Mr. Simmons explained the "quota system" which has lately been adopted for the operation of the Red Cross machine. "All large manufacturing concerns," he said, "are run according to the supply and the demand. We are a manufacturer of knitted goods in the country, and we must operate on a business basis. We must produce those articles most needed, and we must not waste materials, time nor energy in producing things for which there is no need."

Candidate Ferguson and the crowd which is backing him have brought out some candidates for judges of the higher courts. The nomination of any of these men would be a disgrace from which the State of Texas would not recover in years. If by any misfortune Ferguson and his candidates for supreme judges are elected, we could then expect Ferguson to demand the resignation of the judges any time they made a decision not in conformity with his wishes, just as he asked the resignations of the regents of the State University. This sounds like a far stretched prediction but nothing is too much for a man with the audacity which has characterized Ferguson's public career.

DUTY OF WOMEN TO REGISTER

Every woman in Wichita county who is a Democrat ought to register and vote in the primary next month. There may be some, even among women, who do not approve of voting for women but staying away from the polls as protest against votes for their sex will be ineffective and to no purpose. The great majority of women will avail themselves of the opportunity and privilege and duty of voting and the woman who does not vote will be recalcitrant to a duty at a time when all of us ought to be anxious to discharge our civil duties to the utmost.

PLUGGING EARS SUGGESTED TO LESSEN ACCIDENTS

Associated Press. WASHINGTON, June 27.—Plugging the ears of workers in munitions factories has been suggested in England as a means of lessening the growing number of accidents arising from efforts to increase speed in production. "Speed of production inevitably tends to a more than proportionate increase of accidents," says the report of an investigator for the Munition Workers' Committee, received here in consular dispatches. "Accidents depend on the man on carelessness and lack of attention of the workers and so the man can eliminate this lack of attention and increase concentration upon work, the more will accidents be reduced. "One wants to induce in all the workers throughout their hours of labor the same mental outlook as is present in the night-shift workers in the early hours of the morning. These workers have for the most part forgotten the pleasures and excitement indulged in shortly before coming on night shift, and they have nothing but an unexhilarating breakfast and bed to look forward to. "Such a mental state is impossible of achievement by the day-shift workers, but something in the way of mental calm and equilibrium can be attained by stopping the excitement except that relating to the work in hand. If the workers would consent to it, it would be a good plan to induce temporary deafness by plugging the ears and so shut out the noise of machinery, which is in itself an important cause of distraction and fatigue. "Again, if it were practicable, it would be of value to shut out the sight of surrounding objects, by separating the lathes or other machines from one another by partitions. "At a fuse factory, when the operatives were working a 12-hour day, the women's accidents were two and a half times more numerous than in the subsequent 10-hour period; but the men's accidents showed no difference. At all the factories inquired into, the night-shift workers suffered fewer accidents than the day-shift workers—the average defect being 16 per cent. This was due to the night-shift workers, settling down to a calmer mental state than the day-shift workers, and so becoming less careless and inattentive.

