 50c and 60c jars, hospital size \$2.50.

SIX-YEAR-OLD HEROINE SAVES BABY BROTHER IN FIRE

Rosie Bromberg, six years old, rescuer of her baby brother from a fire that threatened the building in which she lived, is grieving because older and wiser heads prevented her from making the effort that she is convinced would have saved the life of her mother. Mrs. Bromberg was working a cleaning substance in the family bedroom on the second floor apartment when Rosie saw the sputter and flash, which, according to the lesson of her school fire drill, meant but one thing: She flung open the door, encircled one-year-old Allen with her arms, and walked slowly down the stairs to the street, just as she had been told one should do in the presence of fire. Rosie then turned back to the burning building in an effort to save her mother. That was not the way the instructors in the school fire drill had said one should act in the presence of flames, however, and Rosie struggled, but the stronger arms of those about her prevailed, and she remained in the street.

that is being heard for the first time in Europe. I have been in an automobile plant, remnant of Detroit, built of steel and brick and concrete, with the roof and sides largely of prism glass. I have had a ride in a parade of giant motor trucks moving from a coastal base toward our interior bases. And when the drivers of these trucks had made delivery they were to jump on a return train and take out other long processions all ready for themselves complete for duty, fitted at the base workshops with special bodies built on the spot in France by our army artificers. I have seen steel, concrete and prism glass depots and warehouses shipped across the Atlantic in numbered sections, and erected almost overnight. I have seen mile up on rails of heavy rails laid in various parts of France and this work has only begun so far as its full extent is concerned. In fact, if Germany appreciated the compass of the American Foundation for war back of the battle front, Hunland surely would get weak in the knees and begin to ask itself: "How can we hope to overcome the allies when this newcomer is preparing his military area as if he were going to send forward millions upon millions of fighting men, adequately supplied with food, and with communications laid out on the apparent assumption that the war is to last at least 20 years." I wish German spies might see the rows of huts for prisoners we have already erected.

Heavy Punishment. This all means terrific punishment for the German armies and peoples, punishment that will continue with rapidly increasing systematic fury. I may translate German into English. For the immediate present—that is these last few days of winter—that much of an onslaught against Germans can be expected from Americans in the trenches, although our lines are growing.

Strategic. The immediate present our attention must turn to the British front whose area is also widening and deepening. I toured the British front for a week before I went into our Lorraine trenches. What I saw and heard makes me smile. I found the British all smiling. They were discussing the threatened vast offensive by the Germans. Their only fear is that the Germans will change their minds and not try to smash forward. Oh, if they will only come! that's the British sentiment. And if they do come—

British Strength. Americans and French must look up to the British armies which are today undoubtedly the most formidable military power in the world as a great protector. The British hold the longest line, the most crucial positions on the decisive western front. Their divisions are up to full strength. Their military supplies are more than ample. Each British Tommy is known to be worth more than two boche fighters, so that the British forces may be said to be far superior numerically to the Germans.

And if that much advertised German offensive doesn't come—well, why are the British "digging in" for the first time in front of Paris? Why the elaborate defensive works ahead of the whole British line? In the meantime, the great American push in France is almost exclusively constructional. But soon the trenches will be crowded with mud and tanks and soon the air will be filled with them, and undoubtedly the last will be first in the word capitulation: Herr Kaiser, Over Lord of all the Gooses Steppers—Good-bye Night!

Democrats Are Again In Control of House In New York State

New York, Mar. 6.—Women voters today expressed jubilation over their participation in yesterday's special congressional election here, the first in which they have been able to vote in this state. Through the victories won by the Democrats in four districts of the state, the Democrats regained control of the House of Representatives. Fully 81 per cent of the women who registered cast their ballots, representing nearly fifty per cent of the total vote. The representatives are John J. Delaney in the Seventh, succeeding John J. Fitzgerald; William E. Clark in the Eighth, succeeding Daniel J. Griffin; Jerome F. Donovan in the Twenty First, succeeding Murray Hulbert; and Anthony J. Griffin in the Twenty Second, succeeding Henry Bruckner. Each victor announced his intention to stand by the administration and its war policy.

