

OIL DEVELOPMENT

PARK POOL NO. 2 NEAR THE MUNGER STRIKES THE SAND

The Consolidated Drilling and Leasing Company's Park Pool No. 2, near the old Munger well, about two and a quarter miles west and a little north of the Watkins well, was drilled into the sand at 673 feet this morning and is showing for a good well. A broken sand was encountered at 672 feet and the real sand a foot deeper. The drill was put three and a half feet into the sand and the hole filled with oil. The new well is in the northeast corner of block 30, Wichita Valley farm lease. The company has a 20 acre lease in this block and 20 acres in block 32. They plan to start drilling on block 32 as soon as the well on block 30 is completed. This well was reported by a few hours after the Vat Oil Company well, more than five miles east.

Like the general trend of the deeper sands the shallow sands, as outlined by wells that have already come in, appear to lie northeast and southwest. The most westerly well at present is the Lone Wolf well in Archer county. The most northeasterly is the well on the N. L. Lowrance farm, east of Iowa Park. These wells with the Vat Oil Co. well and the Park Pool well reported this morning are the present limits of the shallow pool.

Although there are a number of dry holes within this district, these do not necessarily condemn any but a limited acreage. It is certain this territory will see an intensive drilling within the next six months and a development as important as that at Burk Burnett or at Electra would not be surprising.

VAT OIL COMPANY STRIKES SAND IN A NEW TERRITORY

That the shallow field in the Iowa Park district is of wide extent and is likely to add a large volume of production to Wichita county's already large figures is being indicated by new wells that are being drilled. The latest extension to the pool is the well of the Vat Oil & Gas Co., about two and a half miles east of the Watkins well and about six miles south of the Zink. This well was drilled into the sand yesterday at about 700 feet. This morning the hole was filling with oil and the prospects were reported excellent for a good well. The oil is said to be of a very high grade. In drilling this well a shallow sand was passed through between 185 and 190 feet. No test was made of this sand but it was believed it would yield around five barrels daily. The Vat Oil Company was organized by Byers, J. W. Gerard is president; W. F. Curtis, vice president, and J. Milton Erwin, secretary and treasurer. The company has 20 acres out of the northwest corner of block 7 of the Denton county school land survey. It is capitalized at \$28,000.

Hygiene, rest, pure air, sunshine and a well-balanced diet, plus

SCOTT'S EMULSION

to improve the blood-quality, increase body-weight and build up resistance, are important links in the logical treatment of incipient pulmonary affections. To a child or adult with a tendency to weak lungs or tender throat, Scott's brings a wealth of rich tonic-nourishment.

A little of Scott's Emulsion today may do you a world of good tomorrow.

A NERVOUS WRECK

From Three Years' Suffering, Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. C. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous, that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in similar troubles, and 40 years of use has proven that the bottle is right. Begin taking Cardui today.

T. B. HOFFER.

Mr. Hoffer is another of the younger men who are fast coming into executive positions with the large producing companies. He is general superintendent of the northern division of the Humble Oil & Refining Company with offices at Fort Worth. He is a native Texan and a graduate of the Agricultural and Mechanical college. After receiving his B. S. degree, he entered the employ of The Texas company as draftsman in the engineering department at Beaumont and was later at Dallas and Houston, being in general engineering work. In 1910 he became division engineer at Shreveport, where he remained until 1916, when he went with the Producers' Oil company, first as division engineer and later as assistant general superintendent, stationed at Wichita Falls. The following year he became general manager of the Humble Oil & Refining company's Dixie plant at San Antonio, where he remained until the end of last year, when he was made general superintendent of their northern division.

SHOP EMPLOYE DIES AFTER PROTRACTED SLEEP

By Associated Press. PITTSBURG, KANS., March 7.—A. C. Coleman, a Kansas City Southern shop employe, who has been almost continuously asleep for 12 days, died at a hospital here last night.

CAREY WELL IN STEPHENS COUNTY IS MAKING 7,500

Special to The Times. EASTLAND, TEX., Mar. 7.—The W. E. Carey well of the Mid-Kan Oil & Gas Company is making 7,500 barrels after being shot and cleaned out, reports from the field show. This is by far the best in Stephens county and one of the best in the entire field. Before being shot it had been making a light production. The Grose-Close well of the Texas Company, two miles south of Breckenridge, in Stephens county, hit the sand Thursday and is showing for a good well. It made a few flows and now is standing 2,000 feet in oil, the depth being 2,655 feet. This proves a northerly extension of the field for about one and one-half miles. The Brelsford well of the Gulf Production Company in Eastland county is making only 70 barrels after being shot and looks like it is hopeless for a good well. The coming in of the Prairie Oil & Gas Company's B. A. Delaney well in Eastland county, which is good for 150 barrels, has extended the Ranger pool for two miles to the northwest.

Medals Made From Captured Guns For Campaign Workers

WASHINGTON, March 7.—Medals made from captured German guns will

be awarded by the treasury department to all Liberty Loan workers who participate actively in the coming Victory Liberty Loan campaign.

The medal was described as about the size of a half dollar. On one side will be a reproduction of the treasury building and the words "Victory

Liberty Loan." The other face will bear a certificate of participation in loan campaigns with a blank space for engraving the name of the recipient. The treasury officials said the medals were now being made from German cannon captured by the Americans at Chateau Thierry.

LINZ BROS.

DALLAS

WANT REVISION IN FREIGHT RATE FROM OKLAHOMA

In connection with the recent action of the county commissioners' court in supporting a new bond issue for the construction of permanent highways, a campaign now has been started to induce federal railroad officials to apply the Texas intrastate freight rate to shipments between Oklahoma and Wichita county points. Unless some such rate is applied, it is generally believed, the problem of obtaining road-building materials will become one of unusual gravity.

At the present time material is not available for road construction work in this county, although it can be obtained at various points over the Oklahoma line. The Oklahoma intrastate freight rate, however, makes the cost almost prohibitive, and a new rate will have to be reached if sand, gravel and crushed rock is to be made commercially available to this county.

Some time ago Judge R. E. Huff urged the adoption of a freight scale that would be of greater benefit to shippers here and Oklahoma points. The matter is now being agitated again, and the county commissioners' court has been asked to make a request of F. F. Garvin, general freight agent of the M. K. & T. railroad for the application of the intrastate scale. Other counties in Texas that also are planning extensive road-building campaigns have been asked to make similar requests of railroad officials.

ARGUMENT OVER STRIKE RESULTS IN AN ENCOUNTER

Gentle conversational echoes concerning a gladiatorial encounter Thursday afternoon between Leonard L. Albritton, general manager of the Wichita Traction company, and Dale Church, a striking motorman, marked a few bright spots today in the dull and even ignominy of the street railway strike. The strike situation itself remains unchanged; the cars are still in the barns; the strikers are sticking to their demands; the officials of the traction company are standing pat on their original decision, and the bus line instituted by the carmen is operating on regular schedule.

Church this morning paid a fine of \$5 in police court for disturbing the peace, while Albritton has been held in bond of \$1,000 for a preliminary hearing Friday before Justice of Peace Arrington on a charge of "maiming."

The trouble between the two men started late Thursday afternoon in front of the Wichita State bank. From ordinary conversational comment on the weather and the crop situation, an argument on the strike ultimately was reached—and a short time afterward both men were in the office of Dr. R. Q. Smith in the Kemp & Kell building undergoing repairs. Those who witnessed the fist session declare that it boasted real action while it lasted, and those who later saw both Church and Albritton, bound, taped and gaudied, readily understood that two regular-sized men had gone into action in earnest.

The bus lines put into operation Thursday noon by the street car men are being well patronized.

