NUMBER 194

President Wilson Is Welcomed to London

By Associated Press.
LONDON, Dec. 26.—President and Mrs. Wilson were in Buckingham Palace this afternoon after a journey from Calais to London during which they were accorded all the honors ever given royalty. Never has a royal procession except those of great national occasions excited such interest here as the first state visit of an American President.

The drive of the short procession from the station to the palace was made through streets lined with the guard regiments.

Fresh flags hung overhead and covered the buildings which, windows, balconies, sidewalks and open spaces were filled with people, many of whom wore the American colors.

First among the sovereign's escort of troops from the household cavalry with helmets and steel cuirasses. Then came the carriage with King George and Queen Mary, and Queen Mary, Princess Mary, and the royal family.

Although the trip was a short one, it lay through a most interesting section of London. From Charing Cross the route ran along the north side of Trafalgar Square, with the Nelson monument towering on the left and the national gallery on the right. The gray walls almost covered by huge American and British flags.

The procession drove westward along the north side of Piccadilly, passing a number of clubs and big hotels and palatial residences, notably the home of the Duke of Devonshire and the residence of the Duke of Wellington at the entrance of Hyde Park.

coronations and of Queen Victoria's jubilee in 1897. There was general agreement among Londoners that no visit of a government head had been given such a reception as that accorded the American president.

The progress of the royal and presidential party was in semi-state coaches, each drawn by four dark horses with two postillions in scarlet coats, white breeches and black silk hats and two footmen in long buff overcoats sitting behind. The coaches were escorted by squads of scarlet coated outriders.

At the president, accompanied by King George, emerged from the Charing Cross station the crowds jamming the streets broke into prolonged cheers. Many banners, flags, salutes and dozens of airplanes soared overhead. Bells and chimes all over the city pealed a welcome.

The president was welcomed throughout the drive to acknowledge the cheers.

The scene inside the Charing Cross station was not less cordial. The reception party included King George, Queen Mary, Princess Mary, Premier Lloyd George and all the members of the cabinet, the heads of the army and navy, members of the dominions, a representative of India and other officials. There was a guard of honor from the Scots guards while the band of the Grenadier Guards played the Star Spangled Banner.

The King and Queen and Princess Mary greeted President Wilson with cordiality and they evidently were impressed most favorably with the general reception to him. President Wilson, accompanied by King George and the Duke of Connaught, inspected the guard of honor. Premier Lloyd George and the members of the reception committee were then presented to the president.

The procession drove westward along the north side of Piccadilly, passing a number of clubs and big hotels and palatial residences, notably the home of the Duke of Devonshire and the residence of the Duke of Wellington at the entrance of Hyde Park.

NO CONFIDENCE IN GERMANS

ON the way to the place of surrender the crews of the British vessels were all at action stations, with gas masks ready for use in case of need.

REVIEW OF TROOPS IS AN IMPRESSIVE SCENE

By Associated Press.
NEW YORK, Dec. 26.—Crews that waited in vain the challenge of German sea forces through the night in salute to the Secretary of the Navy and to the sovereign citizenship he represents when the tower of the American battle fleet, home from the war, crossed the Statue of Liberty in a review staged in a setting of wind driven clouds and touched the decks and the crew ceased firing.

As the ships dropped anchor later in the lower expanse of the Hudson river, sunbeams came through the clouds and touched the decks and the crew ceased firing.

Ten thousand sailors were hurried ashore in launches after the dreadnaughts had reached the pier. They were led by Secretary Daniels in a motor launch, followed by Admiral Rodman on foot.

Secretary of War Baker and a host of other officials, national, state and municipal, participated in the celebration.

NEUTRAL NATIONS NOT ADMITTED TO THE CONFERENCE

By Associated Press.
PARIS, Dec. 26.—(Havas.)—Allied representatives have decided that neutral nations will not be invited to the peace conference, according to newspapers here. Neutrals may address their claims to belligerents, however, and any demands thus made will be referred to a special body which will be created by the peace conference.

It has been decided, it is reported, that neutrals will be allowed to participate in the deliberations incident to the formation of a league of nations.

ENTHUSIASTIC WELCOME AT DOVER

By Associated Press.
DOVER, ENGLAND, Dec. 26.—The president and his party were met this morning and Dover were a festive appearance with its decorations and its animated throngs ready to welcome the president and his party.

