Some To Be Affected.

ST. LOUIS, MO., May 23.—President Wilson in opening the War Fund Campaign in New York, pledged the resources of America in our struggle against the hideous forces of agression. Why place a limit on our contribution of men, money or munitions?" He asked: "If we are in the right to win, we must not count the cost. Victory complete and permanent must be ours. If five million men can achieve, well and good. If ten million men are needed, we will send them. If these are not enough, more millions will carry on the struggle.'

· We of the Red Cross must keep this resolution constantly before us. We must not limit our sacrifices, our energies. Mr. Davison and the War Council of the Red Cross have asked for one hundred million dollars. Last February they named that sum as necessary." They under-estimated the needs of the Red Cross. "The answer is plain. The first step toward the solution of the difficulty is to prohibit engagement by abe hodied men in the field of hurtful employment, idleness or ineffectual employment and thus induce and persuade the vast wasted excess into useful fields.

the vast wasted excess into useful fields.

"The very situation we are now considering, however, offers great possibilities in improvement of the drait as well as great possibilities for the composition of the labor situation by effective administration of the draft. Considering the selective service law we see two principal causes of deferment of the call to military service—exemption and the order numbers as signed by lot. The exemptions there selves fall into two conspicuous categories—dependency and industrial employment. One protects domestic relations, the other economic interest."

What we are anxious to see the government do is to provide some recourse for those logics over draft age. We have several of them here supported to the age. We have several of them here so hardened that public opinion makes little impression. We are hoping that something may be done quickly to put these overage men of the class we speak of in a position where the local board can handle them. If they power to show it to them."

FAMILIES OF MANY SOLDIERS HELPED IN SINGLE MONTH

HOME SERVICE SECTION OF THE SOUTHWESTERN DIVISION HELPS DEPENDENTS.

ST. LOUIS, May 23.-If the Civilian Relief department of the American Red Cross constituted the whole

can Red Cross constituted the whole of that wonderful organization, the Red Cross still would be one of the biggest factors in winning the war for America and her allies.

Those in the Southwest who know the immense good which this department of the Red Cross does will dig deep into their pockets when the Second War Fund Campaign of the Red Cross begins May 20.

Land with songs on their lips, something that cannot be manufactured, something that cannot be manufactured. Something that cannot be manufactured, something that cannot be manufactured. Something that cannot be manufactured, something that cannot be manufactured. Something th

ond War Fund Campaign of the Red Cross begins May 20.

If you were called to a distant land suddenly and compelled to leave your family in such a condition that shortly afterward they were in want, and if a friend cared for your family and comforted them in your absence, that friend would have a place in your heart forever after. That exactly typifies the service which the Civilian Relief department of the Red Cross gives the dependent families of American soldiers and sailors who have knone to France or who are going to France to do the grim work of war.

Particularly Effective.

Particularly Effective.

Particularly effective service has been rendered by this department in the Southwestern division of the Red Cross. There are 2,670 Home Service Sections in the thirteen divisions of the Red Cross, Six hundred of them, or more than one-fifth, are in the Southwestern division, comprising letters of appreciation from

the Red Cross. Six hundred of them, or more than one-fifth, are in the Southwestern division, comprising Missouri, Arkansas, Oklahoma, Kansas and Texas. In other words every chapter with the exception of 80 in this division has a Home Service Section.

Oklahoma holds the division record in this respect. That state has 103 chapters and 103 Home Service Sections. Other states of the division are expected to be one hundred percent Home Service Section within a short time.

SET PACE FOR RED CROSS.

Iowa Park, Electra and Burkburnett have set a pace in the Red Cross war fund which Wichita Falls has been unable to follow. Iowa Park and the air.

"A certain number of bombs were thrown on Paris and in the Paris district. The 'Ail clear' signal was given at 3:30 o'clock."

At the beginning of the war these smaller communities were somewhat backward in meeting their quotas. Now they fill them almost as soon as the subscriptions are opened. They are awake to the needs of the hour and are willing to make whatever

the number of American troops which arrive upon the lines and the stronger the line against any tactics which and the Germans decide to play.

