

BOLSHEVIKI SEIZE CONTROL IN HUNGARY DECLARE WAR AGAINST ENTENTE POWERS

Governor Approves A Number of Bills

By Associated Press. AUSTIN, TEX., March 24.—A woman's division of the bureau of labor is created in a bill signed by the governor today. The bill providing a special road tax on freight trucks was also signed. Provisions of other bills signed by the governor today are: Providing for a uniform negotiable instrument law; establishing a standard of weights and measures in the state. Providing a uniform warehouse receipt; defining units of weight and measure of various commodities; allowing administrator or executor, on order of county court, to make mineral leases on lands under their control; authorizing guardians to make mineral leases on lands of wards; providing purchase of land for prison system must be approved by legislature; amending citation requiring public water supply companies to furnish uncontaminated drinking water; extending time allowed J. J. Kane to build wharves, etc. on submerged state land at Galveston; providing for cancellation of medical license when holder is convicted of felony; allowing taking depositions in uncontested probate cases by posting notices; authorizing women to become stockholders, officers and directors of corporations; providing lien for rent must be filed with county clerk in order to become preference lien; providing that owner of mortgaged automobiles notify holders of mortgages of whereabouts of auto when requested; making \$25,000 appropriation for eradication of predatory animals; allowing cities to make oil leases; allowing holders of fractional shares of stock to vote; providing that miners place metal tags on cotton; providing that it shall be unlawful to own motor vehicle with the engine number defaced; providing for appointment of special traffic officers; providing for care of lepers in state.

BERNSTEIN ABANDONS THE INDEPENDENTS FOR MAJORITY SOCIALISTS

By Associated Press. BERLIN, Friday, March 21.—Eduard Bernstein, the veteran independent socialist leader, has definitely abandoned the party and has returned to the majority socialists. Herr Bernstein's defection from the independent socialists—although nominally due to the party's recent decision forbidding members to maintain relationship with any other parties—is one of many indications that a large number of intellectuals among the independent socialists have been moved to resign from the party because of attacks made upon it by Gustav Noske, the German minister of war, and other national leaders and by disclosures of intimate relationships between at least a portion of the party and the German bolsheviks.

WAR INSURANCE STRINGENCY HAS BEEN RELIEVED

By Associated Press. WASHINGTON, March 24.—Financial stringency of the war risk insurance bureau was relieved today by a message from President Wilson to Secretary Glass saying the President had made an allotment from his emergency war fund to pay expenses of the bureau until congress appropriates at the next session. The amount allotted was not specified. Treasury officials have estimated a little more than three million dollars will be needed to pay the bureau's expenses until the middle of May when congress may be called in special session. This action of the President means that there is no immediate danger of allotment and allowance checks or remittances for insurance or compensation being held up by a forced reduction of clerical help within the bureau.

RENEWAL OF ATTACKS REPORTED FROM CAIRO

By Associated Press. CAIRO, Sunday, March 23.—There were renewed attacks on communists here today, together with some demonstrations throughout the city. Airplane postal service has been established between Alexandria and Suez, and this city.

POOL HALL OWNERS OF DALLAS PLAN TO ATTACK NEW LAW

By Associated Press. DALLAS, March 24.—Local pool hall owners are preparing to make a fight against the law prohibiting pool halls for profit in the state, enacted by the 36th legislature. Claiming that the law is unconstitutional, the pool hall owners today employed attorneys and intend seeking a test in the higher courts.

COURT MARTIAL OF CHAMBERLAIN IS IN PROGRESS

Begins Today in London As Result of a Recent Investigation

STORY IS QUESTIONED

Texas Officer Pleads Not Guilty and Is Represented by Attorney and Major

By Associated Press. LONDON, March 24.—The court martial in the case of Captain Edmund G. Chamberlain of San Antonio, Texas, an officer of the United States marine corps, the story of whose exploits in bringing down a number of German machines in an air battle while he was on a visit to the British front last July, has been under investigation for some time, was begun at American navy headquarters here this morning. Captain Chamberlain was formally charged with "scandalous conduct, tending to the destruction of good morals, and with 'falsehood'." Captain Chamberlain pleaded not guilty to the charges and specifications in each case.

Captain Chamberlain, then a lieutenant, was reported to have borrowed an airplane from a British airdrome in July, 1918, and in a battle with twelve German machines, to have brought down five of the latter. After landing from his damaged plane, he was said to have taken a German prisoner and while retaining this man, carried a wounded French officer, whom he found back to the British lines under a heavy German fire. According to a London dispatch August 31, Lieutenant Chamberlain had been recommended for the Victoria Cross and the Congressional Medal of Honor on the basis of the accounts of his exploits.

In February of this year, the accuracy of the report of the exploit having been called in question, the American naval officials in London, began an investigation which now has followed by the court martial proceedings. From statements made by representatives of Captain Chamberlain it appears that it will be urged in his defense that the written confirmation from British official sources of his aerial feat may be due to the fact that the British officers responsible for the airplane service on the front could themselves be open to court martial if they admitted they had allowed the American lieutenant to fly one of their machines; also that it was contrary to the written law of the Royal air force that publicity should have been given the lieutenant's feat, this leading to a general denial of the facts of the case in a perfunctory report without a real investigation.

GOVERNOR PLEASANT SAYS LARGE CROP INVITES DISASTER

By Associated Press. MEMPHIS, March 24.—Governor Pleasant of Louisiana before a conference today of southern bankers, planters and business men called to perfect the plan for a reduced acreage in 1919, declared that a larger crop than 10,000,000 bales this year would invite disaster because of the probably low price that would result and the high cost of production. Several hundred delegates from all parts of the south attended the conference. Reports of the progress made by state and sectional committees in securing acreage reduction pledges were presented at the afternoon session.

Governor Pleasant said that preliminary reports indicated that the movement had been a success in every state.

LOCATE BONDS STOLEN FROM A FORT WORTH FIRM OF JAPANESE

By Associated Press. FORT WORTH, March 24.—Detective Chief Connelly is on his way to Kansas City today to recover \$4000 worth of Liberty Bonds which were stolen from the safe of the Japanese Cotton Trading company here Saturday night. Bandits cracked the safe. One of the bandits was captured Sunday in Dallas and \$500 in bonds taken off him. The other loot had been expressed to Kansas City.

JUST A GENTLE REMINDER OF FURIOUS DAYS

The accompanying pictures are just a gentle reminder of what the allied aircraft did to German batteries. These photographs are from the private collection of Brigadier General Leo Charlton, of the Royal Air Force.

SAYS GERMANY WILL NOT SIGN TREATY IF POLAND GETS DANZIG

EIGHT HOUR LAW FOR WOMEN UPHELD BY SUPREME COURT

By Associated Press. WASHINGTON, Mar. 24.—Germany can not and will not sign a peace treaty which includes the possession of Danzig by Poland, a dispatch from CBR says. The German president added that Germany could not give up west Prussia or part of upper Silesia.

WILBARGER COUNTY DEFEATS PROPOSED HOSPITAL BONDS

Special to The Times. VERNON, TEX., March 24.—The \$50,000 hospital bond election failed to carry here Saturday. Two boxes are yet to be heard from but 120 majority against will probably reach 100. The advocates of the proposition will probably make efforts to have another election called soon. The already splendid prospects for crops in this county have been considerably boosted by the rain that has been falling here since yesterday making wheat and oats in better shape and the farmers have planted some row stuff that will be benefited.

SHERMAN SOLDIER IS AWARDED FRENCH CROSS

Special to The Times. AUSTIN, March 24.—Leslie P. Etter, a former student of the University of Texas, whose home is in Sherman, has been cited for bravery and awarded the French Cross of Honor. He left the university and went to Paris, France, where he enlisted in the ambulance corps, several months before the United States entered the war. He transferred to the American army when the Sammies arrived. The medal was awarded for personal bravery in going into first line trenches under terrific barrage fire from the enemy at the battle of Argonne Fenet and taking out wounded allied soldiers.

UKRAINE SEEKS TO SETTLE DIFFERENCE WITH BOLSHEVIKI

By Associated Press. VIENNA, March 23.—It is learned from the Ukraine that negotiations have been begun between Ukrainian and Russian bolshevik delegates for the settlement of differences. Bolsheviki leader Hadowsky has arrived at Ukrainian headquarters. It is reported.

CHEAPER FOOD IN THE NEAR FUTURE PREDICTION MADE

By Associated Press. WASHINGTON, March 24.—Cheaper food in the near future, was predicted today by Chairman Peck of the department of commerce industrial board as a result of a conference with food administration officials in New York. Mr. Peck said there had been general misunderstanding of statement by Mr. Hoover, that wheat might go to \$350 a bushel, and added that the billion dollar grain appropriation was made by congress to enable the public to get wheat products at reasonable prices as well as to make good the guarantee to the producer. With wheat prices reasonable, Mr. Peck said, reasonable prices of other products could be expected because wheat was the barometer of the food trade.

FT. WORTH WOMAN AND COUSIN SHOT; MAN HELD IN JAIL

By Associated Press. FORT WORTH, March 24.—George Plummer, shot twice Sunday in her home on the south side yesterday, her cousin, Mrs. Willie Haze, is slightly wounded, and George Plummer, the husband, is held in the county jail on two charges of assault to murder. The shooting followed a quarrel that began Friday night, according to the son of the couple. The shooting began Sunday afternoon when the two women returned to the residence to pack their clothes.