The Duke of Connaught with his suite, accompanied by John W. Davis, the American Ambassador, the Earl of Reading, British Ambassador to the United States, Lord Herschell and the mayor and the corporation of Dover, were on the pier to meet the visitors.

ASKS LEGISLATION TO PROVIDE FOR ARMY RECRUITING

By Associated Press.
WASHINGTON, Dec. 26.—Immediate legislation authorizing resumption of voluntary enlistment in the army and the repeal of provisions of the selective service act limiting enlistments to the period of the war, was urged today by Secretary Baker in a letter to Chairman Dent of the House military committee.

Without this legislation, Secretary Baker said the army after the proclamation of peace would not have sufficient force to perform essential military duties, including the policing of the Mexican border.

SANG FOR FIGHTING SOLDIER BOYS

Miss Amarillo Farrar is a Y. M. C. A. entertainer, who went across to sing to the soldiers in an effort to relieve the monotony of trench life. Now she is back in the United States after a remarkable experience aiding the fighting boys of Uncle Sam, and she is mighty glad to get back to her own country.

CARRANZA GIVEN FURTHER POWERS IN FINANCIAL WAY

By Associated Press. MEXICO CITY, Dec. 25.—Extraordinary powers in financial matters have been extended to President Carranza by the chamber of deputies. This action was taken after the President had sent a message to the chamber outlining the necessity for such powers.

Under the new authority granted, President Carranza is expected soon to issue decrees removing until June 30, 1919, import duties on foodstuffs, articles of primary necessity to the country and on agricultural implements and irrigation machinery. It is expected that duties on automobiles will be removed for a period of three months.

Constitutional reforms have been proposed by which the force of several sections of the constitution will be mitigated. These refer principally to sections governing the power of state legislatures to fix the maximum number of clergy participating in religious rights and require that all members of the clergy be native born Mexicans. Clauses dealing with the nationalization of church property will be brought into agreement by another proposed amendment.

Only Six Minutes To Advise England That War Was On

Associated Press Mail Correspondent. LONDON, Nov. 20.—It required only six minutes to inform the British Empire that England was at war on the night of August 4, 1914, says Lord Harcourt, who was then Colonial Secretary.

"On that unforgettable night," he said in the Empire Parliamentary Association, "I was in the Cabinet Room, Downing street, with a few colleagues. Our eyes were on the clock, our thoughts on one subject only; but there was a few effort to direct our conversation to other matters. We were waiting for a reply, which we knew full well would never come, to our ultimatum to Berlin."

"When Big Ben struck 11:30—midnight in Berlin—we left the room knowing that the British Empire was at war."

"I crossed to the Colonial office to send a war telegram to the whole of the British Empire. I asked the official in charge of that duty how long it would take. He said 'about six minutes.'"

"I asked him to return to my room when he had done his work. In seven minutes he was back and before morning I received an acknowledgment of my telegram from every single Colonial Protectorate, and even 'set in the Pacific.'"

"So the grim machinery of war began revolving in perfect order and with perfect preparation because, more than two years previously, an individual warbook had been prepared by the Colonial Committee of Defense for every single Protectorate and island."

AMERICAN GENERAL HEADQUARTERS LOCATED IN LITTLE CITY OF CHAUMONT

Associated Press Mail Correspondent. CHAUMONT, France, Nov. 20.—This little city of the Haute Marne is the home of the General Headquarters of the American Expeditionary Forces. Until now its mention has been taboo and the whereabouts of "G. H. Q." one of the secrets of the war.

Here lives the Commander in Chief and in the buildings of the French rank take their chances on whatever billet may be found in the crowded town where a bed is always at a premium.

General Headquarters were removed from Paris here in September of last year, Chaumont being selected after a careful search of available locations. It lies in the center of what was the American training area, every camp and motor cycle road in which the American forces first saw battle, and all the lines from Toul eastward where we were located, being within reach by motor.

INVESTIGATION TO LOCATE THE BLAME FOR FRISCO WRECK

By Associated Press. CHICKASAW, Okla., Dec. 26.—An investigation having as its object the fixing of the blame for Wednesday's early morning wreck on the Frisco railroad at Norge, Oklahoma, near here in which five persons were killed and twenty-seven injured was begun early today by officials of the road.

Seconding the announced intention of Frisco officials to investigate the accident was the announcement of the probe to be made by the county attorney of Grady County who promised that charges of manslaughter would follow if evidence of negligence was uncovered by either investigation.

