BITTER FRUIT.

Albert, Bapaume, Roye and now, Chaulnes, strategic points in the German system in France, have fallen to the Allies within the past few days. Hitting here and there, along ! the long front from the sea to Rheims Burwell, wiping out German salients and creating salients into the German lines from which they launch new flanking attacks the Allies are pushing the the old Hindenburg line and unless there is a turn in the tide of battle the Germans will not be allowed to rest there but will be kept on the move until they are pushed completely out of France.

The summer campaign from which the German people were promised a victorious peace is turning out most disastrously to the German military expectations, and instead of the fruits of victory the bitterness of defeat is being tasted.

RELIEF FOR THE DROUTH AFFLICTED.

It is a good thing to see the gen nous subscriptions made by Texas business firms and individuals for the relief of the drouth stricken, and the newspapers and others who have op ened such funds are doing a praise work, but private charity can not afford an adequate remedy. Millions of dollars are required and it oust be distributed among those who need it, not as a charity, but as a loan

pose to make loans merely to buy stop the fire of German machine gunstrom the houses, in the recent Allied seed, and at so much per acre for land offensive. to be planted, betray an ignorance of fourly hampered by the German may real conditions. The people of the chine guns in or on the tops of the drouth affected areas must not only have loans to buy seed for planting stance. These compiled, but the crops but they must have money to buy food and clothing for their families and feed for their livestock. And by the tank guns, According they must have this relief immediate-

The loan of a few hundred dollars will serve to keep an ordinary family house after house, bringing down the through the winter on the farm, Loans for the necessities of life ought to be the first consideration. Then after these loans are made the farmers ought to be provided with seed for planting. In no other way can the drouth afflicted people of West Texas be kept on the farms and at The second driver extinguished the productive work in belong in winning fire, assumed command, and later work in helping in winning

THE CONTINUOUS PROBLEM.

That is the problem of food. Our big men are going to solve such problems as shipping, airplane con-struction, submarine warfare, trans-

But that food problem will not be solved at all save in the sense that certain essential processes are kept operative without interruption.

One of those processes is that of production. Every atom of food that the world may hope to produce will be needed. The requirements will be for more rather than for less food, because the larger the number of men employed in the war, the greater will lease on lots 10, 11 and 12, block 31.

Perry Browning to C. W. Maeyers, transfer of one third of three twenty from that generates physical energy.

A world war like this means more the curry in operation the world over, it means more food needed, and the more certain that there will be a deficit rather than a surplus.

cit rather than a surplus.

Another process that must be continuous is that of conservation.

No matter how great a production there may be in one part of the world.

there is certain to be a shortage somewhere else. We doubt that there has ever been a year in which crops were very important meeting tonight. Eveniversally good.

1. The Knights of Pythias will hold a very important meeting tonight. Every member urged to attend. 92-1tc. where else. We doubt that there has universally good.

There are many ways to waste food. It can be permitted to spoth, it can be wasted by negligent, indifferent and extravegant bonsewifery and it can be wasted through sheer gluttony. The housewife must practice the most painstaking economy to avoid waste in the home. Servants not only feed themselves and friends out of somebody's home pantry, but they are wasteful. They harst be faught the

wasteful. They must be faught the necessity of conservation.

The profiteers are responsible for the most criminal waste in this country. The millions of dozens of eggs, the thousands of tons of fresh meats, and the countless thousands of tons of fruits and vegetables that spoil are due primarily to the rapacity of men who hold for extortionate profits rather than let all perishables flow

upon eager markets at reasonable men who permitted thousands

of carloads of potatoes to rot last win ter ought to have been shot. If the government will hold a key Published every week-day afternoon (except Saturday) and on Sunday mornings.

Would You Let Baby Drink Impure Milk

"No, of course," every mother will say instantly—"I wouldn"t take a chance like that for anything in the world."

The milk must be pure. Certainly, and so should you be sure that the ice that is used in the home is PURE ice.

Ice that isn't pure is more than a menace to good health. It is a direct agent for disease. Ice comes in contact with foods in storage in your refrigerator. Ice is used in the ice water that the little folks drink, and in the iced tea, and in the making of innumerable summertime delicacies.

If the ice is impure the food will be impure. And, goodness knows, we have enough to think about without taking chances with impure ice. For baby's sake, for the sake of the health of ALL of the folks at home, be certain that you are being served each day with PURE ice.

Evidences of impurity, as previously stated, can be readily detected. The presence of white, misty looking places in a block of ice are definitely signs of the presence of an unhygienic, unhealthy foreign substance. Pure ice is clear and free from such places; it is practically transparent. Pure ice, like ours. is made from distilled water.

