GERMANS SHOW DEMORALIZATION AND DEPRESSION

AGERLY DISCUSSED IN PARTY CIRCLES.

Proof That Germany Considers the Situation Grave But Not Desperate.

PARIS, Oct. 22.—The German reply to President Wilson was received here too late for the afternoon papers, but was eagerly discussed in official circles and in parliament. Among deputies of all shades of opinion the impression was first of all, that the reply hateward more than presidue comply betrayed more than previous com-munications the state of depression and the demoralization of the German people as the result of the Allies' victories.

As a whole the note is found to be As a whole the note is found to be equivacal and tortuous and platitudinously phrased as to leave the door open for all sorts of quibbling, Nowhere is there evidence in the reply of a genuine desire to accept the only way in which peace can be concluded, according to expression of opinion here. On the contrary all that is apparent is the urgent desire of the German general staff to get an armistice at any price in order to reorganize its reserves of men and material. Therefore it is generally believed that the reply is not likely to be considered

at Washington.

Anguish is Translated.

The Figaro says that the men who combined to write the reply to President Wilson have "translated the anguish disarray and powerless and ger of the people in whose name they pretend to speak."

"The German note is a typical docu-ment," says the Matin. "In it are expressed the sentiments of a barbarexpressed the sentiments of a barbarous people who failed in a foray. There is not a word in the note which reveals that stoical strength of which France and other nations have so often given proof in misfortune. Ney: ertheless by a remnant of that lying trickery innate in the Teuton, our adversary seeks still to deceive himself by lulling himself against all evidence and hopes, by one doesn't know what crazy illusion, to succeed in deluding Wilson by euphisms and equivocations."

The bird was one of four which had been taken out in two seaplanes on patrol duty in the North Sea. It was known that a German patrol of at least six machines was in the vicinity. These had swooped down on the British flyers and, before help summoned by the pigeon could arrive, had quit the fight and flown away, in accordance with the usual German air tactics of not risking an engagement with equal forces.

Seeks to Divide Allies.

The Journal says the note seeks to divide the Allies and seeks also to draw from President Wilson a formal declaration that "nothing will be asked contrary to the honor of the German people, but that an avowal of defeat it is."

The announced German concessions respecting submarine warfare are merely pretense, the Petit Journal continues, inasmuch as the submarine

campaign is a definite factor.

The most general comment in the press on the German reply is that the enemy is attempting to avoid an admission of defeat by causing pacifist agitations in Entente countries. The German wireless is sending out fentastic stories of pacifist manifestations in Lyons, Marseilles and other
