## EIGHT DIVISIONS RETURN SOON

### GEN. MARCH ANNOUNCES CASUALTY LIST 236,117; DEATH LIST IS 53,169

(By Associated Press.) LIVERPOOL, Friday, Nov. 22.—Several thousand American soldiers sailed for home today on the liners Lapland and Minnehaha. It was a stirring scene as the men marched from the railway station and local camps to the landing stage amid the rousing cheers from the throngs of people along the streets.

WASHINGTON, Nov. 23.—Plans of the war department, Secretary Baker said today, call for the reduction of the American expeditionary forces to a point where they will constitute approximately thirty divisions, or about half the present strength. Further reductions will be made beyond that point if it is found that the situation warrants.

(By Associated Press.) WASHINGTON, Nov. 23.—Demobilization of the American expeditionary forces is already in progress with the movement home of sick and wounded, will be hastened by the return at an early date of eight divisions of national guard and national army troops, eight regiments of coast artillery and two brigades of field artillery. This announcement was made today by General Pershing, chief of staff, on receipt of dispatches from General Pershing.

The divisions which General March said have been designated by General Pershing to return as soon as the sick and wounded have been moved to the United States are:

**Divisions Are Designated.**  
National guard, 31st (Georgia, Alabama and Florida), 34th (Nebraska, Iowa, South Dakota and Minnesota), 38th (Indiana, Kentucky and West Virginia), and 39th (Arkansas, Mississippi and Louisiana).  
National army: 15th (New England), 84th (Kentucky, Indiana and Southern Illinois), 86th (northern Illinois, including Chicago), and 87th (Arkansas, Louisiana, Mississippi and southern Alabama).

The coast artillery regiments to be returned as soon as possible were announced as the 4th, 15th, 48th, 49th, 50th, 73rd, 74th and 75th.

The two field artillery brigades to be brought home are the 6th and the 167th. Eighty two aero squadrons, 1 construction companies and several units from England will be brought home as soon as transportation facilities are available, General March said.

**Aero Squadrons to Return.**  
General March said no report on the organization of the army of occupation had been received but that the divisions designated by General Pershing for return were among those he could spare immediately. The order in which they will return has not been established, but the chief of staff

### PERSHING'S ARMY IN LUXEMBURG IS NEARING GERMANY

GERMANS ARE SLOWER EVACUATING THAN EXPECTED.

### ONLY RIVER IS BETWEEN

Expect the American Troops to Be First to Set Foot on German Soil.

(By Associated Press.) WITH THE AMERICAN ARMY OF occupation, Nov. 22.—General Pershing's forces in Luxembourg and along the river Moselle from the points of junction with the French on their right and left, looked over into Germany today.

The Germans are somewhat slower in some places in evacuating their territory than had been expected, but not enough to give rise to the belief that they do not intend to observe the terms of the armistice.

Along the Moselle, lagging German soldiers washed their clothing into the river. The American troops on the opposite bank did likewise. There was little conversation between the two armies.

American order against fraternizing. Major General Lanier, superintendent of the American zone, is commanding the seventh corps.

### HAVE U-BOAT ACTIVE OFF AMERICAN COAST.

(By Associated Press.) LONDON, Nov. 22.—About the German submarine, which was reported to have operated off the American coast according to the statement of the submarine, sank 120,000 tons of American shipping. She is a 1,000-ton U-boat, called U-105, and 22 torpedoes.

### ITALY PRESENTS A SITUATION OF EXTREME DELICACY

DANGER IS ARISING OUT OF UNEXPECTED OCCUPATION BY JUGO-SLAVS.

### POPULATION IN TERROR

Local Jugo Slav Committee is Disarming the Italian Population.

(By Associated Press.) VIENNA, Nov. 22.—Victor Piroschi, founder of the Italian workers' league, in making a tour of redempted Italian territories has visited Fiume since the Hungarian government left the city. Speaking on the situation he says that it is of extreme delicacy. Danger is arising out of the unexpected occupation of the city by considerable bodies of Jugo-Slav soldiers, most of them were Croatian troops and until quite recently fighting in the Austrian army. In addition to this the local Jugo-Slav committee, while disarming the Italian population, have formed civil guards from Jugo-Slavs living in the outskirts of the town.