It begins to look as if the havor wrought by the allies among the German divisions must have been ever greater than officially reported, if the time it takes the Huns to reorganize is to be considered.

Evidently the Germans would prefer to have the entente forces do the attacking, but this is not likely to occur. There is no particular advantage to be gained by the Allies in pressing an attack at this time.

But at the proper moment, when the line has been made so strong that success is sure, it is believed that the counter stroke will be made with crushing effect.

THE CHAMBERLAIN RESOLUTION

As amended, the Chamberlain resolution meets with the approval of the machines returned. Two German machines were brought down by gunfire

probing of various war measures which have been undertaken.

It was to such a committee, which would virtually have constituted a committee to take direction of the conduct of the war, to which Presi dent Wilson was most opposed.

So long as the members of congress, in prosecuting their investigations, do not secure for broadcast publication of the cylindry o in prosecuting their investigations, do in the evidence offered them facts which would prove useful to the en emy, it is certain that the people will favor any probe of specific mis-conduct of operations which seem to have been wilful and avoidable. .

Particularly with reference to the aircraft program, does an investigation, to be followed by speedy and severe punishment of those who have been guilty of obstructing the work seem essential. President Wilson, himself, has twice taken the initiative in this matter, first permitting Borglum to undertake the collection of such evidence as came to hand and, when serious charges reached his ears against the sculptor, ordering another and an official investigation in to the matter.

Congressmen have a greater opportunity than any other people of the nation to assist in the prosecution of the war. They have an opportunity to right programs which have gone wrong and they have a chance to initiate programs which may mean much toward defeating the Germans.

ingly that very few of the members of congress have thus far done aught save to throw the full weight of their influence into the scales behind Rresident Wilson and his chosen lieuten ants and we feel perfectly certain that this condition will continue, because we believe the members of both houses are first of all patriots and fully realize the grave responsibilities which are their's.

Siberia Now Watched By All of Allies As Point For Action

By Associated Press

TOKIO, Friday, May 17.—The military agreement between Japan and China has caused increased attention to be given the question of intervention in Siberia. It is understood that Great Britain and France are actively favoring intervention, the former because of danger of the spread of German influence and both because they are convinced that it would hasten winning of the war. The general staff is ready for action by the government has not accounted any decision in the matter.

The best opinion here is that intervention is not likely until it is favored by the United States.

Can We Make Good Service Still Better?

We know that we are serving you with ice as good and as pure as ice can possibly be. We know, in consequence, that our ice is the greatest aid to health, for it is made from clear, distilled water. We know that no plant in America can make, or is making, better ice than you buy from us.

It seems reasonably certain that it will be difficult, if not impossible, to make better ice, so we are thinking now about our Service. You want your ice, and so does the lady next door, at the same time every day. And it is natural that you will feel disappointed, and vexed, if the wagon happens to be a few minutes late.

May we suggest that you can help us improve our service, if you will, by being ready for the ice man when he comes, so that he can serve you without delay. A few minutes lost here and a few minutes lost there—and the folks down the street chafe as they wait. If everybody will co-operate, everybody will get their ice right on the minute every day.

If you can suggest any improvement in our service, please call us up and tell us. If you have any complaint to make, please tell us. We want to know what that mistake is, so we won't make it again. Perfect service is what you want, and that's exactly what we want, no more or less, to give you.

"WIN-WAR-FOR-PEACE" MEETING IS DECLARED

"I have never attended a more enthusiastic meeting nor one from which I received more genuine inspiration and a sense of uplift as the meeting of the Win-The-War-For-Permanent-Peace League, held last week in Phila-delphia," said J. A. Kemp this morn, delphia," said J. A. Kemp this morning. Mr. Kemp has just returned, from a ten days stay in the east, visiting the national capitol following the close of the Philadelphia meeting. "The very close unity existing between all parts of the country in the present crisis, and the evident determination of all the nation, regardless of section party or creed to purtermination of all the nation, regard-less of section, party or creed to pur-sue the war until a victorious and last-ing peace is secured was brought out by every speaker at the meeting," Mr. Kemp, continued. "We heard former President Taft, who heads the league and who presided at all sessions, Dr. Anna Howard Shaw and many other of the most prominent men and women of the nation and the theme of every one of these was 'Win the War First'." Mr. Kemp again looked after the Chamberlain irrigation district financ-ing bill while in Washington, and is

able to report prospects hopeful for the passage of the bill through the Senate. The bill was called up re-cently but was held over on the couest of one Senator, who stated he desired to real the bill before taking TOTAL CONTRIBUTIONS TO RED CROSS AMOUNT