WICHITA COUNTY RED CROSS

Editor of the Times: The Red Cross Chapter of Fort Worth and Tarrant County, has established through its Military Relief and Camp Service Committee, an Information Bureau. We will be glad to answer telegrams, letters and inquiries of all kinds—(if telephone or telegrams prepay messages). Information will be furnished upon request regarding the health or welfare of any soldier. In fact this is a general information bureau for the benefit of relatives and friends of soldiers, all furnished free. If you have intended visiting Camp Bowie, we will be glad to furnish you general information, so you can locate a soldier without delay or inconvenience. In making inquiry regarding any soldier, please be certain to give his full name, the number of his regiment and the branch of service in which he is serving. MRS. J. D. COLLETT, Chairman. Address all communications as follows: Military Relief and Camp Service, 7th & Houston Streets, Fort Worth, Texas.

RELIGIOUS CENSUS TAKERS WILL MEET SUNDAY AFTERNOON

The persons who will assist in taking the Religious Census of the city next Tuesday morning are requested to meet Sunday afternoon at 4:00 p. m. at the First Baptist Church for instruction. "A large number of workers' names have already been turned in, and we expect at least two hundred persons present Sunday afternoon to receive instruction in taking the census," said E. C. Huchabee, general chairman of the executive committee.

Will Be of Value. "The census will be of immense value to every church in the city," says Rev. O. L. Powers, pastor First Baptist Church. "Personally, I do not see how we can do without taking the census any longer. Many new people are moving to the city every month, also, many of the present members of the Church have moved to new addresses." "We need the census very much," said Rev. N. F. Grafton, pastor First Presbyterian Church. "I hope that all of the homes of the city will be open to the men and women sent out to take the census, and that correct information will be gladly given. It means so much to the Religious work of the city to get this information now."

War Takes But Few Hours. "The census of the entire city can be taken in less than two hours Tuesday morning if the people are expecting the workers and have the information which is desired ready," said Rev. S. A. Barnes, pastor First Methodist Church, South. "Also, the success of the census will largely depend on the number of persons who come out to the First Baptist Church Sunday afternoon to receive instruction. A card on which the census will be taken, will be given to the press this week, so that it will be known before hand what information is wanted."

WICHITA FALLS INSURANCE MAN TELLS OF FRIEND'S RECOVERY

"He suffered considerably from gas in stomach and colic attacks, and at times was very yellow. His doctors diagnosed his ailment as gall bladder troubles, and that an operation was necessary. Some one persuaded him to try Mayr's Wonderful Remedy. Since taking it one year ago he tells me he has been able to get anything he likes to eat, and that the simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Mack Taylor.—Adv.

# 1,716,000,000 Pounds of Flour Saved

if each of our 22,000,000 families use this recipe instead of white bread.  
 One loaf saves 11,000,000 pounds; three loaves a week for a year means 1,716,000,000 pounds saved!

## Enough to Feed the Entire Allied Army

### Corn Bread with Rye Flour

- |                                       |                          |
|---------------------------------------|--------------------------|
| 1 cup corn meal                       | 1 teaspoon salt          |
| 1 cup rye flour                       | 1 egg well               |
| 2 tablespoons sugar                   | 1 egg well               |
| 5 teaspoons Dr. Price's Baking Powder | 2 tablespoons shortening |

Boil flour or oat flour may be used instead of rye flour with equally good results. Mix dry ingredients into bowl; add milk, beaten egg and melted shortening. Stir into greased pan, allow to stand in warm place 20 to 25 minutes and bake in moderate oven 40 to 45 minutes.

New Red, White and Blue booklet, "Best War Time Recipes," containing many other recipes for making delicious and wholesome wheat saving foods, mailed free.

DR. PRICE'S CREAM BAKING POWDER, 1011 Independence Boulevard, Chicago

## FOOD WILL WIN THE WAR

### "WASTE IS CRIMINAL"

"Waste now is criminal."  
 This is the statement of Secretary of the Treasury William G. McAdoo, in a plea sent out from Washington to the American people asking that every citizen do his part to win the war. The government is asking that every citizen do his part to win the war. The government is asking that every citizen do his part to win the war.

The people are going to face many trials during the period of the war, which experts think is going to be prolonged for at least three years. They are beginning to feel the first little pinch, but they must be prepared for future sacrifices.  
 The man who in this day is making it hardest for the people is the profiteer who, on the plea of "war," charges two prices for his goods and forces money that should be expended for war savings stamps and other government issues, from consumers into his own private coffers. He does this under the guise of patriotism, but the Kaiser calls him friend.  
 No task has ever been set before the American people that they could not accomplish. The task of learning to save is not going to be an exception any more than is the task of whipping Germany. It may take several years to complete the job, but the American people have undertaken it and it will be successfully accomplished.