RECENT LEGISLATURE AND THE GOVERNOR WORKED IN HARMONY

By Associated Press. AUSTIN, March 24.—Relations between the governor and the legislature during the 36th session were most harmonious. In fact, while addressing the house upon the last day of the session, Governor Hobby said that the legislature had made it possible for him to fulfill all of his campaign promises. The constitutional amendment providing that the state extend its credit to the buying of homesteads was submitted to the voters upon request by the governor, as was the amendment proposing a division with inmates of profits arising from the operation of the prison system. Governor Hobby is also in accord with all the legislation of better roads and schools and expressed himself as being well pleased with measures along these lines. Many of the members of the 36th legislature actively supported Governor Hobby during the last campaign and the result of the election was that very few of those who opposed the election of Governor Hobby came to the legislature. Woman suffrage and prohibition; to which the governor was pledged, were also pledges of a majority of the members.

TEXAS SOLDIER ILL WITH CANADIAN ARMY

By Associated Press. OTTAWA, ONT., March 24.—Today's overseas casualty list includes ill: H. Levy, Texas City, Texas.

Serious Situation Confronts Allies

(By Associated Press.) WASHINGTON, Mar. 24.—Dispatches to the State Department today from Belgrade said the new Hungarian bolshevik government had ordered the beginning of hostilities against the Entente last Friday. No information was given as to whether operations actually had been undertaken.

(BULLETIN.) COPENHAGEN, Mar. 24.—T. G. Masaryk, the president of Czechoslovakia, has resigned according to a report received here from Berlin.

(BULLETIN.) COPENHAGEN, Mar. 24.—A Czechoslovak army has been sent against Hungary according to an official report received in Vienna and forwarded here.

The question of the barrier which the peace conference intends to erect against the spread of bolshevism into the former central powers, has come sharply to the front as a result of the situation in Hungary, where the bolshevik elements have seized power and declared that a state of war exists between Hungary and the Entente powers. Premiers of the allied states were called to meet in special session in Paris at 3 o'clock this afternoon and it was reported that important military decisions might be taken at the meeting of the supreme council at four o'clock regarding the situation in Hungary and Poland. Premier Clemenceau and Foreign Minister Pichon had a long conference Sunday regarding Hungary and it is indicated by Paris newspapers that action looking to military movements was taken.

SITUATION IS SERIOUS. Paris newspaper writers see the situation as serious and as one calling for military action. They express the belief that Germany may be behind the movement for the purpose of defeating the work of the allied government. Some commentators in London see the Hungarian situation as partly the result of the delay of the peace conference in bringing about a preliminary peace. A report through Switzerland to

Paris says that Karl Kautsky, an independent socialist, has been sent to Brussels by Count von Brockdorff-Rantzau, the German foreign minister, to inquire into the question of closer relations between Germany and the Soviet government. Rioting is reported to have occurred in Budapest but there is no reliable information regarding the Entente troops which have been in Hungary for several months. Two French divisions are at Budapest and Servian and Rumanian units to advance into Hungary still lack confirmation from reliable sources. The bolsheviks, however, are within 100 miles of the eastern frontier of Galicia, but reports late last week were to the effect that the bolshevik army was being driven back to the Priepet marshes northeast of Lemberg, which the Poles were forced to give up to the bolsheviks. PLAN TO USE DANZIG. The Allied proposal to use Danzig as the port of debarkation for these troops was one of the main causes for the breaking of the negotiations with the Allied commission in Poland. German newspapers have strongly denounced the proposal to give Poland the port of Danzig and corridor to it. The extremists are active in Vienna but the government still is in control. Reports from the east where the bolshevik movement is reported to be strong, are meager.

GRAVE CONCERN AT WASHINGTON OVER THE HUNGARIAN SITUATION

By Associated Press. WASHINGTON, March 24.—Grave concern was evident today in official and diplomatic quarters here over the breaking of the agreement by Hungary by a bolshevik regime which has inaugurated its advent by declaring a state of war with the Entente powers and seeking an alliance with the Russian bolsheviks. No one in authority would attempt to forecast the result of or to discuss what means might be adopted by the allied powers, chiefly virtually all information received here has been in the form of dispatches. With President Wilson and Secretary Lansing in Paris the attitude of the American government toward any measures that may be proposed will be determined and announced there. Although the news from Hungary created a sensation, it did not come altogether as a surprise. For some weeks unrest in Hungary has tended toward bolshevism. This has not been entirely due to a shortage of food. The problem of industry and raw materials to give employment to workmen has been of equal importance and other economic problems are involved. One of the features of the situation which is attracting much attention here is the plight of Rumania. Rumania survived one attack of bolshevism. It was pointed out today, but whether she can weather a second attack is regarded as a serious question. With Hungary turned bolshevik Rumania will be two-thirds surrounded and it is believed the bolsheviks will devote every effort to bringing it un-

RESULT OF RUSSIAN BOLSHEVIK FINANCED WITH RUSSIAN RUBLES

By Associated Press. BERLIN, Sunday, Mar. 23.—That the seizure of power by the Hungarian communists is the result of Russian bolshevik missionary work and the financing of the movement with Russian rubles seems apparent from the history of the movement. Bela Kun or Kuhn, the new foreign minister who probably was the man who formulated the "communist" proclamation, spent a long time in Russia as a prisoner and there made the acquaintance of Nikolai Lenin and Leon Trotsky. He was originally chosen to organize the Spartacist bolshewiki movement in Germany, but went instead to Hungary. The Hungarian socialists would have nothing to do with Kun and he thereupon founded the communist party of the Hungarian people. The communist movement Major George is a grandson of the late revolutionary George and Major Geisz is a grandson of the old Hungarian family likewise has been infected with bolshevism. They were participants in the plan to form a communist colony of 1,000 men in Hungary. George Ranassy, also one of the leaders in the communist movement, was arrested last February charged with bringing 30,000,000 rubles from Russia to Hungary to be used in forming a communist army. He and other leaders are likewise accused of receiving large sums from the Russian Red Cross.

Before the war Bela Kun, the Hungarian communist foreign minister, was instructor in the law school of the Francis Joke University at Klausenburg, Transylvania. Statements issued at Budapest accuse the entente of forcing a revolution but the crisis is held here to be (Continued on page 5, part 1.)

BUNDY PRESIDENT NEW ORGANIZATION OF TEXAS REFINERS

C. F. JOHNSON AND R. E. HUFF
ARE MEMBERS OF BOARD
OF DIRECTORS.

ORGANIZED AT FORT WORTH

M. A. Bundy, with E. P. Byars, Goes
to Chicago to Attend Petrol-
eum Congress.

M. A. Bundy, vice president and
manager of the Sunshine State Refin-
ery of this city, heads the Texas Re-
finers Association, organized in Fort
Worth Saturday by representatives of
independent refiners. C. F. Johnson,
of the Lane Star Refinery, and R. E.
Huff, the president of the Wichita
Falls chamber of commerce and trustee
for the Beaver-Electric Refinery at
Electra are Wichita Falls men on the
board of directors. A. B. Maples,
the traffic manager for the Red River
Refinery, has a member of the com-
mittee appointed to investigate the
rate situation.

Attend Chicago Meeting.
Mr. Bundy, with E. P. Byars of Fort
Worth, went to Chicago Sunday to at-
tend the meeting of the American Pe-
troleum League, and to confer with
Clifford Thorn, general counsel for
the Western Petroleum Refiners As-
sociation. The progress of the Texas
Refiners will be presented to Mr.
Thorn, and the cooperation of the
other organization will be asked.
The officers elected by the Tex-

CIVIC LEAGUE AND MUSICIANS' CLUB MEET ON TUESDAY

The Civic League and Musicians
Club here called to meet at 3 o'clock
at the home of Mrs. A. H. Britton
Tuesday afternoon. All members are
urged to be present, as important
business in connection with the grand
opera Saturday night will be brought
up.

L. ART TO BUILD HANDSOME HOME

Plans for a handsome residence for
Mr. and Mrs. J. L. Art are being drawn
up by Yace Bros. Voelcker and Dixon,
and the contract will be let shortly.
The residence will be in English peri-
od architecture, of a type that has not
been built in Wichita Falls previously,
and will be exceptionally attractive.

WAR RISK INSURANCE OFFICE IS LOCATED

H. D. Hockersmith, special field ex-
aminer of the bureau of war risk in-
surance at Washington, has secured
an office in the basement of the
court house. While Mr. Hockersmith's
assignment is primarily with the in-
vestigation division of the bureau, yet
he desires to be of all the assistance
that he possibly can, and to that end
will be glad to give any information
regarding the allotments and allow-
ances, also insurance.

P. P. LANGFORD GIVES \$1000 TO THE Y. W. C. A.

Through a typographical error in
the list of subscribers to the Y. W. C.
A. Home, published on Sunday, the
subscription of P. P. Langford read
only \$100, when it should have been
\$1,000. Both Mr. and Mrs. Langford
have been enthusiastic over the Y.
C. A. plan and have given liberally
of their time and money.

MEN BUYING MORE EXPENSIVE CLOTHING THAN THE WOMEN

DALLAS, March 24.—The popular
belief that women spend more money
than men for clothes is placed in
the discard by the result of an investiga-
tion being made in Dallas by Miss Ma-
bel A. Gormley and a corps of eight
assistants who are working with the
Bureau of Labor Statistics of the
United States department of Labor.
The contrary was found to be true
with families earning wages or sal-
aries of as much as three thousand
dollars annually.

Miss Gormley stated that in other
cities where she has carried on her
campaign she has found that the men
were buying more expensive clothing
than the women.

