Market Report

Cotton Market

By Associated Press.
NEW YORK, Sept. 5.—The announcement that a committee of the war industries board would be appointed to investigate the possibility of controlling the distribution and stabilizing prices for cotton had a very unsettling effect on the market here during today's early trading. The opening was weak and declined to 14 points with October selling at 34.00 and the call or 34 cents per pound below the high record of Tuesday while January sold at 23 1/2. There are a very severe break in Liverpool and there seemed to be a good deal of southern hedge selling around here but there was active covering at the initial break and the early 14c situation was extremely irregular. Selling became more active and general during the middle of the morning and the break extended with extraordinary rapidity. October contracts sold off to 32.50 and January to 22.50 making net declines of 22 to 25 points on the most active months and a break of 45 to 44 points from Tuesday's high records. Japanese interests were big buyers on this setback and after the excitement subsided prices rallied some 20 to 30 points from the lowest around mid-day. Rallies of 87 to 105 points from the early low levels were not fully maintained as the advances seemed to meet further liquidation but trading was much less active during the early afternoon. October rallied around 33.38 and January 22.75 toward 2 o'clock or about 157 to 164 points net lower.

New Orleans Cotton.

NEW ORLEANS, Sept. 5.—A wide decline occurred on the opening of the cotton market today under heavy selling stimulated by the announcement from Washington that the war industries board would reach control of fixing the price of cotton. In the first half hour of business the trading months lost sixty-eight to eighty-four points. The selling out movement on the long side increased as the session grew older and prices fell away sharply. In the trading up to noon the decline was widened to 186 to 194 points. At noon the market was 75 points up from the bottom. A moderate recovery from the decline came about on fresh buying for the long account and profit taking by shorts. At 1 o'clock trading months were at a net decline of 127 to 170 points. The cotton market closed today at a net decline of 99 to 112 points.

Liverpool Cotton.

LIVERPOOL, Sept. 5.—Cotton spot quiet; prices weak. Good middling 23.50; middling 22.50; low middling 22.25; good ordinary 22.00; ordinary 22.18. Sales 2,000, including 1,400 American. Receipts none. Futures closed weak and 104 points lower. September 24.80; October 24.50; November 24.31; December 24.10; January 23.92.

Grain Market

By Associated Press.
CHICAGO, Sept. 5.—Failure of predictions had a searish effect today on corn and so, too, had the likelihood of warmer weather. Opening prices, which varied from unchanged figures to 3/4 lower with September \$1.54 1/2, and October \$1.56 1/2 to \$1.57 1/2, were followed by a moderate rally and then by another sag. Oats were steady as a result of absence of any aggressive selling. After the opening 1/4 up to 1/8 up with October 72 1/2 to 72 3/4, the market hardened slightly and then reached a trifle. Subsequently gossip that country commission notices have fallen off considerably brought about an upturn. The closing was unsettled 1/8 to 3/4 not higher, September \$1.55 and October \$1.57 1/2 to \$1.57 3/4. Declines in the hog market weakened provisions. Lard held relatively steady as compared with ribs and pork.

Standard making a 2 point gain and General Motors, 1 1/2. Leading rails and industrial developed further weakness, however. U. S. Steel receding 1/2 point. Metals also retreated half their gains. Motor shares continued to advance in the last hour but seasonal issues were at loss of 1/2 to 3/4. Steel receding 1/2 point. The closing was irregular.

STUDENTS' ARMY TRAINING CORPS AT UNIVERSITIES

PLAN IS FURTHER OUTLINED IN INSTRUCTION TO PRESIDENT OF UNIVERSITY.

APPLY TO LOCAL BOARD

Effort Will Be Made to Accommodate As Many Volunteers As Is Possible.

Special to The Times.

AUSTIN, TEX., Sept. 5.—Additional information in regard to the plan of the committee on Education and Special Training of the War Department for establishing Students' Army Training Corps at the University of Texas and other educational institutions has been received at the office of President R. L. Vinson of the University. These latest advices come from the Committee on Education and Special Training. According to this announcement, the student will remain at college and a vocational section of the Students' Army Training Corps. Young men of draft age of grammar school education will be given an opportunity to enter the vocational section of the Corps. At the present time about 25,000 men are called for this section each month. Application for voluntary induction into the vocational section should be made to the local board and an effort will be made to accommodate as many as possible of those who volunteer for this training.

Will Be Rated and Tested.