That Harris county women BY KEMP BIG SUCCESS Hobby, whose progressive measures have been placed upon the statute books of the state during the last year, is indicated in a communication received by The Times from Miss Hortense Ward.

To The Women of Texas:

The eyes of Texas are upon the women of the state. Theirs is tar-privilege and the duty to elect a govrnor, who stands for the best ideals of the people and the welfare of the

of the people and the welfare of the state.

We have worked for the right to participate in the election of the men who control the policies, enget and enforce the laws of our state. We now have that privilege, it carries with it serious responsibilities. Especially is this true when we are faced with the knowledge that opposed to the Governor who is responsible for our enfranchisement are the combined forces that have fought the political freedom, protection and advancement freedom, protection and advancement of women. We know from our own experience how strong is the organized liquor traffic, and its allied interests. Mr. Ferguson's opposition to suffrage and his action in fighting that measure at the Democratic National Convention at St. Louis in 1916 are matters well known to the women of Texas.

Eighteen thousand dollars represent Wichita Falls' contribution to the Red Cross in three and a half days, this being the total amount turned in by committee men to the treasurer, A. E. Murdock, at headquarters this afternoon. This leaves more than \$10,000 to be raised in the remainder of the time until Sunday night.

known to the women of Texas.

Governor Hobby is responsible for some of the most progressive legislation ever placed upon the statute books of any state. The zone law, the primary suffrage law, the literacy law, the alien law, the literacy law, the delinquency law, the vice bills the age of consent law and the educational laws for the benefit of the schools all laws for the benefit of the schools all

> in their passage. Would Mislead Women.

It has come to me that those op-posed to Governor Hobby are seeking to mislead women who are not well to mislead women who are not well informed on these matters in an endeavor to prevent his receiving the unanimous support of the women. I believe that these efforts will be invain. I have confidence in the intelligence, integrity and appreciation of the women of Texas. It has been my belief in their integrity and intelligence and their sense of justice and right that has caused me to work for the laws giving them the rights they now possess. I know that they will prove true to the ideals for which they stand, to the principles of political integrity, honesty and civic duty which they wish their children to follow. I know that they will vote for clean politics, clean government, the continuation of prohibition and good morals for the elimination of the liquor traffic and the vice interests. That they will vote for Hobby.

What a Man Is. What a Man is.

The women of Texas are more concerned with what a man is and how he has fulfilled a public trust than the technicalities of an impeachment proceeding. It is not whether the legislature had the authority under the constitution to declare Mr. Fergitson guilty but that Mr. Ferguson is

guilty as charged of acts that render him unworthy of public trust and confidence. The misappropriation of public funds, the violation of state banking laws, the \$156,000 currency which he refused to account for, the uniawful handling of state funds, the use of public funds to pay his personal obligations, the appropriation of escrow money deposited in his bank to his personal use and his refusal to return it; his attempts to influence the supreme court and the court of civil appeals at Beaumont in his own behalf and his vetoing an act of the legislature increasing the salary of the supreme court judges when they refused to be coerced by him—these are the matters that women are concerned with. The supporters of Mr. Ferguson do not deny his guilt. They only insist that though guilty the legislature had no authority to convict.

Honce Necessary.

We believe that honor, integrity and civic responsibility are the test for public office. We are concerned with the ideals we set for the youths of this country and the women of Texas will not vote for a man who admits his guilt and pleads lack of authority to

guilt and pleads lack of authority to enforce punishment.

