

EARLY RELIEF
FROM EMBARGO
NOW EXPECTED

Backbone of Congestion Will
Be Broken Within a
Short Time

OFFICIALS ARE BUSY

Local Merchants Are Co-operating
in Every Way That
It Is Possible

Conditions in the freight yards at Burkburnett should be normal within ten days, if fair weather continues, according to a statement made this morning by F. W. Grace, general superintendent of the M. K. & T. railroad at this terminal—while as regards Wichita Falls the superintendent considers that the backbone of the congestion here will be broken within three weeks.

"Three weeks may not see normal conditions with reference to freight billed to Wichita Falls," he added, "but it can be stated that within that period the situation will be sufficient under control so that delays will no longer be unreasonable."

Work Night and Day.
Officials of the Katy have been working night and day to smash the congestion here caused by the freight embargo, and in the last seven days their efforts, coupled with the efforts of a committee appointed last Thursday by the chamber of commerce, have brought noticeable results. A week ago there were 800 car loads of freight, billed to Wichita Falls and vicinity, tied up at Denison and Whitesboro; during the week that number has been cut practically 50 per cent.

The same percentage has been obtained in releasing freight in the local yards; a week ago the Katy was able to release only between 12 and 15 cars daily, whereas yesterday 30 cars were released, and it is believed this average can now be maintained with a possibility that it will be increased to 50.

Local Merchants Co-operate.
Local merchants and consignees have assisted the railroads loyally in relieving the congestion in merchandise shipments. This matter alone threatened to become a serious problem recently, and was further aggravated when fire destroyed the freight warehouse of the Fort Worth & Denver road which had been handling Katy merchandise. A week ago the local yards contained 99 cars of merchandise waiting to be unloaded; this morning, however, the number was down to 59 and there is every indication that merchants here are doing everything possible to co-operate with the roads in getting shipments out of the yards.

New Tracks Planned.
The M. K. & T. has completed its plans for 14 train tracks in their north yards, and only official consent from the United States railroad administration authorities in Washington is needed before construction work will begin. Grace also has applied to the city council for permission to lay a team track for 35 cars along Pecan street adjacent to the new compress and it is believed the council will grant this permission at its weekly meeting tomorrow night. The tracks will be down and ready for use Saturday, Grace stated this morning, if the permission is obtained.

Empty Being Moved.
A few weeks ago one of the most serious problems faced by the railroad men centered around inability to get rid of empty freight cars, which caused congestion equal to that caused by the loaded cars. An outlet has been obtained now, and all empties are being moved to the main lines as fast as they are unloaded.

At Burkburnett approximately 50 car loads of freight a day are being released. The new warehouse and platform, and the new teams tracks, accommodating 100 cars, have been extremely helpful factors in breaking the congestion there, and only a continuation of good weather is needed to bring normal conditions within a short time.

FORTIFICATIONS TO
PROTECT PARIS ARE
ORDERED REMOVED

By Associated Press.
PARIS, Tuesday, March 18 (Havas).—The chamber of deputies today authorized the removal of the fortifications about Paris which were erected shortly after the war began.

There are three rings of permanent fortifications about the city of Paris, first a solid wall of masonry 22 miles in circumference around the old sections of the city; second a system of 17 detached forts arranged at intervals of two miles beyond the wall and making a circuit of the city 34 miles in extent; and third, an outer circle of 40 forts 75 miles in length on the heights commanding the valley of the Seine. In August, 1914, special fortifications were erected, buildings demolished and trees obstructed a clear view of the terrain about the city were cut down. It is probable that it is this system of fortifications which is to be dismantled.

BRITISH PROPOSALS
FOR INTERNATIONAL
AIR CODE ACCEPTED

By Associated Press.
PARIS, March 19.—In a report submitted today the commission appointed to consider plans for an international air code announced that the British proposals had been in the main accepted. An international aviation board will be formed to handle all matters pertaining to aerial navigation.

It has been decided that each nation is entitled to sovereignty over the air above it subject to the granting of permission for the passage of foreign aviators. There is to be no discrimination against any nation by another, air pilots will be licensed on an international basis and there will be international rules governing the right of way for airplanes and balloons.

PLAN TO CONVERT
PUBLIC BAR ROOMS
INTO SOCIAL HALLS

Associated Press, Staff Correspondent.
LONDON, March 18.—A bill has been introduced into the house of lords with the object of converting public bar rooms into social halls. The author of the measure, Lord Lamington, proposes to transform the saloon into a house of refreshment and recreation where music and dancing might be permitted and children allowed to be present with their parents. Brewers are giving the bill their support.

ARGENTINE WANTS TO
BECOME A MEMBER OF
LEAGUE OF NATIONS

By Associated Press.
PARIS, March 19.—Argentina, the Latin-American government, responded to the supreme council's invitation to neutral states to participate in the discussion of the league of nations covenant and indicated its desire to become a member of the league through a communication to Minister Marcelo De Alvar, who was designated as the country's delegate.

FEDERAL INCOME TAX
OF ST. LOUIS MAN IS
SEVEN-EIGHTS OF CENT

By Associated Press.
ST. LOUIS, MO., March 19.—The smallest federal income tax computed here was seven-eighths of a cent. Internal revenue collector Moore announced tonight. The tax payer shipped a penny in the cashier's cage and asked for his change. The cashier was generous and refused to accept the tax.

PREPARED TO OFFER
VOCATIONAL TRAINING
TO DISABLED SOLDIERS

By Associated Press.
WASHINGTON, March 19.—Through several large donations to a "gift fund" authorized by congress, the federal board for vocational education announced today it was now able to offer vocational training to American citizens who were disabled while serving in the armies of the Allied nations.

MAJORITY SOCIALISTS
SEAT 81 MEMBERS

By Associated Press.
LONDON, March 19.—The election for the constituent assembly in Hamburg, Germany, resulted in a majority socialist seating 81 representatives, the independent socialists 13 and the bourgeois parties 66, according to a dispatch from Berlin.

LARGE INCREASE IN
EXPORTS OF COTTON
SEED AND PRODUCTS

By Associated Press.
WASHINGTON, March 19.—Cotton seed and cotton seed products were announced today by the census bureau in its report for the period August 1 to February 28, 1919.

Cotton seed crushed 3,353,245 tons compared with 2,901,511 last year; on hand February 28th 555,091 tons compared with 634,052 a year ago. Crude oil produced 956,332,139 pounds compared with 870,862,319 last year; on hand 161,524,926 compared with 189,512,409 a year ago. Refined oil produced 733,882,625 pounds compared with 698,140,207 last year; on hand 285,515,614 compared with 241,714,401 a year ago. Cake and meal produced 1,367,938 tons compared with 1,541,004 last year; on hand 131,401 compared with 111,022 a year ago. Linters produced 777,116 five-hundred pound bales compared with 827,517 last year; on hand 328,578 compared with 240,015 a year ago. Exports, seeds, oil 599,905,705 pounds compared with 327,197,187 last year; cake and meal 1,010,819,319 compared with 1,762,414 last year and linters 62,824 running bales compared with 121,636 last year.

SEVEN DEATHS ON VESSEL
FROM SPINAL MENINGITIS

By Associated Press.
RIO JANEIRO, Tuesday, March 18.—Vessels from Europe continue to arrive here with cases of influenza on board. Yesterday one vessel arriving reported seven deaths during the voyage as a result of spinal meningitis.

PROSPECT FOR SETTLEMENT
OF THE HARBOR STRIKE

By Associated Press.
NEW YORK, March 19.—Under the surface of defiance that continued to mark the harbor strike today there were indications that a compromise settlement was being arranged to end the deadlock existing between the strikers and the private boat owners.

THE SCOTCH CERTAINLY SHOWED SOME SPIRIT.

MASSED PICKETING OUTSIDE A GLASGOW FACTORY

Glasgow was the scene of a great many disturbances during the recent strikes. One of the above pictures shows the "massed picketing" outside a Glasgow factory which resulted in the riot act being read. The other picture shows one of six tanks after it arrived in Glasgow. This tank is in fighting trim with a full war crew. Its name is "Pat." It did much to overawe the strikers.

ASK INJUNCTION TO
STOP ENFORCEMENT
OF BEER REGULATION

By Associated Press.
NEW YORK, Mar. 19.—The Jacob Hoffman Brewing Company brings a test suit in the interest of the United States Brewers' Association today applied to the federal district court for an injunction restraining the collector of internal revenue and the U. S. district attorney from beginning any proceedings to interfere with its contemplated production of beer of 2.34 per cent alcoholic content.

William D. Guthrie, counsel for the United States Brewers' Association and allied organizations announced today that the government restriction of the brewers to have beer of 2.34 per cent alcoholic content declared a non-interfering beverage. The contest against the government restriction of the alcoholic strength to less than one-half of one per cent, he stated would be brought into the federal courts at noon by the Jacob Hoffman Brewing Company of this city, which would ask for an order restraining the commissioner of internal revenue from interfering with its contemplated production of 2.34 per cent beer.

FIFTEEN PER CENT
INCREASE IS GRANTED

By Associated Press.
PAWUCKEE, R. I., Mar. 19.—Local officers received word today that the labor board had granted the demand of textile workers in the Blackstone Valley for a fifteen per cent increase. The award dates back to July 1 and affects ten thousand employees.

GOVERNOR VETOES
BILL EXEMPTING
SOLDIER FROM TAX

By Associated Press.
AUSTIN, TEX., Mar. 19.—The house bill which sought to exempt soldiers from the payment of a poll tax was vetoed today by the governor on the grounds that the measure was unconstitutional. He sent this message to the house today:

"I herewith return house bill number 7. After reading the able opinion of the attorney-general of Texas, copy of which is submitted as a part of this message, it is conclusive to my mind that this amendment is in conflict with the constitution of the state. The bill therefore is disapproved."

RESOLUTION BEFORE
MEXICAN CONGRESS
TO ENDORSE LEAGUE
OF THE BAVARIANS

By Associated Press.
MEXICO CITY, Mar. 19.—There were made public today resolutions introduced in the Mexican senate but not yet acted upon, in connection with the league of nations project. One of the resolutions expresses sympathy and admiration for President Wilson and the other declares the Mexican senate wishes that the public democratic proposals of President Wilson which it admires and applauds be realized and manifests its desire that if it has the opportunity the Mexican republic form a part of the proposed league of nations.

Thus far the resolutions have been the only expression available in any way indicating Mexico's stand relative to the proposed league. No official statement has been forthcoming. The resolution regarding the league of nations was introduced December 15, 1918, and the department of the completion of the first of the session, its appearance in print today was the first indication that such action had been officially projected. The lack of a quorum was given as the reason why the resolution was acted upon.

