Longon, April 12.—The Irish convention laid the foundation for an agreement on the Irish question which is unprecedented in history. Sir Horacce Plunkett, chairman of the connew battle front north and could be recovered by the connection says, in a letter account on the connection says, in a letter account on the connection says.

vention says, in a letter accompanying the report of that body.

The convention did not find it positive the convention of the objections of the objections of the extreme right, the Germans sible to overcome the objections of the Ulster Unionists, says sir Horace A majority of the nationalists, all the southern Umonists and five of the seven Labor representatives agreed upon a scheme of Irish self govern-ment which is given in the conclusions reached by the majority which, he states, should be enacted into law.

Every Reason to Be Pleased "We had every reason to believe the government contemplated immediate legislation upon the results of our labor," says Sir Horace. "The work of an Irish settlement, it is now felt admits of no further postponment. In the dominions and the United States as well as the allied countries, the unsettled Irish question is a disturbing factor, both as regards war ef-

fort and peace aims."

After every possibility of an agreement had been explored Sir Horace writes, he was instructed to draft a report which would be a narrative of the convention's proceedings, with a statement for the government's information of the conclusions adopted unanimously or by a majority. This draft of the report as adopted by a majority.

BETTER !THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets-the substitute for calomel — are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not

THE "LIBERTY" RUG

"KARNAK"—The Aristocrat of American Wiltons

In this original conception the designer undoubtedly has been inspired by the fine traditions of ancient rug weavers, who originated the practice of introducing objects of adoration, floral and animal symbols in the designs of their floor coverings.

The "Liberty" Rug, representing the best efforts of American designers and weavers, combines a variety of motifs typifying noteworthy places, natural wonders and objects of national historic interest which are symbolic of the marvelous growth and progress of America. Two celebrated events, each marking a great epoch in the the history of the country, are vividly recalled in panels illustrating the discovery of America in 1492 by Columbus, who braved the Western Ocean in the picturesque Spanish Galleon that he might be the first white man to its shores, and the picturing of Gatun Locks, Panama Canal, completed in 1916, and the most wonderful engineering achievement of modern times, linking together the Atlantic and Pacific Oceans.

The Statue of Liberty-a gift from France-reminds us of an obligation we owe today to that stricken country, now our Ally, and our tried and true friend in the days when the Liberty Bell pealed forth from Independence Hall the first tidings of the Birth of Freedom. Commerce is represented by the Ocean Liners and the Woolworth and Singer Towers of New York's great sky-scrapers may be seen in the distanse. A wonderful view of the National Captitol is shown and behind its great Dome may be seen the Washington Monument.

The contrast between past and present modes of travel is illustrated by the Prairie Schooner which carried the "Forty-Niners" across the Western Plains, menaced by roving herds of Buffalo and the hostile Indians whose wigwams dotted the wild land, and the mile-a-minute Express train of the Twentieth Century and its connections which today whirls its thousands of passengers over Niagara Falls and from one end of the country to the other. The contrast is even further emphasized by the Aeroplane soaring above the Statue of Liberty and one of our modern Battleships afloat in the Bay.

The interesting arrangement of the border shows the Seals of the various States, New England being represented by Connecticut, Massa-chusetts and Rhode Island; the Middle Atlantis States by New York, New Jersey and Pennsylvania; the Middle West by Wisconsin, Illinois Michigan, Indiana and Ohio; the South by Louisiana, South Carolina, Maryland, Arkansas and Texas; and the far West by Colorado and Oregon. The State Seals in the border are interpersed with panels representing the Coal Mines of Pennsylvania, the great Steel Mills of Pittsburg, the Oil Wells of Oklahoma, a Harvesting Scene from the West, the Mammoth Trees of California, Dixie Land by the Bales of Cotton on the great wharves of New Orleans and the Mississippi Steamboat made famous by Mark Twain, Virginia by George Washington's famous Mt. Vernon mansion on the banks of the Potomac, and Kentucky by the little Log Cabin in which Lincoln

All these symbols of national significance are interwoven with wreaths of oak leaves and acrons, golden rod (the national flower), Indian maize (corn), and Indian bead work. A notable feature of the design is the clever manner in which the filed is set off from the border by an in-

ner band consisting of an arrangement of flint Indian Arrow-heads.

The unusual nature and decorative effect of the design itself is accentuated by the rich, deep tones of the colorings so artistically brought up and the already well-know quality of "Karnak," the Aristocrat of American Wiltons, See This Wonderful Rug in Our Center Window.