Frank Higgins, the flagman upon whom rested the responsibility of flagging the freight train which crashed into the stalled passenger train, is missing, according to railroad officials. Frederick H. Adkins, engineer of the freight, declared emphatically to road officers that no signal was set against his train to warn of the nearness of the passenger coaches.

New Fire Engine Latest Addition To City Apparatus

The new chemical fire engine, which was bought for Wichita Falls some time ago and which was present to the fire department on a Christmas morning, was received by the department yesterday and celebrated merrily with the city officials of the morning.

King received the engine from the city a gift. The engine is a fine specimen of the latest fire fighting apparatus, which makes the department up-to-date in its equipment.

George, who immediately adopted the present engine, said that this afternoon, say Mr. King, cold as it was, and rattle of the engine's audaciousness.

The machine came from the Northern Fire Apparatus Co. of Minneapolis, Minn.

Dodging a Car Automobile Driver Hits Phone Pole

Turning his car in an effort to avoid a collision with a Ford, Walter Smith of this city, drove his seven passenger Studebaker up on the curbing at Ninth and Indiana, and hitting the telephone pole, broke it half in two, the accident occurring Christmas Eve, shortly after six o'clock. The top of the wheel fell down to cross the top of Mr. Smith's car, but the driver escaped it with much force, and he did not damage. The radiator was damaged slightly, the car engine was damaged, and the car, which was driven by Mr. Sunday of Iowa Park, suffered some broken spokes in one of the rear wheels, where Mr. Smith's car struck it. Mr. Smith was alone in his car at the time the accident occurred, and neither he nor the occupants of the Ford were injured in any way.

In Case of Fire Grab Your Phone Say 'Fire Station'

"When turning in a fire alarm over the telephone it is only necessary to say 'Fire Station' to central who will call your ring. Don't look for the number and waste time that way, just key the phone and tell central you want a fire alarm."

The fire department is giving this advice to all persons who are turning in fire alarms. It is turned in every time an alarm is given, and there is some delay in getting the numbers of the part of the person turning in the alarm. All that is necessary is to say "Fire station."

SUMMING UP THE EVIDENCE. Many Wichita Falls People Have Been Called As Witnesses.

Week after week has been published the testimony of Wichita Falls people—kidney sufferers—backache victims—who have entered many forms of kidney, bladder or urinary disorders. These witnesses have used Doan's Kidney Pills. All have given their enthusiastic approval. It is the same everywhere. 20,000 American men and women are publicly recommending Doan's always in the home—don't it a wonderful, convincing proof? If you are a sufferer, your verdict must be "Try Doan's first."

Here's one more Wichita Falls case. G. A. Swope, carpenter, 612 Burnett St., says: "My kidneys acted irregularly. The kidney secretions continued building up, passed on often and then again, not often enough and were very painful. Doan's Kidney Pills restored my kidneys to a normal condition and the kidney secretions became natural."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Swope had. Foster-McBurn Co., Mfrs., Buffalo, N. Y.

AMUSEMENT

THE CAVALRY

South of the city, the cavalry will be seen at the American Hotel on Friday, "The Cavalry Case," directed by Joseph L. Plunkett and Frank J. Carroll, is the story of Edith Cavell, the British Red Cross nurse, whose name the whole world still remembers.

Although Edith Cavell loved and was loved by George Brooks, she refused to marry him because she believed there was a greater duty in the world. A few years later Edith Cavell was the director of three Belgian hospitals and in process of the Belgian School for Certified Nurses.

On one of her visits back home she again meets the sweetheart of her childhood days, who has since become a doctor. Brooks has returned with his only son, Frank, to prepare for an operation which may restore his eyesight.

The same day that George reaches Belgium and begins his invasion of Belgium, the Red Cross nurse, Edith Cavell, goes back to her post of duty in the hospital.

Later, Brooks is informed that his son is in the hands of the Germans, and he tries to escape. She is in the hands of the Germans, and she tries to escape. They would have shot her on October 12th if they had not shot the wall and shot her.

Warning Issued; Tax Must Be Paid On Service Cars

Mr. Pope gives the warning that there is a heavy penalty attached to failure to make a report on those vehicles and pay the taxes, and all owners of taxis or freight motor trucks who have not made such a report are asked to get in touch with Mr. Pope. The tax is on the value of the vehicle and is payable immediately. Mr. Pope should be addressed at 404 1/2 St. P. O. Box 100, Division Deputy Collector.