The situation with reference to the men laid off last Saturday by the Wichita Mill & Elevator company is still the same. No action has been taken by the flour packers, and no promises are being made by their former employers. Mayor Marlow was unable to interest himself deeply in the matter Thursday, as a slight illness confined him to his home the greater part of the day.

At The Theatres

CHARM OF THE MUSIC ALONE ASSURED SUCCESS

The charm of the music alone insured success for Arthur Hammerstein's new play of love, life and youth, entitled "You're in Love," which comes to the Wichita theater tonight, Saturday matinee and Saturday night, but it has other elements of popular appeal—a story that is removed from the conventional, an interpretation cast of vocal excellence and scenery and costumes of unusual beauty.

It was written by Otto Harbach, assisted by Edward Clark, and Rudolf Friml, the popular authors of "The Firefly," "High Jinks" and "Kalinka." The comedy honors are divided between Mr. Oscar L. Figman and Miss Alice Johnson in their effective roles of the aunt and the long-lost husband. Mr. Figman's songs, "Snatched from the Cradle" and "Boola Boo" are both numbers that win tremendous applause. Miss Johnson's song, "Keep of the Grass," is one of the comic hits of the play. There is genuine wit in the lyric and the musical accompaniment is no less humorous. Mr. Ben Wells and Mr. Easton Young are effective as the young husbands, one, supremely happy and the other hoping to be. Mr. W. H. White makes a firm judge who draws up the heartless marriage contract. Others in the cast include Miss Elinor McCune, Miss Virginia Watson, Messrs. Maxson and Brown, together with a large chorus of very attractive young women who can sing with spirit and dance artistically.

Market Report

Cotton Market

By Associated Press.
NEW YORK, March 7.—The ruling by the board of markets that all outstanding interest in old style contracts must be liquidated by May 1 caused an extremely active and excited opening in the cotton market here this morning. There was a rush by both longs and shorts in old style months to close out their accounts or transfer them into new style deliveries and fluctuations were extremely irregular although the net changes were not sensational, as orders were pretty well divided. The opening was irregular at an advance of 40 to a decline of 20 on old style while new style deliveries were 28 points higher to 30 points lower. A few old style deliveries ruled about five to 15 points net higher and new style months about unchanged to 40 points higher with the premium of some 35 to 60 points over the old style deliveries. Old style May held around 21.40 compared with 22.00 for the new style months.

Trading continued active late in the morning and the attention of the traders still seemed to be monopolized by the effort to even up old style contracts or switch into new style months. In a general way, however, the tone of the market was steady on reports of smaller southern spot offerings and a better tone in the goods trade with old style contracts ruling about seven to 20 points and the new style 10 to 30 points net higher around midday. New style May sold around 22.20 and old style 21.60, or 60 points apart.

No fresh feature of importance developed during the early afternoon but there was continued evening up transferring from old to new style contracts, old style May sold up to 21.70 and new style to 22.30 with the market ruling 35 to 37 points higher on the old style and 10 to 50 points net higher on new style months. Cotton closed very steady.

New Orleans Cotton

NEW ORLEANS, March 7.—Nervousness and irregularity were shown by cotton in the early trading today, the trade plainly being disturbed by the notice from the bureau of markets that old contract owners would be given only until May 1 to complete liquidation of their holdings. Around the first call old style contract prices were five to 30 points up while the new style were changed to seven points up, compared with yesterday's close. From this prices fell until old contracts were four to 12 points under yesterday's close and new contracts were 15 to 25 points under.

Fear by shorts that longs might demand cotton for their old contract futures caused a firming up of value. At noon old contracts were five to 35 points over yesterday's close, March showing the widest gain and new contracts were one to 15 over.

The ring became very quiet in the afternoon, prices standing four to 25 points up net on the old contracts at one o'clock and four up on the most active new contracts.

Cotton closed old very steady at a net advance of 15 to 25 points, new very steady at a net advance of 16 to 23 points.

Liverpool Cotton

LIVERPOOL, March 7.—Cotton spot prices steady. Good middling 15.76; middling 15.33; low middling 14.28; good ordinary 12.76; ordinary 12.23. Sales 1,000 bales including 800 500 American.

Receipts 1,000 bales, no American.

Futures closed irregular and unsettled: March 15.44, May 13.25, July 12.8, September 12.55.

Grain Market

By Associated Press.
CHICAGO, March 7.—Prospects of a bullish showing in the government report on farm reserves carried the corn market today sharply higher. Opening prices which ranged from 1/4 to 1/2 higher with May \$1.57 1/2 to \$1.30 1/2, and July \$1.25 1/2 to \$1.25 1/2, were followed by decided further gains.

Oats advanced with corn. After opening 1/4 to 1/2 up, with May \$1.61 to \$1.61, the market scored a moderate additional advance.

In the late dealings prices were helped upward by reports that the harbor workers strike at New York was likely to end tonight. The market closed strong 1/4 to 1/2 net higher with May \$1.24 1/2 to \$1.24 1/2 and July \$1.29 1/2 to \$1.29 1/2.

Big orders for Belgium lifted provisions.

No important setback took place in provisions.

New York Stocks

By Associated Press.
NEW YORK, March 7.—Ralls led the active and strong opening of today's stock market, heavy buying resulting from reports that banking interests are likely to form a syndicate to finance their requirements. The advance was not restricted to that division, however, shipping, equipments, motors, oils, leathers, metals, tobacco, distilling and food shares participating in equal or greater measure. Kelly-Springfield Tire was the sole exception, reacting three points.

Trading slackened during the noon hour when secondary rails, equipments and distilling shares became the chief features of strength. New Haven, Baldwin Locomotive, Harvest, Pullman and Industrial Alcohol showed extreme gains of two to four points and U. S. Steel extended its advance.

Drying of investment rails, industrials and shippings was resumed later, imparting further confidence to the general list. The closing was strong.

Final prices on Liberty bonds: 3 1/2's 98.63; first 4's 94.44; second 4's 93.62; first 4 1/2's 94.72; second 4 1/2's 94.04; third 4 1/2's 95.35; fourth 4 1/2's 94.08.

POSSIBLE THAT HARBOR STRIKE MAY END TODAY

By Associated Press.
NEW YORK, March 7.—Unrestricted acceptance by the Tidewater Boatmen's Union of the offer of the railroad administration for the settlement of the harbor strike was announced today by John Brennan, president of the union, representing 4,000 boatmen. The action of the other six affiliated unions, representing the remaining 12,000 harbor boatmen, had not this afternoon been determined.

OCCUPATION ARMY TO GO ON A CASH BASIS

By Associated Press.
COBLENZ, Thursday, March 6.—All indebtedness contracted by Americans within the occupied territories of Germany will be paid immediately. Authorities to this effect was obtained by the third army today and from this date on the Americans will pay their way as they go. The money to pay for services rendered or for billets in hotels or houses or claims of any other kind in connection with the upkeep of the United States troops so far as the army records are concerned.

Work in chapter tomorrow, beginning at 3 p. m. Lunch served. —C. M. Dodgen, Sec.

STRIKERS TO ABANDON CONCILIATORY ATTITUDE
 By Associated Press.
BUENOS AIRES, Thursday, March 6.—The strike of port workers which has caused a serious tie-up to shipping business here, took another turn tonight when representatives of the port workers approved the action of the maritime federation in deciding no longer to adopt a conciliatory attitude toward the ship owners. The strikers also decided to frame new demands. German owned vessels in Argentine harbors have not been affected by the strike. The ship owners claim that half of the money earned by these vessels goes to the support of the strikers.

BERNE CONFERENCE MAKES A PLEA FOR EFFECTIVE LEAGUE

By Associated Press.
BERNE, March 7.—Plea for an effective league of nations marked the opening of the international conference of league of nations societies here today. Mrs. Philip Snowden, a delegate from Great Britain, delivered an address in which she emphasized the necessity of completing the work of the peace conference at Paris.