BURNSIDE BARTLEY WEDDING TODAY

Today at one o'clock, Miss Alice Burnside became the bride of Lieu-tenant Wannie Lee Bartley, U. S. A. of Fort Sheridan, Chicago, Ill., at the home of her mother, Mrs. S. H. Burn-side, 1004 Kemp Boulevard, the Epis-conal ring ceremony, being read by side, 1004 Kemp Boulevard, the Episcopal ring ceremony being read by the Reverend John G. Larsen, rector of the Church of the Good Shepherd. Owing to the recent bereavement the family has sustained the wedding was very just, only the immediate family and the longtime friends of the bride and her mother were present and informality characterized every detail of the service. Flowers and greenery made the living room and the dining room attractive the wedding party standing in

tractive the wedding party standing in the arch between the two rooms, Preceding the ceremony Mrs. Wade Wal-ker, cousin of the bride sang, "Be-loved it is Morning," accompanied by Mrs. Mark Walker, also a cousin of the bride, who played the wedding march, Little Jeanette Walker, daugh-ter of Dr. and Mrs. Wade Walker, aced as ringbearer, and preceded the bride, who entered on the arm of her sister, Miss Margaret Burnside, her maid of honor, proceeding through the livingroom to the arch, where the groom, and his best man. James S. Walker, cousin of the bride, and the minister awaited them.

Lieutenant and Mrs. Bariley left this afternoon for Fort Sheridan where they will be at home, the groom's company of infantry being stationed there:

The bride wore her travelling suit a tailored model in dark blue with collar facing of white, to harmonize with her white blouse, and tailored milan hat. Her boots were of white as were gloves and other accessories. She carried an elaborate shower bounded with the control of white age. she carried an elaborate shower bouquet of white rose buds and lillies of the valley, with ribbon and bud pendants. Miss Margaret Burnside wore an afternoon frock of dark blue georgette crepe, embroidered on bodice and tunic with beads, Her hat was of milan and her flowers were pink Killarney buds and maidenhair, en corsage. The flower girl, Jeanette Walker, wore a dainty frock of silk net and lace over silk, and carried the wedding circlet in the heart of a white rosebud. The groom was of court in uniform and his best man wore a dark business suit.

To by's wedding is the ce!mination of a pmance of boy and girl days, when the groom was a Wichita Falls schoolboy and was interested in the study of medicine and found in the father of the bride, the late Dr. S. H. Burnised, an ever willing helper and friend. The schoolboy spent much time in the doctors labratory and sanitarium and found in the girl an interested friend and companion in his studies and one who was always a "pal" with her father. When the fam-

terested friend and companion in his studies and one who was always a "pal" with her father. When the family moved from Wichita Falls there was a double tie that bound the boy, and later the young man to the town and the Burnside family, which is just now knit into the closer bond of matrimony. It has been the father's wish that the wedding take place before his death, which occurred just two weeks ago but as circumstances prevented this, the young people are carrying out the desire of Dr. Burnside, that they would not let his departure interfered with their plans, and this is the last leave obtained by the groom.

and this is the last leave obtained by the groom.

Since his leaving here with his parents Lieutenant Bartley has finished his schooling, and has also made something of a military record for himself. Three years ago, when the war was in its infancy the young man enlisted with the famous Princess Pats and saw 21 months active service in France. He was severely wounded, invalided home and finally given an honorable discharge, Recovering his health, he was able when the United States declared war to get back in the fight and was commissioned first-States declared was to get back in the fight and was commissioned first lieutenant of infantry in the United States regular army. His father who has attained the rank of Major of the engineer corps with the troops in France, has just been invalided home.

Heal Skin Diseases

It is unnecessary for you to suffer with eczema, blotches, ringworm, rashes and similar skin troubles. EAT ICE CREAM AND SAVE FOOD

There is nothing of home production of such food value as sweet milk, except wheat and meat. Our government is calling on you to save wheat, save meat. Then use more milk.

WHAT THE GOVERNMENT SAYS:

MILK AS A FOOD-Economy in the diet does not always depend upon limiting the use of certain foods, but sometimes it is a question of ac tually increasing the use of foods which furnish the nutritive materials at relatively low cost. Milk belongs to the latter class. The average person in this country uses only a little more than a half pint of milk daily, and this quantity can very profitably be increased when safe milk is available. Many people think of milk only as a beverage, but if they understood that it is in reality a nourishing food, they would increase their daily allowance.