The new article carrying the text of the resolution quotes Juan Sanchez Azcona, senator from the federal district and chairman of the senate foreign relations committee as asserting that the original terms committed the league and the participation of Mexico in it. Senator Azcona declares also that while he has no official ground for the statement he is sure that the principals of the league of nations are in line with the ideals maintained by President Carranza.

WANT ASQUITH PRESIDENT
OF LEAGUE OF NATIONS

By Associated Press.
LONDON, March 19.—There is a strong feeling in political and diplomatic circles in favor of inviting Mr. Asquith to become the first president of the league of nations, according to the Daily Mirror.

TELEGRAPH BREVITY

By Associated Press.
FREEPORT, N. Y., March 19.—Four armed men held up the First National Bank today. It was reported the men obtained about \$5,000.

By Associated Press.
LONDON, March 19.—The establishment of wireless telephony between Ireland and Canada was announced today by the Marconi Company.

By Associated Press.
NEW YORK, March 19.—Captain Reginald E. Taylor, chief of personnel of the gas staff, chemical division, U. S. A., with headquarters, committed suicide here today by inhaling gas.

PREMIER HOFFMAN
OUTLINES PROGRAM
OF THE BAVARIANS

By Associated Press.
BASEL, SWITZ., March 19.—Premier Hoffman outlined the program of the new Bavarian government at the sitting of the diet Tuesday in Kottlen. Representatives of all parties, it is said, approved of the program and the government was given extensive powers for the direction of state affairs.

A bill abolishing the nobility of Bavaria was adopted as also was a measure prohibiting the rights of inheritance. Before the sitting adjourned, Premier Hoffman announced his cabinet as follows: Minister of Justice, Dr. Max Endres; Interior, Martin Segitz; Finance, Dr. Wrikele; Communications, Heinrich Fraunhorst; Social affairs, Herr Unterlechner; Agriculture, Herr Seiner; Military affairs, Herr Schmettenhurn.

Herr Fraunhorst and Unterlechner were members of the cabinet of the late Premier Eisner. Herr Segitz has been minister of the interior since the fall of 1918. Herr Wrikele was shot during the fighting in the Bavarian diet after the assassination of Eisner.

SCHOOL TAX LIMIT
HAS BEEN RAISED

By Associated Press.
AUSTIN, TEX., Mar. 19.—By unanimous consent the senate today concurred in the house amendments to the senate's joint resolution proposing an amendment to the constitution, removing the fifty-cent limitation on the vote of taxes in independent school districts and fixing the limit at \$1 in common school districts.

FOUR THOUSAND OF
CLOTHING WORKERS
GO OUT ON STRIKE

By Associated Press.
CLEVELAND, O., Mar. 19.—Four thousand men's clothing workers of Cleveland employed in forty factories went on strike this morning according to a statement on the night of the strike by Louis Hollander, general organizer of the Amalgamated Clothing Workers of America.

The workers demand a 44-hour week, complete recognition of the union and a 30 per cent increase in wages for all workers.

MOVEMENT OF
TROOPS HOME
IS SPEEDED UP

More Than Five Thousand Are
Included in Today's Arrivals at Port

OTHERS DESIGNATED

Practically All of Ninety-First
and Part of Fifth Army
Corps to Return Soon

By Associated Press.
FORT WORTH, March 19.—The one hundred and eleventh ammunition train of the Thirty-Sixth Division, which landed yesterday at Newport News on the way to Fort Worth for demobilization, will stop at Oklahoma City and McAlester for entertainment. It was announced here today.

By Associated Press.
NEW YORK, March 19.—The train of Charleston, from Brest today brought 2,121 troops, including the 27th and 147th aero squadrons, totaling eight officers and 341 men and casual companies.

With 2,302 troops and 220 naval effects and men, the steamship Harrisburg arrived also from Brest. This included seven detachments of the first and second air service construction companies.

The 27th aero squadron claims to have downed 55 enemy machines. The pilots flew Neuphor and Spad machines and reported that 60 per cent of its active flying men were casualties. Captain Alfred A. Grant of Houston, Texas, commander of the first pursuit group of the squadron returned with the Distinguished Service Cross and the French war cross. He reported that he had three planes shot down.

The 147th aero squadron has been flying one year in the Toul, Verdun, Chateau Thierry, St. Mihiel and Argonne sectors. Other officers returning on the Charleston included Lieutenant Horace A. Andrews, Stillwater, Okla.

RAINBOW DIVISION TO
SAIL IN A FEW DAYS

By Associated Press.
WASHINGTON, March 19.—The 42nd (Rainbow) and 26th (New England) national guard divisions will sail from Brest between March 28 and April 19, the war department was informed today by General Pershing. The Rainbow division lands at New York and the New England division at Boston. General Pershing said it would not be possible to send home the 77th (New York national army) division before April 24 unless German shipping became available sooner than was not anticipated.

FURTHER ASSIGNMENTS
FOR EARLY CONVOY HOME

By Associated Press.
WASHINGTON, March 19.—Assignments of practically all troops of the 95th division and several organizations of the fifth army corps for early convoy was announced today by the war department. The 95th division is composed of men from Idaho, Oregon, California, Alaska, Idaho, Nevada, Montana, Wyoming and Utah.

REDUCE TIME FOR
GERMAN OCCUPATION
BY AMERICAN ARMY

By Associated Press.
PARIS, Tuesday, March 18.—The military terms of the treaty of peace have been amended by the elimination of the clause providing for the control of Germany's armament for an indefinite period. Admiral W. E. Benson of the United States navy pointed out that the original terms committed the United States to a virtually indefinite occupation of Germany and it was chiefly on his insistence that the terms were modified. American delegates also pointed out that control of any portion of Germany for such a period would delay the return home of American troops and would amount to denying the sovereignty of Germany.

As amended the terms provide for control through the time fixed for the delivery of materials of war guns and ships but not through the period during which war damages will be paid by Germany.

DETECTIVES SEARCHING
FOR DR. WALTER WILKINS

By Associated Press.
LONG BEACH, N. Y., March 19.—While police and private detectives were continuing their search for Dr. Walter Keene Wilkins who disappeared last Sunday 36 hours before a warrant was issued charging him with the murder of his wife here February 27, District Attorney Charles R. Weeks of Nassau county was prepared to go before the grand jury with evidence on which he would ask for indictment. A number of witnesses have been summoned to appear before the grand jury including Coroner Neen who took Dr. Wilkins to the hospital on the night of the murder in which the missing physician declared his wife had been slain by burglars.

The district attorney said that "all the avenues of escape have been covered" but so far no clue has developed as to Dr. Wilkins' whereabouts.

LEGISLATURE'S
THROUGH WITH
BUSY SESSION

Many Important Measures
Are Enacted During the
Sixty Days

QUESTIONS SUBMITTED

Ten Amendments Are to Be
Voted on in Elections
During the Year

By Associated Press.
AUSTIN, TEX., Mar. 19.—Senator George W. Dayton of Cooke was today unanimously elected president pro tem of the senate. A number of senators made laudatory speeches on Senator Dayton.

The house so-called bogus check bill was indefinitely postponed. This is the bill advocated in the senate by Senator J. C. McNeel of Dallas and the purpose of the measure was to make it an offense for any person to give a check when he had no funds to cover the check.

The senate concurred in the house amendments to the bill creating the office of state banking commissioner, and passed finally house bill which seeks to require water supply companies to exercise reasonable diligence to prevent contamination with adjacent streams.

Further time to complete its labor was asked by the joint legislative committee appointed to make an investigation of the truth of falsity of certain charges against an employee at the state orphan asylum at Corsicana. The senate granted the request.

By Associated Press.
AUSTIN, TEX., Mar. 19.—One of the most harmonious sessions of the Texas legislature closes at six this evening when sine die adjournment of the Thirty-sixth legislature is proclaimed. The necessity of spending long hours in the session of the prohibition of liquor, the members devoted their time to legislative problems of reconstruction and disposal of a number of problems that have appeared regularly before previous legislatures for years.

Much attention was given an investigation into the state service which resulted in a bill for reorganization and served to turn the public eye toward alleged faults in the personnel of that organization.

Questions Submitted.
Of wide public concern was the determination to submit to a popular vote the question of fixing a convention to write a new state constitution. This will be submitted November 4. Other constitutional amendments to be voted on are:

At an election May 24—Woman suffrage, statewide prohibition; to increase the governor's salary from \$4,000 to \$10,000 a year, to permit the state to extend its credit to help in buying homesteads.

At an election November 4.—To abolish the system in payment of public officials, to increase from five to seven cents the special tax for Confederate pensions; to authorize the state to issue \$25,000,000 in bonds for a system of state highways; to authorize the county to issue \$5,000,000 in bonds for grade raising and sea wall extensions; to decelerate of the Texas Agricultural Experiment Station from the University of Texas and a division of their permanent funds; dividing profits from the operation of the prison system among the convicts and their dependents.

Brief Review of Work.

The bills passed comprised a wide range of public interest and appeal. A brief review of the more important measures shows: four million dollars appropriated for aid to rural schools during the next two years; creation of board of control composed of three members to be appointed by the governor to authorize the common and independent school districts to expend the fifty-cent tax limit for school purposes; appropriation of \$1,000,000 to supplement the available school funds for the remainder of this fiscal year; imposition of a one-half and one-half cent gross production tax on oil which is expected to yield \$1,500,000 annually; prohibiting the use of any language other than English in the construction of public buildings; prohibiting the operation of pool halls for profit; prohibiting the exhibitions of carnivals shows; declaring pipe lines common carriers and giving them the right of eminent domain; declaring gas pipe lines public utilities and placing them under the jurisdiction of the railroad commission; creation of a minimum wage commission for women and minors; creating a woman's division of the state bureau of labor, amending the pink bond law to permit growing of cotton under regulation of the quarantined districts; revision of laws concerning coal mining; limiting damages expenses of candidates in primary elections; increasing the salaries of district attorneys; transferring to the Federal government the quarantine tax on oil in the Gulf coast and abolishing the double quarantine inspection; relieving the counties to purchase seeds for farmers; granting tax on oil; creating compensation of jurors from \$2.50 to \$3 a day; permitting garages to incorporate; permitting companies to incorporate for the manufacture of airplanes; prohibiting the placing the name of an ineligible person on an official ballot; providing that penal sentences may be cumulative or concurrent, permitting an appeal in election contests; providing for forfeiture of interest of beneficiary in life insurance policy when beneficiary contributes to the death of the insured; prohibiting sale of property belonging to persons in the United States military service until 12 months after discharge; exempting persons in the military service from payment of poll taxes.

