ister, and the appointment of Von  
Hinze to succeed him, is looked up-  
on as a victory for pan-Germans. It  
is also recalled that a few days ago  
the socialist paper, Vorwaerts, that  
several members of the emperor's  
family are also suffering from the  
same malady.

### KAISER REPORTED SICK WITH THE SPANISH GRIPPE

By Associated Press.  
ROME, July 10.—Emperor William  
has fallen a victim to the influenza  
that has been so prevalent in the Ger-  
man army, according to advices from  
a Swiss source that have reached the  
Epos. These declare that the em-  
peror has gone home from the front  
because of the attack of "Spanish  
grippe" as it is called and that  
several members of the emperor's  
family are also suffering from the  
same malady.

By Associated Press.  
There are indications that the  
Germans are preparing an ac-  
tion of some magnitude to re-  
capture the valuable high front  
east of Amiens, north of Vil-  
lers-Bretonneux.

Local attacks occurred in the  
southern part of the British had  
little trouble in dealing with  
them.

This morning, however, the  
enemy artillery opened a bomb-  
ardment of considerable in-  
tensity in this sector over a  
front of approximately eight  
miles, from Villers-Bretonneux  
north across the Somme to the  
Ancre.

The only infantry operation  
within the past 24 hours in  
which ground was gained is re-  
ported by Field Marshal Haig on  
the Flanders front, where  
the British advanced their line  
slightly near Merris.

On the French front the only  
activity of note was artillery  
duels north of Montdidier and  
in the Longpont region in the  
northerly part of the Marne  
front where the French recent-  
ly made extensive local gains  
of ground.

The region north of Montdidier  
firing, whence a considerable vol-  
ume of shelling is reported, in-  
cludes the Cantigny sector, held  
by American troops.

The sectors of the Marne salient  
held by the Americans were  
unusually quiet yesterday and  
last night, the artillery firing  
being far below the normal.

Such fire as the American  
gunners indulged in was mainly  
directed against the Germans in  
the neighborhood of Hill 240,  
west of Chateau Thierry.

Local Operations.  
Fighting activity on the western  
and Italian fronts still is confined to  
local operations. The lull on both  
fronts, however, will not be pro-  
longed as there are many signs that  
the great combats which marked the  
German offensive on the west and  
the Austrian stroke in Italy will  
soon be rivaled.

CONSTITUTIONAL AMENDMENTS.

Taking of Testimony in Criminal Cases.

House Joint Resolution No. 2. To amend Section 10, Article 1, of the Constitution of the State of Texas, providing for certain rights of accused persons in criminal prosecutions, and the manner in which the case may be prosecuted, and providing for the procuring of the testimony of witnesses for both defense and prosecution.

Be it resolved by the Legislature of the State of Texas.

Section 10 of the Constitution of the State of Texas be so amended that the same will read and hereafter be as follows: In all criminal prosecutions the accused shall have a speedy public trial by an impartial jury. He shall have the right to demand the nature and cause of the accusation against him, and to have a copy thereof. He shall not be compelled to give evidence against himself and shall have the right of being heard by himself or counsel, or both, shall be confronted by the witnesses against him and shall have compulsory process for obtaining witnesses in his favor, except that when the witness resides out of the State and the offense charged is a violation of any of the anti-trust laws of this State, the defendant and the State shall have the right to produce and have the witness admitted by deposition, under such rules and laws as the Legislature may hereafter provide; and no person shall be held to answer for a criminal offense, unless on an indictment of a grand jury, except in cases in which the punishment is by fine or imprisonment, otherwise than in the penitentiary, in cases of impeachment and in cases arising in the army or navy, or in the militia, when in actual service in time of war or public danger.

Sec. 2. The Governor of this State is hereby directed to issue the necessary proclamation for the submission of this amendment to the qualified voters of this State at the next general election for State and county officers.

Sec. 3. The qualified electors for members of the Legislature shall vote upon said amendment at the said general election and at which election all persons favoring said amendment shall have written or printed on the ballot the following: "For amendment to Section 10, Article 1 of the Constitution, providing for protection of accused persons by information, or indictment, and taking of testimony of witnesses by deposition, under certain circumstances," and those opposing such an amendment shall have written or printed on the ballot as follows: "Against the amendment to Section 10, Article 1 of the Constitution."

Sec. 4. The sum of five thousand (\$5,000) dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds of the State treasury of the State, not otherwise appropriated to pay the expense of publishing said proclamation and election.