We eat foods for two main reasons: First, to renew the body waste and promote growth by forming new tissues and fluids; and second, to supply energy from carrying on the body functions.

The following table, compiled by specialists of the U.S. Department of Agriculture, shows the quantities of various foods needed to supply as much protein or energy as one quart of milk

1 quart of milk; 7 ounces of sirloin steak; 6 ounces of round steak; 4.3 eggs; 8.6 ounces of fowl.

1 quart of milk; 11ounces of sirloin steak; 12 ounces of round steak; 81/2 eggs; 10.7 ounces of fowl.

Another method of comparison is shown by the table below, in which the relative value of certain foods, as economical sources of protein, is

1	Milk		t		It's as Cheap as			or Egg	18	at
					Sirloin Steak at		17.6	cents	a	dozen
7	cents	a	quart		16.3 cents a pound		20.1	cents	a	dozen
8	cents	a	quart	100	18.6 cents a pound			cents		
. 9	cents	a	quart		21.0 cents a pound		25.1	cents	a	dozen
10	cents	a	quart	1 100	23.3 cents a pound			cents		
12	cents	a	quart	500	27.9 cents a pound		27.7	cents	·a	dozen
15	cents	a	quart		34.9 cents a pound	1	37.7	ceuts	a	dozzen
					if milk is selling at					

dozen, to supply protein at equal cost.

When Milk is	Sirloin Steak Must	And Eggs not
7 cents a quart	9.9 cents a pound	9.3 cents a dozen
8 cents a quart	11.3 cents a pound	10.6 cents a dozen
9 cents a quart	12.8 cents a pound	11.9 cents a dozen
10 cents a quart 12 cents a quart	14.2 cents a pound	13.2 cents a dozen
o cents a quart	21.3 cents a pound	19.8 cents a dozen

It can be seen, therefore, that milk even at 15 cents a quart is a cheap source of energy as compared with sirloin steak and eggs.

In comparing foods it is necessary to consider both the protein and the energy furnished. Neither one alone can properly be used as a basis of comparison, nor is there any correct way to reckon the value of a food by considering the total amount of nutritive elements. It is very difficult to compare foods on the basis of the mineral mat-

ter they contain, but all physiologists agree that milk is extremely val uable from this standpoint. Indeed it is the food prepared by nature especially for growth and development of the young. A quart of milk a day is a good allowance for a young, growing child. There are innumerable ways to use milk in cookery, such as ip pud

dings, blancmange, soups, chowder, sauces, "junket," etc., and in all these ways it is both appetizing and nourishing.—Bulletin U. S. Department of ICE CREAM is a highly concentrated MILK PRODUCT.

COTTON MARKET A GAIN NERVOUS: IS MUCH SELLING

New York, April 12.—The cotton market showed renewed nervousness early today. The opening was 5 to 22 points higher on Liverpool buying of May and July and covering inspired by steady cables, a more optimistic view of the war news and reports that price fixing was unlikely. But there were the had been in progress yesterday under which price almost immediately turned easier with July selling off from 32.25 to 31.92 and Oct from 30.52 to 30.33, or 10 to 12 points net lower. The south was a seller of new crop months and except for the Liverpool buying or covering there appeared to be very little support around the ring.

Cotton futures opened, steady; May 29.90. July 32.25. Oct 20.50. Dec. 20.50. The cotton market showed renewed nervousness took place today in the price of cora as a result of generally accepted opin. The problem of the sum of \$10.000 in the sum of \$10.00

Cotton futures opened steady; May 32.95; Oct. 30.50; Dec. 30.15 Jan. 30.04.

Selling tapered off on the early decline and the market steadied later in the morning. Liverpool was a buyer of May while houses with Japanese connections were said to be buyers.

The demand was better towards the middle of the day and prices mounted to a level 10 to 14 points over yesterday's close.

Addilvery.

Fine weather and lack of an eastern outlet weakened oats. After opening the two steads and that we are heartly in favor with our government in the prosecution of the war and will continue and that we have and are giving our support to the administration. We dearly love our flag and the brave boxs are now so willingly defending it which means so much to us all. It is known that Mr. Schauerer has one son in the army and has recently subscribed for \$2500 of Liberty Bonds.