In the vocational section will be rated and tested by the standard army methods and those who are found to possess the requisite qualifications may be assigned for further training in the college section. In view of the comparatively short time during which a most of the student soldier will remain in college and the extent of his duties, getting the academic instruction not necessarily be modified along lines of direct military value. The War Department will prefer to accept or suggest modifications. The schedule of purely military instruction will not probably effectively academic work. It will vary to some extent in accordance with the type of academic instruction. It will be held in a medical school than in a college of liberal arts. As previously announced, all members of the Students' Army Training Corps will be paid \$30 a month and housed and boarded at the expense

of the government. They will also be provided with uniforms, guns and other equipment free of cost. From time to time the young men in this organization will be selected according to their performance, and assigned to military duty in one of the following ways:

Manner of Assignment.

He may be transferred to a central officers' training camp. He may be transferred to a non-commissioned officers' training school. He may be assigned to further in-service work in a specified line for a limited specified time. He may be assigned to the vocational training section of the Corps for technical training of military value. He may be transferred to a command for duty with troops as a private.

"SOUTHERN" AT BURKBURNETT A BIG PRODUCER

OIL SHOOTS TWENTY FEET OVER THE DERRICK THIS MORNING.

HAS STRONG FLOW

Expected to Prove Equal to Any Yet Brought in At That Field.

With a gas pressure that sent the oil well over the derrick, the Wichita Southern Oil Company's first well on the five acre tract held by the many west of the Burk Burnett town site came in at four o'clock this morning and this morning was reported flowing strongly. At the office of C. W. Gilliland, president of the company, it was said that it had not yet been possible to gauge the flow but that the well was expected to prove the equal of any yet brought in. Now only wells that are on the sand, or at a critical stage are being drilled, the committee which has been in session at Burk Burnett to adjust the fuel conservation difficulties, having stopped work Wednesday afternoon when rigs had started up. This committee is meeting with success in its conciliatory negotiations and is settling the lot propositions as fast as the lot and company and stockholders representative could be gotten together. However, it has much work ahead of it and the session may be continued into Saturday.

NORTHWESTERN ONE OF NEW COMPANIES

The Northwestern Oil Company, to operate in the Burk Burnett field, has just completed its organization and having secured acreage in the producing field, just outside Burk Burnett, is ready to start drilling operations. The lease secured, according to officials of the company already has production and five other wells will be drilled as soon as possible. Roy D. K. Hogan of Fort Worth, Baptist minister, is president. E. L. Matthews of Houston, who has been interested in the mid continent and Texas oil fields for a number of years is vice president. T. B. Dickson is secretary. E. P. Haney, treasurer. H. J. Edwards will be in charge of drilling operations and the board of directors in addition to these officers consists of C. T. Pledger, Wanda, Okla.; Frank Richardson, Castleton, Ill.; Frost, Ardmore, and J. O. Elliott, city.

Wichita Fuel Stock Sells at 3 1/2 to One On Local Exchange

Aside from excitement in Wichita Southern, which came in looking like the best well in the field, a sale of Wichita Fuel Development Co. at 3 1/2 for 1, made by the Hiney & Cotton exchange, was one of the sensational trades. Their board also showed interest in Stanley, Clark, Cline, and Woods corporation at one and one-half; Block Six Co. at one and one-half; Wichita Southern offered at five-eighths four and one-half bid; Big Three Oil Co. at three with two and one-fourth bid; Mitchew was three to one bid, none offered.

AVIATORS CHANGE SEATS WHILE UP IN THE CLOUDS

By Associated Press

SAN ANTONIO, TEX., Sept. 5.—Lieut. Charles C. Cole, instructor in aviation, and Lieut. James P. Desmond, student, of Ellington Field, while making a trial flight, performed a miracle high in the clouds by changing seats, and establishing what is said to be a record in aviation circles.

Two men changing seats while the plane is rising on the ground often meets with difficulties, and making this change at an altitude of 2,500 feet is "most an impossibility."

The machine, a two seater, in which the men were flying, was controlled from one seat. Lieut. Desmond was driving and instructor Cole riding in the passenger seat. An unsuccessful attempt to land smashed the undercarriage of the plane and Lieut. Desmond, cabot, immediately soared to an altitude of safety. Here Lieut. Cole, knowing that the seat had been swapped, immediately contacted a partner and the change was made.

without accident. Lieut. Cole taking charge, descended until he was only about twenty-five feet above the ground, killing his engine, tilting the plane, he then "pancaked" to the ground, effecting a landing on the good side of the gear, avoiding further trouble.

ARREST YOUNG WOMAN THOUGHT TO BE SPY

By Associated Press

NEW YORK, Sept. 5.—A young woman giving the name of Margaret Vara and said to be the wife of a man arrested recently for posing as an American army officer in order to obtain military information for communication to Germany was arrested last night. She was held in \$5,000 bail as a material witness. Subpoenas also were served upon two other women.

