The strike is partly for higher wages and partly because of sympathy with the Hungarian revolution. It is feared it may lead to the establishment of a soviet republic in German-Austria. The trouble began last night when men employed by the Southern railroad walked out. All traffic over this road is at a complete standstill, even Allied food trains from Trieste being stopped. As a result of this interruption of transportation of supplies, Vienna is threatened with famine.

WILL RELEASE 500 INTERNED ENEMY ALIENS

This Number of Four Thousand and Held Held Are to Be Paroled

THE HARMLESS CLASS

Greater Part of Those Interned Are Merchant Seamen Seeking Refuge

By Associated Press. WASHINGTON, March 28.—Attorney General Palmer disclosed today that about four thousand enemy aliens were interned during the war, and that about 500 of these were members of the harmless class, others would be re-patriated, and 900 dangerous persons would be held indefinitely. The harmless class consists of members of the I. W. W. or anarchistic organizations whose cases would be referred to the department of labor with a view to their deportation.

Nearly all of the four thousand interned are men and half of them are merchant seamen whose ships sought refuge in American ports. About 1800 of the seamen and 500 other Germans regarded as dangerous have made application for repatriation and the department of justice expects that arrangements will be made soon through the state department for sending them back to Germany.

"The department of justice," says Mr. Palmer, "has recently directed the release on parole of about 500 persons belonging to the harmless class of dangerous alien enemies. This group consists chiefly of persons who were interned because of repeated violation of parole or other reasons and are no longer regarded as a menace to the public safety. When these men have been paroled and the repatriation plan about to be carried out, there will remain in the internment camps approximately 900 dangerous alien enemies, and it is not expected that they will be released."

"About 200 of these are professional members of the I. W. W. or anarchistic organizations and their parole will be referred to the secretary of labor with a view to considering their deportation. Criminals Are Included. "The residue contains a large number of convicted criminals, spies and enemy agents who, in view of the attitude of the government, are permitted to remain in this country after the declaration of peace. "It is the intention of the attorney general to provide means for further investigation of the more dangerous alien enemies, and to deport the most dangerous of these alien enemies. Such legislation would permit us to deport at least one-half of the remaining 900 dangerous alien enemies. "Unless such legislation is passed it will become necessary immediately on ratification of the peace to send to the United States all the remaining 900 dangerous alien enemies then in confinement, including the criminals, spies and enemy agents."

Will Extend Over a Period of Six Months From May Tenth

TEN PER CENT CASH

Deferred payments may be extended over a period of six months from May 10 to November 11. Payments also can be completed on any installment date with accrued interest. Terms of the fourth Liberty Loan permitted deferred payments only over four months and the installments were arranged so that 50 per cent be due in two weeks, from January 16 to January 30, 1919. In that loan banks subscribed for hundreds of millions of dollars and then allowed the public to pay over a period of ten months. If similar extensions are given in this loan, treasury officials said the result should be a great stimulation of popular subscriptions because the public would have approximately a year in which to pay for their bonds.

### PARK COMMITTEE VOTES TO INCREASE THE CAPITAL STOCK

The park committee of the chamber of commerce voted this morning to increase the capital stock of the Wichita Falls Park Association from a minimum of \$15,000 to \$50,000, and to purchase outright the entire 47 acres of land on East Seventh street owned by Mayor J. B. Marlow. The committee has decided to broaden the scope of the association, and through acquisition of the 47 acres obtain a site for a modern park, with a baseball field, stock stables, tennis courts, grill grounds and any other amusement and recreational features that may be desired.

Originally it was the purpose of the committee to set the capitalization at \$15,000, with the idea of purchasing only six acres. On Thursday this entire \$15,000 of stock was subscribed by business men of the city, and the interest aroused in the project stirred the committee to attempt a larger undertaking. The 47 acres, originally held at \$1,000 an acre, was offered to the committee by Mayor Marlow for \$35,000, and an option was taken subject to the approval of the stockholders who had already subscribed. Without exception the stockholders endorsed the plan to increase the size of the project.

J. A. Kemp today increased his subscription from \$500 to \$5,000, Frank Kell and R. O. Harvey each increased their holdings to \$2,500, and scores of increases among the smaller stockholders followed the committee's announcement of the company's increased capitalization and the plans for obtaining a larger acreage.

Regular weekly meetings are held by this society and interesting programs are carried out. John N. Gambrell, Jr. is president of the organization. Miss Hazel B. Crenshaw is secretary, and there is a large program committee in charge of furnishing the features of the meetings.

**Stamps in Change.**

Early in the year the members agreed to ask for Thrift Stamps in change and some of them told their experiences at the last meeting. One young lady told of going into a department store which had a sign up to the effect that it was a sales agent.

"The cashier said they were just out of Thrift Stamps and had sent to the bank for some," she reported. "I said I would wait for them. Then I watched. The cashier stepped back to the counter and the young store manager dashed out hurriedly. I did not see my Thrift Stamp until that boy had come back, but that store now has them on hand."

One of the men reported a different experience. He went into a cigar store where he did not think they had any stamps. The proprietor, however, called for some and the young store manager dashed out hurriedly. I did not see my Thrift Stamp until that boy had come back, but that store now has them on hand."

The secretary has offered a prize for the best War Savings story turned in for the suggestion box in time for the next meeting. This box being placed where members can put any suggestions for improving the work of the organization.

One of the stories of your story take place in Germany, France, England, Italy or the United States, read the rules for the contest. "Go to the North" is the equator or the equator of the planet if necessary. There is plenty of room in the realm of imagination.

The best of the stories submitted will be compiled in a neat little booklet and sent out to other War Savings Societies over the district. All members of the headquarters society are enthusiastic over the work and agree that the short time spent in the meetings is bringing them much enjoyment as well as benefit.

## OF INTEREST TO SPORT FANS

### SPIKE KELLY PLANS AN ATHELETIC CLUB FOR WICHITA FALLS

J. A. (Spike) Kelly is in Wichita Falls, carrying a County Silgo smile on his Irish "nose" and followed wherever he goes by a diminutive fly-weight pugilist. Spike's history may not be known to the reader of this week article, but the citizens of Toledo, Ohio, have a warm spot in their hearts for Spike and the ghosts of several German soldiers still murmur resentfully against his wild Donnybrook style of fighting.