### BOLSHEVIKI CRIMES ARE REVOLTING

(By Associated Press.) STOCKHOLM, Nov. 22.—The bolsheviks have been guilty of terrible excesses in Petrograd in the last few days, according to a dispatch from Abo, Finland to the Aftonbladet. Five hundred former Russian army officers are reported to have fled from Petrograd.

### TERRIFIC BOLSHEVIK MASSACRE IS REPORTED

(By Associated Press.) WASHINGTON, Nov. 22.—The American state department today from Stockholm says a Bolshevik newspaper prints an account of a terrific Bolshevik massacre in Petrograd. The newspaper says that the Bolsheviks have been reported to have murdered and foreigners returning from the interior of Russia were said to be in grave danger.

### OPPOSITION OF THE BOLSHEVIKI IS PERSISTENT

(By Associated Press.) ARCHANGEL, Nov. 22.—The American and English troops have encountered strong opposition both on the Volga and the Archaigal railway and on the Volga river, owing to the swarms of Bolsheviks. The Bolsheviks are reported to have been very active in their opposition to the Allies.

### SOVIET OFFICIALS OF RUSSIA PLAN QUICK GETAWAY

(By Associated Press.) LONDON, Nov. 22.—(Reuters.)—It is pointed out in connection with the United States for food, that there are two kinds of rations in use in Germany. That for the soldiers in the front lines has been much larger than that granted the rest of the nation. It is said that the Bolsheviki are planning to evacuate the front lines and should be maintained for the large body of troops returning from the front. This ration is considerably more generous than to which the Bolsheviki have accustomed during the last four years.

### FLOWER SHOWER AS FRENCH ARMY ENTERS BUDAPEST

(By Associated Press.) BUDAPEST, Nov. 22.—When French troops entered Budapest, the city was showered with flowers by cheering crowds that filled the streets, according to dispatches from Hungary. The city was beflagged with the Allied colors and no Austrian or German flags were seen. The residents sang the Marseillaise as the French marched in.

## EBERT GOVERNMENT OF UNCERTAIN DURATION AND DOUBTFUL POLICY

(By Associated Press.) LONDON, Nov. 23.—A Berlin dispatch to the Frankfort General Anzeiger says that the government crisis is due to the fact that the executive committee of the soldiers and workers council has interfered with the government's executive power on several occasions. Negotiations are in progress, it adds, but the prospect of an agreement is so slight that the position of the cabinet is shaken.

Referring to reports of separatist movements in Germany, a dispatch to the Daily Mail from The Hague says it is impossible as yet to estimate the extent either of the strength of the movements or their real motives, but it seems certain that Premier Ebert's government is of very uncertain duration and also "of very uncertain principles."

The greater part of the population, the correspondent adds, is apathetic toward the revolution. He believes that with better food conditions and the revival of hopes, the true national character of the Germans will reappear.

(By Associated Press.) BERLIN, Nov. 23.—The results of the Spartacus actively continue to be reported with increasing frequency from various sections of Germany.

On top of Thursday's reports of events at Kiel (where the extremists usurped the power of the local authorities) come reports similar to attempted coups by followers of Karl Liebknecht, independent socialist, at Hamburg and Dusseldorf.

The movement failed at Hamburg but it succeeded at Dusseldorf.

(By Associated Press.) PARIS, Nov. 23.—(Havas.)—Answering the argument of the Dutch government in justifying its attitude toward Wilhelm II, the Netherlands government, as contained in a note issued by the Dutch legation yesterday, the Petit Journal observes that the former emperor was at the very beginning and continues to be treated not as a private individual, but as a sovereign enjoying favorable conditions. It adds that telegrams from King George V are considered an official telegram.

### KING ALBERT ENTERS BRUSSELS AND RECEIVES AN ENT HUSIASTIC WELCOME

(By Associated Press.) BRUSSELS, Friday, Nov. 22.—King Albert entered Brussels this morning at 10:30 o'clock. He was accompanied by Queen Elizabeth, Princess Leopold and Charles and Princess Marie-Jose.

"I have seen many great coronations at many places," the correspondent writes, "I have never seen so vast and so magnificent a coronation as this. A tumult of fervor, but a modern artillery barrage into terms of delight and you have some indifferent messengers of the concentrated ecstasy of the many. That for the soldiers in the front lines has been much larger than that granted the rest of the nation. It is said that the Bolsheviki are planning to evacuate the front lines and should be maintained for the large body of troops returning from the front. This ration is considerably more generous than to which the Bolsheviki have accustomed during the last four years."