Held for Grand Jury

The usual grist was ground in the police court mill before a new police judge and with a new city attorney handling the strong arm of the law, Judge J. R. Ogle was on the bench as police magistrate for the first time.

It was a rather strenuous morning. Four men were fined \$5 each for intoxication and three men charged with theft were turned over to the tender mercies of the grand jury. It seemed that the three prisoners, in the exuberance of their arrival in the city, had stolen two dozen eggs from the Cafe Reed, put them in their pockets and, when finally located by the police, both eggs, and men were scrambled.

Irish Believe That England Is Prepared To Fight Revolters do all my household duties.

London, April 12.—John Dillion, Irish Nationalist leader in the House of Commons yesterday said he understood that motor cars, machine guns and tanks had already been shipped and tanks had already been shipped and were salling away from the battlefront toward Ireland. Mr. Diltermed the government's "guillotine methods."

The debate on the manpower bill centered largely around a question for more time in which to consider the measure. The government eventualcontrary to custom, to sit on both Friday and Saturday, so as to add two days to the time for the discussion. The bill then entered committee and an amendment substituting 48 years for 51 as the age limit was defeated by a vote of 262 to 152

Strategy of German Supreme Army Is Still Not Revealed?

By Associated Press Amsterdam, April 12.—The strate gy of the German supreme army com-mand is still unrevealed, says the Koelnische Volks Zeitung, and will be recognizable only in the course of fu-ture operations. The papers discounts the "extremely foolish idea" which it thinks may crop up, that the German thrust against the Anglo-Portugues front indicates that when an offen-

GOOD ICE! GOOD SERVICE!

Nothing adds so much to the comfort of the folks at home as good ice. Indeed, what sort of life would this be, anyway if suddenly man forgot how to make artificial ice and the familiar ice wagons made their daily rounds no more?

As your "ice man" we want you to know that we are serving you with Good Ice. Ice that is clear and pure. Ice that is made in a big, immaculate, sanitary plant. Ice that is made from water that has been thoroughly distilled. Ice that is frozen hard and solid. Ice that is made with scrupulous care and cleanliness. Ice that is free from the least tinge, or taint, of an unhygienic foreign substance. Ice that you can use with invalids and little children, con-

fident that is absolutely PURE. And not only are we serving you with Good Ice but we are serving you, we believe, faithfully and efficiently day by day. We are doing our utmost to make it easy and conventient for you to replenish your supply of ice each day. It will be appreciated if you will report to us, by telephone, any suggestion that may occur to you that will enable us to render a more perfect service.

Good ice, full weight and satisfactory service. There is every reason why we should be your steady ice man, em-

THIRD LIBERTY LOAN CAMPAIGN IN WICHITA FALLS PRO-CEEDS RAPIDLY

Nearly half of Wichita Falls allott-ment of \$1,087,600 of the Third Lib-erty Loan was subscribed by Thurs-day evening, the committee's report last night showing that \$400,000 worth of bonds had been subscribed for at the banks, and the subscriptions ap-proved. The work continues today, the committee being in continuous session receiving applications and passing upon them.

splendid Response'
A splendid response on the part of the citizens assessed by the equilization committee is being shown, the committee reporting ready response whenever one assessed is approached. In several instances neople are going over their allotment voluntarily, and many subscribers have not waited to be approached by any member of the city have pledged themselves to work especially for the loan, with their employees and their customers. There will be no half holiday as was at first planned, it being decided that in view planned, it being decided that in view of present conditions it would be bet ter to have the stores remain open

The Retail Merchants Association of Wichita Falls pledged itself to work all day Tuesday, Liberty Loan Day in Wichita County, for the Third Liberty Loan, at a meeting held this morning on the call of the president, John W. Bradley, It was decided by the Association that under present circumstances it would be better no to close the stores as has been pre viously discussed, but for each mer chant to canvass his store, and his customers, to sell the bonds, and to use his time and influence in any way that the committee in charge of the Third Liberty Loan may direct. A special meeting has been called for six o'clock next Monday evening at the Chamber of Commerce, when the Retail Merchants Association will meet with the Third Liberty Loan Committe and map out the work for Liberty Loan Day, Tuesday. All members of the Association and all merchants not members are urged to attend this meeting and to evert every chants not members are urged to attend this meeting, and to exert every effort to push the sale of the bonds, making it possible for Wichita Falls to quickly raise their allottment of bonds, amounting to \$887,600.