Kelly was a boxer, wrestler and fight promoter in Toledo before the war started; then he became a volunteer soldier today he has a certificate of 100 percent disability, nine citations for bravery and the scarlet cord of recognition bestowed by Marshal Foch. Spike is a broken man, physically, but mentally he's a "live-wire" Irishman who has decided to settle in a live-wire city.

The diminutive pugilist who accompanies him is one Battling Ray, a 98-pounder who has beaten many of the country's best boxers and is regarded as a contender for the flyweight title. He has been matched to meet Askey Hammell of Australia, some time in April, and Kelly is arranging a boxing exhibition in Wichita Falls where his protegee will display his fistie wares.

An attempt is being made also by Spike to promote an athletic club here, with a gymnasium for business men, and he has received considerable encouragement from Wichita Falls citizens interested in sports.

### DICKERSON RETURNS AND HOLDS THAT HE STILL HEADS LEAGUE

By Associated Press. NEW YORK, March 28.—E. W. Dickerson, who was president of the Western League last year, but went to France with the 32nd Division as a war correspondent, gave out a statement here last night in which he declared he still was the president of the baseball organization and challenged the "legality" of the League's maintenance of A-1 Tierney of Chicago as its chief executive. "I was president of the Western League when I left America last July," Dickerson's statement said. "The term for which I was elected in June 1917 does not expire until June 1920 and I certainly will insist on the contract being fulfilled."

"When the Western League suspended play last year I was extended a vote of thanks and given a vacation for whatever time I might stay in Europe as a war correspondent. A deposition containing testimony in dispatches as president of the Western League. My wires to the team owners are unanswered to this day. "If the Western League can afford the luxury of two presidents this year that is its own business. I know that it must fail to return to Europe before the League can operate this year. If under direction other than of the one elected in 1917 for a period of three years."

### TIERNEY IS WILLING TO GIVE WAY TO DICKERSON

By Associated Press. CHICAGO, March 28.—Al R. Tierney, recently elected president of the Western League when told that E. W. Dickerson, last year's head of the organization, had returned from overseas duty and declared he still was president of the league, said if Mr. Dickerson wanted the job, he, Tierney, would gladly step aside for him.

"It would be unparliamentary in me to oppose Mr. Dickerson and if he wants his job back, I will gladly step aside for him," said Mr. Tierney. "I understand his contract was a verbal affair but I do know that he is a good baseball man and formerly was head of the old Central Association."

The Western League club owners offered the presidency to Mr. Tierney after other arrangements had failed and he accepted. He recently was re-elected president of the re-organized Three-I League.

### OFFER TESTIMONY THAT ORGANIZATION CONTROLS PLAYERS

By Associated Press. WASHINGTON, March 28.—Testimony to show that organized baseball controls the market in players through reservation clauses in contracts and thereby is a trust within the meaning of the Sherman anti-trust act, was continued today in the District of Columbia supreme court in the damage suit of the Baltimore federal league club against the National and American Leagues and certain officials of the defunct Federal league. Witnesses appearing today included a number of baseball players, most of whom were federal league players.

George Maisei, a baseball player, testified that he had been a member of the minor league and then back to the majors.

He testified only a few days ago a contract had been sent him by a ball club on the Pacific coast, the terms of which were not at all satisfactory. He added that because of the rules and regulations under which organized baseball operates, he either had to accept the unsatisfactory contract or quit organized baseball.

A deposition containing testimony given in another case by David Fultz, president of the players' fraternity, was read to the jury. Fultz asserted that the chairman of the National Commission had requested during the contest between the Federal League and the old leagues, that the players' fraternity expel any player who jumped to the Federals.

SPECIAL TRAIN IS REQUIRED FOR THE CREATORE COMPANY

"To liken grand opera to a circus would see man absurd comparison," says Mark Byron Jr., the general manager for the Creatore Grand Opera Company, "but when one understands what it takes to move a grand opera company, such as Mee-tro, Creatore is bringing with him, and which will sing in Wichita Falls Saturday, the comparison does not seem far fetched. The company includes 110 persons. There is an orchestra of 40 persons, there are 20 principal singers, and the remainder are ballet and chorus. We have to carry our special scenery and costumes, of course, when such elaborate productions of grand opera as we have in our repertoires are staged, and this is no small item. This special train will serve as a home for the company during their stay in Wichita Falls which would have proven the most difficult place we have found yet to get hotel accommodations. We have had to put our singers in private homes in several places, where it was impossible to get accommodations for more than 100 at the hotels in Wichita Falls, however, I'm informed tents are all that are available, and I'm afraid that the artistic temperament of a grand opera star would scarcely stand the shock of being lodged in a tent. Our trip so far has been very successful. Our first season, which was last season, assured us that this

DEMAND FOR SEATS FOR GRAND OPERA TO TAX HOUSE CAPACITY

From all indications there are going to be quite a number of "roost parties" at the matinee performance of Grand Opera Saturday. "I'm going to the roost for the matinee," said one woman who is well known in musical and society circles. "That's one beautiful thing about grand opera, it's just as good, or even better way up in the galleries, or back on the first floor. I'm going to sit in the parquet, all dressed up and perfectly proper at night but for the matinee I'm going to revive my student days, hear just as well as if we were on stage boxes, in fact the effect was much better. So some of us are going back to the days when we climbed the stairs to the gallery in Boston. New York, Cincinnati or wherever we happened to be studying. Just as this musician, who hadn't forgotten her student days, says, grand opera does have just as good effect way back, or high up, and for that reason those who didn't get in time to get tickets close up, won't have to be deprived of going to grand opera, and enjoying it to the fullest. According to H. E. Johnson, who has charge of the ticket sale, the tickets went fast Thursday, and several out of town parties have made reservations. One request for a block of reservations has come from Amarillo, and several parties are coming from Henrietta, Burkburnett, Electra and other nearby towns.

When a large crop of a staple product spells poverty for those who raise it, and when a short crop means plenty and self-respect something is wrong with the marketing system for the staple.