MANY IRISHMEN SYMPATHIZE WITH GERMAN CAUSE

DUBLIN, May 28.—Ireland is not pro-German, declare all the Irish leaders, but there is a considerable element in Dublin, Cork and other Irish cities, that is ready to cry "Up the Hun" at every opportunity. During the week following the arrest of De Valera and the other Sinn Fein leaders, the strains of the "Watch on the Rhine" were frequently heard on Dublin streets, sung by small crowds of Sinn Fein sympathizers. It has been frequently recorded that Irish hoodlums at the moving picture theatres have blasted pictures of British and American soldiers and sailors, and a letter in a Dublin newspaper this week states that a moving picture audience cheered the picture of the medal cast by the Germans to commemorate the sinking of the Lusitania. One of the most remarkable scenes which the Associated Press correspondent witnessed in Dublin was the enthusiastic cheering of a ship load of German interned prisoners, who were being taken from a camp in Ireland to a camp on the Isle of Man. A crowd of several hundred persons, mostly wearing Sinn Fein colors and waving Sinn Fein flags, stood on the quay and sang the Sinn Fein "Soldiers' Song" to the departing prisoners. Many of the members of the crowd were relatives by marriage of the interned aliens. The prisoners were practically the entire population of a camp established early in the war at Oldcastle, Ireland, for German civilian prisoners. They were 450 in number, and were embarked from a Dublin dock on a Sunday morning. From an early hour their Irish friends began gathering along both sides of the river. A strong military force was present and took complete possession of the quay along side which the steamer was berthed. Before the special train carrying the prisoners arrived at the dock, there appeared a freight train of ten cars, containing the "baggage" of the Germans. This amounted to ten car loads of the most unusual baggage that was ever handled on the bank of the River Liffey. There were pianos, double-bass violins, and the whole set of instruments for the camp band; there were sailors' sea trunks of great variety; there was a grandfather clock of huge proportions, and a complete set of theatrical "properties" and stage scenery, which told of entertainments past or for future production. The Khaki clad dockmen perspired over the job of arranging these mountains of baggage into slings, hoisting them on board the steamer and stowing the stuff away in the hold. The train with the German and Austrian travelers arrived in the station across the road from the river, and was cheered by the crowd outside the gates. Handkerchiefs were waved by the women and the prisoners waved back out of the train windows. Several times the crowd made a rush towards the quayside, but the military and police allowed no entrance to the dock sheds and the crowd of onlookers finally took up positions on top of lumber piles lower down the river bank, where the boat could be seen and cheered as it started down the river. Sinn Fein scarfs and ribbons were worn by most of the women in the crowd. A similar crowd quickly collected on the south wall, across the river, where the men and women sang over and over the Sinn Fein song, and cheered themselves hoarse as the departees were brought onto the decks of the steamer. Then suddenly the strains of a brass band, playing a medley of German airs, floated out on the water. It was the alien's camp band in action. As they played, the boat started, cheers were raised again, the steamer gained headway the cheering died down and the crowds began to disperse. The soldiers and police on the docks filed back to their barracks and the festivities were over.

COOLING SYSTEM INSTALLED AT FIRST CHRISTIAN CHURCH

To those who have stayed away from the Vawter meeting at the First Christian church because of the intense heat, the committee announces that they expect to make the church the coolest place in town tonight. The blower was turned on last night and tested out. Tonight the cooling system will be running in full force. The church is equipped with one of the most adequate and efficient ventilating systems to be had today. After the regular services tonight, a meeting of the official board will be held. All members are urged to be present. Important matters of interest to the church are to be discussed and passed upon.

AT THE THEATERS

HARRISON TENT THEATRE. The large audience which greeted the Harrison tent theatre last night witnessed a story of the hills entitled, "The Black Hawk Mine," which was told in a convincing manner and pleased all. The scenic equipment was all special for the piece and Mr. Harrison in the part of the Jew showed his ability as a performer in only one of his many characters. Tonight will be the feature production of the entire week, a play that has played to more paid admissions in the last ten years than any play ever presented in the state of Texas, not excluding Ben Hur. This play was written by Mr. Harrison and used by him as a feature play prior to "Sainted Hypocrites and Honest Sinners," and is the strongest in the entire repertoire. It is entitled, "Mr. Jim Ballew." It will be presented only this one time and must be seen tonight or never in Wichita Falls. Tickets on sale at the Stationery Supply Co. now.

VERDICT FOR DEFENDANT IN DAMAGE SUIT

A verdict for the defendant was returned this morning by the jury in the case of W. C. Hollis vs. the Wichita Falls Traction Company. The plaintiff was suing for \$10,000 for the death of his small son, the child having been run over by a street car belonging to the defendant company, charging negligence on the part of the company and employes. The case had been on trial since Monday.

COMPROMISE REACHED IN SHIPLEY'S SUIT

Settlement was reached out of court in the case of T. F. Shipley and wife vs. the City of Wichita Falls, and Taylor Bros., contractors, shortly after the case was called for trial this morning. The plaintiff agreed to accept \$15,000, of which half will be paid by the city and half by Taylor Brothers. The plaintiffs were asking for \$25,000 for damages for personal injury alleged to have been received when Mrs. Shipley fell into an excavation in the Lamar Park, the excavation being for the new library, which Taylor Bros. were building.

40 WOMEN REGISTERED EARLY THIS AFTERNOON

Forty women have registered in Wichita Falls, including the one who registered women. Of this number 6 were unmarried, and twenty-two listed their occupation as that of "housewife." A number of others gave their occupation as the same as their husband, while several left that space blank. All were white, as negro women will not be allowed to participate in the democratic primaries.