SPECIAL TAX FOR MAINTENANCE OF PUBLIC SCHOOLS AND FURNISHING FREE TEXT BOOKS.

House Joint Resolution No. 27.

Proposing an amendment to Art. 7 of the Constitution of the State of Texas, by changing Sec. 3, providing for a three-fifths cent tax levy for the maintenance of the public schools of Texas, and providing free text books in public schools of the State of Texas, and making an appropriation therefor. Be it resolved by the Legislature of the State of Texas: Section 1. That Section 3, Article 7,

of the Constitution, be so changed as to read as follows (creating a new section 3):

Sec. 3. One-fourth of the revenue derived from the State occupation taxes and a poll tax of one (\$1.00) dollar on every male inhabitant of this state, between the ages of twenty and sixty years, shall be set apart annually for the benefit of the public free schools; and, in addition thereto, there shall be levied and collected an annual ad valorem state tax of such an amount not to exceed thirty-five cents on the one hundred (\$100.00) dollar valuation, as, with the available school fund arising from all other sources, will be sufficient to maintain and support the public schools of this state for a period of not less than six months in each year, and it shall be the duty of the State Board of Education to set aside a sufficient amount out of the said tax to provide free text books for the use of children attending the public free schools of this state; provided, however, that should the limit of taxation herein named be insufficient, the deficit may be met by appropriation from the general funds of the state, and the legislature may also provide for the formation of school districts by general or special law without the local notice required in other cases of special legislation.

And the Legislature shall be authorized to pass laws for the assessment and collection of taxes in all said districts, and for the management and control of the public school or schools of such district, whether such districts are composed of territory wholly within a county or in parts of two or more counties. And the Legislature may authorize an additional ad valorem tax to be levied and collected within all school districts heretofore formed, or hereafter formed, for the further maintenance of public free schools, and the erection and equipment of school buildings thereat, provided, that a majority of the qualified property tax-paying voters of the district, voting at an election to be held for that purpose, shall vote such tax, not to exceed in any one year fifty cents on the one hundred dollars valuation of the property subject to taxation in such district, but the limitation upon the amount of school district tax herein authorized shall not apply to incorporated cities or towns constituting separate and independent school districts.

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of the state at an election to be held throughout the state on the first Tuesday after the first Monday in November, 1918, at which election all voters favoring said proposed amendment shall write or have printed on their ballots the words, "For the amendment to the Constitution of the State of Texas providing for the levy of a special school tax for the maintenance of the public schools of the state and to provide free text books in the public schools of the State of Texas."

Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution and existing laws of the state.

Sec. 4. That the sum of two thousand (\$2,000.00) dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas, not otherwise appropriated, to pay the expenses of such publication and election.

(Note.—H. J. R. No. 27 passed the House of Representatives by a two-thirds vote, yeas 108, nays 22; and passed the Senate by a two-thirds vote, yeas 22, nays 4, July 4, 1917.)

**THERE'LL BE PLENTY TO WEAR.**  
 After all there will be plenty to wear next winter and prices of clothing will be little, if any, higher than last winter. This is the word Texas merchants are bringing back from the big market centers. Last spring when merchants were in the market they were told that there wouldn't be any woolen goods at all for civilian wear and that the supply of all kinds of goods would be short. Now it is becoming evident that there will be about as much woolen stuff in the market as heretofore and that there will be plenty of clothing to keep us warm next winter.

A whole lot of the talk about there being no woolen goods and a scarcity of other goods was merely an effort to scare merchants into buying all they could get, and that sort of thing is one of the factors that has been sending high prices higher.

**A DANGER.**  
 The death of Senator Ben F. Tillman of South Carolina a few weeks ago has called attention to a situation in which the people of Texas may some day find themselves. Tillman was a candidate to succeed himself. The leading candidate against him was the notorious Cole Blaise.

Now if that situation had existed in Texas there would have been no effective recourse and the State would have experienced shame and humiliation. Fortunately in South Carolina there is a provision for such an emergency and a state convention is to be called to nominate a candidate in Senator Tillman's place.

In Texas under present provisions such a convention could not be called and the people could only write the name of some candidate on the ballot. There could hardly be any hope that such a procedure could be effective even against such a man as Cole Blaise.

Here is a matter that the Legislature ought to remedy at its next session.