OIL DEVELOPMENT

PRODUCTION ON VANCELEAVE FARM PILING UP WEALTH FOR OWNER

More than two score of oil companies with millions of dollars of capital are working day and night to make John Vancleave the richest man in Texas. Just to make the going easy John lends a hand once in a while. For instance the other day he sold 243 shares in the Vancleave Oil Co. to the Jagers Wallace Oil Association of Fort Worth for \$303,750, or at the rate of \$1250 for each \$100 share. The company owns a ten acre lease on the Vancleave farm, and has three producing wells. A five day test of the wells showed a daily average of 1350 barrels.

Mr. Vancleave has lost count of the number of oil companies operating on his farm and of the number of producing wells. But there are scores of wells now turning their golden flow into the pipe lines and he gets every eighth barrel. And all that is necessary for him to do is to go down to his bank and take credit for his balance. His monthly income is approaching six figures, as production on his farm mounts with the bringing in of new wells.

Mr. Vancleave is interested in a number of oil companies, operating on his land, and in other parts of the field as well, and has other interests, real estate and otherwise, in Wichita Falls and Wichita county.

A partial list of the companies operating on the Vancleave land, follows:

Big Chief Oil Co.: \$65,000 capital; 1/2 acre out of block No. 101; well No. 1, casing on sand.

Bowie Oil Co.: \$60,000 capital; 5 acres out of block No. 101; well No. 1, drilling.

Burnett Petroleum Co.: \$45,000 capital; east 5 acres of 10 acres lying subdivision of A. J. Vancleave block No. 101; well No. 2, drilling.

Croft Oil Co.: \$60,000 capital; 5 acres out of block No. 101; well No. 1, drilling.

East Side Petroleum Co.: \$50,000 capital; 5 acres out of block No. 101; well No. 1, casing on sand.

Fowler Farm Oil Co.: \$12,000 capital; 100 acres out of block No. 101; well No. 1, casing on sand; No. 2, drilling.

Gulf Production Co.: \$2,000,000 capital; 60 acres out of block No. 106; 40 acres out of block 102.

Harvester Oil Co.: \$60,000 capital; 5 acres out of block No. 101; well No. 1, drilling.

R. O. Harvey et al Oil Co.: 2 1/2 acres out of block No. 101; 12 1/2 acres out of block No. 102; 20 acres out of block No. 103; 100 acres out of block No. 104; one-half of 5 acres out of block No. 102; wells Nos. 1 and 2, producing; No. 3, drilling.

Helen Elizabeth Oil Co.: \$50,000 capital; 10 acres out of block No. 102; wells Nos. 1 and 2, producing; No. 3, drilling.

Horne Oil Co.: \$65,000 capital; 15 1/2 acres out of block No. 102; well No. 1, producing; No. 2, drilling.

Hising Oil Co.: \$65,000 capital; 7 1/2 acres out of block No. 102; well No. 1, casing on sand.

Imperial Petroleum Co.: \$50,000 capital; 2 1/2 acres out of block No. 101; 5 acres out of block No. 102; well No. 1, drilling.

Lawton Oil Co.: \$70,000 capital; 10 acres out of block No. 101; well No. 1, casing on sand; Nos. 2, 3, 4, drilling.

Luck Five Oil Co.: \$35,000 capital; 7 1/2 acres of the Hising subdivision out of block No. 102.

Marine Oil Co.: \$200,000 capital; 50 1/2 acres out of block No. 102; well No. 1, producing; No. 2, drilling.

Montague Oil Co.: \$35,000 capital; 2 1/2 acres out of block No. 106; well No. 1, casing on sand.

Reliable Oil Co.: \$65,000 capital; 5 acres out of block No. 101; well No. 1, producing.

Robertson Petroleum Co.: \$140,000 capital; 10 acres out of block No. 101; well No. 1, drilling.

HALF INTEREST IN WOODROW LEE OIL CO. SELLS FOR \$70,000

W. S. Curlee, Dr. Guest and D. Bolding have sold their half interest in the Woodrow Lee Oil Company to Roberts and Hill, the drilling contractors, for \$70,000. The property consists of a two and a half acre tract in the Hardin tract, Dubose survey, and one well already in.

LEBARRE OIL CO. STRIKES A SHALLOW SAND ACROSS RIVER

It is reported that the LeBarre Oil Company reached the shallow sand at 675 feet in their well in section 23, Cotton county, Okla. They were 18 feet in the sand and still drilling in and late last night, with a good showing of oil.

Kowalski and Weaver, their contractors on this well, have drilled a large number of wells in the Burk Burnett field and they state that the formations in the LeBarre well are almost uniform with the upper formations in the uBurk Burnett field.

CHAPMAN WELL TO SOUTH OF ZINK IS A GOOD PRODUCER

The well, drilled by Chapman et al on the Chapman land, just south of the Zink lease, is reported to have drilled into the sand between 780 and 790 feet last night, and this morning, the report continues, the oil was running out of the top of the casing. The well is estimated by the owners as good for between 50 and 75 barrels. The sand was struck ten feet above the Zink sand.

TWO NEW WELLS REPORTED TODAY AT BURKBURNETT

The Wizard Oil Co. No. 1 was drilled yesterday on the Cagle tract in the western part of Burk Burnett. The well started production at the rate of about 800 barrels a day.

EDNA VANCELEAVE OIL CO. REPORTED ON THE SAND

The Edna Vancleave Oil Company, drilling on its north two and a half acre tract, struck the oil sand Tuesday, according to reports from the field. Setting of casing will start today.

For choice tract close up, almost offsetting Hardin-Marine No. 4, easy terms, see W. M. Priddy, 408 Kemp & Kell Bldg. Office phone 71, residence phone 1756. 260-16

OIL INVESTORS WILL MEET TONIGHT AT THE NETTLE OIL EXCHANGE

A meeting of the newly organized Oil Investors Association will be held at the Nettle exchange tonight, for ratification of officers and the report of the committee named last week to arrange plans for permanent organization.

SILVER STAR OIL CO. TO START DEEP TEST

J. R. Hopson announces that a deep test is to be started by Saturday of this week, on the shallow lease of the Silver Star Oil Company, three miles southwest of Burk Burnett. The contract has been let to L. W. Miller, one of the oldest and most successful drilling contractors in this section, according to the announcement, which adds that Mr. Miller is quite heavily interested in the company. The Silver Star already has several shallow wells now on the pump, and is now going after the deep pay.

KNOWLES WELL IN COMANCHE COUNTY INCREASING FLOW

Special to The Times. FORT WORTH, March 19.—Comanche county furnished the oil sensation Wednesday. Authoritative reports state that the Knowles well of the Tex-Penn Oil Company after having been drilled three feet deeper into the sand increased its flow to 10,000 barrels a day. This is nearly five times the production this well has been showing for several weeks, and about 3,000 barrels more than it showed in its best early days. The Duke Recovery well is making only about 3,000 barrels and no other well in the Duke field has held up for more than 700 barrels, but the action of the Knowles will wonderfully improve the outlook in that territory.

RIG HAS ARRIVED TO COMPLETE THE BURKBRIDGE WELL

Setting up of the star rig to drill in began at the Burkbridge well today, J. R. Aternathy stated, the rig finally having been located and gotten to the well. Mr. Aternathy has wired P. C. Rousch, government expert driller who will superintend the drilling in, that the rig has arrived and is ready to drill in, and there will now be no more delays in completing the well, as soon as the expert driller arrives.

EXCLUSIVE STYLES

What Fascinating Suits For the Younger Generation

This is a wonderful year in which to be a young woman of eighteen to twenty-two! Or to be a trifle older in years, but able to wear the youthful Suits, for they are more Winsome, more Artistic, more Ornate than they have ever been before.

The Miss of youthful years may choose from all the styles designed for women; but she has so many more that older women must forego.

She may select from the strictly tailor-mades, which she can wear with such ease and grace.

She may select from the smart box-coat Suits, for which she was truly born.

She may select from the Bloused Suits that have such a girlish effect.

And whatever she chooses, is now made with such skill and art—so good-fitting and so becoming—that maiden and mother are both abundantly gratified with the suit selected.

Come in and see these NEW THINGS that are arriving on every express—

Suits at \$25.00 to \$135.00

SKELLY AND SANKEY WELL IN COMANCHE NOW MAKING 700

Special to The Times.
EASTLAND, TEX., Mar. 19.—Reports from the Comanche county fields are that the well of Skelly and Sankey on the Hog land there has been rapidly increasing its production to a point where it is now making more than 700 barrels. This well was simply a gasser a few weeks ago when drilling was suspended, but it has been increasing its production of oil all the while.

TO DRILL A DEEP TEST JUST NORTH OF BELLEVUE

The Tulsa Producing and Oil Refining Company has contracted for a deep test about three miles north of Bellevue, Clay county. The tools are in Dallas, according to the report of the contract being let, and drilling will commence as soon as the tools can be moved to the location and rigged up.

NAVIGATING FACILITIES GO TO SWITZERLAND

By Associated Press.
PARIS, Tuesday, March 18.—The commission on international waterways, ports and railways of the peace conference decided today to recommend to the conference that Switzerland should be given the navigating facilities on the Rhine for which she has made demands.

WORDS FROM HOME

Statements That May Be Investigated.
Testimony of Wichita Falls Citizens.

When a Wichita Falls citizen comes to the front, telling his friends and neighbors of his experience, you can rely on his sincerity. The statements of people residing in far away places do not command your confidence. Home endorsement is the kind that backs Doan's Kidney Pills. Such testimony is convincing. Investigation proves it true. Below is a statement of a Wichita Falls resident. No stronger proof of merit can be had.

G. A. Swope, carpenter, 612 Burnett St., says: "My kidneys acted irregularly. The kidney secretions contained sediment, passed too often, and then again, not often enough, and were very painful. Doan's Kidney Pills, restored my kidneys to a normal condition and the kidney secretions became natural."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Swope had. Foster-McBarn Co., Mfrs., Buffalo, N. Y.

HAPPY WIDOW IN SPOOKY PLAY.

"Penny Wise" was produced in joyous mourning at the Belmont Theatre, New York, with Miss Molly Pearson as the happy widow. The new play of Laurence H. White, by Mrs. Mary Stafford Smith and Leslie Vynar, proved funnier than a funeral and moved faster than a stalled horse in a snow storm. All of which is no reflection on the farce comedy. No, indeed. The authors have taken the merry theme of death upon which to pile the most laughable and absurd complications, and if they had more story and less of the long arm of coincidence it would have been a wholly happy occasion. For, though grim, some of the scenes compelled laughter. These shortcomings, however, are against the long life of the hero, who dies pickled for his family and his insurance policy.

BUREAU OFFICE OF WAR RISK INSURANCE TO BE LOCATED HERE

Word was received today from the Dallas office of the Bureau of War Risk Insurance officially confirming the location of a bureau office in Wichita Falls under the supervision of H. D. Hockersmith, special field examiner, who will have charge of examination of all claims in this section of the state as well as in a part of Oklahoma.