SOMETHING RADICALLY WRONG

When a large crop of a staple product spells poverty for those who raise it, and when a short crop means plenty and self-respect something is wrong with the marketing system for the staple.

The Southern farmer has protested against this situation for years without much result and without even arousing much sympathy from the business elements of his own section.

War activities brought all the people closer together in mutual understanding and in co-operative effort. One of the results has been a desire on the part of all the people to see the Southern farmer get a more equitable share of the proceeds of his crop.

There must be some remedy for this wrong. In announcing a conference to be held in Dallas on April 7, Mr. Dove says that it is expected that a solution of the problem will be brought forward. It is earnestly hoped that Mr. Dove's optimism is warranted.

NEW AMUSEMENTS TAX IS EFFECTIVE ON AND AFTER TUESDAY, APRIL 1

WASHINGTON, March 28.—New amusement taxes which go into effect next Tuesday will fall heavily on theater ticket brokers, and will raise cabaret admissions.

In addition to the ordinary tax of one cent on each ten cents charged for theater tickets, news stands, hotels or other brokerage agencies dealing in theater tickets are required under the new revenue law to pay five percent of the excess charged by that agency above the usual box office price, providing that excess is fifty cents above the box office charge.

Bedtime Stories

(By Howard R. Garis)

Uncle Wiggily and Lulu's Hat. "Wait a minute, Uncle Wiggily. Wait a minute!" called Nurse Jane Fuzzy Wuzzy.

"What is it?" asked Mr. Longears, as he stopped the twinkling of his pink nose for a moment and leaned on his rheumatism crutch.

"Please bring me back three pounds of sugar from the five and ten cent store, if you have time from your adventures," begged the muskrat lady.

"Sugar?" cried the bunny. "Why, I'll bring you four pounds!" and away he started, hopping over the fields and through the woods, looking for an adventure.

"That's one of mother's old hats," answered Lulu. "I'm going to pay a make-believe party call on Beekie Stubbail, the bear girl, and I'm wearing this hat to be stylish-like."

"Well, it is big," said Lulu. "But when that's the style this year, I have to be in style, you know."

"I suppose so," said Uncle Wiggily. "And really Lulu's hat was very large. When Uncle Wiggily looked down on Lulu, for he was taller than she, all the bunny could see was her hat, hat!"

"There are you going, Uncle Wiggily?" asked Lulu, speaking as though from under a toadstool.

"To the store to get Nurse Jane some sugar," was the answer. "I did hope to have an adventure, but I'm afraid I will not find any how, it is getting so late."

"Oh, perhaps you may!" spoke Lulu, hopeful-like. "May I go to the sugar store with you?"

"Of course," said Uncle Wiggily. "But perhaps you can't get in on account of your large, stylish hat. You may have to wait outside for me."

"And that's just what Lulu did. Her hat was so big she couldn't get in the door of the store. So she stayed outside, and Uncle Wiggily went inside and bought the sugar. Lulu didn't mind staying outside, though, for a lot of little frog boys hopped past, and each one said:

"Oh, what a big hat!" "Uncle Wiggily came out with the sugar in a paper bag—four pounds of it—and he and Lulu started back through the woods toward their bunny's hollow stumpy bungalow.

"And still we haven't had an adventure!" sighed Mr. Longears when he and Lulu had gone on a little way.

"I think I hear one coming now," said Lulu after a bit.

"One what coming?" Uncle Wiggily wanted to know.

"An adventure!" quacked the duck girl. "Oh, look, Uncle Wiggily! There it is—the bad old fox!"

Lulu, and she flapped and flew on ahead and Uncle Wiggily hopped. But for all that, the fox might have caught them if, just then, Jackie and Peety Bow Wow, the broke puppy dog boys, had not run out of the woods. They barked at the fox and frightened him away.

"Thank you, Jackie and Peety," said Uncle Wiggily, when he had caught his breath, which had almost run away from him. "You saved Lulu and me. But alas! Look! There is a hole in the paper bag and all the sugar is running out. Oh, dear! What shall I do?"

"Here is my big hat! Take it quickly, and empty the sugar in that!" cried Lulu. So Uncle Wiggily did, throwing away the broken paper bag, and only one grain of sugar was spilled and a little bird ate that, so it was not wasted.

Uncle Wiggily took the sugar to Nurse Jane in the duck girl's big hat and it was well. So this teaches us it is a good thing, sometimes, to be stylish, if we are not too much so.

And if the cake of soap doesn't get to hide on the clothes line party in our back yard, I'll tell you next about Uncle Wiggily and Jimmie's pockets.

A SURE WAY TO CUT YOUR SHOE EXPENSE. "It has been quite an expense to keep my boy in shoes because he is very hard on them. But since wearing shoes with Neolin Soles his shoe bill has been reduced 65%," says J. Allison Allen of Amity, Arkansas.

On the importance of Neolin Soles as a money saving factor there are thousands of parents who agree with Mr. Allen. Because Neolin Soles give extra wear where most shoes wear out quickest, they cut your shoe bills down.

Ask for Neolin-soled shoes when next new shoes are needed, either for yourself or for your children. You can get them at any good shoe store. And take your worn shoes to the repair shop and have them re-bottomed with Neolin Soles.

Remember—these soles are created by Science to be waterproof and comfortable, as well as long wearing. They are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear all other heels.

# Market Report

## COTTON MARKET

By Associated Press.  
**NEW YORK, March 28.**—The cotton market was rather irregular at the start today, first prices ruling three points higher to six points lower on the new style and 30 points higher to 25 points lower on the old style. It seemed that some of yesterday's buyers were disappointed that the European political news did not fulfill yesterday's optimistic expectations regarding the progress of the peace conference and there was scattered realizing of liquidation. Liverpool was a good buyer, however, and the market firm up right after the call with new style May selling at 24.52 and October at 20.90 or 15 to 20 points net higher. Old style May sold at 24.50 and October at 20.50, or 15 to 25 points net higher.  
 Reports of unseasonably low temperatures in the southwest and further complaints of delayed farm work helped the early advance but Liverpool was the chief buyer and when the demand from this source was withdrawn toward the end of the first hour's prices turned easier under realizing or liquidation and reports of increased southern offerings above 24.50 for new style May. That delivery sold off to 24.30 and October to 20.54 or about 16 to 26 points net lower with the market quiet around midday.  
 The southern selling disappeared during the early afternoon and some buying orders were received from that source while there was renewed demand from Liverpool, which firm prices with new style May selling at 24.71 and October to 20.68, or about net unchanged to 15 points net higher around 2 o'clock.  
 Cotton closed steady.

