# AMERICAN ARMY ENTERS SEDAN THIS MORNING

WITH THE AMERICAN ARMY ON THE SEDAN FRONT, Nov. 7.—American troops today entered that part of Sedan that lies on the west bank of the Meuse. The bridge over the Meuse at Sedan over which the retreating enemy fled, has been destroyed and the river valley flooded.

The principal German lateral lines of communications between the fortress of Metz and northern France and Belgium now are either cut or unavailable for the enemy's use.

Since November 1 the Americans have taken 6,000 prisoners They have freed all French territory within the zone of the army's action west of the Meuse to a total of 700 square kilometers and have liberated 2,000 civilians.

WASTE OF SUGAR

THE following bulletin was among the most forceful and effective bits of conservation propaganda at the New York Food Show last month. It was put out by the National Sugar Refining Company of New Jersey: "Save the waste! "One hundred million cups coffee used daily in United States.
"Seventy million cups tea used daily in United States.
"One hundred and seventy million cups tea and coffee.
"If even an average of half a teaspoohful of sugar per cup is left undissolved at the bottom of cups of tea and coffee the waste would be 1,700,000 pounds of sugar daily.
"Stir your sugar until it dissolves. It's estimated that one-third to one-half of all sugars used in homes is used in tea and coffee. Think it over—how is it in your home? Isn't there a chance for saving?"

Take the sugar subject for instance:

Among Those Who Aye Repeted Wounded.

Frank Kell has received two letters from Capt. D. M. Perkins containing further reference to the sad and unfilmely death of Lieut. A. H. Carrigan, Jr., announcement of which was made in the Times Wednesday afternoon. The first letter, which was bagun on October 8 and concluded on the 10th, mentions the wounding of Lieut. Porter, who is a brother-in-law of J. C. Mytinger, and of Brewster Staniforth and others and states that "many companies in our regiment are now commanded by Sergeants and some by Corporais." Capt. Perkins states further that "we are atill inflicting heavy losses on the Boche and taking ours," promising that as soon as they are relieved from the front line that he will send a full list of the losses from his company. His letters would indicate that the holys have paid the price, as did Lieut. Carrigan.

companies in our regiment are now commanded by Sergeants and some by Corporals.

We could not bury Pat until Wednesday, 16th. We buried him in same grave with Capt. Hansen, our medical officer who took Major Jones place. The Regimental Chaplain has Pat's personal effects and will send same to Judge Carrigan as this 4s regulations. Young Avis has Pat's ring. Our regiment has paid the price in full for victory. We have meached and passed every objective assigned to us; killed and captured on the 8th more Germansthan our strength, our lines constantly advancing day and night over seemingly impassible barricades. Our guns never ceasing day and night. The background grotesquely lit up by fires of many burning villages, showing the retreating Hun at his worst. I expect we will be taken out soon to get back our strength.

Can't tell you where all of the many buttles we are fighting were and there has been some great battles recently.

Irene Castle, strange as it may seem, didn't learn dancing from a teacher—she just danced,
From the time when she was a tiny tot she couldn't hear music without wanting to dance it, so as her father, Dr. Hubert Foote, of New Richelle, N. Y., believed that all boys and girls should be taught to earn their own living, she went him a bit further and earned hers. And so as Mrs. Cernon Castle she became the idol of two continents, set dancing the freedom of the firing line.

This was the nature of the campaign carried on by the republicans in many congressional districts. The returns show that this campaign oucceeded. That instead of the effort at division being repudiated it was en dorsed by a sufficient number of vot ers to elect a republican congress and for the first time in the country's history to fail to give a president a vote of confidence in time of war.

The future would hold only the prospect of sectional divisions and bickerings if it were not for the be lief that when the men of all sections who have been fighting shoulder to shoulder in France get home sectional tommy-rot will quickly have to go the route of the Hun. Until they come home the country must rear what it has sown in the republican victory of Tuesday. Division and prejudice were sown. The harvest will be of like.

# WITH AUSTRIANS

LONDON, Nov. 7.—In reporting the conditions of the armistice laid down by the Italians to the Austrians, the Jerman wireless service of November added this comment:

tions are not to be understood in such a way that enemy armies might use the freedom of move-This assumption it may be said is contrary to the truth. It is the intention of the Allies to use their freedom of movement in Austria to further at first possible moment a converging attack on Germany through Ba varia. The towns of south Germany such as Munich, Dresden and Liepsic will be immediately exposed to aerial attack and Berlin is no great distance

away from the frontier.