The office will be established here for the primary purpose of carrying out all the provisions of the war risk insurance law and of assisting in the reconstruction movement for the benefit of discharged soldiers. Hockersmith's duties will concern investigation of all claims pertaining to insurance, exemptions, compensation, allowances and allowances. His temporary address will be the chamber of commerce, until office space can be obtained, and all persons who have claims affecting these matters are urged by the bureau, to present them as early as possible.

PROMINENT CONTRACTOR AND ATTORNEY VISITORS TO CITY

Messrs. Buder and Breck of St. Louis are in Wichita Falls on business. Mr. Buder is a prominent attorney, connected with the Selzer Breck Construction Company and the Durroughs Adding Machine Company. Mr. Breck is a member of the firm, Selzer Breck, which has contracts for several of the large new buildings now under construction in this city.

ARMY RECRUITING STATION TO BE OPENED IN CITY

Lieutenant-Colonel Leo P. Quinn arrived in Wichita Falls from Dallas this morning, and is making arrangements to establish a United States army recruiting office in this city.

The office will be opened to accept men for all branches of the service for enlistment period of one year or three years. Men who have seen former service, either in the recent selective draft army or prior to the European war, will be accepted for one-year periods, if they so desire, while "green" recruits will be taken in for the regular three-year enlistments.

Lieut. Col. Quinn spent the morning with Secretary Wiley of the chamber of commerce seeking a suitable location for the recruiting office.

LADY BUYS LIBERTY BONDS WITH OPERATION MONEY

"I have been busy saving up money for an operation for gall stones which my physician advised in my case. Since taking one bottle of Mary's Wonderful Remedy I look as though I can safely use this money to buy Liberty Bonds. I suffered four years with colic attacks and bloating. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. (Adv.)"

FEELING BLUE LIVER LAZY TAKE A CALOTAB

Wonderful How Young and Energetic
You Feel After Taking This Delightful Nausealess Calomel.

If you have not tried Calotabs you have a delightful surprise awaiting you. The wonderful liver-leansing and system-purifying properties of calomel may now be enjoyed without the slightest unpleasantness, for Calotabs are calomel with the liver benefits left in and the sting taken out. A Calotab at bedtime with a swallow of water, that's all. No taste, no nausea, no salts, nor the slightest unpleasant after-effects. You wake up in the morning feeling fine. Your liver is clean, your system is purified, your appetite hearty. Eat what you wish, no danger and no risk of salvation. The next time you feel lazy, mean, nervous, blue or discouraged give your liver a thorough cleansing with a Calotab. They are so delightful an effective that your druggist is authorized to refund the price as a guarantee that you will be delighted.

For your protection, Calotabs are sold only in original, sealed packages, price thirty-five cents. At all drug stores. (Adv.)

HOTEL RATES

AND ROOM RATES AT

WICHITA FALLS, TEX.

"The Oil Center of the Southwest"

In order that the general public may be properly informed as to existing hotel rates and rates for private rooms in Wichita Falls, the Wichita Falls Chamber of Commerce has caused the printing of this advertisement, showing rates which the leading hotels of Wichita Falls have agreed to charge, and which rates are therefore guaranteed. We believe that these rates are well in line with those charged in other large cities, and while the demand for hotel room in Wichita Falls has been and is today unprecedented, still these hotels do not desire to profiteer, and guarantee rates shown below.

ST. JAMES HOTEL

515-17 Seventh Street

1 person, room with bath, room price	\$3.00
2 persons, room with bath, room price	4.50
1 person, room without bath, room price	2.00
2 persons, room without bath, room price	4.00

TENT CITY

Ohio and Fifth Streets

Cots 50c per night each
Special weekly and monthly rates.

PRIVATE ROOMS

The Wichita Falls Chamber of Commerce is unable under existing State laws to set a price on rooms in private residences let out to visitors by day, week or month, but in order that there may be no profiteering, we have through our Room Exchange Bureau set the following registration prices on rooms in private homes, viz:

Room, per month, one person \$20.00
Room, per month, two or more persons 30.00

We will not list any room at rates exceeding these rates, and at the present time we are in position to place visitors in rooms throughout the city at rates shown above. **Don't pay more—see us first. OUR SERVICE IS FREE.**

We are here to serve Wichita Falls—and to serve the thousands of people who have business in Wichita Falls, the "Oil Center of the Southwest. **THE BACKBONE OF THE PROFITEER HAS BEEN BROKEN.** Help us to help you. There is no reason why you should be a victim of profiteering in Wichita Falls.

WITH ACCUMULATION.

Two small blazes either of which had potentiality of a serious fire were reported yesterday. Both of these incipient fires originated because of accumulations of waste paper and trash. The business sections are filled with such accumulations. Any one of them is like so much kindling, and the fire hazard will be great until these accumulations are hauled and kept cleaned up.

The only way this can be done is to increase the sanitary force and add more teams and wagons. If the city's charge is too small to maintain the service, and the fees are so small as to amount almost to nothing, they ought to be raised.

The situation is getting worse and something ought to be done without delay.

Some well-meaning persons have been horrified by the promotions at Burkburnett. There have been both good and bad promotions there, but already a large number of investors have been paid back their original investment and more in addition. Dividend-payers are being added to the list almost daily and within areas that have been defined about ninety per cent of the wells completed are producers and the great majority of the companies will pay back the investors, with the prospects good for substantial profits. Most of the promoters at Burkburnett have fully earned whatever they have gotten out of their promotions. There are folks two thousand miles away whose only acquaintance of the oil business has been the fake oil promoter who are criticizing the joint stock associations being organized by people of our home community for the development of leases here at home.

Denton county voted a million and a half dollar road bond issue Saturday by a very large majority. Denton county folks want to get out of the mud. If memory serves us right a road bond issue was defeated in Denton county a few years ago by as large a majority as the present issue carried. Saturday's victory for good roads shows what persistency will do.

ANNOUNCE DEPARTURE OF
APPROXIMATELY 30,000 MEN

By Associated Press.
WASHINGTON, Mar. 19.—Departure from France of approximately 30,000 officers and men of the American Expeditionary Forces—the largest single homeward movement of troops since the cessation of hostilities—is announced by the War Department. The returning soldiers are aboard two cruisers, the Montana and the Pueblo, and fourteen transports. Among the latter is the George Washington on which President Wilson returned to France.

Troops making up the movement include units of the Thirty-seventh and Thirtieth (Tennessee, North and South Carolina National Guard) Divisions; the 72nd Coast Artillery Regiment and a large number of casuals. The transports and cruisers are due to arrive at American ports between March 24 and April 2.

Among the transports coming is the Santa Olivia expected to arrive at New York March 21, which carries a detachment of the 12th Infantry; detachments of the 14th Infantry, and casual companies for Texas, Maryland, Alabama, Michigan, Indiana, Connecticut, Oklahoma, Iowa, California and Illinois.

Bedtime Stories

(By Howard R. Garis)

Uncle Wiggly and the Stove Pipe.

"A-ker-choo! A-ker-choo! A-ker-choo! Heck! Heck! Blizzum! Bank!" That was the funny noise Uncle Wiggly Longears, the bunny rabbit gentleman, heard out in the kitchen of his hollow stump bungalow one morning.

"My goodness!" cried Uncle Wiggly. "I wonder what Nurse Jane Fuzzy is laughing at now?"

Then he listened, and again he heard:

"A-ker-choo! Ker-fizzum! Zoop!"

"Why, she isn't laughing at all!" exclaimed the bunny gentleman.

"Nurse Jane is coughing and sneezing, I hope she isn't getting the epizootic!"

Uncle Wiggly ran out to the kitchen, and, as soon as he reached there, he saw that the room was filled with smoke, which was twisting and turning about like white snakes, while, over in one corner, by the sink, where she had begun to wash some dishes, stood Nurse Jane.

"What-a-ker-choo—is the a-ker-choo-matter?" asked the bunny, himself coughing and spluttering.

"Oh, there's a hole in part of the stovepipe," answered Nurse Jane, as she wiped the tears from her eyes, and the smoke is leaking out into the room."

"I think say it was!" coughed Uncle Wiggly, and he had to wipe some tears from his eyes. He and Nurse Jane weren't really crying, you understand—the smoke just made tears come in their eyes, the same as it does yours if you go too near a bonfire, which I hope you never do!"

"A hole in the stovepipe?" went on Uncle Wiggly. "Well, that must be fixed at once. I'll go get a new pipe."

"I wish you would," begged Nurse Jane. "And I guess I'd better let the

fire go out. It smokes so, and the smoke comes out into the room, instead of going up the chimney through the pipe."

"Yes, let the fire out," agreed Uncle Wiggly, "and I'll go to the 15 and 16 cent store and get a new piece of stovepipe to use in place of the one with the hole in."

When the fire was out the smoke no longer filled the kitchen of the hollow stump bungalow, and the tears stopped coming into the eyes of Nurse Jane and Uncle Wiggly. But it was cold, with no fire, so the muskrat lady-housekeeper went over to stay with Mrs. Wibblewobble, the duck lady, and Uncle Wiggly, in his fur coat and tall silk hat, hopped along to the 15 and 20 cent store to get a new stovepipe.

"If I had some of my old tall silk hats, I might have used one of them for the stovepipe," thought the bunny to himself, "but I suppose it is best to get a new one."

And so he did. At the store he bought a nice long black shiny length of pipe, with a hole all the way through it from end to end so the

smoke could sail out and up the chimney.

With the stovepipe under his paw Uncle Wiggly started to hop back to his hollow stump bungalow.

"I wonder if I'll have an adventure today," said the bunny rabbit, speaking out loud, as he often did, when in the woods. "I wonder if I will?"

"Yes," suddenly said a voice near him, "you will!"

"Eh? What's that?" cried Mr. Longears.

"I said you have an adventure, and you will—right now!" the voice went on, and, out from behind a bush, jumped the bad old Pipsisewah. Uncle Wiggly started to run but the Pip, as I call him for short, ran after the bunny, and soon caught up to him.

"What do you want?" asked Uncle Wiggly.

"Souce off your ears!" answered the

Pip.

"Which ear?" asked the bunny, and all the while he kept hopping along, thinking, maybe, he could get to his bungalow and run in and shut the door, and shut out the Pipsisewah. "Which ear do you want souce off?" asked Uncle Wiggly.

"Both ears," snapped the Pipsisewah. "I'm so hungry I want souce off both your ears, and I'm going to take it now!"

But, all of a sudden, Uncle Wiggly dropped on the ground the piece of black shiny stovepipe, with the big round hole in. Then, just as quickly, Uncle Wiggly crawled inside the length of stovepipe. Then the bunny began to wiggle, and the stovepipe, with Mr. Longears inside, began to roll, had it rolled over and over and over, down hill, faster and faster.