## New Orleans Cotton.

**NEW ORLEANS, March 28.**—Prices fell 10 to 11 points around the opening of the cotton market today on the new contract under selling encouraged by better weather in the belt but a good demand sprang up, based on a better feeling regarding world politics and prices quickly recovered. Active months rose to a net advance which at the end of the first half hour of trading amounted to 15 to 19 points.  
 Realizing from the long side and shot offerings based on expectations of bearish week end statistics caused a new decline. In the trading up to noon prices were sent 29 to 36 points under the final figures of yesterday.  
 In the early afternoon the market was quiet and steady. At 1 o'clock prices were 12 to 33 points under the close of yesterday.  
 Cotton closed: Old steady net unchanged to 15 points lower; new steady at a net decline of three to 14 points.

## Liverpool Cotton.

**LIVERPOOL, March 28.**—Cotton spot, fair business done; prices firm. Good middling 16.85; middling 15.87; low middling 14.82; good ordinary 13.87; ordinary 12.87; including 3700 American.  
 Receipts 8,000 bales, including 7,900 American.

## GRAIN AND PRODUCE

By Associated Press.  
**CHICAGO, March 28.**—Some weakness developed in the corn market today owing to larger receipts here and the world that Argentine exports included a considerable quantity to the United States. Opening prices, which varied from unchanged figures to 1 1/2¢ lower with May \$1.47 1/2 to \$1.48 and July \$1.26 to \$1.27 were followed by a moderate general setback with subsequent upturns not well maintained.  
 Oats sympathized with the fluctuations in corn. After opening unchanged to 1/2¢ off, with May 64 1/2 to 64 3/4¢ prices continued to sag except for brief intervals.  
 A purchase of 200,000 bushels of Argentine corn for April shipment at \$1.35 at New York led afterwards to pronounced declines. The close was nervous, two to three lower with May \$1.45 1/2 to \$1.45 3/4 and July \$1.34 1/2 to \$1.34 3/4.  
 In the late dealings provisions gave way owing to the descent of corn.  
 Higher quotations on hogs gave firmness to provisions.

## NEW YORK STOCKS

By Associated Press.  
**NEW YORK, March 28.**—Stocks were active and strong at the opening of today's session, further buying for both accounts resulting from the more encouraging trend of international events. Motors, oils, leathers and tobaccos led the advance at gains of one to two points and a better tone was manifested by rails, Canadian Pacific rising 2 1/2 points on publication of the company's very favorable annual report. Shippers and steels were freely absorbed and the special group was featured by Industrial Alcohol at a gain of four points.  
 The six per cent call money rate exerted no effect on prices but probably accounted for the reduced dealings of the mid-session. Various specialties accompanied the further rise in steels and shippings at gains of one to three points.  
 Steels, coppers and motors mounted to highest quotations in the final hour, rails also improving. The closing was strong.  
 Liberty bonds final prices today: 3 1/2's 99.06; first 4's 94.40; second 4's 92.66; first 4 1/2's 94.48; second 4 1/2's 93.64; third 4 1/2's 95.18 1/2; fourth 4 1/2's 93.68.

## WICHITA STOCKS

By Associated Press.  
**WICHITA, March 28.**—Stocks were active and strong at the opening of today's session, further buying for both accounts resulting from the more encouraging trend of international events. Motors, oils, leathers and tobaccos led the advance at gains of one to two points and a better tone was manifested by rails, Canadian Pacific rising 2 1/2 points on publication of the company's very favorable annual report. Shippers and steels were freely absorbed and the special group was featured by Industrial Alcohol at a gain of four points.  
 The six per cent call money rate exerted no effect on prices but probably accounted for the reduced dealings of the mid-session. Various specialties accompanied the further rise in steels and shippings at gains of one to three points.  
 Steels, coppers and motors mounted to highest quotations in the final hour, rails also improving. The closing was strong.

# OIL DEVELOPMENT

## ENGLAND TO ENTER THE OIL BUSINESS ON A LARGE SCALE

HAS PROFITED BY THE COSTLY EXPERIENCE INCIDENT TO CONDUCT OF WAR.

HAS ADOPTED A POLICY

Will Create a Permanent Ministry to Develop This Important Industry.

LONDON, March 27.—The British government is going into the oil business. Profiting by the costly experience of the war, when it was compelled to send enormous sums to other countries in payment for petroleum and petroleum products, it has adopted a clearly defined oil policy, and is already credited with financially backing what is expected here to develop into the most powerful oil producing, refining and transporting enterprise in the history of the industry.

Stories concerning the government's policy have been in circulation on a number of occasions and recently were revived by reports that the Royal Dutch Shell oil interests were about to take control of the Mexican Eagle Oil Co., an important member of the Lord Cowdray group.

To Create Ministry. The government's first important move, it was stated by authorities here, will be the creation of a permanent ministry from the machinery which looked after the empire's oil interests during the war. This machinery will be charged with the task of acting as petroleum adviser for all departments, including the army and what is more important, the navy.

It will have control over concessions for the development of possible oil territory within the empire and will advise and assist British companies or individuals in obtaining concessions and leases in foreign countries. The importance of the ministry will be better understood when it is realized that a large part of the undeveloped oil territory of the world lies under British dominion and according to British law, the capital of every oil company operating in British territory must be not less than 50 per cent British owned and all the control must be in the hands of the British citizens.

Combination of interests. The next move in the development of this policy, it is asserted, is the combination under the protection of the most important oil companies operating in British and neutral countries, if they are wholly or partly British owned.

These include such concerns as the Royal Dutch, the Shell and the Lord Cowdray interests.

It recently became known that the British government was buying the holdings of British citizens in the Royal Dutch, the ownership of which was then considered to be 69 per cent Dutch and 31 per cent British. Accompanying these statements were equally interesting stories concerning the Shell Transport and Trading Co.'s securities, whose ownership was closely allied to that of the Royal Dutch.