Federal agents say they have evidence that Margaret Vara lived for some time in Mexico, where she was married to a German officer and made frequent trips into the Tampico oil fields.

DEFICIT IS INEVITABLE, SAYS STATE TREASURER

By Associated Press

AUSTIN, TEX., Sept. 5.—Notwithstanding the fact that there is a balance of approximately \$2,500,000 in cash in the state treasury to credit of general revenue, when the new fiscal year began Sept. 1, a deficit is inevitable, according to Treasury department officials, because all appropriations for the new year became available at that time.

Appropriations made by the legislature, it is said, will deplete the treasury by November 1 and the deficit which will be incurred will not be remedied until about the middle of February, when January tax collections amounting to about \$5,000,000 will roll in.

Cereal Food That Contains Its Own Sugar Grape-Nuts

is utterly unlike any other prepared cereal

Take a handful of its golden-brown granules and hold it in a strong light. You will see little shining particles on each granule—a result of the Grape-Nuts process of cookery, which turns the starch of wheat and barley into actual sugar.

The sweet, nutty flavor of Grape-Nuts requires no added sugar and where fresh milk or cream is not obtainable condensed or evaporated milk fits in finely.

No sugar is needed, and but little cream or milk and this makes Grape-Nuts a very desirable cereal these saving days.

BOSTON IS WINNER IN INITIAL GAME OF WORLD'S SERIES

(Continued from page 1.)

icans at 2:30 this afternoon were scheduled to make a featured start in their battle for the baseball championship of the world. Weather permitting the clubs will play here today, tomorrow and Saturday and will en train Sunday for Boston where the remaining games of the series will be staged beginning Monday until one club has won four games.

Despite the fact that the present series marks the swiftest start in ball until after the war, interest was at a lower ebb this year than ever before, in the opinion of world series veterans. Threatening weather may have been partially responsible, but only a handful of spectators gathered for the "early morning watch" yesterday and even fewer were there today. The advance sale of tickets, however, it was announced was up to expectations.

Managers of both clubs said today they contemplated no dramatic changes in their line-up. There was a possibility however that Babe Ruth might be replaced in the Red Sox infield as the result of a split finger sustained in practice Tuesday. Clark Coffey was picked to substitute in case the injured second baseman proved unable to perform.

Vaughn for the Cubs and Moss for the Red Sox were considered premier in-bound possibilities. Manager Mitchell was expected to put his best bet to rest by starting his giant left-hander while Boston prognosticators claimed Barrow would start Mack and hold "Hullie" Joe Bush under wraps for use later on in the coming crises, should they develop.

Visiting magnates were unanimous in the verdict that the present series is demonstrating beyond all doubt that interest in professional baseball has waned for the duration of the war at least.

Scalpers had a plentiful supply of tickets. Grand stand seats for the three games, worth \$4.50, were on sale at \$10 and box seats at \$25. At 2:30 there were 2,000 spectators in the stands. In previous years the grounds have been filled early to capacity except in the reserve sections.

The weather was dull and cloudy with occasional flashes of sunshine.

French Hospitals Adopt American Surgical Dressing

Workers in the surgical dressing department of the Red Cross and surgical dressing instructors will be especially interested in the following clipping from the latest number of the "Important Items of the American Red Cross":

"A program received from Harvey H. Johnson, Red Cross commissioner to France, states that the French war department has officially adopted for use in all French hospitals, American Red Cross standard surgical dressings. This decision will improve the distribution service to French hospitals, because at this time there were only comparatively small quantities of French style dressings available, under the present arrangement the entire output of American Red Cross chapters can be utilized for both French and American hospitals.

ARMY RECRUITING OFFICE IS CLOSED

Effective today, September 5, the army recruiting station in this city, in common with all recruiting stations of the country, it is understood, was closed and Sergeant J. L. Buchanan, recruiting officer in charge, and First Class Private Earl DeCan, assistant, were ordered to report to their commanding officer, Captain George M. Shelton at Dallas. Sergeant Buchanan expects that his orders will be for overseas duty, after a short time in a training camp, and he hopes to be sent with the infantry, as that is where he can "see the big show right."

Sergeant Buchanan has been in the army since April, 1917, and has been all over the United States. Both he and Private DeCan have been under command of General Pershing, and the late General Pershing. The sergeant thanks the people of Wichita Falls for their courtesy and cooperation during the time he has been stationed here, and calls attention to the fact that 88 men have been recruited to the regular army from this city during the few months he has been here. He leaves his best wishes with all his friends and asks them to remember the men at the front and see that they never lack for anything that may be supplied them.