"Hi, there! Stop! Wait a minute!" cried the Pip.

But Uncle Wiggly didn't stop. Safe inside the stovepipe he rolled to the bottom of the hill and he reached there before the bad Pipsisewah did. Then Uncle Wiggly popped out of the pipe, ran into his bungalow, locked the door and the Pip couldn't get him at all.

And, when the Pipsisewah ran away, Uncle Wiggly put the new piece of stovepipe where the old one was, built a fire and Nurse Jane came back and cooked dinner. So everything came out all right, you see, and, if the teacup doesn't roll off the pantry shelf and break its handle when it's trying to play tag with the sugar bowl, I'll tell you next about Uncle Wiggly and the ball of string.

SEVERE TEST SHOWS
HOW TO SAVE SHOES

"A molder in our foundry wore a pair of shoes with Neolin Soles every day for ten months and two weeks—both in the foundry, and to and from his work—and they are just worn out."

The Sessions Foundry Company of Bristol, Connecticut, makes this report on a pair of Neolin-soled molder's shoes given them for test.

Neolin Soles have none of the shortcomings of other soles. They do not burn or crack under conditions such as these—nor do they wear out quickly under the grind of abrasive materials.

They are made by Science to be especially tough and durable, will stand the roughest kind of usage and so wear longer and save money. Moreover, they are comfortable and waterproof.

You can get them on new shoes in many styles for men, women and children—or as re-soles. They are manufactured by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear all other heels.

MYSTERY SURROUNDS MURDER TUESDAY OF MRS. G. GREENWOOD

By Associated Press. OAKLAND, CALIF., March 19.—The killing of Mrs. George Greenwood, wife of a prominent banker of this city, by an explosion at the Greenwood home here last night, was almost as much a mystery early today as when Mr. Greenwood, aroused by the explosion, looked from an upstairs window to see his wife's body in the garden below. The police say they have two slender clues. They are six small pieces of galvanized iron wire removed from the body by surgeons along with a bit of lead, fragments of brick and scraps of her clothing, and the fact that in January, 1919, a letter received by Mr. Greenwood demanded delivery of \$5,000 at a certain spot under penalty of having his home destroyed by an explosion.

The letter was signed "C. C. of C." which initials were also appended to a threatening letter received by Governor William D. Stephens before the executive mansion at Sacramento was dynamited a year ago. This led the police to believe that the same persons were responsible for both explosions.

EAST TEXAS FARMERS PLANNING TO REDUCE THE COTTON ACREAGE

By Associated Press. TEXARKANA, TEX., March 19.—Farmers in East Texas are going to live up to their agreement to plant more food stuffs and cut down on the cotton acreage during the coming planting season, according to E. Gentry of Mineola, district farm demonstration agent, who is in this section on business in connection with his office.

Speaking of the agricultural work of the government Mr. Gentry said the failure of congress to pass the appropriation for this purpose would be a hard blow to the interests of agriculture.

Agents have been instructed to cut down their work 40 per cent beginning July 1 because of the insufficient funds to carry on the work. Reports from other sections of the country are showing that the farmers of the state are intending to follow out their promises and cut down the cotton acreage. Thousands of acres of farm land formerly grazed by Old King Cotton will this year bear products along a food stuffs line. Crops are diversified to a great extent and the markets will display a varied collection of vegetables which will be in greater abundance, provided weather conditions permit, than has been seen in years.

REV. PATRICK JOSEPH HAYES INSTALLED AS ARCHBISHOP

By Associated Press. NEW YORK, March 19.—Prominent dignitaries of the Roman Catholic church assembled here today to witness the installation of the most Rev. Patrick Joseph Hayes, as archbishop of New York, in St. Patrick's cathedral late this afternoon. Archbishop Giovanni Bonzano of Washington, the apostolic delegate to the United States will represent Pope Benedict XV and officiate at the rites. More than one thousand priests in the archdiocese including many army and navy chaplains, will participate in the ceremony of kissing the archbishopal ring in token of their obedience.

OF INTEREST TO SPORT FANS

CONFERENCE HELD TO DISCUSS PLANS FOR COMING BOUT

By Associated Press. NEW YORK, March 19.—At an informal conference here last night the manager of Jess Willard and Jack Dempsey discussed the heavyweight championship contest scheduled for July 4, with Promoter Tex Rickard preparatory to arranging for preliminary training. Willard was represented by Ray Archer, while Dempsey's plans were explained by Jack Kearns.

Both managers stated that they were in this city prepared to engage sparring partners for their principals and each carried a list of heavyweight boxers from which it was expected they would be selected. Archer said he was prepared to take at least two such helpers back to Lawrence, Kansas, with him when he leaves for Willard's home town at the end of the week.

Willard Begins Light Work.

According to the champion's manager, Willard has already begun light physical work and is a trifle below 200 pounds in weight. He is particularly desirous of getting sparring partners of about the height and weight of Dempsey and in order to be accepted they must be fast, hard hitting, two handed punchers. Willard will not use the heavy type of partner with whom he trained when he was preparing for Johnson in Havana.

The champion will do all of his work at his home in Lawrence until six weeks before the bout, when, according to the terms of his contract with Rickard, he will move to the scene of titular battle. In the interval, however, Willard will find time to star in a moving picture drama in which he will appear as the hero. He will be filmed during his actual training work and will take part in a ring battle. Willard's stipend for submitting himself to the camera will be \$100,000, it is reported.

Dempsey to Palm Beach.

Dempsey expects to leave for Palm Beach today for a week or ten days of rest before engaging in an athletic endeavor of a nomadic nature during which he will swing as far west as Kansas and then by a southern route, return to the east. Before he leaves he expects to purchase a large farm near Freehold, N. J., where the challenger will do his training, as may be necessary, before moving out to the scene of the bout. Kearns said that Dempsey weighed 190 pounds at present, and would enter the ring at between 192 and 195 pounds, according to the altitude at which he would fight.

He will begin serious training on May 1 and will have as sparring partners the largest and heaviest men who can be engaged in order that he may be accustomed to boxing with men as near as possible the physical standard of Willard. Andre Anderson is the only one mentioned to date. Rickard plans to return to his Texas home.

MAY PLAY WITH GIANTS

ROGERS HORNSBY

Rogers Hornsby, the star shortstop of the Cardinals, according to latest reports, is about to be traded to the Giants. Hornsby is a young star with a brilliant record and is much sought after by several other clubs in the National League.

all fields today and will be absent from this city for several weeks. He added positively last night that he would not announce the site of contest, the referee or other details until April and that he did not expect to investigate any prospective fights while away.

RUTH DEMANDS \$10,000 AND THREE YEAR CONTRACT.

By Associated Press. BOSTON, March 19.—Babe Ruth, in a signed statement which will be made public here today, says he will not play with the Boston American League club this season unless he is awarded a three-year contract at \$10,000 a year or a contract for this season at \$10,000. He says Harry Frazee, president of the club, has offered him a one-year contract at \$8,000.

CHARLIE SCHMIDT IS TO MANAGE SIOUX CITY

SIOUX CITY, IOWA, March 19.—Charlie Schmidt, former Detroit catcher, has signed a contract to manage the Sioux City club of the Western baseball league.

"BABE" RUTH DID NOT ACCOMPANY TEAM ON TRIP TO JACKSONVILLE

By Associated Press. NEW YORK, March 19.—"Babe" Ruth, leading pitcher and batsman of the Boston American League team, did not accompany the team when it sailed for Jacksonville, Fla., on the way to its training camp at Tampa. Ruth, who has not signed a contract, had an engagement here today to talk over terms with Harry Frazee, president of the club, but did not appear.

CHARLIE MURPHY WANTS A LOOK AT THE BOOKS

By Associated Press. CHICAGO, March 19.—Charles W. Murphy, former president of the Chicago club of the National League, who recently purchased five shares of stock in the organization, Tuesday filed a petition in the circuit court for a writ of mandamus to compel officials of the club to allow him to examine its books and records. The action is directed against Fred L. Mitchell, president, and John J. Sevey, secretary, who Murphy alleges, refused his request that he and his attorney be permitted to examine the club's records.

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side..."

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there.

I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.

This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble.

I feel it was Cardui that cured me, and I recommend it as a splendid female tonic. Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists.

Market Report

COTTON MARKET

By Associated Press. NEW YORK, March 19.—There was a renewal of scattered realizing of liquidation in the cotton market during today's early trading owing to better weather in the south and disappointment that the recent advance had not inspired a more active or general trade demand. The opening was steady at an advance of 25 points to a decline of ten points on old style contracts, but unchanged to 17 points lower on new style deliveries when soon sold some 20 to 30 points under last night's closing. May eased off to 24.95, and October to 21.10.

There were slight rallies toward the middle of the morning on covering, but the market quickly weakened again under increased southern selling reports of labor trouble among British coal miners and a disposition to even long contracts before the publication of census giving figures for March. The more active old style months sold 30 to 43 points under new style contracts 29 to 47 points under last night's closing figures with May touching 24.91 and October 20.95.

There was a better demand around the 24 cents level for new style May contracts but the buying tapered off to a rally of 15 to 20 points and the market was very quiet during the middle of the afternoon. New style May ruled around 24.16 and October 21.03 or about 14 to 17 points net lower.

Cotton closed steady.

New Orleans Cotton.

NEW ORLEANS, March 19.—Better weather over the belt had a bearish effect on cotton today. Momentarily on the opening contracts were four to five points higher but at the end of the first half hour trading prices were 10 to 12 points under the closing of yesterday.

Circulation of March notices for about a thousand bales of tenders caused weakness in the trading up.

LIVERPOOL COTTON.

LIVERPOOL, March 19.—Cotton spot steady; prices easier. Good middling 16.18; middling 15.40; low middling 14.35; good ordinary 12.85, ordinary 12.30.

Sales 3,000 bales, including 2700 American; receipts 3,000 bales, including 200 American.

Future closed steady: March 16.47; April 15.66; May 14.50; July 13.67; September 13.07.

GRAIN AND PRODUCE

By Associated Press. CHICAGO, March 19.—Prospects of enlarged exports from Argentina had a bearish influence today on corn and so too did improved weather conditions likely to better the domestic crop movement and to diminish feeding demand.

Trade, however, was chiefly of local character. Opening prices, which ranged from a one cent decline to a like advance with \$1.41 to \$1.42, and July \$1.34 to \$1.35, were followed by a moderate decline all around, and then by a transient rally.

Dals merely reflected the changes in corn. After opening unchanged to 1/8¢ lower with May 64 to 64 1/2¢, the market showed a disposition to sag.

