WILSON OPPOSES COURT MARTIAL FOR DISLOYAL PEOPLE

BELIEVES SPIRIT OF CHAMBERLAIN BILL IS NOT PROPER ONE

HE WRITES TO OVERMAN

Favors Without Compromise Senator's Bill for Coordinating all Government Departments

By Associated Press. Washington, April 22.—President Wilson came out today in opposition to the Chamberlain bill which would try disloyal and in a letter to Senator Overman of North Carolina, declared his belief that the measure is unconstitutional.

If enacted, the president declared the bill would place the United States on a level with its enemies. The measure, he said, is opposed to the spirit and purpose of the espionage laws.

Chamberlain Bill.
Enactment of the Chamberlain bill has been urged before the Senate military committee as necessary to stamp out German propaganda. Vigorous opposition to its passage has been developed and Senator Borah has sought support of Senate leaders in his efforts to defeat it.

In his letter to Senator Overman the president also indicated that he would not compromise with opponents advocating amendment of the Overman bill, which proposes a broad general grant of power to re-organize government departments.

His Letter.
The president's letter follows: "My Dear Senator: Thank you for your letter of yesterday. I am heartily obliged to you for your comments about the court martial bill, as perhaps I may call it short. I am wholly and unalterably opposed to such legislation as you have proposed. The opportunity you give me to say so, I think it is not only unconstitutional but that in character it would put nearly equal level with the very people we are fighting and affecting to despise. It would be altogether inconsistent with the spirit and practice of America and in view of the recent legislation, the espionage bill, the sabotage bill and the woman spy bill I think it is unnecessary and uncalled for."

"I take to liberty, my dear senator, for expressing myself in this emphatic way because my feeling is very deep about the matter, as I gather your own."

It is admirable the way you have been handling these important bills, and I thank you with all my heart for standing by them without any compromise of any kind.

"It gives me the greatest satisfaction to tell how much I have appreciated what you have been doing. Cordially and sincerely yours, WOODROW WILSON."

The bill has not had the support of the department of justice and Charles Warren, assistant attorney general, resigned last week it was said after his advocacy of the measure failed to receive the support of the attorney general.

Cause of Resignation.
Particulars concerning Mr. Warren's resignation became known today when Representative Gordon of Ohio made public a letter from Attorney General Gregory explaining the circumstances and declaring the Chamberlain bill unconstitutional and that the policies of the department of justice, the letter was in response to one by Representative Gordon asking if the Chamberlain bill was written in the attorney general's office. Mr. Gregory replied:

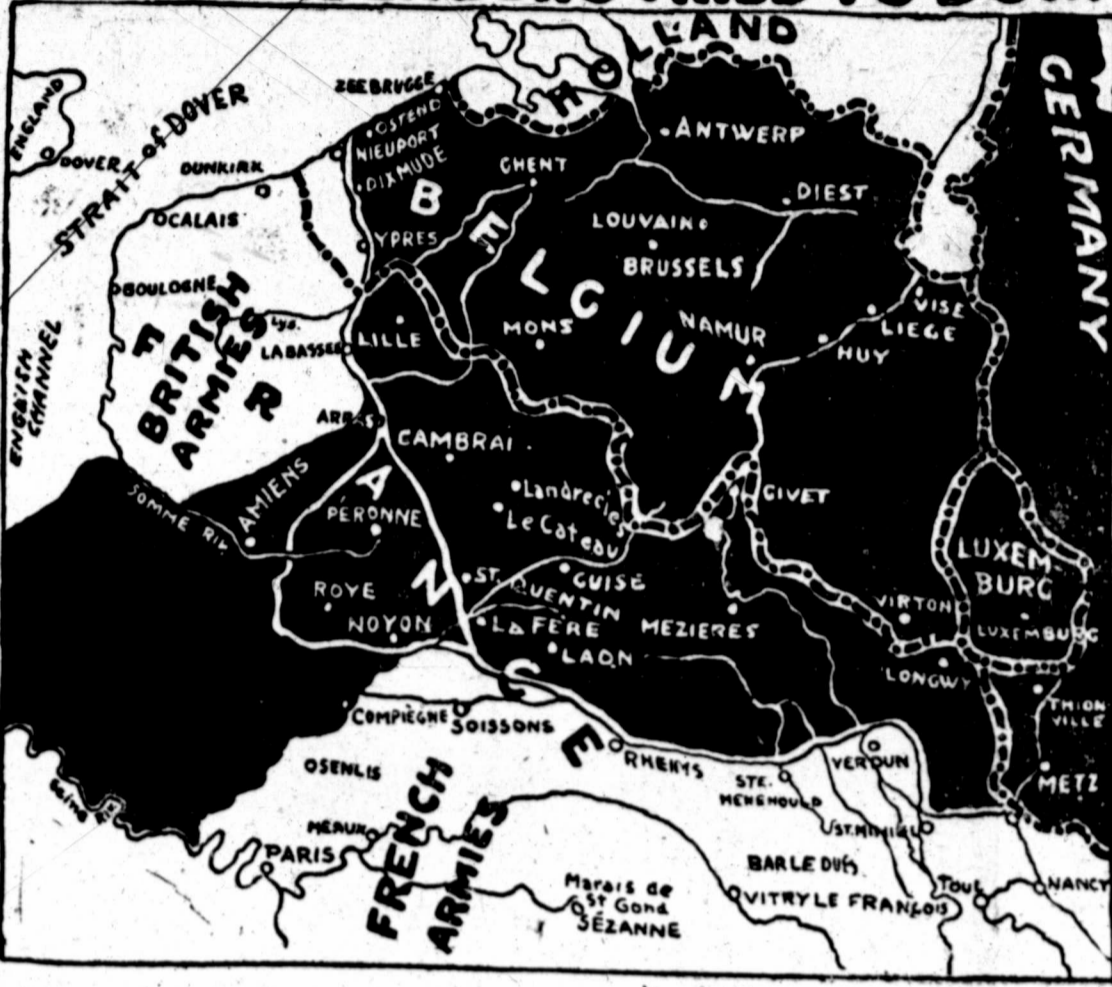

"On April 18 my attention was called to the fact that on or about April 15, 1918, a certain Senator from North Carolina a brief with the following titles: "Who are spies? A memorandum of law on the subject of disloyal subject civilians to trial by court martial under the explanation by Charles Warren, assistant attorney general of the United States and that Mr. Warren had prepared and given to Senator Chamberlain a bill subsequently introduced by Senator Chamberlain in the Senate and that the views set forth in the brief."

No Connection.
"For more than six months Mr. Warren has had practically no connection with any of the activities of my department which would be affected by the legislation advocated by him. The brief and bill were sent out of knowledge of the attorney general, respectively without the consent or knowledge of the attorney general. The general policies therein urged and sought to be enacted into law are exactly contrary to those approved by the assistant to the attorney general, in charge of the problem involved and by the attorney general himself, entirely disapproved of the action taken by Mr. Warren and it would not have been permitted had I known it was contemplated."

Not to Press Bill.
He told the president that opportunity should be given for administration of the espionage laws before resorting to more severe action. Senator Chamberlain late today indicated that the senate military committee, in view of the president's opposition, would not press the bill. Further hearings planned, Senator Chamberlain said, have been indefinitely postponed.