Man Arrested For Alleged Attempt To Rob Mike Revine

Ex-Gault was placed under arrest this morning by deputy sheriffs Terry and Lanier on a complaint charging highway robbery. Gault is alleged to have attempted to hold up Mike Revine, a seven-year-old merchant, on Tuesday night. Revine and his little son, Tab, were on their way home in the Crescent Lake addition, when two men accosted them. Revine was struck on the head and knocked to the ground but his cries and the cries of his little boy caused the robbers to run before they had time to get Revine's sack of city which he carried in an inner pocket.

"The Caillaux Case"

"The Caillaux Case" William Fox Production

THE SENSATION OF TWO INTIMENTS

Some picture plays appeal to women, others to men. This one will fascinate both. No production ever filmed can surpass the impressiveness of the maddest French movie, clamoring for vengeance on the woman acquitted, it is claimed, through the crooked political influence of her husband and the sinister power of a notorious secret order of which he was the high priest.

Then there are the thrilling, scheming love scenes; the murder scene that astounded the world; the scene in which Calmette, at a great public reception, charges Caillaux with theft; the sensational court scenes; the fearful scenes in prison in which evil conscience and the weird and uncanny scenes in which the nefarious activities of the Order of the Grande Orient are exposed in this picture for the first time. But the grand climax comes when the United States Department of Justice unearths, among papers of the German embassy, the proof of treason which sends Bolo Paha before a firing squad and Joseph Caillaux to a prison cell.

Preparing for Next Year

The year of nineteen hundred and nineteen looks big for Wichita Falls. Great things are planned for the upbuilding of our city. It is necessary that all lines of business get themselves ready to take care of the increase in population. Accordingly we are making plans to help in the development and have put in

The Best Equipped Electric-Wiring Business in North Texas

This department has just been added to our rapidly growing business as a result of the demand for high class dependable work. It is under the supervision of Mr. John Oechsner, who has resided in Wichita Falls for years, and we can guarantee every piece of work that we do.

We are especially prepared to take care of large refineries, mills and industrial plants. Our stock of motors will be complete and we can handle any kind of repair job you have, large or small. If you are contemplating building a home, we'll be glad to furnish the electrical equipment and are prepared to do so, from wiring the house and installing the fixtures down to the electric percolator you'll want in the dining room.

OIL DEVELOPMENT Market Report

Stockholders of Weowna Company Meet January 14

The Weowna Oil Company has issued a call for the annual stockholders meeting to be held on January 14, 1919, at Muskogee, Okla., at the Severs Hotel. Officers of the company state that they will have a splendid report to make to the stockholders at this meeting, that the stock of the company has more than doubled in valuation and that some of their properties have developed to be very valuable.

This company makes the following report of progress of their well drilling at Burk Burnett, up to the middle of this week:

Well No. 1 just drilled into sand 19 or 22 inches. Have a splendid showing of gas and oil.

Well No. 2 derrick material on ground and contractor building rig today. Should be drilling by Monday morning of next week. Well No. 3 casing set and cemented, standard rig being constructed. Will start drilling in within three days.

Well No. 4 hauling out preparatory to drilling into oil sand with cable tools today.

Well No. 5 hauling out preparatory to drilling into oil sand with cable tools today.

Well No. 6 drilling at a depth of 925 feet, should reach sand and set casing by January 1.

Well No. 7 material will be on ground ready for construction of derrick later part of this week. Contract let for drilling to begin within ten days.

Well No. 8 derrick material will be on ground ready for construction later part of this week. Contract let for drilling to begin within 25 days.

SATURDAY POST HAS OIL FIELD ARTICLE

This week's Saturday Evening Post contains an article by A. W. Atwood, well known writer on the Texas oil fields, the article being headed "Bibb Jones' End." The opening illustration is a picture of Burk Burnett, looking east from the depot up the main street of the town, with more than thirty derricks showing as a background to the business section of the town. However, Burk Burnett is not given credit for the picture, neither are the extensive developments in this section given more than a cursory notice, the greater part of the article being devoted to the Hanger discovery. However, it is understood that Mr. Atwood made his visit to Texas at least two months ago, when Burk Burnett was just opening up.

AFTER SICKNESS THEY GAVE HER VINOL

And She Soon Got Back Her Strength

New Castle, Ind.—"The measles left me run down, no appetite, could not rest at night, and I took a severe cold which settled on my lungs, so I was unable to keep about my household work. My doctor advised me to take Vinol, and six bottles restored my health so I do all my household work, including washing. Vinol is the best medicine I ever used."—Alice Record, 437 So. 11th St., New Castle, Ind.