MILITARY COMMITTEE IS GRAVELY DISAPPOINTED BY AIR CRAFT PROGRESS APPROVING CHEERS AND OPPOSING HOOTS GREET LLOYD.

Prospects for Future, However, Look More IRISH DRAFT TAKEN UP Favorable, and Needs Are Expected to Be Met.

By Associated Press.

Washington, April 10.—The government's aircraft program is characterized as "gravely disappointing" and a drastic reorganization of production machinery was recommended in a report by the Senate military committee today, which charges government officials with misrepresenting the situation and misleading the public, and with "procrastination"

The prospects for the future, the committee said, look more favorable and the production of the last few weeks promised to get the program under way to such an extent that a sufficient number of planes will be furnished later to meet all requirements of the troops in France.

One-man control of production is proposed and the committee suggests that building be taken entirely out of the hands of the signal corps. Delay is charged not only in the manufacture of Liberty motors and machine parts, but in the training of fliers as well.

Of 22,500 Liberty Motors ordered the committee said only 122 have been completed for the army, 152 for the navy and four shipped oversea.

"The production of Liberty motors to date, is of course, gravely disappointing," says the report. "Government officials—have made the misstake of leading the public and the allied nations to the belief that many thousands of these motors would be completed in the spring of 1918. Trouble With People Over Proposed Conscrintion Seems Now to Be Forecast

By Associated Press London, April 9.—A political bombshell was thrown in the House of Commons today by David Lloyd George, the prime minister, when he announced that conscription would be extended to Ireland and that the government intended to extend home rule to Ireland. The scenes during the course of the premier's speech in ref-crence to Ireland were dramatic, approving cheers and cries of protest arising from all parts of the house. During the latter part of his speech the premier was frequently interrupted by angry Irish members. A test of strength soon developed when Joseph Devlin, Nationalist moved a mo-tion to adjourn. At luncheon we discussed the propriety of my going out to see the army pass through: I did not like to miss the spectacle but on the other hand. I had a feeling that it might be indelicate in the town as moonlight on the castled Rhine, not the poetry of Goethe and Schiller, not the insipid sweet strains of Mendelness the humiliation of the proud city. I asked the ladies not to leave the Legation; one could never know what might happen. After linearm what this Escale was the ladies and the ladies are the ladies this Frankenstein, this monstrous an achronism, modern science yoked to the chariot of the autocratic and cruel bright Belgian flags were coming

down from the white facades along the rue Belliard, where they had flamed in the sun for the last fortnight, and only on the Braz lian, the Chilian and the American Legations were the flags left flying. The persiennes were drawn at all the windows; the old quartier Leopold looked like a city of the dead.

Then of a sudden I saw Villalobar's car coming down the rue de Trevas his chauffeur in his red and green livery, his red and yellow flag flying and I ran down to meet him, seizing my hat and stick as I went. The Marquis was as excited as a boy.

"Come on!" he cried and I went, M. Gibson and M. de Leval following in our car, We drove over to the Italian Legation, in the Boulevard Bischoffsheim, The boulevard was lined with crowds, waiting under the elm trees, out of the sun. The Legation was dismantied, and the halls filled with packing cases, but the Countess had retained one salon, and she treeived us there.

There then a the bow windows overlooking the boilevard, chatting the while, we waited until Villalobar and Bottaro Costa grew wearv and impatient and went out with M. Carston de Wiart the Soanish Consul, a cousin of the Belgian Minister of Justice: M. Gibson and M. de Leval and some secretaries of other Legations had come but they had not assunded to the drawing room: they had disappeared, too. I remained with the Countess.

And then standing by the window suddenly we had our first view of the German troops. Without music or life, or drums or flag, a company of infantry came down the boulevard, they were all in grey that sinister greenish field-grey, even to the bellet were all of the covers they were and were in heavy marching order. They swind along somewhat wearily close to the alle des pistons (sidewalky at the corner where they were to turn down into the Boulevard do Jardin Bedsanioue, Two of the meet fell out of line.

HIGH EFFICIENCY OF ALL AGENCIES FOR WAR REPORTED

PRESIDENT NOW VIRTUALLY HAS WORK,

By Associated Press.
Washington, April 8.—The nation's war-making agencies have achieved a war-making agencies have achieved a close harmony of action in the last two weeks through the Wednesday conferences at the White House which hash officials said today has speeded the prosecution of the fight for democracy to the point of greatest efficiency yet reached. Decisions of far reaching importance have been made by close contact between the licads of the various branches involved, under the guidance of Pres.dent Wilsen, who, is said authoritatively to have smoothed numerous difficulties have smoothed numerous difficulties whileh might have resulted in delay or friction without a mutual understanding reached in conference.

the reached in conference.