"We must have a real and effective league of nations," she said, "not merely the doubtful shadow that has appeared at the Paris conference."

Otto Weber, Swiss councillor, opened the session by characterizing the world situation as consisting of two alternatives, one a league of nations, and the other anarchy.

Ask Farmers To Observe Saturday As Savings Day

Special to The Times.
DALLAS, TEX., Mar. 6.—All patriotic farmers of Texas are being urged to observe Saturday, March 8, as "Farmer's Savings Day." Frank M. Smith, Federal District Director of War Loans is sending out thousands of letters to farmers, asking them on the day they receive the letter to pledge themselves to follow "The Nineteen Savings Resolutions" for 1919 and that they arrange to purchase some War Savings Stamps or Thrift Stamps on that date.

"I know in advance what the answer of the loyal farmers of Texas will be," Mr. Smith said today. "They will answer as they always have, 'We are with our government and our boys and we'll help all we can.'"

Mr. Smith points out that War Savings Stamps are the best and safest investment in the world. They pay 4 per cent interest, compounded quarterly, which makes 1.27 per cent "straight interest." They not only increase constantly in value but if the holder finds himself in financial straits, he may cash them at his post-office on ten days notice.

Postcards Enclosed.
With the letters, Mr. Smith is enclosing postcards, which it is requested the farmer hand back to the mail carriers or place in the mail box on Thursday, checking the number of War Savings Stamps and War Savings Certificates or the number of Thrift Stamps and Thrift Cards they want brought to them by the carrier on Saturday.

"Let's make 1919 a thankful year of thrift," Mr. Smith urges. "Thrift is power. As we save we succeed. Money you lend to our government by purchasing War Savings Stamps accomplishes two great results: First, you lay aside a nest-egg for a rainy day, your money is making money for you. Second, money you lend the government will enable it to carry on and bring home the 2,000,000 Americans who are still in Europe, guarding the Rhine, in French hospitals or marching over the snow clad plains of Russia. We sent them there.

ARTIST WINS MEDAL

Portrait of Miss Gladys Wiles by her father, Irving R. Wiles.

At the close of the most successful exhibition that the National Association of Women Painters and Sculptors ever held in New York the ladies were the recipients of a distinguished honor. Mr. McDougall Hawkes, in his capacity of president of the Museum of French Arts in New York, appeared on the scene, accompanied by a committee, and picked out what he and his associates considered the most meritorious work in the show. The fortunate artist, upon whom a medal was pinned was Miss Gladys Wiles, the accomplished daughter of Irving Wiles, well known academician and portrait painter.

Instructions For Making Request For Army Bonus

Special to The Times.
CAMP TRAVIS, TEX., Mar. 6.—A bonus of sixty dollars will be paid every person, who served in the military or naval forces of the United States during the present war and who has resigned or been discharged under honorable conditions since April 6, 1917. This bonus also applies in the case of reservists who have been placed on inactive duty, or who, at any time thereafter, but not later than the termination of the current enlistment or term of service in the case of enlisted personnel and female nurses, or within one year after the termination of the present war in the case of officers, may resign or be discharged under honorable conditions.

War Department orders to this effect have been received by the Commanding General, Camp Travis, Texas. The order states that all persons separated from active military service after receipt of these instructions who are entitled to the bonus will be credited with and paid the money on their final pay voucher. In the event they have been separated from active service prior to receipt of these instructions, but have not yet received final pay, the disbursing officer making final settlement will include and pay the bonus. In making such settlement the disbursing officer in connection with final settlement will show by indorsement on discharge certificate that such bonus was paid.

To Zone Finance Officer, Lemmon Building, Washington, D. C., who is hereby designated to settle such claims.

Such applications must contain the discharge certificate or order for discharge or relief, if no certificate was issued, both certificate and order if

both were issued, the paper bearing indorsement of final payment being included in the military or naval record; a statement of all military service since April 6, 1917, showing place and date of receiving at first military station, and address to which check is to be sent. When settlement is made all personal papers will be returned to applicant with check. No further correspondence is necessary, except to advise in change of address of applicant. No other disbursing officers are authorized to pay claims covered by this order.

This bonus shall not be paid to any person who though appointed or inducted into the military or naval forces on or prior to November 11, 1918, had not reported for duty at his station on or prior to such date, or to any person who has already received one month's pay under the provisions of the Act authorizing the President to increase temporarily the military establishment of the United States approved May 18, 1917, or to any person who is entitled to retirement pay, or to the heirs or legal representatives of any person entitled

Buy 2 Pair or More—You'll Never Again Get the Opportunity

ODDS & ENDS

If you want a glue that will stick paper to paper, paper or cloth to wood, metal or glass, take a tablespoonful of ordinary cooking gelatin, and dissolve it in two to two and a half tablespoonfuls of boiling water. Boil for a few seconds, and add a little sugar while still hot. It will stick anything without staining. It can be kept indefinitely, and used repeatedly by merely warming slightly.

THE combination garment known as the "Teddy Bear" seems to grow in favor. Perhaps its popularity is due to the fact that even the least accomplished of home seamstresses can make one in a very short time. Get a pattern of the right size and cut from crepe de chine or one of the wash satins, made with a neck V-shaped back and front, and trim with a bit of fine lace. It is an exquisitely dainty garment and costs but a little.

A CUPFUL of hot water will very often relieve a headache when everything else fails. A patient unable to retain food or medicine often finds much relief by placing a hot cloth over the stomach and a cold one at the soles of the feet. The heat draws the blood from the extremities to the stomach and the food is then retained and digested. For a chill, hot soda water is much better than stimulants and induces almost immediate perspiration.

WOMEN who do a great deal of knitting, especially if their work is on small, metal needles, suffer greatly with sore finger tips. Sometimes this is due to a poison which enters the system from a constant contact with the metal, but more often it is simply a tenderness caused by friction. To relieve this soreness, a solution of equal parts of glycerin, alum and benzoin will be found very effective. Equal parts of alum water and alcohol also have soothing and healing properties.

SOMETIMES clocks stop and no amount of coaxing will start them. A simple way to remedy this is to soak a little piece of cotton cloth in coal oil, then open the door of

the clock and place the cloth underneath the works. A little oiling is very often all that they need and this does it effectually. Leave the cloth in the clock until all the oil is absorbed. You may take the works out of small bronze clocks and place them in a cup with a coal oil cloth underneath and leave them over night, or as long as necessary for the delicate mechanism to become oiled. If there is nothing broken in the clock this will start it off.

THE sink which is the right height for all other purposes is usually too low for the ordinary woman when washing dishes. A dishwashing frame adds the necessary height. Take four pieces of narrow, flat wood, lapping the corners with screws so that a rectangle, the proportions of the sink, is formed. The ends of the strip should protrude at the corners enough to fit over the four sides of the sink and yet be placed close enough together to hold the dishpan several inches from the bottom of the sink and at the right height from the worker. A slat placed about half way across enables one to place dishpan and drainer on frame. This is far superior to the ordinary wooden standard for dishpan, as dirt and grease will not collect around it. When not in use can easily be hung at the side or under sink.

GLASS jars are excellent in which to keep kitchen supplies, as one can tell at a glance if the supplies need replenishing. Cooked foods can also be kept in them, covered and put on ice, without fear of their touching other foods in the ice chest. Lettuce, parsley and radishes keep fresher in these jars, which are also excellent for keeping oysters.

FOR mending buttonholes in the neckbands of shirts, stitch pieces of tape flat along each edge of the buttonhole, bringing them together at its ends. The tape on each side should be just wide enough to extend to the edge of the neckband, where it should also be stitched. This new buttonhole will outlast the rest of the shirt.