"Folks Talked About"

B. B. Jones

A FEW years ago B. B. Jones was probably one of the best known men in the mid-continent fields, however, he was not raised up to the name. He put in many a long year as a railroad man. In 1884 he entered the employ of the Illinois Central railroad as a telegraph operator. He was with them for nineteen years, working himself up through the various departments to the position of trainmaster with offices at McComb, Miss., which he resigned in 1903. He removed to Bristol, Okla., where he was employed for a short time in a bank before beginning to deal in leases in a small way. In 1910 he leased several thousand acres in what is now known as the Cushing field. The following year he and T. B. Slick drilled the first well there, but on account of so market they pulled the pipe and plugged it. Then he, C. J. Wrightman and Slick used the casing to drill another test which produced fifty barrels and also 20,000,000 feet of gas. At the same time he gave C. B. Shaffer 1,000 acres to drill on, which he did, and got a 400-barrel well. The following year he, Shaffer and Slick drilled the fourth well there which made 480 barrels. These four wells were the making of the Cushing field, which produced through 1914 and 1915 an average of 300,000 barrels daily of very high grade oil. It was through his purchase of 40,000 acres near Blackwell that that famous field was opened. Mr. Jones has retired from active business life and has removed to Washington, D. C. All of his oil interests are handled through the Beaumont Oil Company. He is also president of the O'Mally-Bere-Vaize Company of Chicago, director of the Traders National Bank of Kansas City and the State National Bank of Oklahoma City.

BISHOP-EVANS WELL ESTIMATED 600 TO 700

The Bishop-Evans Oil Company is getting ready to standardize their well on Block 19, Burk Burnett townsite, and expects to have the well swabbing steadily with the standard rig. The well's production is estimated around 600 or 700 barrels. The officials of the company announce that they will drill their second well in a short time, having already made location.

Producers of Oil Predict a Greatly Increased Demand

DALLAS, TEX., Dec. 26.—Big oil producers of the southwest predict that peace will bring increased production and increased consumption of fuel oil, lubricating oil and kerosene.

They declare that to meet specifications for high grade fuel oil for refinery purposes it was necessary to refine much crude oil under wasteful conditions, which will not obtain in the future.

Increased consumption, producers say, will result from neutral markets replenishing their stocks from more general use of motor cars in European countries that have been at war, and from the use in Great Britain, France, and Italy of thousands of motor lorries, now in the war zone, as auxiliary systems of overworked railroads.

But this increased demand will be more than offset by increased production, officers of the large Texas companies declare. Production in the North Texas field now is 62,000 barrels a day, the Gulf field is producing 63,000 barrels, the Oklahoma fields, outside of Cushing and Healdton, 142,000, the Cushing, 14,500 and the Healdton, 42,500. The Texas figures show an increase over figures for the quarter ending September 30, which gave the total production as 9,244,814 barrels, valued at \$18,921,249. This was an increase of more than a million barrels over the June quarter and two million over the March quarter.

Experts here say the Mexican fields alone have a potential production of 1,000,000,000 barrels a day.

Producers predict that with the extension of the oil fields, oil stations will be established at ports throughout the world and permit of further adoption by ships of oil burning power systems.

Cotton Market

By Associated Press.

NEW YORK, Dec. 26.—The cotton market showed firmness at the opening today. Traders evidently found nothing in the news over Christmas to cause any change in the bullish views responsible for earlier week advances and after opening into points lower on July, but generally six to 16 points higher the market was firm and active. The selling of July seemed to come chiefly from houses with Liverpool connections. Otherwise there was little pressure with scattered realizing sales readily absorbed by demand from commission houses and spot interests. Cotton sellers were replacing their cotton January sold up to 30.10; March to 29.65 and May to 28.20 before the end of the first hour, making net advances of 48 to 57 points.

Realizing which was encountered around 30.30 for January and 29.10 for March, or about 34 to 44 points from the best that there also was some selling on the setback but private advices claimed spot holders were awaiting the highest basis of the season and the market firmed up again late in the morning with January selling around 29.93 and March 28.88, or 19 to 45 points net higher on covering, trade and commission buying.

Trading was less active during the early afternoon and prices held around 28.90 for March, or about 42 points net higher.

Cotton closed barely steady.

New Orleans Cotton.