If you are not taking our PURE ICE. start today. Keep the ice box going with a plentiful supply of our pure ice and you wont have to watch the health of the home folks so closely.

THREE AMERICANS KILLED IN FIGHT AT NOGALES, ARIZ.

(Continued from page 1.)

troops had participated in the fighting, and declared that the shooting had been done by customs guards and other Mexican civilians. However, Americans, marooned in the Mexican town, stated that the soliders rushed from their barracks, at the sound of from their barracks at the sound of the first shot and continued to fire volleys toward the American side un-tif they were driven off, when the American troops charged.

Army officers today spoke with high praise of the conduct of residents of Nogales, who by rifle fire from house tops and other places of advantage laid down a "barrage" to cover the advance of the Americans when they dashed across the line. A battalion of infantry and two troops of negro cavalry under command of Lieutenant Colonel F. J. Herman chased the Mexican malcontents a quarter of a mile across a level plain into the valleys back of the city of Nogales and the accurate, sustained fire of American civilians is believed to have been no small measure of proto have been no small measure of profection to American troops particularly as it reduced the number of Mexican snipers to a minimum. It was in this charge that Captain J. W. Hungerford, sommander of one of the cavalry troops was killed. The cavalry commander, Lieutenant Colonel Herman, was wounded while leading the charge.

NEGROES CROSS BORDER AND ROUT SNIPERS

NOGALES, ARIZ. Aug. 28.—Pro-found regret for yesterday's clash between Mexicans and American diers was expressed by General Elias Calles, military governor of Sonora, to Brigadier General De Rosy Cabell. Calles at Magdalena, Sonora, early oday. General Calles stated he had been ordered to proceed to the border by President Carranza to express these regrets personally. He is sched-uled to arrive here this morning, General Casell arrived at 3 a. m. from Douglas, The conference is to be held in Nogales, Arizona, today.

Reports that negro cavalry troops crossed the international boundary during the shooting yesterday were of-ficially confirmed here today. A de-tachment of the cavalry crossed International avenue at 5 p. m. and rode one block into Nogales. Sonora, to clear the adobe houses of snipers.

Mrs. J. L. McClure, wife of Fire Chief McClure, has returned from Mineral Wells where she has spent some time for the benefit of her health

War Service Fashions

Not all women engaged in patriotic work wear a uniform. Not all women want to. Not all may. All women, however, wish to express their patriotism in the matter of apparel and at the same time be well and suitably attired. Baum & Gardner in devising War Service Fashions simplify the problem of war-time dress. Here are fashions carefully selected for their simplicity, serviceability and appropriateness for every occasion, preeminently suited to the requirements of women of to-计二重工列 化原列生产学 网络蒙蒙

SMITH WELL NEAR SAND!

The Smith Well Is Almost to the 1700 Foot Sand

Our property 21-2 acres, the north half of the second 5-acre block just south of Burkburnett Public School, joins the Smith property on the west. Company being organized will drill at once.

Capital Stock \$45,000.00

Shares \$50, Selling Today at Par

Over Half Subscribed

FOUR VITAL POINTS

We are organizing a series of companies No. 1, 2, 3, 4, etc., for development on our acreage. You should buy with us.

- 1. Because will drill now.
- 2. Because our capitalization is lower.
- 3. Because our acreage is larger than others.
- 4. Because we are close in and in line with Big Gushers.

NO. 1 DRILL PLACED YESTERDAY

Our holdings, 5-acre tract, about 1000 feet south Burkburnett Public School was over subscribed \$9,500 on the seventh day after first advertisement appeared. Contract for well placed three days before company. Office 706 7th Street Telephone 146

EDGAR P. HANEY, President B. J. EDWARDS, Secretary

TWO CHANCES TO WIN BIG MONEY FOR THE PRICE OF ONE INVESTMENT!

Oil has been the foundation of more big fortunes in Texas and Oklahoma than any other commodity.

Tulsa alone has 228 millionaires, practically every one made rich out of oil

BURKBURNETT IS THE POOR MAN'S OPPORTUNITY!

The world has never seen such a chance. Every body can get in, and with the proposition we offer, you can't lose.

The Two Wells Oil Company

Owns the lease on three different close-in tracts in Burkburnett. With a capital stock of \$55,000.00, ample to carry out all our contracts, we propose to drill two wells to a depth of 2000 feet unless the Fowler sand is found at a lesser depth, and to turn the two wells and the lease over to the shareholders as soon as the wells are finished and equipped.

