BULLETIN.

WITH THE FRENCH IN FRANCE, Aug. 19 The Tenth French army yesterday took the heights dominating Carlepont plain to the south of Noyon. They also captured the town of Pimprez, in the valley of the Oise, to the cust of Ribecourt.

The French took prisoners 2,200 Germans.

(By Associated Press.)

Launching what may be described as an extensive local attack the French on Sunday evening broke through the German positions along the vital sector connecting the Marne and Picardy battlefield. This atack was over a front of approximately 9 miles from near Carlepont, east of the Oise, to Fontenoy on the Aisne, about six miles west of Soissons. It is officially reported that an advance to an average depth of 1.3 miles was made all along the front of attack. A total of 1,700 prisoners is reported from Paris. It is reported from London that an extreme penetration of

two miles has been made, The villages of Nampoel and Nouvron-Vingre have been captured and the French have reached the southern edge of the ravine at Andignicourt, which is between Nampoel and Nouvron-Vingre.

Since the situation along the Aisne and the Vesle and in Picardy seemed to be approaching a deadlock, indicating a return to the old trench warfare of the first two years of the war, an attack in the sector between the Aisne and the Oise has been expected

This line is vital to the German positions to each side of it. If it should be broken the whole German defensive scheme would be thrown out of joint.

ATTACK POINTS TO POSSIBILITIES.

While the front over which the assault was launched is short compared with those of the Marne and Picardy drives, the success attained by the French appears to point to a possibility of Marshal Foch breaking the enemy's resistance by a flank attack instead of a direct assault against the strong positions now held by the Germans between Soissons and Rheims and between the

It is an extension of the hilly district along the Oise where savage fighting has been going on for the last week.

Along the Picardy battle front there have been local actions,

in which four hundred prisoners were taken by the French. London reports that the French have captured St. Mard and Beuvraignes, near Roye, thus increasing the peril of that bastion of the German line west of the Somme.

Further north the British have penetrated the German positions near Arras. German attacks in the Flanders sector have In the Merville sector the British have made a new advance,

Early Showing of New Fall Suits for Women

1918's new fall suit styles reveal so many types so different one from the other, that there's no possibility of any woman being unable to find a style suitable to her particular needs.

The earliest models show Jackets in various lengths from 27 to 37 inches, with picturesque collars, many of which are made of fur; the straight line silhouette continues to be the vogue, though oftentimes the severeness of the straight lines is tempered by the use of a novel belt, Broadcloths, Wool, Velours, and Silvertones are prominently in the materials in many shades of navy, taupe, green and wine.

A visit to our Ready-to-Wear section at this time will prove of interest to women anxious to familiarize themselves with this season's models.

Marguerite Clark in "Uncle Tom's Cabin'

Here, we have a combination of both star and story and it is hard to distinguish which is the best known.

So charming a figure as dainty Marguerite Clark in the role of little Eva has seldom been seen on stage or screen. She radiates all the pretty appeal of childhood, innocence, and truly wonderful juvenile performance, and in the ivory-blacktoothed grinning character of the irrepressible Topsy scores a distinct and telling comedy hit.

PUBLIC OPINION

A FAIR BASIS.

If there is profiteering in the meat industry, in the milling industry, in sugar or in other food lines, it appears that the blame ought to be placed on the government. The government has taken control of the packeries; it fixes the prices for milling prod-ucts and for sugar. Government control of food prices is necessary in time of war, such as this. The question to be determined is the lowest price that will yield a fair lowest price that will yield a fair return to the packer, the miller or the refiner. When this can be done all parties ought to be sat-isfied.—Times.

Keep A Watchful Eye On That Ice Chest

Now is the open season for fresh vegetables and fruits.

A lot of us planted gardens this year. Aren't we glad we did? For now the fruits of our labor are coming in. "Aren't those fine butter beans," you say "and did you ever taste tomatoes so fresh and fine as these?" Everybody is enjoying the fresh vegetables.