This Royal Dutch Shell group controls immense productions in many lands including many properties in the Oklahoma, Kansas, Texas, California and Wyoming fields and has a foreign field and has taken note of all that is going on in the oil fields.

Marriage Licenses. Marriage licenses have been issued as follows at the county clerk's office: Gilmer A. Norman and Miss Beulah Cosby.

## WELL BLOWS IN AND GAS CAUGHT ON FIRE

Special to The Times. DEVOL, OKLA., March 28.—The Burk well of the Dawboll Southern Oil Company, on section 3-28-10-w. 15v. miles northeast of Walters, blew in Tuesday night and caught fire. Drillers were pulling out tools preparatory to beginning when the well blew in and the fire was started. All workmen escaped injury. The well is estimated to be making about 40,000,000 cubic feet of gas and 100 barrels of oil from a depth of 2,140 feet. The blow was plainly visible for a distance of 20 miles and the court-side turned out to view the spectacle.

## RIVERDALE COMPANY BEGINS A NEW WELL

By Associated Press. DEVOL, OKLA., March 28.—The Rig of the Riverdale Co., W-32-45-14, was skidded to its new location some 200 feet south of the old well, and spudding it began Wednesday morning. If the drilling continues as rapidly as was the drawing of the casing and changing of location, it will be completed in a month, as Mr. Gannaway, the driller, believes will be true.

## WORK OF DRILLING IN THE BURK-BRIDGE IS NOW WELL UNDER WAY

Drilling through the 27 foot of small rotary hole, which the casing was set above, is now in progress, according to reports from the Burk-Bridge well. The well is being cleaned out with the star rig, and according to officials of the company, should be drilled in within a short time.

## SOME INTERESTING DEVELOPMENTS IN RANGER TERRITORY

### Special to The Times. EASTLAND, TEX., March 28.—

There have been some interesting developments in the northern part of the Duke and Knowles territory. The L. C. Odel well of the Magnolia Petroleum Company, just over the line in Eastland county, has made one flow from a sand at 2,650 feet. It has been shut in to move the boiler back and likely will be drilled in today.

The Stockton No. 1 of the Plains Oil & Gas Co., two miles southwest of the Duke, now does not show much encouragement. Some days ago it had a showing of oil and gas at about the Duke level but has passed that up and now is drilling in black slate at 2,850 feet.

A tremendous gas pressure has developed in the Colony School well of Polsome and Sheffer, southwest of the Duke, and the well is making about 60 barrels of oil daily as it stands. The heavy gas encountered in that section is no longer regarded as discouraging, as most of the wells there by drill themselves into good production. This well is just north of the Norwood and Connelley wells.

In the Ranger district the Lydia Hoffman No. 1 of the Texas and Pacific Coal and Oil Co. is flowing 100 barrels following a shot of nitro at 3,300 feet.

## IMPLY? WELL, DON'T BELIEVE IT. DRIVE THEM OFF WITH DR. EDWARDS' OLIVE TABLETS

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights. Cleanse the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the successful substitute for calomet; there's never any sickness or pain after taking them. Dr. Edwards' Olive Tablets do that which calomet does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cured with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowels complaints, and Olive Tablets are the immensely effective remedy. Take one or two nights a week. See how much better you feel and 10c and 25c per box. All druggists.

### OIL INDUSTRY WILL CULTIVATE SPIRIT INSPIRED BY WAR

SUCH IS DECLARATION OF PRESIDENT BEDFORD OF PETROLEUM LEAGUE.

#### SESSION OF CONGRESS ENDS

Co-Operation Was Key-Note of Meeting of Refiners at Chicago This Week.

By Associated Press. CHICAGO, March 28.—The new spirit of understanding born of the war would continue within the oil industry in peace time, A. C. Bedford, head of the Standard Oil company of New Jersey, declared last night at the closing session of the National Petroleum Congress.

It was to keep the industry out of government hands and continue the policy of the war committee, he said, that the American Petroleum Institute had been formed at the convention here. The institute, he declared, would be not only the family council of the industry, but would be its representative and spokesman in national affairs.

But for American oil, Verdun could not have been saved, and the same commodity kept the British navy on the alert, Mr. Bedford said. He said that he had been moved, Mr. Bedford said, in discussing petroleum's part in winning the war.

But with war work over and with internal questions to be settled with the oil industry, the Petroleum Institute was a necessity, he declared, said he believed we have progressed beyond the point where individual success is assured in the industry.

Close co-operation of the government and the oil industry—but not government ownership—and of both capital and government with labor, was urged by Mark L. Regan, who is retiring as director of the oil division of the fuel administration.

"Governmental ownership of everything in general is proposed as the infallible panacea for our alleged national ills. Such action will not benefit humanity but will destroy the reward of individual efforts," he declared.

Individual initiative is our most priceless national characteristic, and I can not view with patience the proposals and efforts that are being made to suppress, discourage or handicap it.

The American Petroleum League re-elected its old officers, headed by President C. L. McGuire of St. Paul, Minn.

The Congress closed last night with a banquet and ball.

All of these men are now in the city, and have filed their articles of association for the company. They are also making arrangements to drill immediately on town lot property, which they hold at Burk-burnett, in block 31, the well being contracted to be completed in 30 days' time, it is stated.

### CALLS ATTENTION TO DEPRECIATION OF LIBERTY BONDS

By Associated Press. NEW YORK, March 28.—United States Senator William M. Calder of New York announced here today he had written a letter to Secretary of the Treasury Glass calling attention to depreciation of recent issues of Liberty bonds and urging the secretary to cable President Wilson advising that a special session of congress be called at once so that the situation might be remedied. Senator Calder expressed the opinion that unless this was done it would be impossible to obtain popular subscriptions to the forthcoming loan, thus necessitating the taking of bonds by banks.

### TROUBLE OUSTING FORMER GERMAN IMPERIAL REGIME

By Associated Press. BERLIN, Thursday, March 27.—That the new Prussian government is vigorously attacking the problem of ousting the members of the imperial regime from important posts in the provincial administration was indicated today by the appointment of Herr Phillius, of Breslau as first president of Silesia and Herr Poller of Kiel, as head of the administration of Schleswig-Holstein. Both men are majority socialists.

