Special Labor Day Program Today "THE HOUSE OF MIRTH"

From Edith Wharton's famous novel with an all-star cast

-- INCLUDING-Kathrine Harris Barrymore,

Christine Mayo-Henry Kolker, Lottie Briscoe-Sidney Brack,

Joseph Kilgour-Edward Abeles. Edith Wharton's novel has been read by hundreds of thousands on three continents.

The story is one of gripping intensity with a plot reaching to the very heart of decadent society—laying bare the conditions which govern the upbringing and marriage of girls for wealth and social position. It shows that in this respect modern society is little in ad vance of the Turks and other Orientals : who sell their beautiful daughters to the highest bidders.

One of the unbeual features of the play is the aggregation of so many noted players in one production which in itself is enough to insure perfect artistry. Then too, the story is one of the most thrilling ever written, dealing with every form of human emotions.

"TO HELL WITH THE KAISER"

The hideousness of Prussianism laid bare. When fate deals with the Beast of Berlin, Decency's Challenge to Hohenzollerns. A majestic marshaling of patriotism and daring on the side of right. History, Romance and Hope. Peace gained by victory. An astounding prophecy.

The picture opens with details of the Prussian war lords plans to conquer the world, and shows their attempt but the final defeat of the plans.

The Devil offers the Kaiser the entire world in exchange for his soul, this temptation is entirely too much for the Kaiser; he falls and the deal is closed. He undertakes to take possession of his Devil's title property but in the end the Devil's promises are shown to be as futile as they are on all occasions and the picture ends with scenes of the Kaiser and the Devil in Hell where all Devils belong.

D. W. GRIFFITH Presents "THE GREAT LOVE"

You saw them all in "The Birth of the Nation." LIKE "THE BIRTH OF A NATION" and HEARTS OF THE WORLD," "THE OREAT LOVE" is the result of long and untiring

effort on D. W. Griffith's part. He first spent eighteen months on the battlefields of France to photograph the stupendous scenes of the Great Conflict. Then he came back to his California studio and wove these undying scenes into the greatest story of woman's part in the fight-story that proves that, though women are not using cannon and machine guns and bayonets, the're fighting just the same.

By all the rules and precedents of the motion picture art a picture made by D. W. Griffith should be presented as "The Birth of Nation" and "Hearts of the World" were presented in the ligitimate theatres at high prices.

But Mr. Griffith has waived his right to a special presentation of this picture, so that all may see what England's women have sacrificed and that the women of America may be even more inspired by the example of their sisters of Britain

The latest picture made by the master producer, D. W. Griffith. deals with events of the great war. It is a story close to the hearts of us all and has been pictured in the usual effective manner of the Griffith features. Enacted by a cast of unusual excellence, aided by members of England's Royal family. "The Great Love" is a picture that will make us better Americans and adversaries of the unspeak