The women of Texas will not be misled or deceived. They know how hard has been the fight to eliminate liquor and how difficult it has been to secure legislation regulating the saloon and its allied connections. Women will question closely any falsehoods that may be circulated to mislead them. Women will remember to register between June 26th and July 12th and they will vote July 27th. They ter between June 26th and July 12th and they will vote July 27th. They will vote for prohibition—for good morels, for honesty and integrity in high office, for loyal support of the government, for the protection of the nation, the army, the home and the children. SENT OUT.

Wichita Falls automobile owners who have so far falled to receive their automobile license tag and number from the state highway department may find their missing property at the city hall. The police department announces that a number of undelivered packages from the highway department containing tags and numbers plates are at the city hall, awaiting some one to call, these numbers runaning up to 250,000 being in the first batch of registrations.

The police bave also been requested by the highway department to see that the law requiring the state seals and numbers be rigidly enforced. They are given authority to file complaints against all moforists driving cars without the 1918 seal or the number, after a reasonable length of time has elapsed for the driver to secure the license.

Latter Received.

The following letter bas been received at local police headquarters from the office of the state highway department:

Announcement is made by the State Highway Department that up to this date 249,300 registrations of automobiles have been received from the lactory up to and including 261,000.

The Department is now sending out about four thousand pairs of these number plates daily by parcel post. Up to date we have already dispatched ay there is no reason why each application in correct form should not immediately receive a number plates and the crifficate from the Highway Department, and that there should not immediately receive a number plates seal and certificates by Wednesday they person entitled to a number plate who has heretofore registered in no 250,000 should be in posses.

PUTTING HIS MONEY TO WORK

THE HOPE OF THE WORLD

By HAROLD BELL WRIGHT.

THE hope of the world is not alone that the armies of humanity will be victorious, but that the spirit and purpose of our warfare will prevail in our victory. The hope of the world is in the Red Cross, because the Red Cross is voicing this spirit and purpose that must, through the force of our arms, triumph. Just to the degree that we can evidence this Red. Cross spirit of mercy and brotherhood we will hold true in the dangerous hour of victory to the ideals that have forced us into the trenches in the defense of human rights and human liberty.

The one sane and saving thought in this delirium of death that now possesses the world is the Red Cross.

Wherever the storms of battle hell rage, amid the fires of ruthless destruction, in trench and camp and hospital, these soldiers of mercy with heroism unsurpassed are carrying the flag of the highest conceivable ideals of humanity. The ideals for which our armies have taken the field are, by these unarmed hosts, proclaimed to friend and foe, in that unmistakable language of universal mercy and brotherhood. In the terms of wasted · towns rebuilt, of broken humanity. salvaged, of dying children rescued. of desolate families succored, the Red Cross declares the cause for which we war and proclaims the principles and ideals that must and will in the end prevail. Above the thunder of the guns, the roar of exploding mines,

the crash of fallen cities and the cries of tortured humanity, the voice of the Red Cross carries clear and strong the one message of hope to our warburdened world

The black horror of this world's crisis would be unbearable were it not for the spirit and work of this mighty force. The normal mind refuses to contemplate the situation without this saving power.

It is the knowledge that in every city, town and hamlet, men, women and children are united in this work of declaring to the world, through the Red Cross, our message of mercy and brotherhood, that keeps our hearts from sinking under the burdenof woe and sustains our faith in human kind. It is the constant daily, almost hourly touch with the Red Cross work that is felt by every citizen in the land, that inspires us with courage and hope.

Out of this hell of slaughter the Red Cross will guide the warring nations to a heaven of world-wide peace and brotherhood.

Because it is the living expression of those ideals and principles in defense of which we are giving our all in lives and material wealth-because on every field of death it is proclaiming its message of life-because it keeps ever before us and the world. the cause for which we war-because it will preserve us in the hour of our victory from defeating ourselves—the Red Cross is the hope of the world.

The Nation's Courier

With the whole Nation an armed camp whose outposts extend from ocean to ocean, the toll lines of the Bell System are the message bearers of the Nation's vast war organization.

Even at the fighting front the telephone has replaced the hard-riding courier of other days..

The Bell telephone message traverses the continent at its widest girth in one-fifteenth of a second.

Important military points and industrial centers hundreds of miles apart are in close contact with each other and with Washington.