Will Have Large Army.

There is no disposition to attempt anticipating the intentions of Marshal Foch who has been appointed generalissimo for the purpose of co-ordinat ansamo for the purpose of co-ordinating an Allied attack on Germany on the new southern front to be created before the spring of 1919 but it may be pointed out that he will have at his disposal not merely the Italian army of 3,000,000 men but the British and French forces in Italy, the French and Macedonia, and the British forces released from Palestine and Mesopo tamia. A high military authority points out various alternative routes by which an attack might be directed. There is the obvious route by way of Trent, along the oldest high road between Italy and Innsbruck, to the Brenner pass; there is the railway leading from the new Italian eastern front through Laibach, giving access to the network of railways from lower Austria to the Bavaria and Ratisbon and there is the frontier railway through Prague which opens up possibilities of approach to Dresder

### **Baptist To Build** In Floral Heights

In Floral Heights
At An Early Date

Some of the Baptists of the Fourth Street Baptist church have purchased two beautiful lots at the corner of Kemp boulevard and Avenue B and Tenth street. These lots are located in the choicest residential sections of the city. There are many unidentified Baptists in this city and tuis new movement will give them a fine opportunity to come out from their hiding place and get into a real place of service for the Master. This new organization will be known as the "Floral Heights Baptist church." As soon as it is possible the brotherhood will erect a temporary structure as a place of worship.

If possible to get things ready by the structure as a place of worship.

If possible to get things ready by the 17th of November (said date being the third Sanday of the month) at 3 p. m., all those who desire to be in the organization as charter members will meet at the tent that we hope to have raised for temporary service and at that time go into permanent organization of the Floral Heights Baptist Church." We most cordially invite the sympathetic cooperation of all the brotherhood of Baptists and their friends, whether identified or unidentified, to join in this far reaching movement for the glory of God and His kingdom in Wichita Falls.

# Market Report

#### Cotton Market

Ry Associated Press.

NEW YORK, Nov. 7.—An easier tendency developed in the cotton market today. The recent sensational advance of about 3½ cents per pounds seemed to have left futures in a weak er technical position and there was a disposition to take profits on long contracts or to sell for a reaction. The opening was steady at an advance of 4 to 27 points but prices soon eased off with December declining from 30.16 to 29.70 and January from 29.40

closing figures, owing to continued Liverpool and southern and Wall street selling. The market was then steadied by covering and foreign rum-ors that the armistice had been signed by Germany, became extremely active and excited. Prices went up by jumps with December soon selling at 30.00 and January at 29.20 or 120 to 130 points above the low level of the morning and about net unchanged to 20 points higher. The volume of bus-iness then tapered off with the market

waiting for an official statement regarding the armistice. There was much excitement on the floor during the early afternoon but business remained comparatively quiet with traders more inclined to wait for official confirmation of the reported signing of the armistice than to go further in discounting any view of its effect on prices.

Cotton closed steady.

NEW ORLEANS, Nov. 7.—No decided trend was shown by cotton in the early trading today. On the first call prices were 9 to 20 points up, but a quick drop followed, which carried the active months 25 to 30 points under yesterday's close. # Close Harmony Under Fire

THE men had finished supper, and sat around in listless groups. Even when a shell went zooming overhead they showed no interest. They were fed up on this war.

A little gray car chugged up the hill to their camp. Two war work men stepped out, carrying between them a curious long box.

"What you got there?" asked the doughboys.

"An organ."

"Well, can you beat that!"

"We've come to give you a little entertainment," said one man. "All right?"

"You bet it's all right," answered a young officer. "This gang hasn't seen a soul from the outside world for weeks. Go as far as you like."

And they did.

They sang the new songs, just over from Broadway. In a minute the whole camp was singing them. Then they sang the verse of a good old close-harmony melody, and the crowd roared the chorus.

"But haven't you men got anybody who can sing?" asked one of the entertainers. The response was immediate and overwhelming.

"Sure we have! Oh, you Shorty! Come on, Happy! Give 'em

And then things really started.