Shares Are Only \$100

And each shareholder has an equal proportionate interest in both wells. A thousand barrel well on each of these leases will make every shareholder almost independent for life. It is an opportunity of a lifetime. Don't put off such an investment—Do it right now.

OPPORTUNITY AFTER OPPORTUNITY IS OFFERED IN

BURBURNETT FELD

Greatest Oil Stock Offering Made in the Burkburnett Field

Burk-Ta Oil Company Now Drilling With Holdings in Block 1, Lot 7 and 8, and Well Going Down 1000 Feet, Expected in Any Day

FACTS THAT COUNT!

Should our well No. 1 come in the same as the Hammond well, which was reported at 3,500 barrels a day, which is joining our lot in the same block, \$100.00 invested today would equal owning and receiving 624 per cent a year on investment, figuring oil at \$2 per barrel and our capital stock at \$45,000—who wouldn't take such a chance as that when we are practically as sure of getting a well as good or better than the Hammond well. Think of it—624 per cent a year on one well and remember too, we haven"t told you half the good news. The two lots in Block 3 in our opinion are some of the best in the entire field and we expect to drill them as soon as possible.

Should tempt the shrewdest of investors to take hold and buy all this stock they can handle. Think of it—the Hammond well reported to have come in at 3,500 barrels a day and our holdings only a few feet away, makes us the luckiest lot in the whole Burkburnett Feld. In addition to our blk. I holdings, we have two lots in blk. 3, Wiggan Add., one lot in College Add. All of our lots are corner lots and in our opinion the best locations of the entire field. Think of it—buying this stock at \$100 a share. We can't imagine a better buy in all the field. We don't promise to drill, we ARE drlling and at 1,000 feet too. Rush with the crowd to buy this stock. We guarantee it will only be advertised at \$100 per share for a short while, get yours now. Don't be one of those "I wish I had" fellows. Come in today. Remember our capitalization is only \$45,000 and with holdings like ours, the stock should be \$200 a share by Saturday. Realize what it means. A well now drilling at 1,000 feet in the best location the entire field.

Our Red Letter Proposition!

With the valuable holdings we now have and with the well we are now drilling at 1,000 feet on Block 1, offsetting the Hammond well and the holdings we expect to add from time to time, we guarantee you at least one producing-well within sixty days from date. Think of that kind of an offer-did you ever hear or read of such? We are sure of our company's holdings and of what we expect to add from time to time. Also of our knowledge of the oil game. Remember this RED LETTER PROPOSI-TION only stands open for a short time—come in before you are too

What Oil Has Done for Some People!

A forceful example of how oil investments have brought riches to the investors is illustrated by the following figures which have been printed from time to time:

An investment of \$100.00 in Fortuna Oil Co. became worth \$2	250,000		An investment of \$125.00 in Steubenville, Ohio, became worth	60,000
An investment of \$250.00 in Home Oil Co became worth	100,000		An investment of \$100.00 in Kern River Co. became worth	8,000
An investment of \$100.00 in San Joaquin Oil Co. became worth	83,000	,	An investment of \$100.00 in Fullerton Oil Co. became worth	6,180
An investment of \$500.00 in Quaker Oil Co. became worth	100,000		An investment of \$100.00 in Imperial Oil Co. became worth	4,500
An investment of \$175.00 in Coline Oil Co. became worth	83,000		An investment of \$100.00 in Peerless Oil Co. became worth	4,300
An investment of \$100.00 in Merritt Oil Co. became worth	73,000		An investment of \$100.00 in Monte Cristo Oil Co. became worth	4,000
An investment of \$250.00 in Central Oil Co. became worth	45,000		An investment of \$100.00 in New Oil Co. became worth	3,900
An investment of \$400.00 in Winchester Oil Co. became worth	33,000		An investment of \$100.00 in Southern Pet. Co. became worth	3,000
An investment of \$300.00 in John Wellemeyer Co. became worth	25,000		An investment of \$100 in 1914 Oil and Gas Co. became worth	57,000
An investment of \$250.00 in Cleveland Oil Co. became worth	19,500		An investment of \$100.00 in Trapshooters Oil Co. brought	42,000
An investment of \$100 in Farmers Petroleum Co. became worth	10,000		An investment of \$670 in Hoffman Oil Co. brought	18,522
三/中国中央、市场中国等。4000年,1920年,1920年,1920年,1920年,1920年,1920年,1920年,1920年,1920年,1920年,1920年	A to him in many	20. 1		

An investment of \$250.00 in Fowler well is reported to be worth \$60,000. Think of it?

In our opinion the Burk-Ta Oil Company has better chances than any of the above. Come in with us today. There's millions made in every new oil field. It only takes courage. Be one of those who say here is my \$50,00 or \$100.00. Place it on the Burk-Ta Oil Co.