GUARD OFFICERS TO BE FEDERALIZED AT DALLAS FRIDAY

Wichita Falls officers in the new Texas Cavalry will go to Dallas Friday and there be mustered into the Federal service. Major E. W. Napier stated today. It was at first thought that the Federal mustering officer would come to Wichita Falls, but the plan finally decided upon was to have the officers of the entire North Texas brigade mustered in at one time at the first part of next week. Major Napier continued. The next step, following federalization will be the mobilization of the troops and entrainment for duty. It is understood that the Guard will be moved to some of the camps near San Antonio, for the training period but a definite announcement has not yet been made concerning this. Work of recruiting men for the local cavalry troops continues and the officers are anxious to have the troops at full strength when the time for federal mustering in comes.

**Our Pure Ice Keeps You Healthy**

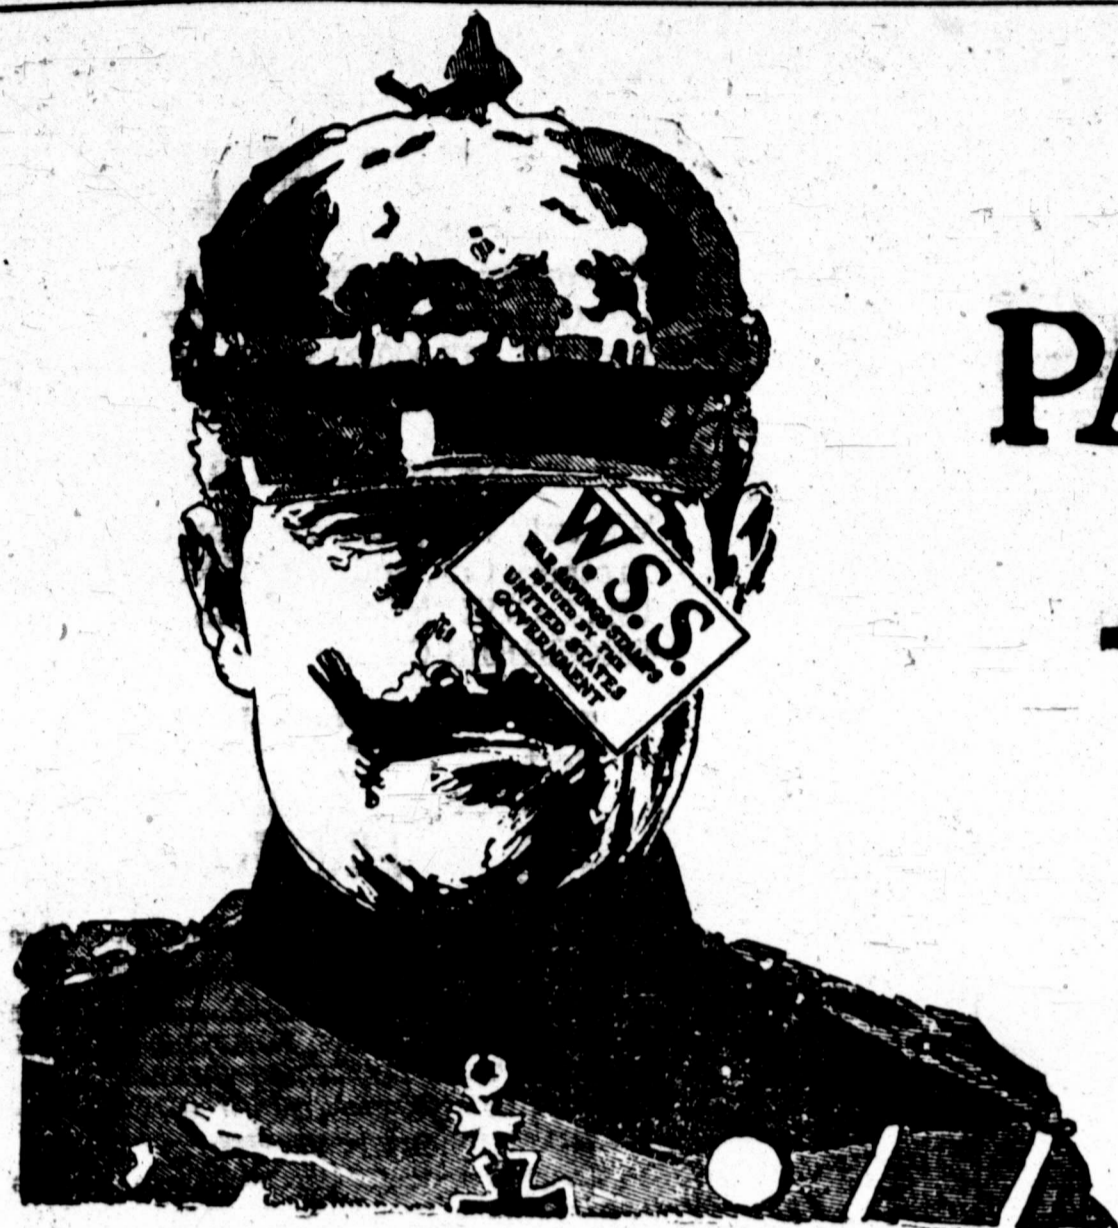

If anything ought to be absolutely pure it is ice. The time will come when the state legislatures will enact a law protecting the people of our great commonwealth against unhygienic, unhealthy ice. The time is coming when everybody will realize fully the dangers that lurk in ice that is impure and improperly frozen. The time is coming, and we hope it will, when ice plants will be under municipal or state inspection, just as the meat prepared at all of our packing plants must be approved by the U. S. Pure Food inspector before it can be offered for sale. We welcome the coming day when ice will be made under rigid regulation for we are mighty proud of the big, modern, sanitary plant that makes your ice. There isn't in the whole country a plant that is equipped better, or that is more cleanly or more efficient. We use pure distilled water in the making of our ice, and every glistening block is frozen hard and solid. Our customers are being served with the best ice that can possibly be made. Ice is used in the preparation and preservation of foods. It must be pure or else the food will be contaminated. It must be pure or else sickness will result. Nothing that you can do will so effectively safeguard the health of the kiddies and the folks at home as to insist on pure ice.

SIMMONS SPEAKS AT ROTARY CLUB LUNCHEON TODAY

RED CROSS DIRECTOR DELIVERS INSPIRING TALK ON WORK OF THE ORGANIZATION.