# The Safety First Oil & Gas Company

OFFERS YOU AN INVESTMENT THAT IS ALL THE NAME IMPLIES—

## Our Holdings Are in the DeLeon and Petrolia Fields

Petrolia, according to the best obtainable reports, produced in 1918 nearly four million barrels of crude, and over 75,000 barrels of Casing Head Gasoline.

Petrolia field has something like 700 producing wells and room for 10,000 more. You know what DeLeon is. Our land there has production on three sides and BIG production. Our Company is organized on the safety-first plan, and we feel sure of oil.

It only costs you \$10 per share, and one share gives you the same voting power that ten thousand shares would give—only one vote to the man.

Our Company is a joint stock company with the view of incorporating under Texas laws. Only 20 per cent goes for stock selling and leases are put in at actual cost. We own 160 acres, in three different locations. We GUARANTEE that 75 per cent of the production will go as dividends, 25 per cent for the further development of our leases.

We will send you a map showing exact location of our leases, but it will cost you one dollar and fifty cents, on account of the idle inquiries.

## We Accept Liberty Bonds at the Market Value Only

Our DeLEON land is located 2 1/2 miles West of the town. Our PETROLIA property is three miles Northwest of Petrolia, with production and drilling on three sides, and our property East of Petrolia has production on the East and West, and close up to deep test.

# EVERY ONE CAN'T LIVE ON THE HILL!

This being the case, then what difference does it make which side of the river you live upon providing the river is properly bridged?

We told you that the best Bridge West of Fort Worth was on Burnett Street, and that Scotland Addition was higher in elevation than the business center of Wichita Falls, and that it was above overflows and high waters.

IF WE CAN'T PROVE THIS STATEMENT BY COMPETENT ENGINEERS WE WILL MAKE YOU A PRESENT OF A LOT

We have shown you that this Addition is close-in, and that lots are cheaper than they are several miles out in other Additions.

We have offered you choice resident lots cheap, on easy payments close to the business center of the fastest growing City in Texas. These beautiful lots are between the business center and fifteen Refineries, Railroad Shops and other factories on the North Side.

They also adjoin the beautiful Natural Park of 42 acres covered with large timber which we donated to the City, and which they contract and agree to maintain. This Park is just 3 blocks from the bridge.

### DON'T BLAME US

if you wake up some of these mornings and find all of these lots sold and advanced double what we are now asking.

We told you that these lots would sell fast and build up rapidly. The sales already made bear out this statement.

The purchasers are not all people of moderate means either, as we have sold several men lots that are worth from \$100,000 to \$300,000. This goes to prove that there will be some good houses constructed on the property either for homes or as an investment.

We told you that we would run two miles of six-inch water mains through this property. This will be done as soon as we can have the pipe shipped. If you are skeptical about this statement, look up the Directors of this Company and see if they are not men who always do what they promise. The other conveniences will naturally follow the building of houses.

### FACTORY LOCATIONS

We have in this Addition a few of the choicest locations to be found in the City for Factories along the Fort Worth and Denver Railway. Our prices and terms are reasonable and no site will be much over one mile from Union Station. See us at once for best location in City.

### SCOTLAND ADDITION

has got to build up. It is too close in not to be utilized. Don't confuse yourself with any propoganda that is being circulated that this property has been on the market for years and wouldn't move. Since the bridge washed out in 1915 we have not attempted or tried to sell a lot until now.

Don't pass judgment on this property until you have stood in the middle of the Addition and sized it up from every standpoint, and we know that you will be agreeably surprised like all the rest of our many purchasers who number over one hundred.

The Prices and the Terms Should Please You. All Inside Lots \$400 All Corners \$500

Terms—One-third Cash, Balance on or before 6, 12, 18, and 24 Months with 8% Interest. 5% Discount for All Cash

Remember, any Agent in the City can show you these lots, and you should immediately get in touch with your Agent and have him drive you over the Addition and show you the unsold lots.

### FIRE ORDINANCE IS AMENDED TO LOCATE EXPENSE OF NEGLIGENCE

MEASURE IS SUBMITTED AT SUGGESTION OF STATE FIRE INSPECTOR.

### TENT QUESTION DISCUSSED

Ordinance Repealed and Erection of Tents Permitted Anywhere in City.

On the recommendation of the State Fire Insurance Commission, the city council last night passed a drastic amendment to the fire ordinance which will make property owners financially responsible for all expense incurred in fighting fires resulting from the owners' negligence.

In addition to the other remedies and penalties herein provided, if a fire is caused directly or indirectly from any omission or neglect to comply properly with the order of the fire marshal, as provided in this ordinance, the person or persons or the company or companies culpable or negligent in respect thereto shall be liable in a civil action for the payment of all costs and expenses of the fire department incurred in and about the use of firemen, apparatus and materials in the extinguishment of any fire resulting from such cause.

Inspector Baker pointed out to the council that an expense of \$25 is incurred every time the fire department makes a run, even if in answer to a false alarm, and he stated that statistics have proven that wherever such an amendment as suggested has been incorporated into any city's fire ordinance, the following year has always shown a decrease in the number of fires.

Discussed at Length.

More than an hour was consumed by the council last night in serious discussion of the ordinance, repealed recently, that prohibited the erection of tents within the fire limits. The men of this city are fighting the repeal of this ordinance, one legal action already has been started against the city, and the matter is being agitated somewhat heatedly by men and women interested in the question. Styles O'Reilly appeared before the council in defense of the Palm Garden tent amusement enterprise. C. A. Coglizer, owner of the Restwell hotel,

Mrs. W. W. Silk, who has been actively connected with the Y. W. C. A representative of the Moore-Kille Co. of Tulsa, Okla., requested aid from the council in obtaining a site on which to erect a five-room cut-over house, to be used as part of an advertising campaign planned by the company. It was stated that the Tulsa firm has already ordered 250 of these houses to be sold in Wichita Falls. The council voted to give the aid requested.

### FOREIGNERS MUST BE PROTECTED SAYS HUNGARIAN ORDER

By Associated Press.