AMERICAN AIRMEN HAVE DIFFICULTY WITH LANDINGS

SOMEWHERE IN ENGLAND, Aug. 28.—Several American airmen have recently been put on duty as special "ferry pilots" between England and "ferry pilots" between England and France. This is very important work, consisting mainly of taking new war airplanes over the Channel in all weathers to points where they are needed at the front. The task is not difficult in fine weather, but in bad weather it is sometimes very difficult and dangerous. Whether the weather is bad or good, the machines needed at the front must go without delay.

On a recent day, chilly and obscure, one of the American "ferrymen" was ordered to take a new scout fighter to an aerodrome close to the front lines in Northern France. The clouds were so low and the haze so prowere so low and the haze so pro-nounced that the far end of the flying ground was barely visible. The pilot thought he might scrape through by flying low and chancing possible en-

gine failure.

After he set off, he found matters even worse than he had thought. At 200 feet objects below were scarcely visible; at 300 feet he could see ly visible; at 300 feet he could see nothing. He made a circuit of the aerodrome, and might have landed again, except that the American pilots have a distaste for admitting that anything is impossible.

Enveloped in Cloud.

He rose to 350 feet and was enveloped in cloud. It was now too late to land, for he had lost the aerodrome and it he were to come down to look

to land, for he had lost the aerodrome and if he were to come down to look for a good field he might hit a neighboring cliff or factory chimney. The only thing to do was to keep on his compass course and climb up above the clouds and after flying for about half an hour to glide down gradually through them in search of a landmark. At 3,000 feet he found himself above the clouds and in the midst of morning sunshine. The half hour passed and the pilot had to make up his mind to dive back down through the clouds.

Special to The Times.

ELECTRA, Aug. 28.—Work on construction of the septic tank, in construction with an elaborate sewerage system, which will take in the entire town, is now under way, and the sew-trage system will be commenced bord to finish the work within five months. The tank will be located to the southeast of town, so that the overflow will be available for use by the Reaver-Electra Refining Co. plant, also under construction.

Then luck suddenly decided it in the

Hun Machine Gun Crews Masquerade As the Red Cross

FORT WORTH, Tex... Aug. 28.—
German atrocities are such that Teuton machine gun crews are making a practice of masquerading as Red Cross stretcher bearers, wearing the insignia, so they can go safely within close range of the American troops where they drop in shell holes or other cover and use their machine guns with deadly precision, according to a letter from Corporal Fred L.

Luther says in his letter he has seen evidences of where the Germans cut off the hands and otherwise mutilated old women and children. It was in the big drive at Cantigny that the Germans first used the Red Cross as a cloak for machine guhbers and Luther calls the practice "a dirty Hun Trick."

"Another stunt that happened."

Luther writes," was in the atreets of Lather writes," was in the atreets of Lather writes, "was in the atreets of call the city. A splendid water supply has siderable development will be understaking, and it is understood that considerable development will be understaking, and it is understood that considerable development will be understaking, and it is understood that considerable development will be understaking, and it is understood that considerable development will be understaking, and it is understood that considerable development will be understaking, and it is understood that considerable development will be understaking, and it is understood that considerable development will be understaken in connection with the city. A splendid water supply has siderable development will be understaken in connection with the city. A splendid water supply has siderable development will be understaken in connection with the city. A splendid water supply has siderable development will be understaken in connection with the city. A splendid water supply has siderable development will be understaken in connection with the city. A splendid water supply has siderable development will be understaken in connection with the city. A splendid water supply has already been development with the city. A splendid water supply has alrea

Hun Trick."

"Another stunt that happened."
Luther writes," was in the streets of
Cantigny where the Germans would
lay down in the streets and pretend
to be wounded and shout "Kamared"
to the Red Cross stretcher bearers and
when they came near to give aid
they would stab or shoot them."

Corporal Luther said in one village
where the Americans passed through
he saw old men and women 60 years

he saw old men and women 60 years old who had been horribly mutilated by the Germans who cut off their hands when they refused to work. "Poisoning water and animals, stealing stock and plundering everything imaginable" is the way Luther terms some of the atrocities.

imaginable" is the way Luther terms some of the atrocities.
"After the boys back home, the letter concludes, "get over here and see some of the results of the damage wrought by the Huns they will be glad to get a whack at the Dutch."

Haskell People to Make Deep Tests At Once for Oil

Becal to The Times.