The return of King Albert to his capital recalls the king's prophecy in an interview with the Associated Press only a few months ago. The king, having checked the first rush of the Germans, had been driven from their country. In the dispatch reporting this interview, given on December 20, 1914, at the king's headquarters in West Flanders the following passage occurred:

"Your majesty it has been predicted that you will re-enter your capital within three months," the correspondent said.

The king shook his head sadly, saying: "Not so soon, but some day I shall ride into Brussels at the head of the Belgian army."

### AMERICANS MAY BE FIRST ON GERMAN SOIL

(By Associated Press.) WASHINGTON, Nov. 22.—The American state department today from Stockholm says a Bolshevik newspaper prints an account of a terrific Bolshevik massacre in Petrograd. The newspaper says that the Bolsheviks have been reported to have murdered and foreigners returning from the interior of Russia were said to be in grave danger.

### GERMAN WOMEN GET NO SYMPATHY FROM THE FRENCH

(By Associated Press.) PARIS, Nov. 22.—(British Wireless Service.)—The national council of French women has declined to negotiate with the German government to mitigate the terms of the armistice, which are only to be justified by the manner in which Germany has waged war.

### FORM MAIN COMMITTEE FOR ARMY OF SERVICE

(By Associated Press.) AMSTERDAM, Friday, Nov. 22.—At a joint session of the soldiers and workers' council of the German army it has been decided to form a main committee for the army of the service. It will represent all the councils of the army and will have its headquarters at Wilhelmshaven. The committee will be composed of the councils of the army and will have its headquarters at Wilhelmshaven. ### SECRETARY M'ADOO RESIGNS PLACE IN WILSON CABINET

UNABLE TO LONGER MAKE THE FINANCIAL SACRIFICE, HE SAYS.

### PRESIDENT HAS ACCEPTED

No Indication Is Given As To Who Will Be Named As His Successor.

By Associated Press. WASHINGTON, Nov. 23.—William G. McAdoo's resignation as head of the treasury and railroad administration precipitated discussion today of the future status of railroads, an issue which had been somewhat dormant up to the present. It is estimated that a result of the settlement would be to throw into congress and into public discussion much sooner than otherwise the issue of whether government operation is to continue indefinitely, whether this will be extended to government ownership or whether the roads will be restored to private management, with some sort of federal revision to permit their continued pooling and unified operation. Speculation as to Mr. McAdoo's successors, however, took equal rank with the discussion of the future policy toward the railroads.

For the position as secretary of the treasury, Representative Carter Glass, of Virginia, chairman of the House banking and currency commission is known to be under serious consideration. Friends of Mr. Glass say he has a reputation for being a close and constructive thinker of financial business.

Goethals Is Mentioned.

For director general of railroads, it appears to be much more doubtful the President's selection. Such a man as Major George W. Goethals is mentioned, it is stated today—a man with executive ability, not closely connected heretofore with railroad management, who could view problems from

William G. McAdoo

the public standpoint and at the same time could direct the staff and organization already built up by Mr. McAdoo. On the new director general of railroads, whoever he may be, will devolve the task of guiding the roads through the readjustment period.

Upon the policies of the new rail director will depend largely whether the government shall continue combining the railroads into a homogeneous unit or begin the "breaking up" process in preparation for resumption of private control. From the President's selection observers believe may be determined to a large degree the attitude of the administration on the railroad's future.

Fraught With Significance.

This is one reason why the resigning of a new director general is regarded as fraught with such unusual significance.

Although Mr. McAdoo will retire to private life, his friends say he has no thought of refraining from expressing his ideas on governmental policies from time to time. Particularly will he remain interested in the railroad question and those in close touch with Mr. McAdoo would not be surprised to see him come forward in a few months with specific recommendations for the nation's consideration of the railroad issue. Mr. McAdoo is said by his friends to look with disfavor on restoration of individual railroad competition and there have been

many reports that eventually he would advocate complete government ownership, to be effected by exchange of government bonds for railroad securities. Formally and officially, however, Mr. McAdoo never has indicated this attitude.

### RESIGNS TO REPLENISH HIS PERSONAL FORTUNE

By Associated Press. WASHINGTON, Nov. 23.—Giving necessity for replenishing his personal fortune as a reason, William G. McAdoo has resigned as secretary of the treasury and director general of railroads. His resignation has been accepted by President Wilson.

