Unless Germany has lost her genius for agricultural efficiency, her experts are right behind her armies in the conquered territory furnishing expert information and stimulation, and hold-ing out to the impoverished peasants promises of high prices and prosper-ity beyond anything they ever exper-ienced."

Farmers Doing Their Part.
There has been no breakdown in agriculture. Mr. Ousley asserted. He spoke of the creation of the department of agriculture and the land grant colleges more than half a century ago as providential and of the development of the department as constituting "a body of statesmanshipless spectacular" but more fruitful of human comfort and happiness, more potential in the present crisis than any single or collective body of statesmanship in the history of the Rapublic or possibly in the history of the law may not be taken for several months.

"Responding to the appeals of the Government," said Mr. Ousley, "and accepting the advice of the department and the land grant colleges as to the crops needed, and giving the least concern to the crops that seemed to the individual farmer to promise the greatest profit, the farmers of the United States have put under the plow this year more land than was under the ploy last year, and if the weather continues favorable but one thing can prevent the continuance of food efficiency. That one thing is farm labor."

Immigration has stopped, he said probably until many years after the war; war industries are drawing more men from the farms to the cities. # Our Pure Ice Keeps You Healthy

If anything ought to be absolutely pure it is ice.

The time will come when the state legislatures will enact a law protecting the people of our great commonwealth against unhygenic, unhealthy ice.

The time is coming when everybody will realize fully the dangers that lurk in ice that is impure and improperly frozen. The time is coming, and we hope it will, when ice plants will be under municipal or state inspection, just as the meat prepared at all of our packing plants must be approved by the U.S. Pure Food inspector before it can be offered

We welcome the coming day when ice will be made under rigid regulation for we are mighty proud of the big, modern, sanitary plant that makes your ice. There isn't in the whole country a plant that is equipped better, or that is more cleanly or more efficient. We use pure distilled water in the making of our ice, and every glistening block is frozen hard and solid. Our customers are being served with the best ice that can possibly be made.

Ice is used in the preparation and preservation of foods. It must be pure or else the food will be contaminated. It must be pure or else sickness will result. Nothing that you can do will so effectively safeguard the health of the kiddies and the folks at home as to insist on pure ice.

# "PLEDGE THE PRESIDENT

On National War Savings Stamp Day—June 28th—we will be asked to "Pledge the President" to the very fullest limit in War Savings (not Thrift Stamps) for the year 1918.

If, in your heart, you believe in America and the principles of Thrift and Economy, which we are so earnestly trying to attain; if you believe in the freedom of nations, for which our nation stands; if you believe the war in which our nation is involved is for a righteous cause; if you have a feeling of brotherhood for our allies in arms; if you love your flag and are proud of the glorious boys of America who are fighting and dying under its starry folds-

to the fullest limit of sacrifice, to help prosecute successfully the war; to uphold Right against Wrong; to liberate desecrated Belgium; to pay our debt to ravished France; to prove to indomitable England and suffering Italy and Russia that we of the United States are with them heart and soul and mind; that we stand ready to give our money and our lives until the world is saved for Liberty and freed forevermore from the foul touch of the "Beast of Berlin" and his murderous hordes.

THIS THEN IS OUR PLEDGE:

pledge myself and all I have, until once more across the waves the flag of Right and Freedom flies beneath God's sun and starry skies. through every land and on the sea, till once more the world is free. Until no more in glorious France the beastial Hun will have a chance to burn and pillage, rape and steal, and Belgium-bravest land of all-will rise again at freedoms call.

I pledge my heart and money, too, until we've justified our boys and every drop of blood they gave who sleep within a foreign grave. Till Pershing and his dauntless band, with shouts of VICTORY will win, and march triumphant on Berlin, and on his bended knee the Hun for mercy pleads for crimes he's done. To give my life, if needs must be, until once more the world is free. I answer now my country's call—I raise my hand—I PLEDGE MY ALL."