### CLEAN-UP CAMPAIGN

The Civic League is planning another general spring clean-up for Wichita Falls, and this time the work may be done under the eye of the municipal authorities.  
 There is no reason why this should not be made the cleanest city in Texas. Its people are progressive and are all in sympathy with moves which make for the betterment of local conditions.  
 But it is going to take more than tacit assent or spoken approval to make this the banner clean-up of the state. It is going to take a little actual work upon the part of each one of us. Back lots must be raked and swept and leaky water pipes must be mended. Every effort must be made to keep the streets clean to make his place sanitary in every respect and, as the next step, more beautiful.  
 We believe that the general spring clean-up of the city will prove a success and thereafter it is to be hoped that every day will be clean-up day to the individual householders, for it is easier to keep a town clean than to clean it up spasmodically.

### MORE MONEY REQUIRED FOR NEGRO REFORMATORY

By Associated Press.  
 Austin, Texas, Mar. 6.—In a message to the legislature today Governor Hobby suggested that such action as may be deemed necessary to relieve conditions be taken in connection with the law enacted by the last legislature which established on the "Ferguson State Farm" the "State Training School for Negro Boys."  
 The legislature appropriated \$25,000 for establishment of this institution for the transfer to that place of negro boys located in the state training school in Coryell county. The prison commission has advised the governor that at least \$200,000 will be necessary to carry out the provisions of the bill if suitable buildings and facilities are provided.  
 The attorney general has held that an additional appropriation will be legal. The governor attached the attorney general's opinion to his message and added:  
 "This entire matter is submitted to your body for such action as you may desire to take."

### GIRL WHO KILLS PARENT TAKEN TO STATE HOME

By Associated Press.  
 Fort Worth, Texas, Mar. 6.—Gertrude Ulrich, thirteen-year-old school girl who confessed yesterday that she killed her father Saturday by putting poison in his coffee, was taken to the state home for girls in Gainesville this morning. Judge Brown, after hearing her statement yesterday, decreed that she remain in the home an indefinite time or until she is 21.

## FIFTEEN WELLS ARE COMPLETED IN PAST WEEK

CONSIDERABLE ACTIVITY IS DISPLAYED IN NEARBY FIELDS.  
 Last week's oil activity was featured by fifteen wells completed in the Electric field, and twenty in the Burk Burnett, with a total for the week's new production of \$50 bbls. This is a very marked increase in the number of completions, in spite of the drought and the great scarcity of water. The Sunshine Hill district, and especially the Ward and Todd tract, furnished most of the excitement. Three dusters were found in the Burk Burnett pool.  
 Sunshine Hill  
 Sunshine Hill completions were as follows:  
 Liberty Loan Co.'s Ward and Todd No. 1, completed from 579 to 589 feet, good for 75 bbls.; Heidsiecker and Todd's Ward and Todd No. 3 was a 50 bbl. well from 585 to 600 feet; the Acme Oil Co.'s Ward and Todd No. 4 was good for the same amount from 585 to 600 feet; Brewer Massey et al's Ward and Todd No. 1 was drilled for the second time from 822 to 835 feet and is also good for 50 bbls.; Works et al's Ward and Todd No. 2 is making 40 bbls. from 585 to 600 feet; Dale et al's Ward and Todd No. 7 is good for 25 bbls. from 585 to 600 feet; Dale et al's Ward and Todd No. 5 and 6 were both drilled in from 585 to 600 feet each, good for 10 bbls.; Murphy and Lamm's Ward and Todd No. 1 was finished in the second sand, from 821 to 835 feet making 25 bbls.  
 Many Being Drilled  
 There is a very large number of drilling wells in this district, twenty-two having been reported, at depths varying from 100 to 550 feet.  
 In the older part of the pool, very little drilling is going on, owing to the lack of water, but there were one or two good wells brought in. Among these were the Magnolia Petroleum Co.'s R. S. Allen No. 77 which has been drilled deeper after failing in the shallow sand and came in fresh from 1594 to 1595 feet making 75 bbls.; The Texas Co.'s No. 160 was a 40 bbl. well at 560 feet, with ten feet of pay; its Wagoner No. 149 has finally been completed from 1425 to 1625 feet and was good for 35 bbls.; the Skinner No. 33 and 34 were 20 bbl. pumps, the former from 490 to 703 feet and the latter from 575 to 595 feet and D. A. Smith's Zieslet No. 1 was abandoned at 2000 feet a dry hole.