Has Two Cabinets.

The president now virtually has two cabinets, the first of which advises him on diplomatic and political questions while the second discusses with the chief executive the problems of mobilizing the industrial powers of the nation without which there can be no war. The cabinet proper meets every Friday. The "industrial cabinet" as it is coming to be known, gathers at the White House every Wednesday, the chairman of the shipping, war industries and war trade board, the food administrator and the fuel administrator. At times, when fuel administrator. At times, when the navy or army has a special prob-lem involving industrial questions, Secretary Daniels or acting secretary of War Crowell attend.

No Politics Allowed.

The war cabinet at no time has touched on political questions. This was learned today from a very high source. All of the war cabinet's work has been to further the preparation of America to throw her entire resources into the scale against the Hun, So important has this work become

GREENWOOD IS NOW BELIEVED VICTIM OF COMPANION

Fort Wort, Tex., April 8.—The first clew in the murder of State Representative E. R. Green-wood of Wichita Falls was believed unearthed this morning when de-tectives went to Grand Prairie. It is said that an autoist answering the description of Greenwood passed through Grand Prairie late Friday afternoon bound toward Ft. Worth and that he stopped at a garage there to have his mud chains adjusted. A companion was with him, it is reported. A good description has been secured of that companion.

Ten four-ton sterilizing machines for use at the front in France, where the American soldiers are fighting. are ready for shipment across the sea. The ten sterilizers are the first of an order of fifty which the government has contracted for, and eventually 175 of them will be in use with the army. They are the largest pieces of sterflizing apparatus ever made. The sterilizers are designed to prevent certain diseases, such as typhus, which are spread by the carefree "cootie," and to kill all dangerous germs which may be in the clothing of soldiers, especially after they have been serving day and night in the insanitary trenches. The sterilizers are on substantial trucks, so that they may be taken as close to the front as desired, and when the men come out of the trenches they will strip, their clothing will be thoroughly sterilized, dried and returned to them in just forty minutes. The disinfectors have an inside chamber 30 by 42 by 28 inches capacity, large enough to take a great quantity of clothing or surgical dressings.

"Make no mistake, there is no cause of feeling which our boys have not yet developed in France.

The British officers introduced pipe-smoking on a large scale in France, and the poilus have tackn it up until they have practically given up cigarettes in the trenches. But the French officers still stick to cigarettes. On the other hand, the Tommy prefers having in spire of the pipe fashion among the British officers.

Occasionally it is ognishle to find an army officer who does not smoke, but they are rare birds, and are usually men stuck away in some office iob where they never have the excitement or monotony of active service.

during the course of his address, "I must call to the attention of the house "It became onvious after the Picardy battle that the allied armies were suffering from the fact that they were righting as two separate armies and had t negotiate support with each other, available time was thus lost. Some of us had been deeply impressed by this peril for some time and had done our best to avert it. But the inheritent difficulties to be overcome are enormous. The difficulties of getting two or three separate armies to fight as one are almost insurmountable and it can only be done if public opinion in all these countries insists upon it as one condition of victory. MAKES DECLINE

The Versailles conferences was an effort at a remedy.

"A few days after the battle commenced there was not merely the government but the commanders in the field. We had not merely field marshals, but army commanders present. We were so conv.nced—and the same thing applied to the French—of the importance of more complete stragetic unity that they agreed to the appointment of General Foch to the supreme direction of the strategy of all allied armies to the western front. outcome of todays conference between the cotton goods trade and Washington officials, was probably the chief factor. Selling was also promoted by expectations that the first weekly weather report of the season due before midday would make a favorable showing and the easter ruling of Liverpool. First prices were barely steady at a decline of 11 to 23 points and the active months sold 25 to 34 points not lower after the call.

Raising Age Limit.

"When you come to the question of raising the age to fifty, it does not mean that men between 42 and 50 are necessarily to be taken in order to put them into the fighting line. It may be that there are men of that age who are just as fit as the men of 25, but I am sorry to say that that is the exception and we cannot therefore depend upon men of that age altogether to make the finest fighting material.