BILL ELLIS REPORTS TO NASHVILLE TEAM
By Associated Press. Mobile, Ala., April 22.—Announcement was made today that "Bill" Ellis, a pitcher has reported to the Mobile club at Birmingham. Ellis last season was with the Nashville team.

WHAT HINDENBURG TRIED TO DO...

TWO CALIFORNIA TOWNS ARE WRECKED AS RESULT OF HEAVY EARTH SHOCKS

BULLETIN—San Jacinto, Calif., April 22.—Two more earthquake shocks shook Hemet and San Jacinto today at 9:07 and 9:14 a. m. The earth movement seemed more pronounced at Hemet than here. Loose bricks, tottering walls and wreckage, hanging precariously were loosened by the new shocks and fell, adding to the general ruin in the business districts.

By Associated Press. Los Angeles, Cal., April 22.—More than one third of the business district of San Jacinto and a smaller proportion of that of Hemet in Riverside county about 70 miles east of here were in ruins today and scores of residents in the two little towns, confined mainly by plates of earthquake shocks which caused all of Southern California to tremble late yesterday afternoon. The property damage is estimated at from \$100,000 to \$150,000 in the two places. Half a dozen other towns and cities including Los Angeles suffered minor damage, confined mainly to plate glass windows and shattered cornices. Hemet and San Jacinto have populations of less than one thousand each. Their industries chiefly are dairying and ranching with lumber and various kinds of mining serving to swell their commerce. The towns are about three miles apart and lie in a picturesque country which made the scene of Helen Hunt Jackson's famous novel "Ramona."

One Life is Lost.
Only one life was known to have been lost as the result of the earthquake that of Frank E. Darnell, a retired manufacturer of this city, who was drowned when he fell off a pier at Santa Monica, a beach resort near here. Hundreds of pleasure seekers on the pier made wild dash for solid ground when the shock came at 3:35 p. m. and Darnell was swept from his feet. There were near panic in scores of theaters and motion picture houses in this vicinity and many persons sustained slight injuries in their rush to the exits. When night fell over the partly ruined town of Hemet and San Jacinto order had been completely restored and organizations of home guards patrolled the debris littered streets. The first tremor threw to the ground a number of persons and houses. At the second shock all the buildings on the south side of the main street began to collapse and the third shook down those on the north side.

At San Jacinto and Hemet electricity failed immediately and within minutes the breaking of the gas mains made it necessary to shut off the supply. The water mains were damaged, but little. One of the freaks of the earthquake was the sudden flow in wells. Many artesian wells, several dry for years, showed a sudden fresh supply of water. This sudden increase of water manifested itself particularly in the San Jacinto river. Before the earthquake it well over its banks after the tremor the river at a point below the town showed a flow of twelve inches in depth and forty feet wide.

The earthquake of yesterday was almost a repetition of that of Christmas Day 1899, when the two towns suffered shocks of like severity. Fear was expressed in Los Angeles that several large office buildings had been thrown out of plumb. While to the casual observer this report appeared to be justified a survey will have to be undertaken to learn the truth. The Washington building, large business structure on Spring street, was perceptibly separated from the Carrier building immediately adjoining.

Mrs. Spear Injured
Mrs. Spear of Chicago, a patient at Loma Linda sanitarium south of Redlands, San Bernardino county, was injured when two chimneys fell through the roof. At Magnesite mine near Hemet and

MEDICAL UNITS WILL BE RAISED BY GUARD HERE

SEVERAL COMMISSIONS ARE TO BE PROCURED FOR LOCAL MEN

Men are Called to Drill Tonight.
Men of the present draft and those already enlisted in the new National Guard or interested in the Guard will meet tonight at 8 o'clock at the court house for military drill. All men interested in receiving military training are urged to attend. Federal agents are to be present to take advantage of this opportunity offered by the officers of the new companies to be recruited locally and the local draft board.

Following a conference held by Col. W. A. Miller of Amarillo of the new Texas National Guard, with officers of his staff in this city Sunday, an announcement was made today that two medical units are to be raised in Wichita Falls and that the supply company is to be transferred to Amarillo. Col. Miller met with Major Smoot and Captains Davenport, Smith and Napier and others interested in the new organization and following the conference expressed himself as being much pleased with the progress which has been made locally, as well as in other cities and towns in the district. He reported the work of recruiting at Amarillo as being in full swing and going very well indeed.

Medical Units.
Two medical units raised here will of course mean several good commissioned officers for physicians of this section. Wichita Falls has already furnished several medical officers, and will doubtless furnish many more before the call is through. There has been no announcement yet of the first day recruiting was opened for the medical organization. Col. Miller stated Sunday that he was much pleased with the men who have been given authority to raise the various organizations locally.

San Jacinto Day is Observed in Austin.
Austin, Tex., April 22.—Practically all state offices were closed today in observance of San Jacinto day. Though the holidays fell on Sunday, it was generally observed today.

HAIG IS STRENGTHENING BRITISH LINES EXPECTING NEW GERMAN ONSLAUGHT

DRAFT AGE MAY BE RAISED TO 40 YEAR LIMIT

NEW PLAN FOR ARMY EXPANSION SUGGESTED BY SECRETARY BAKER

Washington, April 22.—President Wilson yesterday received from Secretary of War Baker the new plan for army expansion. The details are said to represent a warning that a greatly increased fighting force should be immediately placed in training in the United States irrespective of our sea transportation facilities.

The recommendations are based upon observations made by Secretary Baker during his recent visit to France and Italy. They also represent the consolidated views of Gen. John J. Pershing, commander of the American expeditionary forces, and Gen. Tasker H. Bliss, United States representative on the inter-allied war council.

Before going to the White House Baker conferred at the war department with Chairman Dent and Representative Kahn of the house military affairs committee. At the conclusion of the conference it was understood steps would be taken at once to clear the way for the following legislation:

1. Authorization and appropriations for a military force of 5,000,000 men. An amendment to the draft law which would raise the age limit from 21 to 40 years.

2. An increase in the numerical strength of the marine corps of 75,000 men.

3. Authorization for the conversion of the sixteen existing training camps into cantonments which would make available thirty-two of the latter class.

Bombardment Continues All Along Line and No Indication Given As To Where Blow Will Fall.

The war situation of today is summarized of the Associated Press as follows: While awaiting the next German blow now momentarily expected, the British are strengthening their lines in the Mesnil region, north of Albert. Similarly, the Germans made an attempt to push forward their lines in the Somme region, north of Albert.

Little Indication Afforded.
Heavy artillery fire is in progress on so many parts of the front that little indication is afforded by this as to the point selected by the Germans for their renewed thrust. Naturally they may be expected to make further efforts to outflank the British positions in the Hazebrouck railway center from which it is well known that the British intend to hold them.

There has been no new development in the region north of Ypres, where the Belgians stopped a turning movement on the 19th inst. The British from being flanked out of the Ypres positions. The nature of the ground and the disposition of the opposing forces make it seem probable that a repetition of the attempt is to be looked for. The situation in the Somme region is being for the moment even more closely watched than that along the Franco-Belgian border to the north.