You Must Beware of the Contagious Cold

MANY people take a cold as a matter of course in winter-time. "Oh, I just have a little cold, feel fine otherwise!" is the report you often hear when you inquire after a friend's health. It is just this state of "little cold" which is a fine breeding ground for diseases of greater danger. And it is also this state of "little cold" that is so contagious in a household. Invariably a cold goes the rounds in a family, each one getting it in turn.

Now, though so many of us do realize the danger of continual colds and of their contagion, we take no preventive measures to sidestep them. Granted it is a difficult thing to keep a cold segregated in a household, it is not utterly impossible. At the first signs of a cold, the person suffering from it should resolve to take all precautions against giving it to others. Stop kissing! The family and friends will easily understand your lack of demonstration when you explain to avoid promiscuous kissing at all times. Women are inclined to kiss too much. Learn to express your joy in a good, firm handclasp. Use two hands if you wish to be very fervent in your greeting.

A person having a cold should not sleep with anyone else. There is always an extra cot, or should be, in every house, where bed-fellows can be separated in times of illness like this.

Utensils, towels, dishes, etc., of those suffering from cold should be carefully guarded from other members of the family. A mother who has a large and rather careless family numbers her towels on the racks. She pastes numbers cut from the dates of a large calendar over the rack, and each member, as is requested to keep his towel under his own number. Another way to get the same result is to number the towels and wash cloths in indelible ink in one corner.

Tumblers, spoons, etc., that the sick person uses should not be left around where others will get them. If the cold is very bad, it is even a good plan to wash the dishes that come from the sick room separately, and scald them with boiling water. Bed linen should be changed before any one else is allowed to sleep in the bed where the one with a cold already has slept. Soiled hand-

The Cough Pillow Passes On Germs - Cover It

Number the Family Towels to Avoid Contagion

Substitute a Hand Clasp for Promiscuous Kissing

A Salt Solution Is a Gentle Antiseptic

kerchiefs should not be thrown in the family laundry bag, but should be kept separately and soaked in some disinfecting solution before washing them.

It is a mistake to let a member of the family with a cold lounge around in an upholstered chair or on the family couch. Cover the chair with a towel, and the couch also, before he uses it, as the upholstery is very likely to hold germs and pass them on to the next member of the family who lies down.

Care should be taken not to cough into books, over newspapers or music. All these things hold germs for the next person who uses them.

And now that we have treated the question of contagion pretty thoroughly; let's see what one should do when the first symptoms of cold are felt, the sore or dry throat, the sniffling nose, the congested head, or the general aches all over. First, take a cathartic. Then mix a hot drink of some sort, take a

very hot bath, get into bed, drink your toddy and snuggle under the blankets. Ten times to one this treatment will have completely vanquished the cold germs by morning, if of course, it has been done in time. There is no use ignoring a cold in the hope that it will miraculously take wing with no help from you. Only an exceptional constitution can throw off a cold like that and sometimes even the strong do it once too often.

With these simple precautions, which are really only commonsense after all, observed, the "family cold" is an absolute nonessential.

Breathe Deep to Avoid a Red Nose

If one's circulation is good, one is not susceptible to cold feet, stiffened hands, red nose and so on. Running eyes are due to various troubles, sometimes it is a catarrhal trouble, often an eye weakness that requires attention from a doctor. Large wind glasses and a veil help, however, to break that shock of cold to the eyes which a bitter wind will bring to even the normal person. It is a very good plan also to clear the nose and throat thoroughly with an antiseptic douche before going out in the cold if there is the slightest inclination to catarrhal trouble.

Chilblains are a result of poor circulation, plus tight shoes. Always be sure that your shoes in winter-time give enough room for the toes to wiggle in comfortably. Don't try to weather a snowstorm without storm overshoes, but also don't fail to take them off when you get indoors, even if it is for a short period of time.

When a chilblain does occur it may be treated in various ways. It can be detected by a severe pain in the joint usually and itching when the foot gets warm. If it is not broken treat it with olive oil, or turpentine, or a mixture of both. When the skin is very sore use zinc ointment, or try the following formula.

Remedy for Chilblains.
Zinc oxide, 60 grains; camphor powder, 30 grains; myrrh powder, 30 grains; opium powder, 30 grains; lard, 1 ounce. Dissolve the camphor in the lard, which

has been melted at a gentle heat; allow this to cool, add other ingredients and mix well.

Before making this application the part should be immersed or bathed in cold water for a few minutes. In drying, it is always better to mop the part, so as to avoid the consequences of violent friction.

Chilblains will come back year after year, especially if shoes are tight and circulation is bad. Try to stave them off by keeping your winter shoes extra large and hardening the feet with frequent cold-water baths. Alcohol rubs help to absorb perspiration and keep them dry, which is another prime requisite against the annoying chilblain.

As you value the condition of your hands and skin generally, don't rush to a severe heat when you enter the house during cold weather. If fingers or ears are nipped, they should never be bathed with hot water or held over heat, but should be given a cold treatment to restore circulation. A piece of ice, snow or ice-cold water will do.

Hands held over the fire when cold will get very red and rough. Try to breathe deep to avoid a red nose, and rub them back to warmth.

same thing holds for cold feet. And now for two of the worst features of cold weather, so far as women are concerned, anyway—chapped lips and hands. The former may be averted by thoroughly coating the lips with a plain white lipstick or cold cream before going out in the cold air.

YOUR EYEBROWS

CONSIDERING what vain creatures women are, it is remarkable how unconscious of themselves they are in many ways. Every woman, to be sure, is aware of her complexion, and perhaps the gloss and color of her hair, for these are quite obvious matters. But it is a strange fact that a great many women are not conscious of their minor good or bad points until these same are brought to their attention by some other person.

In many cases their attention is drawn by hearing some other woman make a chance remark. Somebody, for instance, will make a perfectly casual observation to the effect that she is fond of planning costume effects which play up to her eyes and down to her hair. This remark will set the hearer to thinking and more likely than not, she will set herself to experimenting along the same lines. This will awaken her consciousness to the fact that even though her eyes and hair may be quite nondescript in tone they have possibilities of emphasis which she can not afford to ignore.

In exactly the same way a great many women are unconscious of the fact that they possess eyebrows. Odd, isn't it, when one considers what expressive things eyebrows are or can become?

It would be worse than foolish to recommend that every woman patronize some beauty specialist and have her eyebrows "done" in the prevailing mode. Nothing is so stultifying to the expression of personality and individuality than to conform unquestioningly to fashionable whims. What every woman should do, on the other hand, is study her own type, the shape of her face, the expression of the eyes and her personality as expressed in the way she dresses and does her hair. Then she can proceed to train her eyebrows into the curve which will accentuate these.

The olive-skinned, Japanese type of woman should train her brows to emphasize her tendency toward the Oriental. She should carefully shape them by pulling out all stray hairs into a rather fine line, arching well up off the eye and curving upward on the ends. If her brows are not naturally either dark or heavy, she will find that a nightly massage with vaseline will improve matters.

The woman with too heavy brows which tend to meet across the bridge of her nose, giving her a sullen and lowering expression entirely contrary to her actual disposition has a simple task before her. By giving the matter a few minutes' attention at least once a week, she can keep the disfiguring hairs drawn out from between the brows, thus giving her face a frank and open expression.

THE KITCHEN

BREAD

Original War Bread.
One quart rye flour, a quart white corn flour, two teaspoons salt, six heaping teaspoons baking powder, milk enough to make soft dough. Spread two inches thick in bread pans and bake until when pierced with a straw the straw comes out dry.

Oatmeal Bread.
Sift together one cup flour, one and a half cups corn meal, one teaspoon salt, five teaspoons baking powder, two tablespoons sugar; and one beaten egg and one and a half cups cooked oatmeal, one cup milk and two tablespoons melted butter. Mix well and bake in greased shallow pan about 45 minutes.