FLIGHT SURGEONS OF ARMY HAVE MEETING

DALLAS, March 24.—The three-
day session of the Association of
Flight Surgeons of the United States
Army began in Dallas today.

NOTICE

Owing to the demolition of the
building we have been occupying and
our inability to secure suitable quar-
ters immediately, we hope soon to an-
nounce our new location. Wichita

HAVE GOOD CHANCE FOR HEADQUARTERS OF REFINERS' ASSN

Porter A. Whaley, secretary of the
chamber of commerce, returned to
Wichita Falls this morning after
spending Friday and Saturday in
Dallas and Fort Worth in the inter-
ests of the organization.

Whaley served as a committee of
one Friday at Dallas to invite the
Texas Cattle Raisers Association to
hold their convention next year in this
city. It was not expected that the in-
vitation would be accepted, as House-
hold members of the association had
been strongly organized for conven-
tion purposes earlier, but the local
chamber of commerce believes it has
paved the way for obtaining the con-
vention in 1921. Houston and Wic-
hita Falls were the only cities that
sought the 1920 convention.

NOT NECESSARY FOR SOLDIER TO SECURE AID OF ATTORNEY

WASHINGTON, March 24.—Officers
and enlisted men discharged from the
service will not expedite settlement
of their claims for arrears in pay
by placing them in the hands of at-
torneys or claim agents, a state-
ment issued Sunday by the war de-
partment. It was explained that ad-
justment of claims thus presented was
delayed "by reason of additional fil-
ing and handling of unnecessary
papers of the intermediary."

"The claim of the soldier is all that
is required," said the statement, "and
such claims should be submitted di-
rectly to the discharged officer or
soldier to the war department direc-
tor of finance, who will give them
as prompt and careful consideration
as possible. Any fee paid by the sol-
dier to an attorney or claim agent is
a needless expense."

Local Men Responsible

R. H. Frizzell, M. A. Bundy, J. C.
Davis, H. L. Moore, W. R. Ferguson
and R. E. Shepherd, all of this city,
and all members of the First Chris-
tian church, are responsible for the
plan to give the home funds. R. E.
Shepherd is the treasurer and appli-
cations for stock should be made to
him. Anyone buying stock is as-
sured that no promotion is being
charged, and that for every share of
stock, the Juliette Fowler Home will
receive a benefit, as the usual sales-
man's commission ranges from 10 to
15 per cent.

Holdings of Company

The company's holding consist of:
10 acres in the Blagg Survey, near
Iowa Park, donated by J. C. Davis;
20 acres near Burk Burnett, donated
by W. Smith Langford; 100 acres in
Hardeman county, near a deep test,
donated by J. H. Frizzell; 10 acres in
Montague county, near Nocoma, do-
nated by Shelwood Jamison; 10 acres
near Charlie, donated by J. Fred
Smith; 20 acres in Montague county,
near the Beaver Valley test, donated
by Judge C. F. Spencer. The four
acre tract to the west of Burk Burnett
was bought by the trustees, and the
rest well will be drilled there, it is
stated.

ORPHANS' HOME TO PROFIT FROM NEW OIL ORGANIZATION

Several Wichita Falls oil men who
are members of the Christian church
have a novel plan for raising funds
for the Juliette Fowler Orphans Home,
the home supported by the denomina-
tion. They are organizing a \$100,000
oil company to be known as the Or-
phans Home Oil Company, with 174
acres of land, all of it donated with
the exception of a four acre tract out
of block 61, Red River valley lands,
and all the promotion fees will go to
the home. No commission will be paid
on stock sales, and as the land is do-
nated there will be a considerable
amount which will accrue to the
home, \$20,000 being a conservative
estimate.

NEW LAW DESIGNED TO AID IN LOCATING STOLEN AUTOMOBILES

By Associated Press.
AUSTIN, March 24.—A law designed
to facilitate location of stolen au-
tomobiles, was passed during the ses-
sion of the legislature which has just
closed and has been signed by the
governor.

This new law provides that it shall
be unlawful to operate upon the pub-
lic highways a motor vehicle, the en-
gine number of which has been oblit-
erated.

In order to care for innocent pur-
chasers of automobiles with engine
numbers erased, the law provides that
with proper explanation as new en-

gine number may be secured from the
highway commission.

Duke states, for the benefit of the numerous inquiries that have been made regarding the kind of clothing that is desired for the sufferers. As announced previously the collection of clothing will continue during this week only.

IN CITY TO OBTAIN DATA REGARDING THE IRRIGATION PROJECT

C. T. Crowell, publicity manager of the West Texas Chamber of Commerce, arrived in Wichita Falls this morning to obtain from J. A. Kemp data regarding the Wichita river irrigation project. One of the first problems to be handled by the recently organized chamber, Mr. Crowell stated, will be the matter of proper irrigation of the West Texas territory, and an attempt is now being made to interest government officials in a survey of the Brazos and Colorado rivers which drain a great part of this section.

The West Texas Chamber of Commerce has obtained a flying start, and while we expect to be fully six more months completing the organization there isn't a question of the permanency of the association," he added. "We have had field men out since March last lining up all the counties in West Texas, and memberships are coming in now as fast as two stenographers can handle the papers."

LADIES AID SOCIETY TO MEET ON TUESDAY

The Ladies Aid Society of the First M. E. Church will meet Tuesday afternoon at 3 o'clock at the church in business session. All chairmen and committee members, and every lady member of the church are urged to be present.

BREVITIES

W. E. Campbell of the Panhandle Refinery was among the refinery representatives attending the organization meeting in Fort Worth Saturday.

Sings Title Role In "Rigoletto" at the Wichita Theater Saturday Matinee

GIORGIO PULITI

"Rigoletto," which the Creator Grand Opera Company will sing for the matinee at the Wichita theater Saturday afternoon, is the story of intrigue and passion in the court of the Duke of Mantua. Verdi's personal favorite and Regina Vicarina and Giorgio Puliti, have the leading roles. Both have successes in the east and abroad on their records, and both enjoy fame in operatic circles that comes to few.

Puliti sings the title role, the jester Rigoletto, who assists the gay Duke of Mantua in his crimes. When he mocks at the father of one of the Duke's many victims, the rather gives him a curse and also passes one on his beautiful daughter, Gilda, of whom the dissolute life of the court knows nothing. It transpires that the Duke has met Gilda, and has lured her to her ruin, unknown to Rigoletto. When the jester finds that the curse has this early fulfillment he sets about to have the duke killed. A professional assassin, played by Salvatore Scialoja, is hired, and the assassin's sister, Maddalena, Henrietta Wakefield, lures the Duke to a lonely hut. Here Maddalena pleads for the life of the Duke. The assassin agrees to spare his life if a substitute can be found. Gilda, who has been brought to the spot, by her father, disguised as a page, to witness the deception that the Duke has practiced upon her, decides to save her lover's life, though she knows him to be unworthy. She enters the bag, prepared for the Duke and is slain. The assassin delivers the bag and the murdered girl to Rigoletto who prepares to throw it in the river. Hearing the voice of the duke in the distance he quickly tears open the bag to find it the dead body of his beloved daughter.

DIRECTOR OF OPERA COMING ON SATURDAY

GIUSEPPE CREATORE.

Few people are satisfied with the distinction and success they attain in any one line of endeavor, and usually like Alexander, sigh for other worlds to conquer. Such was the case with Giuseppe Creatore, when he was the most celebrated and sensational bandmaster in two continents. Creatore's band was the marvel of the decade, but Creatore was not satisfied. And he went to work to become satisfied.

The result of his work will appear in Wichita Falls Saturday, March 29, when the Creator Grand Opera Co. will sing two of Verdi's most popular operas, "Rigoletto" and "Aida." For last season, in spite of the difficulties imposed by the war, Creatore organized his grand opera company, going among the stars of the first order and culling those whom he desired. He also has several "finds," and in this second season of the company he has what critics in the north and east unhesitatingly declare to be the best opera company ever sent on tour.

All of Creatore's Italian fire, vim and vigor, that made his band direction never to be forgotten, once one had witnessed a sensational performance, is with him in the direction of the orchestra of 40 musicians, and in the direction of the opera. This orchestra would be a premier attraction, even without the wonderful voices that it accompanies.

Creatore has added to his matchless principals and splendid supports, a chorus of good voices, that is also easy to look at according to the musical critic of the north and east. There are no fat Marguerites and grandmothers Gildas in Creatore's company, neither are the tenors and baritones antique and wheezy. Creatore, who revolutionized band circles, has seemingly broken all grand opera precedents.

Times Want Ads One Cent a Word Each Insertion.

If you want the Best Piano on Earth you want THE BALDWIN PIANO. The old-time Darkey loves his Banjo, it sounds the best to him; the Savage plays the Tom-Tom, nothing else has such musical tones in his opinion, and the Hawaiians' sweetest music is produced from the thump of the Ukelele, and so do Piano Artists differ in their opinion as to what is the best toned Piano. Some like one and some another. It is just a matter of taste, and the individuality of the Artist.