WAS AN EYE WITNESS

Speaker Told of Personal Observations And of Interviews With Men at the Front.

"We, the people of the United States, must make ourselves worthy of the sacrifice that our boys are making in France. Make this your nightly prayer, every one of you, that you may be worthy and may help make this country worthy of the terrible sacrifice in the lives of our best young manhood that it is going to take to win this war."

This was the principal message brought to the Rotary Club and a number of visitors, men and women, by George W. Simmons, director for the Southwestern Division of the Red Cross at the Rotary luncheon at the St. James hotel today. Mr. Simmons spoke as a civilian who had just returned from a visit to the battle front and a man deeply impressed with the horrors of war, but thoroughly convinced of the righteousness of the cause and with a conviction that the people at home must march in every way the men who are going into the trenches.

"We draft our young men, put a gun in their hands and tell them they must go to the trenches and fight our fight, to keep us at home safe. We know that this is their share of work for the country that has been protecting them. But we, men, women and children, left at home are just as responsible for our share of the fight. We should not put a man in the trenches to risk his life and work, the hardest work he has ever done, for 24 hours of the day if necessary, unless we are willing to parallel his work. The government that can draft soldiers should be able to say to the ship builder or the munitions worker: 'You must work 24 hours a day, six days a week, just when you want to, when it is working it's soldiers far more than that for 140 a month, while shipbuilders get many times more than the soldier fighting. The government should direct the business men to conduct their business to help in winning the war. It should be able to put the women of the country to making surgical dressings for the Red Cross, or to working where ever needed, and all should be glad to obey the call of the government. Tomorrow the government tells you to pledge yourself to some sacrifice and invest your savings in War Savings Stamps. It's going to take sacrifice from every one of us to win this war, and any sacrifice we can make would be paltry compared with the sacrifice our young men are prepared to make, which some of them have already made."