NEW ORLEANS, Dec. 26.—A good trading day for the cotton market today and prices were lifted 24 to 47 points in the first half hour of business. Buying was induced by bullish sentiment regarding the situation in the spot department.

The absence of any January notices on this, the first notice day for that month, increased the inquiry in the trading up to noon the advance widened to 65 to 82 points.

Realizing operations on the long side caused a reaction. At one o'clock selling north were at a net advance of 30 to 47 points.

Cotton closed steady four points off to one point up net.

Grain Market

By Associated Press.

CHICAGO, Dec. 26.—Seasonable weather likely to enlarge the crop movement and to promote the welfare of winter wheat brought about a moderate downturn today in the price of corn. Opening prices, which ranged from the same as Tuesday's finish to 1/2c lower with January \$1.39 1/2 to \$1.39 3/4, and May \$1.35 to \$1.35 1/2, were followed by setbacks all around.

Oats weakened with corn after opening 1/2c off to 3/4c advance. The market underwent a material gain. Later the meagerness of receipts led to buying later. Prices closed strong 3/4c to 2c net higher with January \$1.41 1/2 to \$1.42 and May \$1.36 1/2 to \$1.36 3/4.

Depression continued throughout the day.

Provisions were dull and heavy.

Reading Matter Much In Demand At Army Camps

Associated Press Mail Correspondent. PARIS, Nov.—With more reading time on their hands than ever before now that the fighting has stopped...

What the soldiers like best in the way of reading is reported back to Mr. Stevenson through the Y. M. C. A., the Red Cross and the other organizations among which the books of the American Library Association are distributed...

Need immediately 1,000 each elementary, advanced arithmetics, geometries, trigonometries, chemistry books, physics, agriculture, stock breeding, forestry, business methods, accounting, commerce, banking, law, architecture. Two hundred each book-keeping, poultry raising. Request pouring in show tremendous demand for technical, educational books...

Fiction continues to be read by the army, in spite of its more serious trend of mind, at the rate of hundreds of thousands of volumes a month, Mr. Stevenson said. Kipling and Service are still the favorite poets of the American soldiers. Among the requests that came in during the past week were two for ordinary primers or A B C books, from American born men who are finding their first opportunity to study their own language in a foreign country...

The American Library Association is so well organized in France that any soldier who makes a request for a particular book from any camp is apt to find it in his hands almost more quickly than he would be able to procure it in the United States. The association beat its own records the other day, however, when two boxes of books were delivered by airplane to aviation camps.

More Evidence of German Intrigue In South America

Associated Press Mail Correspondent. BUENOS AIRES, Nov. 25.—German efforts to encourage the much discussed Latin-American Union between Spain and the Spanish speaking republics of Central and South America as a weapon against Pan Americanism...

The Argentine newspapers and weekly magazines carried special articles pointing out the advantage of a union that would make the Spanish speaking nations independent of all others. Several of these were signed by men who are known for their pro-German sympathies. It was also noticeable that the articles appearing in the purely German newspapers were even more insistent in supporting such a union than the Argentine papers.

Propose Union With Spain. This union with Spain was proposed first from Spanish sources nearly two years ago and it was suspected then, from its antipathy to Pan-Americanism, that German schemes were behind the move. The proposal has been kept alive in this country ever since by pro-Germans and Spaniards who have made no attempt to hide the fact that their efforts are directed against the United States.

The principal argument is that South America must be protected from American imperialism. Spain is pointed to as the great mother country that can supply all the needs and at the same time the sympathetic understanding that comes from a common language and common religion. The Spanish clergy is aiding the propagandists in their campaign.

Friendship Based on Gain. One of the articles published to day stated that the war had brought about new forms of international friendship and that this friendship in the future will be based on mutual gain and advantages.

CHRISTMAS QUIET BUT SEEMINGLY A HAPPY OCCASION

Overseas mail arriving in the morning from boys in France, who last year were in the family circle, and who would be back long before the next Christmas season rolled around, made Christmas a happy time for many families in Wichita Falls, while still others had the even greater happiness of welcoming members of their family back from training camps and from overseas. The day passed quietly, having been preceded by the usual church and Sunday school entertainments on Christmas Eve, and the usual religious services were held.

Charity, through its agent, the Salvation Army, saw that those who were unfortunate did not suffer during the Christmas season, and it was the pleasure of the churches and individuals as well, to participate in the giving to the poor of the city.