Reinforcements Pour In.
Meanwhile French reinforcements are pouring in behind the British lines. French troops are now with Field Marshal Haig's men on both the northern and southern legs of the salient which the British have driven the Germans from some advanced positions in this area where strong German attacks were reported last week. The enemy artillery is now active. Artillery duels continue violent along most of the Picardy battle front, where the British are using guns of the biggest caliber.

Today the German offensive began its second month without having stopped the British and French armies. The British army still intact. Where the next blow will fall is uncertain but the Allies are prepared to meet it as they have met the others. It is probable the Germans are now preparing to make a new effort to drive in the northern leg and get behind Ypres. Enemy activity south of Arras has been noticed.

Grain Shipments to Belgians to be Moved First.
Washington, April 22.—Food shipments to the civilian populations of the allied countries will be suspended for several days to make room for bushels of grain to the Belgians who are declared to be in desperate straits. A part of the wheat will go to the populations in the German occupied territory of northern France. The decision to concentrate on the shipment of this grain was made following the receipt of urgent cables from the Belgian relief committee's representative in Brussels.

ONE MAN WILL BE SECURED TO TAKE CHARGE OF PRODUCTION.
Washington, April 22.—A readjustment of the aircraft program has been decided on definitely by President Wilson and Secretary Baker has been directed to carry it out. It was indicated today that a captured aircraft mentioned will be given full charge of production. Secretary Baker was working today on re-organization plans and an announcement probably will be made within two or three days. It was not indicated today what changes in personnel might be made or whether the aircraft board itself would be re-organized. It was intimated, however, that production would be put in the hands of one man whose name was not given.

FAMOUS HUN AVIATOR IS KILLED IN SOMME VALLEY

By Associated Press. With the British Army in France, April 22.—Baron Richthofen, the famous German aviator, was shot down and killed last night back of the British lines along the Somme front. Details of the death of the aviator are lacking but as showing the temper of British officers it may be said the correspondent heard the ardent hope expressed that Richthofen died fighting in an air battle with a worthy opponent rather than by being shot down by anti-aircraft guns.

Chilean Ambassador's Funeral Service Held At National Capital.
Washington, April 22.—State funeral services were held here today for the late Senator Don Santiago Aldunate, the Chilean ambassador who died last Wednesday. President Wilson and his cabinet, the diplomatic corps, the supreme court and members of the Senate foreign relations committee and the House foreign affairs committee attended. The body was placed in a vault where it will be kept until a warship is ready to carry it to Chile.

San Jacinto Day is Observed in Austin.
Austin, Tex., April 22.—Practically all state offices were closed today in observance of San Jacinto day. Though the holidays fell on Sunday, it was generally observed today.

FIGHT OR BUY BONDS. EDICT TO KAISERITE.
Abilene, Tex., April 22.—Three men captured the home of a man said to be a German sympathizer near here, tore a picture of the Kaiser and a German flag from the wall and substituted in their place a Liberty Bond poster reading "Fight or buy bonds."

AIR-BELT ROAD SEEMS ASSURED; INTEREST KEEN

ENGINEER IS EMPLOYED BY ASSOCIATION TO MAKE FIRST ESTIMATES

COUNTIES ENTHUSIASTIC

Assurance is Given that Archer County Will do its Part as Link in Highway

Work of convincing the people of Brown, Eastland, Stephens and young counties of the vital importance of the Oil Belt Highway is going on continuously here. According to S. Currie, 211 Kemp and Bell buildings, who has been one of the leaders of the movement in Wichita county, there is every reason to believe that the big road will be built speedily.

"We have employed an engineer named Dixon," said Mr. Currie this morning, "to make estimates of the initial work cost of materials and cost of construction. He also is holding meetings in the smaller towns along the route of the proposed highway, and is arousing much enthusiasm.

Route of Highway.
The highway, which will run from Wichita Falls to Brownwood by way of Archer City, Olney, Newcastle, Graham, Breckenridge, Eastland and Comanche. Citizens already are planning for an election to be held in the various counties interested in about 60 days. An election has been called for April 24 at Leon in a bond issue of \$10,000 for that district's share of expense for the road in Comanche county.

"We have not perfected any plans for the road from Wichita Falls to Oklahoma City. There is a stretch of hard surfaced road already built for about 50 miles south of Oklahoma City. When the highway is built, the plan for the Highway in the southern portion—south of Wichita Falls—we are going to work on the road to connect this city with Oklahoma City and Tulsa.

Will Cover Oil Belt.
This hard surfaced road when completed, will cover the entire oil belt, from Brownwood to Tulsa, crossing the oil belt which is destined to be the greatest oil field in the world. When the highway is finished, it will be possible for an oil man to step into his car at Tulsa, and traverse the entire oil belt to Brownwood and never see out of sight of an oil derrick.

"We have sounded the sentiment of the people of Young county, Stephens county, Eastland county, Comanche county and Archer county, and there is no doubt that the bonds will carry in the coming elections. Archer county has not done much toward educating the people as to the importance of the building of this hard surfaced Oil Belt Highway through that county, but Judge Melvin of Archer City, assures us that Archer county will do her part.

Worth Much to City.
This highway, when built, will be worth more to Wichita Falls than anything else that we could build at the present time. More than that, there is no question in my mind but that the government will designate this Oil Belt Highway as a military route and will, in the future, connect Brownwood with Anson. This would connect the highway with a hard surfaced road there which would give the government a direct military highway connecting Fort Sill, Okla., with Fort Sam Houston, at San Antonio, and with Laredo and the Mexican border.

The report has gotten out in Archer county through the main offices of the Council for Defense, that the government will not countenance the issuance of bonds for road purposes at the present time. The World's Work, a few days ago gave a statement from the U. S. government to the effect that the building of hard surfaced roads throughout different states, in sections where military routes are important, would be approved and assisted from the State Highway Commission would be granted, for the reason that the freight traffic of the country is so congested on account of the immense tonnage going to the seaboard, and hard surfaced roads will not only relieve this congestion but will take care of the local freight traffic by means of automobile trucks. You can readily understand, with the immense tonnage of pipe and material used in the oil fields through which this Oil Belt Highway will run that it would be of great assistance to the U. S. government to put this highway through.

FIGHTING FLYERS BECOME ATTACHED TO PLANES

(Special Correspondence from the Reciprocal News Service)

London, Feb. 26.—Fighting flyers quite naturally become attached to particular airplanes. It gives good service they will wrangle and complain for days before being induced to change from an old "bus" to a new and more efficient one.

Most of the men have dogs at the airbases, and between dogs and flyers and the machines there is a wonderful camaraderie. It is said that some of the dogs know when their masters are "up and out" and sit waiting patiently until the drone of the propeller tells them of his return. They are said to be able to distinguish a difference between the buzzing of the various machines and can always detect their master's hum.

Queer are the names the flyers apply to their machines. For one thing, they are never called airplanes. Every machine is a "bus" to begin with. After being a "bus" they may be either a mechanical cow, a pup, a buzzard, a fly-saw, a sewing machine or a polygo.

The April term of the Clay county district court convenes at Henrietta today. Judge Henrietta and Attorney Leslie Humphrey are at Henrietta for the opening.