As secretary of the treasury Mr. McAdoo will retire as soon as a successor has been chosen and has qualified. He will relinquish his position as head of the government controlled railroads January 1, unless a director has not then been selected.

The resignation of Mr. McAdoo, which he himself announced at a conference with newspaper correspondents late yesterday was entirely unexpected in Washington. After making the announcement, Mr. McAdoo made public his letter of resignation to the President bearing the date of November 14 and the latter's letter of acceptance.

Waiting Until War Ends.

Saying he had refused to consider resigning while the country was at war, Mr. Adoo wrote the President that "inadequate compensation allowed by law to cabinet officers and the very burdensome cost of living in Washington have so depleted my personal resources that I am obliged to reckon with the facts of the situation." While emphasizing that he has not suffered any actual impairment of health, he said he needs "a reasonable period of genuine rest to replenish" his energy.

Neither in his letter to the President nor in his statement to newspaper men announcing his resignation did Mr. McAdoo outline his plans for the future, but it is believed he intends to take a vacation of several months before returning to business, probably the practice of law.

Four Vacancies in Six Years.

By the resignation, President Wilson for the fourth time in nearly six years of his term of office is faced with the necessity of filling a vacancy in his cabinet. The resignation of Mr. McAdoo took official Washington so completely by surprise that even today there was little speculation as to his successor or successors. It is not known whether the President will fill separately the offices of secretary of the treasury and director general of railroads. In some quarters it was thought today that the President may decide to make some other member of the cabinet head of the nation's rail-

road system. In such an event it was considered likely that the place would go to Secretary Baker, Postmaster General Burleson, or Secretary of the Interior Lane.

Should the President decide to go outside his cabinet for a director general the name of Walker D. Hines, assistant director general and chairman of the board of directors of the Atchafalaya, Topock and Santa Fe was mentioned.

For the treasury secretaryship the names of John Skelton Williams, comptroller of the currency, W. P. G. Harding, governor of the federal reserve board, Russell C. Leffingwell, assistant secretary of the treasury, and Paul Warburg, former member of the reserve board and New York banker, is mentioned.

### British Prisoners Liberated Present Pitiable Picture

By Associated Press. LONDON, Nov. 23.—Pitiable conditions among British prisoners who have been liberated by Germans since the armistice was signed are described by Reuters correspondent at French headquarters. He says he has never before seen human beings in such a state of raggedness, hunger and misery. Thousands of prisoners were told to clear for the Allied lines, but were given no food and no money. They started to walk fifty or sixty miles to allied lines.

### PREMIER OPENS CAMPAIGN WITH REVIEW OF PLANS

By Associated Press. WOLVERHAMPTON, ENGL., Nov. 23.—The coalition government plans to make England a fit country to live in for the men who have made a new world, declared Premier Lloyd George in opening the provisional political campaign here today. The program includes schemes to create the production from land and other industries, reforestation, better transport, including the extension of the canal system and small holdings for sailors and soldiers with assistance in the form of homes built by the government.

The premier denied that he was surrounded by reactionaries and said that if the government were unable to get along because of obstructions he again would appeal to the people.

### MEMBERS OF OIL COMPANY CHARGED WITH CONSPIRACY

By Associated Press. NEW YORK, Nov. 23.—A conspiracy to use the mails to defraud investors of millions of dollars through the sale of stock of the Tuxham Star Oil Corporation is alleged by the government in a complaint on which Louis Roumanznic, head of the company, John J. Bryant, a director, and Henry Kahl, a broker, were arraigned before a United States commissioner today after their arrest here.

Federal attorneys asserted that 20,000,000 shares of Tuxham stock already had been disposed of at from fifty cents to \$1.55 a share. This would total between \$10,000,000 and \$40,000,000.

The sales were made, according to the government's complaint, on the representations that the corporation owned oil guahers in Mexico. The oil wells described and pictured on the company's circulars used in exploiting the sale of the stock are not owned by the corporation, U. S. Assistant Attorney Axman said.

Lee, the woman's work chairman for the county, states that the booths, which were discontinued during the United War Work Campaign, were opened again Saturday, and will be continued as far as possible for the remainder of the year. A large amount of stamps remain unsold, and a number of pledges have not been paid up. A special drive is to be undertaken in a short time to pay up all these pledges and plans will be made as soon as the amount of stamps that remains to be sold in Wichita Falls is announced by the district chairman, who has not yet sent the mid-month report for November to the local chairman.