COPENHAGEN, March 27.—Emissaries of the Hungarian governing council handed their credentials to the president of the German-Austrian national assembly at Vienna yesterday according to a Budapest dispatch received here. Hopes for the continuance of amiable relations between Hungary and German Austria were mutually expressed. It is said. The dispatch states that the revolutionary government has ordered entente flags hoisted on the hotel where the Entente missions have been stopping and that posters will soon be issued warning the people to respect all foreigners in Budapest.

### THE THRIFT HABIT

Twenty million individuals own Liberty Bonds.

Twenty millions, very nearly, have a snug sum invested in Thrift Stamps and Baby Bonds.

The Thrift Habit is one of the great benefits of the war. The war has taught us to save. Let's hold on to the habit. It is today a great National asset.

Thrift ought to be taught in the schools. Thrift in saving money. Thrift in saving food.

Twenty years ago ice was regarded as a luxury. Folks who took ice every day were deemed very extravagant. Today the thoughtful housewife knows that her good refrigerator and our pure ice save ten times their cost every month.

Start the ice taking NOW. The warm days of Spring require the icy coolness or those perishable dainties will lose their freshness and flavor.

Don't stop saving food. The sure way to do that is to take ICE regularly.

### GERMAN EXPORT OF GERMAN EXPORT OF IS NOW PERMITTED

By Associated Press.  
 PARIS, Thursday, March 27.—The German delegation of financiers which is now at Spa is expected to arrive soon in Paris, on invitation from the supreme council to consider questions relative to the securities Germany has to offer in payment for food. Germany has increased her deposit of gold at Brussels, as a partial payment for relief supplies and the first cargoes are expected to arrive at Hamburg tomorrow. Neutrals have also been invited to send financial representatives to confer with delegates to the peace conference regarding German securities sold in their countries which might be applied to payments for food.

It is understood that an agreement was reached at Brussels on March 11 by which Germany was permitted to export certain classes of goods in order to pay for food supplies and that this agreement now becomes effective.

The embargo on war munitions, gold, silver and securities will be maintained but Germany may export such materials as coal, dyes, various iron and steel manufactures, sugar, window-glass, electrical machinery and other articles. Any of the Allied governments may purchase these products and their representatives are expected to proceed at once to Cologne to arrange details as to prices. Purchases by the Allies are not to exceed two-thirds of the surplus of any of these products which Germany has for sale. The other third may be exported as Germany may see fit.

### JAPS ASK EXTENT OF THE AGREEMENT WITH UNITED STATES

By Associated Press.  
 TOKYO, Feb. 27.—In the House of Peers today a member presented an interpellation regarding the terms and the period of enforcement of the "gentleman's agreement" concluded in 1907 between Japan and the United States and asked whether the said agreement was intended to be kept in force forever. He stated that he had heard that the regulation of emigration was enforced more strictly by the Japanese authorities than by the Americans. He wanted to know the reason why Japanese are being subjected to such regulations while the Mexicans and Filipinos are freely admitted to America.

M. Shidehara, vice minister of foreign affairs, replied that the so-called "gentleman's agreement" did not exist. There was a voluntary declaration made by Japan for regulating the influx of Japanese to America. It means that no Japanese may emigrate but that those who are already in America are free to call their families from Japan. The imperial government is bound to live up to its declaration, he said. Many a time anti-Japanese laws are understood to have been brought before American legislatures but owing to, and in appreciation of, Japan's efforts all anti-Japanese measures have failed to pass. The said declaration will be kept in force for some time yet; it may be abolished when the Japanese emigrants convince the American authorities that their presence is no cause of danger to American institutions.

### COMMISSION HAS NOT DELAYED WORK SAYS PRESIDENT

By Associated Press.  
 PARIS, March 28.—President Wilson has issued the following statement: "In view of the very surprising impression which seems to exist in some quarters that it is the discussions of the commission of the league of nations that are delaying the final formation of peace, I am very glad to take the opportunity of reporting that the conclusions of this commission were the first to be laid before the plenary conference.

"They were reported on February 14, and the world has had a full month in which to discuss every feature of the draft covenant then submitted.

"During the last few days, the commission has been engaged in an effort to take advantage of the criticisms which the publication of the covenant has fortunately drawn out. A committee of the commission has also had the advantage of a conference with representatives of the neutral states who are evidencing a very deep interest and a practically unanimous desire to align themselves with the league.

"The revised covenant is now practically finished. It is in the hands of a committee for the final process of drafting and will almost immediately be presented a second time to the public.

"The conferences of the commission have invariably been held at times when they could not interfere with the consultation of those who have undertaken to formulate the general conclusions of the conference with regard to the many other complicated problems of peace. So that the members of the commission congratulate themselves on the fact that no part of their conference has ever interposed any form of delay."

### FINDS THE GERMANS HAD METHODICALLY DESTROYED PROPERTY

PARIS, March 27.—The senate considered today the report of a commission which was sent to investigate conditions in portions of France which were occupied by the Germans during the war. M. Reynolds, reporting for the commission, said that the Germans methodically destroyed property and that many German officers brought their wives to the occupied regions to help them carry away goods taken from French homes.

### DEPLORES FACT THAT GOD IS NOT MENTIONED IN LEAGUE COVENANT

By Associated Press.  
 CANTON, O., March 28.—That God has not been mentioned or recognized in the covenant of the league of nations was deplored by Marion Lawrence of Chicago, general secretary of the International Sunday School Association in an address here last night before Sunday school victory reconstruction campaign workers.

"The league of nations can never exist without the united co-operation of the church and the church will never be in a position to give such co-operation until it is made as one by organizing under separate flags but fighting under one commander, as did the Allied armies," Mr. Lawrence said.

"No nation ever stood that did not recognize God. God is declared as the Supreme Being in the Declaration of Independence, in Lincoln's Gettysburg address, and has been recognized as such by each of our presidents. In the darkest days of the Civil War it was decided to have engraved on the silver dollar 'In God we trust'."

Mr. Lawrence urged the necessity for a community program throughout America, declaring the Sunday school has lost one million members since the war, exclusive of the boys in the service.