SCIENTISTS AGREE THE BALDWIN PIANO was awarded the Grand Prize at Paris Exposition 1900, and was again awarded Grand Prize at St. Louis 1904. These awards were given by a jury composed of Piano Makers, Masters of Acoustics, from all parts of the globe, and are Higher Honors than were ever awarded any Piano in the history of the piano industry of the world. There are hundreds of the World's Best Artists who verify the conquering charms of the BALDWIN Piano—its warmth and delicacy and poetic texture—it is wholly a work of art. The BALDWIN is one of the three highest priced Pianos. Made in Uprights, Grands, Player-Pianos and Player-Grands WICHITA MUSIC COMPANY MASONIC TEMPLE

WOODROW LEE WELL REPORTED MAKING ABOUT 800 BARRELS

The Woodrow Lee Oil Company's No. 1 well on the Hardin tract was completed Sunday, the new managers, Roberts and Hall, report, and the well is now swabbing at the rate of 800 barrels. No. 2 well is drilling at 1400 feet. No. 3 is a derrick and there is lumber on the ground for No. 4. Roberts and Hall, contractors, bought out the controlling interest of W. S. Curlee and Drs. Holding and Guest in this company and its two and a half acre tract and have assumed active management of the drilling operations. They expect to have the three other wells completed in a short time. These contractors moved in tools today to complete the well of Slater, Call and Prince on block 20, the town-site.

NOT PRACTICAL TO BRING TROOPS BY GALVESTON

By Associated Press. FORT WORTH, March 24.—Secretary of War Baker said this afternoon it would be impractical to attempt to bring the Texas and Oklahoma troops home through Galveston. The ocean trip, he said, would require two weeks whereas the policy of the department now is to get every soldier back home as soon as possible.

COPELAND WELL IN RANGER DISTRICT IS FLOWING 1500

Special to The Times. EASTLAND, March 24.—The Copeland No. 4 of John Markham Jr., and the Tidal Oil Co., west of Ranger, has drilled itself in at 2300 feet and is flowing 1500 barrels a day. The Floyd Brewer No. 6 of the Texas & Pacific Coal & Oil Co., is making 500 barrels at 3080 feet. This is in the Brewer group of wells. The Taylor No. 7 of the Gulf Production Co., also an inside well, has developed into a big gasser at 2160 feet, making twenty-five million feet. In Stephens county the Texas company's Groseclose well has been drilled six feet deeper into the sand without any increase in production, making about 100 barrels. The Brown No. 1 of the Texas Company is making 20 barrels, one foot in the sand. The boiler is being moved back before drilling in. The E. S. Curry No. 1 of the Texas Company, also in Stephens, is not showing good at 2220 feet. It is drilling in gray lime.

Big revival at 4th and Indiana beginning March 20, will run 10 days or longer. Bible school at 10 a. m. Revival service at 7:30 p. m. Bro. E. R. Fitzgerald from Russellville, Ark., will conduct the Bible school and revival. Everybody welcome. OSCAR JONES, Pastor. 266-31p

"Kissing A Maid"

Is the title of the big musical comedy play by the same big classy company that has been here for the past ten days, we will perhaps not have the privilege of seeing such good shows as these again soon for so little in price—splendid picture in connection.

LIFE WAS HARD TO HER!

Life certainly was hard for Evelyn Merrill after her husband left her without a word or a line of explanation. It seemed to her as though someone was persecuting her—making things harder than they should have been. As a matter of fact, her idea about the matter was the truth—someone was persecuting her! You'll see who this person was, and why he acted as he did, when you see

Bedtime Stories

(By Howard R. Garis)

Uncle Wiggly and Mr. Whitewash. "Oh, Uncle Wiggly! Have you heard the news?" asked Nurse Jane Fuzzy Wuzzy, the muskrat lady housekeeper, as she saw the bunny rabbit gentleman hop home to his noddow stump bungalow one day.

"Heard the news? What news?" asked Uncle Wiggly. "I hope you haven't burned the apple pie lolly-pudding you were going to bake for supper."

"Nothing like that!" laughed Nurse Jane. "The news is that your friend, Mr. Whitewash, the polar bear gentleman, is going to move away."

"Move away?" cried Uncle Wiggly. "Where to, and what for?"

"I don't know," the muskrat lady said. "Then I'll go see him and find out," spoke the bunny.

Not stopping for supper, but putting his tail, silk hat firmly down over his ears, Uncle Wiggly began to hop over the fields and through the woods until he found himself coming near to the ice cave where lived Mr. Whitewash, the polar bear.

"I do hope I haven't done anything or said anything to make Mr. Whitewash move away," thought Uncle Wiggly. "He and I were such good friends, but perhaps he can't stand the Pipsisewah and the Skuddlemagoon. Those two bad animals are so often in these woods."

"Oh, we are, are you?" exclaimed a voice behind Uncle Wiggly, and, turning around, he saw the Pipsisewah and the Skuddlemagoon themselves looking at him without blinking their eyes. As for Uncle Wiggly, his pink nose twinkled like anything.

"We heard what you said," went on the Pipsisewah, and, too late, Uncle Wiggly remembered that he had spoken out loud, and some of the "No, I don't!" exclaimed Uncle Wiggly, making up his mind he might as well be brave and bold. "You have been a great pest and bother to me, and you know it!"

"Well, we know it!" boasted the Pipsisewah, and he was going to bother you a lot more, Mr. Uncle Wiggly! Longears! Catch hold of him, Skuddle, my friend!" cried the Pip, as he called him for short, "and we'll carry this rabbit off to our den!"

"And when we get him there," said the Skuddlemagoon, "we'll have all the same we want off his ears!"

So the Skuddlemagoon and the Pipsisewah caught hold of Uncle Wiggly, one at each of the bunny's long ears, and they were just carrying him away when, all at once, there was a rush and a scramble, and something big and white slid over the hill.

"Here! You let go of Uncle Wiggly!" cried the voice of Mr. Whitewash, the polar bear gentleman. With one paw he caught the Pipsisewah and slung that bad animal into the ice cave, which was nearby. With the other paw Mr. Whitewash slung the skuddlemagoon into the same cave. Then the polar bear rolled a big chunk of ice over the hole of the cave, closing it shut, just as you close the front door.

"There!" cried Mr. Whitewash, as he picked his teeth with an icicle. "I guess they won't bother you very soon again, Uncle Wiggly. The Pip and the Skuddle are locked in."

"Thank you for saving me," Mr. Whitewash, spoke the bunny. "You came along just in time. I was on my way to see you, to ask why you are going to move away. I hope nothing is wrong."

"Oh, no!" laughed Mr. Whitewash. "I'm just moving back to the North Pole because it will soon be spring and summer here, and too warm for me. So I am closing up my ice cave, which will soon melt, anyhow. But it will last long enough to cool off the Pip and the Skuddle. I guess."

"I guess so, too!" said Uncle Wiggly.

The federal income tax laws increased opportunities for bookkeepers and accountants and the trained accountant is now in great demand. In individuals and business firms who have been running along successfully and satisfactorily with a minimum of bookkeeping are now finding themselves face to face with the most complicated schedules and forms. To go to the expense of preparing themselves to give the information asked for by the government will mean, in some instances, that all profits will be eaten up in bookkeeping and accounting costs.

A proposed bond issue for a county hospital in Vernon for Wilbarger county was defeated Saturday. Already some of the forward looking people of Wilbarger county are discussing plans for another election. Wilbarger county will vote bonds and build a hospital. Wichita county will vote more bonds to build an addition to its present hospital. This is the way of enlightenment, humanitarianism and progress. This is a progressive and humanitaian people. They respond to education. The next time they will likely be ready to vote the bonds in Wilbarger county.

Good roads are great aids to progress. Texas is progressing at a rate never before attained. Every week new bond issues are voted and work undertaken on new highway projects. Hunt county voted \$2,000,000 road bonds last Saturday. On the same day Kaufman county voted \$1,450,000 for road improvements, Franklin county voted \$500,000 and a road district in Hill county voted \$250,000.

NO INFORMATION FROM COMPANY ON THRIFT WELL NO. 2

Various and conflicting reports were in circulation among oil men here today regarding the well of the Thrift Company No. 2 on the Brannon tract, block 82, Red River valley lands. Rumors were persistent that the well had been brought in, and following fast on the heels of the rumors came reports estimating the flow of the reported well at various figures. Apparently officials of the company were content to let the reports circulate, with no attempt at confirmation or denial. When seen by a representative of The Times, C. E. Stewart, secretary of the company, said: "We have absolutely no statement of any kind whatsoever to make. You can hear on one corner of any street the report that a well has come in for 10,000 barrels and on the next corner of the same street you can hear that the same well is full of salt water. No statement is being issued out of this office."

SECRETARY BAKER AND GEN. MARCH IN FORT WORTH TODAY

By Associated Press. FORT WORTH, March 24.—Secretary of War Baker and Chief of Staff March arrived here at 11:30 today, three hours late from the San Antonio and went to the three aviation fields and the army camp for an inspection. Troops at the army camp were reviewed. The public schools were dismissed.

While Secretary Baker was attending a luncheon, General March visited the scene of the death of his young son, Lieutenant Peyton C. March Jr., who was killed last year in an airplane crash. Among the planes inspected by General March was the very army hospital in which the son died.

When General March reached the spot where the boy fell, he found it banked with flowers in the form of aviator's wings. Lieutenant Paschal, who accompanied General March on the trip here, was the pilot of the young March when they fell 2,000 feet.

MUCH INTEREST IN NEW DEVELOPMENTS NEAR SAN ANTONIO

Lloyd Lehrbas of the Wichita Van Cleave Oil Co. returned yesterday from a month's trip in the southern part of the state. Mr. Lehrbas says the oil fever is almost at fever heat in San Antonio but that the investors are buying principally in local companies. The Mechem interests found gas near Kelly Field and have let contracts for the drilling of a number of wells in the San Antonio shallow field, according to Mr. Lehrbas.