BELL-ANS Absolutely Removes Indigestion. Druggists refund money if it fails. 25c

CHIEF BOXING INSTRUCTOR

Johnny Kilbane, of Cleveland, featherweight boxing champion, who has had charge of boxing instruction at Camp Sherman, Chillicothe, Ohio, has been placed in general charge of boxing instruction in military camps throughout the United States. He will install the Camp Sherman system in the other camps and will go personally to Camp Custer and Grant. Camp Sherman is reported to be the only camp in America where every man has been taught boxing.

WICHITA COUNTY RED CROSS

The U. D. C. local chapter, W. R. Scurry, worked at the Red Cross on Saturday, cutting 371 18x26 compressed. The work was not opened in the morning. The workers included: Misses Maurine Smith, Virginia Miller, and Anna Chenault; Messdames L. T. Hyatt, M. M. Gaffney, C. H. Fegenschuh, E. W. Carter, W. C. Bell, Mack Thomas, Walter Nelson, W. E. Marchman, R. C. Barron and C. Y. Tully.

The regular monthly meeting of the Wichita County Red cross will be held Thursday at Burk Burnett, the meeting opening at 3 o'clock. Representatives from the four branches of the chapter will be present, W. D. Cline and Miss Willie May Kell are the representatives from the local branch and it is possible that several other workers will attend.

KAISER MAY BE KING OF RUSSIAN PROVINCES

Amsterdam, April 22.—Berlin newspapers report that the national liberal party leaders have decided unanimously to send a telegram to Emperor William recommending that he accept the crowns of the former Russian governments of Estonia and Livonia.

For Itching Torture

There is one remedy that seldom fails to stop itching torture and relieve skin irritation and that makes the skin soft, clear and healthy.

Any druggist can supply you with zemo, which generally overcomes all skin diseases. Acne, eczema, itch, pimples, rashes, blackheads, in most cases give way to zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skins.

REASONS GERMANS DECIDE TO ADOPT SUB METHOD SHOWN

STATISTICS ON VARIOUS SHIPPING COMPILED BEFORE GENERAL ORDER

By Associated Press.
London, Feb. 22.—An illuminating account of the deliberate manner in which Germany decided to adopt murder on the high seas as a government policy in defiance of all the laws and decent instincts of man and humanity, is given as follows in the *Jewish Bulletin*.

At the close of the year 1915 the German Admiralty Staff prepared a semi-official Memorandum to prove that an unrestricted submarine campaign would compel Great Britain to sue for peace "in six months at the most." The character of the argument conveyed the impression that the Chiefs of the German Admiralty Staff had already made up their minds to adopt the most drastic measures in regard to submarine warfare, but that they wished to convince the Kaiser, the Imperial Chancellor, and the German diplomats of the certainty of good results on economic and general rather than merely military grounds.

To this end the Memorandum based its arguments on statistics of food prices, freight and insurance rates in Great Britain. It pointed out that the

effects on the prices of essential commodities, on the balance of trade, and above all, on the moral of the chief enemy had been such, even with the restricted submarine campaign of 1915, that if an unrestricted submarine war were decided upon, England could not possibly hold out for more than a short period.

The Memorandum was submitted to the Imperial Chancellor, who passed it on to Dr. Helfferich, the Secretary of State for Finance. He, however, rejected the document on the ground that in the absence of authentic estimates of stocks it was impossible to set a time-limit to England's staying power; and also that he was exceedingly doubtful as to what line would be taken by neutrals, especially the United States. Dr. Helfferich maintained that so desperate a remedy should only be employed as a last resource.

The authors of the Memorandum which Germany decided to adopt murder on the high seas as a government policy in defiance of all the laws and decent instincts of man and humanity, is given as follows in the *Jewish Bulletin*.

The authors of the Memorandum which Germany decided to adopt murder on the high seas as a government policy in defiance of all the laws and decent instincts of man and humanity, is given as follows in the *Jewish Bulletin*.

Lessen the Cost of Your "Table" Use Plenty of Good Ice!

Patriotic economy and individual economy are twins. When you save for Uncle Sam's soldiers you are saving for yourself, too.

The prime question nowadays is not "shall we be economical?" but "how may we be economical?"

Right away most housewives think about the high cost of food. Plenty of good ice in that good friend, your refrigerator, will save many a dollar. It will conserve and preserve to the last bit all of the perishable foodstuffs you are buying—fresh vegetables, meats, milk and butter and fruits. Never an ounce will be spoiled, and wasted, if you will keep the refrigerator in tune with our pure ice all the time.

And what a deal of food is taken from the table, some of it practically untouched! How easy it is, and economical, to SAVE it in the refrigerator, and serve it again under a new *nom de plum*. And how often does the produce peddler offer a low price if you will buy a little more than you need. How easy it is to save when you keep plenty of our good ice in that refrigerator.

By the way, pay for your ice with Coupons. It is so much more convenient and you get MORE ice for your money. Buy a Coupon Book from the driver.

to sue for peace in six months at the most. On the question of the effect on neutrals the experts were divided. As to the third point, all the experts agreed that the internal situation in Germany demanded that the most drastic method of submarine warfare prospects were bad and trade—especially the iron trade—had suffered through the shortage of output and the dearth of skilled workers. The coal trade was better, but, sooner or later, was bound to feel the drain on labor. The reduction of output would affect the supply of war material, and would deprive a large number of fam-

ilies of their income. The nation would stand by the government, but not if it yielded to threats from America. Such weakness would lead to serious consequences.

Herr Schmidt, Councillor of Economics, admitted the possibility of Germany not being able to hold out, and emphasized the importance of taking drastic steps before disorder and unrest arose in the agricultural districts.

In this way did Germany decide to abandon what remained of German honor for a last throw against Eng-

FORMER AUSTRIAN PREMIER REPORTED DEAD

By Associated Press.
Amsterdam, April 22.—Baron Gautsch von Frankenthurn, former Austrian premier, is dead at his home in Vienna, says a dispatch today from the Austrian capital.

Baron Gautsch von Frankenthurn had been three times Austrian premier, his last term in that office coming to a close late in 1911. He was 67 years of age.

FAITH IN LIFE CONTINGENT ON FAITH IN GOD

DR. PERCY G. CROSS DELIVERS THOUGHTFUL SERMON TO LARGE CROWD

REAL VICTORY LASTS

Sacrifices Are Declared by Pastor to be Essential if All for Their Ideals of Religion

"He who believes in God more, will believe in life more." This was one of the axioms given a large congregation at the first Christian Church in this city Sunday evening by Rev. Percy G. Cross, pastor, in a thoughtful sermon dealing with "The Victory That Counts."

The victory that counts is the lasting victory. The victory that will not stand the test of history, fraternity and the rights that of necessity belong to a government of the people and for the people and by the people, is a false victory. We cannot understand too well this conception of victory. Let this ideal be a vital part of the fiber of our citizenship, and we have a foundation and a stamina of moral worth that will ordain the pure spirit of victory.

Such a victory has its price, a price paid in the coin of character and conduct—not of a select few, or a forlorn group of martyrs to the cause, but of all who share in the privileges of citizenship as found in the home, the school, the church and the state. The man or woman, yea, the boy or girl who is not willing to share in some sense the responsibility in this mighty affair of victorious democracy is not worthy of the fruits and favors of democracy.

For such a victory with its certain price consider the path to this triumphant goal and seeing this path may we tread it gladly and gloriously. The ancient Romans had a motto that belongs to this way—"Solo nobilitas virtus—virtue, the only nobility!" To tread this pathway, how we do need virtue of body, virtue of heart and virtue of mind!