Bulls were handicapped by the failure of shipping demand here to broaden. Prices closed unsettled 1/2¢ net lower to one cent advance with May \$1.43 1/2 to \$1.43 3/4 and July \$1.35 1/2 to \$1.35 3/4.

Pork and ribs declined to the maximum limit but then reacted as a result of scattered buying.

Provisions lacked support.

LIEUT. NASH TALKS AT CLUB LUNCHEON TO SPEAK TONIGHT

Lieutenant C. C. Nash, First Division of Canadian Infantry, gave one of the most thrilling addresses before the Wichita Club at today's luncheon that has been heard in this city. He spent 31 months in the trenches and one year in the hospitals of France, England, Canada, and Belgium, and his ability to bring the battle-ground right down before his audience was greatly appreciated by everyone. His story of the battles of Vimy Ridge, Pauchendale, the Somme and others, makes them most real and vivid. He was in twelve of the biggest battles. Owing to the value of the lecture, arrangements have been made for it to be given in full under the auspices of the Wichita Club tonight at the Baptist church at 8 o'clock.

Y. W. C. A. CAMPAIGN FOR MEMBERSHIP ON TOMORROW MORNING

COMMITTEES ARE CALLED TO MEET AT NORTH TEXAS FURNITURE COMPANY.

THOROUGH CANVASS OF CITY

No Dues But Voluntary Contributions Will Be Solicited from the Public.

Tomorrow morning at 8:30 all the members of the Y. W. C. A. membership campaign committees are called to meet at the North Texas Furniture Store, for the purpose of beginning the canvass which is expected to enroll several thousand women and girls of this city as members of the Y. W. C. A. Mrs. J. W. Culbertson, the general chairman for the campaign, asks that all those on the committees be on hand at the appointed place promptly at 8:30, as Miss Kirk, the Y. W. C. A. secretary, will give the final instructions to the canvassers at that time, and it is imperative that all bear the directions, and the explanation of the plan to be pursued.

No Dues Attached.

As has been stated before, and a point which the committee wishes to be emphasized, there are no dues attached to becoming a member of the Y. W. C. A. Voluntary subscriptions towards the support of the organization are expected from those whose means make it possible but to become a member entails no expense whatever. Donations will be received in any amount which the donor is able to give, and will be appreciated.

The committee is very enthusiastic over the prospect, and expect to enroll a large number of members tomorrow. Mrs. Culbertson stated today, "The various sub-chairmen have been very busy with their plans for the membership drive and they request that none of those who have been named to serve, disappoint them, as this is a very important matter. The committees appointed, and the districts in which they will work, follow:

Districts and Committees.

Down town District: north to south; 1st street to 15th street; east to west, Michigan to Scott—Mrs. C. J. Coyne, chairman; Mesdames C. W. Snider, C. R. Hartsock, C. J. Barnard, W. H. Robertson, Ed Howard, M. M. Adickes, O. H. Lillard, J. W. Culbertson, Miss Kirk.

District Number One: north to south; River to 7th street; east to west, Scott to Burnett—Mrs. C. W. Snider, chairman; Mesdames Gorsline, Timberlake, Tully, N. H. Martin, Jeff Waggoner, Shaw.

District Number Three: north to south; 10th to 14th streets; east to west, Scott to Burnett—Mrs. T. T. Reese, chairman; Mesdames Frank Gates, C. M. Miller, B. F. Johnson, W. S. Curlee, J. W. Akin, E. H. Maupin, M. J. Bashara, Walter Robertson, John T. Roberts, J. W. Bradley, Danforth.

District Number Four: north to south; 14th street to Wichita Valley tracks; east to west, Scott to Burnett—Mrs. R. O. Harvey, chairman; Mesdames McCutcheon, Harry Weeks, Fred Weeks, Newton Maer, H. O. Cravens, Joe Daniels, Everett Jones.

NEW YORK STOCKS

By Associated Press. NEW YORK, March 19.—The stock market was hesitant at the opening of today's trading but soon developed a firmer tone under lead of shippers which featured yesterday's stronger shares. Marine preferred rose at most three points in the first half hour and Atlantic Gulf two points. Gains extending from fractions to three points were scored by American Sugar, Industrial Alcohol, Distillers, Allis-Chalmers and fertilizers. Motors and Allied specialties tended moderately lower, also tobaccos, leathers and metals.

Baldwin Locomotive and Mexican Petroleum were offered at concessions of one to two points at midday but otherwise were firm. Steel sustained. Marine preferred and American sugar increased their gains and minor equipments strengthened while Kelly Springfield rebounded five points.

NEW YORK, March 19.—The stock market was hesitant at the opening of today's trading but soon developed a firmer tone under lead of shippers which featured yesterday's stronger shares. Marine preferred rose at most three points in the first half hour and Atlantic Gulf two points. Gains extending from fractions to three points were scored by American Sugar, Industrial Alcohol, Distillers, Allis-Chalmers and fertilizers. Motors and Allied specialties tended moderately lower, also tobaccos, leathers and metals.

Baldwin Locomotive and Mexican Petroleum were offered at concessions of one to two points at midday but otherwise were firm. Steel sustained. Marine preferred and American sugar increased their gains and minor equipments strengthened while Kelly Springfield rebounded five points.

Y. W. C. A. CAMPAIGN FOR MEMBERSHIP ON TOMORROW MORNING

COMMITTEES ARE CALLED TO MEET AT NORTH TEXAS FURNITURE COMPANY.

THOROUGH CANVASS OF CITY

No Dues But Voluntary Contributions Will Be Solicited from the Public.

THOROUGH CANVASS OF CITY

No Dues But Voluntary Contributions Will Be Solicited from the Public.

Tomorrow morning at 8:30 all the members of the Y. W. C. A. membership campaign committees are called to meet at the North Texas Furniture Store, for the purpose of beginning the canvass which is expected to enroll several thousand women and girls of this city as members of the Y. W. C. A. Mrs. J. W. Culbertson, the general chairman for the campaign, asks that all those on the committees be on hand at the appointed place promptly at 8:30, as Miss Kirk, the Y. W. C. A. secretary, will give the final instructions to the canvassers at that time, and it is imperative that all bear the directions, and the explanation of the plan to be pursued.

No Dues Attached.

As has been stated before, and a point which the committee wishes to be emphasized, there are no dues attached to becoming a member of the Y. W. C. A. Voluntary subscriptions towards the support of the organization are expected from those whose means make it possible but to become a member entails no expense whatever. Donations will be received in any amount which the donor is able to give, and will be appreciated.

The committee is very enthusiastic over the prospect, and expect to enroll a large number of members tomorrow. Mrs. Culbertson stated today, "The various sub-chairmen have been very busy with their plans for the membership drive and they request that none of those who have been named to serve, disappoint them, as this is a very important matter. The committees appointed, and the districts in which they will work, follow:

Districts and Committees.

Down town District: north to south; 1st street to 15th street; east to west, Michigan to Scott—Mrs. C. J. Coyne, chairman; Mesdames C. W. Snider, C. R. Hartsock, C. J. Barnard, W. H. Robertson, Ed Howard, M. M. Adickes, O. H. Lillard, J. W. Culbertson, Miss Kirk.

District Number One: north to south; River to 7th street; east to west, Scott to Burnett—Mrs. C. W. Snider, chairman; Mesdames Gorsline, Timberlake, Tully, N. H. Martin, Jeff Waggoner, Shaw.

District Number Three: north to south; 10th to 14th streets; east to west, Scott to Burnett—Mrs. T. T. Reese, chairman; Mesdames Frank Gates, C. M. Miller, B. F. Johnson, W. S. Curlee, J. W. Akin, E. H. Maupin, M. J. Bashara, Walter Robertson, John T. Roberts, J. W. Bradley, Danforth.

District Number Four: north to south; 14th street to Wichita Valley tracks; east to west, Scott to Burnett—Mrs. R. O. Harvey, chairman; Mesdames McCutcheon, Harry Weeks, Fred Weeks, Newton Maer, H. O. Cravens, Joe Daniels, Everett Jones.

NEW YORK STOCKS

WICHITA IRRIGATION PROJECT LARGEST LYING WHOLLY IN STATE PRESENTS GREAT POSSIBILITIES

The Wichita Valley Irrigation Project, construction according to the present plans, will be the biggest irrigation project lying wholly within the state of Texas, and will not only be the biggest thing from every standpoint that this section has undertaken, but will afford the city of Wichita Falls an adequate water supply, for the future, should the growth be as phenomenal as now seems probable.

This is the opinion of the engineer of the project, Vernon L. Sullivan, who has just completed his preliminary survey, and has made his report to the local committee, which has had charge of the surveying of the district, and the financing of the preliminaries. The project will cost approximately three millions of dollars and will care for 110,000 acres, according to Mr. Sullivan's report, which because of the great interest in the project, the section, is given in full, through courtesy of Mr. Sullivan.

The report, received by the committee, and also sent to Federal authorities of the Department of the Interior, follows:

Engineer's Report.

The Big Wichita Irrigation Project is located in Northern Texas, at about latitude 34, longitude 99. The area to be irrigated will have an elevation of about 1,000 feet above sea level, and surrounds the hustling, agricultural, manufacturing, oil and gas city of Wichita Falls, Texas. The general plan of the project consists in the construction of a large storage reservoir by the building of a dam across the Big Wichita River, some fifty miles above the city of Wichita Falls, where the normal flow and torrential waters of the river are to be stored and released back into the river as needed for use below, using the river as a supply canal for a distance of about twenty miles, to a point where the waters are to be diverted by a diversion dam, into canals on either side of the river. The north side canal follows the contour of the country, down to a point several miles below the city of Wichita Falls. The other south side canal follows the contour of the country on the south side of the river for a distance of about 22 miles, to a point where the canals will for one branch following down on the north side of the ridge, separating the Wichita and Holliday valleys. The other branch cuts through a low saddle to supply water for irrigating the Holliday Valley. The principal works consist in the construction of the storage dam, the diversion dam and the distributing canals.

Water Supply.

The water supply, as now planned is from the Big Wichita River, but it is

possible and probably practical to divert and use the Brazos river waters in this proposed irrigation system.

The Big Wichita River is a torrential stream, carrying some silt, but the flood waters are of a very good quality, very free of alkali. Daily gauge heights have been kept at Wichita Falls since 1910, which period undoubtedly covers both extremes of drought and wet conditions. The annual discharge runs from about 200,000 to over 1,000,000 acre feet per annum, with the daily discharge runs from practically nothing to over 25,000 feet. From the water supply it is noted that the greatest run off is in the month of June, the average of same for the six years being 90,155 acre feet. The mean run off for the rest of the year is as follows:

May 66,550; August 59,456; December 50,425; September 35,527; March 33,397; July 26,594; October 19,434; February 7,825; January 6,234; November 4,422.