Mr. Simmons spoke of the growing casualty lists and the certainty that sooner or later it would strike home to Wichita families, and he voiced the hope that when it did come it would be borne as it is in England, where notices in the paper of deaths on the field of battle are headed "In Fought and Loving Memory of One Killed On The Field of Action." He also reminded his hearers that if they did not do all within their power to aid the government in its prosecution of the war, by contributing to the Red Cross, the Y. M. C. A., Liberty Loans, War Savings Stamps and the various war subscriptions and benefits, that when this time comes it would be a terrible feeling that might accompany it, that something they might have done might have made things different.

"It's going to come," he said, "that the man or woman who doesn't do his or her full duty in every way is going to be a marked person. Do your full duty so there will be no regrets, so that none can accuse you, either persons or your own conscience." Mr. Simmons exhibited the steel trench hat, worn by the American soldiers in the trenches, and also the gas mask which all who are in the war zone have to have with them constantly strapped on their chests. These articles were the ones used by Mr. Simmons on his recent visit in France. Concerning this visit he spoke at length, telling of the work that he found the Red Cross doing. How it had saved Italy in the disaster of last year by having its supplies and its representatives there, to bring food and shelter and hospital supplies, and best of all, to bring the message from America that it was in the war and that it would back them up, was told by Mr. Simmons, who stated that it was the publicly expressed belief of personages high in the Italian government that without this aid Italy would have been crushed entirely.

General Estain's statement that the moral support of the American Red Cross in caring for the wounded soldiers, and for the refugees, giving the families of the fighters, sustenance, shelter, and better than all, cheer, amounted to more than would 1,000,000 American soldiers fighting at that time. Mr. Simmons said, was hard to believe if one had not seen France as he had seen it. He told of the work that the American Red Cross is doing in rehabilitating the devastated country, in caring for the widows and children of dead French soldiers, and caring also for those whose husbands and fathers are at the front, still battling for humanity's sake.

Concerning German atrocities Mr. DOSCH ELECTRIC 708-9th Street, Phone 220

Simmons said that since his visit to the war region he would believe anything that he heard concerning the outrages of Prussian terrorism. Before he went abroad, he said, he heard the things that were told, and discredited more than half of them, now he said he knew that they were so. Words could not suffice to describe the fiendishness of the Germans as they tried to end the war by terrorizing the soldiers and the civilians alike. When his address was ended Mr. Simmons offered to answer any questions that might be asked, and one of the questions brought out the manner in which prisoners in German camps might be communicated with through the American Red Cross. Letters should be given over to the local branch of the Red Cross, unsealed, and through them will be transmitted to the prisoners. Mr. Simmons also told of the way in which the Red Cross sent food to allied prisoners, sending receipts for the food, so that they were assured that they reached the proper person. The home service branch of the Red Cross was also explained, as well as other interesting matters concerning the Red Cross, as well as other phases of the war.

Out-of-Town Visitors. There were representatives from several out of town branches and chapters present, including the Iowa Park, Burk Burnett and Electra branches of the Wichita county chapter and the Archer county chapter. These visitors had attended the address given by Mr. Simmons to the women workers of the local branch at the workrooms and went from there to the luncheon. Dr. C. R. Hartsook, vice president of the Rotary Club presided at a short business session, preceding Mr. Simmons' talk. He read a telegram from J. M. McFall, president, Ira Brown, secretary, and I. H. Roberts, one of the directors of the local club, who are in Kansas City attending the International "Win the War" convention of Rotary, extending greetings from the International Rotary and asking that Mr. Simmons be thanked for his visit. Appreciation of Mr. Simmons' address was shown through the delivering of his message by the hearty and spontaneous applause.

Market Report

Cotton Market

By Associated Press. NEW YORK, June 27.—General business was comparatively quiet in the cotton market early today but there was considerable trade buying of early new crop months and the undertone was steady. After opening 7 to 20 points higher, prices reacted several points after the call with July selling off from 28.20 to 28.02 or within 2 points of last night's close, while October sold four points net lower at 25.21. Bales followed however, as the demand from trade sources continued, with October selling up to 25.44 and December at 25.90, or 150 to 156 points higher. The market turned easier following the publication of the western belt forecast and bearish private crop reports during the middle of the morning. Selling was also encouraged by the detailed weather report showing showers or rains at three points in central Texas, which has been complaining of drought. July sold off to 27.84 or 16 points net lower, while October broke to 24.94, or 31 points under last night's close. One of the private reports placed the condition at 83.6 against 78.7 last month and the other made it 84.8 compared with 78.8 last month. Cotton closed steady.