Fundamentally victory of this nation rests upon victory in the life of this nation. For that there must be certain eternal principles that nothing of earth can shake. Think on them and be faithful in God. When the Apostles of Jesus Christ were amazed because of the withering of the fig tree from the roots the earnest explanation of this miracle, but rather a mighty challenge to believe, for His word was, "Have faith in God." Put this down as an axiom—the who believes in God more will believe in life more. He who believes in God less will believe in life less. The greater your faith in God the finer your life on earth! To accept the challenge of Jesus Christ is to believe in the God of Jesus Christ. That means to believe that God is! That means to believe that God is "The I am." It means to believe that this eternal, almighty Being is our Heavenly Father and that He is all-merciful and righteous. Given such a faith in God, we will put us far along the path to victory. This challenge goes still further for Jesus said to His disciples, "Ye believe in God—believe also in me."

Believe in God—believe in me! The sweep of such a faith beggars description. The fire of such a faith defies all dangers. The might of such a faith will overcome all obstacles. You can pile up words, and be lost in your labors and yet not touch the heart of a challenge. We can win this war by believing in the God and Father of our Lord and Savior, Jesus Christ, with this faith working out into all our life. This is exactly what Germany has lost, and it is this spiritual loss that dooms Germany to the greatest defeat of all history.

3. This compels a second eternal principle that we may read the path to victory. It is prayer to be read in the name of Christ. This war is the world-call to prayer. The greater the need and the more crucial the crisis, the more will we pray and the better will our praying be. This forever precludes our praying: God give us victory; much as a spoiled child asks for a nickel, but compels us to pray that victory be given to those whose lives are lived in faith and worked out in righteousness! Put this acid test to your own life! Put it to the life of our nation! If you will put it to the life of the German Empire. If your praying is to be heard and to be answered then you must pray in faith and live in righteousness. The ideals of humility and justness so admirably expressed by the great French commander General Foch, find their foundation in these

LOYALTY ACT IS INVOKED AGAINST MAN FROM ELECTRA

JOHN SMELTZER HELD UNDER \$25,000 BOND BY THE COURT

John Smeltzer of Electra, of German descent, was ordered held to the grand jury on \$25,000 bond for alleged violation of the state loyalty act by Judge Harry Harris, following a hearing held at 10 o'clock this morning in the Wichita county court. Smeltzer who is the first resident of Wichita county to be apprehended under the new loyalty act, was brought to Wichita Falls Saturday from Electra, where he was arrested following an investigation by T. R. T. Orth, chairman of the county council of defense, and county and district officers.

At this morning's hearing the only witness was J. W. Jones of Electra, who is employed by the Magnolia Petroleum Company at Electra, the same company for which Smeltzer works. The alleged disloyal remarks on which Smeltzer was ordered held by Judge Harris, were made during the course of a conversation on Wednesday, the defendant and several other pumping station employes on the morning of April 4, according to the testimony of J. W. Jones.

At the Theatres

LOUISE LOVELY AT THE GEM THURSDAY

"Nobody's Wife." will be the attraction at the Gem theater Thursday when Louise Lovely will be starred. A synopsis of the story follows: He had committed murder six years before. The police had no picture of Alec, but they did know that Dancing Pete was his girl and that she had been seen around Nugget, Jack Darling, the handsomest man on the force, was given the assignment to get Young and the suggestion as to Dancing Pete's Not knowing just exactly where Dancing Pete lived, Jack huddled into a cabin where a remarkably pretty girl seemed to be living alone and proceeded to make violent backwoods love to her. By the time he found out his mistake, the lovemaking had made great progress on both, and Hope Ross had consented to bed Jack, out by permitting him to say he was her husband when he went to the saloon to ask for milk for Hope's baby. It really was her, but the fear of Jack impelled her to make violent backwoods love to him. He had committed murder six years before. The police had no picture of Alec, but they did know that Dancing Pete was his girl and that she had been seen around Nugget, Jack Darling, the handsomest man on the force, was given the assignment to get Young and the suggestion as to Dancing Pete's Not knowing just exactly where Dancing Pete lived, Jack huddled into a cabin where a remarkably pretty girl seemed to be living alone and proceeded to make violent backwoods love to her. It really was her, but the fear of Jack impelled her to make violent backwoods love to him.

Four prisoners faced Judge Joseph Ogle in prison this morning. Two of the prisoners were fined \$5 each as vagrants and the two others were assessed \$10 each for gambling.

ALLEGED CONVERSATION Smeltzer is said by Jones to have opened the conversation on that morning with some remarks about the German gains on the western front. Jones replied that he didn't see that they were gaining so much, according to the testimony, and Smeltzer replied that he was reading the wrong news. "That made me sore," said Jones, and then he said the subject was changed to a discussion of the lake which supplies Electra with water. Jones said Smeltzer said the dam would break some day and let all the water out and that he replied that if the dam didn't break, that he was afraid a lot of people would get poisoned by the weeds and trash in the lake. Then he said that Smeltzer said it would be a good thing if it did kill them, that it would save "gas, gunpowder and trouble. Jones also alleged that Smeltzer had previously made remarks against the draft, saying the men who were drafted didn't have nerve to fight and had made other derogatory remarks.

OLD MATTRESSES MADE NEW

A faulty uneven mattress makes a good night's sleep impossible. Let us make over any such mattress you may have in mind. We'll return it to you not just as good but better than it was when you bought it new. And as to our own special make, we will not only guarantee its substantiality, workmanship, but guarantee you a good night's sleep, if it takes only a comfortable mattress to induce it.

Bell Mattress Co. T. J. EDMONSON, Manager. Phone 2412.

SLIGHT Ailments Scientific Knowledge of the highest order is required to recognize and properly correct defects of vision. GERMAN PLANES BROUGHT DOWN BY AMERICANS

By Associated Press

With the American Army in France, Sunday, April 21.—Two low flying German airplanes were brought down Saturday by American machine gunners during the German attack in and about Seicheprey, northwest of Toul. The machine gunners who bagged the Germans had been ordered to retreat, but they remained in their position and fought effectively against the enemy aviators.

During the engagement the Germans concentrated their artillery fire on the American telephone and telegraph wires which were cut many times. Soldiers were forced to pass through two or three barages in order to maintain communication. In the meantime, the men of the signal corps, many of them smoking cigarettes in face of a heavy bombardment restored the wires almost as fast as the enemy shells disrupted them.

Ambulance men ventured into No Man's Land during the thick of the fight and did heroic work in gathering up wounded. One German, who had offered to surrender, attempted to explode a bomb on the ground as three Americans approached. Another soldier however, discovered the trick and hurled a grenade at the German. One of the German's legs was blown off and he died later, a prisoner of the men he attempted to blow up. A village near the front lines which the correspondent visited today tells a mate tale of Saturday's fighting. There are huge shell holes in the streets and part of the church and other buildings have been blown off.

The enemy fire became so hot there that Salvation Army girls, who had been serving coffee and doughnuts to the Americans were forced to leave. The girls protested saying they were not afraid of the Germans and wanted

ODD FELLOWS AND REBEKAHS WILL MEET TONIGHT

The Wichita County Association of Odd Fellows and Rebekahs will take place in the Odd Fellows hall in this city tonight.