Graham Bread.
Three cups graham flour, one cup white flour, half a cup of molasses, two teaspoons saleratus one teaspoon salt, two cups buttermilk (or sour milk); bake in two small bread tins; dates or raisins may be added.

Old-Fashioned Johnnycakes.
Three-quarters cup unbolted cornmeal, half a cup white flour, two teaspoons sugar, one teaspoon soda, two tablespoons molasses, one teaspoon salt, one cup sour milk; the mixture will be very soft and should be baked in a quick oven; use a shallow cake pan.

MEAT

Making Corned Beef More Palatable and Better Slicing.
Put four or five pounds of corned beef into a kettle of cold water, cover

and let boil until the water tastes real salty; turn off most of this water and cover again with hot water. When boiling add mustard, vinegar and ginger mixed to a paste. Two tablespoons vinegar, one of mustard and a scant half teaspoon ginger. Cook meat until tender and slice when cool.

CAKE

Molasses Cake, Etc.
Put into sieve two and a half cups flour, half cup sugar, two teaspoons each of cassia, cloves and soda. Sift and then add half a cup melted shortening and one cup of molasses. Stir together and add one cup boiling water. Beat well and bake in a moderate oven. This is excellent served while warm with apple-snow.

Molasses Cookies.
One-half cup sugar creamed with one cup lard, one and a half cups molasses, three-quarters cup like-warm water, two teaspoons each of cassia, salt and ginger, two heaping teaspoons soda in flour, enough to roll. Bake in a hot oven.

Apple Cake.
One-half cup butter, one cup sugar, one and a half cups flour, half cup milk, one heaping teaspoon baking powder, two eggs, one cup raisins, half tablespoon chopped citron. Cream together the butter and sugar, add beaten yolks, citron and the washed raisins, then mix in alternately the water and the flour, to which has been added the baking powder. Lastly add the well-beaten whites of the two eggs. Pour into buttered tin and put a little shredded coconut on top and three slices of very thin citron and hot spicade a little granulated sugar over it. Bake in moderate oven for about 45 minutes. This is very nice and will keep a whole week.

FARM HOLDINGS ON MARCH FIRST ARE ANNOUNCED

By Associated Press. WASHINGTON, March 7.—Farm holdings on March 1, announced today by the department of agriculture shows: Corn 884,476,000 bushels. Wheat 129,258,000 bushels. Oats 584,421,000. Barley 81,899,000. Farm holdings on March 1 in 1918 and 1917 were: Corn 1,253,900,000 and 782,303,000. Wheat 107,745,000 and 100,450,000. Oats 599,208,000 and 294,211,000. Barley 44,419,000 and 33,244,000. The per centage of the 1918 crops which will be shipped out of the counties where grown were announced as follows: Corn 14.5 per cent compared with 23.1 last year and 17.4 in 1917. Wheat 58.7 per cent compared with 51.1 last year and 58.7 in 1917. Oats 27.2 per cent compared with 32.3 last year and 28.4 in 1917. Barley 39.1 per cent compared with 39.7 last year and 43.5 in 1917.

Prohibition Will Find 50 Million Gallons In Bond

By Associated Press. WASHINGTON, March 7.—National Prohibitionists expect July 1 will find about 50,000,000 gallons of liquor in bonded warehouses, barred from disposition for beverage purposes, if the present demand for whiskey continues during intervening months. Officials who have observed the effect of high taxes in the past believe, however, that withdrawals from bond will decrease under the new revenue law and that between 60,000,000 and 75,000,000 gallons will be left in warehouses July 1. It is conceded that it is impossible to foresee the effect of approaching prohibition on the demand for liquor to be stored away by consumers, and officials say a big movement of buying even under the increased tax may develop and leave the quantity of liquor left in bond smaller than the advance estimates. The estimates do not take into consideration liquor which may be stored in cellars or attics of prospective consumers. Nor do they include any stocks which wholesale or retail dealers may not sell before the prohibition wave catches them. These are not measurable by any official reports. Revenue bureau officials calculate that at present bonded warehouses connected with distilleries, but under lock and key of government agents, hold less than 30,000,000 of the 200,000,000 gallons in stock when manufacture ceased Sept. 9, 1917, under the food conservation act. Withdrawals in January and February have been less than the 10,000,000 or more gallons in December, according to indications based on preliminary reports from revenue agents. On January 1, 112,000,000 gallons of distilled spirits in stock was in bond, including 6,500,000 gallons not available for beverage purposes. About 15 per cent of those figures must be deducted for allowance for leakage and evaporation from barrels. On Dec. 1, the latest date for which itemized figures are available, the stock of distilled spirits in bond was distributed as follows: whiskey, 98,346,000 gallons; rum, 608,000; gin, 2,338,000; alcohol, 5,760,000; refined alcohol or "high wines," 3,744,000; and brandy, 2,815,000. The normal rate of demand, measured by withdrawal from bond, had been between 4,500,000 and 6,000,000 gallons a month until last October, when withdrawals jumped to 3,358,000. In November they were 3,597,000, and in December it is estimated they ran over 10,000,000 gallons, while in January and February, indications are that the demand was nearer 9,000,000 gallons. Most of this liquor was taxed when taken out of the bonded warehouse at the rate of \$3.20 a

NEGROES SELECT CEMETERY TO SETTLE DIFFERENCES

By Associated Press. DALLAS, Mar. 7.—Two negroes, aged 20, who had quarreled over a love affair set forth for a local cemetery with the avowed purpose of fighting it out with guns. It might have been the proximity of the cemetery or superstition that caused one of the negroes to start their dual prematurely, but anyway, one of them later announced at a hospital that he had been shot in the head. Both were arrested.

DISCOVER PUBLICITY PLAN OF FELIX DIAZ

By Associated Press. MEXICO CITY, Mar. 7.—The government police have announced that the publicity plan of the followers of Felix Diaz has been discovered by the military police in a room in a downtown hotel. Large quantities of revolutionary literature, printed on a hand press found in the room, were seized. Information secured from the alleged Felicista plotters arrested recently is said to have led to the discovery of the plan.

NORMA COOK TO JOIN THE MOVIES AFTER THE TRIAL

By Associated Press.
CHICAGO, Mar. 7.—The case of J. Norman Cook on trial for the murder of William E. Bradley, middle aged admiral of seventeen years old Norma Cook, was expected to reach the jury late today. At the opening today Cook's attorney began his plea for his client. Cross examination of the accused man ended yesterday and was followed by the opening arguments of the prosecuting attorney.

Norma Cook made a statement today telling how she evaded the police, state's attorney's sleuths, and reporters when she disappeared to escape the ordeal of testifying against her father. The seventeen years old at the time of the killing of her middle aged admiral in August of last year—was not in any of the half dozen places she was reported to have visited, but remained throughout the search for her on the North Side in Chicago. She said she remained in doors much of the time, and was not in the beginning of the trial of her father, and when she went out she was garbed as a boy.

Miss Cook added that she is going into the movies and later the legitimate stage. Mrs. Sidney Drew is a distant relative and she said she would go with the Drews to New York when the actor and his wife leave here. Mrs. Drew will train her for the stage she said, and she will play parts in the Drew Comedies for a time. The girl said that her stage name would be Norma Atkinson, the family name of her mother.

BRITISH HOUSE IS FOR A COMPULSORY OCCUPATION ARMY

By Associated Press.
LONDON, Thursday, Mar. 6.—Captain F. E. Guest introduced a bill in the house of commons today which proposes compulsory service for the British army of occupation. This army, according to the bill, would be composed of nine hundred thousand men and the enlistment period would expire on April 30, 1920. Alexander Shaw, laborite, moved the rejection of the measure because the labor party is opposed to a continuance of conscription. Winston Spencer Churchill, Colonel of the House, moved the rejection of the bill, arguing that the government, in providing for an army to insure peace, was pursuing a path toward universal voluntary service. "There is not the slightest truth in the suggestion that this bill is designed to raise troops to be sent into Russia," he continued. "If there was no such place as Russia, I would still be advocating this bill. No one would be so foolish as to suggest intervention in Russia with conscript troops. Our army along the Rhine adjoins the approaches leading up that river numbers about 450,000 men which is no larger than the United States army there and much smaller than the forces France is maintaining in the occupied area."