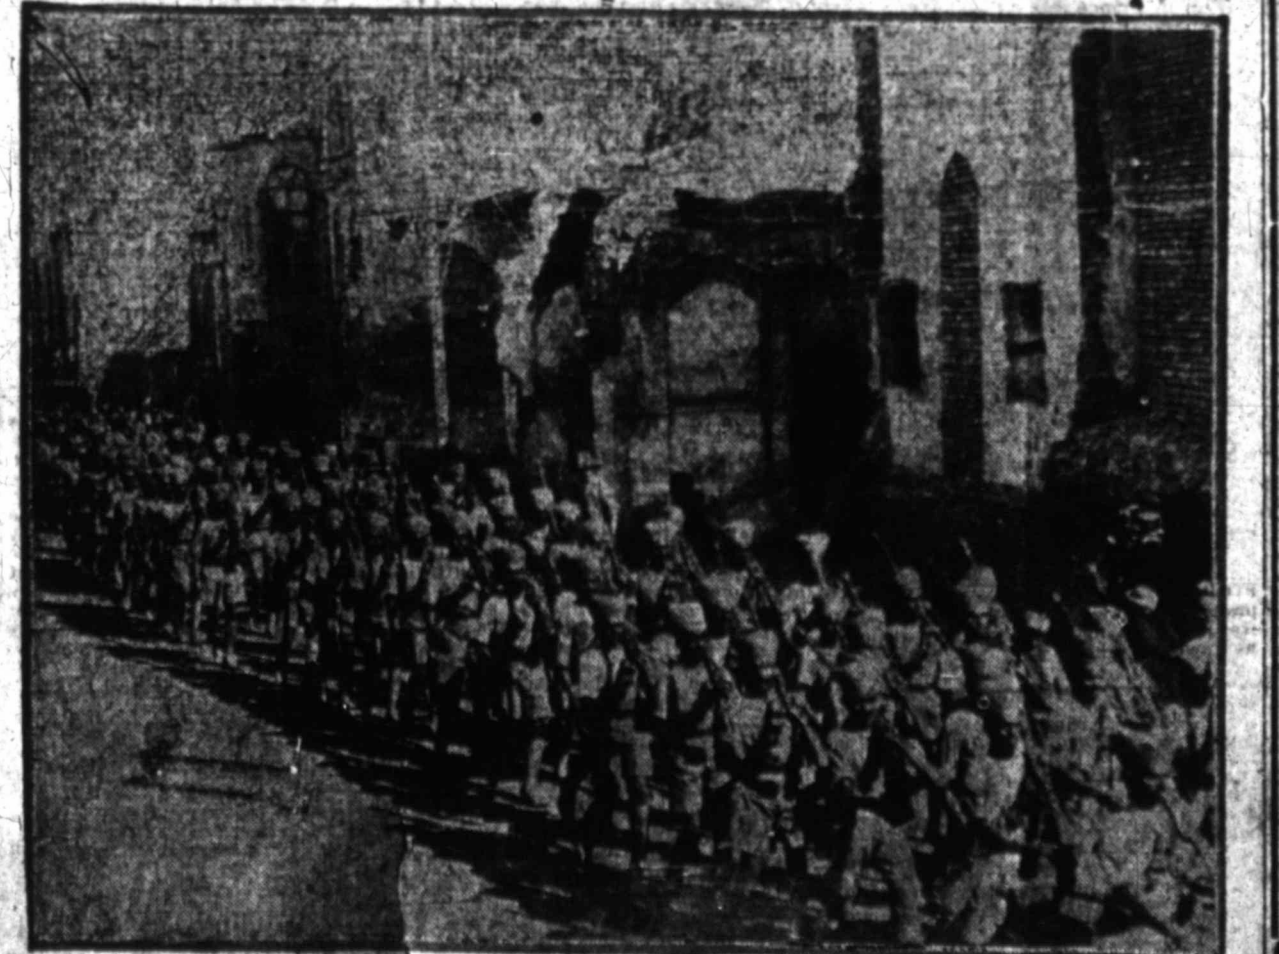

## AERIAL ACTIVITY IS RESUMED UPON AMERICAN LINE

By Associated Press.  
 With the American Army in France, Tuesday, Mar. 5.—This has been a quiet day in the American sector northwest of Toul. The artillery on both sides seemed content to fire a few destructive shots. The shells were infrequent until late in the afternoon when the American artillery livened up a bit, firing on a town in the enemy lines where troops had been seen. Although the weather was bright and clear for the first time in several days, a mist arose from the snow and observation was obscured by the ground haze. It is noted that the advantage of the heavy artillery was operated freely. Groups of our planes came over for photographic work but were not high in the air by the American anti-aircraft guns. Planes from the American lines also were out in force.  
 In the trenches the men divided their time between watching the aerial operations and trying themselves in the dugouts.  
 Observation balloons were up for the first time in several days, being stationed at intervals along the front as far as the eye could see in both directions. For the first time in the war an American observation balloon, fully manned and protected by Americans, went up. This is the first complete work of the American service to appear in the field. For two days it had been ready to ascend, the observers having been up in a French balloon several days previously. Today an American balloon company was working where the French Mithras have been. The bag remained in the air several hours, it rose higher than either the French or the Germans in an attempt to reach an altitude especially favorable for observation. While it was at the highest point the waters saw two airplanes, with the black cross of the enemy on their wings, headed in their direction. The balloon was hauled down so that it might be grounded quickly if necessary. American gunners were on duty at many places nearby for the balloon was protected heavily. They stood by their guns but the enemy planes, sailing across the sky, with their wings streaming out behind them like the tail of a comet, suddenly changed their course and headed for home. The appearance of a squadron of planes from behind the American lines bearing the insignia of the French on their wings probably was the cause.

## DEPARTMENTS SEEK COORDINATION OF ALL FIELD WORK

SECRET SERVICE AND OTHER INVESTIGATIVE WORK TOGETHER  
 By Associated Press.  
 Washington, Mar. 6.—Representatives of the various government bureaus of investigation and secret service were called into conference today at the department of justice to discuss means of coordinating their work and eliminating duplication in the ferreting out of enemy agents.  