The sales this past week at the War Savings bank amounted to \$2,372.45. Mrs. Lee announced Saturday. This is somewhat less than the sale totals have been in weeks in which the booths have been in operation, but is a very good showing, when the fact that the United War Work campaign was in progress during half the week, is considered.

V. M. Henderson has filed suit in the 78th district court against F. A. White, to try title.

### Want Wm. H. Taft As Commissioner Of Baseball Leagues

By Associated Press. NEW YORK, Nov. 23.—Former President William Howard Taft has been offered the position of sole member of the national commission of the National and American leagues, according to an announcement here tonight by H. N. Hempstead, president of the New York Nationals, and Harry Frazee, president of the Boston Americans. Mr. Taft is said to be considering the offer.

Acceptance by Mr. Taft would mean the passing of the national commission, which is composed of the two league presidents and a third member, and it is said, would show that the powers which have been conferred on the national commission by the National League and American League, which have earned for him the title of "baseball dictator." The offices of the new "one-man commission" would be in New York.

The offer to Mr. Taft is said to have been made without the knowledge of western presidents of the two leagues. All of the eastern club presidents are said to have approved the offer and this would give the originators of the idea sufficient votes to carry the proposal.

The National Commission at present has only two members, former Governor John K. Tener of Pennsylvania, having relinquished his seat on the commission when he recently resigned the presidency of the National League. Mr. Johnson and August Herrmann, president of the Cincinnati Nationals are the present members.

**CHAIRMAN HERRMAN KNOWS NOTHING OF IT**

Harry Frazee, president of the Boston Americans in regard to William Howard Taft being offered the position of sole member of the national commission of the National and American leagues.

### FIVE PROVINCES IN DIVISION OF ASIATIC TURKEY

WASHINGTON, Nov. 23.—In a war geography bulletin issued today, the National Geographic Society gives a brief account of the five provinces or districts into which Asiatic Turkey may be roughly divided. The bulletin, which is based upon a communication to the society from William H. Hall, says:

"Anatolia (the name is from a Turkish word meaning 'the dawn') lies between the Black and Mediterranean seas. This district is the home of the greater part of the Turkish population, perhaps 7,000,000 in all. Here is a case where the people can be distinguished from the government. Even the so-called subject races have suffered but little more at the hands of the governing officials than the common Turkish people.

"When one remembers that all government of the empire lies solely in the hands of a group of not more than 300 men, and that they impose their selfish will on Turk and Christian alike, one readily understands how a distinction can be made between people and government. In spite of a constitution having been proclaimed and a parliament summoned, the people, whether of Turkish or other race, have absolutely no voice in the affairs of the nation. Armenia, east of Anatolia, extending to the region of the Caucasus and the Persian border, is the site of the ancient Kingdom of Armenia. The population is not wholly Armenian; in fact, even before the war the majority of the people were Turks and Kurds—but here the bulk of the Armenian race was found.

"It is a rugged land, a succession of mountains and valleys, where the people have had to contend with nature for the establishment and maintenance of their homes; but, like all highland countries, it has been the means of producing a religious, freedom-loving people. They were the first nation to embrace Christianity when, in the latter half of the third century, their king, Tiridates, accepted the new faith, and most of the nation followed him. Throughout all the succeeding centuries they have remained steadfast against wave after wave of persecution, until this last storm of hate and fanaticism has swept the greater part from their homes and has destroyed at least a million—two-thirds of the entire people.

"Kurdistan, a hill country north of the Tigris river, is the home of a brave, virile, largely illiterate series of tribes and clans known as the Kurds. They are the descendants of the Gerdush, who gave Xenophon and his ten thousand so much difficulty on their march across these same hills on their way to the sea. Somewhat they are Moslem in religion, but they have retained many elements of heathen worship. Some of their tribes are 'Veddi' or devil worshippers. They are home-loving, frugal and capable of enduring great hardships. They practice strict monogamy and their women occupy an equal place with their men in the family life.