New Orleans Cotton. NEW ORLEANS, June 27.—Overnight selling orders caused a drop of 12 to 13 points in the cotton market in the first few minutes of trading, but a fair amount of buying developed on the continuation of the drought in Texas. At the end of the first half hour of business the new crop months were 2 to 4 points under yesterday's close. Moderate selling pressure developed, based on hopes of rains in the west and continued until noon when the active months were 31 to 40 points under the last price of yesterday. Offers were less liberal after the noon hour and the market made a small recovery, standing 316 points down net at one o'clock.

Liverpool Cotton. LIVERPOOL, June 27.—Cotton spot quiet; prices firm; good middling 23.22; middling 22.59; low middling 22.06; good ordinary 21.06. Sales 3,000 including 2,500 American. Receipts none; futures closed unsettled. New contracts: June 21.39; July 22.40; August 21.26; September 20.20; October 19.56; old contracts fixed prices: June 21.44; June July 21.36.

New York Stocks

By Associated Press. NEW YORK, June 27.—The rise in specialties and war shares was resumed at the opening of today's stock market. Tobacco, leathers, motors, oils and coppers were most conspicuous at gains of large fractions to 1 1/2 points. United Steel was again in demand, although advancing only a small fraction. Trading in rails was negligible and utilities were represented by a 2 points decline in Consolidated Gas. Liberty Bonds were steady. Steels, oils and some of the equipments, notably American Locomotive, made new high levels in the early afternoon, Baldwin Locomotive and Sumatra Tobacco moved contrary to the general trend, however and rails also eased slightly. The strength of shippings and oils in the last hour conflicted with further reactions in steels and equipments. The closing was irregular. Liberty 3 1/2% sold at 92.56 to 92.64, first 4's at 94.24 to 94.42; second 4's at 94.20 to 94.46 and 4 1/4's at 96.30 to 99.80.

Grain Market

By Associated Press. CHICAGO, June 27.—Excessively high temperatures in the southwest where cool weather was looked for had a bullish influence today on the corn market. Opening prices which varied from unchanging figures to 1/2 higher with July 1.46 1/2 to 1.46 1/4, and August 1.48 1/2 to 1.48 1/4 were followed by material gains all around. Seaboard buying gave strength to oats. After opening 1/2 to 3/4 higher, with August 85 1/2 to 85 1/4, the market held firm near the upper side of the initial range. Provisions hardened with grain and hogs. Subsequently good rains in Iowa and a prospect of welcome showers in many sections led to something of a setback in prices. The close was nervous 1/2 to 3/4 net higher with July 1.46 1/2 to 1.46 1/4 and August 1.49 to 1.49 1/4.

# 11,000 MEETINGS IN TEXAS TOMORROW TO GIVE PLEDGES

GOVERNMENT HAS SUMMONED 1,400,000 TEXANS TO SCHOOL HOUSES.

## TRUSTEES NAMED

School Officials to Preside and See That Each Adult Citizen Does Duty.

DALLAS, June 27.—Final preparations for the holding of 11,000 Federal War Savings Stamp pledge meetings in Texas June 28, National War Savings Day, have been perfected and tomorrow Texas will pledge the President to save and invest \$91,000,000 in United States Government War Savings Stamps. To these 11,000 meetings which will be held in as many school districts, the government has summoned 1,400,000 adult male and female citizens of Texas. Local war savings committees, announced. That these meetings may be conducted in accordance with the regulations laid down by the United States Treasury Department, the government has deputized 33,400 school trustees as special federal officers and has charged them with holding the meetings. Mr. Lipsitz said.

Great care has been taken by the government at Washington and its branch, the national war savings committee, to notify all persons in age that they are expected to attend the meetings to be held in their school district and indicate on the official pledge card the greatest amount of money they can save and invest in War Savings Stamps. To all of the 1,400,000 adults in Texas the Presidential summons has been mailed.