The bill passed second reading, 304 to 71.

Episcopal ladies will hold rummage sale Friday and Saturday in the building next door to Ponds Laundry. Open at 9 o'clock. 354-11c

GERMAN GAZETTE CHARGES ALLIES ARE RESPONSIBLE

By Associated Press.
BERLIN, Wednesday, Mar. 5.—The present unrest, terror and crime are diseases of the social body which it is unable to resist because it has weakened through privation and loss of blood," says the North German Gazette. "The German people can recuperate only when it receives raw products that will permit it to work, and food in order that it may live. Our enemies are denying us both. Their attitude is the real cause of the present crisis and the present prevalent criminal activity. In view of these events they should realize it is contrary to the international law of humanity to permit a fallen foe to lie helpless on the ground. They should not overlook the fact that the successive weakening of Germany also reduces its resisting powers against bolshevism and that it is a dangerous thing to be a neighbor to a house in which the plague is raging."

WHITE SOX AND REDS TO PLAY EXHIBITION GAMES

By Associated Press.
CHICAGO, Mar. 7.—The Chicago American League Club, which leaves March 21 or 22 for the training camp at Mineral Wells, Texas, will include Cincinnati in its exhibition games dates which were announced yesterday. Five days after arrival at camp the White Sox will open exhibition play with the following schedule: March 29, Fort Worth; March 30, Dallas; April 5-6, Houston; April 12, Dallas; April 13, Fort Worth; April 19-20, Cincinnati.

'EUROPEAN CONCERT' HAS GONE BANKRUPT SAYS PARIS PAPER

By Associated Press.
PARIS, Thursday, March 6.—"It was hand in hand with William II. Taft who was elected president by republicans that President Wilson presented himself at the Metropolitan Opera House in New York to speak on the league of nations," says the Journal Des Debats, in the course of an editorial commenting on the situation in America. The newspaper argues that "Senator Lodge's arguments against the league of nations are the same as those used against the entry of the United States into the war. These arguments proved false in 1917 and will have the same fate in 1919 in regard to the league of nations."

The article concludes with an expression of the confidence in the league of nations which has been shown by the French press during the past week, asserting: "The ancient 'European concert' has gone bankrupt and must be replaced by the institution of something more solid and more efficacious."

GET SLOAN'S FOR YOUR PAIN RELIEF

You don't have to rub it in to get quick, comforting relief

Once you've tried it on that stiff joint, sore muscle, sciatic pain, rheumatic twinge, lame back, you'll find a warm, soothing relief you never thought a liniment could produce.

Won't stain the skin, leaves no marks, gives no time in applying, sure to give quick results. A large bottle means economy. Your own or any other drugist has it. Get it today.

NEWS FOR— TEXAS OIL MEN

New Development in Burkburnett Field Special Banking Service for Oil Men

When an oil man wants banking service, he wants it right now. Appreciating this fact, a bank for oil men was founded in the heart of the Burkburnett field.

Experienced oil men, and bankers to oil men, combined with influential Wichita Falls business men, make this an ideal bank for your requirement. Our service covers everything that you expect of a bank of this kind—collection of production and royalties, financial aid to producers, handling big salary accounts, etc. We gladly answer any inquiries regarding operations in this field.

You probably have banking connections convenient to the other oil fields. Why not in the Burkburnett district? At the close of our first week's business our deposits were over half a million dollars.

Wade E. Hampton is President of the American National Bank. He was formerly cashier of the Ponca City, (Okla.) Security National and there handled a great amount of oil banking business. He knows the sort of service oil men require along financial lines. R. S. Nixon, formerly cashier of the Pearsall Texas National Bank, is cashier of this bank.

The other directors are men prominent in the affairs of Wichita Falls and the Burkburnett field—H. C. Herndon, Oil Producer; R. E. Marlow, Oil and Livestock; W. N. Bonner, District Judge; J. L. Jackson, Real Estate and Oil; Ed Howard, Postmaster; J. B. Marlow, Mayor of City; H. S. Griffin, Banker and Oil Producer; L. J. Bryan, Oil Producer; B. D. Donnell, President Times Publishing Company; H. B. Hines, Real Estate; J. V. Howell, Oil Operator; D. P. Taylor, Owner Hearn Hotel; Will A. Miller, Oil Operator; Sam Kruger, Jeweler; Phil Kleinman, Merchant; Louis Kleinman, Merchant; T. R. Dan Boon, Attorney; R. E. Howell, Oil Operator.

LE MANS, FRANCE AN EMBARKATION CENTER FOR U. S.

Special to The Times
WASHINGTON, D. C., March 7.—Le Mans, taken and occupied by the Germans shortly before the armistice which ended the Franco-German war was signed in 1871, today is the busy, bustling embarkation center for homeward bound American troops, says a bulletin of the National Geographic Society.

"French history often has been made at Le Mans. It was there the valiant General Cranz made the last stand against Prince Frederick Charles in 1871 and his defeat marked the passing of the last hope of retaining Paris. Gen. Chanzy, memorialized by a statue in Le Mans, made the historic comment, when he heard that Paris had capitulated, 'We have still France,' a remark which lives in French history alongside the Verdun slogan, 'They shall not pass.'

Marks Defeat of Vendean.
"Nearly a century earlier Le Mans marked the final defeat of the Vendean, those counter-revolutionists who adhered to the Royalists not so much through loyalty as through ignorance of what the Revolution meant. Just as Russians outside of Petrograd sensed little of the significance of the overthrow of the Tsar while Kerensky was struggling to establish a constitutional government.

"The remnants of Le Mans, like those of Vendee, decline to serve in the army of the new-born republic. They did not oppose the new government but they recalled that the royalist army had been made up of adventurers, profligates and ne'er-do-wells, and they did not consider army barracks a proper place for Christians.

"After successive defeats, a remnant of the Vendean put up their last fight at Le Mans, and were defeated by Westermans.

"In ancient times Le Mans was the

American Woman Defeats Labor Candidate In Election To County Council of London

Duchess of MARLBOROUGH

capital of the Auleric Cenomani and in the second century the Romans encircled the town with walls. Traces of them remain. St. Julian evangelized Le Mans and became its first bishop.

City of Sieges.
"Le Mans might well be known as a city of sieges. Some estimates place the number of times it has been besieged as high as twenty. Among those who held it for varying periods were William the Conqueror, Philip Augustus and King John. While Richard Coeur-de-Lion was crusading, the city was bestowed upon his accomplished and beautiful wife, Queen Berengaria, whose tomb is in the city's splendid cathedral, founded by the above mentioned St. Julian. This cathedral of La Couture and Notre Dame du Pré are two other noted churches. The former dates back to the twelfth century but still has two unfinished towers.

"Le Mans is one the railway line from Paris to Brest, near the point where the Sarthe River flows into the Sarthe. No larger than Holyoke, Mass., or Bayonne, N. J., before the war it was a busy manufacturing center for a wide variety of products, ranging from preserving vegetables and fish, tanning, and hemp-spinning to flour-milling, manufacture of machinery, engineering material, and stained glass.

MISS BLANTON IS TO PRESIDE AT MEETING
By Associated Press
WACO, March 7.—Miss Annie Webb Blanton, state superintendent of schools, will preside at the state meeting of county school superintendents which convenes in Waco, March 30. The program will be announced in a few days.