"The Kurds have furnished at least one great man to history, for Saladin, the chivalrous leader of the Saracen hosts, the compeer of Richard Coeur de Lion, was from this people. "Mesopotamia, Upper and Lower Mesopotamia, is the name given to being the home of ancient civilization. It comprises the valleys of the Tigris and Euphrates rivers. Here flourished the Chaldean, Babylonian and Assyrian empires. The city of Bagdad, with all its glamour of mystery and magic, is in the heart of Mesopotamia.

"This was the richest land in the world; the granary of the ancients; yet, in spite of all that it has been, it today lies largely waste, the desert sands have encroached upon the fertile fields, while the clogged canals have turned other portions into swamps and marshes.

"What population there is—not more than one million—is of Arab origin and the Arabic language is spoken throughout. There is, in fact, a very distinct dividing line between the Arabic and the Turkish-speaking portions of the Ottoman Empire. This boundary corresponds with the line of the Bagdad railway from the Mediterranean to the Persian gulf. It is for the exploitation of this rich land of Mesopotamia that the famous Bagdad line was built.

"Syria, the region extending from the Taurus mountains to Egypt and from the desert to the Great Sea, needs no identification. It is the land of the patriarchs and prophets and apostles—the 'Holy Land'—its population numbers about three and a half million of Semitic origin, speaking the Arabic language, and yet with so many races intermingled through the centuries of the various conquests and occupations that the people cannot claim any one race as their own. Greek, Roman and European Crusader have all blended with the ancient Semitic stock to produce the Syrians of today, whom Lord Cromer, in his Memoirs, termed 'the cream of the East.'

### ALASKA IS CONSTRUCTING AN AGRICULTURAL COLLEGE

By Associated Press. FAIRBANKS, ALASKA, Nov. 23.—The new Alaska Agricultural College and School of Mines under construction here about 100 miles from the Arctic Circle, is believed to be farther north than any other institution of higher learning in the world. It will train its graduates to help develop Alaska along its two main lines, agriculture and mining. Authorities assert this northern soil holds big things in both food and metals.

Both United States government and Alaska territorial funds are being used by the college. Congress, in 1915, designated a site for the school and set aside agricultural and mining lands in the Tanana Valley for the support of the institution. Last year the Alaska Territorial Legislature voted \$50,000 for the construction and purchase of equipment. An annual course of instruction will be given.

expected appropriation of \$50,000 is expected to help maintain the school. The Fairbanks United States Government Agricultural station, now located on the college site, will become part of the new institution and will continue to draw its revenue for support from the federal government.

"The college cornerstone was laid July 1917. The site is high on a hill overlooking the city of Fairbanks, the Tanana river and the railroad. The United States government is building between Seward and Fairbanks. The concrete walls are completed and work will continue as long as the weather permits.

### GREAT WHITE CROSS SEEN IN CLEAR SKY

By Associated Press. DUBLIN, Nov. 23.—Over the sea where the Dublin mail boat Leinster was sunk by a German torpedo in the Irish channel, Oct. 10 with the loss of about 400 lives, a great white cross was seen in a clear sky by residents of Dublin, coast they aver.

Canon Pim, rector of Christ Church, Kingston, sent the following statement to the Irish Times: "On Saturday afternoon last there was a bank of cloud on the horizon and against a clear sky above it there appeared for some moments the form of a great white cross of absolutely perfect shape. It was seen by at least four members of my own household as well as by other people. "One of the witnesses described it to me that it had seemed to him first as if there were a great cloud figure with outstretched arms which assumed the form of a cross, and as the sharpness of its outline passed it seemed to be full of the faces of men and women. It was just as it were, ever the place where the disaster of the Leinster happened.

"One presumes to offer no explanation, but it was certainly there and at least it was a symbol of surpassing comfort."

### TROOPS LEAVE BERLIN IN EASTERLY DIRECTION

By Associated Press. PARIS, Tuesday, Nov. 19. A dispatch to the Times from Berlin says German troops are leaving Berlin in an easterly direction which is believed to have a bearing on the unrest in Poland.

Berlin disquieted at disorders in Posen, Silesia, and east and west Prussia, says the Times, where counterattacks consisting exclusively of Poles have been formed to the exclusion of Germans. They have taken the power into their hands, preparatory to the reunion of these territories with ancient Poland. A number of meetings have taken place at which the Poles voted against Prussia and for a unified Poland, and manifested sympathy with the Allies and President Wilson.