 These meetings have been held weekly for nearly two months. It was disclosed today, although heretofore there has been taken to maintain secrecy. Officials finally consented to publication of the facts after it became evident that propaganda is being conducted throughout the country for some sort of consolidation of the bureaus.  
 Those at conference are the department of justice, bureau of investigation, the largest of the government secret service agencies, the intelligence bureau of the army, navy and state departments, respectively, and the treasury's customs bureau and secret service. The meetings were called first in January by John Lord O'Brien, special assistant of Attorney General Gregory, in charge of war work, to supplement a system which had existed for some time for exchanging information through the army intelligence bureau's clearing house.  
 These discussions, the participants say, have demonstrated the need for close coordination of the bureaus but have emphasized that each has its own particular field and that the overlapping of activity is comparatively slight.  
 Personal Friction  
 Personal friction has arisen in many cases between the field agents of these various services who may have been working on the same cases and to eliminate these situations is one of the principal purposes of the departmental conferences which are considered entirely unofficial, and rather personal in character.  
 The coordination of the different bureaus is known to have been discussed at recent cabinet meetings, but is said that absolute consolidation has been frowned upon by most cabinet members.

# No Spring House-cleaning This Year!

Thousands of housewives all over the land are exempt from that annual pest, "Spring House-cleaning!"  
 They have a cleaner home all the time, and with far less effort and trouble, by using an

## ELECTRIC VACUUM CLEANER

Just think. When you clean carpets or rugs with an Electric Vacuum Cleaner they're clean through and through, from top to bottom of the fabric. Same way with upholstery, curtains, draperies, clothing, fabrics.  
 It does just what a thorough beating, sweeping or even washing might otherwise do and saves all that wear, tear and labor.  
 For dusting mouldings, top window sills, corners, crevices, out-of-the-way places like closet shelves, chests, trunks, there's no way to compare with the Vacuum Cleaner. No dust is raised—it is collected at the same time it is gathered. No "dusting" to do.  
 Try this in your own home just once and you will have mighty little use for the old dust pan and broom.  
 We will deliver a machine without obligation or cost—let you make your own try-out—the Vacuum Cleaner itself to do all the talking.  
 Telephone 837 for a demonstration of the famous Ohio-Tec.