AMERICAN TROOPS MOST INTERESTED IN GETTING HOME

Associated Press Mail Correspondent
PARIS, Feb. 10.—The American soldier wants more than anything else in the world right now to go home. For the 500,000 or more who still have weary weeks ahead of them, here and with the Army of Occupation the next best thing is to see pictures of their home towns.

These pictures are being shown to them in the miles and miles of films called "Smiles" distributed to the camps by the Community Motion Picture Bureau of the Young Men's Christian Association. Probably there are a hundred miles of the films.

The movies are taken everywhere, from Times Square to the Cliff House, they show the familiar streets and the familiar landmarks and the familiar faces and then they are rushed over here to the boys and to say that they are welcomed in putting it wildly indeed.

The pictures are not shown indiscriminately. When a picture from New York, or Kansas City, or Seattle, or anywhere else, arrives it is sent immediately to the military organizations hailing from that particular locality and it only needs a simple announcement to the effect that a home town movie will be shown to pack the Young Men's Christian Association hut or theater to the limit as many times as it is possible to show the film before take bids.

Some days ago in Coblenz, while a picture from Chicago was being shown, a soldier rose from his seat and shouted, "There's my dog!" then, after pause, he added, "and that's my brother with him."

Many a boy over here has seen some of his relatives in these pictures and they are more successful than the latest humorous film or the newest drama.

TERMS SHOULD BE EVEN MORE SEVERE SAYS M. TARDIEU

By Associated Press
PARIS, March 6.—What may be regarded as the official French view of the military terms was expressed by Captain Tardieu when he said to the peace delegates: "It is almost unanimous that the terms should be even more severe than those proposed."

Captain Tardieu also said that the committee on Belgian affairs had agreed on the revision of the treaty of 1839.

ABANDON THE IDEA OF WORLD CHURCH CONGRESS

By Associated Press
PARIS, Thursday, March 6.—A Rome dispatch to the Temps quotes Monsignor Bossanti as saying it is understood at the Vatican that the American committee for the union of Christian churches has abandoned the

idea of calling a world congress and has invited leaders of different Christian communities to formulate minimum programs to which they believe they must adhere in the eventuality of a union of churches.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "foggy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 30c and 50c a box. All druggists.

Growing With The City

The big developments now under way in Wichita Falls and the consequent rapid increase in our population are matters in which our citizens have deeply interested.

The Peoples Ice Co. views with pride these evidences of our city's growth and will endeavor to serve the community by doing all in its power to make life pleasant and comfortable for the hundreds of new families who have settled in our midst.

With this idea in mind we are now expending large sums in expansion and new equipment.

There is under construction now a 5,000 ton ice storage house, which we will fill early this spring and which with our present facilities will assure a plentiful supply of pure ice during the heated season.

In addition we have ordered several new wagons so that our delivery service will be able to promptly serve our rapidly expanding residential sections. At convenient points in the city retail Cash and Carry stations will be established. The convenience of these stations will, we believe, prove of real benefit and service to you.

The fun of buying a new spring hat

YOU will find that buying a Mallory is a very pleasant business.

For Mallory hats are so smartly styled that just to try them on, comparing one with another on your head in front of the mirror, is an enjoyable experience in itself.

And then, in the stores that sell Mallory hats you will find salesmen who know something about hat style and hat quality, and who will assist you intelligently in getting the correct hat for your particular head.

See the new Spring models just in.

COMPLETIONS AND NEW LOCATIONS IN RECENT REPORTS

The biggest completion of the week is the McMann Oil Company's first well on the Hardin tract, Dubose survey, which is making from 800 to 1,000 barrels daily. This well is in the vicinity of the Humble and Marine wells on the west.

Other completions include: Amalgamated Oil Co., No. 1 Garner, 200 barrels. Adams Oil Co., No. 2 Vanceave, 150 barrels. Apex Oil Co., No. 1 Denton, 150 barrels. Burk O'Neil Oil Co., No. 1 Jones, 200 barrels. Big Burk Oil Co., No. 1 Hardin, 350 barrels. Beach Oil Co., No. 1 Bishop, 175 barrels. C. R. Cox et al., No. 1 Davidson, 175 barrels. Chimes Oil Co., No. 1 Thomas, 200 barrels. Wichita Western Oil Co., No. 2 Loebner, 200 barrels. Raleigh Oil Co., No. 1 Vanceave, 150 barrels. Texoma Oil and Refining Co., No. 3 Vanceave, 350 barrels. Staley, Ligon and Rowe, No. 1 Wilson, 200 barrels. W. B. Mann, No. 1 Calthrop, 250 barrels.

Good Well in Old Field. In the old Burk Burnett field the Rayle Farm Oil Co. has completed a good well of its No. 19, now swabbing 300 barrels. This is the only completion reported in the old Burk Burnett field this week.

Low Park has several completions. Nos. 3 and Zink of the Myrtle Oil Co. are reported in good for between 60 and 75 barrels, together. The Clay Park Oil Co., No. 2 Zink, is estimated around 35 barrels. The Sutherland-Cox well, No. 1 Serrien, Winfrey farm, south of the original Zink well, is estimated from 50 to 60 barrels. A public Hill has one completion. The Southwestern Petroleum Co., No. 4 Ward and Todd, 35 barrels. The Sunshine Slope Oil Co., No. 1 Opette, is shut down for completion, waiting for cement.

New Locations. A number of additional new locations are contained in late reports from Burk Burnett, including: Burk-Nevona Oil Co., No. 1 Hardin, Dubose survey. Amalgamated Oil Co. No. 3 Garner. Crews-Peyton Oil Co., No. 1 Langford, Outer Block 25. Daniel Oil Co., No. 1 Davis. Fowler Farm Oil Co., Nos. 9, 10 and 13, Vanceave. In the Clara district, west of Burk Burnett, several new locations are reported. Collins County Oil and Gas Co., No. 1 Lee, block 52, Red River valley lands. John Hopkins, No. 1 Carl, block 46, Red River valley lands. Paramount Oil Co., No. 1 Carl, block 46, Red River valley lands. Sunshine Hill New Locations. 1918 Oil Co., No. 4 M. A. Eads. Kemp-Ferris, No. 4 M. A. Eads. Eldora Oil Co., No. 1 Fee. Iowa Petroleum Co., No. 1 Fee.

REPORT SITUATION IN MONTENEGRO AS BEING DESPERATE

By Associated Press. BOME, Thursday, March 6.—The commission sent by the American peace delegation to inquire into conditions in Montenegro passed through Rome toward Paris today. It reported the situation in Montenegro as desperate, and it was said that the population is actually dying from starvation. As an instance of the suffering there, it was said that of a family of eight children, five had died from lack of food and the other three had been reduced almost to skeletons. These were seen scratching the earth to find roots or gathering refuse for food. The American Red Cross is busily engaged in trying to save the people from starvation. The Montenegro, according to a member of the commission, asks the peace conference to allow them to express freely their desires concerning their future government. They are not averse to a union with the Croats and Slovenes but demand that a federation be established which will leave their laws, customs and religion intact.

OKLAHOMA HOUSE VOTES TO FORFEIT TELEPHONE PERMIT

By Associated Press. OKLAHOMA CITY, OKLA., March 7.—The Oklahoma house of representatives yesterday voted 85 to 11 to pass a joint resolution providing for forfeiture of the charter of the Southwestern Bell Telephone Company of Oklahoma for refusal to install service rates promulgated by the State Corporation Commission.

Paul Walker, attorney for the commission, announced shortly after the house had acted, that inquiries sent by the commission to public utilities boards of several states showed that the telephone companies of six states had agreed to obey court orders restraining enforcement of the schedule of rates promulgated by Postmaster General Burleson.