**ARIZONA MAN HAS TEN SONS IN ARMY**  
 PHOENIX, ARIZ., July 8.—Daniel Granville Cumberland, an employe of the Ray Consolidated Milling Company, has ten sons in the army and navy. The eldest is Colonel Donald Cumberland, 26, a graduate of West Point, with the engineers corps in France. The youngest, Timothy Cumberland, 16, is time-keeper at the Scott Iron Works, Mare Island. The second son, Second Lieutenant Joseph Cumberland, also a West Pointer, is with the 86th light artillery in France. Cumberland, a Spanish War veteran, aged 45, has eighteen children, fifteen boys and three girls; nine were triplets and four twins.

The record of the Cumberland family for army and navy service brought from Secretary Baker a letter of congratulations in which he said: "You have indebted to you not only the people of our beloved country, but the freedom of all nations, struggling against the advance of military tyranny that threatens the world."

**AUSTRIANS HAVE MALTREATED THOSE OF ITALIAN BIRTH**

Associated Press Mail Correspondent.  
 LONDON, June 28.—Italians from the Trentino drafted into the Austrian army and made to fight under Austrian banners under duress, have suffered maltreatment at the hands of their Austrian commanders, according to the story of an Italian captain made public here. The narrator's name has not been disclosed, but it is stated that he was a native of the Trentino drafted by the Austrians, sent to the eastern front, captured and sent back to Italy where he is serving in the Italian army.

In the early days of the war, the captain said, storm troops of the Austrian army in the east were Italians pressed into service, forced into almost certain death by an advance, and absolutely certain of death dealt from their own trenches if they wavered. The Italians were constantly objects of "contempt, distrust and brutality." The captain pointed to the official Austrian casualty lists in substantiation of his claim that Trentinians were mobilized by Austria and forced to work in the trenches.

A large number of Austrian subjects of Italian ancestry were condemned for political reasons," the officer said. "They were sent in groups into Galicia. En route they were subjected to varied and constant brutalities from their escorts.

"The full tale of the sufferings of these victims of Austro-Hungarian ferocity can never be told. Hunger, thirst, floggings, bayonet thrusts were only a prelude to the real martyrdom to which they were predestined. They were attached to Hungarian and German companies in the ratio of one man for every platoon and led lives of hideous torture in front line trenches, separated from other soldiers, treated as traitors, insulted and maltreated by comrades under direction of officers. They were regularly chosen for the most dangerous operations where desertion was impossible.

"On the Trentino have been interned, the captain said, whole families were hurried to concentration camps for the duration of the war on the slightest pretext. The more intellectual inhabitants seemed to be particularly singled out.

"A woman who had objected to improper attention of an Austrian officer, met the same fate."

**WOULD MAKE ALASKAN WATERS SAFE FOR NAVIGATION**  
 WASHINGTON, July 10.—Every interest in Alaska should have the fostering care of the country, so that its development may be rounded and not partial, Secretary Redfield declared today in a letter to Governor Thomas Riggs Jr., outlining important work planned by the Department of Commerce for the benefit of the territory.

Essential preliminary to the development of Alaska, Secretary Redfield said, is that Alaskan waters should be made safe for navigation and the pledged to the continuous service of the Coast and Geodetic Survey to that end. The hope of Alaska to have a coast dotted with fishing villages is regarded with especial favor by the Department, which will lend its efforts to bring this about.

Mr. Redfield also pointed out the possibility of establishing a shipyard in Alaska and said that if such an enterprise were in operation now, the government would be glad to have it build two of four launches needed for the Fisheries Service.

**Ford Candidacy Upsets Michigan Political Dope**

DETROIT, July 10.—Developments that find no precedent in the political history of the state have given Michigan's primary campaign this year an unusual interest which centers largely in the race for the senatorial nomination. The primary election will be held August 27.

The democrats in state conference precipitated a situation that promises to upset early calculations. The conference endorsed Henry Ford as democratic candidate for the senatorial nomination, despite the fact that he had been regarded as a republican possibility, and invited the republicans to unite with them in supporting him.

Then came Ford's announcement, after a conference with President Wilson, that he would accept the nomination if it were tendered him, but did not specify however, whether he would make the race as a republican or democratic candidate, and the situation was further complicated.

The action of the democratic state conference has been denounced by Michigan republicans as an attempt to split their party. Chas. E. Osborn, former governor and a candidate for the republican senatorial nomination, has declined flatly to accept the democratic proposal that he with two other republican candidates withdraw from the race and let the republican nomination be made by a vote of the primary.