Four exchanges have been opened in San Antonio but the public there has not yet arrived at the speculating stage and the exchanges are merely locations for promoting companies at the present time.

WASHINGTON, March 24.—From out of the "Port of Missing Men," hundreds of fighters believed lost by their families are coming back to make the home circle complete once again.

In 32 newspapers published at debarking and reconstruction hospitals for the benefit of returning soldiers, there is printed in every issue a column of inquiries from relatives which is known as the "Port of Missing Men" because it deals with those whom the currents of war carried beyond the reach of family and friends. More than 10,000 such inquiries have been received. The column is scanned daily by thousands of readers, eager to give the latest knowledge of missing comrades.

The "Port of Missing Men" column is open to relatives without charge for inquiries.

MISS MARGARET BURNSIDE TO WED ENSIGN LOWREY

Cards were received today as follows: "Mrs. Samuel Hiatt Burnside requests the honor of your presence at the marriage of her daughter, Mary Margaret, to Ensign Vernon Booth Lowrey, United States Naval Reserve Forces, on Thursday, March 27th, 1919, at high noon, First Presbyterian church."

The enclosed card reads: "At home after April 15 at Gulfport, Mississippi."

MUCH BUILDING MATERIAL NOW ARRIVING DAILY

Lumber Yards Are Being Piled High With New Supply

Let the building boom continue! The lumber yards of Wichita Falls are being piled high daily with lumber of every description, and the possibility of another shortage such as occurred two weeks ago is remote in the minds of all local dealers.

As far as the lumber men are concerned the freight embargo is almost a dead issue; through the cooperation of local merchants with officials of the railroads operating here unloading freight billed to this city and Fairbairn has progressed so rapidly that lumber shipments are coming through steadily from many shipping points and cars are being emptied within twenty-four hours of their arrival.

Moore & Richolt received twenty carloads of lumber today, and had thirty wagons on the job unloading the cars as fast as they were switched to the team tracks. The entire force of the lumber company is being used in unloading and getting the lumber into the company's yard.

No Deliveries Made.

"We are selling lumber, of course," but are refusing to make any deliveries at all. Every man is at work unloading cars, and we intend to stick at this phase of the work until our yards are filled and every shipment to the company has been unloaded. Lumber is coming through from the shipping points regularly now, where a few weeks ago it was being held up all along the line.

The C. M. Miller Lumber company has received and unloaded more than fifty cars of lumber in the last two weeks, and reports that no more trouble is being experienced in getting shipments into Wichita Falls. Eight, nine and ten teams are handling the unloading work at the railroad yards, and the company had ten cars of lumber on the team tracks this morning.

The Alfalfa Lumber company also is filling up its yards again, after being "cleaned out" by the embargo a few weeks ago. All of the local yards have abandoned deliveries temporarily, and are operating on the "cash and carry" system, each realizing the first necessity of getting the lumber unloaded and into the lumber yards so as to reduce to a negligible point the future possibility of another tie-up.

The lumber is here; let the building boom in Wichita continue!

PART OF TEXAS NATIONAL GUARD ARRIVES TODAY

The 132nd Field Artillery Complete Reaches Newport News

GO TO CAMP BOWIE

Fourteen Thousand, Including More Than 3400 Convalescing Among Arrivals

By Associated Press. NEWPORT NEWS VA., March 24.—The 132nd field artillery, complete, a part of the old Texas national guard, arrived here today aboard the transport Kroonland from St. Nazaire, The Texans will be sent to Camp Bowie for demobilization. The transport brought 2,943 officers and men.

By Associated Press. NEW YORK, March 24.—Ten thousand troops of the American expeditionary forces, more than 2,400 of them convalescing from wounds and sickness, arrived here today from France on the cruiser North Carolina and Montana and the steamship Matsonia and Attigone. For the most part, the home coming soldiers were of former national guard units of Colorado, Nevada, Utah, Arizona, New Mexico, California, Pennsylvania, Ohio and West Virginia.

FORTIETH DIVISION TROOPS ARRIVE AT NEW YORK

By Associated Press. NEW YORK, March 24.—More than 2,400 troops of the 49th division arrived here on the steamship Matsonia from Bordeaux.

Also on the Matsonia, which brought home in all 4,325 troops, were several officers and 416 men comprising six detachments of the 26th engineers for Camp Kearney, Pike, Devens, Grant, Lewis and Meade, and a number of casuals.

TEXAS CASUAL COMPANY AMONG LATE ARRIVALS

By Associated Press. NEW YORK, March 24.—The cruiser Montana, from Brest, brought 1,477 troops, including casual company number 737, Texas.

FOR BILIOUSNESS AND HEADACHE TAKE A CALOTAB

The New Nauseless Calomel That is Entirely Purified of All of the Nauseating and Salivating Effects.

Do you ever have a bad taste in your mouth in the morning, heavy breaths coated tongue, headache, indigestion, nervousness, with a let-down feeling? You need calomel, but dread to take it. Try Calotabs, the nausealess calomel that is delightful in effect. It is calomel with all its benefits retained and its unpleasant qualities removed. One tablet at bedtime with a swallow of water, that's all. No taste, no griping, no salt, no nausea. You wake up in the morning feeling like a two-year-old, bright, cheerful, energetic and with a hearty appetite for breakfast. Eat what you please—no danger of salivation. Calotabs are so entirely delightful to take and so pleasant in effect that your druggist offers to refund the price as a guarantee that you will be delighted with Calotabs.

For your protection Calotabs are sold only in original sealed packages, price thirty-five cents. At drug stores everywhere. (Adv.)

IT'S WEAR LIKE THIS THAT CUTS YOUR SHOE EXPENSE

Stepping on small pieces of hot metal, walking on sharp chips of steel, standing in hot sand—these, and other harsh conditions of walking surfaces, in a steel plant, have no apparent effect on Neolin Soles. So says R. J. Doty, plant superintendent of the Seyer Steel Casting Company, Milwaukee, Wisconsin.

Only Neolin Soles can resist wear and abuse like this. They are created by science to be very tough and durable—flexible and waterproof, too. To reduce your own shoe expense, and to give your family shoe bills, buy Neolin-soled shoes. You can get them in many styles for men, women, and children.

And have your worn shoes re-bottomed with Neolin Soles. These long-wearing soles are manufactured by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outlast all other heels.

Neolin Soles
The Best Shoe Sole in the World

(Continued from page 1.)

of parts of Hungary by Czech-Slovaks more probably due to the occupation and Rumanians, while commentators declare the signs are not wanting that Germany's collusion with the bolshevik.

Dr. Bernhard Dernberg, the former German colonial minister, writes to the Berlin Tageblatt something which evidently has a bearing on the situation when he says that Germany, threatened with dishonor instead of security in the west, must turn eastward to satisfy her needs and realize her future.

DECLARE SITUATION WARNING TO ENTENTE

By Associated Press. BRUSSELS, March 24.—The Berlin press from the extremely radical to the most decidedly conservative, sees in the events which are occurring in Hungary a "terrible warning to the Entente. This is the view taken, for instance, by the two extreme examples of Die Freiheit and the Tageszeitung.

"Entente imperialism," says the latter newspaper, "assisted bolshevism into the saddle in Russia by the frustration of Kerensky's peace plans. It now has raised bolshevism in Hungary out of the Hungarian working classes and these two lessons should not suffice, a third would carry terrible consequences into the Entente Lands.

PROCLAMATION ISSUED BY NEW GOVERNMENT

By Associated Press. BRUSSELS, Sunday, Mar. 23.—In concluding its proclamation announcing the proletarian dictatorship there, the new Hungarian government said:

"The Czech-Slovak bourgeoisie and Rumanian annexationist classes wish to overthrow the Hungarian workers' revolution by force of arms. We are determined however, to defend ourselves to the last drop of blood against all attacks. With our determination to defend the republic goes the wish to conclude speedily a peace which will assure means of existence for the Hungarian working classes and make it possible for them to live at peace with all the people of the world."

PEACE DELEGATES ARE CRITICIZED FOR DELAY

By Associated Press. LONDON, March 24.—The Hungarian revolution and the reported alliance of the new government with the Russian soviet, which is consid-

ered here as a grave menace to Europe, has given rise to new criticism of delays in the peace conference proceedings. The Globe, referring to the situation in Hungary, says: "That is the natural consequence of the delay of the peace conference in making peace and if the delay continues we will have worse consequences still. All this discussion of the league covenant before even a preliminary peace has been reached simply encouraged the spread of the bolshevik disease and gives our chief enemy opportunities for intrigue."

CHARGE EVENTS RESULT OF DELAY IN CONFERENCE

By Associated Press. PARIS, Mar. 24.—"The situation is as serious as that which arose when the congress of Vienna learned of Napoleon's return from Elba. Today as a hundred years ago, negotiators have provoked and have been surprised by destiny," writes St. Brice in the Journal.

"The problem before the council of ten today is not the fate of the German cabinet but the necessity of having Poland and Rumania rebuilt, the wretched compartment which, 'has collapsed,' he continued. Otherwise Germany, declaring herself alone in a position to save western Russia will lay down her peace terms instead of those the Allies propose to dictate to her of will threaten to take the lead in the bolshevik movement."

This extract from an editorial accurately reflects the views of the eight editors of French newspapers. Some express reserve as to how far the movement is or is not inspired by Germany but they generally all agree in upbraiding the principal blame for the events on the procrastination of the peace conference, and in insisting upon immediate steps to fight bolshevism.