HASKELL, Texas, Aug. 28.—S. S. Kouri is erecting his very heavy derrick and rig for a deep test on the Ballard Ranch in the Eastern part of Haskell County. This well will be about 3 miles from the West line of Throckmorton County, Texas, and will begin in the Pennsylvania formation where it dips under the Red Beds.

C. B. Schafer drilled a well. 2520 feet deep on the Scott Ranch in 1913, and he was in the big black lime when he quit the well. It is known now that the Ranger sand is found under this black lime, and Mr. Kouri has had all this territory checked over by a competent geologist, and it is thought by many of the talent that Kouri will get the Ranger sand at about 3300 feet, if he does not get a well in the 2300 foot sand.

Contract has been let on a good black of acreage in the Vontress suckhorhood in Haskell County for spiter deep test, drilling to begin the leasing of oil lands in the war.

ELECTRA PLANS FOR IMPROVING

under construction.

With a view to securing an adequate Then luck suddenly decided it in the shape of a small gap in the cloud, through which he caught a glimpse of the green fields of France. Without hesitation he shut off his engine and dived through the gap. By good-fortune the clouds here were higher than ou the English side, but it was raining hard.

He switched on the engine again. With a view to securing an adequate supply of water to meet the growing needs of the city, and the enlarged demands that the sewerage system will entail, the city commissioners are about to start constructing a second demands that the sewerage system will entail, the city commissioners are about to start constructing a second demands that the sewerage system will entail, the city commissioners are about to start constructing a second demands that the sewerage system will entail, the city commissioners are about to start constructing a second demands that the sewerage system will entail, the city commissioners are about to start constructing a second demands that the sewerage system will entail, the city commissioners are about to start constructing a second dam, which will back up a tremend-ous body of water for a couple of miles of creek, which is fed by a very construction. raining hard.

He switched on the engine again below the clouds and sailed along at a comparatively low altitude through the rain, picking up landmarks by which he chose his course. Thence it was comparatively plain saiting, and in a short time he landed at the depot aerodrome and housed his machine.

Substitute for a couple of miles of creek, which is fed by a very extensive water shed. No time will be lost in getting this work underway. Meantime, the present cement reservoir has been undergoing neces sary repairs, and a complete cleaning out, preparatory to building a settling lasin and purifying plant, which will deal with the water from both dams before it is turned into the city pipes. before it is turned into the city pipes The work of cleansing the present res ervoir has caused considerable incom venience for the past two or three days, owing to lack of water in the city pipes, but the water is flowing now and the shortage is at an end. The refinery under construction by Maggoner & Cross is making rapid leadway. It will be located west of the city. A splendid water supply has slready been developed for this undertaking, and it is understood that con-

Work on the Farm

cation to his commanding officer for permission to return to the farm of permission to return to the farm of his relatives (or the person interested) or through the local board where the man was registered. The local board after approving the application will forward it to the commanding officer of the camp where the soldier is located where he will issue the necessary furlough.

"Through the co-operation of the war department and the agricultural

"Through the co-operation of the war department and the agricultural department an added source of tarm labor has been obtained and at the same time has solved the knotty problem of what to do with conscientious objectors in the army corps. In various states they have been detailed to work on farms where farm bein ork on farms where farm help needed to increase food production. They are furloughed under strict regulations but are paid standard wages while on the farm."

OIL COMPANY PLANS
REMOVAL TO WICHITA
H. V. Vaughn of the Mid-Co. Oil
Company at Tulsa, is in the city today
conferring with a special committee
of the Chamber of Commerce relative

of the Chamber of Commerce relative to the locating of Texas headquarters of the Mid-Co. Company in Wichita Falls. The company will have an office force of 70 men and will require a large office space. Mr. Vaughn stated. The only requirements which the city will have to meet is to provide offices for the company to rent and find homes for some of the officials.

The company had contemplated lo-cating Texas headquarters in Dallas and had received offers to do «o. a telegram to the Wichtia Falls Cham-ber of Commerce stated, but the offi-

cials stated that they considered Wichita Falls a better location as it was in the oil center. They will lo-

cate a branch office at Gisco, to serve the cast and central Texas pools. The Mid-Co. Company deals in oil leases and does an extensive mapping busi-ness but sells no stock.

To the ladies, and my old customers, am again taking orders for the Barrley Corsets. Phone 1329, Mrs.

The MILLER DRUGSTORE

H. T. THORNBERRY, Prop.

NO MILDRED, WE ARE NOT INVESTING IN OIL STOCK!

We are devoting all our capital, energy and brains to the careful selection, blending and roasting of coffee and blending of tea that we may produce the very best results in the cup.

Our coffees are roasted FRESH EVERY DAY and sold at MODEST PROFIT to ourselves alone.