These hot days we are all vegetarians and incidentally we are practicing thrift. Fresh produce helps us lower the cost of living. Now-

Keep a watchful eye on that good ice chest. That most important piece of furniture in the whole house has a whole lot to do with these wholesome summertime dishes. We must keep it up to the mark, loaded with plenty of Pure Ice. It has a heavy responsibility these days. Don't neglect it for one single hour.

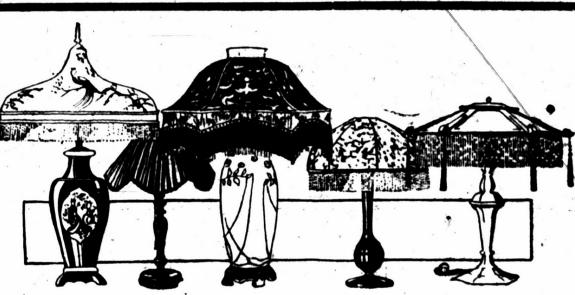

That good refrigerator and our ice is doing more perhaps than you think to make life comfortable and pleasant, and it is doing a very great deal to help us keep down the heaviest item of expense, food.

Remember, it is far better to take a little more ice than is absolutely necessary than it is not to take enough. The important thing is to keep the temperature steady. And the only way to do that is to keep a plentiful supply of ice on hand all the time.

So don't begrudge that tried and true friend, your ice box, the little extra amount of ice it requires during this hot weather. Be glad it is helping you so much to live happily and economically.

EXEMPTION OF MARRIED MEN NOT TO BE GENERAL

By Associated Press.

WASHINGTON, Aug. 19.—No general exemption of married men simply thegause of their married status is contemplated by the war department in preparing for the proposed extension of draft ages, Secretary Baker declared today in a statement before the House military committee on the new administration man power bill.

Mr. Baker said his previous remarks on this subject had been misconstrued and that married men who do not support their families and who are not engaged in useful occupations will continue to be called.

"There are many married men in the continue to be called.

"There are many married men in the continue to be called.

On the question of volunteer enliatment, which some committee members said should be discontinued for the navy and marine corps as well as the army if the new bill is passed. Mr. Baker said the navy opposes prohibiling volunteer enlistments and he had withheld an expression of opinion. He nointed out, however, that the bill would place every man between 18 and 45 under control of the war department and that it would be impossible for hi mand Secretary Daniels to work out in harmony a program to apply men for the navy, for the fighting branch and also the merchant ship service,

Representative Caldwell of New York suggested that the army provide for enlistment work as is done by the many uses for such service men drafted and not qualified for military duty.

Ice Cold Deliciousness

What a satisfaction an "ice cold" fountain drink is these hot days. Robert Lee, aged 24, is in the Wichita General Hospital, undergoing treatment for severe burns on the face and upper part of the body, received Saturday while working on one of the rigs drilling in the Burkburnett pool. Lee was employed-by J. W. Quinn on a rig drilling not far from the Fowlewell. At 11:30 Saturday night when he went on duly he opened the door of the firebox of the boilet to light the gas, those who witnessed the accident say; and struck a match. Instantly flames enveloped him, and before aid could be brought he was severely hurned about the head, shoulders and arms. It is believed that the gas had not been turned entirely off

gas had not been turned entirely off when the Hame was extinguished, and that the firebox was filled with oil and gas, causing an explosion when Lee struck the match.

The burns are very painful and may prove serious, it was stated at the hospital. The eyes were badly burned, as were other parts of the face. Lee was brought to Wichita Falls on the noon train Sunday.

MORGAN SMITH SENDS MESSAGE —"GETTING ALONG FINE

ting along fine" is the cheering mes-sage received this morning by Mr. and Mrs. Fred Smith from their son, Morgan, wounded in action on the 23rd of July. The card received this

morning was written in an unfamiliar hand on that date, doubtless by the nurse. The message adds that the wounded boy is being given the best of attention and will write in a few

days, and urges his parents not to worry. Mr. and Mrs. Smith received official announcement of their sort wound about two weeks ago and had got no further news of his condition until this morning.