"Would you know it's the same gang?" asked the American

For two hours it lasted, and then the visitors packed up their organ.

"Come again soon and send more of your men," said the officer. "We can't get too much of it!"

"So long!" yelled the men. "Good luck! Come again!"

Wherever there are American soldiers overseas, these organizations are carrying entertainment to them. Movies, concerts, lectures, local talent, even full-fledged comedies with a truck for the stage, from the simplest sing-songs in the woods to the most elaborate program in city theatres, everywhere free entertainment is provided to meet conditions.

Why you should give twice as much as you ever gave before!

The need is for a sum 70% greater than any gift ever asked for since the world began. The Government has fixed this sum at \$170,500,000. By giving to these seven organizations all at once, the cost and effort of six addi-

announced. The hour was set for eight o'clock. Everything was ready.

Then came the telegram. It came in the middle of the afternoon. It threw the head Secretary into a frenzy. It was from Paris.

It said that the most popular American actress in France would arrive to give her performance that evening!

The girl and the bishop at once!

A hurried consultation was held and then it was explained to the bishop how matters stood.

"What time does she arrive?" asked the bishop.

"A little after eight o'clock," said some one.

"Then it's perfectly simple," the bishop went on. "Move my meeting ahead to seven o'clock. It will last only forty-five minutes. Then clear the hut, re-arrange the benches and bring on your musical comedy star!"

"Do you mean it?" they gasped.

"Why, of course!"

And that is exactly what they did. At 7.45 o'clock the bishop closed his meeting and at 8:15 o'clock the actress began her show, from the same stage.

There was no pretense about it-no attempt to get an audience for a religious meeting by announcing a vaudeville show. Each gathering was announced for exactly what it was. And at both gatherings the hut was packed!

The American soldier needs diversion and entertainment as well as he needs religion. He gets both at his hut each one in its place, each one clearly defined, honestly labelled, sincerely

This United War Work Campaign is for funds to carry clean, wholesome amusement to the soldiers as much as to provide them with the athletic, educational, religious and social background of home. It is to round out the lives of the men whose existence in a foreign country would become narrow and monotonous.

Give to let the soldiers have a few of the good things you have every day.

## THE GIFT YOUR SOLDIER OVER THERE WILL APPRECIATE MOST.

Our fighters in France carry the photographs of their wives, sweethearts and other loved ones nearest their hearts. The boys have written home that they can buy almost everything which is being sent over there except your photograph. They can't buy it, therefore it is the gift which will please HIM, as nothing else can do. CHRISTMAS "OVER THERE" means November 20th "Over HERE", for that is the last day on which soldiers' Christmas packages can be received.

# Fordson Tractor and Oliver Chilled Plows

# Demonstration Sat., Nov. 9th

### Two Miles Out on **Henrietta Road** Morgan Farm

We invite you personally to call and inspect the Fordson Tractors and Oliver Disc Plews which we now have in stock. Indeveloping the Fordson, the aim has been to produce a small tractor which will be low in first cost, reliable, economical, and above all efficient.

This tractor is designed to pull three 24 inch discs in the stiffest soil. It maintains a draw-bar pull of 1800 pounds at plowing speed. The average fuel consumption is aproximately 21/2 gallons of kerosene per acre.

The amount of ground plowed depends upon conditions; eight acres in ten hours is a fair average.

The tractor weighs 2700 pounds with water and fuel tanks filled.

The Oliver D-43 disc plow with the Fordson forms a strictly one-man outfit with a power lift which is simple and positive—it raises the plow on ALL THREE WHEELS, bringing it up level, high above the plowed ground. It penetrates to full depth and raises to full height in a shortspace, of travel. This insures uniform depth of seed bed, even at the ends of the furrows.

Watch for date of Demonstration in Wichita Falls and

# FOUNDER MOTHERS' **CONGRESS WOULD** REDISTRICT STATE

SUGGEST EIGHTEEN DISTRICTS INSTEAD OF FIVE AS AT PRESENT.