That class who celebrate Christmas by getting drunk had to dispense with celebrations this year, for the police court records are to be believed, for only one drunk was arrested during the past 48 hours. There was only one fight recorded, so Christmas was a total failure, as far as police court patronage was concerned.

Merchants report a record breaking business during the Christmas holidays, especially among the more expensive gifts, and those were many whose Christmas stockings were filled by Santa Clauses made rich through royalties and dividends, and the gifts were elaborate in proportion to the stockings, rich furs and new automobiles being favored by many.

PICTORIZATION OF "CAILLAUX CASE" HERE TODAY

"The Caillaux Case," the sensational William Fox photodrama, which appears at the Empress theater today for the first showings of its two day engagement, is not fiction, but fact. It is all the more fascinating because the stirring events recorded are a part of history and the persons involved are well known to readers of the daily press.

The killing of Gaston Calmette, editor of the Paris Figaro, by Mme. Calmette, wife of the former French Minister of Finance; her trial and conviction; the notorious financial and financial deals of her husband, Caillaux's connections with Bolo Pasha, recently executed for treasonable relations with Germany, and his imprisonment on alleged evidence of disloyalty furnished by the United States, makes a picture that fairly thrills with dramatic climaxes.

Also the underground activities of the secret Order of the Grand Orient, which attempts to protect Catholics from the law; the maddened Paris mob demanding vengeance on the beautiful slayer of the patriotic editor, Calmette; the intrigues and scandals in the Caillaux' private lives—all are part of the absorbing drama.

FRENCH RULES GOVERN THE USE OF LIQUOR

PARIS, Wednesday, Dec. 25. (Herald)—General Pershing has issued an order to all American commanders to cooperate fully with the French government in measures against excessive use of alcoholic liquors. The French army rules regarding the drinking of spirituous liquors and the opening of liquor shops to soldiers, he says, will be observed strictly by the American forces.

PRESIDENT WILSON ARRIVES IN LONDON

(Continued from page 1.)

while the battleships which joined the shore batteries in firing the salute were gaily dressed in bunting. The crews manning the battleships cheered as her President's vessel passed into the harbor.

The steamer Brighton on which the President crossed the channel, arrived at Dover just about midday. She was met at Calais by Sir Charles Cust, the king's equerry, and Vice Admiral Sir Roger Keyes, who accompanied the party to Dover. Four French destroyers escorted the Brighton on mid-channel, where British destroyers and a dozen airplanes took over the duty.

As the Brighton entered the harbor, the salute in honor of the President was fired from Dover Castle. The Brighton's path was along the line of ships of the famous Dover patrol, all of which were flying American flags and their crews lining the banks, which, when the Brighton was sighted had played "God Save the King, now took up the "Star Spangled Banner," each ship's company standing at attention.

The Brighton was flying the President's flag, Admiral Keyes' pennant and the royal ensign. Mrs. Wilson, who was on deck, took the greatest interest in the evolutions of the British destroyers.

The President, who appeared in splendid spirits when he stepped ashore, was immediately greeted by the Duke of Connaught. At the station the mayor and corporation in scarlet robes of office extended a formal welcome.

As President Wilson walked to the train a dozen girls wearing the American colors strewed petals of roses on his path and the train bearing the President left for London the airplanes accompanied it.

Many people gathered along the line of the railway and at stations cheered as the train passed. In reply to the city's address of welcome, President Wilson said: "I have come through many agonies and trials and therefore regard each other in a new light as comrades and associates."

It is therefore, with deep emotion and peculiar gratification that I find myself here afforded the opportunity of match my mind with the minds of those who, with a like intention, are proposing to do the best they can for the cause in the great settlement of the struggle."

INFLUENZA HAS CAUSED CUT FLOWER SHORTAGE

By Associated Press. ST. LOUIS, Mo., Dec. 26.—Influenza has caused a shortage of cut flowers and a big increase in prices here and many other parts of the country, according to local dealers. American beauty roses, which on Oct. 1 sold at \$15 a dozen are now quoted at \$24 and medium roses that sold for 75 cents each are now \$1.50 each. Carnations have advanced from 75 cents a dozen to \$4 and \$5 a dozen.

Orders for flowers have been sent to St. Paul, Chicago and Canada, especially for American beauty roses. The shortage is attributed to the large increase in general orders, which must be filled from a short crop due to curtailment of the fuel supply. The increased crop started since the fuel ban has been lifted will not be ready before February.