More than three million miles of toll wire in the Bell System are the highways over which pass a million messages a day, by which the vast activities of the Nation are systematized and controlled.

Conditions in the Piano-producing industry are practically without precedent. Materials are scarce and harder to obtain than ever before. Spruce, piano-wire, and many other indespensible necessities are being used by our Government in the War Program for the production of aeroplanes.

Our Entire Stock Is Priced Accordingly

You will be able to select your instrument at prices ranging from \$60.00 and up.

And you can get your piano on terms if you wish. We have fully made up our minds to sell this entire stock before making this announcement and will close out without regard to profits.

Lester the "Piano Pre-eminent"

The Lester Grand Piano has, during the past quarter century, passed through a double test which marks it as the "Piano pre-eminent" of America.

Scores of the leading artists of this country and Europe—grand opera stars, conductors and musicians of the highest fame-have accorded it the most sincere and unanimous praise for its success in concert and recital work.

But it has passed another test, even more rigorous. and with results even more flattering. While praise coming from the world's greatest artists is highly gratifying to the men who make this glorious instrument, it is the other verdict—the one coming spontaneously from thousands of homes throughout the land—that after all makes the Lester stand out strongly as a marvel of piano construction.

The Lester tone is its predominating feature. Full, rich and mellow, it combines all the attributes which musicians so much desire.

Its "beautiful tone color" and "delightfully delicate" and responsive action" are most frequently mentioned in the letters of congratulation we receive daily.*

Next to the tone effect, the feature that pleases us most is its wonderful durability. The tone lasts. The action lasts. The finish lasts. And the rich, chaste designs of the Lester cases mark them instantly as models of distinction and good taste.

There is only one way to give to the Red Cross to give till your heart says stop. A little contribution is only a slave to pride.

This is not to say that contributions of only one dollar, or even of only one nickle, are not desired—and NEEDED.

For you to give \$5 when you can give \$25 for you to give \$25 when you can give \$100, or to give \$100 when you can give \$500—is to dodge the heaviest obligation that this war has laid upon you.

For remember, this is NOT a charity:—this is a DUTY.

This is not a time to give because others give. This is a time to give because OTHERS NEED.

No man can tell you how much you ought to give. Except this: that "Over There" the NEED is so great that only by cutting to the quick, only by giving all that you think you can give and then MORE—only by giving not a little of your excess but much of it—only by taking from your own children and from your wife and from yourself, can the NEEDS of the men who are fighting for you and the NEEDS of the children of the men who have died for you be met.

Ask your own soul how much it should be!

THE RED CROSS WAR FUND GOES
FOR WAR RELIEF.

The American Red Cross is the largest and most efficient organization for the relief of suffering that the World has ever seen.

It is made up almost entirely of volunteer workers, the highest executives being without exception men accustomed to large affairs, who are in almost all cases giving their services without pay.

It is supported entirely by its membership fees and by voluntary contributions.

It is today bringing relief to suffering humanity, both military and civil, in every War torn allied country. It plans tomorrow to help in the work of restoration throughout the world.

It feeds and clothes entire populations in times of great calamity.

It is there to help your soldier boy in his time of need.

With its thousands of workers, its tremendous stores and smooth running transportation facilities, it is serving as America's advance guard—and thus helping to win the war.

Congress authorizes it.

President Wilson heads it.

The War Department audits its accounts.

Your Army, your Navy and your Allies enthusiastically endorse it.

Twenty-Two million Americans have joined it.

business womens' luncheons closed last evening at the climax of their popularity. At both luncheons yesterday the Methodist church dining yesterday the Methodist church dining rooms were swamped with the crowd that came early and stayed till the last minute. At the evening supper Mrs. Stover introduced Miss Coy, of Oklahoma City, who under government auspices, gave a talk calling for more nurses.