### COMPLETE OPERATION IS NEARING ACHIEVEMENT

By Associated Press. PARIS, Nov. 23.—The war office announcement tonight on the operation of the army of occupation says: "The complete occupation of Liber-

ated territories in Alsace and Lorraine is in process of achievement. During the course of the day our troops installed themselves in numerous towns and villages in the Sarre Valley, notably in Dillingen, Sarrebruck and Sarrelouis, where the general commanding the first army entered at the head of his troops.

In Alsace French advanced guards reached the frontier and took possession of Woertz, Froeschwiller, Reichenstein, as well as Soultz and Blachwiller. Everywhere the French troops were enthusiastically welcomed by the delivered populations.

### HUNDRED THOUSAND GERMANS PASSING FRANKFORT DAILY

By Associated Press. AMSTERDAM, Nov. 23.—The Frankfort Herald, a copy of which has been received here, publishes advice from Frankfort to the effect that 100,000 German soldiers, mainly from lines of communication, are passing through Frankfort daily.

The advice says further that trains are running regularly; accidents have been reduced to a minimum; the provisioning system is better than under the old regime and crops are assured for weeks ahead; the excitement attending the revolution has been quieted and that there is not the slightest lack of discipline.

### PROVISIONAL GOVERNMENT ELIMINATES BOLSHEVIKI

By Associated Press. ARCHANGEL, Nov. 23.—The Provisional Government of the Region of the North has abolished the degree of the Bolsheviki regime which separated church and state, and final disposition of the question has been left until an All-Russian legislative power has been established.

Meanwhile the expenses of maintaining churches and other religious institutions will be paid by the various religious corporations. The government has abolished the Murman regional soviet and re-established the zemstvo. W. W. Ermoloff has been appointed assistant governor general to administer the districts of Kem and Alexandrovsk.

### EDITOR TAKES TRIP ON THE WICHITA SOUTHERN

The following interesting description of the recently inaugurated service on the Wichita Southern is from the Archer County News:  
 "Effective Monday the Wichita Southern took off their passenger train, and at present, and for how long in the future we know not, they

have looked the passenger coach on the hind end of the freight and serving us with what they choose to call an accommodation train.  
 "The train leaves Wichita Falls at 4:40 p. m. or in as many hours from that time as they feel the spirit calls on them to start. There, on Monday, they ambled along peacefully for about an hour or until they arrived at Lake Wichita, where a big asylum is being built. Here they stopped, and did a lot of watching, the brakemen casually inspected the progress of the work on the asylum, the conductor examined the duck prospects on Lake Wichita, they each twisted the tail of a cigarette, all aboard was finally heard, and the train jolted forward to its next stopping place, which was section house No. 1. The foreman's wife had a shipment of a paper bag of beans and an Irish paddy, a plug of tobacco. These were delivered and the next stopping place was Hoff Brown Evans had sent for 4 pounds of rice. Our next stop was Lake Wichita, where possibly an hour's switching was done. There we rattled to section house No. 2, couldn't find the foreman, and finally located him out on the line this side the river and stopped again to find out if he thought fishermen were subject to fine at

locks. To sum it all up in a nut shell, we finally made the 25 miles from Wichita to Archer in about 4 hours. This was apparently a record run, however, as the speed since has been noticeably slowed down to the point we got yesterday's mail this morning and the postmaster and public are alike not satisfied.

and body. He faces not merely physical, which go to make a popular William Farnum play. The hero is a red blooded westerner, strong of mind and body, but those insidious temptations which tend to make even a strong man weak—the lure of wealth, the love of woman and the spur of jealousy—that sometimes brings out a red or yellow streak in one whom everybody believes to be "true blue."

How the hero conquers all complications and resists temptations until he reaps a just reward in the end, makes one of the very best pictures William Fox has ever produced or William Farnum has played protagonist in.

SPLENDID PROGRESS IS MADE BY COMMITTEE IN CHARGE OF PRELIMINARIES.

## MEETING AT ELK'S CLUB

Proposition Presented by Frank Keil and Generally Approved.

Tentative subscriptions of \$150,000 towards the \$400,000 of hotel bonds which Wichita Falls is expected to take in order to accept the proposal of John T. M. Johnston to build a \$600,000 hotel on the corner of Eighth and Scott, had been taken on Saturday, following a meeting of business men, held Friday night at the Elk's Club, where the hotel proposition was thoroughly explained by Frank Keil, the chairman of the hotel committee. The entire amount of bonds will necessarily be taken within a short time. Mr. Keil stated Saturday, as his proposition must be accepted immediately or turned down, as Mr. Johnston cannot be expected to keep his offer standing for any great length of time. The canvassing committee will commence work immediately and the entire amount of \$400,000 will doubtless be subscribed in a few days, once the committee gets to work.