# TODAY'S MARKETS

## COTTON DECLINES ON FOREIGN NEWS; TONE IS WEAKER

New York, March 6.—Reactionary sentiment was more in evidence at the opening of the cotton market today and after starting at a decline of 1/16 cent, active months' soon sold some 20 to 22 points under last night's closing figures. Local brokers were more inclined to attribute the easier tone to a weaker technical tone following the recent extended advance, than to any fresh feature in the news, but there was some bearish comment on reports of further restrictions on the output of British spinners and private Liverpool cables stating that there would be no allotment of freight for March by the British shipping contractor.

May sold off to 31.88 and October 30.55 but there was continued trading in the decline and later fluctuations were irregular.

Cotton futures opened steady March 32.55; July 31.82; Oct. 30.50; Dec. 30.28.

The reaction extended to 31.80 for May and 30.20 for October before the end of the morning with the general showing not. Some of the day's points. There was selling of new crop against purchases of July which accounted for the relatively easy 1/16 cent of late deliveries while the general trading toward midday was bullish. Some advices covering and New Orleans buying.

Cotton closed steady.

## PRICES OF CORN ARE HARDENED BY WEATHER REPORT

Chicago, March 6.—Corn prices hardened today owing more or less to unfavorable weather. Considerable notice was taken of an estimate that only 45.1 percent of farm stocks were of merchantable quality as against 84 percent last year. On the other hand, the total stock of corn on farm March 1 was figured at 1,454,000,000 bushels, an aggregate surpassing any previous record.

Scarcities of offerings resulted in an upturn of the oats market. After opening unchanged to 3/4 higher prices secured additional gains.

Strength in hog values lifted provisions.

Lard led the advance.

A slight improvement in the average quality or arrivals was noted. There was said also to be a better supply of cars in Illinois. Prices closed steady with May 1.72 1/4, a net advance of a shade.

Most of the buying was for shorts and when their wants had been supplied, the market underwent a reaction.

## JOHN E. REDMOND, IRISH LEADER, DIES SUDDENLY

London, March 6.—John E. Redmond, the Irish Nationalist leader died this morning.

Mr. Redmond, who underwent an operation in London, died after a few days' illness. He was 62 years of age and had been suffering from a long illness since the fair day yesterday and apparently was maintaining the progress shown Monday.

The Irish convention which had been supported by Mr. Redmond yesterday adopted a message of sympathy in which an earnest wish was expressed for his early and complete recovery.

Mr. Redmond passed away peacefully at 7:45 o'clock this morning. Death was due to heart failure, following the recent operation.

King George, when he was informed of the death of the Nationalist leader was deeply shocked and expressed his profound regret. Premier Lloyd George, who had been in the city when he learned the news, the premier will move an appropriate resolution in the House of Commons at the earliest opportunity.

It is expected the funeral will take place in Dublin. Simultaneously a solemn requiem mass will be celebrated in Westminster Cathedral.

## MANY REGISTRANTS STILL TO REPORT FOR EXAMINATION

Two hundred and fifty-seven registrants have so far failed to report for examination, and their names are published below. The exemption board states that it is the duty of these men either to report at once to the board, or to notify it as to why they have not reported for examination.

222 friends of these men, who should appear to see their names in the following list, will be helping to avoid a good deal of trouble by informing them of the facts regarding prompt notification, or appearance before the board the list follows:

- 129—Herman C. McWhorter.
- 437—Felix Kellermuir.

## GERMANS ADDING TO THEIR FORCE ON WEST FRONT

By Associated Press. —The Germans are still adding to the number of their divisions on the western front. General F. B. Maurice, chief director of military operations at the war office, declared in his weekly talk with the Associated Press today: "The Germans now have sixteen divisions more than the allies in the west. He said, but this did not mean that they were superior in strength, as the allied divisions were numerically larger."

## PERSONALS

- Hanan Officers' Boots

## WOOL CASES ARE BOTH REVERSED BY HIGH COURT

Two cases against J. Wool, Wichita Falls second hand dealer, for receiving stolen property, convictions being secured in each case, one in the 26th and the second in the 18th district court, were today reversed and remanded by the court of criminal appeals, according to notice sent to Wool's attorney Bernard Martin. The cases grew out of the burglary of the store of W. W. Viles at Burkburnett, Wool and Mike Levine being charged with receiving the goods stolen from the Burkburnett store. Levine pleaded guilty and was pardoned when he had served a few months of his sentence. Wool's cases had been on appeal.