CONVICTION UNDER ESPIONAGE ACT IS UPHOLD BY COURT

By Associated Press. WASHINGTON, March 24.—Conviction of Troy Deason at Waco, Texas, under the espionage law of 1917, sustained today by the supreme court, which refused to review his case.

Deason was sentenced to 18 months imprisonment.

Ensign V. B. Lowrey of Clinton, Miss., is the guest of Mrs. S. H. Barnside and Miss Margaret Barnside. C. F. Johnson and D. K. Bell represented the Lone Star Refinery at the organization of the Texas Refiners' Association held in Fort Worth Saturday.

Market Report

COTTON MARKET

By Associated Press.
NEW YORK, March 24.—The foreign political news had an unsettling effect on sentiment in the cotton market during today's early trading and after opening steady at a decline of 4 to 12 points new style months sold about 13 to 20 points below Saturday's closing. Business was only moderately active and part of the trading was attributed to further evening up of accounts for the holiday tomorrow. It was the last day of trading in old style March contracts which opened at a decline of 50 points while other old style months sold about 18 to 28 points not lower during the early trading. The decline carried new style May off to 24.52 and October to 20.95. The market showed increasing weakness late in the morning, owing to the continued unfavorable political news from Europe, talk that a further advance in ocean freight rates was probable and southern selling which some thought might be connected with the better progress of farm work. Wall street selling was the feature of the break which extended to 24.00 for May and 20.18 for new style October, or about 72 to 94 points net lower.

The pressure subsided somewhat during the early afternoon and there were rallies of several points from the lowest with May selling up from 23.95 to 24.14 and new style October from 20.18 to 20.20. The tone, however, was unsettled and bulges were not fully maintained.

Cotton closed easy.

New Orleans Cotton.
NEW ORLEANS, March 24.—The weakness of foreign exchange and the fresh complications in European politics made for lower prices in cotton today. In the first half hour business in the market for new contracts lost 19 to 20 points.

Reports of heavy unloading by large traders on the long side caused general selling. In the trading up to noon prices of the new contracts were 60 to 92 points under the close of Saturday.

A quiet but steady feeling prevailed in the early afternoon. At one o'clock prices were at a net loss of 50 to 50 points.

Cotton closed: Old barely steady at a decline of 60 to 86 points and new barely steady at a decline of 65 to 117 points.

Liverpool Cotton.
LIVERPOOL, March 24.—Cotton "not in fair demand; prices firm. American middling fair 318.12; good middling 16.70; middling 12.32; low middling 14.87; good ordinary 13.33; ordinary 12.52.

Sales 3,000 bales, including 2,700 American.

Receipts 9,000 bales, all American.

Futures closed irregular: March 6.73; April 15.94; May 14.34; June 14.12; July 13.53; August 13.50; September 13.25.

NEW YORK STOCKS
By Associated Press.
NEW YORK, March 24.—Disturbing foreign news and tomorrow's holiday combined to effect considerable irregularity at the outset of today's stock market. This was most evident in shares which recently were the center of bullish speculative interests. U. S. Steel opened with a sale of 3,000 shares at 98 3/4 to 98 1/2 against last Saturday's maximum of 100 1/2. Later Steel recorded a further reaction, oil, motors and equipment also yielding variably. Trading in rails was exceedingly light, marked firmness being shown by Reading.

Specialties made further concessions reacting to four points from last week's final prices. Steels and sugar also declined and grains in copper were largely cancelled on news of a lower Anacosta dividend. American "international" and Sinclair Oil were the active and strong features.

Offerings of steel and shippings caused further reversals among leaders in the last hour. The closing was heavy.

Final prices on Liberty bonds today were: 3 1/2's 99.60; first 4's 94.22; second 4's 92.52; first 4 1/2's 94.52; second 4 1/2's 92.54; third 4 1/2's 95.00; fourth 4 1/2's 94.60.

GRAIN AND PRODUCE
By Associated Press.
CHICAGO, March 24.—Corn showed weakness on the opening induced by larger receipts and by fine weather that promised continuance of a more liberal movement. On the ensuing decline, however, demand improved. Opening prices, which ranged from one cent to 2 1/2 cents lower with May \$1.43 1/2, to \$1.44 1/2, and July \$1.35 1/2 to \$1.36 were followed by rallies, which in some cases amounted to almost a complete recovery.

SPORTING NEWS

SOUTHERN LEAGUE TO ADOPT A SCHEDULE

By Associated Press.
NEW ORLEANS, March 24.—Officials of the Southern Association at their spring meeting here today expect to adopt a schedule for the 1919 season and discuss the "seven-player rule" adopted at the fall meeting in Birmingham and which prohibits any club carrying more than seven men which class & experience as late as 1917.

A draft of the schedule, already arranged, may have to be changed as a consequence of the unsettled question as to whether Sunday baseball can be legally played in Tennessee, according to league officials. It also was stated there would be an effort made to change the ruling as to class A players.

A. J. Heinemann, president of the New Orleans club has protested that in the proposed schedule New Orleans is not given sufficient Sunday games.

WILD PITCHING LOSSES GAME FOR CLEVELAND

By Associated Press.
NEW ORLEANS, March 24.—Piling up wild pitches in the second inning on Engle, whose wild pitching caused him to be taken from the game in the third, the New Orleans Southern Association club defeated the Cleveland team of the American League in the opening game of the exhibition season here Sunday 14 to 10. Engle was succeeded by Uhlir and Enzmann and Thomas. Lankester for New Orleans suffered 17 hits, Feldler, a recruit for Cleveland contributing four out of five trips.

HERMAN AND MOORE STAGE BATTLE TONIGHT

By Associated Press.
MEMPHIS, TENN., March 24.—Pete Herman, bantamweight champion, and Pat Moore of Memphis, who has to his credit a decision over Jimmy Wilde, British flyweight champion, will meet here tonight in an eight-round, no decision bout. It will be the second meeting of Herman and Moore, the latter gaining the decision in the previous bout, fought about a year before Herman won the championship title.

Knights & Ladies of Security will pay their dues at 504 Travis St., or P. O. Box 138.

BROWNS BEGIN TRAINING AT ST. LOUIS TODAY
ST. LOUIS, March 24.—The spring training of the St. Louis Americans began here today at one o'clock. President-Manager Branch Rickey announced he was sure the home training would do more to condition the players than the customary southern trip. Although only eight players were in the city last night, Rickey said "the remainder of the team would be here for the opening workout. The present weather conditions here are ideal," he said.

BURKBURNETT OIL FIELD

SKETCH OF THE TREND OF THE GREAT PRODUCTION AND INTENSE DEVELOPMENT

Our holdings are clearly designated on the plat. The one to the left of the river consists of 10 acres 2 1/2 miles from Burk Burnett, directly in the trend of the wonderful development and large production east of the town. On the river bank directly across from the Abilene well (known as the Burkbridge well—which has been patented in and expected to be drilled in any day.) About 2500 feet from the wonderful Helen Elizabeth production. A property that has declared large dividends and whose \$100 par value is now listed at about \$400. About 800 feet from the Marine, whose par value of \$100 stock sold at \$175.00 per share and about the same distance from the Reliable well estimated at 600 barrels a day. This is where immediate development is planned.

Other holdings in Burk Burnett field are quoted on the exchanges as follows:
 Fowler farm Oil Co., first price \$100 a share; since sold at \$150.00—150 for 1.
 Hog Creek, par \$100; since \$4,750 has been refused; offering \$5,000 per share for it now.
 Metropolitan, par \$100; standing bid \$7,500 per share for it.
 The Wichita, Floydada, Wichita Southern, Columbia, Couch, Winfrey, Vindicator, Clizen, Caid, Peoples and hundreds of others are selling at 4 to 10 to 1.
 The other consists of 40 acres in Cotton County, Oklahoma, near the Redwitch company well brought in the other day with indications for a substantial settled production. Offer of twice the purchase price refused for this tract. Directly in the eastern trend of production from Burk Burnett.

About 800 feet from the Marine, whose par value of \$100 stock sold at \$175.00 per share and about the same distance from the Reliable well estimated at 600 barrels a day. This is where immediate development is planned.

Other holdings in Burk Burnett field are quoted on the exchanges as follows:
 Fowler farm Oil Co., first price \$100 a share; since sold at \$150.00—150 for 1.
 Hog Creek, par \$100; since \$4,750 has been refused; offering \$5,000 per share for it now.
 Metropolitan, par \$100; standing bid \$7,500 per share for it.
 The Wichita, Floydada, Wichita Southern, Columbia, Couch, Winfrey, Vindicator, Clizen, Caid, Peoples and hundreds of others are selling at 4 to 10 to 1.
 The other consists of 40 acres in Cotton County, Oklahoma, near the Redwitch company well brought in the other day with indications for a substantial settled production. Offer of twice the purchase price refused for this tract. Directly in the eastern trend of production from Burk Burnett.

ALL WEST TEXAS HAS BEEN VISITED BY SPLENDID RAIN

ABILENE, TEX., March 24.—All of West Texas has been visited by rains for the last two days and rain was still falling here at noon today. The precipitation here has been an inch and a quarter. Water is running over the Abilene reservoir and all stock tanks are full. The rain helps to insure a great wheat crop in West Texas.

BIG SPRINGS HAS TWO AND ONE-HALF INCH RAIN
By Associated Press.
BIG SPRINGS, TEX., March 24.—In the 36 hours preceding noon today, two and one-half inches of rain had fallen there.

STRIKE SETTLEMENT OF A TEMPORARY NATURE
MADRID, Sunday, March 23.—Advices from Barcelona state that the recent solution to the strikes there appears to be merely of a temporary nature and that the present calm in that city may prove transitory.