Quite a number from Iowa Park, Electra and Buckhornett have already expressed their intention of attending and the principal reason for giving it on Monday night was in order to let a great number who are employed at some kind of work, and cannot get off early on Saturday night, which is the night these meetings have been held on heretofore.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color. These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system. If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

WHAT ARE YOU?

Are you a man and doing a man's part in this big war game? Which had you rather do—go over there and fight, or stay here and deprive yourself of some of the pleasures of life, taking the money saved in this way and lending it to Uncle Sam?

Liberty Bonds that you can pay for in the next six months—then buy some more.

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side...

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there. I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did. This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have to return of this trouble. I feel it was Cardui that cured me, and I recommend it as a splendid female tonic. Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, dizziness, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists. NO-132

Entered at the Postoffice at Wichita Falls as second-class mail matter.

Wichita Falls, Texas, April 22, 1918.

Carries boys are not allowed to collect for subscription to the Times...

SHIPMENTS TO BELGIUM.

All food shipments to Allied countries are to be held up for the next ten days in order that three million bushels of grain may be forwarded at once to the stricken people of Belgium...

This is as it should be. The Allied people will sacrifice for the time being in order that those who are suffering may be relieved.

If it is the proper thing for the civilian population of countries which have long been at war to suffer for the sake of humanity, how little it is to ask the American civilian population to give up entirely the eating of wheat flour in order that those men who are defending the rights of the whole human race may be kept properly fed and in good spirits!

Be it said to the credit of the American people that few of them have grumbled, and those who may have done so have at least had the good grace to do their grumbling to themselves.

"WORK OR FIGHT."

The "Work or Fight" proclamation of the Wichita county exemption board and its action in raiding the pool halls and similar places has attracted much favorable comment in the press of the state.

Military police and federal and county officers at Wichita Falls grievously insulted about one hundred and fifty of the hard-working laborers of that city last Friday night, when they raided the various labor dodging resorts to get inside information regarding registrants who had been placed in deferred classification on account of having a dependant father or mother looking to them for support.

RULING OF COURT ON GREENE-ROBISON CASE ANNOUNCED

The ruling of the state supreme court in the case of Greene vs. Robison is awaited with a great deal of interest by oil men and landowners in this section.

There is an action pending before the supreme court of Texas which when finally decided, will have a far-reaching effect on the ownership of minerals and mineral rights to school lands which have been sold in the past.

This case is the mandamus suit of C. D. Greene of Wichita Falls vs. J. T. Robison, the land commissioner to compel him to issue a permit to prospect for and acquire the oil and gas on 320 acres of land in Wilbarger county in the Panhandle oil field.

Commissioner Robison is of the opinion that the state owns the minerals in said land, but the attorney general having given him an opinion to the contrary, he decided to issue the permit in order that a mandamus suit could be brought and the matter finally adjudicated by the supreme court.

The application of Greene for a mineral permit was filed in 1915. At the term of court last fall the argument was heard on both sides, and now all parties are anxiously awaiting a decision of the court which it is expected will be handed down during the present term.

A decision will finally set at rest the question whether the legislature in 1885 had the power to say that the minerals in all school lands theretofore sold could be, and were, released to the owners of the soil.

Land Commissioner Robison maintains that because of the provision in the Constitution being Article 7, Section 4, which reads, "The land herein set apart to the public free school fund shall be sold under such regulations, at such times, and on such terms, as may be prescribed by law; and the legislature shall not have power to grant any relief to the purchaser thereof," that the legislature of 1885 had no power to grant to the owners of the soil previously sold by the state the mineral rights or minerals in same.

Attorney General Looney quotes decisions of various Texas courts to show that the legislature had the right under the constitution to exercise this authority.

In the case of Greene vs. Robison the land in question was alienated by the state as agricultural land with no mineral reservation, specifically stated, the rights of the state to the minerals, according to the view of the land commissioner, being held because of the law of 1883 which reserved all minerals in state lands.

In 1883 there were two land laws passed. One of these provided for a land board having full authority to sell the lands, and another law to the effect that the minerals on all lands sold or leased under this act are reserved by the state for the use of the fund to which the land belongs.

Just as the supreme court has decided with special reference to such lands sold under the present law giving the land commissioner the right to classify such lands as "agricultural," "grazing" and "mineral."

The case of Greene vs. Robison is of widespread importance, especially in Northwest Texas where oil and gas have been discovered for if the court decides that the state does not own the minerals in lands sold prior to 1883, there will be a boom in the sale of these lands.

On the other hand, many persons who believe the supreme court will decide that the mineral rights on such lands belong to the state are making applications for mineral permits and, of course, these are being held up by the land commissioner pending a decision in the case.

OFFICIAL

France.

Paris, April 22.—German raids east of the Avre River and near Rheims were repulsed last night, the war office announces.

The statement follows: "A German raid last night east of the Avre, in the region of Thennes, was repulsed. We took prisoners. Another German raid east of Rheims gained no greater success."

Great Britain.

London, April 22.—The British advanced their lines slightly last night in local operations on both of the principal battle fronts, the war office announces.

Gains were made near Villers-Bretonneux and Albert, on the Somme front, and Robecq, at the tip of the Flanders salient.

A strong local attack by the Germans on the front north of Albert was repulsed after the enemy had captured one of the British advanced posts.

The official statement follows: "Early in the night a strong local attack accompanied by heavy shelling was made by the enemy against our positions in the neighborhood of Mesnil north of Albert. After sharp fighting in the course of which the enemy succeeded in capturing one of our advanced posts, the attack was repulsed."

"We improved our positions slightly during the night in the Villers-Bretonneux, Albert and Robecq sectors."

"A number of successful raids were carried out by us at different points south and north of Lens, resulting in the capture of prisoners and machine guns."

"There has been considerable artillery activity on both sides on different sectors of the British front. The enemy's shelling has been directed chiefly against our positions astride the Somme and Avre rivers, in the Lens sector in the neighborhood of Festubert and in the Nieppe forest."

LIBERTY LOAN SPEECHES GIVEN BY TALKING MACHINES

Washington, April 22.—In every American home with a talking machine, a Liberty Loan speech by Secretary McAdoo will be a feature of the present bond selling campaign.

Weeks ago Mr. McAdoo made the speech in the privacy of his office with a virgin wax record as audience. Manufacturers of the record arranged to sell it at a nominal price as a patriotic duty and publicity managers heralded the speech.

But the record did not appear and investigation today showed that Mr. McAdoo had a severe cold the day the speech was made and manufacturers declined to reproduce a record that was hoarse.

Austrian Demands That Home Rule Be Granted Colonies

Dublin, April 22.—John Dillon, chairman of the Nationalist party in the house of commons has received the following cable message from Archbishop Kelly of Sydney, on behalf of the Australian hierarchy:

"Considering the persistent refusal of respective governments to grant home rule to Ireland, despite the votes of the British people and petitions of the dominions, we, voicing Irish and Australian democratic sentiment call upon the government to grant home rule for Ireland forthwith, and considering the invariable failure of coercion in Ireland, we strenuously protest against any attempt by the British government to conscript Ireland."