The gauging station where these records were taken is located at Wichita Falls, while the reservoir site is located up the river for a considerable distance above the run off at the reservoir will therefore be considerably less. After consideration of the character and the area of the water shed above and below the damsite it is figured that at least seventy per cent of the waters measured at Wichita Falls would pass the storage damsite.

supply records that practically the entire runoff comes in floods, while the floods are fairly uniform in their occurrence yet the necessity for storage of same not only from month to month, but also to carry over from one year to another is apparent. Thus it seems that it would be advisable to construct a reservoir at the natural conditions will permit.

Rainfall.

The mean rainfall for this locality, covering a period of years, gives a mean of a little over 27 inches. The greatest mean rainfall over this series of years comes in May, with 5.52 inches. The mean rainfall in inches per month, in rotation of their amount is as follows: June 3.29; July 2.76; April 2.43; September 2.12; October 2.08; March 1.98; November 1.85; August 1.63; December 1.56; January 1.10; February 1.10.

Crops Raised.

Nearly all kinds of cereals, cotton, small fruits and vegetables are now in cultivation and very successfully grown when sufficient water is to be had. The principal crops now being raised are wheat, cotton, oats, corn and so forth. Probably with the addition of irrigation considerable alfalfa could then be raised. The soil is lacking in lime and subsoil is rather tight to make it a good alfalfa country but these conditions may be more or less raised.

The climate and soil conditions are such that a large variety of crops and grain can be grown, which will permit of a varied rotation of crops, thus distributing the demand for irrigation waters. In taking into consideration these conditions, as well as rainfall received in that locality, the probable demand for water for irrigation by the month will be about as follows:

January 1 per cent; February 4 per cent; March 13 per cent; April 14 per cent; May 10 per cent; June 8 per cent; July 14 per cent; August 12 per cent; September 10 per cent; October 12 per cent; November 1 per cent; December 1 per cent.

However the design of the canals will be sufficient in capacity to deliver at least one per cent of the total yearly water in 24 hours of time.

Reservoir Site.

The reservoir site will be located wholly in Baylor county, which lies in a rough country, underlain with a grayish clay, running to a blue shale or marl. High hills come together quite close to the damsite forming a very satisfactory reservoir basin. The foundation for the dam is blue marl, and is found at a depth of about 20 feet below the river bed. The blue marl rises on the sides, gradually changing to a grayish clay in the hills on either side. The contour of the country is such that a reservoir with a maximum depth of 50 to 85 feet is probably the most feasible to build. This will make the spillway come at about grade, in the natural saddle, where the spillway will be made.

The maximum depth water at the damsite, of about 85 feet, makes a storage reservoir capacity of approximately one half million acre feet, with an area of about 14,000 acres. The holding qualities of the reservoir should be exceptionally good, as there is no presence of gypsum, stratified rock or gravel to cause seepage. All of the tanks in the surrounding country have practically no seepage. The losses of water from this reservoir will probably be confined largely to evaporation. The spillway will be located about a mile from the dam, in a saddle that will return the waters to the river at a point a little over one half mile below the dam. Concrete spillage release will have to be made, as the hills are composed of nearly all clay. The writer is at present planning the type of dam and spillway for this project.

Diversion Dam.

A rather high diversion dam will be necessary in order to divert the water directly in the distributing canals. The irrigated area, however, will commence immediately below this diversion dam. The diversion dam will have a concrete overflow across the river, with a rather low earth levee on the north side, across the flat. The canal gates would be connected to the concrete overflow part of the dam on the south side, as the diversion point for the south side canal is close to the river.

The canal gates for the north side canal will be located near the north end of the earth levee, where the north side canal will start. Old test places the blue marl foundation at a depth of 18 to 20 feet below the river beds for which the foundation for the overflow part of the dam will have to go. Steel sheet piling will probably be necessary, under at least a portion of the earth levee. These diversion works are located in the northwest corner of Archer county, about a mile and a half south and east of the county.

Canals.

Northside canal starting at the di-

version dam, will follow the contour of the country down the river, varying in a distance from the river of from one half to four miles it passes along the southern boundary line of the town of Iowa Park, and thence along the rolling mesa, within about three miles of Wichita Falls. At a point a few miles below the city of Wichita Falls it will be possible to divide between the Big Wichita and Red River Valley, and irrigate a considerable area in the Red River Valley. This is not contemplated under present plans, but in the future it should be found advisable to utilize the flood waters of the Brazos river, this could then be done. The canal alignment traverses a country which will be easy to construct, excepting a few places, where there will be some side hill work. There are two creeks that will probably require fluming, namely Beaver and Buffalo Creeks, in addition to those creeks, there will probably be a number of draws that the flood waters will probably be taken care of by siphons under the canal. The total length of the canal is about 45 miles, and will irrigate about 40,000 acres.

The southside canal, starting on the south end of the diversion dam, will traverse the contour of the country, leaving the river much more quickly than the northside canal. At a point about 22 miles down, the main canal will cut through a saddle in the divide between the Big Wichita and Holliday Valleys. A branch canal will follow down the contour of the country on the northside of the divide, taking care of the lands to be irrigated between the divide and the Big Wichita river. The main canals, soon after cutting through the divide, will again fork, one branch following the contour of the country on the south side of the ridge between the Big Wichita and the Holliday rivers, irrigating the lands on the north side of the Holliday valley, while the other branch will go around the Holliday valley on the south side, irrigating the main Holliday valley. There will be one large capacity flume at the crossing of Blackberry or Bob's Creek, and one small capacity flume over Holliday and quite a number of small siphons. It will be planned to use concrete and iron in all flumes, siphons and lateral headgates, that future maintenance be kept at a minimum. The first 25 miles down the forks of the canal will be of large capacity, the remaining canals will be much smaller and their lengths are as yet

Ice Must Be Pure

Sounds like a platitude to say that ice must be pure. Everybody knows that, you say.

Yes, but everybody is not as careful as they should be to see that it is pure. And impure ice is a direct menace to health.

Ice must be PURE. How can you tell when it isn't pure? That's easy. You can tell impure ice by the white, mushy places in it.

Those white, mushy places are evidence of a foreign substance in the ice. Something has been put in that shouldn't be there. That something is unhygienic and unhealthy.

Pure ice is frozen hard and solid. There are no white places in it. It is practically transparent. It is made in a big, sanitary plant from pure, distilled water. Our ice is pure because we make it that way.

Start the good "ice chest" now. These warmer days ice is a necessity. Be sure your ice is PURE.

undetermined, as the areas to be irrigated are more or less undetermined. Practically the entire area in all the distributing canals will be in excavation, the bottom grade resting on a grayish clay soil, which is practically impervious at water. It is reasonable to expect that there will be practically no water loss, excepting in evaporation and gate leakages.

Soils. Practically all of the soils, especially the level, low valley lands, are of an exceptionally fine quality, consisting of a grayish clay loam, of high fertility, yet with a sufficient amount of sand to afford quick tillage. The extreme fertility of the soil has been demonstrated by the luxuriant crops grown under rainfall, when the rainfalls afford sufficient moisture, there being approximately 50 per cent of the lands now in cultivation.

The mean annual rainfall is a little over 27 inches but frequent droughts at some period of the year has made partial failure of crops often, and therefore it is necessary to have a little artificial moisture to make farming in this locality certain and profitable. If means were provided to make it certain that sufficient moisture could be had, then present valuation of \$25 and \$30 an acre will undoubtedly be increased to \$100 and \$300 an acre, depending largely of course on the kind of crops the land will be planted to.

The valleys are very level and smooth, only now and then with ravines, which with artificial help will afford drainage. These valleys and gradually change as they recede further from the river to low rolling mesas, which will furnish the balance of the irrigated areas. With a large amount of rainfall and character of the soil, the duty of water should be very high.

Area to be irrigated. The character of the soil, through which the canals traverse will be exceptionally impervious to water, and the canal losses will therefore be exceptionally low, and for a basis of calculation for available water at delivery point, the losses are assumed as follows: Twelve percent for main canals and 15 percent for subsidiary canals and laterals. The reservoir losses will vary a great deal yearly, according to the amount in storage, as these losses will be largely from evaporation. Fortunately the greatest amount of water lost from the reservoir will be at the time when the project has the greatest amount of water in storage.

The amount of water sufficient to grow crops in this locality generally speaking would be very small, as the rainfall is sufficient to grow crops many years without irrigation, but there are periods of the year on nearly all the various crops grown, that irrigation would be of benefit, and many years of complete failure could have been made success with a small amount of water, if available and applied at the right time. The sub-soils are practically of very tight texture and the amount of water required for irrigation purposes will never be very large. Therefore it is assumed that a man of one acre foot will be sufficient. But in figuring the acreage the project will carry for 15 inches was considered, which would require 20 inches of water in depth at the reservoir site, assuming the losses as stated above, and upon that basis the project would easily carry for 10,000 acres. Generally speaking there would be a large surplus of water, but when there comes a series of dry years the supply would be utilized.

Drainage. The drainage question at the present time, as well as when areas are placed under irrigation are very clearly defined by the natural topography of the country, as the lands that recede farthest from the river are more or less rolling, while flat level valleys are already cut by quite deep ravines, which are fairly well distributed, being eroded out through the process of having taken care of the rainfall drainage. These natural drainages will of course have to be worked over to some extent, places cleaned out, deepened and so forth.

Railroads. The railroad facilities for this project are very good. Five roads cross the intended irrigated area, and are so well distributed that no irrigated lands would be over six or eight miles from the railroad, and most of it would be very close. The principal railroads are the Missouri, Kansas and Texas, the Fort Worth and Denver and the Wichita Valley railroads. The main storage dam would be about nine or ten miles from the nearest siding of the Wichita Valley railroad and the material hauled from the damsite would be practically all a downhill pull. The diversion dam will be a little nearer the railroad, about seven or eight miles from the nearest siding. Graded roads can be made very cheaply to both points.

There is a large mileage of state and county highways already built in the proposed project and more work is already planned so that very soon good roads will fairly well cover the entire area.

Formation of Irrigation District. Preparation of the boundary lines and definition of the formation of a water development district are now in progress and as soon as the petitions can be signed up by the required number of people it is expected that an election will be ordered, and the formation pushed through.

Water Supply For Wichita Falls. The present water supply for Wichita Falls will often be inadequate for its future anticipated growth. Located in the heart of the extensive oil and gas field, together with its manufacturing industries, its present and probable future growth will be phenomenal. This proposed project is so situated that it can supply city water through its present constructed water works system, which would be worth hundreds of thousands of dollars to the city.

Costs. The cost of the project is figured to be approximately \$3,000,000. The costs per acre should be far below the average irrigation systems and its construction is highly recommended.