The reversal of the court was due to the introduction of certain extraneous testimony regarding numerous burglaries which had been occurring in Wichita Falls at the time of the Burkburnett burglary. The court held this to be in error.

## Clubs of City Asked To Form War Savings Societies in City

Each organization, and club in Wichita Falls and Wichita county will be asked to form a War Savings Society by members of the Woman's Executive Committee of the county organization. Plans for these organizations were made at a meeting of the executive committee held Tuesday afternoon following the Civic League meeting. Mrs. J. W. Lee, the county chairman, called the meeting and the county organizer, R. E. Shepherd met with the committees. Each club, study and social in the city and county will be visited within a short time by members of the woman's committee and it is hoped to have a net work of War Savings societies throughout the county to take in all individuals through club affiliations.

MAJOR GENERAL JOHN W. RUCKMAN FIRM IN STATEMENT THAT SAN ANTONIO HAS NOT YET BEEN THOROUGHLY CLEANED UP

Austin, Tex., March 6.—The most interesting document that has come to Austin in many a day is the statement of Major General John W. Ruckman of the United States Army which in a circular form was distributed to all members of the Legislature Monday morning.

General Ruckman is a gruff soldier, his use of English is limited to the exact expression of his thoughts. He does not mince words. And what he says of San Antonio's alleged clean-up is distinctly interesting reading.

War Be Misrepresented. "But one reason induces the writer to enter the discussion through the public press. Probably no subject before the people today will be so thoroughly discussed as this one during the next few weeks."

MEMBERS OF CONGRESS PRAISE TWO BROWNING GUNS IN TESTS

Officers of the American and allied armies, Senators, Representatives and high government officials witnessed at the Congress Heights rifle range, at Washington, D. C., a spectacular demonstration of the new Browning automatic rifle and the Browning machine gun, recently adopted by the War Department.

Only a few minor changes were made in this week's price list as quoted by the committee of housewives, wholesalers and retailers composing the price suggestion committee which met Tuesday in weekly session.

AMERICANS SEEK HOME LIFE WHEN OFF DUTY ABROAD

By Margaret Walter. London.—When the American girl first began to come to England, she was a novelty. She was a young woman, fresh, and full of life.

HOUSTON TO MAKE TALK AT DALLAS WAR WORK MEET

The Publicity Committee of the Texas State Council of Defense, acting under the direction of the Council of National Defense at Washington, has called a conference of all non-military war work forces of Texas to be held at Dallas, Texas, on Tuesday, March 12, and at Houston on Wednesday, March 13.

MISS SADIE OLIVER Visits Schools in And Around Electra

Continuing her work for food production and flour and meat substitution, Miss Sadie Oliver, county food demonstrator, this week visited the schools in and around Electra and organized other canning and poultry clubs and interested the housekeepers in the work of substitution.

BETTER THAN CALOMEL Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

LOAD OF BARLEY FLOUR RECEIVED FOR THIS MARKET

Flour substitutes and the cash and carry system received the attention of the Price Suggestion committee at its meeting Tuesday, G. L. Fontaine, of the Wichita Mill, now representing the milling interests of the city, taking the place of Overton McDowell, who resigned because of duties calling him out of town, reported that the mill had secured a car load of barley flour in the north and would have it here as soon as possible to put on the market.

AMERICAN TROOPS AT ONE POINT ARE DEEP IN QUARRY

By Associated Press. With the American Army in France, Sunday, Mar. 3.—Some of the American troops in the American front-line sector are having an experience of cave life behind the front line trenches their billets being deep underground quarries. The correspondents on a visit to this sector found them occupying positions held by the Germans less than a year ago. Most of the Americans however, are living in the trenches. The correspondents on a visit to this sector found them occupying positions held by the Germans less than a year ago.