Meeting at Elk's Club. Friday night's meeting at the Elk's Club was attended by about 75 of the leading business men of the city and a very enthusiastic spirit was manifested, in regard to the hotel proposition, and to all building in general in the city. A number of men made talks expressing approval of the contract, as drawn up by Mr. Keil, C. W. Heid, R. E. Huff, W. S. Curlee, T. B. Noble and W. R. Ferguson, the hotel committee. Mr. Keil took the contract which had been drawn up by the committee, which is materially changed from the first contract submitted, and previously printed in the Times, and explained it in detail, answering all questions that were presented and bringing out clearly every detail.

Pleased With Contract. "It is a very good contract, in my opinion," said Mr. Keil, "and I am sure that no better proposition could be offered. It will have to be accepted and money raised immediately if we wish to take advantage of this opportunity to have a big hotel that this city really needs, as Mr. Johnston can not keep his proposition open for any unreasonable length of time while we are making up our minds. Whatever is to be done must be done quickly."

The new contract, and the one under which the bonds will be subscribed, as presented Friday night by Mr. Keil, follows in detail:

### THE RETURN.

Sorry and sad of heart  
I sent my boy away;  
Fighting to be his part,  
Mine to stay home and pray.

After long weary time,  
Lonely as time might be,  
Back from that foreign clime,  
Back came my boy to me.

Maimed? Crippled? No, not he;  
Yet could I note a lack,  
One glance, and I could see  
Not all my boy came back.

Gone was his vain conceit,  
Missing his idle ways;  
Missing that air, effete,  
Missing his love of praise.

Gone was his pert address;  
Gone his impetuous haste;  
Gone was his selfishness;  
Gone was his impulse to haste.

Wise from the lesson learned,  
Aged by the fire of pain,  
Rich from experience earned,  
My boy came back—a Man!

**PROPAGANDA TO INFLUENCE TERMS IN PEACE COUNCIL**

WASHINGTON, Nov. 18.—Government agents see evidence that German propaganda machinery in the United States is being put in working order again to promote sentiment of leniency toward Germany in peace terms.

Concerted movement is apparent, officials said today, in utterances of many individuals, a few organizations formerly active for German interests and some newspapers. The interest

of the government agents combating enemy propaganda at this time is not to suppress free expression of opinion, it is explained, but to fight any concerted effort of propagandists whose purpose would be to confound the authorized spokesmen of the nation in the forthcoming peace negotiations.

It is stated that department of justice agencies have ordered the government of some Germans since the armistice was signed a week ago. Official reports show German representatives in various parts of the world still actively engaged in spreading propaganda to create and enhance feeling of hostility toward the United States and the Allied countries.

### The Autumn Welworths are here—and the price is still unchanged

—Here's an announcement of which we are justly proud for it evidences many things about which a real service giving store has a right to feel proud about.

—First, it stresses the point that we will keep prices as low as we can as long as we can.

—Secondly, it proves the benefit to the consumer of our intimate co-operation with worthy manufacturers.

—Thirdly, it exemplifies a Style Service, which brings us the new styles first, the same styles on the same day as they first appear in the recognized style centers of the Country.

These Welworths are still priced at \$2.00. They now and for many months past have represented values that would warrant a much higher price. Before the end of the present year, the price must inevitably be increased to \$2.50.

We are sole distributors for this city of the Welworth and Wirthmor—the Thrift Blouses of an entire Nation.

**STREET CAR AND AN AUTOMOBILE COLLIDE**

A car driven by M. S. Byers was badly smashed, and the front step was torn from a street car in a collision at the corner of Bluff and Thirtieth about noon Saturday. The car was going down Thirtieth toward town and Mr. Byers was driving north on Bluff. According to witnesses, Mr. Byers did not see the street car in time to make the turn down Thirtieth successfully and the automobile and street car met almost head on, the automobile tearing the step of the car away. The street car motor man, seeing the approaching car, had practically come to a stop. The automobile was badly damaged, but Mr. Byers was unhurt.