BRIDGE-HEAD NO. 2

BURKBURNETT OIL FIELD

SKETCH OF THE TREND OF THE GREAT PRODUCTION AND INTENSE DEVELOPMENT

Our holdings are clearly designated on the plat. The one to the left of the river consists of 10 acres 2 1/2 miles from Burk Burnett, directly in the trend of the wonderful development and large production east of the town. On the river bank directly across from the Abilene well (known as the Burkbridge well—which has been patented in and expected to be drilled in any day.) About 2500 feet from the wonderful Helen Elizabeth production. A property that has declared large dividends and whose \$100 par value is now listed at about \$400. About 800 feet from the Marine, whose par value of \$100 stock sold at \$175.00 per share and about the same distance from the Reliable well estimated at 600 barrels a day. This is where immediate development is planned.

Other holdings in Burk Burnett field are quoted on the exchanges as follows:
 Fowler farm Oil Co., first price \$100 a share; since sold at \$150.00—150 for 1.
 Hog

OIL DEVELOPMENT

PROPOSE EXTENSIVE DEVELOPMENTS ON THE SPECHT RANCH

E. M. FOSTER OF ACME OIL COMPANY OUTLINES PLANS FOR FUTURE.

WILL MAKE DEEP TESTS

Is Subdividing Holdings into Small Blocks For Development Purposes.

Mr. M. Foster, of Minneapolis, who arrived in Wichita Falls several days ago, is planning extensive developments for the Acme Oil Company, of which he is president, and states that he will begin an extensive campaign on their acreage west of Burk Burnett in the very near future. The history of Mr. Foster's operations in this section, together with an outline of his plans for the immediate future are contained in an article in the Electra News as follows:

Foster was in Wichita county at the time of the discovery of the Fowler well at Burk Burnett and immediately purchased three thousand acres of land which embraces the townsite of Clara and is known as the Specht ranch. At the time of his purchase Mr. Foster was, seemingly, taking a long chance, but recent developments have placed this property in the limelight and his holdings are now listed among the most valuable in the entire country. Being located between the Electra and Burk Burnett fields and joining the famous Ramming district on the north, it has every indication of being logical location for the deep wells found throughout that district. In an interview Mr. Foster states that he has made arrangements with the L. L. Donnell investment company, of Wichita Falls, formerly of Electra, to handle leasing thereof as well as the office work of the company and to personally look after the interest of his holdings.

Foster Well Known.
Mr. Foster is by no means a stranger in this part of the country. His operations date back to the old Sunshine Hill district, which is still the center of interest in the North Texas oil fields; being the most prolific shallow sands of the entire country. Coming down from Minneapolis Mr. Foster saw the great possibilities of the oil field and immediately purchased the Ward & Todd tract, which has since featured in the oil reports from week to week. On this tract there have been forty-four companies organized and all of them have produced. There are now 307 wells on the Ward & Todd.

Was Called a Greener.
When Mr. Foster purchased the Ward & Todd he was called a "greener"

and it was the belief of the oil fraternity that he had received a good thing when he made the purchase. "Why hasn't the country surrounding been condemned with dry holes in the past," they argued. "But these things did not lessen the enthusiasm of Foster. He had geologists make reports for him, and was convinced that oil was beneath the knoll on which the little school house was located. He kept his land firm and fast and went back north to raise the money to help him carry out the extensive development campaign he had planned.

Capital Bright to Field.
Foster got up a special train and brought hundreds of people to Electra to see, with their own eyes, the glittering opportunities offered throughout this section of the country. When they arrived in Electra the Chamber of Commerce had plenty of cars handy to show them the wonders of oldland, and a tour through the field was made. On this day the stake was first located on Sunshine Hill was driven. It was only a few days until the drill started, and on April 26, 1916, it penetrated the pay zone and was proved that the wisdomes were not wise and that the "greener" had ripened.

Epoch Mark in Oil.
The discovery of this well might well be classed as epoch in the history of the Electra and Burk Burnett oil fields, for it has disposed of an old theory on which many experienced oil men based their calculations. Heretofore a dry hole on a section condemned it and the holder could not find any one who would lease or consider it, but now that old theory has been disposed of and the wildcatter is not afraid to go in the midst of former flusters, and in many instances as a reward gets the cream. That was the case of Fowler, who degenerated the first big well in the new Burk Burnett pool. His land was practically surrounded by failures. His company was looked on with little interest by the oil fraternity. But he got the oil. He was a convert to Foster's theory, and if the truth were known, we will wager that he pointed out what had been done on Sunshine Hill when he was trying to peddle the stock in his company.

Deep Oil West of Burk.
It is the prevailing belief of oil men that there will be some deep sands developed between Electra and Burk Burnett. In fact, there already have been. The Ramming and Serrien wells are the most noted in the entire oil fields, having been big producers before Burk Burnett was thought of as an oil center. The surrounding acreage has yet to be tested for deep oil, but is and will be. Foster states

that, on his acreage alone there will be south of the deep tests, as he is subdividing his holdings into small blocks and leasing it out for development purposes. Many of the tracts sold carry immediate drilling clauses, and speedy and sure development is his object in letting a portion of it go.

Spending Time Here.
Foster has been spending considerable time in Electra and Wichita Falls in the past few weeks, and is devoting his personal attention to looking after his holdings. He states that he believes that there is plenty of oil to be developed in Wichita county and that he has absolute confidence in the future.

PROGRESS IS MADE WITH DEVELOPMENTS IN BAYLOR COUNTY

Special to The Times.
SEYMOUR, TEX., March 24.—Dunn Chapman Webb, No. 1 during the past ten days has completed its fishing job and resumed active drilling. The drill has passed through a shallow oil and a good showing of oil coming up with the leader. The depth of this test is not known, as the drillers have concluded not to give out details of their operations. There has been some activity in leases near this well.

H. C. Sample, Albricht No. 1, is making rapid progress at better than 350 feet.
Hamilton Snyder, No. 1, on section 26 south of Patcher Switch, has shipped in material and is ready to erect derrick. This well will be drilled to a depth of 2500 feet and a great deal of interest is shown in the outcome of the test. Oil surface showings in this locality lead to strong belief that an oil field will be opened at this location.

Kelley Green Oil Co., Portwood No. 1, has had surveys and geologists on the ground for some days to determine the location of their 3,500 foot test and operations are scheduled to commence soon.
Frank Gains, Stevens Bros. No. 1 in the Colorado county school lands, is erecting its derrick and installing machinery for a deep test on their location.

Knox County.
H. C. Sample, Coffman et al. No. 1, situated 1 1/2 miles west of Seymour, is delayed for material.
Coffman et al. Coffman, 4 1/2 miles north of Munday, is drilling below 2,000 feet in gray shale.
Throckmorton County.
Sinclair Gulf, Wilkerson No. 1, sit-

uated 2 1/2 miles south of Seymour, has installed a new boiler, which was badly needed, and has resumed active drilling, after probably two week's delay. This test will likely make rapid headway now, and is a very hopeful test.

FREDERICK COMPANY AWARDS CONTRACT FOR 1500 BARREL REFINERY

Special to The Times.
FREDERICK, OKLA., March 24.—Announcement has been made by officers of the Frederick Oil and Refining Company that contract has been let by the company to H. C. Leete for the construction of a 1500-barrel refinery in this city. Construction work will start at once. It was said.

The company originally organized to construct and operate a 400- or 1200-barrel refinery, has increased the capacity of the proposed plant to 1500 barrels, because a plant of that size can be operated at very little more expense than one of 200 or 500 barrels, less capacity, and will yield its owners much greater profits.

The refinery is to be located in the Holloman block, and will be opened as soon as necessary remodeling can be done.

Construction of the plant is to be supervised by the company by its superintendent, G. W. Van Wert, who began his duties with the company Wednesday.

Consideration of the contract, it was announced, was \$20,000, with an additional \$10,000 for the Leete process.

Leete and Van Wert are both refining men of long experience who know the business in all its details, and are expected to build a plant which will not only be a money maker for its owners but a credit to the city as well. Mr. Leete has shown his faith in the project and in the city of Frederick by purchasing \$10,000 worth of the company's stock, it was announced.

Times Want Ads One Cent a Word Each Insertion.

with Mr. Leete for the installation of his process, known as the Leete process, of refining, which, it is declared, will yield a much larger percentage of gasoline and naphtha from their crude oil and which is said to effect a great saving in their use of fuel.

Construction of the plant is to be supervised by the company by its superintendent, G. W. Van Wert, who began his duties with the company Wednesday.

Consideration of the contract, it was announced, was \$20,000, with an additional \$10,000 for the Leete process.

COMPLETE DERRICK FOR DEEP TEST IN CHILDRESS COUNTY

Special to The Times
CHILDRESS, TEX., March 24.—The derrick for the Childress-Duluth Company well on the Klutts lease, Section 532, W. & N. W. Ry. survey, is now completed and the machinery is being installed.

A visit to the site shows that real business is meant, for no better drilling outfit has ever been put together. The derrick is 94 feet high and of the very heaviest timbers. The tools, cable, boiler and engine should be received in a day or two and when hauled out and assembled the derrick, A. M. & J. T. Brindos, will be ready to start drilling.

In speaking of the rig and equipment A. M. Brindos said:

"The Childress-Duluth company has provided us with the very best that money can buy. They told us to select what we deemed best for a deep test and not to hold back on account of money. We have never seen a better outfit than will be used on the Klutts well."