Yesterday morning Mr. Brown's ser-ion on "Prayer" brought out a good

"Excuses" Tonight. Tonight the evangelist will handle the excuses for not being a Christian. Announcement is already out for the womans' service Sunday when Mr. Brown will speak on "The Ideal Wo-

man."
"My spirit shall not always strive "My spirit shall not always strive with man." These words were spoken to the ante-flood generations, and were the result of a long term of breaking God's laws. God had sent his messengers to them repeatedly and they had treated them with scorn. The world laughed and jeered. God sent another and they laughed and jeered some more. In the course of time this veiled threat came upon them and the crowd laughed some more. It was not of prime importance

time this veiled threat came upon them and the crowd laughed some more. It was not of prime importance what God or eternity held in store for them. They held pretty much the same idea that some people do here today, and went on their short life totally oblivious of God's wishes.

Noah following orders, began the ark, and worked on it for years. It was a joke to the rest of the people who universally told the old fanatic that water never had been on the hill top where he was building his boat. They went on in their wickedness, their scorn of God and while at the height of it the ark was finished and Noah to their great amusement went inside with his family. God shut the door, and the words are significant. If Noah had shut it he could have opened it again. But when God shuts the door of your last refuge no man or woman will ever opened it. The crowd watched the closing with nonchalance. Their view of it was that at last the old crank was satisfied probably watched the closing with nonchalance. Their view of it was that at last the old crank was satisfied probably. But outside a cloud rolled up, the thunders beat like artillery fire, lighting streamed in continuous lines across the black sky, and the crowd went to their homes and closea their doors. They opened them again in a short time to seek for higher points of safety. It was quite a rain, they thought, and queer that it should arrive on the day Noah had gone into his boat. Some even at that late hour tried the door of the ark, but it was shut, and they hunted a hill top. As the great boat finally floated off on the water it swept slowly by a mountain crowded with horrified people who neither sneered or scoffed or laughed, but with despair written on their faces saw the mocked at ark ride in safety. They might have been inside of it in safety.

inside of it in safety.

Feared To Be Castaway.

Paul said once that he feared lest he himself should become a castaway after preaching to others. He did not mean that he should be lost, but that in some way he might lose his close touch with God and be put on the shelf and somebody else be given his job. Paul did not want to lose his job. Paul did not want to lose his job. He was in love with preaching the gospel and did not want to get careless in it. He had several times tried to do certain things and found that the Holy Spirit had blocked his way, shut one door and opened another. Paul said, 'I have had some experience with the Holy Spirit, I know how surely He leads and I don't want to get to thinking my way so strong that I will fail to hear and integers. If you is the proposition of the same law obtains in the spiritual and there will be destroyed, and you will be left to your own way. That leaves you in the path of an inveterate bablit and an investerate habit is as want to get to thinking my way so strong that I will fail to hear and in-God has put some great men un-

ceremoniously on the shelf. In the full blaze of their intellectuality they have struck out for themselves, lost touch with God and the next we hear they have sunk to being "on the shelf."

To Strive With Man.

It is necessary for the Holy Spirit
to stride with man. Without His work
a man could not be convicted of sin. a man could not be convicted of sin. Man must be given a chance to be saved. One chance at least, and one is enough to clear God's hands of injustice. There is no call for his giving unlimited chances to order of the most rebellious or indifferent or careless of mankind. It is not men who are running salvation, but God and when you have had one chance, you have had enough. When the Holy Spirit speaks you listen. Why? Bacause He is your friend, and the last string between you and God. While nations are going down in waves, blood and humanity stagger under crime.

nations are going down in waves, blood and humanity stagger under crime, and no man knows what the next twenty-four hours will bring about and God help us to stop and listen.

Men stop listening even in the church. Paul knew it. There is a line to the lost world even from the door of the church, and one can go to hell from that refuge if he loses sight of the Holy Spirit.

There is such a thing as the unpardonable sin. Jesus taught it clearly and the disciples followed the doctrine. There is a place where a man can sin to his eternal death while he still lives here in this world. Some men have been turned down by

while he still lives here in this world. Some men have been turned down by the last court of appeal and they are doomed beyond any possible help. God has taken His hand off, and the Holy Spirit has left them forever. There will be no help for them because they will never again feel a desire to be saved, or live the Christian life. With the desire forever lost there will be no incentive for them to move toward God or the church.

Just remember, that laughing at the ark did not save the merry crowd. Scorn did not save them. Indifference did not save them. God's mercy and love did not save them.