Mr. Ford has had nothing to say since his statement that he would accept nomination if tendered him. It is understood he will make no campaign. Should his name go on both republican and democratic tickets at the primary under the law, he must choose within five days after canvass of the ballots the ticket on which he will seek election.

Governor Albert E. Steeger, republican, is a candidate for re-nomination. John W. Bailey, of Battie Creek, is a candidate for the democratic nomination for the governorship.

**German Seaplanes Attack British Off Mouth of Thames**

By Associated Press.  
 LONDON, July 10.—Describing the German seaplane attack on British submarines C-355 and C-51 off the mouth of the Thames, July 6, a Berlin semi-official statement relayed by the Associated Press correspondent of the Central News Agency says: "German airmen attacked the C-355 while her commander and crew were on deck. All of the crew were killed by machine gun fire but the commander kept firing his rifle at the aviators until he too was killed. The seaplanes having expended all their ammunition, they returned to the Flemish coast."

"Another squadron arrived while the submarine C-51 was towing the C-355 and both vessels were attacked by bombs."

**BE PATRIOTIC—BUY WAR SAVING STAMPS**

**It's Cheaper to Buy Too Much Ice Than Not Enough**

In these times it is commendable that every one try to save just as much as possible. Thrift is the basis of all practical patriotism. But there's no economy, either for you or for the government, in not buying enough ice.

It's cheaper to buy too much ice than not enough. Long, hot July days like these naturally require more ice to keep that good refrigerator on the job. And you must keep that ice chest in tune, for nothing in the whole world helps Mr. Hoover so much. It keeps food fresh and palatable. It prevents spoilage and waste. It enables you to take those "left over" dishes and make them over.

That good refrigerator is your best defender, too, against sickness. The baby's milk must be kept fresh. Everything that is eaten, in fact, is made more palatable and wholesome with pure ice. As stated before in these notices, the most economical way to take ice is to get the same amount at the same time each day. Then your good refrigerator is always at top notch efficiency; the berries and fruits and vegetables in storage can be served with all of their fresh flavor, and the trying summer days will find you "prepared" to safeguard the happiness and health of all the folks at home.

# Market Report

## Cotton Market

By Associated Press. NEW YORK, July 10.—The continued dry weather in the southwest and apprehension of less favorable crop conditions led to further covering in the cotton market during today's early trading. There was also buying of early new crop deliveries by spot house brokers and further covering of July by Liverpool interests. The market opened steady at an advance of 4 to 15 points and before the end of the first hour sold 24 to 26 points net higher with July touching 28.15 to October 25.01. Some of the unfavorable crop advices from the southwest were accompanied by buying orders and stop orders were uncovered on the early advance. The weekly report of the weather bureau proved more favorable than expected and was followed by realizing. July eased off from 28.23 to 27.90 a point under last night's close while later months lost all but 3 or 4 points of the early advance with October selling at 24.70 late in the morning. Cotton closed steady.

New Orleans Cotton. NEW ORLEANS, July 10.—After hesitation on the opening call today and a loss of three points on December, cotton moved up to higher levels on fear that the weekly crop accounts from the government would make unfavorable mention of droughty conditions, especially in the western belt. At the end of the first half hour of trading prices were 22 points over yesterday's close. At the highest the morning prices were 30 to 31 points up net. The weekly crop returns were more favorable than expected and the market slumped as a consequence, standing at the middle of the day 4 to 7 points under yesterday's close on the most active months. The market became quiet with prices inclined to sag. At 1 o'clock the trading months were 11 to 12 points below yesterday's final. Cotton closed steady at a decline of 26 to 27 points.

Liverpool Cotton. LIVERPOOL, July 10.—Cotton spot quiet; prices unchanged. American middling fair 23.55; good middling 22.24; low middling 21.71; good ordinary 20.72; ordinary 20.19. ## Grain Market

By Associated Press. CHICAGO, July 10.—Bearish aspects of the government crop report brought about only temporary weakness in the grain market today. On the decline buying in which one of the largest houses was conspicuous led to a sharp rally. Opening prices which ranged from 1/2 off to 1/2 advance, with August 1.54 1/2 to 1.55 1/2 and September 1.53 1/2 to 1.54 1/2, were followed by a general upturn to well above yesterday's finish. Oats swayed with corn. After opening 1/2 down to 1/2 up with August 70 1/2 to 71, the market scored a multi-point gain all around. Lack of support caused provisions to sag. Subsequently stock yards longs who were said to have been good buyers of late did considerable unloading. The fact that temperatures were below the seasonal normal throughout the belt operated as a bullish factor. Prices closed unsettled, 1/2 to 1/2 higher with August 1.55 1/2 to 1.56 1/2 and September 1.54 1/2.