NAVAL ESTIMATES MADE BY BRITISH AUTHORITIES

By Associated Press. LONDON, Thursday, March 6.—The British naval estimates, issued tonight provide for a personnel of 280,000 and a total expenditure for the year of 140,000,000 pounds. This sum includes 68,000,000 pounds for ship building, repairs and maintenance.

Cadillac

Standard of the World

In the Cadillac car you get full dependability—the capacity to withstand hard usage day after day and year after year.

There is permanent peace of mind in the ownership of a car whose performance can always be depended upon.

The Cadillac and Munger Service back of the Cadillac, have come to you through the establishment of a Wichita Falls branch.

For the present the Wichita Falls branch will be maintained at the Victory Garage. Experienced service men, sent from the Dallas plant, will be found there always glad to give Cadillac owners distinctive Cadillac service.

Contracts have been let for the erection of a new two-story brick building, which will be occupied within the next few weeks. With its completion Cadillac service in Wichita Falls territory will be equal to that given at the Dallas plant of the Munger company.

*See Mr. Scott Bower, branch manager, at the Westland Hotel or at the Victory Garage.

Cadillac deliveries can now be made more promptly.

DARLIE-FOWLER OIL CO.

Note Carefully:

The location of our property, THE DEVELOPMENT now going on in this section. OUR PROXIMITY to producing wells, THE NUMBER OF ACRES the stock in this COMPANY participates in, and our low CAPITALIZATION.

And Believe This

We are not trying nor do we expect to make our fortune in profits from the sale of this stock. BUT we are trying and do expect to make a snug fortune from the increased value of this stock and the future production of THIS COMPANY'S WELLS, and it is our INTENT AND PURPOSE that this expectation shall be realized as soon as possible, and for this reason we have located our office in BURKBURNETT that we might personally supervise the development of this property, thereby protecting to the best of our ability our own interest and the interests of the many others who are coming in with us.

THE CONTRACT FOR DRILLING OUR FIRST WELL has been let to JUDGE DICKERSON of Oklahoma City, a successful drilling contractor of 15 years' experience, who will have full charge of drilling WELL NO. 1.

JUDGE DICKERSON is co-operating with us in every possible way, and we confidently expect to start actual drilling operations not later than MARCH 15th.

We believe that this will be the last advertisement necessary to sell the balance of our stock, and that this is your last chance to secure this stock at par, so we urge you to NOW give this proposition your earnest consideration, and immediately fill out the accompanying application for the number of shares desired, and mail to us at once with check or money order attached. We reserve the right to return your money in full in case of oversubscription.

DO THIS NOW, TOMORROW IT MAY BE TOO LATE

..... 1919.

INCREASED RATE FOR WATER VOTED ON FIRST READING

ORDINANCE PROVIDES THAT COMPANY MAY ADD TWENTY PER CENT.

RAISE PAY OF FIREMEN

Chief and All Members Are Granted an Increase of Ten Dollars Per Month.

An ordinance granting a 20 per cent increase in rates to the Wichita Falls Water Company was passed on its first reading by the city council last night. Although final reading and passage of the ordinance cannot occur within less than 30 days of the present date, and the ordinance cannot become effective until 60 days after final passage, last night's action marks the reaching of a decision by the council after several months of debate on the matter—and there is little question but that the franchise amendment permitting the increase will ultimately go into effect.

"Our situation is becoming desperate," F. N. Lawton, general manager of the water company, told the members of the council. "We have been losing money steadily at the rate of more than \$1,000 a month, and it is impossible for us to borrow money on our present financial statements—and yet it is necessary for us to borrow money if we expect to keep pace with the city's growth and construct the needed extensions to water mains."

In Precarious Position. "If we grant the increase of 20 per cent, thereby raising the present \$1 minimum to \$1.20, what can we expect from the company in return?" asked J. M. McFall. "We want a wa-

What Is a Pharmacist?

A man may be a druggist simply because he owns, operates or controls a store where drugs are sold, but the real man of drugs, with the knowledge to compound prescriptions, though ordinarily known as a druggist is indeed the scientific Pharmacist.

Bring your prescriptions to us where every degree of ability, knowledge and experience in pharmacy are applied for your benefit where drugs of proven quality only are stocked, where their handling, care and combination are adequate for the needs of any doctor, where your business is appreciated.

BRING YOUR PRESCRIPTIONS TO US.

First Attention to All Orders for the Sick.

Special Attention Given Our Prescription Dept.

ter company in this city that will give service all the time; that will grow with the city, and we don't want the company to be seeking another increase for some time.

"If you gentlemen will grant the increase," Slater answered, "we'll get enough revenue, with the extension of the sewer system, to enable us to keep pace with the city's growth, borrow money with which to complete extensions and give you good service all the time."

The ordinance then was passed on the first reading. The council also passed an ordinance affecting the \$75,000 bond issue recently voted for paving and improvements, the ordinance providing for bonds of \$500 each, the principal and interest being payable at the city treasurer's office or at the Hanover National Bank in New York at the bondholders' option. The bonds will be dated March 15, and will bear five per cent interest payable semi-annually.

The council unanimously voted to increase the pay of every member of the fire department, including the fire chief, \$10 a month. Chief McClure requested increases for eight men, not to include himself, stating that the men had not even mentioned the matter to him, but that he felt it was only justice that they should receive a wage increase in view of the character of the men and their hard work and long hours. A wage increase of 25 cents a day also was granted to men employed as laborers in the parks and cemetery.

Harry D. Levy, of Dallas, whose brother, Lester Levy, appeared before the council last week and made a verbal proposition to handle the paving of city streets without expense to the city, submitted in writing a detailed plan regarding the proposed work. The council, however, declined at the present time to approve the matter, asked for specifications to be submitted and agreed to announce a decision later.

Mrs. J. A. Kemp appeared before the council on behalf of the Civic League, and stated that the league had selected the last week in March as "clean-up" week. The council promised its support to the campaign, and agreed to furnish teams to haul trash collected in the residence sections.

The council voted to close all city offices today from 10 a. m. to 12:00 noon, during the funeral of Harry Robertson, former city tax assessor and collector. Resolutions of respect also were passed, and all city office holders were urged to attend the funeral.

Department of Music Recital Friday Evening

The music department of the High School will give a concert at the First Christian church Friday evening. All departments, voice, violin and piano, will be represented and the combined glee clubs, assisted by Mr. Blocker, will give the "Wreck of the Hesperus" the well known poem by Longfellow set to music by Anderson. The soloists will be Agnes Luecke, Emma McInnis and Ernest Robertson. Following is the program:

a. "Napanee," Williams; b. "Homeless," Chas. Arthur—High School Orchestra. a. "Down in Dewy Dell," Smart; b. "Welcome Pretty Primrose," Pusiti—Double Osette. Piano solo, "Cradle Song," Grieg—Halle Adams. a. "Life's Dream," Parks; b. "Life's Lesson," Riley Welles—Boys Glee Club.

Vocal solo, "Rockin' in de Wind," Nettlinger—Emma McInnis. Piano solo, "Dance Negre," Cyril Scott—Ena Everton. "Lost Chord," Sullivan—High School Orchestra. a. "To You," Sparks; b. "Little Bit o' Honey," Carrie Jacobs Bond—Annadella Bradshaw.

Piano duet, "Polka Brillante," Carl Rohm—Larline Turner and Ena Everton. Violin solo, "Scene de Ballet," De Beriot—Cecilia Adicks. Reading, "Wreck of the Hesperus," Longfellow—Anna Edward Barcus. Cantata, "Wreck of the Hesperus," Anderson—High School Glee Club. Soloists: Agnes Luecke and Emma McInnis, soprano; Mr. Blocker, tenor; Ernest Robertson, baritone. Accompanist: Misses Kathleen Stonecipher and Annadella Bradshaw, piano; Mrs. Strange, organ.