Proclamations Are Posted. In addition to being summoned by mail to attend the meetings, and make their war savings stamp pledges, the Treasury Department has had the Presidential proclamation posted in all public places. The same has been done by the sheriffs, constables, postmasters and railroad agents, the latter now being considered government employees, the state director pointed out.

The endorsement of every member of the Wichita county War Savings Stamp Pledge on June 28, Mr. Lipsitz pointed out. "The government needs the money; it needs the materials and labor which this money, if retained by the people, would purchase for non-war winning uses, and above all, as Secretary McAdoo has declared, it must have behind it a solidly economic national in order that a concrete foundation be formed upon which to rest the wartime financial program and thus insure the underwriting of all future bond issues.

"No person should be content unless he pledges the limit in War Savings Stamps—his limit. Every person who can should buy the limit in War Savings Stamps. This stamp, which has a maturity value of which is \$1,000, the limit can be bought this month for \$324.00. Every one should bear in mind that he is pledging to the President, who has declared that no person can expect or hope to be forgiven or excused for ignoring the National obligation to be careful and provident of expenditures, now becomes a National duty."

Although the government has built up a vast machine, which reaches even into the most outlying settlements for war savings pledges, yet the meetings themselves will be very simple, Mr. Lipsitz pointed out. "In most cases the president of the board of trustees will preside. He will be assisted by other members of the Board of Trustees, all of whom have been deputized as government representatives." Mr. Lipsitz continued, "In all but industrial centers and large cities, the pledge meetings will be held at 2 o'clock on the afternoon of June 28, National War Savings Day. Promptly at that hour the meeting will be convened. The presiding officer will read the Presidential summons, the war savings proclamation relative to the financial requirements of the government and the instructions which have been sent him by the Treasury Department through the county chairman of War Savings. In this has been written the district quota. The pledge will then be read and explained and the pledging of those present will immediately begin, Mr. Lipsitz explained.

No Speeches Or Oratory. There will be no speeches or oratory. These are business meetings called by the government and the business will be transacted. Although married women are summoned to these meetings to make their pledges, they may, if they desire, refrain from pledging out a separate pledge and have their husbands incorporate their pledge with theirs. In such cases this must be shown on the pledge cards handed

## Will Your Boy Grow Up

without having gained, in all his boyhood experiences, the first idea of thrift.

T-h-r-i-f-t is another way of spelling—Oh, a number of good words: Prosperity, for a community; success for an individual; credit in business, and security at home.

Your boy cannot be taught thrift from books, nor can he learn it merely by dropping gift-pennies into a little iron bank. He must learn the primary lessons of thrift in a pleasant and effective way—now.

We have a plan of this kind which involves no interference with his other activities. We will be glad to tell you about it in detail.

## PLEDGES TAKEN AT THREE PLACES WITHIN THE CITY

Tomorrow is War Savings Pledge Day, and from 2 o'clock in the afternoon until no more registrants appear, men drafted for the service will be at the school houses throughout the county and at the city hall, high school and court house in this city, to take the pledges of the men and women of Wichita county to buy War Savings Stamps to the limit of their financial ability. The War Savings Bank will be open throughout the day and ready to take pledges of those who have no time to go to the pledge booths of their district.

Members of the War Savings Committee were busy all through today on making out the assessments for the larger subscribers and in completing arrangements for Pledge Day tomorrow. At the War Savings Bank Mrs. J. W. Lee, the women's chairman for the county, and Mrs. J. W. Stone, her assistant, were kept busy every minute of the time, receiving the pledges and selling stamps. At times there were nearly a dozen persons in line before the bank window, waiting to make their pledge.

The Wednesday sales for the War Savings Bank amounted to \$2,037. Mrs. Lee reports, and there were scores of pledge cards filled out which will mean purchases of thousands of dollars worth of the War Savings Stamps within the next six months. Prospects are considered very good for completing the quota by pledge on Friday, as was intended when the Pledge Day idea was originated.

Facts and Figures Don't Lie! Do you know, that every article of merchandise, from the small paper of pins to the automobile, have advanced in price from ten to three hundred per cent. New typewriters and adding machines are still selling at the same old price. There has been no advance as yet. Second hand machines have advanced approximately thirty-five per cent. It costs on an average of three hundred per cent more to make and market a typewriter or adding machine now than before the war. The price is bound to go up in the next thirty days.