"THE KING'S OWN" CAPTURE ST. ANDREWS-BY-THE-SEA

St. Andrews-by-the-Sea on Passamaquoddy Bay! Doesn't that sound sly with its suggestion of old Scotland and the America of the Redskins? To the initiated thousands this hyphenated cognomen spells "Joyful Living" Bountiful Nature, supplemented by inventive Man, provides pleasures in varied abundance for those who seek rest or amusement in Canada's most popular Atlantic resort.

The blue waters of the bay offer splendid boating and sea bathing, two sports indulged in to the full by many of the visitors. The country about St. Andrews-by-the-Sea is ribboned by charming walks and drives; he who follows them may choose whether he will stroll, hold the reins over a pair of high-stepping roadsters, or roll on the cushions of a twentieth century Mercury.

One of the unusual sport attractions is a Bowling Green. Enthusiastic bowlers and interested spectators may be found upon it at all hours of the day or night. Being electrically lighted, the sport need not cease with the waning of the daylight.

Golf, however, is far and away the game at St. Andrews-by-the-Sea. The links are famous far and wide. Hither at one time or another come all golf celebrities for St. Andrews does not draw its clientele from Canada's smart set alone. It numbers among its guests society leaders from every American city. In this Newport of Canada you will find more than a few high governmental officials and a heavy sprink-

ling of men in uniform—military and naval—these days. They are, almost to a man, devotees of The Game. Many a brave soldier who has seen hard service overseas and is now on furlough recuperating, finds mental rest and physical stimulation in a pro over the course, while the chaps who are awaiting sailing orders, are glad

to distract the tedium of inaction by following the little white ball over that wondrous course laid out by Joe's Point overlooking the sparkling waters that lap these western sands and then slip back into the great sea to some day wash the sands of far-away France. The wide, sea-breeze swept re-

aspects of the Algonquin Hotel—the easternmost of that chain of fine hosteries by which the Canadian Pacific Railway has linked the Atlantic and Pacific coasts—present a gay scene every afternoon, when the golfers, bowlers, bathers, sailors, motorists, bridge-players, knitters and the purely decorative, gather for that time-honored, almost religious, ceremonial, afternoon tea. Then one realizes to what an extent society has gone into the habit of uniformity and add a new note of distinction to that always smart assemblage.

CURTAIN COMES DOWN ON SECOND BATTLE ACT

By Associated Press (By R. WALTER) London, April 19.—The curtain has come down on the second act of the great battle with the villain successful enough to leave us in suspense but frustrated again in the eleventh hour. In the first act he nearly separated the British and French armies and nearly captured Amiens; in the second act he nearly broke through and at the climax did indeed already threaten the British and Belgian armies in Belgium. Today we sit like spectators in a trench, speculating what the hero Foch will do in the next act, and what new villainy is planned.

question whatever of trading the one for the other; both are justified on their own merits; the necessity for each arises from a different cause. The conscription bill passed by a large majority; the Home Rule bill will just as surely be passed. Conscription cannot immediately be applied to Ireland; the machinery does not exist; Home rule will be a law before conscription can be set up. Only in this way are the two measures connected.

It should be added that no practical politician has ever contemplated giving Ireland control of military affairs, any more than the United States would admit the right of Kansas or Iowa or Wisconsin or any other state to reject the draft law. The demand of the Irish

Nationalists that conscription shall await the convocation of an Irish parliament is not politics but propaganda.

YANK MAIDS SHOW SPIRIT

Letters to Little English Girl Full of Enthusiasm for Allied Victory (By Reciprocal News Service) London, April 19.—If little American girls are good barometers, there is a furious hurricane being uncoiled for the Kaiser in the United States. A wild storm of feeling is told in letters that continue to arrive from all parts of the Middle West for Sheila Maxwell Davies, 13 years old, the young Londoner who wrote the tribute to Yank fighters entitled "Son of America," sent across the ocean by the Reciprocal News Service.

LOVE ME, LOVE MY DOG!

AN AMERICAN MASCOT of the HEADQUARTERS STAFF of the 1st BRIGADE, EN ROUTE to the FRONT. BY COMMITTEE ON PUBLIC INFORMATION

As far as the armies of the United States may go and to whatever corners of the world the battle ships carrying the Stars and Stripes may ply, there is always to be found in the arm of some man or boy at each unit a mascot.

p. m. and opening at 7:30 a. m. to save coal to help win the war." Edna Rockwell, Gilman, Ia., "I was with you people in the movies the other night. Saw scenes of London and all over England, and it showed how kind and good some are to every American. We are proud to help your land in this time of need."

An indefatigable little patriot is Helen Larsen, 101 Hazel St., Council Bluffs, Ia. "Do you have a garden?" she asks. "We do. I have made two trips to the Iowa State Agricultural College, about 125 miles from here. The first time they sent me because I canned 185 different kinds of fruit and vegetables. The second time I went because of the quality of 10 cans of vegetables." Then she told of the great knitting production of her mother, and the war funds raised by Council Bluffs.

Now for Frances Trigg, 1164 States Street, Texarkana, Tex., whose spirited letter is worth publication in America in its entirety. She writes:

"True American Girl I am a true patriotic American girl from the Lone Star State. I live in Texas, and am 12 years old. I live in a town where there are three states combined, Texas, Arkansas and Louisiana.

Many of our Texas boys are in France fighting for the right, and I am sure we will win the war for God is on our side. I have three cousins in the war, two over there and one in our land. I have been knitting and trying to do my bit.

Our school system is a great one. We are preparing men and women who will have to take the places of the dead in the reconstruction work. All girls and boys attending schools of our city, not missing over five days in the term and making 90 per cent in work and deportment, are exempt from taking examinations.

Our President, the greatest man in America, is pleading to the boys and girls to stay in school as long as they have the opportunity, for upon their shoulders lies the burden of reconstruction.

If I could be of any assistance to my country or yours, I would only be too glad. I've only wished to be the least bit of use of this war. I certainly wouldn't mind having the Kaiser's helmet as a souvenir.

Our schools are full of measles. They're called "German measles" but our boys didn't like the name so they changed it to "Liberty measles."

say, "America has to feed the world." Vera Geyer, Ames, Ia., has this plaintive inquiry: "Is it true the Germans do such awful things as to kill little babies? I have two dear little brothers and I wonder if any German could hurt them?"

Too many told of money-raising and Red Cross work to permit any extracts from letters on this theme other than this one, from Bernice Nelson, Algona, Ia. "There has been a great Red Cross drive here. Every family and store gave something, ranging from a rag doll to a buffalo. The buffalo brought 3,000 pounds just for the meat. He was offered 200 pounds for the hide, 200 pounds for the head and 100 lbs. for the tail. They sold the meat as high as 20 lbs a pound then some was not so high only 2.25. We had some and it tasted like real good beef steak."

Our stock of tires and tubes is complete. All sizes. Loss Puncture Proof; Mohave, Federal Goodyear and Pennsylvania. Call and let us serve you. MOTOR SUPPLY CO.