**Chicago talks it over with Seattle**

"Good morning, Western friend! How do those shingle mills these days go? It's your good red cedar that covers so many housetops here. And your oriental trade? Is it looking up? Smoke an Owl, won't you?"

"Thanks," replied Seattle, "for the Owl—and other things. Thanks for your fine fresh meats. Thanks for your iron, your steel. And your railroads bring my ships many a fine cargo."

Great travelers, these two cigars, Owl and White Owl. Well known and well liked all over the old U.S.A. The reason? Mellow fragrance and new dependability. You'll find pleasure in the proving.

### GLAD TO TESTIFY Says Watoga Lady, "As To What Cardui Has Done For Me, So As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly... Sometimes would go a month or two, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. It... it would last... two weeks, and was so weakening, and my health was awful.

My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three... I gained, and was well and strong, and I owe it all to Cardui.

I am married now and have 3 children... I have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others."

If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years. Begin taking Cardui today. It may be the very medicine you need. NC-12

### DANZIG FIGURING LARGELY IN ISSUE OVER BOUNDARIES

GERMANY SEEKS TO RETAIN THIS COVETED OUTLET TO THE BALTIC.

POLAND DEMAND POSSESSION

Something of the Composition of the City Which is Noted for Its Architecture.

Special to The Times. WASHINGTON, D. C., March 28.—Danzig, which Prince Lichnowsky has just announced Germany will strive to retain, which Poland looks to as her coveted outlet to the Baltic, and which Polish leaders aver they will fight for, if need be, is the subject of a bulletin issued by the National Geographic Society.

"Picture a far north Venice, cut through with streams and canals, equipped also with a sort of irrigation system to flood the country for miles about, not for cultivation but for defense; a city of typical Philadelphia streets, only with those long rows of stoops made of stone and highly decorated, and jutting into the roadway instead of on the sidewalks, and you catch but a glimpse of the composite Danzig," the bulletin states.

City of Churches. "As a city of churches Danzig vies with Brooklyn. Its crooked, winding streets suggest those Boston thoroughfares of cowpath derivation; and were its grain warehouse more modern the visitor might believe himself in Minneapolis. Minneapolis, that is, until he heard their names—such names as Golden Pelican, Little Ship, Gray Goose and Milk Maid—then he might

look about for some popular resorts of New York's Greenwich Village. In no other German city is medieval architecture to be found in such variety and preservation as in Danzig. Conspicuous both in Polish and German history, Danzig was one of the four principal centers of the Hanseatic League, while not far up the Vistula is Marienburg, capital of the Teutonic order of Knights, which flourished in Danzig.

Large Protestant Edifice. "Physically, Danzig escaped many effects of the reformation. Even in her famous St. Mary's church, one of the largest Protestant edifices in the world, covering an area as great as the Cathedral of Notre Dame in Paris are to be found reliques and manuscripts, embroideries of Roman, Byzantine and Gothic designs, treasures in precious metals, staves and ivories and a noted collection of vestments. Among its art works is the famous "Last Judgment" of Hans Memling.

"In appearance almost as much like a fortress as a church, bringing to mind Luther's militant hymn, 'A Mighty Fortress is our God,' the church has been called 'one of the most German things in Germany.' In many ways it suggests the Prussian militaristic spirit. From the vaulting, for example, projects one of Napoleon's cannon balls.

Is Strongly Fortified. "But the Danzig visitor needs no indirect intimation of militarism. The city was one of the most strongly fortified places in the now shattered German empire. With Konigsberg, Thorn and Posen, Danzig helped form a mighty chain of fortifications. To the east and south of the city older fortresses are situated in recent years by a score of bastions. Along the Vistula, on which the city lies, to its mouth at Neufahrwasser, four miles away, are three lines of forts. In addition, three sides of the city could be inundated by the garrison.

"Streets are lined with ornate old houses of the Hanseatic period, crowned with high gables, often profusely ornamented. Balconies overhang the streets and, in spite of the impediment they offer to traffic, many of the elevated stone porches remain. Gargoyles grin from ancient walls. Vistas abound. There are many old water gates. One of these, the Hobe Tor, is fashioned after a Roman arch. Another, the Kran Thor, with each successive story projecting farther than the one below, looks like the leaning tower of Pisa.

Beginning Not Known. "Danzig's beginnings are not known. Poland, Denmark, Pomerania and Brandenburg held it at various early times. In the fourteenth century it came under the sway of the Teutonic Knights. Not long afterward it became one of the four centers of the Hanseatic league. With the decline of the league it allied itself with Poland, retaining most of its rights as a free city. It had a flag derived from the red and white emblem of the league, employing the red as a field upon which were three gold crowns, arranged vertically.

"Russians and Saxons took the city and the score or more neighboring villages it governed in 1734. When Poland was partitioned, four years before the American colonists signed the Declaration of Independence, Danzig was separated from Poland, and 21 years later Prussia gained possession of it. Again made a free city by Napoleon, it passed once more to Po-

land, then back to Prussia in 1814. "Danzig became the capital of West Prussia. Government and private docks were located there. Ship building and the making of munitions were introduced and amber, beer and liquors were other products. Granaries, built on an island, were erected when it was the principal grain shipping port for Poland and Silesia.

"Danzig is a little farther by rail northeast of Berlin, than Boston is from New York. Its population, in 1910, was about that of Columbus, Ohio.

### COFFEE THE STAFF OF LIFE

DURING the hacking struggle the French found Coffee the most sustaining stimulus food.

IT WAS the "staff of life" in the trenches, and the whole West Front where the Allies performed such immortal deeds to save Freedom and Civilization. Shells, poisons, and Coffee saved Verdun.

COFFEE is winning its way through the world as the benevolent autocrat of the breakfast table.

TO NOURISH, sustain, uphold the zest of life, the fighting edge, nothing approaches this favorite beverage, of the World's Greatest Brain Workers, from Napoleon, Balzac, Zola, to Joffre and Foch.

AS COFFEE comes in Alcohol goes out.

IT IS THE cheapest food product—at little over a cent a cup.

THE EVER increasing demand causes great improvement in culture and blends. The Coffee of tomorrow will be real ambrosia.

FRANCE is shaped like a Coffee pot and saved the World. It is a Symbol.