Tribe of Ben Hur. All members are asked to be present at our last meeting in the old I. O. O. F. hall, March 21, Friday night.

HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects. They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

SOUTHERNERS. Wounded, Degree Undetermined: Pvt. Louis Duffern, Rotan, Texas. Wounded Slightly: Pvt. Tom Burks, Mayville, Okla. Pvt. D. L. Fair, Hillsboro, Texas. Pvt. B. J. Fairbetter, Boyd, Texas.

SECTION FOUR. The following casualties are reported by the Commanding General of the American Expeditionary Forces: Wounded, degree undetermined, 25; wounded slightly, 169. Total, 194.

SOUTHERNERS. Wounded, Degree Undetermined: Pvt. Walter Burleson, Wills Point, Tex. Pvt. Jas. H. Richardson, Troup, Tex. Wounded Slightly: Pvt. J. C. Berryhill, Bear, Okla. Pvt. Jas. D. Ball, Richard, Texas.

Notice. If I can sell in two days \$600.00 will buy my boarding house with beds and all other fixtures. I am getting \$136.00 per week. Rent is only \$12.00 per month. Water furnished. See owner, 116 Barwise. 264-21p

It is with a feeling of pride that we can point to the above statement of condition of this bank only three weeks after its opening.

Our business has grown steadily day by day since our opening and there has been an appreciation of our service that has been an inspiration to us.

We especially invite the business of any who would like to connect with a young, vigorous and growing institution.

This bank is not too large to appreciate the business of the smallest depositor.

It is not too small to meet the banking requirements of any individual or business firm.

NATIONAL BANK OF COMMERCE

WICHITA FALLS, TEXAS.

Capital and Surplus
A QUARTER OF A MILLION DOLLARS.

THE BASIC PRINCIPLE

A bank is no different from any other business institution—its success depends upon service. It thrives only as its customers thrive, and it must develop and maintain sound business methods, together with a willingness to cooperate efficiently and promptly with its customers.

The fundamental principle of the service of the National Bank of Commerce is that the best interests of our customers must under all circumstances come ahead of every other consideration.

We are equipped to render every form of commercial banking service which the most exacting patron may require and, above all, to render it with individuality. Your account, whatever its size, will be welcomed.

The Fastest Growing City in Texas

Offers Greater Opportunities Today Than Ever Before

Drive down to the new bridge on Burnett street across the river and see the best bridge ever built West of Fort Worth. This bridge will soon be completed and connects Scotland Addition with the city and puts this beautiful addition within 8 blocks of the court house and 10 blocks of the New Hotel and City National Bank Bldgs. now under construction. It also affords ingress and egress to the North part of the County at all times, being above high waters and people living North of the River need never fear being cut off from the city by overflows in the future.

SCOTLAND ADDITION

Offers the greatest opportunity for people of moderate means to own their homes close in to a great growing city of any addition ever placed on the market in any city

Just think, you can now build your home within walking distance of \$400 and \$500 the business center of the best city in Texas and only have to pay....

For Lots 50x140 feet

No lot overflows, but is four feet higher than the Post Office block. The soil is rich, loamy, sandy and never gets muddy, and will grow trees and flowers. Good well water can be had at from 20 to 30 feet on any lot in the addition, and we guarantee to run two miles of six inch water mains through the property at our own expense, affording ample fire protection, and thereby bringing nearly every lot within easy access of water main.

You can't say any longer that property is as high here as in Fort Worth or Dallas. If you think so just try to purchase a lot in either of those cities within eight and ten blocks of the business center and see what you have to pay.

To the Investor

Now is your opportunity to make big money on your investment. Houses are in great demand. Why not purchase some of these cheap lots and build four and five room cottages, either for rent or for sale on terms to wage earners? There are lots of factories North of the river and soon there will be 1000 men employed. These people with their families cannot afford to work north of the river and live in Southland or Floral Heights which is miles away. Now is the time to get busy and do something for the wage earner and thereby make big money on your investment.

Don't Let the River Frighten You

Fort Worth crossed the river and one mile of swamp and built one-fourth of its city. Oklahoma City has twenty thousand people living across the river and the swamp there is three-fourths of a mile and two miles from the business district. Dallas has its highest price residence property across the river. Kansas City has two hundred thousand people living across the river. The same thing may be said of every city with a river. The Wichita river has high straight banks and abuts the business section which makes the north side especially desirable for residence. More than 1000 wage earners will be employed in the factories across the river. This is the natural factory district of Wichita Falls and from now on will undoubtedly be the fastest growing section of the city.

Let Us Show You SCOTLAND ADDITION LOTS

All Inside Lots \$400

All Corners \$500

One-Third Cash or 5 Per Cent Discount for All Cash

Things To Be Remembered

That there can never be any more close in additions like Scotland.
That it will sell fast and build up rapidly.
That no lot overflows but is four feet higher than the business part of town, as we have had the level run on it by four different Civil Engineers.
That the lots will never be any cheaper but are subject to raise without notice.
That the lots are sold on good terms; one-third down and balance in six, twelve, eighteen and twenty-four months, eight percent interest, five per cent discount allowed for all cash.
That every lot is 50x140 feet and runs back to 20-foot alley.
That it is not in the city limits and the taxes are low.
That the addition is within easy walking distance.
That every reputable real estate agent in the town can show you these lots.

That the lots are in great demand and are selling before we really have them on the market.
That there are only 600 lots to sell and they will not last long.
That you are bound to win, for every dollar put into Wichita Falls Real Estate has made money for the investor.
That this is the only chance you will ever have to get close-in lots at such a low price and on easy payments for the simple reason there is no other close-in plat of ground available.
That we have a beautiful park in this addition consisting of 42 acres of large-native timber, which the city has already accepted as a gift and agree to maintain as a Park.
That close-in property in a growing city is sure to increase in value.
That the Scotland Realty Company is a Corporation with twenty-five prominent business men as stockholders and will carry out all promises.
That your children will have no railroad tracks to cross in going to school.

MEXICO WILL NOT PRESS DEMAND FOR ROYALTIES ON OIL

By Associated Press.
MEXICO CITY, Mar. 18.—The Mexican government has no intention of forcing the immediate collection of royalties on oil produced in this country during January and February under the decree of President Carranza issued February 18 according to a statement authorized tonight by the branch of the treasury department in charge of petroleum revenue.

The announcement was made after dispatches sent from Washington on March 11 to the effect that the decree reopened the whole question of the rights of foreign companies was called to the attention of the department. It was said the action of President Carranza was taken merely as a "matter of form to keep the records straight" since petroleum affairs have been in a state of suspense since the decrees relative to the oil business were issued last August. It was pointed out that it was necessary to fix royalties to carry out the provision of previous decrees.

It was asserted by the department that the whole problem will be before congress and that there would be no collection of royalties until that body acts.

President Carranza of Mexico issued a decree on August 17, 1918, which in effect cancelled provisions of another decree, announced on July 31, which laid what were regarded as onerous conditions on foreign oil interests doing business in that country. This was done after representations had been made to the Mexican government by Great Britain and Washington had taken official cognizance of the situation, after it was announced that negotiations were being carried on by representatives of foreign oil interests in the Mexican government in an effort to reach an equitable adjustment of the points at issue. The decree of February 18 directed the "immediate collection of royalties."

Marriage Licenses.
Marriage licenses have been issued at the county clerk's office as follows: George Parker and Miss Ozella Adams; Jack Holder and Miss Lily Zornes; Bryan Adams and Miss Lillie Brown; Claude M. Dunn and Miss Ethel Moore; J. C. Shown and Miss Frances Hunter.

COUNTY CANDIDATES IN WICHITA LIMITED TO A \$500 EXPENSE

By Associated Press.
AUSTIN, TEX., Mar. 18.—A start was made towards regulation and limitation of campaign expenses in primary election campaigns at this session, a senate bill proposing these reforms passing to third reading in the house only slightly amended.

The bill would limit expenditures and define what expenses should be considered legitimate. It specifies that it would be unlawful for a corporation to make contributions to a candidate's campaign expenses.

Limits for expenditures are set as follows: for United States senator and governor \$10,000; for other officers to be chosen by the voters of the entire state including judges of courts of last resort and members of congress at large, \$2,500; for district members of congress \$2,500; for district attorneys and district judges \$500; for members of the state senate, \$1,000; for members of the house \$500; for county officials in counties having a population of 50,000 or more, \$750; for counties with a population from 30,000 to 50,000 the limit would be \$500; for counties less than 30,000, it would be \$300 and for any other position \$100.

CARTER MCGREGOR TO VISIT FORT WORTH TO INSPECT ELKS

Carter McGregor of this city will make his first official inspection visit to Fort Worth as district deputy for the Elks on March 25, and a special meeting is being planned by the lodge in that city for his visit.

He will review what the Texas Elks have done in war work, and also what part the entire order played in the war, what the order did to forward Salvation Army work among soldiers in France, the \$2,000,000 cash war gifts to the federal government, building a reclamation hospital at Boston and the gift of \$150,000 in cash voted Sunday to the government to be used in reconstruction work among the wounded.

MARKLEY & WREN KINNARD NO. ONE IS REPORTED SWABBING

The Markley & Wren, Kinnard No. 1 well, was brought in at 1564 feet Tuesday, according to one of the owners, and will begin swabbing today. This well is located in block 2, Lecher & Schaefer addition to Burk Burnett and it is stated its initial production will run 400 to 500 barrels daily, being one of the best producers on the west side. The Burk Burnett Oil and Development Company, of which W. T. Wood is trustee, acquired a interest in this well some weeks ago.

Notice Stockholders.
Hearn Oil Company will pay dividends of 50 per cent on March 20th. Books will be closed at 6 p. m. on that date for transfers of stock.—D. E. Walcott, Pres.; James Hazlett, Sec'y.

WHY COFFEE IS HIGHER

There are several contributing reasons why coffee is higher. At the beginning of the war in Europe there was a large stock of coffee in Brazil—who produces eighty percent of the coffee of the World. Europe used two thirds of the World's coffee supply and America one third. After war was declared in Europe their markets were closed and America was Brazil's only outlet. So notwithstanding higher freight rates and production costs we were enabled to buy coffees at little advance over pre-war costs. After America entered the war the food administration restricted the importation of coffee and we were forced to use up the surplus usually carried here—and now Brazil is giving us just enough for our immediate wants—which together with the fact that Europe's Coffee pot was empty and must be replenished—puts Brazil in the saddle. Then the frosts last August so damaged the coffee trees that we are due to have a short crop for at least three years—so there seems no immediate prospect for cheaper coffee—YET COFFEE IS STILL THE CHEAPEST commodity that enters into human consumption—A pound makes thirty cups.