"We are having the dam repaired on the lake nearby and with a light rain there will be plenty of water. We have plenty of water now for boiler use but it may be necessary to use well water for drilling purposes. We will start with an 18-inch hole and use tools all the way down to permit us to reach a depth of 4,000 feet, or deeper if necessary."

ACTIVITIES ACROSS RIVER IN OKLAHOMA

Special to The Times
DE VOL, OKLA., March 24.—Rig for the Redlands, on section 13, was unloaded here today and drilling is to commence as soon as same can be installed.

Drilling on the Burk-Annex, on section 15, will commence Monday. Machinery is now being installed. The Burk-Bridge well which is holding much attention, will be drilled in next week. A star rig is being placed on this location.

The derrick for Jackson Queen, section 14, was demolished by wind Monday night. It will be re-built at once. Messrs. Phillips & Matthews of Nashville, Tenn., were here Monday and purchased acreage in section 15 and announced that they will commence drilling at once. This makes four tests to be run at once on the northeast quarter of section 15, twf. S. R. 13 W.

From Walters New Era.

Delbert Carr has a double decker on his farm east 1-2 of N. W. 1-4 6 1 10. Too much oil for a gas well, and too much gas for an oil well. Either way it is a good well, with both a splendid one.

About five wells just ready to be brought in, all on the sand.

McAlister & Brown are unloading a string of cable tools ready to go for oil.

Section Four Oil Co. have completed

their derrick on the S. W. 1-4 of the S. W. 1-4 2 10.
Sanders Oil Co. are drilling at 1900 feet on N. E. 1-4 of the N. W. 1 4 9 2 10.
Gladstone Co. are standardizing on the S. E. 1-4 5 2 10.
McBride Co. are completing rig on Prospect school house lot S. E. 1-4 1 2 10.
Jake Hammons well in the S. W. 1-4 6 1 10 is on the sand, and will be brought in as soon as it can be standardized.

The Skelton well in northwest of 31-1 10 is in the sand and promises to be a good one very soon.

Notice is also hereby given that the annual meeting of the Board of Directors of said The Wichita Falls & Southern Railway Company will be held at the same place and on the same day immediately after the adjournment of said stockholders' meeting.

GREEK ARMY OFFERS APOLOGY FOR ARREST OF AMERICAN CONSUL

Associated Press Mail Correspondent.

SALONIKI, March—Premier Venizelos and General Paraskeopoulos, commander-in-chief of the Greek army, have offered regrets and apologies to George Horton, the American consul general here, for the unwarranted arrest of Dr. John Henry House, of Ohio, superintendent of the American Missionary School.

The charges on which the arrests were made were entered by a Bulgarian informer, and the arrests were by order of a subordinate military official. As soon as the matter was taken to the attention of the authorities by Mr. Horton, the arrests were released, and an investigation ordered by General Paraskeopoulos proved the charges, which had been characterized by Horton as "ridiculous and fantastic," to be absolutely baseless.

The Rev. Mr. Cooper was charged with transmitting information to the Germans through Mrs. Cooper's sister who was then resident in Switzerland, and with obtaining employment for a Bulgarian woman as cook in an American consulate, in order that she might steal papers of importance and take them to him at the school.

The informant also declared that he had overheard Dr. House say he had positive information that Macedonia was to be given to Bulgaria when the peace treaty was signed. When this information was given to the Greek authorities they ordered the arrest of all persons with Bulgarian affiliations.

The partnership composed of Cooper, Deeren, O. H. West and Jake Jansen, known as West, Deeren and Jansen Rig Building Contractors, is hereby dissolved and from this date neither of the parties whose names are signed hereto will be liable for any debts contracted by the above company.

ANNUAL MEETING OF TEXAS CHAMBER OF COMMERCE AT WACO

DALLAS, TEX., March 24.—An idea as to the scope, general plan and the operation of the newly organized Texas Chamber of Commerce is conveyed in the statement just issued from the general headquarters of the organization. Details connected with the management and operation of the statewide body will be taken up at the general membership meeting in Waco in the 11th and 12th of next month.

The idea of a statewide Chamber of Commerce was launched at a Texas Reorganization Conference held in Houston on January 10th and 11th, 1919, and which was attended by 240 delegates representing 34 local and state organizations.

This conference unanimously endorsed the move and appointed an organization committee. The committee requested the directors of the Associated Industries of Texas to broaden its scope of activities to include not only industrial work but economic, agricultural, commercial and civic work.

Approval is expected. The directors of the Associated Industries of Texas agreed to recommend the directors of the Association to be held at Waco, April 11th and 12th, 1919. Indications from a letter sent to the members of the association show that the members will approve the action of their directors, and have the Associated Industries of Texas become the Texas Chamber of Commerce, under a broadened purpose and revised plan of organization and operation.

Speakers of national prominence will address the Waco meeting, leading Texas will confer on the building of a great Texas and launch the organization through which the work will be done. The single aim and purpose of the institution is the development of Texas to make citizenship in it worth more in happiness and prosperity for those here and those to come. For this purpose the local and state organizations of the state have been asked to lend themselves as the rule or line to the individual citizen, and so far there has been a splendid and hearty response to this request.

OKLAHOMA YOUTH WRITES OF CRUEL HON TREATMENT

Vernon Kendall, of Roll, Okla., friend of Judge J. R. Ogle of this city, who with eleven other American boys were the first American boys captured by the Germans, writes this letter to his people concerning his capture or treatment by the Germans.

Dear Edith: I received your letter of December 27th yesterday and was real glad to hear from you.

I had received six letters this week, they were the first that I have gotten in about six months and I was sure glad to get them. I did not get much mail while I was in prison. The Jerries would only let mail come in when they felt like it and in order to get a letter out we had to lie and say that we were feeling fine. While I was there I wrote home at least twice a month and then I got a letter from the Red Cross three different times asking me why I didn't write to my folks.

Well, Edith, I got to see quite a bit of the country that the Jerries praise so much and call "Mines fatherland." But the more I saw of it the more proud I was that I am a real American. A person who has lived in America all their lives and never been out of it can not realize what a good country it is and how far it is ahead of these countries in every thing.

I had always read and heard of Berlin and what a great city it was. I was there twice but it didn't look good to me at all—of course I was feeling pretty blue then, and nothing they said would make me feel any better. But really, I was marched on some of the best streets and I didn't see any large buildings.

How do sheriffs and their deputies spend their evenings? Answer: Writing letters to other sheriffs and other deputies. This is the truth, for long after darkness had descended upon the land Saturday night, long after "Dad" Arlington and "Uncle" Gwinn had departed arm in arm from their basement court rooms, a reporter for the Times rubber necked through the corridors of the county court house and surprised Sheriff Bob McFall and all his deputies writing letters.

Some miscreant, it seemed, with no dread of the hereafter had stolen a Ford, and the sheriff and his men were giving proper notification to every sheriff and deputy between here and Nome, Alaska. Deputy Sheriff Morris was painfully studying a list of officers, and addressing envelopes in long hand; Deputy Sheriff Allen was sticking descriptions of the five into the envelopes; a third deputy whose name the reporter did not learn was sealing said envelopes.

Dead silence again, broken only by the scratch of Morris' pen, and the rustle of papers and envelopes—and then came the verbal climax that proved to the reporter he had found an excuse for a story: "Jee-rusalem," exclaimed Deputy Morris, holding his pen aloft and proudly directing attention to an envelope he had just finished addressing with many flourishes. I guess maybe I didn't sit on the rear end of that capital 'A,' what!

I was in this camp until the tenth of August and then we were sent to South Germany and was kept there until after the armistice. Then the Red Cross came after us and brought us out through Switzerland. They took us to France and put us in the hospital, was there a month then they got alright and was pretty well fed up and asked to be sent back to my regiment, so I am now back in Germany, but not a prisoner. Am stationed at Bannberschied; it is only a

small place, but it is not far from Coblenz. Well, I must bring this letter to a close. I thank you for your invitation to spend a few days with you when I return and I will sure try to do so. I hope this letter will not tire you, and that you will write me a long letter soon. Your friend, PVT. VERNON KENDALL, Co. F, 16th Inf., A. E. F.

DAYLIGHT SAVING PLAN IS EFFECTIVE AGAIN ON SUNDAY

The daylight saving plan, which a year ago made golf widows moan and their husbands supreme happy, will go into effect again next Sunday morning, March 30, at 2 o'clock.

And if it does nothing else in Wichita Falls, just consider what tremendous value that extra hour of light will be to the old-land-leasenthusiasts who love to back their victims gently out to the curb and flatten a blueprint before their eyes against a telephone pole.

WHY COFFEE IS HIGHER

There are several contributing reasons why coffee is higher. At the beginning of the war in Europe there was a large stock of coffee in Brazil—who produces eighty percent of the coffee of the World. Europe used two thirds of the World's coffee supply and America one third. After war was declared in Europe their markets were closed and America was Brazil's only outlet. So notwithstanding higher freight rates and production costs we were enabled to buy coffees at little advance over pre-war costs.

After America entered the war the food administration restricted the importation of coffee and we were forced to use up the surplus usually carried here—and now Brazil is giving us just enough for our immediate wants—which together with the fact that Europe's coffee pot was empty and must be replenished—puts Brazil in the saddle. Then the frosts last August so damaged the coffee trees that we are due to have a short crop for at least three years—so there seems no immediate prospect for cheaper coffee—YET COFFEE IS STILL THE CHEAPEST commodity that enters into human consumption—A pound makes thirty cups.