## New York Stocks

By Associated Press. NEW YORK, July 10.—Reading's reversal of a large fraction was the only conspicuous exception to the firm but sluggish opening of today's stock market. Other leaders tended moderately higher, including steels, shippings and some of the active equipments. Speculative issues were represented by Sumatra Tobacco at an advance of two points and Baldwin Locomotive and American Can which rose one point each. Liberty Bonds were steady. Investment, rails hardened later but industrials, shippings and specialties broke abruptly. The closing was heavy. Liberty 3 1/2% sold at 99.80 to 99.86, first four at 94.00 to 94.06, second four at 94.00 to 94.08 and 4 1/2% at 95.96 to 96.04. Beyond holding firm U. S. Steel.

## DRY CLAUSE RULED OUT AGRICULTURAL BILL BY SENATE

By Associated Press. WASHINGTON, July 10.—The wartime prohibition amendment to the emergency agriculture appropriation bill, Senator Saulsbury, president pro tempore of the Senate ruled today is not germane and should be stricken from the bill as an attempt to provide general legislation on an appropriation measure. Senator Jones of Washington, a prohibition advocate, appealed from the decision.

## GERMAN PRISONERS FIGHTING IN SIBERIA

By Associated Press. WASHINGTON, July 10.—The first definite news of an armed body of German and Hungarian prisoners in Siberia was contained in a report received today at the state department from the United States Consul at Vladivostok, telling of the capture by Czech-Slovak forces of six hundred prisoners and the town of Nikolai, about eighty miles northwest of Vladivostok. The Czech-Slovaks lost forty killed and 200 wounded. They were opposed by a large force of bolshevik red guards and armed German Hungarian prisoners. The defeated red guards and prisoners took armored trains and retreated toward Jaborsk on the Amur River. The population of Nikolai was reported very friendly to the Czech-Slovaks. Prisoners taken are being held and examined in an effort to learn where they got their arms. The consul reported that the bolshevik hanged several members of the Nikolai city administration and a number of railway employes.

### GAS COMPANY AND COUNCIL LIKELY TO REACH AGREEMENT

Settlement is expected to be reached on the question of the \$1 minimum charge asked by the North Texas Gas Company at the meeting of the city council Thursday night. Mayor J. H. Marlow announced this afternoon and until such a settlement is reached patrons of the gas company need not pay their bills if the \$1 minimum was charged and the gas used came to less than that amount. A called meeting of the city council was held Tuesday afternoon. Judge A. H. Carrigan, attorney for the North Texas Gas Company, and H. P. Hodge, the local manager, representing the gas company, meeting with the council. These representatives agreed that no one would be cut off for not paying their bills if the amount of gas consumed was \$1.00 minimum and had not used that much gas, without the council being given 20 days notice, and furthermore, that if a decision is reached that this minimum cannot be charged, patrons who have already paid their bills will have all in excess of payment for the amount actually consumed refunded to them. It was also agreed that the ten per cent refund would be allowed patrons who have held up paying their bills until a settlement of the minimum question was reached on the advice of Mayor Marlow.

C. B. McKinney, of Denison, vice president of the North Texas Gas Company, will be here for the Thursday night meeting of the council, and all matters will either be settled satisfactorily to the city council, Mayor Marlow said, or injunction proceedings will be commenced against the gas company. The council has ruled the gas company is entitled to pay on by for the amount of gas consumed. Mayor Marlow has made the proposal to the gas company to charge for the amount of gas used until the end of this year, then to present their statement of business and if they are able to show that they are not making money on their investment their claim for a minimum charge will receive attention.

### REGISTRATION LIKELY TO REACH 2000 MARK

Tax Collector B. M. Bullard is now afraid that his supply of blanks for registering prospective women voters will run out before Friday, July 12, as the closing days of the registration period seem likely to end in a rush. Today shortly after the noon hour 1425 women had registered and business continued good throughout the afternoon. Mr. Bullard and Miss Mable Jones, who is assisting the tax collector with the registration, report only 2000 blanks were ordered by Mr. Bullard as he deemed this sufficient to meet all needs, but he believes now that he will have to place another order with the printers to be able to meet the closing rush which he expects for Thursday and Friday. Judging from the steadily increasing number of registrants who present themselves.