Tenight's Session Promises to Be On Unusual Interest, It is

A suggestion that will revolutionize the Texas Congress of Mothers, that of redistricting the state, so that eighteen districts are formed, instead of five as at present, was made by Mrs. Ella Carruthers Porter, the founder of Ella Carruthers Porter, the founder of the Congress, at this morning's session of the annual conference of the congress, meeting at the First M. C. Church, South, and proved the outstanding feature of the day's meeting. This suggestion, if adopted, as it seems most probable it will be, made by Mrs. Porter, she explained to her audience, after a careful study of conditions and a desire to increase the officiency of the Congress as an orefficiency of the Congress as an or-ganization and a power for good in the state. At present some of the districts contain only a few counties, others almost one hundred, she stated, and the proposition was made to make the district sconform t othose of the congressional district organization. In increasing the number of districts and thereby the number of district presidents and other district executive officers a stronger organization will be that the Congress has undertaken. Action is to be taken later during the

conference on this poposition.

Development of Departments.

One of the features of the morning Chamberlain of Stephenville, on the need for development among the various departments of the Congress of Miss Moore called for a "Back to The School" movement and the members of the Congress present, were much impressed, both with the report and a teacher in the Stephenville schools, and she spoke with conviction on many subjects, which she urged the Congress to take up and prosecute with energy. Among these was the establishment of home economics courses in all schools. viction on many subjects, which she urged the Congress to take up, and prosecute with energy. Among these was the establishment of home economics courses in all schools, city and rural and give the boys and girls knowledge of which they can make use in their life as men and women, rather than to fill them full of subjects which will fit them only for college. She also spoke of the great scarcity of teachers and the poorly qualified teacher which she said is found too frequently, generally in the furnal schools. Poor wages for teach each will be the service of their children. Another matter which she stressed was the necessity of the American parents and the service of their children. Another matter which she stressed was the necessity of the American parents and the service of their children. Another matter which she stressed was the necessity of the American parents and she urged that those stressed was the new hoys letters, she said, she saw a development, a charge of the post hospital at Californ would never have come otherwise, and she urged that those at the service of the post hospital at Californ and husbands have outgrown them.

lege of Industrial Arts, gave a short talk on "Individuality and Efficiency in Dress." Miss Alexander will prob-ably speak more at length later. This morning she addressed a meeting at the High school.

At the noon hour a luncheon was served in the parlors of the church by a committee of Wichita Falls women. Mrs. F. C. Harron presided as toastmistress.

The report on educational work of the Congress, made by Miss Anne Moore of Denton, was read by Mrs. Sadler, Miss Moore being unable to be present. Miss Moore's report was an exhaustive one, she having studied in Washington during the summer, as well as carrying on other investiga-tions of educational work of such orby the number of district presi-and other district executive of-a stronger organization will be possible, she explained, and thorough work along the lines the Congress has undertaken. Ac-tage of the educational pro-gram adopted the previous year. In connection with this report a poster hung in the assembly room was called to the attention of the delegates and tion is to be taken later during the conference on this poposition.

Development of Departments.

One of the features of the morning neither read or write, and that in Texpession was the address of Mrs. W. as last year 10,895 children were not enrolled in the schools. The report of Mrs. We have called for a "Recht to the attention of the delegates and visitors. This poster stated that the government had found 700,000 men registered for service who could neither read or write, and that in Texpession was the address of Mrs. W. as last year 10,895 children were not enrolled in the schools. The report

Mrs. Claude De Van Watts, child welfare inspector and deputy labor commissioner for the bureau of labor statistics for the state of Texas made the feature address at the opening session Wednesday afternoon, speaking on the different phases of child labor that have come under her observation in her work with the bureau of labor statistics. She also spoke at length on the necessity for a living wage to be paid girl and women workers, declaring that businesses that can or will not pay a living wage to their employes are a menace to society, cause immorality and should be abolished to protect womanhood.

Mrs. Claude De Van Watts, child welfar inspector and deputy labor friday night. The state officers are yet to make their report, as are the district officers.

The delegates and visitors from out of town include: Misses Irene M. Alexander, all from C. I. A. at Denton, Miss M. Helen Higgins of the A. Sutz and W. N. Stokes of Vernon; Charles II. Woodson San Antonio; C. Shumway, Waco; O. M. Longnecker, Charles Scholibo, Houston; W. Chamberlair, Stephenville; A. W. Latspeich, Kennedale; J. A. Brown, Dallas; M. A. Turner, Ranger; Ed.