Large advertisement for Chalmers cars. Title: An engine that translates gas into a new kind of thrilling power through the "Hot-Spot" and "Ram's-Horn" Manifold—Chalmers devices. Features: Power to take a hill, and power to pass the other fellow are still claimed by many car makers; but here's a car that puts such expressions into the dark ages of automobiling. It is the current Chalmers, equipped with the famous "Hot-Spot" and "Ram's-Horn" Manifold, which wrings from gas more power than was ever taken out of gas before. But not merely brutal power (for that it has), but a newer kind, a softness of power that is as thrilling to bear witness to as the technique of a great musician. Accomplished how? By those two great devices: a "Hot-Spot", which fairly cooks the gas, then "cracks it up fine as a powder", and the "Ram's-Horn" Manifold which "sets it down" in the combustion chambers with celerity and without disturbance. So that when the spark touches it off, it gives nothing but power; soft, harnessed, controlled power that you will never forget once you have had its feel. TOURING CAR, 2-PASSENGER \$1538. TOURING SEDAN \$1950. CABRIOLET, 2-PASSENGER \$2075. TOWN CAR, 2-PASSENGER \$2215. LIMOUSINE, 7-PASSENGER \$2725. STANDARD ROADSTER \$1685. TOWN CAR, 2-PASSENGER \$2215. HALF OF LOAN IS TO BE SUBSCRIBED IT IS ANNOUNCED

EARLY REPORTS TODAY INDICATE THAT \$1,500,000 ARE SECURED

By Associated Press Washington, April 22.—(Bulletin)—Half of the three billion dollar minimum sought for the third Liberty Loan remained to be subscribed in the remaining working days of the campaign. Early reports today to headquarters indicated that the total had been raised above \$1,500,000, 000. Reports already in show it is \$1,456,583,100.

This covers only part of Saturday's business and represents an increase of \$85,000,000 over the total reported Saturday night. Local committees in hundreds of communities sent word today that they would try to make this the record week of the campaign counting strongly on patriotic celebrations Friday, designated by President Wilson as Liberty Day, to swell subscriptions.

Railroad Employees. Railroad employees over the whole country are subscribing liberally. R. H. Ashton of Chicago, regional director of railroads west of the Mississippi, reported subscriptions of \$29,618,000 from his territory. Latest reports indicate that the State of Washington has exceeded its quota.

Oregon now claims a new record on the ground that at the end of the second week every town and every county had subscribed its quota. Indications were that Missouri had gone over the top and that nineteen counties have been awarded the honor flag. In the entire St. Louis Federal Reserve district, 474,000 subscriptions including \$2,000,000 from St. Louis have been reported.

Dallas District. The Dallas district announces the following ratios of states and their subscriptions percentages of quotas: Texas 44; Oklahoma 41; Louisiana 48; Arizona 70; New Mexico 24. By cities, this report is: Dallas 42; Fort Worth 62; Waco 64; San Antonio 68; Houston 53; Shreveport 56; Galveston 50; Austin 37; Chandler, Texas, with 220 quints has made 752 individual subscriptions. Arizona is expected to go over the top in a day or two.

Fountain of Fire From Gas Main Is Finally Smothered

The fire department was called out by an alarm from 600 Scott Ave. at 11 o'clock Sunday morning. When the department reached the scene it was found that, in grading the street there, a hole had been knocked in the gas main and the gas was escaping with a roar. Some small boy evidently had heard the roar of the gas and tossed a match into it to see the fun. A fountain of fire was playing above the pipe. After some labor, the department buried the fire and before they left the place men from the gas company were on hand to mend the leak. There was no damage.

BOMB IS FOUND IN NEW YORK BUILDING

New York, April 22.—A bomb containing five pounds of dynamite and exploded by Owen Egan, inspector of the bureau of combustibles, to be one of the most dangerous he has ever examined, was found today in the doorway of a four story building owned and occupied in part by Life Publishing Company, publishers of Life, in West 31st Street. The contrivance weighed 12 pounds and was a foot long and a half foot wide and was wrapped in a Philadelphia newspaper of date of April 21.

FEDERAL COURT TO BE CONVENED TUESDAY MORNING

FAILURE OF JUDGE MEEK TO ARRIVE CAUSES DISAPPOINTMENT

Due to the failure of Judge E. R. Meek to arrive this morning the Wichita Falls March term of Federal court was adjourned this morning until 10 o'clock Tuesday morning, immediately after it had been opened by U. S. Commissioner J. A. Lantz and Deputy U. S. Marshal Robert Goodfellow of the Wichita Falls court. Judge Meek's telegram to open court at 10 o'clock and adjourn it until Tuesday morning was received by Commissioner Lantz early this morning. Judge Meek is driving through from Dallas and arrived this afternoon.

There were a large number of defendants, witnesses, grand and petit jurors and spectators on hand this morning for the opening of court. Due to the heavy docket and the unusual nature of some of the cases this term of court promises to be of exceptional interest and the attendance this morning forecast a full courtroom for the entire term of court.

It is expected that John L. Terrell of Fort Worth, the newly appointed marshal to succeed the late Captain Bill McDonald, will be sworn in tomorrow. Mr. Terrell, Acting U. S. Marshal W. P. Stokes, Lewis E. Maynard, clerk of the court, Miss Minnie Ramsey, deputy clerk and secretary to W. M. Odehl, district attorney, C. C. Robey, assistant district attorney, W. M. Odehl, the district attorney, the official personnel of the court arrived this afternoon. Judge Meek was accompanied by his secretary, George W. Parker.

RECRUITING STATIONS OPENED IN NEW YORK

New York, April 22.—Recruiting stations for the new American merchant marine will be opened in 409 drug stores in New York state. It was announced today, the pharmacists, who volunteered in a body have been appointed special recruiting officers. Each druggist will serve as a "dollar a year" man. Citizens between the ages of 21 and 30 may apply at the drug stores for training as sailors, firemen, coal passers and other capacities on a squadron of ships maintained by the United States shipping board.

MUCH CONCERN IS FELT OVER FATE OF CZECH TROOPS

Washington, April 22.—Much concern is felt here over the fate of 11,000 Czech troops who deserted from the Austrian army to join the Russians at the beginning of the war and who according to Vienna newspapers have been captured by the Germans advancing into the Ukraine. Members of the Czech-Slovak National council said it was feared most of the prisoners or at least the officers might be summarily executed.

WORTHAM SHOWS TO OPEN TUESDAY IN WICHITA FALLS

Due to traffic conditions, the C. A. Wortham Carnival company, billed to open in Wichita Falls today, was unable to arrive in the city but announcement is made that the opening will be on Tuesday and that the engagement will continue for a week.

"These are not normal times," said a representative of the company this morning, "and a little delay here and there in the schedule of a show is to be expected. However, we will try to make up for lost time on arrival tomorrow. I believe that the people here are going to be pleased with the 22 attractions Mr. Wortham is carrying this year."

Twenty-Five Cabinets Receive Commissions At Aviation Field

Twenty five cadets will receive their commissions as second lieutenants in the Reserve Military Corps at Call Field tomorrow, authorization having been received from the war department to issue commissions to the graduates. On account of the signal corps being filled to its authorized strength commissioning of the graduates as they finish had been discontinued for the past two weeks, but Saturday night authorization to again give commissions came, and the men who have been waiting since graduating will receive their silver wings and gold bars to be worn and leave for their graduate pass of ten days.

PERSONALS

Mrs. Will Buford of Des Moines, Iowa, is the guest of Mr. and Mrs. O. L. Rahl.