### COUNTY ENGINEER BUSY LAYING OFF ROAD MEN'S WORK

PIPES TO BE IMPROVED ARE BEING CONSIDERED BY FORCE OF EXPERTS

Preparatory to the commencement of construction on Wichita county's road work, which will begin on roads in all four of the commissioner's precincts, J. B. Crockett, the county road engineer and his party of road and office engineers, are concluding their work of laying off the first few miles of the road, which has been designated as first in each precinct. The plan is to keep just ahead of the road contractors with the surveying party, making the round of all the roads being worked about once a week.

**Office and Road Forces**  
The local office force, of which R. E. Schiller is chief engineer, and the road force, headed by J. M. Isbell, has been supplemented by Mr. Crockett until the required number of draftsmen, engineers and road chain and tape men have been secured for the work. William Rosenfeld, with the Santa Fe at Beatmont, and J. G. King, now with the Katy at Dallas, engineers and the following Wichita Falls young men will make up the party: Hodgins, Hohatsch, Coleburn, Taylor and Steger.

**Womack Has Contract**  
The Womack Construction company which has the contract, has let out sub-contracts for a number of road supply companies and materials are being collected in each precinct, ready to start work Monday morning.

### City Marshal Must See Bonds Hereafter Or Jail Defendants

City Marshal Lenley Humphreys announced this morning that he had frozen the cookies of his large and tender heart permanently against defendants whom he releases on parole and who break their parole. Many times of late he has allowed himself to be wheedled out of exacting bond for re-appearances with the result that there has been no re-appearances, and now he says he is through with this weakness. Hereafter, whenever trial has to be postponed, bond must be given, or the defendant will wait for trial in some secure place where the chief can produce him—or, as in recent cases, her—at a moment's notice.

### British War Bonds Readily Sold While Tanks Tour London

By Associated Press  
London, Mar. 6.—Before the close of the second day of the week's war bond campaign, tanks which are touring London and the provinces had brought in nearly 25,000,000 pounds.  
The Bishop of London, speaking from the top of a tank today, declared he had invested his last hundred pounds in bonds and that all his income was gone. He said he was having his land plowed for allotments and his houses had been turned into Red Cross hospitals.

### CHILD IS BRUISED WHEN HIT BY CAR; DRIVER GOES ON

Herbert Campbell 4 year old son of Mr. and Mrs. Robert Campbell, 1194 14th, was painfully bruised about the head and mouth Tuesday afternoon, when an automobile, occupied by three men, swerving into the ditch in which he was playing knocked him down. According to eye-witnesses, the little boy was playing near the Austin school building and was well out of the road, when the driver of the car looking backward allowed the car to run into the shallow ditch by the side of the school building. He did not stop, but left the child to be

carried home by a passerby. By an act of the last legislature, it is said, the driver who fails to stop is subject to arrest on a felony charge.

### DON'T GIVE UP. Discouraged Citizens Will Find Comfort in the Experience of a Wichita Falls Woman.

Experience is the modern instructor. Profit by the experience of others. It may save your life. The experience of friends and neighbors. The testimony of Wichita Falls people will bring renewed encouragement. Here is a case in point:  
Mrs. C. E. Sproull, R. F. D. No. 1 says: "It was about two years ago that I was in bad shape with rheumatism. These rheumatic pains were in my arms and shoulders, and my feet and hands were swollen. My health was very poor and I felt distressed and worn out. I heard Doan's Kidney Pills were good, so I thought I would try them. I used only one box of Doan's Kidney Pills and was relieved. I have been in better health ever since and the dropsical swelling and rheumatic pains were lessened greatly."  
Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Sproull had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Advertisement.

**IT'S REAL REFRESHING**  
It is indeed refreshing to know that there is at least one article of universal daily consumption that's as cheap as it was "before the war"—and its the most stimulating, invigorating and refreshing brew known to man.  
The cost of a cup of GOOD coffee is so insignificant that you can hardly count it; the results obtained are immense; the finest meal is a failure without good coffee; the most frugal fare is both palatable and satisfying with it; then again there is plenty for all and you deprive no one in its use.  
For fear you may miss the moral of this little story we will reveal it plainly—DRINK COFFEE.

Said She "Fit" Man, Who Surely Looked It; And She Put Up Fine  
The police court this morning contained little of interest other than two negroes, a man and a woman, who were charged with disturbing the peace. Asked as to the nature of the case, the woman stated that she "fit" the man.  
"Did you fit him good?" asked the judge.  
"Pretty well, I reckon," replied the woman with a reminiscent grin.  
"Did you 'fit' him five dollars
